New MEAT-KEEPER...

with "window" front! Holds 15 pounds—keeps meat *fresh* for days. Provides the *steady cold* that makes humidity *safe*.

SEE

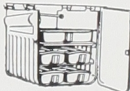

TRUE-ZONE COLD!

Gives you surer, steadier food protection—just the "right" cold and humidity for each food. See the five distinct food-keeping zones!

Big HUMIDRAWER!

Gives you moderate *crisping cold* plus *high humidity*. Keeps fruit and vegetables *fresh*—6 to 10 days.

Big SUPER FREEZER!

—with extra space for frozen storage. Freezes ice cubes in 32 minutes—freezes dozen desserts in less than an hour.

Ask about our exceedingly low terms on the refrigerator that fits your needs.

NOTEBOOK

Sings along the highway. It is disconcerting to find, once in a while, that you are traveling fast along the wrong road, but you are always thankful to the man along the way who says, "Stranger, you are going the wrong way. Turn back and get back on the main highway." For that reason, we are indebted to the anonymous writer who sent in the following note:

The writer just received with the usual amount of interest a copy of the Tech Magazine and would like to make a suggestion, if it is agreeable.

Why not have someone appointed to furnish information from the various sections of the country about Former Tech Students in their vicinity of those they contact in that vicinity?

Perhaps the writer could be more specific by putting the proposition this way, to wit: the magazine is supposed to be democratic and should give information about anything of interest that happens to any former student, if the information is available. To date most of the information has concerned xxxx xxxxxx, xxxxx, xxxxxxxxxxxxxxxx, xxxxxxxx, and a few others, but as a subscriber, the writer would like something more than a monthly report on a chosen few.

Another thing the writer is of the opinion that political solicitation should not be made through this magazine, although it is of interest to know that some of the Exes have chosen a political career and mention of this fact should and could be made without a direct solicitation from the Magazine and with far less criticism from an opponent who might be victorious.

Cal, this note is not to obtain publicity for yours truly and is not a cynical note to either you or the magazine, but please let us have information, wherever possible, of a larger scope so that we may know what more of our friends are doing.

The writer is not disclosing the name of the writer, because as stated above that is not a publicity stunt, but neither is the magazine. There are many students who went to Tech who have done as well as those included monthly and of whom we would enjoy knowing their whereabouts and success.

Yours truly,

A Tech Ex and enthusiast.
There you have it, folks. For Pete's sake, please send in more news from over the country. See the trouble I get in when the information doesn't come in?

As for the political news, the information is news just the same as the other. The politicians have been a trifle more eager to get their stories in, perhaps, and because they are former Tech students, they have the privilege of a free announcement in our pages. To date we have not had a complaint from their opponents as it is clearly understood that this is a magazine for readers who are either in or were in our college. Frankly, it costs money to run the pictures, and we might save a little by leaving them out, but we feel that we should pass the word around about WHO, in Tech circles, is out for WHAT.

Tommy, 16-month old son of Mr. and Mrs. Roy Shamburger of 508 North Eleventh Street in McAllen. Roy says that Tommy is considering his chances of making a Double-T in 1957. The above picture rates first place of all time, don't you think?

But as for information, you will get a load of it this time. This is the Engineering Edition, and believe me it is no happenstance that we have a full house of names and addresses. You will find the names and addresses of all the engineering graduates in these pages, thanks to Miss Dorothy Rylander, Engineering Alumni Secretary. Before we turn over to those pages, however, let's see what others are doing

JANE WILSON of Lubbock and CHARLES BUCY of Rising Star were married in Lubbock March 21.

POWELL W. MILLER of Jal, New Mexico, tells us that W. L. SMITH and Wife (Nathalie Lee Fulton) and their daughter, JANICE MARGARET, age 1 year, are enjoying life in Jal. Lee is Assistant Chemical Engineer of the El Paso Natural Gas Co.

J. MASON (Buster) MOXLEY and VONDELLE are now living at 1002 E. Woodin Boulevard in Dallas. Phone 99543. Buster is Junior Special Agent in charge of the Survey work for the Fidelity Casualty Co.

