I have examined the Balance Sheet of the League of Women Voters of Texas Education Fund, May 31, 1977 and the statement of operations for the year then ended. My examination was made in accordance with generally-accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances, except that trust fund balances were not confirmed with the local Leagues.

These statements have been prepared on a cash basis and therefore do not purport to present results of operations as they would have appeared had generally-accepted accrual basis accounting principles been applied in their preparation.

Because the contribution from Tenneco to the League of Women Voters of Texas Education Fund jointly with the League of Women Voters of Houston Education Fund is material in relation to the statements as a whole, because I have not been able to verify the presence or ownership of these funds with the Houston Education Fund, and because the total contribution (and not the pro-rata share or interest) is shown in the statements, I do not believe I have sufficient basis for an opinion concerning this item.

In all other material respects, in my opinion, the data set forth in the accompanying financial statements present fairly the position of the League of Women Voters of Texas Education Fund on May 31, 1977 and the results of operations for the year then ended.

Very truly yours,

Barbara A. Ellis

Re: 1977 Audit

Mrs. Sturgis:

I would like to share with you some of the observations which I made during the audit examination. Many of these items we have already discussed, and I am aware of some of the effort you have already made in strengthening the accounting system.

In examining May checks returned by the bank with subsequent statements, I observed that a number appear to have been written after May 31, 1977 and back-dated to May in order that they could be included in the May 31 statement. This practice, if it indeed exists, would be better avoided. This might be done by recording amounts known to be payable on May 31. The face date of the check written in payment of these amounts should always be the date of issue.

Stewardship over savings passbooks appears to have been somewhat haphazard. Not all of the books were kept together, nor was a listing of accounts and numbers readily available. Statements of earnings were going to different addresses and interest had not been recorded in the accounts up to year-end. I understand you have been working on this problem.

The practice of netting the publications income in the accounts against the project applicable is highly questionable and leads to more work in preparation for federal tax reporting purposes. Separating this into income and expense accounts would show more accurately the extent of the activities in which the Education Fund is involved.

In recording in-kind contributions (such as for the Criminal Justice Conference or for the annual report) extreme care should be taken to leave adequate documentation in the files showing the basis for the valuation of the donation.

Trying to verify the Tenneco contribution was particularly frustrating as there is nothing I could find in the records to justify such an entry into the books. It is vital that the Education Fund obtain all pertinent information such as date of donation, donor, stated purpose, the administration agent, as well as any other factors pertinent to the donation -- and then obtain a final accounting to be sure the restrictions have been honored.

The last item for your consideration is one of theory as well as procedure. Consider, if you will, whether local League trust funds should at any time be considered income or local League projects an expense of the LWV-TEF. Except for the amounts designated as local League support or the 5% administration fee, do the receipts really belong to the Education Fund which then grants specific amounts to the local Leagues? Or is the LWV-TEF really "holding" these amounts for the local Leagues? The question is simply one of ownership rights. If the LWV-TEF really owns them, then the statement presentation is correct, except that they should not be called "trust funds" and this fact should be made clear to the local Leagues. If, on the other hand, these amounts are held "in trust" for the local Leagues, then only the amounts designated for support and the 5% administration fee should appear on the income statement.

On many of the above items I have already seen improvement. The trustees are indeed fortunate to have such a careful, conscientious treasurer so eager to expand and improve the quality of the financial information which she provides.

I shall be happy to discuss any aspect of my examination should it be desired by the trustees.

Very truly yours,

Barbara A. Ellis

I have examined the Balance Sheet of the League of Women Voters of Texas, May 31, 1977 and the statement of operations for the year then ended. My examination was made in accordance with generally-accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

These statements have been prepared on a combination cash/accrual basis and therefore do not purport to present results of operations as they would have appeared had generally-accepted accrual basis accounting principles been applied in their preparation.

It should be noted that a large in-kind contribution from the Bloom Agency, Dallas, does not appear on the books or on the attached statements developed therefrom. A grant from LWVEF for Project Safewater appears not to have been adequately accounted for, either on the income or expense side. Efforts at reconciling the amounts on the books with the final report submitted to LWVEF have been unsuccessful. The furniture and equipment account shown has been brought forward from 1974 with no provision for depreciation, and $240.00 in equipment purchased in the current year has been included in the office operating expense account. The suspense account (see schedule) is composed of items that affect every segment of the statements. Because these irregularities, taken together, might alter materially the statements presented, no opinion can be expressed including these items.

