This is a superb view of lower Manhattan as seen from Governors Island. In the background can be seen the tall structures that comprise the heart of the financial district.

*It was nice that you remembered my birthday with such a pretty card. I came up here to celebrate but tried to forget the years that have rolled by. All the best

HOTEL PASO DEL NORTE

"El Paso's Fine Hotel"

Standing on historic ground named for the pass discovered by the Spanish explorers of the Sixteenth Century, it overlooks the fertile Rio Grande Valley. Within a day's drive are Carlsbad Caverns National Park,

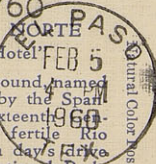

White Sands National Monument, The Lincoln National Forest, and many other points of interest. Juarez, Mexico, is just five minutes away.

My plans are all changed.

2/5/60 Recd letter from home yesterday and may have to go back there to attend to business. Surely hate to but will if have to sto in a few days. Waiting to hear again. Glad Marvin is OK am out with his aunt today to take to museum show.

2/5/60 Love and best wishes, will write later after hear from you next. Campbell

Dear Neighbor and friend.

Kilgore, deep in the heart of East Texas, takes pride in being recognized as the "Capitol of the World's Largest Oil Field". 1146 derricks within the city limits create a fabulous skyline. This East Texas field is 60 miles long and 10 miles wide with over 21,500 producing wells.
