R. Trent Campbell, San Antonio, Texas
Richard W. Hurn, Midland, Texas
W. K. Shere, Tampa, Fla.

***"THIS LIGHTER LEAF
IS Milder, MISS..."***

"... it costs more, too—but Luckies pay the price!" says Joe Cuthrell, tobacco auctioneer

THERE'S no two ways about it—the lighter, milder tobacco comes high, and Luckies pay the price to get it. That's why most auctioneers, buyers and warehousemen—fellows like me, who actually see the sales—smoke Luckies as a matter of course!

In buying tobacco, you get what you pay for. And independent tobacco experts tell you that Luckies pay higher prices to get the finer, the lighter, the naturally milder leaf. So why not decide to smoke the smoke tobacco experts smoke? Next time, ask for Lucky Strike.

Faculty Club Holds Banquet And Elects New Officers

Tech Faculty members and their guests attended a banquet at Hotel Lubbock recently. The following officers were elected: President, Dr. J. O. Ellsworth; vice-president, Mart G. Pederson; secretary, Miss Mina Marie Wolf and treasurer, Charles G. Decker.

Special guests were Mr. and Mrs. Dell Morgan, Mr. and Mrs. Morley Jennings, Mr. and Mrs. Charles A. Guy and Spencer A. Wells.

APRIL, 1941

To The Texas Tech Alumni And Former Students And Especially The Agriculture Graduates

The Managing Editor has used in this issue a check list of our Agricultural Graduates, their employment locations, and addresses. The greatest job of the Division is to prepare students to graduate, and conversely the best report I can make to you, the public, and the citizens of Texas is to present this directory to all of you.

There has gone to the President today a tentative list of 73 men who plan to graduate this spring. There should be perhaps a dozen men who will graduate in August. This is a very large class because of the heavy increases in the number of students who have expanded our beginning classes in recent years.

Great hopes are entertained on the campus and over the State for the building appropriation requests now before the Legislature. We hope that readers will urge their representatives and senators to lent Texas Tech their most earnest support.

It is a pleasure to announce the continuation of the scholarships now in effect. We hope to have 20 freshmen, 1 sophomore, 1 upper classman, and 1 postgraduate man working under the Sears Roebuck and Company Grants next year. We hope to have 1 postgraduate of the Cottonseed Crushers Grant, and 1 postgraduate on the Brewing Barley Research.

Nominations For New Alumni Officers For Year 1941-1942

Election of alumni officers for 1941-42 will be held at the annual alumni banquet Saturday night, May 31, in a Lubbock hotel.

Nominees, submitted by the nominations committee appointed by President Raymond Lee Johns, are as follows: office of president, Lloyd Croslin, Lubbock; and George Lankford; office of first vice-president, Vernon Brewer, Brownfield; E. E. Jordan, Amarillo; second vice-president, Mrs. Marie Zimmerman Harris, Tulia; Mrs. Jesse Bateman, Lubbock; three-year director Jennings T. Lewis, Lubbock; Manuel De Bask, Dallas.

Mr. and Mrs. Porter Parris and young son have moved to El Paso where Parris is to be associated with Hilton hotel there. He has been employed with the Lubbock Hilton hotel since 1935. Both are former students of Tech. She is the former Miss Mary Ross Edwards.

Dean Leighd

There is a fine body of agricultural students this year. We hope that each of you will send us a freshman this fall. And, by the way, this war scare and the selective service situation are causing an increase in inquiries from prospective freshmen who wish to complete four years of college in three years and three summers. As you know, Texas Technological College, because of its large summer school, is well able to handle such men.

Sincerely yours,
A. H. Leighd, Dean
Division of Agriculture

Beekeeping Can Be Profitable To West Texas Farmers

Beekeeping is a profitable and instructive hobby, according to O. B. Howell, horticulture professor at Texas Technological College. He estimates cost of a complete outfit including bees for one hive as low as \$11.50, and believes eight hives can be easily cared for as a hobby.

Complete beekeeping outfit includes a smoker, hive tool, frame wiring box, feeder and bee veil in addition to the bees and hive.

Each of the eight hives in the Texas Tech beekeeping project, of which Mr. Howell is superintendent, houses a colony of 4,000 to 5,000 bees. The bees, of an Italian strain, were brought from San Antonio. Bought by the pound, they cost \$2.70 for two pounds with the queen, or \$3.45 for three pounds with the queen. Honey is gathered twice yearly, with yields ranging from 40 to 50 pounds of extracted honey per colony.