In all other material respects, in my opinion, the data set forth in the accompanying financial statements present fairly the position of the League of Women Voters of Texas on May 31, 1977 and the results of operations for the year then ended.

Ms. Ethel Sturgis, Treasurer
League of Women Voters of Texas

Austin, Texas 78701

Dear Ms. Sturgis,

Since the accounting records I have examined for the year 1976-77 have been kept with substantially the same methods as those of the prior year, many of my suggestions will be a repetition of my prior year's reports which I urge you to review. A consistent basis (that is, all accounts maintained in the same way) is imperative in the compilation of financial data which lead to meaningful statements.

At present, in certain of your accounts, you are very careful to assign costs and income to the year to which they apply (see items in the suspense account); other accounts contain amounts which are paid this year but apply to future years (insurance, publications). Some accounts do not show complete costs because all the bills were not paid before the end of the year. And in the furniture and equipment account, no recognition is made that this equipment has a definite useful life. All this is to suggest that apples, oranges, and grapefruit are being added together at the end of the year.

I cannot urge you too strongly to adopt measures to rectify this situation. My recommendation of last year that you consider implementing the accrual method of accounting is strongly repeated. This is the generally-accepted method of accounting and is flexible enough to allow for any records you may find it useful to maintain or any unusual situation you may encounter.

In accounting for grants and restricted income, both the gross income and expenses involved (rather than only the portions actually received or expended, as in Project Safewater) should be shown and should be reconciled to the final report submitted to the grantor. This would also be helpful for tax reporting purposes.

In accounting for contractual services such as that with the Bureau of National Affairs, the TEF reimbursements or any others, the income should be entered into the accounts and the receivable set up on the books whenever the amount is due. This would be a more accurate reflection of the financial status of all parties concerned.

It is imperative that depreciation be recorded on equipment in order that: 1) the value of the equipment is approximated on the balance sheet, and 2) to recognize the cost incurred for the use of that equipment for the current time period. If, after serious consideration, you choose not to do this, then you must eliminate it from the books of account, charging the amount to unrestricted capital. To leave the same figure there year after year is to make those affected parts of the statements less and less meaningful.

The use of a suspense account is to be avoided at all costs. The amounts given in the schedule (see statements) could easily be grouped into descriptive accounts.

Finally, may I stress how important it is for your statements--be they budget analyses, published annual report, or tax information--to be developed from the books of account and to be comparable to each other. They are not this year, partly, I am sure, due to the change in treasurers during this time.

In response to your request for assistance in setting up an accounting system that would give you the information you desire, let me suggest that you engage a good accountant in your area to work on this with you. This would have several advantages:

1) There would not be the pressure of time which might lead to some important factor being overlooked;
2) There would be great value in obtaining an expert assessment of your needs from an expert actively engaged--that person could have picked up good ideas from another situation;
3) There would be the possibility of a follow-up if you felt the need.

I have felt fortunate in having been asked to give assistance to the League, but now I feel that you would benefit from another opinion.

I shall be happy to discuss the audit or any of these matters with you.

Very truly yours,

Barbara A. Ellis

I have examined the Balance Sheet of the League of Women Voters of Texas Education Fund as of May 31, 1978 and the related Statement of Revenue and Expenditures. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

A contribution from Tenneco was deleted from the assets of the Fund because of insufficient information regarding its ownership.

In my opinion, subject to the effect on the financial statements should the League of Women Voters of Texas Education Fund be determined to be the owner of the Tenneco contribution, the accompanying statements present fairly the financial position of the League of Women Voters of Texas Education Fund at May 31, 1978 and the results of operations for the year then ended in conformity with accounting practices generally followed by such organizations.

