

Sept. 13 - 55

Dear Julia:-

Well, you past another mile stone on the 6th I hope it was a good one, and may you have many more. Along time ago you asked me for some stamps off of Rudolph's letters, I would forget each time I wrote to mention them, she only wrote me two letters, all the rest were cards, and of course I couldn't tear them off so I'm enclosing the ones from the letters.

I told her when she left, I wouldn't expect letters, because she was on the go, but I'd settle for cards, and she surely sent me lovely ones.

Poor Beebie and Alma, are not doing so well, sister Alma, is so hard to please Beebie, can't cook to suit her finicky appertite, there fore, neither eat what they should, so both are nervous and irritable, it's a pitiful situation and I don't know how it's to be helped. I know one thing my girls wouldn't let me impose on dear little old Beebie that way.

School has started and it's quiet in our neighborhood most of the day. Since May Withers, bought her a television, I don't see much of her and Eva, they stay home and look at their favorite programs.

My news is scarce.

With lots of love
Gor.

It certainly keeps me worried, I cook food and walk out there and take it to them, and she will eat it.

Will Joiner, (Florence's husband, she is the one who took us riding twice) was operated on a couple of weeks ago for prostate glands, in Austin, he got along fine, they let him come home in ten days, three days ago he began to bleed internally. They took him to Austin and they had to open him up again, he is some better now. This is the second operation he has had in two years.

We had an inch of rain early Sunday morning, it was surely welcome, and it's been cooler since.

May Kyle, sold her place by Beebe, to Laura Holcomb's son Herbert, I'm glad for B's sake they bought it, because they are nice to her.

Rudolph, was over one afternoon last week, she may have to go to Mexico, most any time on business I hate for her to have to go.
