WELCOME, CLASS OF '40

You are indeed fortunate in being a student at Texas Tech, the fastest growing and most democratic school in the world, and in the anticipation of four glorious years of learning, making new friends, and the joy of time well spent.

You may find parts of your school work hard, but in doing it well you can derive more benefit and pleasure from your outside activities. Take pride in your work, your friends, and your school and enjoy and uphold the heritage that has been left by those before you.

This Student Handbook is a gift from the Student Council, and was designed to better acquaint you with the leaders, traditions, history, and organization of our college and yours.

Read this book through and keep it with you; it will come in handy and keep you from asking many foolish questions.

COLLEGE CALENDAR

Twelfth Annual Session

1936

- September 14, Monday, Entrance examinations for students not meeting the regular admission requirements.
- September 15-16, Tuesday-Wednesday, Registration of all students.
- September 17, Thursday, Classes begin 8:00 A. M. Late registration regulations in full force.
- September 17, Thursday, Open house for all students by the churches of Lubbock, 8:00-10:00 P. M.
- September 20, Sunday, Special sermons for students in all Lubbock churches.
- September 22, Tuesday, Opening Convocation for all students and Faculty. Annual address of President, 11:00 A. M.
- September 25, Friday, Annual reception to all students by President and Mrs. Knapp and College Administrative Council, 8:00 P. M.
- November 11, Wednesday, Holiday.
- November 14, Saturday, Mid-Semester reports due in Registrar's Office, 5:00 P. M.
- November 25, Wednesday, Thanksgiving Holidays begin 6:00 P. M.
- November 30, Monday, Classes resumed 8:00 A. M.
- December 22, Tuesday, Christmas Holidays begin 6:00 P. M.

1937

- January 4, Monday, Classes resumed 8:00 A. M.
- January 23-29, Saturday-Friday, inclusive, final examinations for the first semester.

- February 1, Monday, Registration for all students for the second semester. Entrance examinations for students not meeting the regular admission requirements.
- February 2, Tuesday, Second semester classes begin 8:00 A. M. Late registration regulations in full force.
- March 24, Wednesday, Annual Presentation, "Seven Last Words" by Duboise, presented by Professor Blitz, Orchestra, and Chorus.
- March 25, Thursday, Easter Recess begins, 6:00 P. M.
- March 26, Friday, Mid-semester reports due in the Registrar's Office, 5:00 P. M.
- March 30, Tuesday, Classes resumed, 8:00 A. M.
- May 27-June 3, inclusive, final examinations for the second semester.
- May 30, Sunday, Baccalaureate Sermon.
- May 31, Monday, Commencement Day.
- June 4-5, Friday-Saturday, Entrance examinations for students who cannot meet the regular admission requirements.
- June 7, Monday, Registration for first term summer school.

ADMINISTRATION

DR. BRADFORD KNAPP

President

Welcome to the campus of Texas Technological College as a part of its growing family of sons and daughters. This is a place for study, for intellectual growth, and development. But it is also a place in which one may develop a well balanced life. Here we are a social group, a democratic body of students and faculty, working together to prepare young men and young women for useful lives. Here your personal responsibility becomes important. You must stand on your own merits. You can develop character while at Tech if you will. The opportunity is yours at Texas Tech to prepare yourself for useful service in the many fields of agriculture, engineering, home economics, business administration, the sciences, the arts, education, or in other lines, and at the same time develop personality, character, culture, and refinement, breadth of mind and purity of ideals. We can do nothing unless you want these worthwhile essentials of real life. I welcome you to this great opportunity. Make the best of it.

BRADFORD KNAPP,
President.

A. H. LEIDIGH
Dean of Agriculture

Welcome to the Agricultural Student who comes to Texas Technological College this year. It seems evident that not only success but also great opportunities for service are open to the man whose college education is in the field of Agriculture.

We hope that our students will develop into thinkers as well as skilled workers. May you adopt that as your goal for this year's class as it enters upon its work.

A. H. LEIDIGH.

O. V. ADAMS
Dean of Engineering

Experience has shown that few freshmen realize the value of time or how to use it efficiently. Many students waste much time through failure to devote all their energies to the thing which they have to do at the particular time. The sooner a student learns to concentrate his mental faculties upon his work to the exclusion of everything else, the better student he will be. A thorough mastery of the subject acquired in the shortest possible time should be the aim of every student. Once he learns to do this, he will find time which he can devote to recreation and student activities and still obtain a thorough training in his major field.

O. V. ADAMS.

MARGARET W. WEEKS
Dean of Home Economics

To students entering Tech for the first time I want to extend a cordial welcome on behalf of the faculty and students of the Division of Home Economics, and to those students who are returning, let me say that we are glad you are back.

We extend a cordial invitation to those who are interested in taking advantage of what is offered along Home Economics lines at this institution, to visit the Home Economics building and to talk with the Home Economics faculty regarding the planning of their college work.

MARGARET W. WEEKS.

J. M. GORDON
Dean of Arts and Sciences and Dean of Men

To incoming students, both new and old, greetings! As Dean of the Division of Arts and Sciences and as Dean of Men, I want to extend hearty greetings to you. New students, who are choosing Texas Tech as their College, place responsibility on the College Administration and on former students of the College to help make it possible for new students to get the most out of College life. We shall be most happy to work with you. To former students, my hope is that your vacation period and time spent away from the College walls, makes you rejoice anew in the privilege of returning to Tech to continue your College work. May the year for all of us be most satisfactory because of accomplishments in the classroom and because of the marginals, or so-called by-products, that mean so much in a college education.

Sincerely yours,
J. M. GORDON.

MARY W. DOAK
Dean of Women

Remembering the eleven years of happy co-operation with the students of this College, I welcome you, with the keenest anticipation, to Texas Technological College and invite you to use its facilities for culture and advancement, and to enjoy its opportunities for fine fellowship and lasting friendships. May this Handbook enable you to know and to choose the activities best suited to your talents and energies, and to pursue them in accordance with the finest traditions and ideals of the College.

MARY WOODWARD DOAK

THE COLLEGE

GENERAL INFORMATION

The Texas Technological College at Lubbock was organized by authority of an act of the Thirty-Eighth Legislature of the State of Texas passed in 1923. This act authorized the establishment of a college west of the ninety-eighth (98th) meridian and north of the twenty-ninth (29th) parallel, which should be a coeducational college of the first-class, giving thorough instruction in technology, manufacturing, engineering branches, agriculture, home economics and also complete courses in "arts and sciences, physical, social, political, pure and applied, such as are taught in colleges of the first class leading to the degrees of Bachelor of Science, Bachelor of Arts, Bachelor of Literature, Bachelor of Technology, and any and all other degrees given by colleges of the first-class."

Pursuant to this act of the Legislature, the Texas Technological College was located at Lubbock, Texas, its buildings erected, and its doors opened to students for the first time on September 30, 1925.

LOCATION OF COLLEGE

The College is located on the South Plains area of the State of Texas, approximately two hundred miles from the northern line of the Panhandle and more than three hundred miles northwest of the State Capitol. The elevation is 3,200 feet above sea level. Lubbock is in the midst of one of the richest and finest farming sections of the State of Texas. Lubbock County was the second largest cotton producing county in Texas in the year 1932. In addition this entire territory is a great livestock country with extensive feeding of beef cattle, sheep, hogs, and a considerable dairy and poultry industry rapidly developing.

BUILDINGS AND GROUNDS

The Texas Technological College is supplied with modern buildings on an extensive campus with a large farm, all on one great body of

land, located just at the western edge of the City of Lubbock. The campus comprises approximately 320 acres, leaving 1,688 acres of excellent farm land for the use of the Division of Agriculture of the College.

The following are the principal buildings on the campus:

Administration Building, located at the south side of the main quadrangle of the campus, facing north.

Textile Engineering Building, located at the north end of the main quadrangle, facing south.

Engineering Building, located on the west side of the main quadrangle of the campus, facing east.

Chemistry Building, located west and north of the Administration Building facing north.

Agricultural Buildings, located southwest of the Administration Building.

Home Economics Building, located east of the Administration Building.

Home Management House, located northeast of the Girl's residence hall.

Gymnasium, located directly north of the Men's residence hall.

Mechanical Engineering Shop Building, located north of the Textile Building.

Heating Plant, located directly north of the Textile Building.

Farm Buildings—Dairy Barn, Greenhouse, located southwest and north of the Agricultural Building respectively.

Bookstore, located southeast of the Administration Building.

Residence Halls. A residence hall for women and a residence hall for men occupy attractive locations on each side of the main entrance drive of the campus.

FACILITIES

The College is provided with a pressure water distributing system supplied from its own

well, water tower and mains; a permanent lighting system; complete gas lines for the distribution of natural gas; and a complete series of electric circuits and telephone conduits.

COLLEGE FARM

Of the College property, comprising approximately 2,008 acres, practically 1,688 acres lie west of the main campus and are used by the Division of Agriculture as a farm upon which to grow feed crops, cotton, forage crops, vegetables, and other crops necessary to supply the livestock with feed and to illustrate to students the various crops grown in this area. There are excellent herds of beef cattle, dairy cattle, horses, sheep, swine and poultry. The entire farm is used in the practical educational work of the College. On the farm are pastures, barns, silos, and other equipment of the type and character to best illustrate the agriculture of this section.

REGULATIONS

AND INFORMATION

COLLEGE OFFICERS AND RELATION TO STUDENTS

The President

The Act of the Legislature creating Texas Technological College provides as follows:

"The Board of Directors of Texas Technological College shall provide a President thereof, who shall devote his entire time to the executive management of said school and who shall be directly accountable to the Board of Directors for the conduct thereof."

The President of the College is ex-officio member of all committees, is ex-officio chairman of the College Administrative Council, and is clothed with the responsibility of planning for the maintenance and operation of the institution.

The President's office is Room 213, Administration Building. He is always glad to consult with students and faculty members.

The Registrar

The Registrar of the College is in charge of student records, entrance credits, and all other records made by the student while enrolled in Texas Technological College. He makes an annual report through the President to the Board of Directors. He receives all reports from teachers on student grades, absences, changes of course, etc. At mid-semester and after final examinations, all instructors make reports regarding the student's progress. Reports regarding grades made in each course are filed and permanently recorded on the student's record in the Registrar's Office. Semester reports are sent to the student and to the student's parent or guardian. The Registrar's Office is located in the East end of the Administration Building on the first floor.

Teachers

The faculty of the College is divided into professors, associate professors, assistant professors and instructors. There are also grad-

uate assistants and fellows who assist in the instructional work in some courses. The person to whom the section or class in which you are registered is assigned, is the teacher for that section. Such instructor is responsible for the assigning of lessons, the outlining of the course of study, conduct of examinations, etc.

Attendance is required. All matters of relationships between students and teachers are looked after with the utmost of care. Absences are reported by the teacher directly to the Registrar and then to the Deans.

Repeated Absences

Students are required to be diligent in the pursuit of their studies. For each eighteen absences per semester, in any or all subjects, the student is required to complete an extra hour for graduation. See the catalog for rules regarding attendance upon classes. Advice and consultation between the student and teacher is desirable. All instructors in the College have office hours for student consultation. Those desiring the teacher's assistance should take the matter up and secure a definite appointment.

Grades are reported by the teacher to the Registrar at mid-semester and after final examination at the end of each semester.

Heads of Departments

The head of a department, under most circumstances, is the advisor of all those majoring in the subject or subjects covered by the name of the department. He is in direct charge of the administration of the courses offered in his department, the assignment of teachers, etc.

Deans

Each of the main divisions of the College is in charge of a dean. The dean may also be a teacher, but his main duties as such are administrative. Students are responsible to the dean of the school in which they are en-

rolled. The student's course of study and its general arrangement, and the sequence of subjects, must follow the requirements of the catalog and must be approved by the head of the department in which he is taking his major and the dean of the division in which he is registered. Consultations regarding progress and plans may be either with the dean or the head of the department assigned as the student's advisor. The dean approves all courses to be added or to be dropped from the schedules. No student can change his class hour or section without permission of the dean.

Dean of Men and Dean of Women

The discipline of the College is invested in the first instance in the Dean of Men, who is assisted by the discipline committee dealing with disciplinary matters affecting men students.

The discipline of women students is in the hands of the Dean of Women, assisted by a committee of women teachers of the College.

Following is a list of the Deans of the College:

Arthur Henry Leidigh, Dean of the Division of Agriculture. Office, 102, Agriculture Building.

Otto Vincent Adams, Dean of the Division of Engineering. Office, 202, Engineering Building.

Margaret Watson Weeks, Dean of the Division of Home Economics. Office, 101, Home Economics Building.

James Marcus Gordon, Dean of the Division of Arts and Sciences and Dean of Men. Office, 211, Administration Building.

Mary Woodward Doak, Dean of Women. Office, 107, Administration Building.

Business Manager

The Business Manager of the College is in charge of the business of the Fiscal Office and the care of property and buildings of the institution, the receipt of money and the ac-

counting system, and all other financial dealings except the making of the budget which is recommended to the Board of Directors by the President and approved by the Board. All fees and deposits at the time of registration and all payments of board and room for the College dormitories, are to be attended to by students at the Business Office. All payments to students for work in the College, including NYA jobs, are made through the office of the Business Manager.

REGULATION OF WOMEN STUDENTS

Non-resident women students may not leave town without permission of the Dean of Women. Written requests for such permission to leave town must be sent to the Dean of Women by the parents of such students.

Women students going on out-of-town trips sponsored by the College are under the direction of chaperones sent by the College, whether they are resident or non-resident, whether they reside in the dormitories, in private residences or in their own homes.

SPECIAL ACADEMIC REGULATIONS

1. Regulations in the Division of Arts and Sciences:

In all matters pertaining to academic work men and women students are responsible to the Dean of Arts and Sciences except that women students are responsible to the Dean of Women in the following matters:

- a. Absence from class.
- b. Honorable dismissal from College.
- c. Scholarship probation.
- d. Change in schedule.

2. Regulations in the Divisions of Home Economics, Engineering, and Agriculture.

When desirable, women students in the Division of Home Economics, Engineering, and Agriculture may be referred to the Dean of Women for consultation, but in all matters pertaining to academic work men and wom-

en students in these Divisions report to their respective Deans. These matters include the following:

- a. Absence from classes.
- b. Honorable dismissal from College.
- c. Scholarship requirements.
- d. Scholarship probation.
- e. Individual approval.
- f. Change in schedule.