Stephen Luce of Wichita Falls reports on the Engineering Banquet held there. He says, "I am enclosing a check for \$5 for the Texas Tech Foundation." (. . . .) So far as the alumni is concerned, this is the first contribution of this nature to come through our office. "May I stipulate that this be applied to Engineering equipment. The contribution was made by attendants of the Engineering Alumni Dinner held in Wichita Falls the night of March 2. Attending were J. M. Dyer with Southwestern Light & Power Co., Lawton, Okla.; Lou Edwards, air conditioning engineer, Wichita Falls; Seth Moore and Lyle Donaldson with the Texas Power and Light Co. of Wichita Falls; Robert Sparks, Sinclair Refining Co., Troop; George Thompson and Bernard Dean, Texas Highway Department, Henrietta; Cecil Pray, J. W. Hill, and Stephen Luce, Texas Highway Department, Wichita Falls.

Plans were made for a Tech alumni barbecue to be held in Wichita Falls this spring.

Few, mighty few, comments were made about Gene Jordan's pencil tapping puzzle, but L. M. Stewart of Clarendon came up with the right answer. Here is the solution: When the blindfold was removed, A saw both B and C had black tape. Both were tapping, so both saw black, he knew; but each of them might be tapping because he saw black on the other, which still left him in the dark. Now, he knew that IF either B or C saw a white tape on his (A's) forehead (since all three were tapping to show they saw a black tape), they would know at once that the tape on their own forehead must be black, otherwise the other (B or C) would see no black and would not be tapping. However, although both B and C were unusually brilliant men, they were both still tapping, showing that (1) they both saw black tape, and (2) they both saw TWO black tapes, there-

Iris and Oofie Abraham and son, Little Oofie, take time off from their Killarney Cafe to show visitors around in their hometown of Canadian.

fore A knew the tape on his head was black also. Q. E. D.?

THELMA FISHER of Farley, N. M., and GLENN C. KARLIN, also of Farley, were married in Hobbs March 22. They will be at home in Farley where Mr. Karlin is school superintendent.

MRS. WINTON ROCHELLE (Frances Jane Giles) is at home at 2525 Oak Lawn, Apt. 7, Dallas.

CAROLYN LANEY of Lubbock and T. H. TOMLINSON of Wichita Falls were married March 24 in Clovis, N. M. They will make their home in Wichita Falls.

MORGAN T. "KILLER" JONES writes us from Clovis, N. M., that he is still working for John Santa Fe (Railroad), and tells us that WALTER C. ZERWER and BETTY STEARNS were married in Fort Sumner in January. "RAYMOND HEWETT also lost his foothold in February—the lucky girl BERTHA M. MICKY of Clovis. EUGENE DURAND just finished Business College in Chillicothe, Missouri. JAMES HILL married MAURINE PATTON who graduated in January. James is the local City Health Officer. SANKY TRIMELE is the new sports editor of the local paper, replacing J. H. NAIL, another ex-LOMER NELSON is also on the paper staff. HARVEY DUNN, assistant coach in the High School here, left today with his basketball team to go to the state tournament at Raton. FRED HINGER is one of the officials of the tournament. He is teaching in Portales at the present time. . . . No, I am not married. Going to work at 7 P. M. and getting off at 3 A. M. will rather hinder one's night life."

DOROTHY NELL LEONARD of Tula and BILL WILLIAMS of Haskell were married in Portales, N. M., November 18, according to a recent announcement.

V. G. MARTIN is an optometrist in Amarillo now. Write him for some glasses at 927 Polk Street.

THELMA FORD is at 1214 Wildard in Houston.

FRED WILLIAMS is connected with the Lanett Division of the West Point Manufacturing Co. in Lanett, Alabama, and his official position is termed Night Supervisor. The mill has 83,000 spindles and 2600 looms. Whew! Fred tells us about his Engineering Banquet held there March 2.

