RIDERS' WANTS A SPECIALTY

No. 555

### The Queen of the West

This distinctive and attractive saddle is an artistic production—a creation of beauty. The carving is done in the most masterly style—the animals are so life-like that they appear real. The workmanship is that of a master artisan.

The Sterling Silver is all hand made and engraved. Please note the Silver Cheyenne roll cantle—this is the only one of its kind so far made—Gold monogram on horn, on fork, and stirrups. Made on Special tree with Special Mexican horn.

To see this saddle is to love it—all admire it—it pleases the eyes and gladdens the heart.

Weight 35 lbs.

Price \$3000.00

We specialize in silver mounted saddles—Write us your requirements—No two alike—All custom made.

No. 500-X

Here is the very latest creation in the way of a show saddle. The mountings are a new development in mirror metal, with the Texas Star etched on the mountings. These mountings will not rust or tarnish, and will require no polishing. The saddle as illustrated has a two tone finish which brings out the beautiful carving and scroll designs. Weight 35 lbs.

The price of the saddle as illustrated is \$650.00. The bridle and breast collar to match \$100.00 additional.

No. 600-X

This beautifully designed saddle also is mounted with mirror metal. The design is and the carving is unexcelled. You can well afford this saddle inasmuch as the cost lower than a silver mounted saddle of the same style.

The saddle as shown is \$500.00, and a bridle and breast collar to match would be \$100.

## Belts and Holsters

MANY TIMES GETTING "THE DROP"  
 NOT ONLY SAVES ONE'S OWN LIFE BUT IT  
 PREVENTS TAKING ANOTHER'S—NOTHING  
 CONTRIBUTES MORE TO THIS END THAN  
 HAVING A HOLSTER WHICH SWINGS  
 RIGHT AND RELEASES THE GUN AT THE  
 PROPER TIME. OUR SCABBARDS ARE MAR-  
 VELS IN THIS RESPECT.

No. 66-B

This is one of those distinguished Air Foam quilted seats, made on the Myres' Light Roping tree, 14" fork, 3" cantle,  $2\frac{1}{2}$ " horn head and the seat from  $13\frac{1}{2}$ " to  $14\frac{1}{2}$ ". This saddle can be made with round skirts at the same price - we will especially call attention to the Air Foam quilted seat, which qualifies this saddle as one of the best for ladies use. The quilted seat is installed on the other seat in such a way that in case it wears out a leather seat remains and a new seat can be installed at will. These quilted seats have proven their worth by the constant increase in the past years - ~~they have a well riding and are made good.~~ This saddle is well suited for all light riding purposes, it has splendid tree, fine material and the best of mechanical work and carved in artistic designs.

PRICE \$190.00 - WEIGHT 28 lbs.

No 74-B

THE ABOVE SADDLE IS A FAVORITE OF BOTH MEN AND WOMEN. THE SAME HIGH QUALITY OF WORKMANSHIP AND MATERIALS IS USED IN THIS SADDLE AS IS USED IN THE HIGHER PRICED ONES. IT IS SO DESIGNED AND MADE TO GIVE THE RIDER MANY YEARS OF EASY COMFORTABLE RIDING IN BOTH WORK AND PLAY.

THE TREE COMES IN SIZES OF  $13\frac{1}{2}$  TO 15". THE CANTLE IS 3", THE FORK 14". IT IS EQUIPT WITH #21 FLANK CINCH, #21 LATIGO, AND #7 STIRRUPS

6

This is a companion saddle of #500-X, made on the same tree, but with different shape skirts and with different style of carving - the same specifications apply to this saddle as to the other, either of these saddles should be seen to be appreciated, as they are distinct in looks as well as in riding value - it is a pleasure to recommend this saddle, as it will meet your fullest expectation, ~~not only in looks, riding value, but in service~~ - it expresses the highest mechanical workmanship and the best quality in material. The artistic stamping will appeal to the most exacting.

The price of this saddle is \$500.00, Breast Collar and Bridle to match this saddle would be worth \$90.00.

No. 300-X

This unusual saddle will appeal to those who want something distinct, something that is in its class to himself not only in looks, but in riding value. The fine carving on this saddle is the handiwork of the master - it is finished in two tone effect which brings out the beauty and distinctiveness of the carving. This saddle is made on the Myres Light Ropping Tree with 14" fork, 3" cantle and  $2\frac{1}{2}$ " horn either on  $13\frac{1}{2}$ ", 14" or  $14\frac{1}{2}$ " tree - it is especially designed for ladies use and for such it has no equal. The Air Foam quilted Seat is one of the outstanding contributions for riding purpose - this seat ~~was~~ originated forty years ago and it has proven its worth with a constantly increasing demand. This seat can be used on any saddle illustrated in catalog not showing the same by the additional cost of installation.

