March 21, 1965

### Statement of Consensus on State-Local Relations

The League of Women Voters of Texas believes that local government in Texas should be made more responsive to changing conditions. Therefore the League will support measures to provide for:

- (1) A single Article in the Texas Constitution encompassing provisions for units of local government (cities, towns, villages, counties and special districts), expressed in broad and permissive principles.
- (2) A flexible governmental structure for counties and municipalities, together with legislative and financial powers adequate to provide local services.

As an outgrowth of the past three years of study on this complex subject these position statements have been formulated by your There was unanimous agreement that there should be a single Article for local governmental units in the Texas Constitution.

There was substantial support for more flexibility in local governmental structure and powers. A little better than one half of the Leagues reporting believe that Home Rule would provide the needed flexibility, while others desired flexibility such as that provided by city county consolidation or area-wide governmental authorities. These broad statements will provide the basis for your state League to support or oppose bills falling within the scope of this item.

WHOH IR 69-consol & some functions of good in certain countries of goods the contracting to tretview of goods the political try politic seport at each O Texas brevil League will announce new study on local goot, financing etc. before end of 1965. a House Resol. also asked Topas Zogis Connidto make such a

#### THINGS TO SEE IN FORT WORTH . . .

In Forest Park Area, West and South:
The Forest Park Zoo with many interesting animal residents The James R. Record Aquarium with facinating fish inhabitants.

Children's Zoo with exhibits for small fry.

The Herpeterium (Reptile House) with many varieties of reptiles.

Forest Park with available(free) barbecue pits, picnic tables and benches, and play areas

Botanic Garden, Swimming Pool, Trinity Park.

On Amon Carter Square, West of Downtown:
Will Rogers Memorial Coliseum and Auditorium. Statue of Will Rogers. Farrington Field The Fort Worth Art Center, Casa Manana Theatre-in-the round.

Amon G. Carter Museum of Western Art . . . a multimillion dollar collection of pictures, sculptures, books and other objects of Western art, principally the works of Frederick Remington and Charles Russell. The Fort Worth Children's Museum and Planetarium.

#### In North Fort Worth:

The Stockyards and Packing Houses. North Fort Worth business houses with old west facades. Meacham Field (Air). LaGrave Baseball Field.

#### Northeast of Fort Worth on Highway 183:

Greater Southwest International Airport. Bell Helicopter Co. American Airlines Stewardess College.

#### Downtown Fort Worth

City view atop the 30-story Continental Bank Building or the 18-story First National Bank Building. Fort Worth Public Library. Theater District. Burnett Park. Chamber of Commerce, City Hall, County Courthouse. Museum of Western Relics.

#### In West and Northwest Fort Worth:

Carswell Air Force Base. General Dynamics/Fort Worth aircraft manufacturing plant. Westover Hills and Ridglea residences A life-size wax figure interpretation of Leonardo da Vinci's famous painting "The Last Supper" . . . at 6209 Sunset Drive in Ridglea. (free)

#### In South and Southwest Fort Worth:

Texas Christian University Campus Southwestern Baptist Theological Seminary. Westcliff and Tanglewood residences.

### East Fort Worth:

Texas Wesleyan College Campus. Eastern Hills and Meadowbrook residences. Sycamore and Sylvania Parks and swimming pools.

Benbrook, southwest; Lake Worth and Eagle Mountain, north; Grapevine, northeast and Arlington, east.

#### Churches

638 religious institutions with 44 denominations.

#### FACTS ABOUT FORT WORTH . . .

Fort Worth was established as a frontier army post in 1849 by Major Ripley Arnold and his Second Dragoons, to keep an eye on the warlike Comanche Indians to the west.

Fort Worth was named for General William Jenkins Worth who distinguished himself in the Mexican War. General Worth is buried in downtown New York City.

The population of Fort Worth today is 388,000 with the population of the city's metropolitan area being 616, 700.

Fort Worth has a variety of fine restaurants specializing in Chinese, Italian, Mexican, Polynesian and German cuisine. It has two major seafood restaurants, in one of which you can pick your lobster live from a tank. Fort Worth steak houses are best in the world.

The Grand Ballroom of Hotel Texas, largest in the Southwest, seats 2,000 persons for dinner, more than that for convention and non-dining affairs.

The beautiful theatre-in-the-round, "Casa Manana," which offers a summer schedule of musicals, is located on Amon Carter

East-West you can drive through downtown Fort Worth on freeways without a single stop.