Residence

Women students are required to room and board in the women's dormitory to its full capacity. Women students on the waiting list, those living with relatives, those working for room and board, and those doing light housekeeping must make their arrangements through the office of the Dean of Women. No change in residence can be made without permission from the Dean of Women.

Social

Women students are expected to abide by the regulations adopted by the Women's Self-Government Association.

Special regulations regarding hours and living room privileges for students living in private homes will be furnished the house mothers by the office of the Dean of Women.

HOUSING REGULATIONS FOR STUDENTS NOT LIVING ON THE CAMPUS

For the benefit of students who may be permitted to room in private boarding houses, when the full capacity of the residence halls on the campus has been reached, the College maintains a faculty committee on student housing. In case a student has first obtained from his Dean written permission to room and board in some other place besides the regular College residence hall, this committee will designate certain approved rooming and boarding houses.

The College retains the right to fix or to change any student's place of residence should such change become necessary for the best interest of the student. Any complaint regarding care of rooms, improper food, disorder, or any other condition making a house undesirable should be reported to the housing committee. Students who are permitted to room in private boarding houses should pay for room and board in advance; however, the College does not assume any responsibility for payment or collection of such bills.

SPECIAL REGULATIONS APPLYING TO MEN STUDENTS NOT RESIDING WITH THEIR PARENTS

1. A student may not change his place of residence during any one semester unless requested to do so by the proprietor or unless given permission to move by the Dean. Such permission will be granted only in writing.
2. Moving from one house to another in violation to paragraph 1, without permission in advance, will subject the student to serious discipline.
3. During the usual study hours at night, in order that conditions for study may prevail, quiet is to be maintained and unnecessary visiting is prohibited.
4. The housing committee does not consider it desirable for students to live in bachelor quarters. Only in special cases will permission be granted to men students to live in garages or apartments where they are not under the direction of some responsible person who has the approval of the committee. In such cases the student must secure the written permission of his dean. In no case will men students be allowed to room in bachelor quarters unless they find it necessary to prepare their own meals.

SPECIAL REGULATIONS APPLYING TO WOMEN STUDENTS NOT RESIDING WITH THEIR PARENTS

1. In accordance with a ruling of the Board of Directors, all women students not residing in Lubbock shall, to the full capacity of the dormitory, room and board in the Women's Residence Hall. In event that the Women's Residence Hall should prove inadequate to care for all out-of-town students, senior halls will be provided for senior women.

2. After consultation with the Dean of Women, graduate students will be permitted to make special arrangements for living quarters.

3. A student who engages room, or room with board, may not change her place of residence during the semester except by request of the proprietor, or by permission given by the Dean of Women. Two weeks' notice is required before a change becomes effective.

4. A student who is sent to the hospital shall continue to pay her room rent in full for the month and shall pay board in full for the first three days.

5. Monday, Tuesday, Wednesday, and Thursday nights during the school session are definitely reserved as study periods. For this purpose quiet hours shall be maintained every night after 8 p. m. Friday and Saturday nights should be used for study by students in general, but dates and engagements may be taken for such nights, holidays, and nights preceding holidays. This rule applies to all women's rooming houses and dormitories.

6. Upper classmen maintaining a general average of "B" and a clear discipline record will, upon request, be accorded special social privileges. A definite statement of these privileges will be sent to the housemother and a copy of the privileges will be kept in the

Dean of Women's office. In no case shall these privileges conflict with the general regulations of the hall.

7. Housemothers are expected to report at once all absences, all cases of illness, and infractions of the general rules.

8. Women students are not permitted to go to the dormitories and boarding houses of men students except upon special invitation and after arrangements with the Social Activities Committee.

9. Students will be permitted to use automobiles when going back and forth from school and attending social affairs.

STUDENT EMPLOYMENT BUREAU

The office of the Student Employment Bureau is Room 101, Administration Building.

Students will find it exceedingly difficult to earn sufficient money to pay all expenses of a college education during their residence in college. A limited number of students find it possible to earn sufficient money to pay for room and board while attending college. A few find it possible to earn all their expenses. These generally are confined to those students in the upper class who have developed special skill or acquired certain knowledge making them eligible for the few jobs connected with the College and in Lubbock which pay enough money to cover their entire expenses.

The College maintains a Student Employment Bureau, the function of which is to aid worthy students in finding jobs. No student should come to Texas Technological College with the expectation of carrying a full course of study and reserving many hours for outside employment, since this will leave insufficient time to keep in good health and do creditable classroom work. So far as possible, the Student Employment Bureau will aid worthy young men and women who are possessed of good health and character and a

pleasing personality, combined with industry and reliability, to find such jobs as may be available either at the College or in the City of Lubbock. No student should make application to the Bureau of Student Employment until he is assured that his credits have been accepted and his application for entrance to the College approved.

Where the class schedule needs to be adapted to the working hours of the student, a certified statement of the working hours should be taken with the student and presented at the time of registration with a request for a special schedule if such is possible.

Problems regarding wages, working hours and conditions will be given sympathetic hearing by the chairman of the faculty committee on student employment. Students are urged not to accept work requiring too long an expenditure of time or too low a wage until they have consulted with the chairman of the faculty committee.

USE OF THE LIBRARY

It has been suggested that the reason some students fail to take advantage of the easy accessibility to books through the Library is that they are reluctant to make inquiries concerning rules and regulations relative to securing such books. As the use of the Library is one of the most important privileges for which the student pays, he should learn immediately to profit thereby.

The Library is located on the first floor of the west end of the Administration building. The public part of the Library consists of a large reading room containing a loan desk, card index files, study tables, and some general reference books. Here one may receive most of the books he desires and may ask for information concerning anything he wishes to know about the Library.

Wall cases around the reading room contain reference books, including dictionaries,

atlases, almanacs, encyclopedias, books of quotations, editions of "Who's Who," bound magazines and many other general reference books. Racks containing newspapers are also to be found in this room. These the student may use freely between 8 o'clock in the morning and 10 o'clock in the evening. (5 p. m. on Saturday.) These publications cannot, however, be taken from the reading room. Volumes are shelved according to their class number. If the student is in doubt as to the place for shelving them, he should leave them on the tables when he has finished using them.

The most of the library books are shelved in the stack room. The student may receive books from the stack room by requesting them at the loan desk. For books not on reserve, this may be done in the following manner: Consult the card catalog, an oak cabinet consisting of small trays filled with cards and located near the loan desk. With a few exceptions, entries under author, title, and subject may be found for all books. From the card containing one of these entries the student should obtain the shelf mark, author, title of the book desired, which information he lists together with his name, address, and telephone number, on a manila call slip, which he can find either on the loan desk or on the card catalog cabinet. This slip should be presented at the loan desk, together with the student's identification card. The desk attendant will then secure the book for him. The date slip posted in the front of the book is stamped with the date the book is due. There is a fine of five cents for each day that a two-week book is overdue. No book may be taken from the Library without first being charged.

Besides the magazines on the rack behind the loan desk, it is possible to secure others from the stacks by filling out and presenting

a blue slip with the identification card. Magazines should not be taken from the room or left on the tables, but should be returned promptly to the loan desk.

In case an instructor assigns several students to material in only one of a limited number of books, these books may be placed "on reserve"; that one student may not be able to have a book for his exclusive use for so long a time as to entirely deprive others from access to it. To secure a book that is on reserve, one may fill out a blue slip at the desk giving the author, the title, and his own address and telephone number, and present the slip with his identification card, to the attendant. Reserve books may be used for only two consecutive hours between 8 o'clock in the morning and 8 o'clock at night. After 8 o'clock p. m. reserve books may be checked out until 8 o'clock the following morning. They may be taken out for the week-end at 2 o'clock Saturday afternoon and kept until 8 o'clock the following Monday morning. A fine of five cents for each hour overdue is imposed for reserve books that are kept overtime; twenty-five cents for taking them out at night or for the week-end without rechecking.

The periodical indexes conserve much of the reader's time. They are arranged on the same principle as the card catalog; and they list all articles in the magazines which they index. There are several different indexes: The Readers' Guide, which indexes general magazines; the International Index, which has a scope similar to that of The Readers' Guide, except that more technical and foreign magazines are included; and the special indexes, such as the Agriculture Index and the Educational Index.

Newspapers kept in the reading room are never issued for use outside the Library. Besides the newspapers subscribed to, many are

received gratis. One may learn at the desk whether the Library receives any particular newspaper which he desires.

As all books are the property of the State, the reader should be considerate in his use of them. Hundreds of students have to use many of the books in the Library; hence it is incumbent upon every student to treat them in such a way that they will be available for use for a long time.

In order that all students may enjoy to the fullest extent the benefits of the College Library, it is important that each student acquire the proper attitude toward it. He should enter and leave as quietly as possible, refrain from all conversation while in the reading room, except to ask questions at the desk, and co-operate in keeping tables and floors free from trash.

THE COLLEGE BOOKSTORE

The College Bookstore, a self-sustaining enterprise of the institution, is owned and operated on the campus by the College. It is maintained to enable students to purchase text books, books for extension courses, supplies, and other equipment needed for laboratory and class work. It also carries, for the convenience of students, an assortment of stationery and other supplies.

A lunch counter is maintained by the Bookstore, serving light lunches, sandwiches, drinks and pastries, for the convenience of both students and faculty members, because of the distance of the College from town.

The Bookstore also handles secondhand books, purchasing them at the end of the year from students who desire to dispose of such books. It gives prompt service on book orders. A complete book catalogue service available to every one is maintained.

ENTERING COLLEGE AND ADMISSION REQUIREMENTS

Students, both men and women, who are of

good moral character and who can meet entrance requirements, including the college physical examination, and who are prepared and able to profit by college work, will be admitted to the Texas Technological College.

An applicant should have his high school principal or superintendent send to the Registrar two weeks before the opening of the semester in which he is to be enrolled, an official transcript of his high school record listing his high school credits and date of his graduation.

Students transferring from another institution to Texas Technological College should have the Registrar of the institution last attended send an official transcript of his college record to the Registrar at Tech at least two weeks prior to his registration in Tech.

The entrance requirement of the College is graduation from high school with 15 accredited units. Units not accredited at time of graduation may be made up by entrance examinations at the College prior to registration day. Other methods of entrance are by examinations for full 15 units, or by individual approval of the Dean (limited to students 21 years of age or over). Students admitted by individual approval must meet the entrance requirements as outlined in the catalog.

Entrance units must include 3 units in English, 2 units in Mathematics, except students admitted to Division of Engineering must present 3 units in Mathematics, 2 units from each of two of the following groups; Social Science, Natural Science, and Foreign Language, and additional units to make a total of 15. A maximum of 4 units in vocational subjects will be accepted for entrance to the Divisions of Arts and Sciences and to the Division of Engineering; for admission to the Division of Agriculture and to the Division

of Home Economics a maximum of 5 such units will be accepted.

PROCESS OF ADMISSION AND REGISTRATION

First secure entrance approval from Registrar.

Second, registration routine requires:

- (1) Registrar's approval to register at beginning of each semester.
- (2) Approval of rooming place.
- (3) Approval of scheduling of classes by head of department of student's major subject.
- (4) Approval of sectionizers and checkers for each department.
- (5) Approval of Dean of Division in which student is registering.
- (6) Payment of fees at Business Office.
- (7) Filing of notice in Registrar's Office of physical examination—required of each student once a year.
- (8) Each student upon first registering at Tech must have his picture made by college photographer free of charge.

A student's registration is not complete until he has complied with all the above requirements.

GRADEBOOK

The Registrar prepares for each student a gradebook. It is the student's record of his standing, and may be used at time of registration in making up a program of studies. Gradebooks are kept on file in the Registrar's Office until the student calls for them.

All gradebooks which are taken out by the students must be returned to the Registrar's Office before the end of the semester to be currently brought up to date at the end of that semester. No grades are given out for students who do not file their gradebooks in the Registrar's Office for the semester in which they are registered. Lost gradebooks

are replaced at \$1.00 each.

Former students of Texas Technological College are not registered without gradebooks. Freshmen receive their gradebook at the beginning of their second semester. A gradebook is made free of charge for the first semester a student enrolls in Tech.

CLASSIFICATION

For the purpose of determining eligibility to hold certain offices and for other similar reasons, students are classified as below:

Freshman—A regularly enrolled student with all entrance requirements met, who has completed fewer than 30 semester hours.

Sophomore—A regularly enrolled student who has completed a minimum of 30 semester hours in college work, including two hours of required Physical Education, and fewer than 60 semester hours.

Junior—A regularly enrolled student who has completed not less than 60 semester hours including four hours of required Physical Education, and 60 grade points not including Physical Education, and not more than 90 semester hours and 90 grade points.

Senior—A regularly enrolled student who has completed not less than 90 semester hours, including four hours required Physical Education, and 90 grade points.

Graduate—A student who has completed the requirements for the bachelor's degree, is a candidate for the master's degree, and has been fully accepted by the Graduate Committee.

In classifying transfer students, the number of grade points required is reduced by the number of hours of transferred work.

CHANGING A SECTION OF A COURSE

After completion of his registration a student may change from one section of a course to another only with the approval of the dean of the division and the instructors concerned.

This request is not granted later than the

date specified in the catalog for each year, unless the dean originates the request.

Section changes must be attended to in person and not by mail or by a friend.

The following procedure should be carried out by the student:

1. Permission should be obtained from the dean of the division in which the student is enrolled.

2. Change cards—made out in triplicate—should be obtained from the dean's office.

3. Approval by the instructor of the section from which the student is transferring, and approval by the instructor of the section which the student wants to enter must be obtained on all three cards.

4. The dean's approval of the change cards should be obtained.

5. Change cards should be filed in the Registrar's Office not later than two days after the original issuance of the change card.

Note: No change is official until all of the above procedure is completed.

ABSENCES

Students are urged to attend all meetings and examinations of courses for which they are registered. For each 18 unexcused absences per semester in any or all subjects, the student will be required to complete one extra hour for graduation.

At the end of each week, each instructor turns in to the Registrar, a slip reporting absences from each class for each student.