PRICE \$350.00. Breast Collar and Bridle to match  
this saddle \$60.00.

(12)

THE QUARTER HORSE ROPER

The Quarter Horse saddles are something entirely in saddle making. Many months ago some of the top ropers got together and designed the tree from the ground up. They are especially designed for Quarter Horses, and have extra wide side bars in the rear under the cantle. The gullet is extra wide - in fact, the entire tree is so designed and made to fit the BROAD SHOULDERED, SHORT COUPLED QUARTER HORSES of today.

The fork is about 8" high from the floor, with a  $6\frac{1}{2}$ " gullett; the width of the fork is  $13\frac{1}{2}$ ", the cantle 2". Tree can be had in any seat lengths.

**LOW DOWN ROPER—LARGE 3" STERLING HORN**

The quality and finish on this saddle is a high expression of the saddle making art. This tree has many admirers and is especially designed for roping purposes—it is ideal tree for easy riding.

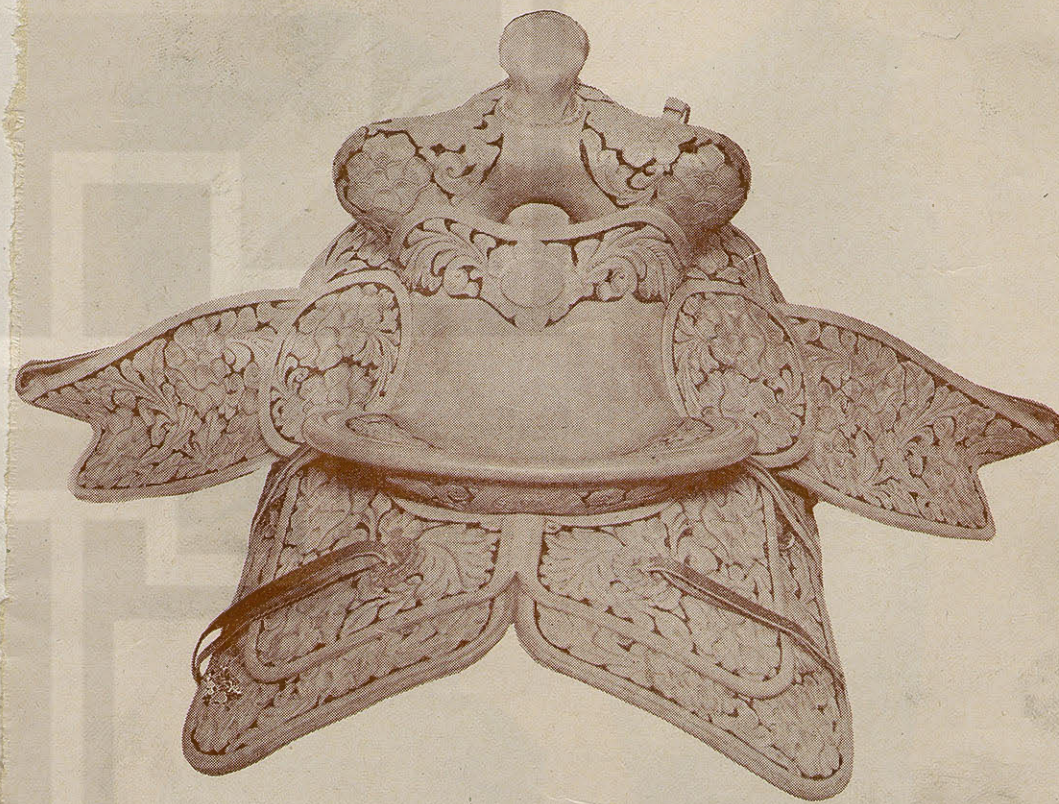

The quality of material and workmanship is the very best, the floral carving is distinct and artistic, finished with brass rings, Angora front cinch and leather flank cinch and with full leather covered stirrups. We can recommend this saddle in the strongest way.

This saddle is made on 14" tree with 13" fork. Larger or smaller tree can be used.

**"MYRES RANCHO TREE"—KOMFORT KANTLE**

This saddle is made on the Ranchero tree—a new creation in trees. It possesses the greatest characteristics that have been added to tree-making in years. It has a wide concave 3" cantle which is ideal for large riders and the cantle is so shaped that it conforms to the contour of the user. This saddle is made in a 13" to 14½" seat, depending on the size of the user. It carries a 14" fork and 2½" horn head. The fork or seat can be changed to suit the user. Also, a Mexican horn can be used.

This saddle is beautifully carved and made with Arizona fenders, round skirts can be used when wanted. It is fitted with No. 17 stirrups carved to match the saddle—1¾" long chrome latigo and 2¼" short latigo—carved No. 21 flank cinch carve, brass ring—Angora cinch.