Aggie News About People You Know

Growing Of Seed Potatoes To Be Started This Spring

First Texas experiment in growing potatoes for seed will be started this spring on the high plains, Dr. A. W. Young, head professor of plant industry at Texas Tech, said. Plans for seven growers to begin seed potato growing were approved at the West Texas meeting of certified seed growers on Texas Tech campus last week.

"Test plots will be planted at Hereford, Texline, Olton and Plainview," Young said. "Standards for growers have been written to comply with the field certification law in Texas.

"Although 50,000 acres of potatoes were grown in Texas for table use last year," he explained, "this is the state's first experiment in growing them for seed. Seed stock will be brought from other approved states—Montana, Idaho, and possibly the Dakotas.

"The high plains were chosen by the state seed and plant board for the tests because it is a high, dry, relatively cool region, which means potatoes may be raised here freer from disease than in the wetter areas. Irrigation is a necessary part of the plan.

"Average yield ought to be around 200 bags per acre," Young said. "Average price per 100-pound bag for potatoes sold as food is \$1.25. Seed potatoes that are certified bring more than double this price."

State seed and plant board members besides Young, who met with growers last week, were E. P. Humbert, head of the department of genetics at Texas A. and M. college; R. V. Miller of Austin, chief of field seed certification; and J. F. Rosborough, extension horticulturist at College Station. W. A. Goeth of Abernathy, field seed inspector for this section, was also present.

Applications are made through the office of Dr. Young, who will act as advisor.

Sheep And Cattle Feeders And Breeders Meet On Tech Campus

Approximately 500 sheep and cattle feeders and breeders, county agents, vocational agriculture teachers, farmers, and members of the Texas Cottonseed Crushers association attended the Cattle Feeders' Day program at Texas Technological college Friday, April 25. Third annual event of its kind, the program climaxes the 1940 steer feeding experiment of the Tech animal husbandry department.

Cottonseed hulls or silage for fattening yearling steers, with varying levels of cottonseed meal, was discussed as suitable feeding rations by J. Russell Reed of San Angelo, graduate student in charge of the experiment, and W. L. Stangel, head professor of animal husbandry.

Other topic discussed during the day were "Crossbred Lamb Production," by Prof. R. C. Mowery of Texas Tech, and "Research" by Dean A. H. Leidigh of the Tech division of agriculture.

Members of the Tech international livestock judging team and of the national dairy cattle judging team were introduced. Visitors also inspected the college flocks and herds.

Gardening Short Course Sponsored By Plant Industry

Everyday gardening problems and their solutions were discussed at the two-day garden short course on Texas Technological college campus April 24 and 25. A flower design school and question-and-answer period was featured.

Mrs. Mary Lake, president of the Texas federations of garden clubs, and Don King, range inspector for soil conservation service, are among speakers already scheduled. Tech speakers are Professors O. B. Howell, W. W. Yocum, associate professor of horticulture; and George O. Elle, instructor in vegetable crops. Lubbock florists showed model flower arrangements.

"Sponsored by the plant industry department of Texas Technological college, cooperating with Miss Clara Pratt, county home demonstration agent of Lubbock, the short course was open to all persons interested in West Texas gardening," said O. B. Howell, horticulture professor. The first course offered at Tech in 1940 as attended by 60 West Texans.

Vegetable Growing Research Under Way At Texas Tech

Frame gardens at Texas Technological college are testing 11 vegetables for suitability to growth in hotbeds. Addition next fall of heat to the two frame-gardens now in operation will, it is hoped, hasten growth of early vegetables and carry the harvest period into the winter months.

Radishes, carrots, beets, romane lettuce, endives, spinach, onions, chard, mustard, parsley, leaf lettuce and English peas are at present being grown in the two garden plots, each 4 1-2 x 18 feet in size.

"The frame garden is simply the home gardener's application of the commercially used cold frame," says George Elle, instructor in horticulture. "There are at present approximately 450 frame gardens in operation in Lubbock county, most of them made by farmers' wives, but no organized effort has been made to determine suitability of various plants and none has as yet been heated."

Heat will be used only to prevent frost damage, he explained, not to maintain a growing temperature.

Working with Prof. Henry P. Clay of the department of agricultural engineering, Elle estimates total cost on a 5x20 foot bed at \$15 or less, and electrical cost at probably \$1 a year. Sub-irrigation by means of hollow tile pipes is at present employed in the Tech frames. Tin cans, open at both ends, may also be used for sub-irrigation.

