Wed day

Dear Julia

I am sending you a letter I received from Malone, please return it, it may be the last one I will ever receive from him, we can never tell what may happen. We spent a delightful day with Joe yesterday such a dinner as she had, and good peach ice cream for desert. About five in the afternoon we had music. Laura Holcomb has a six pound girl baby. they say it is so tiny but well. Glen and May have little Glen. She is the best sweetest little thing I ever saw. She

goes around with a smile on her face, just like her mother.
Clanton's wife and four children are spending this month with Glen. She has a sweet fat baby ten months old, but cries all the time.
Pa wrote me she and the children were to go to Abi yesterday in the Auto. I do hope they got there safely. Negroes are holding up cars in this country.
I am not going to use that check, that money is yours. I appreciate your wanting me to have it.
I am glad you rented your place, are the Longstons still in the little house?
The Postman will soon be here so must close.
Best love to you all
Lovingly
Mama.