**LOW DOWN ROPER—LARGE 3½" MEXICAN HORN**

This saddle is built on a Low Down Roper tree with 3½" Mexican horn. The saddle is designed and made strictly for all practical ranch purposes and it is especially adapted for roping. We have placed a number of these saddles, and without exception with the most favorable results. It is a pleasure to recommend this tree and also the saddle. The same is beautifully carved in artistic designs by master carvers. The workmanship is outstanding. All material is of the highest quality.

The saddle can be made with round skirts when so desired and other changes will be made to suit the rider. It is made regularly on a 14-inch tree with 13-inch fork—either a larger tree or larger swell can be had.

It is furnished with No. 21 flank cinch, 2¼" short latigo and 1¾" long latigo and No. 17 stirrups.

For over fifty years, we have been making saddles for the best riders of the West from whom the practical and outstanding points of saddle making have been learned. This has been skillfully incorporated in our saddles.

**MYRES ROPER**

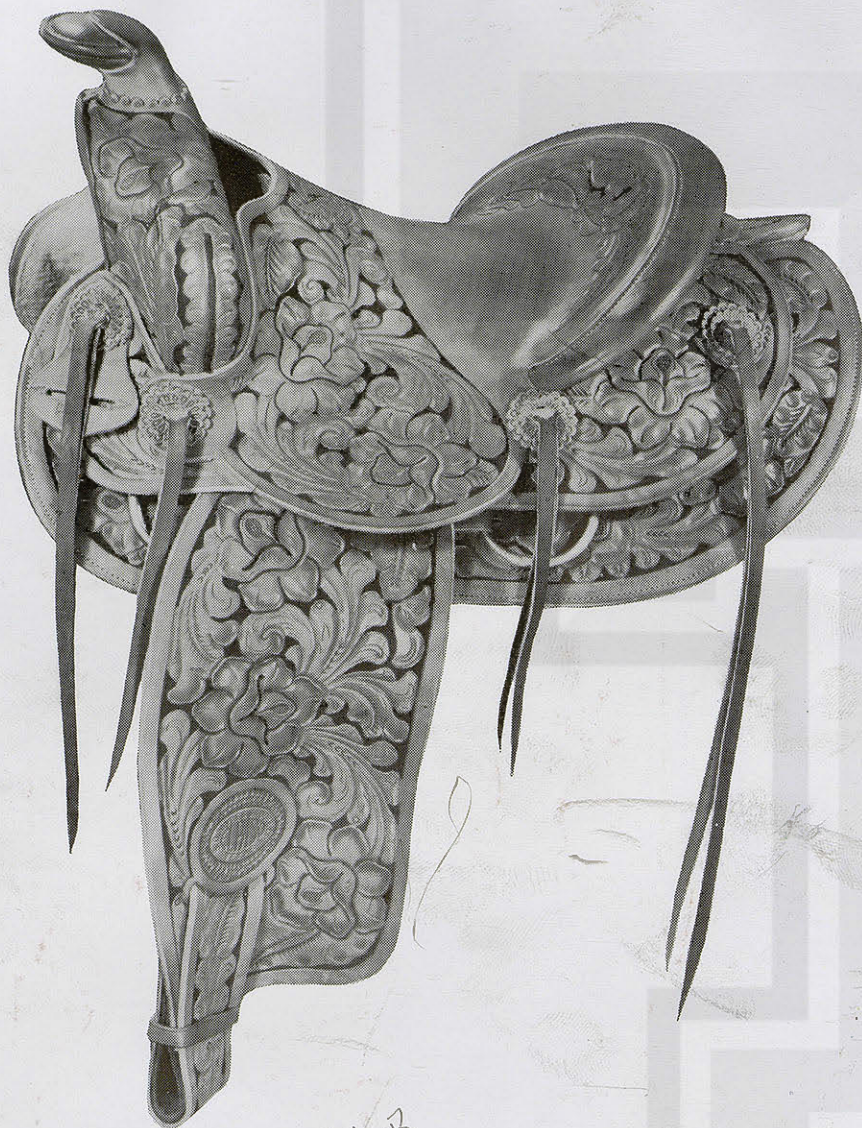

This saddle is made on the "Myres Roping Tree" with 14" seat, and a 12" fork. The cantle is 2½" with Cheyenne roll. The picture shows this to be a rawhide braided horn, but in ordering, would suggest a regular horn instead. The skirts are 28"x14", lined with bark-tanned wool skin. 3" stirrup leathers, doubled at points. Angora front cinch, and No. 21 flank cinch. No. 15 stirrups 1½" to 3" in width. A longer or shorter tree can be used.

This saddle is designed and made strictly for a "roping saddle," and as such, it is without equal. If you are looking for a saddle that can "take it," you need look no further.

If desired this saddle can be made with round skirts and one piece fenders.