Fort Worth's industry includes cattle, grain, food processing, aircrast manufacturing, candy manufacturing, work clothes manufacturing, plastics, oil, agriculture, transportation, insurance, and finance.

Flowers bloom in Fort Worth until mid-December and break bud again in mid-February. First autumn frost is mid-November and last Spring frost is usually mid-March.

Average temperature in Fort Worth is 65.8 and average rainfall is 31.53 inches. A year in Fort Worth usually sees 270 days of sunshine . . . 159 clear and ill partly cloudy. Snow is rare.

The Will Rogers Memorial Coliseum and Auditorium is a popu lar Southwest meeting ground featuring circuses, the annual Southwestern Exposition and Fat Stock Show, complete with world championship rodeo; opera, industrial shows, pageants, concerts, road shows, basketball games, and other attractions.

The nine railroads serving Fort Worth offer through passenger car service to East Coast and West Coast.

The seven airlines serving Fort Worth operate out of Greater Southwest International Airport, located 15 miles northeast of the city on State Highway 183. Greater Southwest is considered one of the finest, safest, and most attractive airports in the world.

A total of 138 buses arrive and depart from Fort Worth's modern bus terminals every 24 hours. Four bus lines serve the city.

The General Dynamics/Fort Worth aircraft plant is working on the F-111 and is engaged in nuclear aircraft propulsion research. The main part of the plant is a mile-long building.

Helicopters are manufactured in Fort Worth by Bell Helicopter Company.

There are 10 military establishments in Fort Worth including Carswell Air Force Base.

Fort Worth has many cultural advantages including the opera, civic music, ballet and symphony. And is home to the famed Texas Boys Choir.

Fort Worth has 64 parks covering 5,000 wooded acres and includes miles and miles of colorful scenic drives.

City golfers and visitors may exercise their prowess on four municipal courses, among the best in the Southwest.

The five institutions of higher learning in the Fort Worth area include Texas Christian University, Texas Wesleyan College, Southwestern Baptist Theological Seminary, Arlington State College and Fort Worth Christian College.

The Fort Worth Chamber of Commerce, located at 700 Throckmorton Street in the downtown area, has free maps of the city and free literature on many subjects of interest to the visitor.

Fort Worth is the permanent home of the "Miss Texas" Pageant

A few miles out of Fort Worth in Eastern Tarrant County is Six Flags Over Texas - a nationally known theme park situated on 115-acres.

The only privately-owned subway is located in one of Fort Worth's largest department stores (free).

During the Christmas Holidays, the Fort Worth skyline glows with thousands of amber lights outlining the buildings of the downtown area. These lights burn again during the Southwestern Exposition and Fat Stock Show in late January and early February.

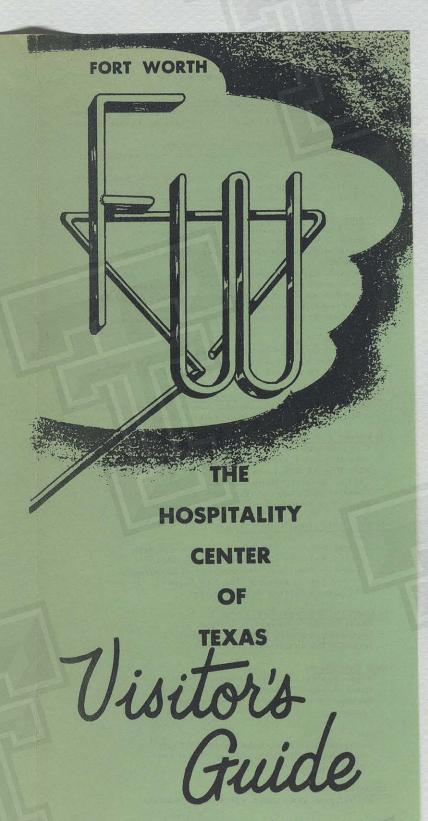

Towering over the Fort Worth skyline is the world's largest clock, a three-story revolving timepiece atop a downtown bank building. A radio beam from Beltsville, Md., keeps the clock Naval-Observatory Time accurate.

A 15-million dollar Tarrant County Convention Center will be built in the downtown area of Fort Worth. The center located near hotels and the shopping district, will be equipped to handle any size convention.