"Materials required are four 18-inch boards to form a box frame 5 by 20 feet, slanted to catch the sun, and muslin or wax cloth cover," he said. Cellophane is also being tested as a suitable frame cover.

New Poultry Mash Prepared By Senior Aggie Students

An all-purpose mash prepared by senior poultry students at Texas Technological college reduced the mortality rate on 207 baby chicks in the Tech flock to less than four per cent. Expected mortality rate is ten per cent after chicks are placed under a brooder, Professor J. D. Strickland said.

The ration mixed by students cost \$1.57 per 100 pounds.

Mr. and Mrs. Bill Stubbs of Amarillo, both former students of Tech, are parents of a daughter born March 4. The infant is named Sandra Kay.

House Votes New Aggie Building

Quarter-Million-Dollar Building Is Approved

A \$250,000 agricultural building for Texas Technological college was approved by the Texas House of Representatives in an appropriations bill passed by the lower chamber April 22.

The totals approved by the House are above those available in the present bi-ennium.

According to information received here from Rep. Hop Halsey of 119th district, the lower house approved \$170,000 hike in salary appropriations, to provide for additional instructors and some increased salaries; \$25,000 for research each year of the bi-ennium, the amount requested by the college; \$25,000 for library equipment, for which the college asked \$60,000; and \$30,000 increase in maintenance.

The Associated Press reported the total for the first year of the bi-ennium opening next September 1, was \$1,081,194, including the \$250,000 for an agricultural building, and the total for the second year was \$856,194.

The bill was passed to the Senate and, if approved there, will go to the governor.

President Clifford B. Jones of Tech said such appropriations would allow a "far more satisfactory student-faculty ratio; permit some badly needed improvements; and permit salary increases, to some extent." The salary scale as Tech is "not at all comparable to the salary scale in many institutions over the nation," he said.

Congestion in the agricultural division would be relieved by the building approved by the lower house. The college sought funds for an agricultural building in the last session of the legislature and the board of control recommended \$240,000, but the legislature approved no appropriations for buildings for colleges.

Requests for the 1941-43 bi-ennium also included \$125,000 for a chemical and petroleum engineering building the first year and \$200,000 for a home economics building the second year.

A \$170,000 increase in total salaries total to \$647,913, as compared with \$477,913 available each year of the present bi-ennium. Amount requested annually for salaries was \$735,483.

For maintenance the college is receiving \$77,673 each year of the present bi-ennium and a \$30,000 increase would bring the total to \$107,673.

Parents Of Tech Students Follow Many Professions

Thirty-six per cent of Texas Tech's 4,076 students come from agricultural homes, a recent survey of parents' occupations reveals. Farmers, dairymen, ranchers, cattlemen, lumbermen, poultrymen and truck farmers are included in the list.

Approximately 22 per cent, or 891 Tech students, are children of business men; 9 per cent come from manufacturing and industrial occupations; 6 per cent from homes of professional men and women; 5 per cent are children of parents in public service.

Parents of 84 students are engaged in extraction of minerals, either as drillers, geologists, mine or pipe line employees. Clerical positions occupy parents of 31, and domestic or personal service 87.

Ten forms of transportation furnish livelihood for families of 169 students. One engineer is the son of a ferry pilot.

Represented among the trades and businesses are advertising, amusement and automobile agencies; furniture, hardware, drug, grocery, jewelry, implement, and upholstering, businesses; real estate, loan, insurance, banking, theatres, newspapers, public utilities, service stations and warehouses.

Parents of 269 students are deceased and 169 are retired.

Forty-Five Students Receive Fellowships

Forty-five Texas Tech students are receiving aid on college expenses this year from scholarships and fellowships, a recent check by Dr. H. L. Kent, administrative assistant, shows. Twenty-two of the scholarships amount to \$50 each, 21 to \$100, one to \$270. The one graduate fellowship is for \$500.

Open to all enrollees who are children of ex-service men are the 20 La Verne Noyes scholarships for tuition, amounting to \$50 each. Twenty \$100 scholarships were awarded to agricultural freshmen this year by Sears, Roebuck and company, also donors of a \$200 award for the high ranking sophomore.