No. 50-X

This light roping tree is made with rope border stamp for those who want a smooth saddle. It is shown with a  $\frac{3}{4}$ " double rig. Notice the contour skirts and fenders. The tree is a Myres light roper, but is built for the heaviest work. We have many riding academies, and dude ranches who are using this saddle, and say that it is most economical saddle they have ever used.

SPECIFICATIONS:—Myres light roper tree—heavy raw hide covered, 14" swell, 3" cantle, 13½" to 15" seat. Rigging  $\frac{3}{4}$ " double as shown, but a  $\frac{1}{2}$ " can be had upon request. Fenders are Texas ranch style shaped to the contour of the leg when riding, 8½" wide with 3" stirrup leathers. Weight 27 lbs. Price equipped with cinches, latigos, flank cinch, etc. \$155.00

# MAKERS OF FAMOUS COWBOY SADDLES

No. 301

## "Myres' Special" Tree — 15x14-inch

This saddle was recently improved for those who wanted a light up-to-date saddle on a tree that has been tested for years. Something to ride well, wear well, and look well. It has proven a phenomenal success as such and we can recommend it in the strongest way, as it has been tested by time and has made good. It is built on a 15" seat with a 14" fork; we also make it on a 14" and 14½" seat and larger fork. Skirts 15"x29" woolskin lined—3" stirrup leathers—full buckskin inlaid seat. This seat is inlaid on the regular seat and well padded, which acts as a shock absorber. Artistically handcarved, all laps hand-laced. No. 12 stirrups, No. 21 flank, Angora front cinch. For an easy riding saddle it has no equal. Made with round skirts when wanted. Weight 29 lbs.