"We held our banquet in the Henry Grady Hotel, in Atlanta, Ga., and it was about the largest crowd that has ever attended. I was Chairman and Toastmaster. The following were present: Mr. and Mrs. James Harrell, Mr. and Mrs. Basil Hill, Mr. and Mrs. Dwight Epperson, Eli McAngus and date, W. A. Wardell and date, Fred Williams and date, Mr. and Mrs. Leo Trim, Mr. and Mrs. Sanford Gabriel, C. C. Williams and date, J. Weldon McCarty, Mr. and Mrs. William K. Wilder, Mr. and Mrs. Rudd Hardesty, Mr. and Mrs. Russell Redding, Mr. and Mrs. H. L. Wilder, and J. C. Ewing.

"... The meetings have been organized about seven or eight years. The first ones were held in Rockmart, Ga., with about six or eight boys attending. We have met in Atlanta, Ga., Chattanooga, Tenn., Rockmart, Ga., and Cartersville, Ga. The meeting will be held in Atlanta again next year. I was reelected Chairman."

ELIZABETH ELLIOT has been employed since March 1 as County Home Demonstration Agent of Lee County with headquarters in Giddings. Prior to that time she was Assistant Home Supervisor of Wilson County for F. S. A.

ROSS WATSON is in Houston working for the Reed Roller Bit Co. His address is 6619 Sherman.

F. HARVEY BOND tells us of the marriage of JUANITA MONTEITH of Clayton, N. M. She was married March 9 at her home in Clayton to Ernest E. Howell of Taos, N. M. They will be at home in Taos where Mr. Howell is manager of the Taos Theatre.

HARVEY, himself, "expects to ankle down the middle aisle about April 18 . . . You can read about it in the TAOSENO, a damn good Democratic newspaper . . . in spite of the fact that I edited a Republican paper the last three years, for another guy . . . Eddie Parker, of Wellington, visited here some time ago. Eddie graduated about '35 or '37. Guess that you knew Cecil Rushing, textile '35, is manager of Knox Weavers in Santa Fe . . ."

J. H. Nail, 1939 graduate, has been recommended and accepted for the position of city editor of the Vernon Daily Record in Vernon and will start to work Monday.

Nail has been with the News-Journal in Clovis, N. M., since September.

Ray Nichols, publisher of the Record, has asked Prof. Cecil Horne, head professor of journalism, to recommend one man and one woman graduate for positions on his paper.

At the conclusion of the Engineering Banquet held in Philadelphia, formal organization of the Atlantic Coast Chapter of the Texas Tech Engineering Society was perfected. James Lloyd Russell was elected president, J. B. Calvert, vice-president, Samuel H. J. Womack, secretary.

At the meeting were J. B. Calvert, 20 RIDGE AVE., NORWOOD, PA.; Dorothy Deacon, 237 Mohawk Ave., Norwood, Pa.; Mr. and Mrs. John A. Davis, Village Green, Media, Pa.; Opal Hill, % Wellington Sears Co., 65 Worth St., New York City; Millard Hall, 627 Greenwich St., New York City; Mr. and Mrs. Robert Taylor, 77 Grand Avenue, Washington, D. C.; T. C. Worley, 2810 Delmar Ave., Sparrows Point, Md.; Robert Houston, 135 Dodd St., East Orange, N. J.; Ben Thompson, 549 Mt. Prospect Ave., Newark, N. J.; Sam H. J. Womack, 6900 Bradley Blvd., Bethesda, Md.; Mr. and Mrs. Arledge Stokes, 320 N. Piedmont St., Arlington, Va.; Mr. and Mrs. James L. Russell, 4103 Henry St., Brentwood, Md.

Next meeting will be held in Washington, D. C., March 1, 1941.

Dean James G. Allen led a discussion of "Our College—its Needs" at an open forum meeting of the Council of Women Graduates held in the Chimayo room of the Hilton Hotel Tuesday evening March 12.

"Antiques in the Modern Home" will be discussed by Robert I. Lockard, assistant professor of architecture and allied arts, at the next regular meeting of the group which will be held April 9 at the Hilton Hotel.

Sigma Gamma Epsilon, honorary geology fraternity, has announced five pledges, selected on a basis of scholarship and personality.

Joe Waidhofer, Lowell Bristor, Lockert Sleeper, Travis LaRoe and Walton Finney will be pledges for six weeks before being admitted for membership.

Students having 12 hours of geology and a C average are eligible to be voted into the organization. Dr. M. A. Stainbrook, geology professor, is sponsor of the fraternity.