BILLING OF TIME AND MATERIAL FROM STATE OFFICE

POLICY ADOPTED, May 1981, Billing for time @ $9.00 per hour per employee.
Billing for material @ $0.09 per SHEET

JUSTIFICATION:

COST PER EMPLOYEE

This charge is used for restricted grants and the per sheet calculation. Joanne works an 8-hour day; the assistant, a 6-hour day. The office is closed the week between Christmas and New Year's plus seven holidays. The office is open 248 days per year. Each employee is entitled to 2 weeks of paid vacation plus sick leave. I used five days of sick leave as an average. This means that each employee works 233 days per year. We have 3,262 employee hours worked per year. LWV-Texas, Section N, items 1 through 10 total $28,280. Divide $28,280 by 3,262 hours and one gets $8.67 per hour. Since we allow our employees to go to the bathroom, take care of home emergencies, etc., I suggest raising the cost to an even $9.00. I called a commercial secretarial service in Houston and got a quote of $15 per hour for secretarial services.

COST PER SHEET

This charge is used for restricted grants and for mailings done out of the state office. These mailings are to board members, LL Presidents, state unit members, and members at large. The charge is also used as a basis for the price on office produced publications and office produced materials sent on duplicate president's mailing and standing orders. For this calculation I chose a hypothetical case -- the printing of a 24 page, 12 sheet, booklet with about half of the sheets printed on the back, and 250 copies produced.

Joann and I estimate these times:

gather the material	6 hours
type the stencils	9 hours
run the copies	5 hours
collate and staple	5 hours
perpare for mailing	2 hours
	27 hours

Total cost of overhead for production of booklet -- 27 times $9 equals $243. There are a total of 3,000 (250 X 12) sheets of paper used
The overhead per sheet -- $243 divided by 3,000 equals 8.1¢
The cost of materials for this booklet:

Paper	$24
Stencils	9
Envelopes	8
Mimeo Ink	7
Staples and Labels	2
	$ 50 or 1.7¢ per sheet

The two numbers add up to 9.8¢ per sheet.

RE: League of Women Voters of Texas

Dear Ms. Vanderwater:

This acknowledges receipt of your application for an exemption from the Limited Sales, Excise and Use Tax as an organization exempted under Section 501(c)(4) of the Internal Revenue Code.

Upon examining the information provided, this office has determined that the League of Women Voters of Texas meets the requirements for exemption as a 501(c)(4) organization effective June 17, 1981. Therefore, the organization may issue an exemption certificate in lieu of the Limited Sales, Excise and Use Tax on taxable items which will actually be used by the organization itself; however, purchases of items for personal use by individuals within the organization are not exempt.

The enclosed Rule .007 sets forth an acceptable form for an exemption certificate which you may issue to your suppliers in lieu of the tax. To be valid, this certificate must state that the merchandise being purchased is for the organization's own use, that it is being purchased in the name of the organization and that payment will be made from the organization's own funds. This certificate does not require a number to be valid.

The exemptions authorized by this decision are applicable to items subject to the Limited Sales, Excise and Use Tax Act only. The decision does not extend to motor vehicles, motor fuel or other items which are taxed under other provisions of the Statutes.

In the event we are notified by the Internal Revenue Service that the organization no longer qualifies, your exemption from the sales tax shall be withdrawn. All purchases by the organization will then be subject to the sales tax. You may reapply for an exemption under the provisions of Rule .042 if the organization is otherwise qualified.

an equal opportunity employer

If your organization makes any sales of taxable items, you must obtain a sales tax permit, collect the tax on all taxable sales, file reports and remit the tax each quarter. The Comptroller's Field Office in your area is located at 1700 South Lamar, Building 2, Austin, Texas 78704, telephone number 447-9747.

In the event your organization changes its name or address, you are required to notify this office of such change.

If you have any questions, please write to the Exempt Organization Section or telephone our toll-free number 1/800/252-5555, Ext. 183, from anywhere in Texas or call 512/475-8184.

Sincerely,

Harry F. Rogers

Dear Ladies:

I have reviewed the Balance Sheet at May 31, 1983 and the accompanying Statement of Income and Expenses for the year then ended for the League of Women Voters of Texas and the Balance Sheet at May 31, 1983 and the accompanying Statement of Income and Expenses for the year then ended for the League of Women Voters of Texas Education Foundation. This review was limited in scope and was not performed according to generally accepted auditing standards.

However, nothing came to my attention which would indicate that the financial statements mentioned above are not fairly presented.