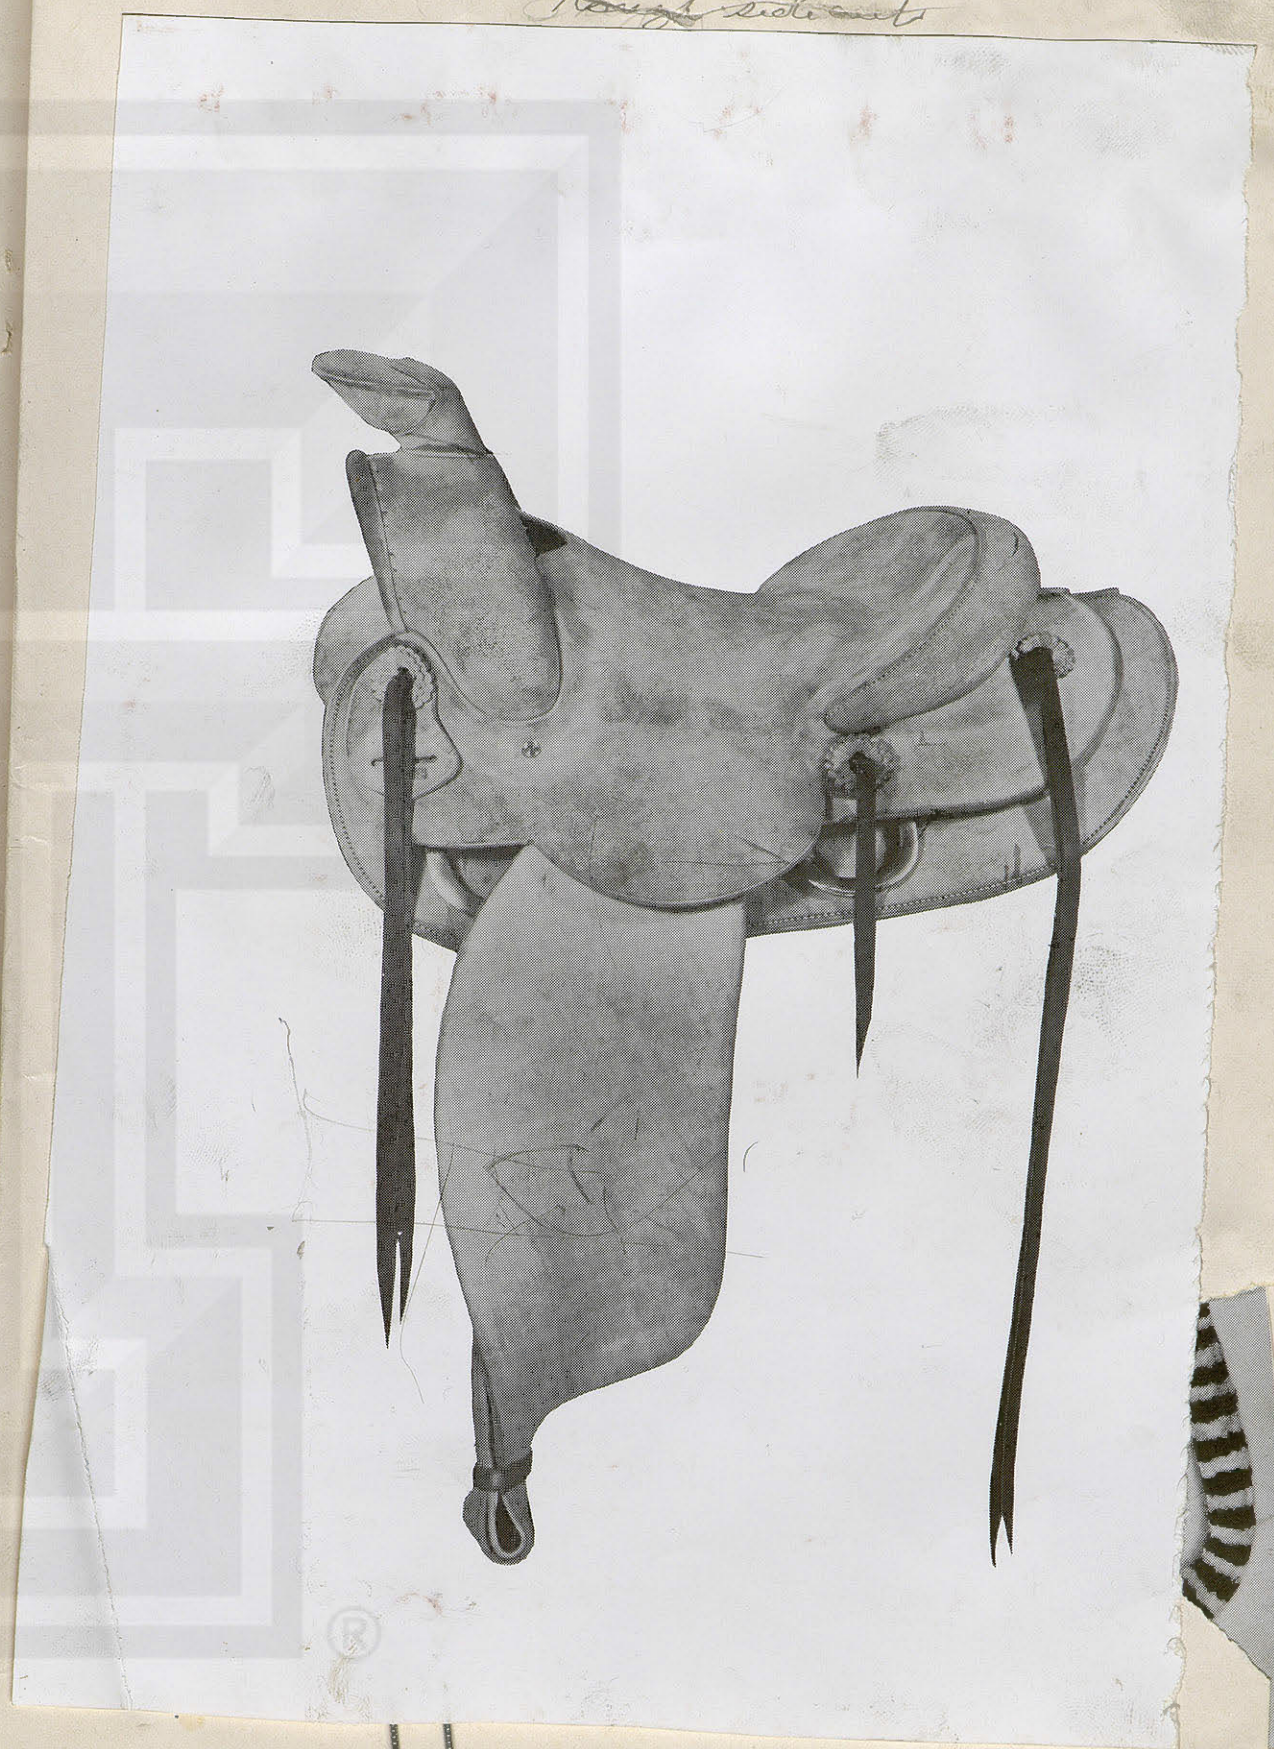

\$210.00

NOTE—Sam D. Myres designed this saddle over thirty-five years ago for personal use and it has proven the greatest saddle by far which we have ever made.

**SPECIAL CHAPS**

No. 1533

Price \$85.00

This the most beautiful chap ever created that was not highly silver mounted. We make many chaps of special design, this being one of them. If you have in mind a special "SHOW" chap, "Let Myres make them."