Students have the privilege of making up their work missed due to absences on field trips, athletic teams, debating teams, etc., or due to illness of the student, or death or illness in the student's family by the following methods:

- (a) Absences due to field trips, and trips which necessitate the leaving of the college on official work, may be removed by making application to the Registrar for a make-up

card within one week after the student's return to classes. Prior to the student's absence, official cards, prescribed by the college and obtained from the Registrar, must be filed in the Registrar's office by the coach, manager, or person in charge of the individual leaving on an official trip, twenty-four hours before the student leaves the college. Official absence approval cards for each student must be signed by the coach, or person in charge, and by the dean of the division in which the student is registered. If the student does not make application to make up the work missed, and an official absence card has been filed with the Registrar, the cuts will be counted at half rate.

(b) Absences due to illness of the student may be removed by the student filing with the Registrar within one week after the student's return to classes, an official "Physician's Approval of Absence" card signed by the physician and the dean of the division in which the student is registered. These absence approval cards are obtained from the deans' offices in duplicate, signed by the physician and filed by the student in the Registrar's office. A make-up card is then issued to the student.

(c) Absences due to illness or death in the student's family will be removed at half rate provided the student files with the registrar a written request to make up such work as was missed. This request must be approved by the dean of the division in which the student is registered. After the request is filed, a make-up card is issued to the student which, when properly signed and returned, will remove all cuts.

All petitions to make up work missed by any absence from class must be made within one week after students return to class.

Make-up cards are issued by the Registrar on an official card provided by the Registrar.

These make-up cards should be filed in the Registrar's office as soon as the student makes up the work missed. Full cuts will not be removed until the make-up card is properly signed by the instructors of the classes missed during the absences and filed in the Registrar's office.

If an official absence approval card is filed in the Registrar's Office and the make-up card is not returned, only half of the absences will be removed.

Absences two days preceding or following a holiday count as double cuts.

ADDING COURSES

After the regular registration period a student may add a course only with the approval of the instructor concerned and the student's dean.

No course may be added after the last date for adding courses as set out in the catalog for the current year.

To add a course the following procedure must be carried out by the student:

1. Adding a course must be attended to by the student in person, not by a friend or by mail.
2. Add cards, made out in triplicate, should be obtained from the dean's office.
3. Approval by the instructor in the course to be added should be obtained on these add cards.
4. The Dean's approval for adding the course must be obtained.
5. Add cards should be signed by the Business Office.
6. The add cards, in triplicate, should be filed in the Registrar's Office not later than 2 days after original date of obtaining cards from the Dean.

DROPPING COURSES

A student may drop a course only with the consent of his dean.

If a student drops a course later than five

weeks after registration in the fall semester, or four weeks in the spring semester, and is passing in the subject at the time he drops the course, the grade is "W". If he is not passing at the time he drops the course, the final grade becomes "F". Dropping a course without permission (and persistent absence from class amounts to dropping), means severing one's connection with the College.

Dropping a course must be attended to in person and not by a friend or by mail as follows:

1. Permission must be obtained from the dean of the division in which the student is enrolled.
2. Drop cards, made out in triplicate, are obtained from the dean's office.
3. The signature of the instructor in the course should be obtained on all three cards.
4. Signature of the Business Office must be obtained.
5. Cards should be filed in Registrar's Office not later than 2 days after original date of obtaining cards from the Dean.

No drop is official until all of the above procedure is completed. All absences in a class which is later dropped will be counted up to the time the drop card is filed in the Registrar's Office, unless absences are removed in one of the prescribed methods for removing absences.

GRADES

The standing of a student in his work is expressed by the grades made up of class work and from examinations. The grades used are: A, excellent; B, good; C, fair; D, passing; E, condition; Inc., incomplete; W, withdrawal from the course; F, failure. Plus and minus grades may be used at the instructor's discretion to make a finer distinction above and below the letter given. Thus if "A" is 90 to 100 "A" minus is low and "A" plus is high

within that range; likewise "D" minus is barely passing.

Grades are given by semesters, but where the student's curriculum requires the completion of a subject, one semester of a course will not count for a degree until credit has been received for the entire required course.

Semester grades are recorded by teachers on grade cards and on grade sheets and are filed with the Registrar in accordance with his time limits. The Registrar reports all grades to the student's parents or guardians, to the student, and to the student's dean. All students regularly enrolled in any given course on or after November 1 in the first semester or March 1 in the second semester, must receive a grade at the end of the semester. No grade may be given to a student not regularly enrolled in a course during the semester covered. No grade may be corrected or changed without inquiry as to the reason and necessity for the change, except the grades of "E" and "Inc.", for the changing of which definite regulations are provided.

GRADES OF "INC."

Definition: The grade of Incomplete (Inc.) may be given by the instructor whenever the student's work in the course indicates a major deficiency in quantity (but is sufficient in quality), provided the deficiency has been occasioned by causes beyond the student's control.

Completion of the work: Within four weeks after the beginning of the next regular semester of residence after the grade of Inc. is given, the student shall initiate a petition to the dean of the division in which he is enrolled for permission to compete the work reported incomplete. The dean and the instructor in joint conference shall decide whether the work may be completed or the grade become "F". The dean may extend the time for initiating the petition. The student who

fails to initiate his petition within the time limit stated (unless the time be extended by the dean) shall forfeit all privileges of completing the work, and the grade becomes "F". Upon receiving permission, the student shall complete the work in whatever manner and within whatever time the instructor specifies, provided that the time shall not exceed one year from the giving of "Inc."

Record of "Inc.": The instructor shall note on the reverse side of the grade card the reason "Inc." was given, the quality of the work done, a brief summary of the work to be done, and the time allowed for doing the work. The instructor shall transmit the new grade to the Registrar, and the Registrar in recording the new grade shall supplement the original grade with the one last recorded.

When an "Inc." stands for one year without action it becomes "F," except that at mid-semester before graduation any grade of "Inc." then standing without action becomes "F".

The responsibility of seeing the record cleared of "Inc." rests upon the student.

THE GRADE OF "W"

The student who withdraws from a course within five weeks from the beginning of the first semester or four weeks after the beginning of the second semester, in a manner prescribed by the college regulations, receives no grade and his name is not entered on the final sheet.

A student who withdraws from a course after five weeks from the beginning of the first semester or four weeks from the beginning of the second semester receives a grade of "W" if his work is of passing grade; otherwise the grade is "F".

A student who transfers from one section to another receives no grade in the original section, and his name is not entered on the final grade sheet for that section.

GRADE OF "E"

Definition: A student who fails to pass a course but makes a grade of "E" is conditioned. The grade of "E" is very carefully distinguished from the grade of "Inc." In all cases of future assignments, prerequisites, or activities requiring a passing grade, it is to be regarded as "F" until removed, except for entrance to the succeeding semester of a continuous course of not over two semesters.

Removal of condition: It shall be the duty of the student who has received "E" to consult his instructor within four weeks after the beginning of his next semester of residence to determine the method of the removal of the condition.

The student must remove the condition in one of the four ways designated by the instructor.

1. By a second examination within four weeks after the beginning of the next regular semester. This examination must be passed with a grade of at least "C", and if so passed the semester grade becomes a "D". The grade of a student who fails to meet this requirement becomes "F".

2. By creditable work the following semester in a course continuing beyond one semester. Under this requirement the student must register in a section taught by the instructor who assigned the grade "E". The grade of a student who complies with this requirement becomes "D".

3. By satisfactory completion of special assignments submitted in writing by the instructor and approved by the head of the department. The grade of a student who complies with this requirement becomes "D".

4. By registration for the course in which the "E" has been assigned. The original grade, under this method, will be supplemented by the grade obtained by repeating the course.

Recording the removal of the condition: In any action under provisions 1, 2, or 3, for the removal of a condition, the instructor will transmit to the Registrar the grade of "D" or "F". The Registrar in recording the new grade will leave "E" upon the record. When an "E" stands without action for one year it becomes "F", except that at mid-semester before graduation any grade of "E" then standing without action becomes an "F".

GRADE OF "F"

Definition: The grade of "F" is given when a student fails in a course, and also when the student withdraws from the course in a manner prescribed by college regulations after five weeks from the beginning of the first semester or four weeks from the beginning of the second semester and was not then passing in the course.

WITHDRAWAL FROM COLLEGE

A student who finds it necessary to withdraw from the College before the close of the semester should apply to the dean of the division in which he is registered for permission to withdraw. A student under twenty-one years of age should first consult his parents and should bring with him a written statement showing that he has the permission of his parents to withdraw. If the dean is convinced that withdrawal is necessary, the student will be given honorable dismissal from the College, and his parents will be notified. Such withdrawal protects the student's record in case he desires to return to the institution or to transfer to another institution at some future time. The grades recorded are given in accordance with the grade requirements in the preceding paragraphs, and if the withdrawal is due to accident or illness, the grades, whether "W" or "F," will be based on the student's standing on the last day of attendance in each of the specific courses to

which he is assigned. The fact that the student may have withdrawn does not alter the scholarship probation requirements.

HONOR ROLL

At the close of each semester the Registrar's office issues an honor roll which includes the names of all students who during the semester have passed all subjects taken, aggregating not less than fifteen hours, with an average grade in all courses of at least "B," without having received any failing, conditional, or incomplete grades.

SEMESTER HOUR

The unit for instructional purposes is the course. Most courses meet three hours a week, having a credit value of three hours for one semester or six hours for both semesters.

The unit of measure for credit purposes is the semester hour, which means one hour of recitation (or the equivalent in shop or laboratory work) per week for one semester of eighteen weeks. For each classroom hour two hours of preparation are expected. Three hours of shop or laboratory work are counted equivalent to one classroom hour and the preparation for it.

MAXIMUM NUMBER OF SEMESTER HOURS ALLOWED

In the case of a student with low scholastic standing, the normal student load may be reduced. The limit will not be exceeded without a sufficiently high grade average. A student earning all or part of his expenses while in college is not allowed to register for over twelve semester hours if his outside duties demand as much as three hours per day. This limit may be increased by the dean of the division in which the student is registered, if the nature of the employment permits this and if the student's record shows a sufficiently high average grade.

A student may not receive credit in any course in which he is not regularly enrolled or to which he has not been officially assigned.

COURSE NUMBERS

The numbers used for designating the courses are uniform. Reading from left to right, the first digit indicates the college year in which the course is normally offered; the second digit shows the semester hour value of the course; while the other digit or digits represent the course number; a course complete in one semester is described under one number; a course which extends over two semesters carries a course number joined by a hyphen for each additional semester after the first, e. g., English 131-2, or Industrial Engineering 4311-12 means that a subject extends through two semesters.

The semester credit value of a course entered as a grade may not vary from the credit hour value shown in the second digit from the left as indicated in the preceding paragraph.

REQUIREMENTS FOR GRADUATION

To receive any undergraduate degree in Texas Technological College, the student must have met certain uniform requirements together with certain other requirements that may vary with the different divisions of the College.

1. Each student is required to do work in actual residence in this College of at least two long session semesters, five summer session terms, or one long session semester and two summer session terms, in addition to any residence credit obtained through extension, and complete a minimum of thirty semester hours of work counting toward a degree. At least twenty-four of the last thirty semester hours offered for the undergraduate degree must be taken in this College. The student

must also make before graduation, a total number of grade points in residence at least equal to the number of credit hours required in residence for graduation.

2. The candidate for any degree must file his application for the degree with the Registrar and with his dean not less than two semesters in advance of graduation.

3. The completion of all requirements of the course of study as outlined in the college announcement or its equivalent as determined by the faculty of the division offering the course must be certified to by the Registrar and by the dean. The curriculum requirements will be found in the appropriate divisions of the catalogues and announcements issued from time to time.

4. No second bachelor's degree will be conferred until the candidate has completed at least twenty-four semester hours in addition to courses counted toward the first bachelor's degree.

5. The candidate for a degree must be attired in the correct academic costume when presenting himself for a degree.

6. Diplomas are bestowed upon the candidate at the time the degree is conferred.

NOTE: Graduation in absentia is not permissible for students in residence, and will be permitted only under special conditions stated in writing and approved by the President and College Administrative Council.

GRADE POINT REQUIREMENTS FOR GRADUATION

To secure any degree in this College, the total number of grade points a student has received must equal or exceed the total sum of the semester hours required for graduation. For grade A, three points are awarded for each semester hour; for grade B, two points; for grade C, one point; for grade D, no points.

No grade points are required or allowed for credit accepted from other institutions, for credits made in this College prior to September 1, 1926, or for credits made in the two years of required physical education or military science. A student who has the number of semester hours required for graduation, but not the corresponding number of grade points, may satisfy the grade point requirement by completing additional courses until the grade point requirement has been met. Courses used to meet these requirements must have the approval of the student's dean.

SCHOLARSHIP PROBATION

A student who fails to pass approximately nine hours or three subjects for which he is enrolled in a given semester is placed on scholarship probation by the dean of his division during the next semester. This probation shall mean that:

1. The student may not register for more than four courses, approximately twelve hours, except upon the advice of the dean.
2. In order to allow more time for studies, he shall not be permitted to represent the College in any intercollegiate contest, collegiate office, or elective collegiate position during his period of probation, and shall not be permitted to be absent from the College for any cause except illness.
3. Lack of interest in his studies as evidenced by unnecessary absence will result in his suspension from the rolls of the College.
4. The scholarship probation provided for above will not be removed during the semester.
5. The student on scholarship probation who fails to pass as many as nine hours is suspended for one term before being given another trial, or may be suspended at the dean's discretion at mid-semester if the reports made at that time seem to require such action. See the paragraph on "Suspension

from the College."

A student who presents notably low grades from another institution will be received in Texas Technological College only on scholarship probation and this will be recorded on his transcript of credits when it is evaluated. In that case, this student will be registered in accordance with these regulations.

A student who on account of employment or other similar reason is permitted to register for less than 15 hours and more than nine hours must pass two-thirds of his work.

A student who is permitted to register for nine hours or less because of employment may not come under these provisions if an approved application is filed with the dean in advance of the beginning of the semester's work.

SUSPENSION FROM COLLEGE

A student who convinces the authorities of the College that he is proving an unworthy citizen of the College community, and who fails to react in the right way to counsel given him, is dropped from the class rolls of the College. Such suspension may be for the remainder of the semester or less, or of the school year, or it may be made permanent. In no case are fees remitted to a student suspended from College by the College authorities.

A student who discontinues class attendance and makes no reasonable effort to secure withdrawal, may be placed on suspension by the dean.

A student suspended for disciplinary reasons, or required to remain out of college for scholastic reasons for one semester or more, is required to petition the Administrative Council for re-admission before he may again register. If approval of the Administrative Council is not secured, the student may not register.