The \$270 Roscoe Wilson Memorial scholarship is given a junior or senior in foreign languages annually. The Mrs. J. T. Hutchinson award of \$100 goes to the highest ranking sophomore or junior journalism major each year. Two \$50 awards made to journalism majors each year on the basis of excellence in re-

Dallas Tech Alumni Meets At Dinner

Dallas Tech Alumni met for dinner Friday evening, April 18, in the Grill Room of Stoneleigh Hotel. Preceding a business meeting Miss Annette Campbell played several violin solos and guests for the occasion, Misses Lida Belle Johnson, and Jeanne Carson, entertained with piano and accordian numbers. Miss plays for KRLD and WRR. Films of the Tech campus and football games were shown and also "100 Years Progress in Dallas" furnished through the courtesy of the Dallas C. of C.

Ted M. Moody is the new president of the Dallas organization, and Miss Juanita Chance is secretary - treasurer; "Chick" McElya is program chairman, and Miss Ann Hammons is chairman of the attendance committee.

Plans for a summer entertainment around July 15 are being made.

Retiring officers are: Manuel DeBusk, president; Ann Hammons, secretary-treasurer.

Those attending were: John Henry Baumgardner, Mr. and Mrs. Winston Rochelle, Dan T. McDonald, Claude Francis, Guy Carter and daughter, Anne, Mr. and Mrs. Rhea H. Young, Miss Annette Campbell, Mr. and Mrs. Johnny Clingsmith, "Chick" McElya, Mr. and Mrs. Tony Ullrich, Miss Lois McAnally, Manuel DeBusk, Mr. and Mrs. Ted M. Moody, Miss Juanita Chance, Mr. and Mrs. R. F. Hankins, Miss Ann Hammons, Mr. and Mrs. Nard Lair, Miss Emile So Relle, and Misses Jeanne Carson and Lida Belle Johnson, guests.

D. D. Jackson Is Coordinator

Dr. Doyle D. Jackson, associate professor of education at the college, will serve as coordinator of a visiting committee on evaluation at Burk Burnett High school this month. Several educators of that section will participate in evaluation of the Burk Burnett school by use of the new criteria for evaluating secondary schools.

porting are given by the Lubbock Avalanche-Journal and Amarillo News-Globe publications. The latter is called the Wilbur C. Hawk memorial scholarship.

Graduate fellowship of \$500 awarded by the Texas Cottonseed Crushers association is given a graduate in animal husbandry for research in that field.

Council of Women Graduates

MRS. LEONARD EARNST, Editor

Women Graduates Guests Of CWG

Women candidates for graduation in June and August will be guests of Council of Women Graduates at an annual tea, Sunday, May 18, from 3 until 5 p.m. at the home of Mrs. W. C. Holden, 3105-20.

Greeting guests will be Mrs. J. G. Keyes, incoming president, Mrs. John John Harding, outgoing president, Mrs. Mary W. Doak, dean of women, and Miss Vivian Johnson, head professor of home economics education.

Members of the house party will be Misses Rosemary Duff, Gladys Butler, Ruth Keeter, Maude Dee Skeen, and Mesdames Walker Nichols, Leonard Earnst, L. M. Hargrave, John C. Porter, and Ralph Caldwell, other incoming and outgoing officers.

Mrs. Clifford B. Jones and Miss Margaret W. Weeks, dean of Home Economics, will preside at the refreshment table. Special guests will be Misses Ruth Horn, Mozelle Craddock, Martie Poin-dexter, Margaret Huff, Mina Wolf, and Elizabeth H. West, Mesdames W. H. Bledsoe, Roscoe Wilson, Elizabeth Young, W. T. Gaston, O. V. Adams, H. L. Kent, J. M. Gordon, A. H. Leid-igh, W. P. Clement, Bruce D. Rindlaub, I. G. Allen, R. C. Goodwin, J. F. Mc-Donald, and Harry Hill.

Mrs. Holden is chairman of the committee on general arrangements. Other members of the committee are Miss Glenys Honey, and Mesdames J. C. Bate-man and J. T. Hutchinson. Working with this group is the invitation committee composed of Mrs. J. G. Keyes, chairman, Misses Maude Dee Skeen, Genell Wilhite, Murvel Rankin, and Lalla D'Snaia.

Approximately 275 girls will be mailed invitations, and members of the graduate council will be called by the telephone committee headed by Mrs. Yancey Price.

Here 'n There

Miss Dorothy Margaret Forbis, candidate for a B. A. degree in June, has been awarded a \$300 graduate scholarship at Vanderbilt University.

Miss Dorothy Thornton, 1940 graduate in Business Administration, is secretary to the social director of the Women's Residence hall.