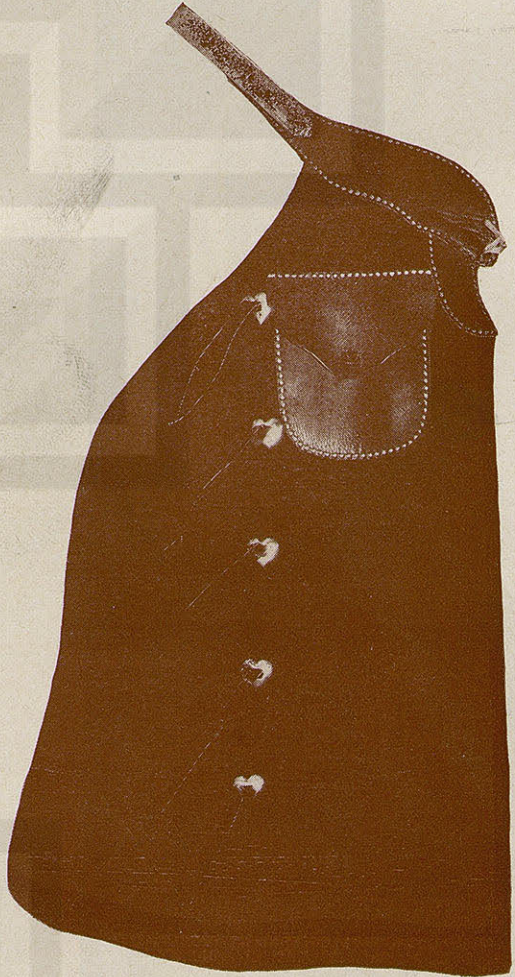

The above chap is made of white Elk with a blue Calf in contrasting colors. "CASA MANANA" is surrounded with a floral design that is unusually effective and attractive, the two colors making a most happy combination. The chap has a very large wing, but is not excessively heavy; for show purposes it is ideal and most effective.

Stearns

29

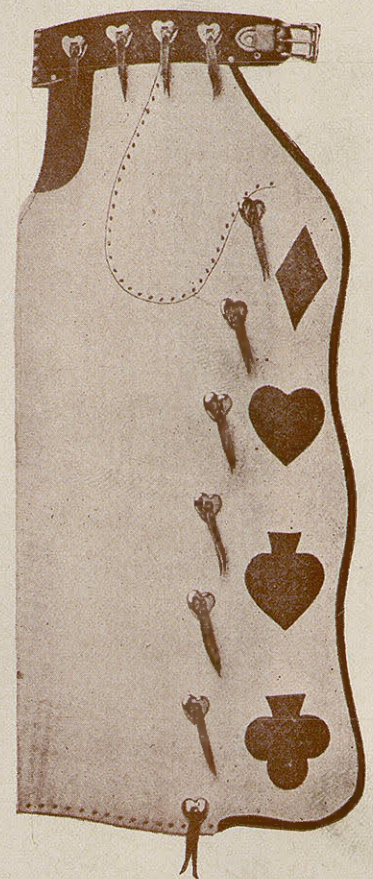

There are many grades of chap leather, also heft or weight of chap leather. In certain localities the heaviest grade is required, in other territories we use a medium weight which is 5 ozs. stock, this is well suited for any work that is done on the ranch and can be furnished in cream color, black color, or brown color. The highest grade of chap is naturally the better—the selection, however, on the cheaper grade a good tannage is used.  
We give special attention to ladies' chaps and for which we use a lighter grade leather of excellent selection. Boys' chaps are made in light heft. On cheaper grade, we use a chrome which has good wearing value and will give excellent service and enable us to produce a chap at a less price.

copy

No. 40

No. 40 CHAP—Made of select Elk skin, belt and pockets buck laced, made of either black or yellow stock. A most wonderful chap for looks and wear. Price \$37.50

No. 36

## SADDLES

SADDLES are not luxuries, but necessities. From the earliest times man has been a rider. But no nation or people is so skilled in feats of horsemanship as are the Western stockmen or cowboys. They are a distinctive class, possessing the courage, skill, and fidelity which always characterize the noblest and the best of men. In their difficult range work they require the very best equipment, as not only the heavy ranch work, but oftentimes the safety of their very lives is dependent upon it. Hence the necessity of having the best, and our saddles are made strictly to meet these needs.

LADIES' ASTRIDE SADDLES have been our specialty for many years. In their construction, the same general principles are adhered to as in the making of the best stock saddles. For, if a lady is going to ride astride, and according to our way of thinking this is the only way for her to ride, she certainly is entitled to all the advantages of the very best stock saddle.

BUCK-SKIN INLAID SEATS: The demand for this special style of seat is ever on the increase, and by the best riders. We not only use it on astride saddles, but on many of the highest grade stock saddles. The seat is inlaid on the other seat in such a way that, in case it should wear out in the course of time, a good seat would still be maintained in the saddle. It is especially adapted to the "MYRES' SPECIAL TREE." This seat will be used on any saddle, not showing the same, or we can put this seat on an old saddle. The prices range from \$9.00 to \$12.00 additional.