When a student is suspended from the College the grades will be given in accordance with the paragraphs on grades, in the same manner as in the case of withdrawals.

HAZING

Hazing is forbidden by the laws of the State and by College regulations. Every student is pledged upon registration to obey the laws of the State, and particularly to obey this law. Chapter 4-A of Title 15 of Vernon's Criminal Statutes of the State of Texas specifically forbids students at any State institutions to engage in what is commonly known and recognized as hazing or to encourage, aid, or assist any other persons thus offending. The Statutes particularly define hazing and require not only that students shall obey the law, but that teachers of the institution shall enforce it. The full cooperation of the faculty and student body must be directed toward the entire elimination from this institution of any and all practices coming within the very complete definition contained in the Texas law.

WARNING ON STUDENT CHECKS

Students are urged to exercise care in paying fees or making campus purchases by check. A returned check calls for a penalty of fifty cents, which will be charged against the student's breakage deposit. A student issuing such a check may, upon the notification of the Business Office, be immediately suspended by his Dean, and may be reinstated only upon petition to and favorable action by the College Administrative Council. The College will not accept a check from a student who has once been suspended for giving a worthless check.

INTRAMURAL TRANSFERS

The College encourages students to develop interest and knowledge in specialized fields of learning. Frequently it is necessary that op-

portunity for a change of major interest be provided, and to this end transfers between the different main divisions of the College are encouraged whenever such seem necessary in the best interest of the student. Students desiring to transfer from one division of the College to another must apply to their dean either at the beginning of the year in the fall or before examinations are held at the close of any semester. Transfers are made in writing from the dean to the Registrar.

If a student has failed to pass nine hours under the scholarship probation regulations, he will not be enrolled in another division of the College until the provisions of the probation regulations have been met.

RESERVE OFFICERS TRAINING CORPS

Military Science and Tactics has been taught in Texas Technological College since the opening of the College in 1925, but Texas Tech has never had a thoroughly organized R. O. T. C. in cooperation with the United States Department of War. For the first time in the history of the College, there will be a regular R. O. T. C. Unit, supervised by the War Department, at Texas Tech at the opening of school in the fall of 1936.

The training in the Engineering Unit of the R. O. T. C. at Texas Tech is purely voluntary, to be elected by the student. The student who continues the work for four years will be commissioned as a Second Lieutenant in the Reserve Officers Training Corps of the United States Army. In the Engineering Unit, the work is applied engineering, furnishing the student with a fine laboratory for increasing his real education and training in engineering. The instruction in military courtesy, department, constitutional law and neatness, is an essential part of the training. Every student is to be furnished with a uniform. A new temporary building is being constructed

for the housing of the Military Unit.

The work is in charge of regular officers of the United States Army assigned to Texas Tech by the War Department. These officers are graduates of West Point Military Academy and also of other engineering schools.

RELIGIOUS INSTRUCTION IN THE COLLEGE

Texas Technological College does not support a Department of Bible or of Religion. Some instruction, however, is offered in connection with the work of the College.

It is possible for the student who desires to do so to secure instruction in several courses in Bible study, and receive college credit for the work.

Students are urged to locate the church of their choice and attend its various services. Several of the churches through local assistance and also by reason of a wider support are able to maintain student secretaries. Every thing possible is done to make the students feel at home. Many of the Sunday School classes and departments of Young People's work are devoted exclusively to college students. You are urged to attend. You will be at home.

THE ARTIST COURSE

The Artist Course is the name given the college-sponsored lectures and musical entertainments. This series is under the supervision of the Artist Course Committee and is conducted on a non-profit basis. It is the custom to secure four or five entertainments during the long session of the College. The worthwhile nature of the numbers is shown in that the course is becoming increasingly popular with the townspeople, who pay a much higher rate for tickets than do the students. Season tickets for students sell for 75c each semester. Any one number is worth

the full charge for a season ticket. Students should secure their tickets when paying their registration fees, but a later purchase is possible if it was overlooked at that time. Seats may be reserved if desired.

ARTIST COURSE COMMITTEE

This committee is composed of six faculty members and six students, the latter appointed by the President of the Student Association. The group is in charge of selecting the entertainments, and endeavors to make selections that will be both interesting and educational to the majority of the Student Association.

MEDICAL SERVICE FOR STUDENTS

The West Texas Hospital, 1302 Main, in return for the \$4.00 per semester collected from students for medical service, agrees to render the following services to any student enrolled in Texas Technological College, who has paid this fee at the beginning of the current semester.

1. The student will be given a physical examination immediately preceding the opening of each semester or as soon thereafter as practicable, the limiting date to be determined by agreement between the College and the Hospital. In case of abnormalities, the student will be given advice with recommendation as to treatment.
2. The student will be allowed free consultation with the College physician at any time such consultation is desired.
3. The College physician will make, without further charge, calls to the student's home or at the Hospital.
4. Each student will, in case of necessity, have free use of the Hospital facilities of the West Texas Hospital, including board, lodging and general nursing in the Hospital, provided this does not exceed twenty-one days in any one school year. In the event of an epidemic, this limit may be reduced, and in

case of necessity, the limit may be extended. Any reduction or extension will be made upon the recommendation of the President of the College. These provisions apply only to the relief of acute conditions and do not include special nursing unless authorized by the President of the College in cases where students are financially unable to employ a special nurse.

5. The Hospital agrees to furnish hospitalization to students who while in College contract contagious diseases, for example, mumps, measles, flu, to the capacity of the Hospital facilities. In case of an epidemic of contagious diseases, where the Hospital facilities are taxed beyond their capacity, arrangements will be made, mutually agreeable to the College and the Hospital.

6. If an ambulance is required to carry the student to the Hospital this will be furnished without additional charge.

7. The student will receive without further cost any pathological or X-ray examination which may be needed for treatment underway in the Hospital.

8. a. Any minor, surgical operations which may be needed by the student, such as for cuts, sprains, simple fractures, and vaccinations, will be performed for him without further cost.

b. Emergency operations for appendicitis (for acute cases only) will be performed for the student without further cost.

9. The student will receive without further cost examinations and treatments by specialists for eye, ear nose and throat difficulties. This, however, does not include operations for the removal of tonsils, for chronic nasal diseases or for special operations on the eye or ear.

10. On all operative work not covered by

the medical fee, students will receive a discount of 25 per cent from the regular charge.

11. First aid service and consultation with the school physician can be had at stated hours each day at an office provided by the College on the campus. This does not interfere with the provisions in paragraph 3 above.

12. Daily service of a trained nurse can be had at the office on the campus during the school year at hours to be announced.

13. Members of the faculty of Texas Technological College and their families may receive medical and surgical attention at a discount of 25 per cent.

14. Casualty work for employees injured while on duty in their respective services for the College will be cared for by the Staff without charge. This does not include hospitalization, and will apply only to those injured while on duty during working hours.

15. The West Texas Hospital agrees to report promptly to the Dean of Women of the College every case of illness among the women of the College and to report to the Dean of Men every case of illness among the men of the College, with an adequate statement of the nature of the illness.

16. The West Texas Hospital agrees that all case records of students remaining in College after the period covered by this agreement will be available to the College authorities upon request.

17. The West Texas Hospital agrees to furnish the College semi-annual reports of all services rendered to students under this agreement.

18. With reference to the treatment of any cases seemingly not covered in the above conditions, the College and the Hospital will come to a mutual agreement as to the handling of such cases.

ESTIMATE OF ANNUAL EXPENSE BY SEMESTERS

An estimate of the annual expense by semesters for one long session of nine months follows:

	Sem. I	Sem. II
Tuition and fees	\$ 25.00	\$ 25.00
Breakage deposit	7.50	7.50
Medical fee	4.00	4.00
Student activity fee	7.50	
Board and room in College residence halls	105.00	105.00
Books and incidentals (estimated)	25.00	25.00
Laundry and pressing (estimated)	15.00	15.00
Total	\$189.00	\$181.50

Students desiring the artist course ticket, pay \$0.75 per semester in addition to the above.

The breakage deposit of \$7.50 must be kept good at all times. In case it has been entirely used up at the end of the semester, a new deposit of \$7.50 must be made. If part of it has been used, the student must deposit the amount needed to make a total of \$7.50 for the second semester.

Student Activities Fee, amounting to \$7.50 for the year, is payable the first semester. The fee is divided as follows: \$5.00 goes to Athletics and entitles the student to admission to all games and contests; \$1.00 for the support of the Matador Band; \$.25 to the Student Council; \$.75 goes as a subscription to the Toreador, a semi-weekly publication; \$.15 to the support of the Senior Livestock judging team; \$.10 to the Association of Women Students; \$.12½ for the support of the Intercollegiate debate teams; and \$.12½ to the Dramatics teams.

The fee for the second semester, for those students who did not pay it the first semes-

ter is \$2.25, and is to be divided as follows: \$.75 goes to Athletics and entitles the student to admission to all subsequent games and contests; \$.25 to the Student Council; \$.37½ for the support of the Matador Band; \$.37½ as subscription to the second semester issues of the Toreador; and \$.50 to be divided among the Livestock judging teams, Debate, Dramatics, and A. W. S. as in the ticket purchased for the whole year.

ARTIST COURSE FEE

Artist Course Fee, amounting to \$.75 for each semester entitles the purchaser to admission to all entertainment selected by the Artist Course Committee. This committee is composed of an equal number of students and faculty members. The Artist Course is a student enterprise sponsored by the Student Council.

CONVOCATIONS

College assemblies are held at intervals, the place of meeting being the gymnasium. Announcements of these meetings are made on the bulletin board and in the classes. When convocation is to be held all classes are ordered dismissed by the President and all students are expected to attend. On account of the distance to the gymnasium it is the custom to hold convocations only when needed and to endeavor to make them worthwhile and as interesting as possible. All students are urged to get into the habit of attending these meetings.

STUDENT AIDS AND HONORS

Scholarships and prizes, honors, and loan funds are as listed in the College catalogue.

WEEK OF RESTRICTED SOCIAL ACTIVITIES

During the week preceding examinations the Faculty Social Activities Committee will not schedule any social function at the College.

STUDENT
ASSOCIATION

THE STUDENT ASSOCIATION

CLAUDE THOMPSON
President

TO MEMBERS OF THE STUDENT ASSOCIATION:

The Student Council welcomes each of you to Tech. We need your help to make this the most important year in the history of the school.

Texas Tech is a young institution in age, but we can proudly compare it with any school in the nation in development and school spirit. We want you to help Tech progress by working with the Student Council and the Administration. The Council or any of its members are always willing to help you in any way.

Tech is a Democratic school; keep it that way by being friendly and speaking to every student on the campus. Think Tech, talk Tech, and boost Tech while you are here and when you go home.

Sincerely yours,
CLAUDE THOMPSON,
President.

Wilmot Eaton
Vice-President

Helen Lehmborg
Secretary

CONSTITUTION

PREAMBLE:—We, the students of Texas Technological College, in order to be able to exercise the powers delegated to us by the College; to develop student government; to bring about a closer relationship between the College Administration, the faculty, and the Student Body; to recommend to the Administration and student organizations action which we deem advisable; to uphold student rights; to promote democracy; and in general to promote the highest ideals and best service for Texas Technological College; do hereby establish the following constitution:

ARTICLE 1:—Name

The name of this organization shall be "The Student Association of Texas Technological College."

ARTICLE 2:—Membership

The membership of this organization

shall consist of all undergraduate students of Texas Technological College.

ARTICLE 3:—Meetings

There shall be no regular meeting times, but the Association shall at all times be subject to the call of the President of the Student Body. Fifteen per cent of the membership shall constitute a quorum for transacting business.

ARTICLE 4:—Officers

Section 1:—The officers of this Association shall be a President, a Vice-President, and a Secretary-Treasurer, elected from the membership of the Association.

Section 2:—The President shall preside at all meetings of the Student Association and shall be ex-officio chairman of the Student Council. The President shall recommend such measures as he shall judge expedient, shall have the power to call special meetings of the Student Council and of the Association, shall see that the rules and regulations of the Association are faithfully executed, and shall appoint all committees of the Association or of the Council. The President shall perform any and all other duties properly incumbent on the chief of the Student Body.

Section 3:—It shall be the duty of the Vice-President to act as President in case of the absence or temporary inability of the President. The Vice-President shall be ex-officio a member of the Student Council. In case of a vacancy in the office of President, the Vice-President shall assume the office and duties of President for the unexpired term.

Section 4:—It shall be the duty of the Secretary-Treasurer to keep a correct record of the proceedings of the Student Association and of the Student Council and to keep an account of all money belonging to the Association. On or before the last meeting of the school year, the Sec-

retary-Treasurer shall present to the Council for auditing and publication an itemized account of the receipts and disbursements made on behalf of the Student Association.

The Secretary-Treasurer shall record all minutes and proceedings of meetings of the Council and the Association in duplicate, one copy to be filed in the Secretary's Book and the other to be filed in the office of the President of the College within one week after each meeting.

Section 5:—The officers of the Student Association shall assume the duties of office upon the last day of the spring semester of each year. Before entering upon the execution of their duties of office, the above officers shall take the following oath given by the retiring President of the Student Association:

"I do hereby solemnly swear (or affirm) that I will faithfully execute the duties of my office, and will to the best of my ability preserve, protect, and defend the constitution of the Student Association, and the rules and regulations which may be made in pursuance thereof."

ARTICLE 5:—Legislative Department

Section 1:—All legislative power shall be vested in a Student Council.

Section 2:—The Student Council shall consist of:

(a) The President, Vice-President, and Secretary-Treasurer of the Student Association.

(b) The student representative to the Athletic Council.

(c) The presidents of the senior, junior, sophomore, and freshman classes.

(d) One senior, one junior, and one sophomore from each of the four main divisions, namely: Agriculture, Arts & Sciences, Engineering, and Home Economics.

(e) One second semester freshman from each of the above divisions during the spring semester.

Section 3:—Before entering upon the duties of his office, each member of the Council shall take the same oath as that provided for the officers of the Student Association.

Section 4:—The Student Council shall have the power:

(a) To determine the eligibility of members of the Association.

(b) To determine the eligibility of its own members.

(c) To expel, by a two-thirds vote of the members present, any member of the Council for improper conduct, repeated absences, or lack of interest.

