We have been expecting William out here this fall but I reckon he will not come, from the way he wrote that he wanted us to come in and stay all winter we can not come this fall for I have been sick so much and making nothing and paying out all the time that it stands me in hand to make something now and save awhile I do not say I will but anything turns up right I will very likely come in next fall once in three years is as often as I can come yet I would be willing to come every year but my means will not admit it costs me a good deal to fix my family to go & then the trip costs a good deal but I intend to go as often as my means will admit while you & mother lives enjoyment is what I want not riches so much riches would not go amiss in this instance riches would go a great ways for if I had them we would see you every year but so it is.

Give My Respects to Riverius & America & all enquiring friends we Remain in

Dear Son

I Rec'd yours of the 12 I am sorry to hear of Jim's being unwell I am in hopes he has improved by this time. Your mother is about as she was when I last wrote. I cannot see any difference if she is any better it is only a little. She says thank you and takes out time with some of his words at a time. She yesterday asked me not to raise any more tobacco to raise corn Wheat & Barley. Tobacco won't do any longer She takes a notion in her chickens & ducks at times she is not half as bad at this time as she was two years I am some better my cold is better my feet is sore & the tibia with a cold I shall stay Lord in the winter they appear small also. I have to heat water and wash them at time make. The water strong with ashes

Armenia & Thomas is well I Rec'd a letter from A M Norwood an Attorney at Law he was here on the first day of this month and has been. I have been weaker back he is in mighty good condition will make a first rate work horse if managed right. He had a piece of cabbage on Saturday evening & he not knowing what gave it to him with out I let him drink too much water at dinner & supper not work him any time any time I rode this evening. I bought a cabbage which is a great treat & expect I got a good long ear in him. The boy Moses Lacy he is 14 years old. He does not look to be that old and if it was not for his face he is that old. I give 30 dollars for him she can do all my simple

blowing. My corn has come up very bad and indeed there is but little up. The prospect is very bad for a crops heare & will have no tobacco with out rain in a few days. it looks like rain to day. I think if your Court commond on next monday if you come down heare and go up from heare to Charlestown you can ride back. I do not know but I can do with out him Ellen Tucker wants to know if the depositions that was to be put at Edenton in her case and Wilsons will have to be taken over and if so if there will be time to do it and if you can not attend to it let him know so he had best get in May side to attend to it.

if you have not time to write much write if it is but a few lines so I can hear how you make it & will see you. see the time unless I know she is getting better & am very sorrad to hear of Virginia Eyes being sore. I will hope they will get well. I have no news of intrest only Mr. Mary Monroe Johns has gon deranged at times worse than your mother. The Lees in East Carolina with Lemans. They expect to send Mat to Lexington soon.

I will write every week until I see you. I remain your

Dear Father,

I receive your letter, by last mail, I was glad to hear from you, and especially to hear that Mother was improving.

We are all now well, Pamelia, & Virginia have both improved.

I have been trying to buy a horse for you. It is a very difficult matter to find one that suits - that can be purchased at any price. I was looking at a mare this morning, she is 11 or 12 years old, but is a fast rate, gentle worker. She is in this order and) with foal. I believe she would answer you well. The man asked me $160, I thought it too much, & offered him $150, which he refused to take. I met Isaac Sims a few moments ago, to see if he had not traded, but he had gone out & will not be at home until Saturday. I believe if I can do no better by Monday I will buy her. We put her in a sled this morning and she worked finely with a single line. I thought if I bought her it would be better to send her by the Locks, than by Rail. as the Rail boy rides hard, and as she is in foal it might hurt her. I am satisfied she will be able notwithstanding she is in foal to do you work. I have just this moment concluded that I will stay & you & go down to the mouth of the Cut next Monday night, and I will send the one I have spoken of if I find no other. Some person must be there

When the boat comes, if it would be inconvenient for you to remain, get some one there to take the horse & buck for you until you can possibly send for her. This will probably be the last. I will pay the charges on her here.

I have no news.

We have a good deal of talk about who shall be our judge. I think it probable that E. H. Dulin of this place will be a candidate. He is the decided choice of Grant, would run well in his old County of Fleming. He is well qualified. and would make a good judge, I am for him over all opposition.

She did not consent to run under any circumstances until within a few days.

I am very busy

Yours affectionately

W. C. Adams

P. S. I have heard nothing from Iowa.

Dear Son

your mother mina is worse and I believe gits worse every day. I am fearfull she will become ill natured. She is quite ill at times. She does not destroy enny thing as yet. She has been in a good humor all day and is generally in a good humor. She thinks nearly every body is dead. Kild and burnt up and some buried in the snow. She has not attempt. to hurt enny of us as yet and I am in hopes she will get that bad, though there is no telling what it will come to. I have very little hopes of her getting better soon. Worm wheather if ever. She does. She looks Bad and is getting poorer all the time. I have given her situation as near as I can to you. and will continue every week.

Armenia is Ravenous as well as usual. I have suffered in my limbs a good deal in the last three or four weeks. I am to day some better. I expected to hear from you by this morning mail but no letter come. I had an last Wensday mail. this night week. a long letter from S. M. Norwood all was well and had been. I wrote to him and the 23rd of Day. after you left. I have. and got it and answered it the quickest I ever went. and come. I beg this letter he has not want to leave Iowa. he has several places picked out for me in the prairies three or four miles from wood the same distance from town and enny body. Very desirable places for a man