Tom Abraham, of the Fair Department store in Canadian, enjoys a sun grin.

Thanks very much to the two who sent in their alumni dues, but won't you please tell us who you are? A dollar bill was received from Haskell, mailed March 13; and two dollars were enclosed in another Business Reply Envelope mailed March 18. In Lubbock, Won't you give us a clue?

Mina Marie Wolf, who was recently added to the home economics faculty staff as assistant professor of foods and nutrition, has been elected to active membership in Kappa chapter of Sigma Xi, national scientific organization.

Kappa chapter is at Columbia university in New York City. Miss Wolf is a graduate of Tech and did graduate work in Columbia before coming back to Tech to take her present position.

Virginia Chapman of Herron, Ill., will be a visitor on the campus over the Easter holidays. Miss Chapman substituted in the applied arts department last spring during the absence of Elizabeth Hawley, assistant professor of applied arts.

Aviation, latest thing in ranching, is being employed by W. G. (Bill) Bivins, former agricultural student at Tech, to promote speedier scouting and cattle buying operations. He and his father, J. L. Bivins, own a large ranch near Amarillo.

Letter from Anne Hammons, 3011 Fairmount, Dallas, tells us "Manuel (DeBusk) was elected, February 24, Lord Chief Justice (President) of the Barristers Club here. That is the student organization of the S. M. U. Law School, and this place is equivalent to the President of the Student Body of the Law School. May I add, he was elected by acclamation, the first time in the history of the club. He will get his law degree this spring."

MAURINE PATTON, assistant in the Tech President's office, was married to JAMES O. HILL of Clovis, N. M., February 24, at her home 15 miles from Clovis. MISS LUCILE ROBINSON, Mr. Jones' Secretary, played the wedding music on the piano, and RICHARD BURWELL, also of the President's office, sang.

Fifty KO SHARI Club members made the annual Easter trek to Santa Fe for initiation rites and entertainment, accompanied by Miss DOROTHY RYLANDER and Mr. and Mrs. R. C. HARVEY.

ELLA NORENE MOREMAN of Post and AUSTIN REGINALD JORDAN were married in Lubbock March 21.

ERNEST NELSON is at 204 South Third Street, Alhambra, California.

MOZELLE PARTAIN and W. B. RUSHING, both of Lubbock (Varsity Bookstore), were mar-

ried March 21 in Lubbock.

LORENE CAROLYN CHILDERS, Secretary to the Dean of Men, and JOHN E. HARDING, business administration instructor, were married in Lubbock March 20.

Mrs. J. WILEY HOLMES (Elizabeth Dryden) visited the campus recently, and attended the wedding of Lorene Childers. Elizabeth is living in Van Horn.

NANCY ANDERSON of Longview and RUFUS RYAN were married in Amarillo March 13. They are at home in Houston.

Jack Adair, traveling salesman of Lubbock and West Texas, gets a laugh out of Gene Worley, State Representative in Shamrock, who is growing a beard in preparation for the Shamrock Irish Celebration.

TEXAS INTERCOLLEGIATE DRAMA FESTIVAL will be held at Texas Tech next year, according to Speech Instructor John N. Watson who extended the invitation at this year's meeting in Abilene recently.

VIRGINIA SMALLWOOD was selected the most outstanding actress of the state, and Tech placed three others on the All Star Cast which was selected in Abilene. These are: DORIS KIRK of Spearman, JOE BURSON of SON of Lubbock, LEE BYRD of Claude and ANN MOORE of Albany received honorable mention.

Mr. and Mrs. SAWNIE CARROLL of Dimmitt are the proud White Deer, and CLAY THOMPSON of a two months old daughter SAWYNDRA D'AUN. Mrs. Carroll is the former Hilma D'Aun Bartlett of Lamesa.

C. C. CRENSHAW, Jr., was elected President of Lubbock County Young Democrats March 4, succeeding Calvin Hazlewood, outgoing President. Also, on March 16, Crenshaw was named Committeeman of the Young Democratic Clubs of West Texas at their annual convention in Amarillo.