(d) To appoint from a list of eligible candidates, a member of the Association to fill any unexpired term within the Council.

(e) To make recommendations to the President of the College, or to any committee representing the College or the Student Association, or to any organization of students or officials.

(f) To control all money belonging to the Student Association, from whatever source the money may be derived.

Section 5:—It shall be the duty of the Council:

(a) To hold all elections of the Student Association and of any of the four classes.

(b) To appoint some eligible member of the Association to fill the unexpired term of a vacancy occurring in the office of Vice-President or Secretary-Treasurer of the Association, the student representative to the Athletic Council, or the yell leader.

(c) To determine, with the aid of the Registrar and the Deans, the eligibility of all candidates for elective offices.

(d) To consult and cooperate with the College authorities on any matter concerning the welfare of the Institution.

Section 6:—Meetings

The Council shall meet regularly twice each month, at a time and place designated by the College Social Calendar Committee, but shall at all times be subject to call by the President of the Council, or upon written request of six or more members of the Council.

Section 7:—A majority of the Council shall constitute a quorum for transacting business.

Section 8:—All requisitions on the Student Association fund shall be signed by the President and the Secretary-Treasurer, and approved by the Dean of Men and the Dean of Women.

Section 9:—Every measure passed by the Council shall be submitted within three days to the Toreador for publication.

ARTICLE 6:—Student Publications

Section 1:—The officers of the Student Publications shall be an editor and a business manager of The Toreador and an editor and a business manager of La Ventana, to be elected at large by the members of the Student Association.

Section 2:—Publications Committee

(a) The Publications Committee shall be composed of faculty members appointed by the President of the College and an equal number of students, the student members to be appointed by the President of the Student Association, and subject to change at any time. The President of the College shall be ex-officio a member of this Committee but shall have a vote only in case of a tie. The President of the Student Association shall also be ex-officio a member of the Committee but shall not be entitled to a vote.

(b) This Committee shall determine the salaries of the publications officers and members of the staffs.

(c) The officers of the Student Publications shall be responsible to the Publications Committee for expenditures, policies, records, reports, etc.

(d) This Committee shall have the power to remove any publications officer from office for the publication of libelous or illegal matter, or other matter damaging to the reputation of the College or of an individual; for the neglect of duty; or for other gross abuse of the functions of his office.

(e) Any vacancy in the publications offices either because of removal from office, permanent inability, or absence of candidates shall be filled by an eligible member of the Student Association appointed by the Committee.

(f) The Publications Committee shall have a chairman who shall be a faculty member, and a secretary who shall be a member of the Student Association. The chairman and secretary shall be elected by the Publications Committee at its first meeting after the opening of school in the fall semester, to hold office until the election of their successors the coming year. The chairman must be approved by the President of the College.

(g) It shall be the duty of the secretary to notify all members, at least one day in advance, of all meetings of the committee, said meetings to be called by the chairman or by the President of the College.

The secretary shall record all minutes and proceedings of the Committee in duplicate, one copy to be filed in the Secretary's Book, and the other copy filed in the office of the President of the College

within one week after each meeting.

Section 3:—The term of office for each of the Publications officers shall begin at the opening of each school year and shall continue until the end of that school year.

Section 4:—All officers shall be ineligible for re-election except in case they have served less than one semester of an unexpired term.

ARTICLE 7:—Elections

Section 1:—Eligibility of candidates

(a) Candidates for the offices of President, Vice-President, and Secretary-Treasurer of the Student Association, the student representative to the Athletic Council and the yell leader must have at least a "C" average in all of their college work, and must have passed a minimum of 9 semester hours with at least a "C" average during the semester preceding the one in which the election is held. Candidates for the offices of President and Vice-President must have at least 90 semester hours at the time of assuming office. Candidates for the offices of Secretary-Treasurer, student representative to the Athletic Council, and yell leader must have at least 60 semester hours at the time of assuming office.

(b) Candidates for the publications offices must meet the requirements set forth above for candidates for Secretary-Treasurer of the Association, and shall file with the Secretary of the Association, at least fourteen days and not more than thirty days prior to the date of election, a petition signed by fifteen per cent. of the qualified voters announcing the intention to run for the office desired.

(c) Each candidate for membership in the Student Council must have passed enough semester hours, and not more than enough, to be a member of the class which has nominated him, and must have

made at least a "C" average during the semester preceding the one in which the election is held.

(d) Two elective offices shall not be held simultaneously by the same person.

(e) Only members of the Association, in good standing with the College, shall be eligible to hold an elective office.

(f) Only members who have attended Texas Technological College for one full school year at the time of election, freshmen excluded, shall be eligible to hold an elective office.

Section 2:—Eligibility of voters

Only members of the Student Association, who are in good standing with the Student Council, shall be entitled to vote in student body and class elections.

Section 3:—Nominations and time of elections

(a) Nominations for Student Association officers, student representative to the Athletic Council and yell leader shall be made from the floor at a general student convocation to be held during the last week in April. The election to fill these offices shall be held one week later.

(b) The elections for the publications officers for the following year shall be held during the last week in February.

(c) Class officers and Student Council members shall be nominated, and elected by rising vote during the second week of the fall semester, at separate class meetings to be called by the Student President. These meetings shall be held simultaneously in different rooms, and shall be presided over by former members of the Student Council, to be designated by the Student President. Freshman members of the Council shall be elected during the first week of the spring semester, at a meeting to be called by the freshman president. Election to all of the above

offices shall be by a majority of the votes cast, such majority to be obtained by successive elimination of the candidate receiving the fewest number of votes.

Section 4:—Method and rules of election

(a) The election of Student Association officers, student representative to the Athletic Council, yell leader, and publications officers shall be conducted by secret ballot. Printed ballots shall be prepared by the Student Council, on which names of candidates shall appear in alphabetical order.

(b) One ballot box shall be located in each of the following buildings: Engineering, Agriculture, Home Economics and Administration. Each ballot box must be locked and the keys must be in possession of the Student President. No box shall be opened between the time elections begin and the time officially designated for counting the votes.

(c) The polls shall be open from eight o'clock a. m. until five o'clock p. m. From twelve until one o'clock the boxes and official lists shall be kept in the office of the dean of each division.

(d) At each voting place the judges of the election at any time shall be one Student Council member, and one faculty member of the division in which the ballot box is located, the latter to be designated by the dean of that division.

(e) Manner of voting

(1) A full typewritten list by divisions of all regularly registered eligible voters will be furnished by the Registrar to the judges of the election of each voting place.

(2) Any student whose name appears on the list furnished by the Registrar may apply to the judges for a ballot.

(3) Before receiving the ballot he shall sign his name opposite his typewritten

name on the official list. One of the judges of the election shall number the ballots on the back as they are handed to the voter and shall put his own initials and the division name or initials following the ballot number. Before issuing the ballot, the judge shall also place the number of the ballot opposite the name of the student on the official list of qualified voters.

(4) The preferential method of voting shall be used. The voter shall indicate the order of his preference for each office by placing the number (1) opposite the name of his first choice for the office, a (2) opposite the name of his second choice, a (3) opposite the name of his third choice, etc. A choice must be indicated for every candidate. After the ballot has been filled out, the voter shall hand it to a judge who shall deposit it in the ballot box and check the voter's name on the official list.

(f) Counting of Ballots

(1) When the hour for closing the election arrives, each ballot box shall be carried to a room designated by the Student President, by the judges in charge of each box at that time. The President shall then open the boxes, and the eight judges and the officers of the Student Association shall canvass the votes and immediately make public announcement of the results. No ballot shall be valid unless a choice is indicated for every candidate. In counting the votes, a number of points equal to the number of candidates for the office in question shall be given for a first choice, a number of points equal to the number of candidates less one shall be given for a second choice, etc. The candidate receiving the greatest number of points for each office shall be declared elected.

The election returns shall be made in duplicate and each copy signed by the President of the Student Association and one faculty judge. One copy shall be deposited with the ballots in a ballot box which shall be locked and delivered to the business office of the College, where it shall be kept in the vault at least one month.

(2) The President, Vice-President, and Secretary-Treasurer of the Student Association shall constitute a committee to whom any candidate desiring a re-count must petition within twenty-four hours after announcement of election returns.

(3) Re-counts shall lie at the discretion of the above mentioned re-count committee; but in no case shall a candidate be entitled to a re-count unless he presents to the committee seemingly convincing evidence of the justness of his petition.

(4) All re-counts shall be conducted by the re-count committee, and in the presence of only the representatives of each of the interested candidates and the President of the College.

(g) There shall be no electioneering of any kind on election day within the room or corridor wherein is located a ballot box.

(h) Any one guilty of fraudulent conduct in connection with a student election, i. e., voting twice, using undue influence or other fraudulent conduct shall be guilty of an offense and shall be punished by the Student Council as they deem necessary and proper. In case the Student Council feels that disciplinary action is necessary, they shall make such recommendations to the proper College authorities.

ARTICLE 8:—General Provisions

Section 1:—Upon adoption of this Constitution all articles and provisions, except such as may be called Traditions,

not herein set forth, shall be declared null and void.

Section 2:—The one elected yell leader shall select his own assistant, whose qualifications must be the same as his own. There shall be no freshman yell leader.

Section 3:—Election of representatives of the Student Association not heretofore provided for.

(a) All beauties whose pictures are to occupy a beauty page in La Ventana, all queens and others who are to represent the Association or any of the four classes shall be elected by popular vote of the students represented, the election to be supervised by the Student Council. The Student Council shall also have charge of any similar elections on the campus which it deems necessary or advisable to supervise.

(b) One ballot box only shall be used for these elections and shall be located in some convenient place on the campus. The judges of the election shall be one Student Council member, and one faculty member. Rules for these elections shall be the same as those for Student Association offices, except that a student directory may be used instead of the official lists furnished by the Registrar. The voting and counting of the ballots shall also be the same as for the Association offices elections.

Section 4:—The Student Council shall have the power to appoint an advisory committee on the expenditure of any funds appropriated by or controlled by the Student Council.

ARTICLE 9:—Amendments

Section 1:—This constitution may be amended by a majority vote of the members present at a meeting of the Student Association.

Section 2:—An amendment may originate in the Student Council, or may be

presented to the Council with a petition signed by fifteen per cent of the eligible voters of the Association.

Section 3:—Any proposed amendment must be published in The Toreador at least one week and not more than two weeks before it is voted on by the Association.

STUDENT PUBLICATIONS

The Toreador

Jim Lindsey
Editor

Burnice Walker
Business Manager

The Toreador, semi-weekly student newspaper, is edited and managed by students and printed by the Tech Press. It has gained national recognition as one of the outstanding College newspapers in the country.

The subscription is included in the Student Activity Fee, and the paper distributed to students who have their fee cards, to alumni, and to other colleges and universities in exchange.

The policies and finances of the paper are governed by the Publications Committee, which is composed of students and faculty members.

Send your Toreadors home, or file and keep them; they will be valuable to you some day.

La Ventana

Winston Reeves
Editor

Wilson Grimes
Business Manager

La Ventana, the College year book, or annual, sums up the year in picture and paragraphs, touching practically every phase and interest of college life. The subscription to this book is five dollars which is signed over from the breakage deposit during the time of registration. The purchase of an annual is not a requirement of the College but the friendships that you make and activities in which you engage during your college career will all be represented in your college annual. In later years this book will bring priceless memories that will enrich all the days of your life.

ORGANIZATIONS

CLUBS AND SOCIETIES

The College authorities have followed the policy of encouraging student activities and organizations. No organizations among students on the campus will be permitted unless application is made to the College Administrative Council for the right to organize such a club, stating the object, type of membership, and other matters necessary for its organization. Every organization must have the approval of the College Administrative Council. No club will be permitted to organize unless the objects are such as to promote not only the best interests of the individual students who become members, but also the best interests of the institution itself. All clubs and societies are required to have faculty sponsors, and the treasurers of student organizations are required to follow certain regulations and to deposit the funds with the College business office.

By a ruling of the Board of Directors, Greek letter social fraternities are not permitted in the College.

ASSOCIATION OF WOMEN STUDENTS

The purpose of this organization is to discuss the matters of interest to women students for mutual help and benefit and to promote on the campus of this college all worthy undertakings, organizations, movements, etc., of the student body.

All women students are members of the Association.

There is one meeting of the Association each semester. Special meetings may be called at the instance of the executive committee.

AWS CABINET

The Cabinet serves as a legislative body in the Association of Women Students.

JUNIOR COUNCIL

The purpose of the Junior Council is to promote general welfare among freshman students and to function with the AWS cabinet

when the Association president deems it necessary.

The Junior Council is composed of all women students of junior standing with a C average or above, and fifteen sophomore women who meet the same requirement.

Meetings are held at least once a month during the fall semester. Joint meetings with the AWS Cabinet may be held at the instance of the Association president.

MEN'S DORMITORY ASSOCIATION

All students of the College who live in the Men's Dormitory are members of the Men's Dormitory Association, which was organized in the fall semester, 1934. The purpose of the organization is to have social activities for the members and to transact any business concerning the members. The officers include a president, vice-president, secretary, treasurer, parliamentarian, and historian. The president of the Student Council presides at the first meeting of each year, at which time officers are elected, and at any meeting in the fall before the election of officers, and when such meeting is called by the Social Director for the purpose of transacting special business.

ACTIVITIES

A Baldwin Grand Piano was presented to the dormitory for the lounge, and an upright piano for the dining room, by the Regents of the College in December, 1935.

Programs are held in the lounge two Sunday afternoons each month. These programs are talks by the College president, deans, instructors, or other interesting speakers. The residents participate in many informal musical programs.

The YMCA, YWCA, and Pre-Law Club programs are often scheduled in the lounge or in the dining hall of the dormitory.

The Men's Dormitory Association erected a large Welcome sign on the dormitory to the Governor and other guests for the Decennial

Program last November, and contributed a float which was entered in the parade.

A party for the Graduating Class is sponsored each spring.

A dance is given each month for the dormitory residents and their dates.

A radio for the lounge was bought by the residents of the dormitory. Smoking stands and a magazine cabinet have been purchased and subscriptions for magazines will soon be made which will add to the pleasure of residents who meet in the lounge for recreation.

Three large oil paintings have been loaned to the Men's Dormitory Association by Dallas artists. The subjects and artists are as follows: "A Construction Picture of the Bridgeport Dam," Mr. Lloyd Goff; "The Housekeeper," Miss Vivian Aunsbaugh; and "Blue-bonnetts," Mrs. T. R. Watson.