League of Women Voters of Texas 612 NORTH 18TH STREET O WACO, TEXAS

PRESIDENTS' COUNCIL 1965 - WORKBOOK PART II

Annual Report -- Voters Service

Red, white, and blue Voters, State and Local Voters Guides for November Election, spot announcements on radio and TV urging citizens to vote, speakers on the amendments, moderators of debates, Women Voters Week activities, over and over these items were mentioned in your fall 1964 Voters Service activities. Beginning with Women Voters Week in September and continuing through the General Election, Poll Tax issuing and preparing for city and school board elections, Voters Service chairmen and their committees have had busy, exciting times.

In Poll Tax issuing alone, 827 League of Women Voters members worked. This figure does not include 5 local Leagues from whom no report was received or 3 who are not permitted to work by their County Tax-Assessor-Collector.

155,000 State Voters Guides were distributed for the November, 1964 election. Of this number, 500 were distributed by our members-at-large in the El Paso area. A large number were also mailed out on individual request from the State Office to non-League areas in Texas and to all parts of the United States. 180,000 Guides were distributed for the May, 1964 Primary Election. Copies of these Guides were sent to newspapers in non-League areas with permission to reprint them. Unfortunately, we have no way of knowing if these are used as the papers very infrequently send us copies.

State office was kept busy answering letters from citizens asking if they could vote in November--most had not met the residence requirements.

Many of you reported on the fine editorials received by the League of Women Voters in your local newspapers during Women Voters Week and during the campaign days before the General Election. Some cities had their local Voters Guide (San Antonio had their local and the State Voters Guide) printed in the newspapers free of charge.

Election-night reporting was a new, exciting activity for the State and some local Leagues. Several local Leagues were asked by one network to cover selected precincts in their County on November 3. Another network asked the State League to cover 47 precincts throughout the state. Several were in non-League areas, which meant some traveling. Thanks to the help of local League members, all precincts were covered. Everyone working at this job reported it was a very rewarding experience.

1965 may be an "off" year to some people, but Voters Service Committees know there is much to be done in helping each citizen be an INFORMED VOTER.

PRESIDENTS' COUNCIL 1965 - WORKBOOK PART 11

The League and the Legislature

In recent years legislative activity on state program has been strongly centered around the Texas Legislature. As a result there is a strong cycle with a low point in the fall of odd-numbered years and a gradual increase in activity that reaches a climax in the late spring of the succeeding odd-numbered year. We are now reaching such a period of maximum legislative activity. The specific bills on which we are taking Legislative Action are listed on a separate sheet called Legislative Round-Up.

In preparing this report for the past year it is painfully apparent that virtually NO activity can be reported until the interviews and reports made by Local Leagues in November following the General Election in 1964. Most local Leagues have done a good job of communicating with members of the Legislature; some have done very well indeed. None are singled out for mention because situations vary so strongly -- one League has been on excellent terms with their long-time representative for years; another had an almost entirely new slate of men to meet. On this part of our Legislative Action you are constantly improving with increased member participation and imaginative methods.

But because this is the only time that a report is made in quite this form. I am taking the opportunity to underline the period of inaction from the end of the legislative session in June until the elections a year and a half later. A major handicap of League Legislative Action is the lack of commitment and urgency on the part of both the general public and League membership. There is almost always recognition of the value and eventual necessity of changes advocated by the League, but many other more urgent issues (either actually or because public opinion has become aroused) overshadow the projects of the League. Consider the issues that are receiving most space in your news and editorial pages this month as an example. Our most "popular" issues - Poll Tax Repeal - has gained much of its attention from national or non-Texas events. Many time the response from local Leagues to a Time for Action has been best on those bills that we have opposed; in these instances a real feeling of emergency has often been part of the total context of the Time for Action.

Because, unlike almost all other groups interested in state government activity, the League does not become involved in the selection, support, or campaigning of candidates, we must rely exclusively on educational methods. In short, we say -- "This proposal is good because.....and it is needed now because.....". The reputation of the League for fairness and thoroughness wins us a hearing, but our Program will be adopted only if we can sell it on its own merits.

We are not "selling" League Legislative Goals to our communities and our state -- and frequently we are not sufficiently "sold" ourselves to write a letter or telephone a friend as our part in building the public interest and enthusiasm that is generally required to stimulate the passage of a bill through the Legislature.

In reporting to you that for more than half of the past year there is nothing to report, I am, in effect, reporting that there is need for change. Now while we are in the midst of the legislative session itself and you have most contact with

actual professionals in state government and politics, may be the best time to evaluate the ways to build for the next session.