C. W. RATLIFF was elected First Vice President of the Lubbock Young Democrats. PORTER PARRIS was selected Secretary, Treasurer, and RALPH BROCK, Sergeant-at-Arms.

Mrs. P. W. Horn, 73, died at 9:10 A. M. March 11. Wife of Tech's first President and loved by all, the campus hushed in sorrow at her passing. Only member of the immediate family who remains is Miss Ruth Horn of the English Department.

J. D. WILSON has been reelected with a three-year contract as Superintendent of the Paducah schools.

MARK E. WOOD is now conducting a textile research project on Texas Tech campus. He was formerly Assistant Editor of the Textile World magazine.

DORIS LICKLEY of Lubbock was married to RALPH McCURE of Fort Worth March 24 in Lubbock. They will be at home in Fort Worth.

ANNE SHARP of Lubbock and ROBERT WILDER, student from Wellington, were married recently. They are at home at 2210 Twenty-fifth Street.

MARY FLORENCE (Angel) VAN HORN, of Odessa and Fort Worth, and MAC O. BORING, JR., also of Odessa and Fort Worth, were married in Odessa March 23. They will be at home in Odessa where Mac is connected with the M. K. B. Drilling Company.

FANNIE B. BRATCHER of Lubbock and Spade was married to W. C. CARPENTER of Hale Center in Lubbock March 16.

W. Paul Temple, 1937 textile engineering graduate, has been promoted to the position of vice-president of Mudrite Chemical company, Inc., Houston, Tex., according to a letter received by Miss Dorothy Rylander, engineering librarian.

Engineers' Show

This year marks the twelfth annual Texas Tech Engineers' Show. The show is in the manner of a swan song for the senior engineering students, each of whom has a part cut out for him in the production of one of the greatest events of the year at Texas Tech.

In addition to the fact that there will be approximately ten thousand people go through the show, recognition should be given to the fact that at least half of these will be school children, each of whom is a prospective student. The impression left with them as to the work done and the interest taken in big things here at Tech will have a great deal to do with their choosing this as the school they want to attend.

This year's show will bring in a great number of added attractions. Among things never seen at the show before will be exhibits by the Geology Department of the different theories of earth movements, relation of earth blocks, demonstrative reasoning for the presence of seas, and tests that can be carried on in the laboratories to prove and explain ideas that have been left vague in many discussions. The Physics Department will be a part of the show this year. With the 10 inch telescope that has been almost entirely built in the department here, that department will hold the interest of great numbers of persons attending the show. The telescope will be set up at the south side of the Chemistry Building and will be one of the first attractions of the show. Other exhibits of the Physics Department will be a large gyroscope, Geisler Tubes, Fluorescent tubes, Luscite rod, static machines, spectroscope, and a demonstration with ping pong balls.

Industrial Engineering Department will add a trade test. This is a manual dexterity test free to all attending the show. They will also have a contest for the visitors.

Electrical Engineering Department has a number of new items this year that will not only be of interest due to their oddity, but because they will demonstrate the uses of different electrical gadgets.

Civil Engineering Department is adding their soil analysis exhibit to the show this year, and in the Military Science Department there will be a number of exhibits of interest to everyone interested in national defence.

Department of Architecture and Allied Arts will introduce a number of new and novel ideas for this year's show, and the Textile Engineering Department will use all of their equipment as in years

past but adding the feature of a show window in their department to give information as to different kinds of cloth. This model window should be one of the biggest attractions of the show.

One innovation this year will be the new routing of visitors through the show. Show Manager: Charles "Buzzy" Barnard plans to start the trek through the show at the chemistry building. The next place will be the engineering building, and continuing northward through the military building, the textile building, and through the shops. This will give everyone an opportunity to see all the show without the necessity of doubling back over parts of the show already seen.

League Meet

Dates for the District Interscholastic League Meet at Texas Technological college have been changed to April 12 and 13. Dr. A. W. Evans, head professor of education and director general of the league meet, recently announced. Originally scheduled for the first week end in April, the contests were changed because of conflict with a band meeting in Plainview.