Mrs. Earnst Is Hostess To Alumnae Group

Las Leales met April 24 with Mrs. Leonard Earnst. Plans were made for a joint meeting with the active group April 28, and a picnic honoring 15 new members May 1. Mrs. A. G. Stalnaker, chairman, presided. Others present were Mesdames Howard Smith, Yancey Price, William H. Crutcher, M. G. Pederson, Dan Ethridge, Hollis Ford, and Hous-ton Hinson of Amarillo, and Miss Frances Wilson.

A.W.S. Holds Successful Convention On Tech Campus

The University of Minnesota at Minneapolis, Minn., was awarded the national convention of Intercollegiate Association of Women Students for 1943 in a business session held the final day of the three-day convention of the I. A. W. S. held on Tech campus April 2-4.

The national convention is held odd years and the regional convention which is to be at Ohio State university at Columbus, O., next year is held on even years. The place of the regional meeting was decided at the 1940 meeting.

Miss Mary Calloway of Oregon State college was selected as the national executive secretary for the association.

Among outstanding visitors here were Miss Helen Hosp, dean of women at the University of Nebraska. She was principal speaker at a luncheon. Senora Balmeceda de Josefe, professor of law at the national university, Mexico City, spoke at a formal dinner.

Mrs. Nancy Farley Gaines, present executive secretary, Wayne university, Detroit, Mich., conducted the business sessions.

Approximately 57 colleges with 150 delegates were represented.

Here 'n There

Miss Helen Priebe, who received a B. S. degree in home economics in August, 1940, is employed as dietitian at Lubbock Sanitarium. She replaces Mrs. William H. Crutcher, 1938 graduate.

Miss Lila Castle is teaching seventh grade world history in Big Spring public schools. She completed requirements for a degree in February.

Council Of Women Graduates Hear Miss Hill

Hand weaving project of Lubbock W.-P.A. was discussed by Mrs. Harry Hill at the last meeting of the Council of Women Graduates, April 1.

Samples illustrating types of materials adaptable to hand weaving included drapery, dress length, furniture upholstery, and slip cover materials. Ordinarily the women card their own cotton and wool, scour, due, and spin it, Mrs. Hill said.

With her assistant, Mrs. Wilmot Eaton, 1938 graduate of clothing and textiles, Mrs. Hill has found that most dyes needed can be obtained from leaves, roots, and other materials native to West Texas, and that they are as color fast in most cases, as commercial dyes.

Most of the women select their own colors and work out their own designs except in the case of special orders, she said.

"Most women will find weaving a practical as well as a most interesting hobby," Mrs. Hill said in conclusion.

College Cafe

Vocational Teachers Elect New Officers

"Reminiscing and Progressing" is program topic for the May 12 meeting of Subbuck County Vocational Teachers' Association at 2602-20 home of Miss Margaret W. Weeks, dean of home economics. Hostesses are Miss Mabel D. Erwin, head professor of clothing and textiles, Miss Vivian Johnson, head professor of home economics education, and Miss Weeks.

Mrs. Ameral Payne was elected 1941-42 president March 17 when the group met at Lubbock Hotel for a formal dinner. Hostesses were Miss Johne Bowles, instructor in home economics education, Miss Elma Miller, and Mrs. Payne.

Other officers are Mrs. J. L. Lovelace, vice-president, Mrs. L. M. Hargrave, secretary, Miss Marjorie Fleming, treasurer, and Mrs. J. C. Bate-man, reporter.

President of two Texas colleges will deliver lectures at Hardin-Simmons university late in April, prior to the Inauguration of Dr. W. R. White as president of the Abilene school. Delivering addresses in the series on Christian education April 27, 28, and 29, are President Clifford B. Jones of Texas Technological college and President Homer P. Rainey of Texas university.

News About People You Know

Miss Violet Mattson and John Porter Baird were married April 11. Mrs. Baird is reference librarian at Tech and Mr. Baird is a corporal at Camp Bowie, Brownwood.

The wedding of Miss Sara Beth Fox and C. L. Storrs, both of Lubbock, was solemnized April 12 at the home of the bride's parents. She is a former student of the college and he will receive his degree June 2. He is a member of the Red Raider Varsity football squad.

Miss Thelma Wood, a former student, and Bill Gamblin were married April 12. They are to be at home in Lubbock.

The wedding of Miss Betty Jo Watson, a 1940 graduate of Tech, and Buck McNeil, a 1939 graduate, is to take place May 1. The couple will live in Washington, D. C., where McNeil is with the Federal Bureau of Investigation. He was president of Alpha Chi while in Tech.

Miss Eloise Bonds McLarty and J. L. Lokey, jr., were married April 19. They will make their home in Dallas. Mrs. Lokey is a former student and Lokey is a graduate.