STYLE OF RIGGING. We generally make all saddles with double rig, but will change any style, and will use Center Fire, Three-Quarter, or Spanish.

## TREES

The tree is the important part of any saddle. With everything else good, but with a bad tree, the inevitable result is a poor saddle -- one that will give trouble and be unsatisfactory.

Our trees are specially made for us by the most skilled experts, men who have spent a lifetime in studying the rider's wants. The very latest style and designs are used. We keep strictly up-to-date on everything; in fact, lead the procession. Our trees come as near meeting all the requirements of the riders as is possible until all riders ride alike and all horses' backs are shaped alike.

Our trees are regularly made for medium size horses. If ponies or large horses are used, a narrower or wider tree should be made, accordingly. The trees are guaranteed against breakage for a period of two years. Should any of the trees hurt, we will gladly fix the same free of charge, when it is the fault of the tree. Several things could cause the saddle to hurt other than the tree.

FIRST. Bad blankets, or carelessness in blanketing, often causing a wrinkle or fold in the blanket; but especially the continued use of wet, sweaty blankets for days without having them washed or cleaned. This causes the back to become soft and tender. This is notably true in the hot months. Give good attention to the blankets, and many troubles will disappear.

SECOND. Sometimes the hurting is due to the peculiar condition or shape of the horse's back. This is especially true if the horse is thin or in poor condition.

THIRD. Possibly that which causes as much or more hurting than all other things taken together is the way one rides. Some riders never hurt with any saddle, while others hurt with every saddle. We have given this trouble special attention, and shaped the saddle seats to throw one as nearly as possible in the proper position in the saddle and thus overcome the condition brought about by loose or careless riding.

THE FOLLOWING TREES ARE USED: Visalia, Broncho Buster, Rough Riders, Caudle, Ladesma, Tipton, Jim Dandy, Bull Moose, Citizen, Western Queen Astride, Youth's and Myres' Special.

The favor in which the MYRES' SPECIAL TREE has been received by the best riders is truly gratifying. The attractive feature of the saddle is the specially low cantle.

Sterling, Brass, or Bell Medal horns will be used on any saddle not showing the same when desired, but for heavy work we recommend the regular iron horn tree, covered with leather or rawhide, as we consider it stronger than either the brass or the bell medal. When brass, bell medal, or sterling horns are wanted, add \$3.00 to catalogue price.

THE EXTRA SWELL FORK will be used on any saddle, not showing the same, at the following prices: 12-inch fork being taken as a base, add \$1.50 an inch up to 16 inches. On all ~~swells~~ swells over 16 inches, add \$2.50 for each additional inch.

For saddles with larger trees than described in catalog, add \$4.50 per inch for each additional inch for additional cost of material.

#### M A T E R I A L

All leather used in the construction of our saddles is from the famous Eberhard Tanning Company, of Santa Clara, California, who produce the finest skirting leather in the world. We also use their bark-tanned wool skins, chaps and lace leather, which are without an equal.

#### W O R K M A N S H I P

The manufacturing department is under the personal supervision of S. D. Myres. You may be sure that none but skilled mechanics touch your saddle if it bears the name "MYRES." The same scrutinizing care and attention is given to every detail as you would if you were making it with your own hands.

Special notice is called to the fact, that all points on high-grade saddles are hand-laced, which is much better than rivet work, inasmuch as rivets, after a time, will work loose and come out. LACING NEVER DOES. Tacks are practically discarded. Brass screws are used for all tree fastenings.

#### S T A M P I N G

This department is under artists who, by nature and experience, have become past masters in this particular field. Many of the designs are original and entirely new. Nothing adds more to a high-grade piece of work than artistic finish, and this can be given only by one who is an artist in this special line of work. The favor with which our hand-carved saddles have been received for years by the very best riders is evidence of the quality and durability of our work. We call special attention to our art leather goods, which for mechanical finish and artistic design cannot be surpassed.

#### O I L I N G

All saddles are carefully and skilfully oiled with Neatsfoot oil, unless otherwise ordered. OIL IS THE LIFE OF LEATHER.

#### T E R M S

All saddles in this catalogue are strictly net, no discount, as it has always been our policy to give in quality instead of in discount. Our prices are strictly cash; no credit.

In ordering, just give number as described in the catalogue. It is not necessary to destroy or mutilate the book in order to send picture.

Write your name, postoffice, and State plainly; also give your nearest express office.

All orders will have strict and careful attention, and will be filled as promptly as possible.

Special orders will receive our best attention, and we will make you EXACTLY what you order.

At least 25 per cent of catalog price should accompany order. This saves time, as it is not then necessary to look up financial references. The goods will be sent C.O.D. for balance. This is especially necessary where special orders are made.