The dormitory residents enter athletic teams in several of the intramural sports. Teams are chosen from each floor of the dormitory and are entered in touch-football, basketball, and softball.

The Sponsors are Dean J. M. Gordon, Dean of Men, and Mrs. Bennie M. Buford, Social Director.

ALPHA CHI

This honorary organization was organized at Georgetown, Texas, in 1915 as a local affair. It became a state organization in 1922 and was called the "Scholarship Society of Texas." Later Louisiana and Arkansas were admitted and the name changed to "Scholarship Society of the South." In 1934 it became a national organization, changing its name to Alpha Chi. Its first president was Dr. H. Y. Benedict, President of the University of Texas.

Alpha Chi was established in Texas Tech in 1926 by A. W. Evans and Professor R. C. Harrison.

The purpose of the chapter is to have an active undergraduate chapter that is closely

affiliated with the faculty. Frequent meetings are held with programs calculated to promote an interest in scholarship and to provide close contact between students and faculty.

Alpha Chi is dedicated to a stimulation of a spirit of sound scholarship and devotion to truth wherever such may be found; opposed to bigotry, narrowness, and distinction on any basis save that of real genuine worth.

Membership is restricted to regular undergraduate students who shall be of senior and junior standing. Membership is for life unless forfeited for cause. There are four classes of members which are, (1) active, (2) graduate, (3) alumni, (4) honorary.

Student active members are selected from the upper tenth of the junior and senior classes. The present Alpha Chi has 70 members now in residence. Since the chapter was organized and established in 1926 approximately 450 students have been elected to membership.

BAND

The Texas Tech Band, which consists of 100 players, is one of the most active organizations on the campus. During the football season the Tech Band is one of the first groups to appear at the field and makes every effort to help keep the old spirit going throughout the game.

During the past two seasons the Tech Band has accompanied the football team to the Pacific Coast to play for them during their encounter with Loyola at Los Angeles. In the fall of 1935 the band played a series of radio and concert programs in Los Angeles before the game, and after the game went to San Diego and played two full concerts at the California-Pacific International Exposition which was being held in Balboa Park.

During the spring semester, the Tech Band makes extended concert tours over different points of Texas, usually travelling from 800

to 1,000 miles on each tour. They have been very successful the last two years on these spring tours, playing to many thousands of school children and others interested in band music of the higher type.

It is the sincere ambition of the officials of the Tech Band to make it one of the finest and most complete school bands in the whole country. This ambition is rapidly being realized.

Y. M. C. A.

The Young Men's Christian Association is an organization for social and religious work among young men founded in England in 1844 by George Williams. The movement spread rapidly and branches were soon formed in France, Holland, United States, Canada, India and Australia. The first world conference was held in Paris in 1855.

Membership in the Texas Technological College Young Men's Christian Association is open to all men of the College, both undergraduate and graduate students as well as to those of the faculty and to alumni who declare themselves in sympathy with the following statement of purpose:

"To create and maintain a spirit of democracy and Christian fellowship in the college community.

"To share with others the best we have in life.

"To secure a conception of the church universal and to find our place in it; in doing this we seek to understand, appreciate, and follow Jesus' way of life.

"To experiment in the application of religion to personal and social relationships.

"To clarify our religious conceptions and develop a rational religious philosophy of life.

"To study to understand the problems of our international, interracial, political, industrial, and economic life."

Application cards for membership may be

obtained from any member of the Cabinet or in the Y office. There is no membership fee and no part of the financing of the Y is dependent on securing a large membership.

The student Y. M. C. A. does not exist to provide activities for students to do things for students. It is an organization of men which affords an opportunity for them to search and discover for themselves the Christian way of life. General Y meetings are held once each week, usually on Wednesday nights, for the discussion of various problems before students. The programs are varied. In addition to this meeting there are meetings of many other smaller groups to take care of individual and group interests. These are organized as rapidly as the need is discovered.

Through the state and the national connections the Y. M. C. A. members are privileged to attend important conferences and conventions.

Y. W. C. A.

The Young Woman's Christian Association is an organization founded simultaneously in 1855 by two English ladies. In the South of England Miss Robarts started a prayer union with a purely spiritual aim and in London Lady Kimaid commenced the practical work of opening homes and institutions for young women in business. In 1887 the two branches united in the Y. W. C. A. which seeks to promote the all-round welfare of young women by means of residential and holiday homes, club and rest rooms, classes and lectures, and other useful departments. The association has spread all over the world and the total membership is over a half million.

The Young Women's Christian Association of Texas Technological College is an association for all of the women students of the College. Any woman student or faculty member may join by signing the following pledge:

"We, the members of the Young Women's

Christian Association of the Texas Technological College, unite in a desire to realize full and creative life through a growing knowledge of God.

"We determine to have a part in making this life possible for all people.

"In this task we seek to understand Jesus and follow Him."

This is one of the 650 such associations on the college campuses in America. Each association is automatically a part of the Council of Christian Associations, of the World Student Christian Associations, and of the National and World Y. W. C. A.

AGGIE CLUB

The Aggie Club, organized in 1925, is one of the oldest campus organizations. Membership is open to all students in the Division of Agriculture. The purpose of the Aggie Club is to foster and promote among the members interest in all matters pertaining to agriculture, to encourage cooperation among the members in the major projects of the College related to agriculture, to promote social events, athletic contests, and programs of the development and entertainment of the members, and to give aid and assistance to its members.

The club activities are many. Some of the most important are the annual pig-roast, at which members of the International Livestock Judging team are honored, Aggie banquet, party for the Home Ec. students, a float in the Annual homecoming parade, and presentation of a medal to the outstanding individual of the division.

The club maintains a loan fund from which members of the club may borrow money on short time loans.

FUTURE FARMERS OF AMERICA

The Cyril Luker Collegiate Chapter of The Future Farmers of America was organized at Texas Tech in the fall of 1933. The member-

ship consists only of students who are meeting the Smith-Hughes requirements for vocational agricultural teaching. The objective of this organization is supplementing the regular agriculture education course in the purposes of the National F. F. A. Organization. The activities sponsor development of its members for future work as vocational teachers.

DAIRY CLUB

This club was organized in 1933 and has increased its membership until it has become one of the leading clubs in the Division of Agriculture.

Its purpose is to promote and foster fellowship among the students of the Dairy Manufacturing Department, faculty members, professional workers in the Field of Dairy Husbandry, and those interested in this field of Agriculture.

The primary activities of this club are the annual dance during the fall semester and the preparation of a float for the annual homecoming celebration. The high light of the year is the displaying of dairy products at the Plainview Dairy Show.

BLOCK AND BRIDLE CLUB

The purposes of the Block and Bridle Club are to promote higher scholastic standing among the students of animal husbandry and to bring about a closer relation among the men pursuing some phase of animal husbandry as a profession.

The Block and Bridle club was organized in the Spring of 1933 with thirty-six charter members, three of whom were faculty members.

The club sponsors La Remuda, the annual Sophomore-Junior livestock judging contest, the Freshman livestock judging contest, and the annual banquet at the end of the year.

The local club is a member of the Nation-

al Block and Bridle Club and sends delegates to the annual national convention.

PLANT INDUSTRY CLUB

The P. I. Club was organized March 20, 1936, for the purpose of raising funds to support the senior crop and grain judging team. Only junior and senior majors in Plant Industry are eligible for membership. The club also sponsors a crop and grain judging contest within the department in the spring for students interested in this field of agriculture.

THE ENGINEERING SOCIETY

Every student registered in the Division of Engineering is a member of the Engineering Society. The dues are 50c a year, which entitle the member to all the rights and privileges granted by the Society.

The purposes of the Engineering Society are to foster a loan fund for Engineering students of Tech, to promote a spirit of unity, cooperation and friendliness among all Engineers, and to provide a means for promoting any enterprise for the welfare of the Division of Engineering.

The Society is incorporated and the Board of Directors is composed of the officers, and one representative from each of the Engineering professional student societies.

The Engineering Society sponsors the Annual Engineers' Ball in the fall semester, the Engineers' Banquet and the annual picnic during the spring semester, and the Engineers' Show.

SIGMA GAMMA EPSILON

The local chapter of the Sigma Gamma Epsilon, Alpha Beta, was organized June 5, 1931.

The fraternity has for its objects, the social, scholastic, and scientific advancement of its members, the extension of friendship and

assistance between the universities and schools with recognized standing in the United States and Canada, and the upbuilding of a national college society devoted to the advancement of Geology, Mining, Metallurgy, Ceramics and Petroleum Engineering.

The local chapter has sixteen active members and two sponsors, Dr. M. A. Stainbrook and Dr. W. I. Robinson. There are also a number of alumni who are members of the local chapter but are inactive.

The fraternity has a national convention every two years, which is attended by representatives from every chapter, with the purpose of bettering the fraternity and bringing each chapter closer together.

The requirements for membership are that the person be male, majoring in Geology, Mining, Metallurgy, Ceramics, or Petroleum Engineering in a recognized school, and whose rating, as shown by the college records, is not lower than a junior.

There is one meeting each week and one social affair each year, which is a stag banquet open to anyone registered in the Geology Department. The fraternity has a smoker at the beginning of each semester for the purpose of looking over prospective pledges.

A. S. M. E.

The student branch of the American Society of Mechanical Engineers is open to all students enrolled in Mechanical, Textile, or Industrial Engineering. The purpose of the organization is to promote a better feeling of unity and cooperation among the members.

At the meetings of the Society, technical or other interesting talks are made, professional pictures are shown, instructors and students informally discuss matters of interest to both, and plans are made for the various activities of the Society.

Each year the members go to the convention of the southern branch of the student A.

S. M. E., and two of the members present technical papers in competition with other schools, for the awards given by the national organization.

Besides participating in intramural and intra-division athletics, the society has frequent lunches, and has a farewell dinner in the spring honoring the graduating seniors.

The Society every year awards a book, presented by the national organization, to its outstanding student.

Last year a bronze plaque was laid in the cloister of the Engineering building, honoring St. Patrick, the patron saint of all engineers. Freshman Mechanicals have the job of keeping this plaque clean.

CHEMICAL ENGINEERING SOCIETY

This Society was organized to create general interest in Chemical Engineering. All students enrolled in Chemical Engineering are members.

The organization sponsors an annual picnic in the spring.

A. I. E. E.

This organization offers membership to any student enrolled as a candidate for degree of B. S. in Electrical Engineering.

Purpose: To provide an opportunity for students to take part in activities such as holding meetings, presenting papers, participating in inspection tours and other student functions.

Activities: Annual smoker, yearly trip to A. I. E. E. Student Branch Conventions.

A. S. C. E.

This organization is open to all Civil Engineering students. It was organized in 1932 for the purpose of promoting a better feeling among Civil Engineering students and to give them an idea of the profession.

Activities center around an annual banquet,

and a stag party.

Being a member affords easy access to membership in the professional Chapter of A. S. C. E.

GARGOYLE CLUB

The club was organized in the spring of 1929 and was originally known as The Architectural Society.

Membership is open to anyone taking a course in Architecture or Applied Arts.

Purpose of this club is to foster advancement of Architectural knowledge and to create a good feeling among the members of the department.

Each year the club sponsors an annual Architect's picnic and also an annual Architect's Dance.

S. P. E. S.

The Society for the Promotion of Engineering Scholarship is composed of the upper eighth, according to grade point averages, of the junior and senior Engineers, who also have qualities of leadership, honesty, good appearance, and character that would fit them to become good citizens and good Engineers.

The purpose of the organization is to promote and give due recognition to scholarship in the Division of Engineering. It expects to become affiliated soon with Tau Beta Pi, the national Engineering Honor Fraternity.

PHYSICS CLUB

The Physics club was organized on December 4, 1931, with a total membership of twenty-three students and faculty members. Since the time of organization the membership of the club has materially increased, and at the present time it is one of the leading science organizations on the campus.

The two primary motives of this organization are to promote interest in the development of modern physics and to sponsor the annual Physics Show held each year in the

Chemistry building.

PHI PSI

All students who are enrolled in Textile Engineering, with a grade average of "C" or better, and who are of sophomore standing, are eligible to membership in Phi Psi.

The purposes of the organization are to promote good fellowship among Textile Engineering students and to aid in the advancement of the art and textile manufacture. It annually sponsors the Cotton Carnival and the Cotton Ball, and makes awards to its outstanding members.

HOME ECONOMICS CLUB

Purpose: To further friendship, social life, and democracy among its members. To develop appreciations for subjects more or less directly related to homemaking. To keep in touch with some of the broader fields of knowledge. To become acquainted with recent developments in Home Economics. To maintain a loan fund to be used by students who major in Home Economics.

Anyone interested in any phase of Home Economics may become a member upon payment of dues. Meetings are on alternate Tuesday nights.

DOUBLE KEY

The purpose of Double Key is to encourage and reward scholarship and leadership in the Division of Home Economics. The organization awards a silver loving cup each year to the Home Economics sophomore ranking highest in scholarship and leadership.

Membership includes both faculty and student members, the latter of both junior and senior rank. Student election is based on contribution to college activities, qualities of leadership, personality, outlook for the future, the ability to carry on, and a scholastic average of B or above on all college work with no grade of F.

Meetings are held at the convenience of the society.

SOCK AND BUSKIN

This club was organized for those students interested in any phase of dramatics. During the year this organization presents several short and very interesting plays to which members of the Student Association are cordially invited to attend. To become a member of this organization a student must meet the requirements outlined by the head of the Speech Department. Small initiation and membership fees are required.

FORUM

The purpose of the Forum is to promote on the campus of this College all worthy undertakings, organizations, movements, etc. of the student body; to create so far as possible among the students an unselfish interest in the welfare of the College and its students; to furnish a means to a better understanding of human nature by holding as many general social meetings as is found practicable, thereby helping every student to broaden his scope of friendship; to try to give every woman student a part in some extracurricular activity in which her interests may be broadened and her service fruitful.

Forum is composed of fifteen women students who are of junior or senior standing. Only students having been registered in school for one long session or more are eligible. These must be actively registered in school; withdrawal from school automatically drops a member from active membership. A scholastic record of less than a C average bars an otherwise eligible candidate from membership.

Meetings are the first and third Monday nights of each month from 7 to 8 in the Administration building.