Sincerely,

ANNUAL REPORT 1982-1983

LEAGUE OF WOMEN VOTERS OF TEXAS

LEAGUE OF WOMEN VOTERS OF TEXAS EDUCATION FUND

FROM THE STATE PRESIDENT

Since its founding in Texas in 1919, the name "League of Women Voters" has been synonomous with the term "grass roots". But with the growth of groups advocating single issues, each thinking of themselves as "grass roots", it is imperative that the League reexamine its traditional methods of providing the Texas voter with straightforward, non-partisan information on the issues of the day. We must be creative in developing new ways to attack public apathy, distrust and antagonism toward the political process.

Never has there been a greater need for a broad based, non-partisan organization like the League of Women Voters. Vice-President George Bush said to us recently "We need you. . .You're leaders. You are disproportionately effective in your communities."

Because of the dedication of League members to democratic government and to the concept of educated, informed public participation in government, the League helps all citizens enter the decision making process and to become effective in their communities.

The generous financial support of business and industry, foundations, and individual citizens who share the League's concern for an informed electorate has been essential to our work. This ongoing support will enable us to meet the challenge of reaching the electorate in more effective and productive ways.

This report highlights League activities in the year past and presents our plans for the future.

We are proud to acknowledge our contributors and we welcome your comments and questions.

Dear Ladies:

I have reviewed the Balance Sheet at May 31, 1983 and the accompanying Statement of Income and Expenses for the year then ended for the League of Women Voters of Texas and the Balance Sheet at May 31, 1983 and the accompanying Statement of Income and Expenses for the year then ended for the League of Women Voters of Texas Education Foundation. This review was limited in scope and was not performed according to generally accepted auditing standards.

However, nothing came to my attention which would indicate that the financial statements mentioned above are not fairly presented.

Sincerely,

Susan S. Banks

Dear Ladies:

This letter is a follow-up to the review report dated August 27, 1984 detailing our thoughts on the fairness in presentation of your financial statements. Its purpose is to inform the Board of the efficient ways as well as the inefficiencies in the record keeping process.

Any business, whether it be organized as a for-profit entity or as a not-for-profit organization must have adequate policies, records and staffing in key management areas if it is to accomplish its basic goals. In addition, the information produced, in this instance in the form of financial statements, is only "useful" if the data is:

1. Produced on a timely basis;
2. Accurate;
3. Relevant (i.e., a balance sheet would not alert management to harmful cost overages on budgeted projects);
4. Used by upper management.

We can comment on the organization's policies (regarding financial matters) only to the extent of the various forms and correspondences reviewed by us. We saw no evidence of a manual describing in detail policies and procedures regarding the usage of expense vouchers, cash receipts records, journal vouchers and signature requirements; however, all of the above mentioned items were being used consistently on a monthly basis. In addition, the back-up documents (invoices, cash tickets, check copies, etc.) supporting cash disbursements, receipts, and journal entries were present in every case investigated. This extremely important phase of the record keeping process was handled in a very professional, commendable fashion.

Regarding the staffing of essential management positions, suffice it to say that we did not have exposure to any members of the organization with the exception of Ms. Vanderwater. As far as her capabilities as a treasurer are concerned, it is our opinion that she is very thorough in documenting transactions and quite conscientious of her fiscal responsibilities as a whole. Most businesses would be fortunate if their records approached the quality of those kept by J. Vanderwater.

In closing we would like to add that it would benefit the organization to produce monthly progress reports on those projects producing the major sources of income and expense. This would enable management to timely identify problem areas and subsequently make strategic changes which would increase the possibilities of attaining the desired budgeted goals.

Sincerely,

Jeffrey T. Harfenist

Dear Ladies:

We have reviewed the Balance Sheet at May 31, 1984 and the accompanying Budget Analysis detailing the components of Income & Expense for the year then ended for the League of Women Voters of Texas Education Fund.

A review, which consists principally of analytical review techniques and inquiries of management, is substantially less in scope than an audit performed in accordance with Generally Accepted Accounting Principles the purpose being the expression of an opinion regarding the fair presentation of the financial statements taken as a whole. Accordingly, we are expressing no such opinion.

However, during the course of our examination, nothing came to our attention that would indicate that the financial statements mentioned above are not fairly presented.

Sincerely,

Jeffrey T. Harfenist, CPA