IN VIEW OF THE RAPID FLUCTUATION OF THE LEATHER MARKET, ALL PRICES ARE SUBJECT TO  
CHANGE WITHOUT NOTICE.

## SADDLES

B7C42

Saddle making is an art. It combines, both, the mechanical and artistical, as well as years of training and this skill when applied to the IDEAS OF THE REAL RIDER, ~~it~~ makes a real saddle - a saddle distinguished for its strength, wearing value and the pleasure it gives the rider and the comfort it gives ~~to~~ the horse. All of these elements are combined in the saddles which we make - below, we list a few of the practical elements that are worth considering.

## TREES

The important thing of every saddle is the tree - this is basal. Our trees are made by the best tree makers in the Nation; men who have spent their lives making Western trees, and whose product we have used for more than fifty years.

## CARVING

Carving is an art. It comes to us from THE OLD MOORS, who left a tracing of their handicraft in Spain; from there it came to Mexico and then into the States. When used by skilled artist on the right kind of carving leather, it increases the wearing value of the same. Nothing adds more to a finished product than fine carving. Truly it has been said "A thing of beauty is a joy forever". Our carvers are masters in this art - see their fine expressions in the following pages.

## FORM INLAID SEATS

This is an innovation in saddle making belonging exclusively to ourselves. For years we have used the inlaid seats on our saddles, and the satisfaction which they have given has truly been most gratifying. We especially recommend these seats for ladies' use and for those who enjoy pleasure riding, as these seats act as a shock absorber that give comfort and pleasure to the one who rides.

The high quality of Myres' holsters and belts is well known to all users. This quality is the result of four things: (1) The finest leather, carefully selected for texture, strength, and endurance. (2) The best of workmanship, performed by expert craftsmen of long experience. (3) The latest design, fitted to an exact pattern of the gun, and special features that mean attractive appearance, excellent performance and long life. (4) Rigid inspection and unconditional guarantee that assure all users of complete satisfaction.

Many men like General George S. Patton, Jr. have carried their all-important guns in Myres' holsters.

On the right are the famous pearl-handled guns used by General Patton in World War II: A Smith and Wesson .375 Magnum and Army Colt .45.

The two holsters are Myres' Border Patrol, which we made to order for General Patton.

*(Photo Authenticated by West Point Museum)*

In the early days, men whose lives depended on quick action with their guns insisted on every possible improvement in their holsters. These men seriously tested every idea, every change. Working closely with them, Sam Myres produced holsters that met their demands in every detail. He made

holsters that held the gun firmly but that released it in a split second at the user's command. The reputation of Myres' "Quick Draw" holsters soon became paramount in the Southwest and then in the nation.

### A Bit of History

"Sam Myres probably knew more men-who-carried guns in his day than any other man who ever lived in the Southwest. He made belts and holsters for more of them than any other man; more of them confided in him than in any other man, and more of them trusted him with their secrets. . . . Tio Sam designed the official Border Patrol holster which is worn by all these officers in the United States and which has been adopted by hundreds of police departments." — Frank Reynolds in Big Spring (Texas), *Daily Herald*, July 7, 1953.

"Just a few words to let you know that I appreciated the work you did on my Myres' Border Patrol Holster. I had no idea that the Holster you made is so good looking and so well made."—Wells, Vermont.

"Received my holster No. 988 from you today. It is just what I wanted, fits my Colt 38 perfect and is a beautiful piece of workmanship. . . . I am highly pleased."—Aurora, Colorado.

"I would like to take this opportunity to thank you for the superb job that you did on my No. 545 holster that you made for my Smith and Wesson .357 Magnum. I was sure when I ordered it that it would be a beauty but when it arrived it surpassed my fondest hopes. The quality and workmanship are of the highest order and pride of ownership is certain, a fact, a pleasure."—Cleveland, Ohio.

**Ed McGivern**, famous marksman and instructor: "Holster makers supreme . . . excellent work by the artist, Sam D. Myres of El Paso, Texas." See the book, *Fast and Fancy Revolver Shooting*.

**Eugene Cunningham**, noted writer and authority on guns: "I know of nobody in the United States quite so familiar with both gun harness and the men who designed and used it as Myres." See the book, *Triggernometry*.

**Burr Leyson** in his *Modern Colt Guide*: "In the holster field, the firm of Sam D. 'Tio Sam' Myres, of El Paso, Texas, has established a national reputation for both the quality and artistry of their holsters. It is for this reason that the author recommends their holsters and features them exclusively."

#### **Salesroom and Factory**

5030 Alameda Blvd.

El Paso, Texas

*We also carry the finest stock of Western wearing apparel and custom-made Western saddles in the Southwest. Write for catalogs.*

S. D. Myres, 1871-1953.