DEBATE CLUB

The Debate Club was organized for the benefit of students interested in debate. There are no dues or requirements for attendance, and meetings are held twice a month. Miss Annah Jo Pendleton, Professor of Speech, is the sponsor.

PRESS CLUB

The Press Club was the first professional club organized on the Tech Campus.

The main purpose of this organization is to bring its members into contact with prominent persons in the journalism profession. Each spring it sends a delegation to the Southwestern Journalism Congress. Tech now holds the record for sending the largest number of delegates to this function.

The club fosters a journalism department and all students majoring or interested in journalism are urged to become members.

The membership of the club includes both faculty and students and dues are fifty cents for one semester.

PRE-LAW CLUB

The Texas Tech Pre-Law Club is one of the oldest service clubs on the campus. It was organized during the second year of Tech's existence and has functioned every year since that time. Its roster of members has included the names of many leaders on the campus.

The club has as its purpose to acquaint its members with legal procedure in the court room, to help the student in deciding what law school to attend, and to create fellowship among members.

The activities of the club include several mock trials, one of which is to be put on by the freshman members of the club alone, a banquet, a picnic, and several speeches by prominent lawyers of the City of Lubbock.

Any student interested in the study of law is eligible for membership upon the payment

of membership fee. During the past year the club has had over forty active members.

ESPERANTO CLUB

An Esperanto Club was organized on the Tech campus for the first time during the past year. Any student interested in the study of Esperanto is eligible to become a member of the club. The club was organized for the purpose of giving the student a reading and speaking knowledge of the international language.

The club had about twenty members during its first year and is anxious to increase interest in the study of Esperanto.

ALPHA PSI OMEGA

This organization is a National Honorary Dramatic Fraternity. Students who have met local and national requirements and who have done outstanding work in dramatics are selected by the members.

LAS LEALES

Las Leales, a fellowship society for women students, was organized in the spring of 1929 for the purpose of making contact with fellow students which would create lasting and worthwhile friendships. Unselfish in its activities, the club has always cooperated with every enterprise for the good of the student body.

Some of the social functions of the year include a formal open house honoring new members, a tea for freshman girls and a banquet.

DOUBLE T

The Double T Club is an organization of all men who have earned their Tech letter in any sport. The purposes of the club are to promote a fellowship among the members, to foster clean athletics, to bring about a better understanding between athletes and non-athletes, and to furnish social entertainment for the members.

The club has an annual dance in the fall, a picnic in the spring, and sponsors a Double T show each year.

INTERNATIONAL RELATIONS CLUB

The purpose of the International Relations Club, which is affiliated with the Carnegie Endowment for International Peace, is to give those interested a better understanding of international problems by fixing the attention of students on the underlying principles of international conduct which must be applied if peaceful civilization is to continue. A person belonging to this club must have had nine hours of Government or other social sciences with a grade average of "B."

PRE-MED CLUB

The Pre-Med Club was organized to act as a unifying agent; to create a common interest among the pre-medical students; and to give them an opportunity to get a broad vision of the scope of the field of medicine.

The club sponsors high scholarship and urges thorough application to college work.

LA CAPA Y ESPADA

La Capa y Espada was organized to stimulate interest in the culture and literature of Spain. Membership is open to all students enrolled in Spanish who have had two years of high school Spanish or one year of college Spanish.

S. P. Q. R.

The S. P. Q. R. Club is open to students of the classics. It endeavors to stimulate further study and a more general appreciation of these classics. Monthly programs are held to enlarge understanding of Roman life and literature, and to furnish social contacts among members of the Latin department.

THE ALUMNI AND EX-STUDENTS ASSOCIATION

The Alumni Association of the Texas Technological College was organized in 1927, im-

mediately after the commencement exercises for the first graduating class. At the annual meeting in 1934, the Association became the Alumni and Ex-Students Association. At the present time the institution has 2202 graduates. All graduates and ex-students are urged to be members of the Alumni and Ex-Students Association. The Association holds two rallies each year—one at Home-Coming in the fall of the year and the other at commencement time in the spring.

Divisional organizations with members holding regular meetings have been perfected in Amarillo, Austin, Dalhart, Dallas, El Paso, Ft. Worth, Perryton, Sudan, and Wichita Falls, Texas; Pittsburgh, Pennsylvania; Nara Visa and New Hobbs, New Mexico; and Washington, D. C.

An effort is made to keep a complete list of alumni with their addresses, positions held, progress in their life work and other information.

SOCIAL CLUBS

Inter-Club Council

The Inter-Club Council is an organization composed of representatives from each of the social clubs on the campus. It determines the policies and regulations to be followed by each of the represented groups.

WOMEN'S SOCIAL CLUBS

D. F. D.

D. F. D. was organized in 1930 for the purpose of building and preserving everlasting friendship and harmonious feeling among its members, to promote social and scholastic standards, and to uphold the ideals of Texas Technological College.

KoShari Club

The rituals and ceremonies of the tribes of Pueblo Indians of the Southwest were adopted for the KoShari Club background when the

members of the Les Cigales club reorganized in 1932.

"KoShari" means "Delight Makers." The Delight Makers preside at all ceremonial dances of the tribe and have custody of the kiva. The origin of KoShari Indians dates back to the time before Coronado. The organization itself is older than any Greek letter society.

In keeping with the purpose of the club and with the Indian background, the KoShari club members initiate pledges every Easter at Santa Fe, New Mexico. The ceremony is held at Arrowhead Kiva near Glorietta Pass, following numerous entertainments and sight seeing tours to points of interest around Santa Fe. The kiva where the secret initiation ceremony is held is part of a former pueblo that is being excavated by Tech anthropology students under the direction of W. C. Holden.

Las Chaparritas

Las Chaparritas was organized in 1926 as the first social club of Texas Technological College, for the purpose of furthering social welfare and a spirit of good fellowship among women of the College and has had an active participation in college life since organization. Las Chaparritas was named by Mrs. Salome Harrison.

Las Vivarachas Club

The purpose of this club is to further promote campus social life and to encourage higher scholastic records. A scholastic average of "C" is required for membership in this organization.

This club was organized in the Fall of 1929 and has been one of the outstanding social clubs of the campus during the past four years.

The annual affairs include: Open house honoring pledges during the fall, and a formal presentation dance in March.

Sans Souci

In the fall of 1926 five outstanding girls at

Tech, realizing the lack of social life on the campus, founded a club for that purpose, by the name of Sans Souci. The club had, and continues to hold for its high ideals, congenial, close and lasting friendship, high scholarship, a spirit of cooperation in the building of a better college, and the making of worthwhile citizens. The club selects new members upon ability to attain the ideals for which the club stands.

Sans Souci members are active in various campus organizations and campus activities. During the past fall semester Sans Souci had the highest scholastic ranking of any social club. Various members have won honorable distinction in the State in voice, piano, and dramatics.

Aside from their gala affairs during rush week, Sans Souci honors the founders and other alumni with an annual home-coming dinner. The formal presentation of pledges is the high light of all social activities of the fall semester. The spring semester is filled with such entertainments as costume balls, treasure hunts, picnics, and like activities, and is always climaxed on the last day of school with a farewell Tea Dance.

MEN'S SOCIAL CLUB

The Centaur Club

The Centaur Club was organized in the fall of 1929, and was the first men's social organization to be composed entirely of Tech students. Enrollment in the College and maintenance of a specified scholastic standing have always been prerequisites to membership in the organization. The club's chief purpose is the promoting of lasting fellowship among the members and encouraging each member to find a definite place in the college life. The organization is essentially a social one, and has sponsored many social functions. Each year the newly elected members are honored

at a formal dance. On each Mother's Day the club is the host to the mothers of all members at an informal breakfast. Formal social activities are concluded with a dinner-dance late in the spring, at which time all graduating members are honor guests.

The club, since its beginning, has operated a residence. Each July 4 the club holds what is known as the mid-summer meeting.

The Centaur alumni association was formed in November, 1932, and has been active in promoting the welfare of the club.

The Centaur Club has approximately 160 members including alumni and active members.

College Club

The College Club is the oldest Men's social club on the campus. It was organized in November, 1928, and has taken quite an active part in social functions for men students since that time. To become a member of this organization a student must be enrolled at the present time in or have been a student of some recognized college or university. The organization is essentially a social club and its chief purpose is to promote everlasting fellowship among its members.

The club sponsors several outstanding social functions during the year. During the first semester a smoker is held to welcome new students and prospective members. A formal dance is given honoring new members of the organization, and during the last semester a spring picnic and dance is held for pledges and special guests. The concluding social function of the year is a stag banquet given in honor of graduating members. At the present time the club is planning to have a reunion of members at some date during the summer months of each year.

The College Club always has an active part in all intramural sports.

Kemas

The Kemas club was organized in January, 1932, for the purpose of encouraging scholastic achievement and the promotion of fellowship among its members and the student body as a whole.

According to records in the Dean of Men's office, the Kemas club is the only men's social organization which has never been off the social calendar. It had the largest number of active members during the Fall Semester of 1935-36, and it had the highest grade point average of any Tech men's club for the same period.

Entertainments include rush dance, annual formal dance, spring festival, smokers, parties, banquets, and picnics.

The Kemas club takes an active part in all intramural sports—football, basketball, golf, tennis, boxing, and baseball. During the past year the club went to the finals in football and basketball.

Los Camaradas

Los Camaradas Club was organized December 1, 1930, for the purpose of stimulating close friendships and providing an incentive for a high type of college work.

Since the Spring of 1932 the Club has had one formal dance each year during the month of March. Since 1933 an annual smoker has been given in honor of the rushees, and each year several other functions are given by the club, including theater parties and dinner dances.

The Silver Key Club

The Silver Key Club was organized October 12, 1929, for the purpose of cultivating a feeling of brotherhood among its members and to establish campus friendships. It is the second oldest club of its kind on the campus.

At a meeting at the home of Dr. W. J. Howard, the charter members of Silver Key decided to group themselves together and work

toward a permanent organization. Mose Clark was elected first president.

The formal dance in the fall is the outstanding social event of the year. Other socials include dances and smokers.

Wranglers

The Wranglers Club organized October 21, 1929, to promote the ideals of fellowship, brotherhood, and scholarship among its members and fellow students on the Texas Tech campus.

Among the functions which have become traditions of the club are: fall dance, series of smokers during the year, formal dinner dance previous to Christmas holidays, annual formal Washington's Birthday dance, February 22, annual spring sport dance, Homecoming occasion honoring returning members, annual spring picnic, and a farewell banquet. During the summer the Wranglers hold a convention at some centrally located town, usually in the vicinity of Dallas.

There are approximately 200 alumni and members of the club. To the alumni a club newspaper is mailed each month outlining what the club has done during that period and what the plans are for the future. Further, a Wrangler Sinking Fund has been established for the dual purpose of aiding those members who otherwise would not be able to continue in college and to set aside a fund to enable the club to some day build their own home.

Files have been created to keep in constant contact with all alumni, and to inform them of all news of the club and of the things their other club brothers are doing. Further plans of the correspondence division is to interest new men in coming to Texas Tech.

During the year 1935-36, the Wranglers Club introduced a new activity to the campus by inviting business men to become patrons of their club. As a result of this plan the

club is proud to introduce as patrons: Doctors Sam Dunn, Fred Standefer, and R. T. Cannon; Messrs. Durwood Bradley, Hurley Carpenter, and Charles Guy. Mr. Heineman has been an active sponsor of the club for several years.

SPECIAL
ACTIVITIES

LA REMUDA

La Remuda staged by junior and senior agricultural Animal Husbandry majors was held for the first time in October, 1935, on the Tech Athletic Field. This event sponsored by the Block and Bridle Club, replaced the annual Aggie Rodeo as a means of raising funds to finance the senior livestock judging team. Events include competitive livestock novelty numbers between social clubs of the campus, parade of livestock, a grand court and the crowning of "Queen of La Remuda," who is elected by popular vote of the student body.

TECH ENGINEER'S SHOW

The Engineer's Show is sponsored by the senior engineers and, with the aid of the entire Engineering School, displays to the visitors what the students are doing.

The show is held annually during the Inter-scholastic League meeting in April. The entire Engineering School equipment and buildings are open for inspection and many experiments and laboratories are run during this open-house. Senior students acting as guides show the visiting public through the buildings and explain novel experiments and machine operations.

The show is free and souvenirs are on hand for those attending. The attendance has annually increased, the counters registering almost ten thousand visitors last year.

WELDING CONFERENCE

A Welding Conference is held annually in February in the Mechanical Engineering Shops by the manufacturers and users of welding equipment, cooperating with the Department of Mechanical Engineering.

Various displays and demonstrations are given showing the latest equipment and methods for the welding of metals.

Most of the major welding machine builders have representatives and machines on

hand to demonstrate modern welding practices.

The conference is open to the public with no charge, and visitors come from hundreds of miles for the free instruction.

LIVESTOCK JUDGING

Livestock Team

Dairy Cattle Team

Year	Ft. Worth
1932	3
1933	1
1934	4
1935	6
1936	4

The livestock team was first organized in 1927 and judged only at the Fort Worth Show. Mr. R. C. Mowery, Professor of Animal Husbandry, has been coach of the team since its organization. The team composed of juniors judge at the Fat Stock Show at Fort Worth in March. The following fall the senior team goes to the American Royal at Kansas City in October and then to the International at Chicago in November. The 1934 senior team brought Nation-wide honors to Texas Tech by winning the International contest at Chicago. The reward for this achievement was the Bronze Bull Spoor Trophy, and this Trophy remained in possession of the College for exhibition for one year. The contest at Chicago is by far the most important live-

stock contest in the United States and the honor brought to Tech by this team will long be realized. The livestock team is composed of five members and one alternate, and competition for a place on the team is very strong.

CROP AND GRAIN JUDGING TEAM

The first crop and grain judging team participated in the Kansas City Contest, October, 1931. The team placed 5th. Due to insufficient funds and unavailable material for judging practice, another team was not selected until the fall of 1935. This team made the trip to Kansas City during November and placed fifth in the contest. The crop judging team is composed of three members and one alternate. The alternate is an underclassman and is allowed to enter the contest and may return with the next year's team. Dr. A. W. Young, associate professor of Agronomy, was coach of the 1935 team. The financial support for sending this team to Kansas City is furnished by the Plant Industry Club and the Plant Industry Department.