Fourteen counties represented in District 3 are Bailey, Cochran, Crosby, Dawson, Dickens, Floyd, Garza, Hale, Hockley, Lamb, Lubbock, Lynn, Terry, and Yoakum. Lubbock and Plainview high schools also enter contestants.

Literary events include declamation, debate, one-act play, extemporaneous speech, three-R contest, ready writers contest, Spanish, typewriting, and shorthand. Athletic contests are tennis, volleyball, golf, track and field events.

Open House

Mr. and Mrs. West Texan, their daughter and son, Jane and Bob should be able to save 2 per cent of their \$1160 yearly income, Texas Tech's eighth annual Home Economics open house April 12 and 13 will show. Distribution of this national salary median includes 40 per cent for food, 20 per cent for shelter, 12 per cent for clothing, 11 per cent for operation, and 15 per cent for advancement and personal needs.

"The father is 40 years of age, the mother 37, the daughter 16, and the son 11," Dean Margaret W. Weeks said, in explaining the theme of the annual demonstration of class and laboratory projects. "They live in Prairieville, a typical small town of the South Plains with 1200 to 1500 population. The father is employed by a business concern. He is a high school graduate with a business

course and apprenticeship in his business. He is a member of a local civic club and takes part in community affairs.

"The mother is a high school graduate and has had two years in a junior college. She is a good manager and does all the work of the household including the sewing and cooking. She is interested in community improvements and in church work. She belongs to one social club and takes part in social affairs of community interest. The daughter will graduate from high school in May and the son wants to play high school football next year."

The 1940 open house will be arranged to show the difference in living standards for this average family and for the professional family averaging \$2000 yearly. Living costs for the latter family, according to figures worked out in the various departments of the home economics division, would be as follows: savings, 8 per cent; food, 30 per cent; shelter, 18 per cent; clothing, 14 per cent; operation, 12 per cent; advancement and personal needs, 18 per cent.

Convention

Present figures show that approximately 150 delegates are expected to attend each of the two conventions to be held by the ASME and AIEE simultaneously on Tech campus April 19 and 20. Representatives from four states will attend the mechanical engineers' convention, and five states are to send delegates to the electrical convention.

Tentative plans include a chuck wagon lunch Friday noon, April 19, and a banquet for both groups Friday night. Separate breakfasts and luncheons will be given Saturday, with prizes to be awarded at the final luncheons for winning technical papers presented during the conventions.

Climaxing the meets will be a ball at the Lubbock hotel Saturday night, with delegates of both societies and their dates attending.

Field trips and technical sessions will be included in the business of the conventions.

New Arrival

A daughter, Carol Ann, was born to Mr. and Mrs. L. Bernard Dean March 10 in Wichita Falls, Tex., according to a letter received by Miss Dorothy Rylander, engineering librarian, recently.

Dean received a bachelor of science degree in civil engineering from Tech in 1932. Since his graduation he has been employed by Texas Highway department.

COLORE

Teachers

According to J. T. Shaver, associate professor of education, 53 student teachers began a three-week observation period recently in senior high school. Choosing the subject they wished to do practice work in, these Tech students signed for the particular subject.

Practice teachers include:

Talbert Bennett, bookkeeping; George N. Boswell, journalism; Doyle Chiles, history; Miss Helen Corley, English; Miss Joyce Craven, commercial art; Miss Dorothy Jean Day, general business training; Miss Verlene Franks, English; Miss Alma Fern Green, physical education; Lannis Gross, general business training; Phillip Harmon, physical education; Morris Jones, history; Mrs. Jeanie Laws, bookkeeping; Jack McDonnell, math; Mrs. Mary McElyea, general aid; Mrs. Mary Veima McManis, physical education; J. W. Partin, history; Miss Mary Elizabeth Rube, history; Miss Janice Thompson, history; Miss Faye Pauline Travis, Latin; Miss Ferrelline Tucker, English; Holt Waldrep, physical education; Jack Shannon Wells, zoology; Miss Jerriene Wharton, physical education; Miss Dorothy Harris Willett, general business training; Miss Rena George Wright, English; Miss Julia Ahlin, general business training; Miss Flora May Betts, zoology; Miss Dorothy Carver, history; Mrs. Rosalie Chappe, speech; Miss Kathryn Foster, Spanish; Miss Maurice Giles, English; Mrs. Bill Hatcher, English; Mrs. Kathryn Humphries, English; Mrs. Lucile D. Keen, chemistry; Miss Dahlia Kirby, English; Rouben Edward Martin, band; Miss Florence L. Meekins, English; Miss Hazel Daurice Mitchell, English; Miss Evelyn Toole Reed, English; Miss Virginia Toole Reed, English; Rudolph Seljos, math; Mrs. Evelyn H. Smith, speech; Miss Frances Tarlton, English; William Wells, mathematics; Leo J. Warren, history; Rex Williams, physical education; Miss Ozora Frances Young, Spanish.

