Nov. 7. 10.

Dear Mom! I was relieved
to learn that the fever did
not hold you down — but you
did not say whether you are
out lecturing again — or what? —
and I have not learned through
the papers — you don't want
me to come and investigate
about the slow fever patient? —
Rods did not come to our Co. also
because of H. fever — I trust that
all is well — must be —
I would have written before this —
but because most anything is
expected of you — to understand —
is why I have not —

but there is something of which
 you don't quite conceive — the
 great black mass of ignorance —
 (as Martin Eden calls it) that I
 really am — now as I am to
 write again I would want to
 say, ask a thousand things and
 can not utter a word — it makes
 me miserable — if I wasn't tied
 up — and loaded down — there
 would perhaps be hopes for a start —
 it makes me dizzy to think of what
 all is yet to be done — and I am
 so tired — but no rest — I begone!

Then again it is the thought "a man
like that" which silences me —
the upmost on solid ground —
not that I undervalue myself —
but I have been deprived and
am in a worse shape than
M. Elm ever was —

Say! the hero of the "Iron Heel"
must be Irish sure!

Well I shall keep account of
what you send, for your sake
and thus for ^{my} mine

Clara.