I would suggest that much of our problem arises from the nature of Legislative Action. It combines the <u>subject matter</u> of the Program portfolios with the <u>techniques</u> of the Public Relations and Voter Service portfolios. Because actual <u>Legislative</u> contacts are frequently handled by the President and because she is often one of the few Board Members with background and perspective wide enough to include both phases, the over-worked President frequently functions as the only Board member actually responsible for Legislative planning.

Our experience over the past four years has demonstrated that this cannot produce what is needed. It cannot because no one is assigned the responsibility for overall and consistent planning to coordinate and utilize the skills and knowledge already available in the local Leagues so that we can bring our study and decision to some actual enactment. Will you now, in the Boards you are forming, please, give serious consideration to re-establishing a Legislative Portfolio. The name is less essential than that the area of responsibility be undertaken.

State government - how it operates in theory and in practice. Do our members (and the public) actually understand the way in which legislation is developed and enacted?

League Program goals in terms that emphasize the need for the suggested change and the urgency. For ourselves, for the public, and for the officials, we must be able to answer -- Why this and why now?

Specifics of Legislative Action such as interviews, membership meetings, public forums, etc. Also developing communication channels for effective response to Times for Action.

You already have the information, the resource material, and the skills to do these things under Voter Service, TCR, Election Laws, JS&T, Public Relations, Finance, Publications, Membership (especially Orientation), and the other portfolios on your Boards.

We have an excellent map and plenty of power in the engines. Apparently what we need is someone to be sure that the right switches are turned on in the right order and at the right time.

Since we are now in a "peak-load" period of Legislative Action on State Program, the report for the past three months is largely unfinished. A summary of the bills that we are supporting (or opposing) in the 59th Legislature is included as part of this report.

### League of Women Voters of Texas 612 NORTH 18TH STREET O WACO, TEXAS

PRESIDENTS' COUNCIL 1965 - WORKBOOK PART II

#### LEGISLATIVE ROUND-UP

CR #1 - Texas Constitutional Revision

Senate Bill 252 by Blanchard and Schwartz Creating the Texas Constitutional Revision Commission

SUPPORT

This bill would establish a 12-member commission that would prepare studies and recommendations on general as well as specific aspects of revision of the Constitution.

This bill is scheduled for a committee hearing before the Senate State Affairs committee on March 8, 1965. The League will appear in support of this bill.

An Information Sheet and a Time for Action regarding Senate consideration of this bill has been mailed.

This bill has not been introduced in the House of Representatives so that League action there will depend on the course of SB 252 in the Senate. this will be first heard by the Sen. common after Rule 9 A is sevoked.

Senate Bill 11 by Patman et al. House Bill 97 by Cory

SUPPORT

Creating a commission on organization of the Executive branch

This bill would establish a "Little Hoover" commission to study the organization of the Executive Branch of the Texas government.

HB 97 has passed the House of Representatives and like SB 11 has received a favorable Senate committee report. It is not yet apparent which version will be brought for Senate floor action.

An Information Sheet has been sent on these bills.

League support for this measure is already known. Both houses have approved this bill in previous sessions. Further LWV action does not seem required to promote passage of the bill.

House Joint Resolution 12 by Cherry Senate Joint Resolution 28 by Schwartz Providing a method for revision of all or part of the Constitution

SUPPORT

This bill would permit the combining of several subjects into one question for voting at an election. This would permit removal of "deadwood". The League would prefer that only one Article could be dealt with in one question.

heart in comm as of 3/23/65 HJR 12 is scheduled for a committee hearing on March 9, 1965; the League will appear for the bill. No Senate hearing has been scheduled.

An Information Sheet has been sent for these bills and a Time for Action for HJR 12 in the House. House Bill 66 by Parker FOR YOUR INFORMATION ONLY The TCR commission bill that was introduced in 1963 has been re-introduced in the House. Since the League has worked to develop an improved version, we plan to take no action on the bill as introduced. Although we plan to take no action on HB 66 in its present form, this reference is included to clarify any confusion that might develop if news references mentioned it by title only. We hope H13767 (Jones) forthis. CR #2 - Election Laws Senate Joint Resolution 11 by Spears House Joint Resolution 27 by Blankenship and Stroud Comfined in comm + mulmbered 13 House Joint Resolution 13 by Peeler Authorizing poll tax repeal election SJR 11 includes a provision concerning military voting residence; the League supports the poll tax repeal provision of this resolution. However, since both HJR 13 and HJR 27 contain poll tax repeal provisions only, these are being supported in the House in preference to a resolution parallel to SJR 11 (HJR 35) Committee hearings have been held on all three of these resolutions. The League testified in support of them. No committee action has been taken in either the House or Senate. Information Sheets and Times for Action (in the respective houses) have been sent on these resolutions.