Gridiron

Professional football grabbed a couple of ex-Texas Tech stars this week when Center Rex Williams signed with the New York Giants and Tackle Bill Davis with the Chicago Cardinals. Both teams are members of the National Professional football league.

Davis was line captain of the Red Raiders last season. Both men lettered three years, playing in the 1933 sun Bowl game against West Virginia and the 1939 Cotton Bowl game against St. Mary's.

Williams was rated second best center in the Southwest in 1938, his best year, when only Ki Aldrich of Texas Christian was considered better. Last season he was handicapped by injuries much of the year and did not have so impressive a season.

Both will finish degree requirements at Tech in June. Williams is from Sherman, Davis from Grapevine.

They will report to their clubs in mid-August.

Heard Resigns

Terminating 12 years of service as instructor, professor and head of the department of textile engineering, M. E. Heard announced his resignation.

Heard will leave Texas Tech about June 1 to assume the position as dean and director of the Philadelphia Textile School of the Pennsylvania Museum of Art. The school is the oldest textile institution of its kind in the United States, having been established in 1884. He will succeed Dr. E. W. France, head of the school for 50 years.

No arrangements have been made for Heard's successor, but the summer cotton classing schools have reached a point where they can be carried on as in previous summers.

Social Science

Several Tech professors of social sciences will attend the twenty-first annual meeting of the Southwestern Social Science association March 22-23 at Baker hotel in Dallas. Government, business administration and economics and geography departments of Tech will be represented.

"Unity and Subdivision in the Planning and Development of American Life" is the central theme of the 1940 convention. All papers presented and all discussions will be related to this theme. Prof. C. E. Ayers of the University of Texas and president of the association will address the group at a dinner. Prof. W. H. Hamilton of Columbia university will make the luncheon address.

J. W. Davis, Tech professor of government, will talk on "The Conflict Between the National Commerce Power and the Taxing Power of the States." Dr. J. O. Ellsworth, head of the department of economics and business administration, will discuss "Barriers to Trade" in the agricultural economies division.

Other Tech professors attending the convention are: Leo C. Riethmayer, T. C. Root, Haskell Taylor, Spencer D. Albright and H. A. Anderson.

Doctor of Philosophy

M. F. Landwer, associate professor of biology, has received official notice that a Ph. D. degree has been conferred upon him. Dr. R. A. Studhalter announced. Dr. Landwer finished work for his degree at the University of Michigan during the Christmas holidays.

Sans Souci

A wee bit o' Ireland was sprinkled among festivities of Sans Souci's St. Patrick's day breakfast March 17 honoring sponsors and patronesses.

With a theme of the shamrock and traditional green and white of old Eire predominating, club members and pledges gathered in the Hilton hotel ballroom with Sponsors Jonnie McCrery and Edna Lyles and 23 patronesses as guests.

Patronesses attending were Mesdames Richard L. Douglas, J. B. Edwards, George Simmons, Nell H. Wright, Ann Dalby, J. H. Stiles, Olan Key, C. E. Maedgen, George Benson, Rayford Hills, L. E. Davis, E. Waldo Trotter, A. V. Weaver, W. H. Evans, Fred Snyder, W. F. Dean, J. E. Vickers, Ralph Truening, Don Mitchell, Hub Jones, E. L. Klett, Floyd Beall, D. K. Bonduant and Eleanor M. Chitwood.

