

Dearest Eliza

Your note arrived this morning, the contents are very cool & collected. I don't think I deserve any censure. You don't make any allowance for business. I am all upside down and working like old Sam to get off. I have now forty different things to do at once.

~~The depth of the prison was~~
I left you only in the morning of the day I sent the flea prison and did not think any note very necessary beside it was sent just as the boat went off.

A note from you at any time is very pleasant but I would rather not have received the present one as it hurt my feelings sadly. Have the kindness to ~~say~~ ^{ask} Mr. Brink to send a team to Rail Road for me tomorrow morning in time for the 9 O'clock train from New York and say to him a friend will accompany me.

I remain your loving
husband Ever