From Yuma, Ariz., comes word of the wedding of Miss Geraldine Fulton and Jordan Sutphen, which took place March 26. She is a former student. The couple will live at Manhattan Beach, Calif.

The engagement of Miss Mary Katherine Underwood and Wayne Prather has been announced by the bride's parents, Mr. and Mrs. Arch S. Underwood of Athens and Lubbock. The wedding is to take place May 9. Prather is a former student.

The wedding of Miss Joyce Saunders and Adair Gossett, both of Lubbock, took place April 5. Both Mr. and Mrs. Gossett are students at Tech and will continue their studies.

A toy balloon, one of the 100 released on Tech campus to advertise the Engineers' show, floated 225 miles to settle on a cotton stalk nine miles north of Graham. Clint McPherson, junior engineer, received a note from Mrs. G. E. Caskey saying she had found the balloon. A ticket bearing his name and entitling the finder to a composition ash tray made by the chemical engineers was attached.

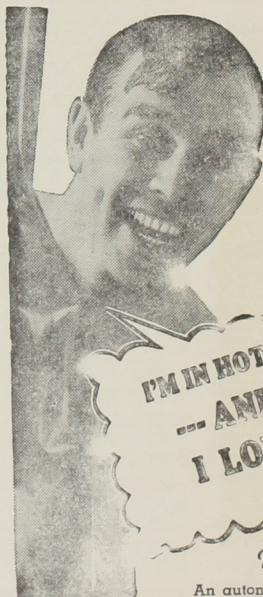

The balloons were hydrogen-filled and when they reached a certain height, pressure caused them to burst and fall.

Miss Mary Elizabeth Ruble and Percy Allen Williams were married in Lott, April 10. Both are Tech graduates and will be at home in Lubbock after June 1.

Second Lieut. Wilson A. Chapman, 1940 graduate of the geology and petroleum engineering department of Tech is at Selfridge field at Detroit, where he has been assigned to the pursuit squadron. He received his commission recently at San Antonio.

The wedding of Miss Faye Ferguson and Bob Robertson took place the middle of April in Dallas. Robertson is a former student of Tech and a member of College club.

"Prelude to Spring", the first annual Tech Varsity show, was presented two nights in March at the Lubbock High school auditorium. Proceeds went to a fund for the student union building. Approximately 100 students took part.

THE SMOKE OF SLOWER-BURNING CAMELS GIVES YOU
EXTRA MILDNESS, EXTRA COOLNESS, EXTRA FLAVOR

AND

28%
LESS
NICOTINE

than the average of the 4 other
largest-selling brands tested—
less than any of them—accord-
ing to independent laboratory
tests of the smoke itself

IT'S NEWS! Not the picture kind—but
news of first importance to smokers.

Independent laboratory findings as to
Camels and the four other largest-selling
brands tested—the four brands that most
smokers who are not Camel "fans" now use—
show that Camels give you less nicotine
in the smoke. And, the smoke's the thing!

But that's only the start of the story!
Camel brings you the extra mildness, extra
coolness, extra flavor, and extra smoking of
slower-burning costlier tobaccos. Get
Camels your very next pack. Why not get a
carton—for economy and convenience?

R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina

HOT AFTER HISTORY! It's Donahue of Pathé who follows the
news the world over with camera . . . with Camels! He's off again for
more exclusive pictures. Below, you see how Bob Donahue gets exclu-
sive "extras" in his smoking. He smokes Camels, of course. Only Camels
give you those "extras" of slower-burning costlier tobaccos.

CAMEL'S
SLOWER WAY OF
BURNING IS ACES
FOR MY KIND
OF SMOKING.
EXTRA MILDNESS
AND A FLAVOR THAT
ALWAYS HITS
THE SPOT

"I'LL TELL YOU," said Bob when he got his picture *taken* (above),
"I smoke a good bit in my job. And my cigarette has to be more than
mild—it has to be *extra* mild. Camel is the one brand I've found that
gives me extra mildness and at the same time a flavor that doesn't
go flat on my taste."

Make Camels your next cigarette purchase. Enjoy that Camel flavor
with extra mildness and extra freedom from nicotine in the smoke.

By burning 25% slower than the average of the 4 other largest-
selling brands tested—slower than any of them—Camels also give you
a smoking *plus* equal, on the average, to 5 EXTRA SMOKES PER PACK!

CAMEL—THE SLOWER-BURNING CIGARETTE