DAIRY CATTLE TEAM

The dairy team judges only at Fort Worth and is composed of three members and one alternate, who are selected from the sophomore and junior agricultural classes. The contest takes place at Fort Worth in March during the Fat Stock Show. The first team was organized in 1932 and placed third in the contest. Doctor F. G. Harbaugh was coach of the 1933-34-35 teams and the 1935 team placed first in the contest that year. The coach of the 1936 team was N. C. Fine, instructor in Animal Husbandry and also a member of the champion 1934 International team.

ATHLETICS

ATHLETICS FOR MEN

Pete Cawthon
Head Coach

Tech's athletics are so conducted as to obtain the largest number of participants. Two years of physical training are required of all students. In addition a program of intramural sports has been developed which allows practically every one in College to participate. Directed training in intramural teams may be made a part of the required physical training if the student so desires.

The Coaching Staff includes P. W. Cawthon, Head of the Department; R. T. "Dutchy" Smith; and Berl Huffman. Hugh Williams is Ticket Manager.

Intercollegiate Athletics

Texas Tech is a member of the Border Intercollegiate Athletic Conference. Other member schools are Arizona State of Flagstaff, New Mexico State, Tempe State of Arizona, University of Arizona, University of New Mexico, and Texas College of Mines.

"Dutchy" Smith
Coach

Berl Huffman
Coach

Football

The Varsity squad, headed by Captain Demp Cannon, reports to Coach Cawthon at the gymnasium at 5 o'clock, September 9. Training begins September 10, under the direction of Coaches Cawthon and Smith. Freshmen may report at the beginning of school. Tech has won the Championship three of the past four years.

The 1936 Varsity and Freshmen football schedules are shown later in this book.

Basketball

The basketball schedule was prepared at Tucson last spring at a gathering of coaches. An intensive program is being planned with trips through Arizona and New Mexico. Coach Berl Huffman is in charge of this sport. Tech has won the Championship three of the past four years.

Track

Coach Huffman plans for intercollegiate track to include Tech's entrance in the relays at the Fat Stock Show at Fort Worth, Texas Relays at Austin, three dual meets, the Drake Relays at Des Moines, Iowa, and the Border Conference Meet.

Golf

This sport is under the direction of Professor J. W. Jackson. The 1936 team won the individual and team play Championship of the Border Conference. They also won all meets during the year with no losses. This included meets with several Southwest Conference teams.

Tennis

Intercollegiate tennis is under the direction of Professor Jimmie Allen. The tournament for places is held in the spring. Tech's team won the 1936 singles Championship of the Border Conference.

INTRAMURAL SPORTS

Intramural sports are taken seriously at Tech. Complete schedules are followed and every effort is made to encourage every man in the institution to practice with the teams of his organization. Raymond Lofland is director of all intramural sports.

Touch Football

Intramural Touch Football is played during the winter time. Varsity football players serve as coaches of the various teams. These teams are made up from the different organizations and clubs on the campus.

Basketball

This sport starts at the beginning of school. Different organizations and clubs make up the sixteen teams. Aubrey Butts will be in charge.

Tennis

Tennis is held in the spring. A tourna-

ment is conducted by Professor Jimmie Allen for places on Varsity team.

Boxing and Wrestling

Coach Huffman, aided by Milton Coffey, will have charge of these sports which are held during the winter. Different weights are given for each sport, and awards are given to the winners.

Baseball

This sport is under the direction of Gwyn "Mule" Dowell. Sixteen teams took part in the '36 schedule which covered a period of three months.

Soft Ball

Bob Cannon, sports editor of the Toreador, is in charge of this sport. Some twelve teams were involved in the '36 schedule.

WOMEN'S ATHLETICS

Mrs. Johnnie
Langford
Head Coach

Miss Zella Riegel
Coach

Two years of physical education are required of all women students in the College. Usually this work is taken in the freshman and sophomore years.

The physical education courses offer soccer and basketball in the fall term, volleyball in the winter term, baseball and tennis in the spring term, and swimming in the summer term. There are also classes in tumbling and dancing.

Besides the regular courses in physical education required of girls, it is possible for those interested in sports to join the Women's Athletic Association, an organization which functions independently of these required courses. Membership is open to all women students.

W. A. A. (Women's Athletic Association)

W. A. A. is open to all girls interested in sport activities. A varied program is offered

each semester. Girls report their activities and points are given in accordance with the time spent in activity, the skill necessary, and the standards set by the organization. Letter awards are given for five hundred and a thousand points accumulated.

Tennis Tournaments

Tennis Tournaments are held each year and awards are made by Dean Weeks and Dean Doak to the winners in singles and in doubles.

Social Clubs

The girl's social clubs are encouraged to take part in competitive activities in the sports they are interested in. The department furnishes equipment and officials.

Play Day

A play day is conducted early in May each year as a culmination of the sport program for girls. All girls are invited to take part. The program is designed to appeal to all girls regardless of skill.

Individual Sports

Every effort is made to encourage girls in the development of individual sports. The following individual sports are offered: Ping-pong, aerial dart, golf, riding, swimming, archery, and tennis.

GENERAL

HELPFUL HINTS TO FRESHMEN

Learn all of the songs and yells of Tech—especially the Matador Fight Song.

Attend all class meetings and convocations.

Get the college spirit.

Don't cheat. The better class of students do not cheat.

Choose your friends slowly. Then be a real friend.

Write home at least once a week.

Pull for Tech or pull out.

Remember that what you receive from college depends on what you put into it.

Remember that it takes a MAN to say "no."

It does not take a pipe, one-sided hat, coarse talk, etc., to make a college man.

Be friendly. Say "Hello" to everybody.

Don't tell people what you can do or have done; do something and they will find it out early enough.

There are limitless opportunities for a man who is dependable.

Freshmen wear your green cap. It is a distinction and a privilege.

Go to church. Get the habit.

Be thrifty with your cuts. You may need them.

Get into one or two activities and stick.

Before registration can be begun, you must secure room and board.

A list of approved rooming houses may be secured from Mr. Cecil Horne in room 101, Administration Building.

When the Matador Fight Song is played, stand with bared head. You should learn this song at once.

The Double T bench south of the Administration building was not built for freshmen. Never sit on it, for that is the upperclassmen's privilege.

It is not advisable for freshmen to cut across the campus lawns.

Respect for the College and the wearers of college letters demand that all students leave off all high school insignia when on the campus.

Don't fail to buy your activity ticket during registration, and attend all games and pep meetings.

Buy an Artist Course ticket.

Pay your bills promptly. A "dead-beat" soon finds that he is dead socially, financially, and otherwise.

Don't miss an athletic contest. Tech has a tough schedule this year, and she needs your support. Don't forget to yell.

WHY JOIN THE CHURCH

By Daniel A. Poling.

1. I OUGHT to belong to the Church because I ought to be better than I am. Henry Ward Beecher once said, "The Church is not a gallery for the exhibition of eminent Christians, but a school for the education of imperfect ones."

2. I OUGHT to belong to the Church because of what I can give to it and do through it as well as because of helping those who need encouraging. It is not a dormitory for sleepers. It is an institution of workers. It is not a rest camp, it is a front line trench.

3. I OUGHT to belong to the Church because every man ought to pay his debts, and do his share toward discharging the obligations of society. The Church has not only been the bearer of good news of personal salvation; it has been and is the supreme uplifting and conserving agency without which "Civilization would lapse into barbarism and press its way to perdition."

4. I OUGHT to belong to the Church because of memories; memories of things I can never forget; memories of faces that will never fade; memories of vows that are the glory of youth.

5. I OUGHT to belong to the Church because of hope; hope that lives when promises are dead; hope that paves the way for progress; hope that visions peace and social justice.

GUIDE TO STREETS IN LUBBOCK

The streets running east and west are numbered in order beginning at First Street and continuing south to the city limits. Broadway leads into the main entrance of the College and is so named instead of Twelfth Street. The next street north of it, Eleventh Street, is known as Main Street.

The streets running north and south are designated as avenues and are named after the letters in the alphabet, beginning with Avenue A, which is about two miles east of the campus, and continuing west to Texas Tech campus. Avenue I is known as Texas Avenue and Avenue Z as College Avenue. College Avenue is the east boundary of the campus. South of the campus special names are used.

There are no subdivisions of the streets into east and west, or north and south divisions; for instance, there can not be a 410 Avenue C. South, or 808 East Eighth Street, etc.

Street numbers for a given block are written on the curbs at the intersections in the business district and in a considerable portion of the residential districts where there is pavement. Street markers are generally used at the corners of unpaved streets.

The house numbers proceed from north to south and from east to west. The even numbers are on the north side and the west side of the streets.

HOW TO FIND PLACES IN LUBBOCK Churches and Their Location

1. Ashbury Methodist Church, Cor. 20th St. and Ave T.

2. Calvary Baptist Church, Cor. 19th St. and Ave. Q.
3. Church of Christ, Cor. Broadway and Ave. N.

 32. Hotel Lubbock, Cor. Broadway and Ave. K.

Recreational Places and Their Location

33. City Park and Swimming Pool, Northeast Corner of the city.
 34. County Park, on Broadway, East of the city.
 35. Panhandle-South Plains Fair Grounds, on Broadway, East of the city.

INSCRIPTIONS ON ADMINISTRATION

BUILDING

North Side

To right of main entrance: "Cultivated mind is the guardian genius of democracy. It is the only dictator that freemen acknowledge, the only security that freemen desire."—Mira-beau B. Lamar.

To left of main entrance: "Righteousness exalteth a nation, but sin is a reproach to any people."—Solomon.

Above third story window, east end of the building, the faces of five outstanding men

in American history; namely, Columbus, Washington, Lincoln, Lee, Wilson.

Above third story windows, west end of building, the faces of five outstanding men in Texas history; namely, Houston, Austin, Crockett, Johnston, Hogg.

The great seal of the College.

The great seals of the six nations under the flags of which Texas has been; namely France, Spain, Mexico, The Republic of Texas, The Confederacy, The United States of America.

The four great institutions of society: Home, State, Church, School.

Seven subjects that the Texas Technological College is designed to teach; namely, Agriculture, Science, Manufacturing, Democracy, Home Making, Art, Literature.

Seven educational products which the Texas Technological College is specifically designed to bring forth; namely, Patriotism, Religion, Industry, Virtue, Wealth, Enlightenment, Citizenship.

South Side

The names of fourteen people, above the archway, showing those lines of human endeavor considered most worthwhile:

For, philosophy, Plato and Aristotle.

For poetry, Homer and Shakespeare.

For medicine, Hippocrates.

For divinity, Paul.

For architecture, Michael Angelo.

For teaching, Pestalozzi.

For statecraft, Gladstone.

For pure science, Newton.

For applied science, Pasteur.

For common sense, Franklin.

For invention, Edison.

For science in the vegetable world, Burbank.

O COLLEGE MOTHER, BEAUTIFUL

(College Hymn of Texas Technological College
to the music of "America the Beautiful.")

1

O College Mother, Beautiful,
Our hearts go out to thee.
We raise our voices in a prayer
For thy prosperity.
O College Mother, Beautiful.
Long be thy life and blest,
May God Crown all thy nights and days
With love and joy and rest!

2

O College Mother, Beautiful,
Thy skies of vaulted blue
Call to thy sons and daughters all
Forever to be true.
True to the State they love so well,
The land that gave them birth;
True to their glorious heritage,
The fairest land on earth!

3

O College Mother, Beautiful,
Thy arches and thy towers
Thy halls and roofs and corridors
Forevermore are ours.
We love thy fields of cotton white,
Thy grasses and thy grains,
Thy canyons and thy terraces,
Thy fertile upland plains.

4

O College Mother, Beautiful,
We love thy words of truth,
Deep graven in thy brick and stone
To guide the ways of youth.
Long may thy fingers point the way
That earnest youth should tread,
And may the blessings of the free
Be ever on thy head.

WORDS BY
H. C. MARSHALL
STUDENT, 1930
TEXAS TECH COLLEGE

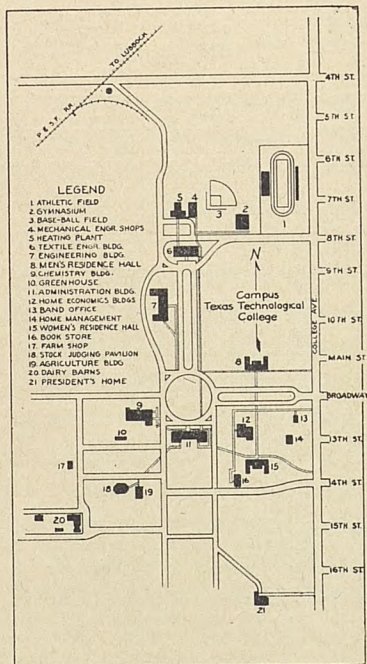

MATADORS

MUSIC BY
HARRY LEMARE
BANDMASTER
TEXAS TECH COLLEGE

Voice

Fight Mat-a-dors for Tech, Songs of love we'll,
sing to thee. Bear our ban-ners far and wide.
Ev-er to be our pri-de, Fear-less cham-pions ev-er be.
Stand on heights of vic-tor-y, Strive for hon-or
ev-er more. Long live the Mat-a-dors

VISITORS

Texas Technological College is so new that it lacks many of the conveniences of older institutions of learning. Perhaps, one of the lacks just now is a system of caring for visitors. There are no guides. May the writers of this handbook suggest to all students that they, each and every one, are the best guides for visitors. If you students do not thoroughly know the College, you cannot be an efficient guide. But you may secure assistance. If friends and relatives are with you, go to your dean and ask for assistance with your visitors. The information and student employment bureau will be glad to help make arrangements to show your visitors around, or take them to President Knapp, who will be only too glad to assist in seeing that they are shown over the whole plant.

During the course of the year many out-of-town groups visit the College. Probably the most important of these are the Inter-scholastic League contests for the South Plains group of twenty counties, the High School Vocational Agricultural Contests and the High School Vocational Home Economics Contests. On such occasions it is customary for our students to extend every courtesy to the visitors and to help the officials in every way possible.

Freshmen, do you remember how you used to feel when you were a high school senior? It was your school. Well, there are a large number of older students in Texas Tech who feel that way about the College. They are proud of it. They have seen it grow in a few short years to be a really large and good college. They want you to respect it and to help push it along—but remember it's theirs just now. Help them and in so doing, it will become yours, too.

TIME SCHEDULE—FIRST SEMESTER