3/23 HJR 13 (Blankluship o Strond) halt have 100 to pass second realing. 92 votes received. Comes up 3/20 again. Will be very tight Senate Joint Resolution 5 by Herring SUPPORT House Joint Resolution 18 by Peeler House Joint Resolution by Quilliam Liberalizing residence requirements for voting. These resolutions would relax the time of residence before becoming eligible to vote after moving within the state and in certain elections after moving into the state. Applies only to elections for placed office. Passed House 3/23 with only 3 no botes. Committee hearing dates for these resolutions have not been announced. Information Sheets and an article from the Texas Bar Journal have been issued on these resolutions. 3c -

House Bill 526 by Peeler and Cherry X-marking the ballot

SUPPORT

This bill would provide for a positive system of ballot marking instead of the present scratch method.

The League supported this bill at the committee hearing on March 1, 1965. The ported out favorably not put on House calendar yet.

An Information Sheet and Time for Action (House) have been issued for this bill.

Senate Bill 218 by Creighton House Bill 460 by Fondren Annual Registration System FOR YOUR INFORMATION

This is the same bill that was adopted last session. There is no essential change between this and the present system except that the fee charged is smaller.

The League is opposed to this bill. However, because the effective date in the poll tax repeal resolutions would permit the 60th (1968) Legislature to write the enabling legislation, no effort has been undertaken to actively oppose this legislation at this time. If action on either of these bills is pushed by the sponsors, this decision may be re-evaluated. No other registration proposal has been introduced this session.

House Bill 114 by Johnson of Bexar Amending several sections of the Election Code

FOR YOUR INFORMATION

Although this bill would provide that all citizens regardless of residence would be required to obtain an exemption certificate annually rather than exempting some from this requirement, experience indicates that this kind of multi-purpose bill is difficult to support since there are also included provisions on which the League has no position or even a contrary position. Moreover, the provision for uniform requirement concerning exemption certificates has been eliminated from such omnibus bills in past sessions and a single bill to this purpose seems the only reliable course. Such a bill has not been introduced in this session.

#### CA #1 - State-Local Relations

No bill presently introduced falls within the positions that we have adopted under this Program Item. In the event that there is any change in this situation, you will receive information about the bills and suggestions for Action.

CA #2 - Judicial Selection and Tenure Senate Joint Resolution 10 by Calhoun Providing for retirement and removal of appellate and district judges. This resolution was introduced at the request of the Directors of the Texas Bar Association and a referendum has recently been held to determine the support for this by members of the Bar. The League is delaying action until the outcome of this referendum is announced. Since this resolution will not be pushed unless there is a favorable vote by the Bar, no League action is proposed unless there is approval by the Texas Bar Association. Meantime an Information Sheet is being provided. National Program OPPOSE Senate Bill 31 by Hardeman Requiring labelling of imported fresh meat. This bill requires the labelling of imported fresh meat sold in retail stores. This bill passed the Seante and was referred with other bills (HB 58 and 83) to a House committee. The League opposed the bill by letters to members of the committee. The House of Representatives eliminated the most objectionable feature which required the posting of a sign. The Senate concurred in this change and the bill passed both houses and has been sent to the Governor for signature. Waspessed in less than worst form. Senate Concurrent Resolution 24 FOR YOUR INFORMATION PASSED Requesting Federal Constitutional Convention to consider court action concerning reapportionment. This resolution is part of the effort to force a Federal Constitutional Convention by the passage by 2/3s of the states' legislatures of identical resolutions. The resolution passed the Texas Legislature in the first week in February with little opposition. These bills are being summarized as of March 6th. Changes in status will be reported at Council or earlier in special cases if immediate action is necessary. 3e

Many other separate publications were ordered by and sent to local Leagues in varying amounts. These included on this chart are the "best sellers" of this year's new publications.

Grand total of above sales is 372,382 which means that state office processed at least 397,000 pieces of material from April 1, 1964 to March 1, 1965, date of this report...standing orders are not included in these totals, for instance.

\* This ant. makes total add up. an suse ballas ordered these.
Note: In columns 3,10,14 14 above in which my totals disagree, the error may be that all items weren't entered from the original worksheet. (my addition was checked a double checked both by hard a pocket adder.