Members who attended were Ruby Faye Meredith, Margaret Boone, Helen Cantrell, Linnie Chappell, Jean Clapp, Peggy Dunlap, Dorothy Margaret Forbis, Arnette Halsey, Dolores Hasefeldt, Mary Jarrott, Jane Frickett, Clara Jean Watson, Jane Wilson, and Mary Beth Tomlinson.

Pledges included Lucille Ehlinger, Jacqueline Davis, Frances Brashner, Mary Frances Bingham, Betty Burke, Ruth Campbell, Emma Ruth Cox, Sara Davis, Pat Fullbright, Wilma Ruth Forbis, Betty Lee Graves, Betty Grimes, Virginia Hoffmaster, Lanelle Harburt, Helen Jarrott, Madeline Johnston, Blive Levens, Catherine McCollum, Marilyn Miller, Mary Paxton, Marilyn Riggs, Ruth Rogers, Betty Sanford, Mickey Temple, Helen Thomas, Peggy Whitcomb, and Mary Catherine Booth.

Sponsors and patronesses were presented with gifts.

Pi Sigma Alpha

Ten students were initiated into Pi Sigma Alpha, government fraternity, recently. They were Argo Peek, T. J. Harris, Archie McDonald, Mayo Boucher, Wilma Dickerson, Aubrey Weaver, Harold Beckmeyer, Chester Wright, Warlick Carr and James Snyder.

Qualifications for membership are 12 hours of government, three being in an advanced course, one free A above a B average in government courses and a C average in all college work.

Hockley County Politicians

LEVELLAND, Special. Many former Tech students appear as officers in the recently organized Hockley county Young Democrats club.

State Representative Alvin R. Allison is president. J. A. Ellis, county judge of Hockley County, is sergeant-at-arms. William Sewell, banker, is secretary-treasurer.

Forrest Weathold, publisher of the Hockley County Herald, and Morris (Tanner) Laine, secretary to Allison in his race for the Texas Senate, are on the executive committee.

Royal Furgeson of Lubbock, present District Clerk, has announced for reelection. With-out opposition to date, he bases his platform on friendly efficiency and invites his friends to come by and see him.

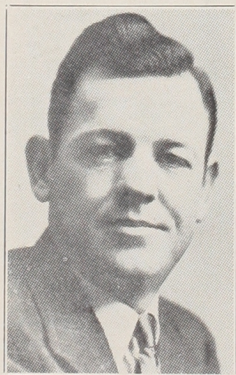

Highway Engineer

E. J. Amey, administrative assistant to the state highway engineer in charge of personnel, spoke to all civil engineering seniors who are eligible for degrees in June this year recently, according to an announcement by Prof. James H. Murdough, head of the civil engineering department.

Amey told several engineers that the state had vacancies for all June graduates from Tech. This might be considered highly complimentary for the type of instruction that Tech offers students who enroll in the engineering division, it was revealed.

The nature of the various jobs was not revealed but consolation of being able to obtain a job immediately after graduation is unusual, it was reported. More unusual is the fact that this offer was a collective acceptance of all Tech civil engineering graduates.

C. L. Harris of Spur, Candidate for United States Congress, has been a member of the Texas State Legislature for the past four years. Harris is 31 years of age, and has attended school at McAdoo, Lubbock High School, Texas Tech, and law school in Austin. An active member of the alumni association, he is interested in furthering the interests of Texas Tech and this section of the nation.

'Scholars'

College club, men's social club, received permanent possession of the scholarship plaque for having the highest scholastic standing of the seven clubs for the third successive semester at the second annual smoker of the Inter-Club council.

All members of Alpha Chi and all those holding campus offices were introduced. Sumner Reed was recognized for highest average of the club members, and Alfred Couch making the highest average among the pledges.

Each club introduced their best all around pledge of the semester. They are as follows: Warren Taber, Silver Key; John Robert Moxley, Centaur; Robert Jordan, Kemas; Allen Leach, Wranglers; Bill Lamar, College Club; Walter Lemke, Los Camaradas and Orville Shofner, Socii.

Home Ec Positions

The Cooperative Extension service of Missouri has written Dean Margaret W. Weeks asking her to recommend six seniors for positions with that organization beginning in June.

Jessie Lee Hensley, a graduate last June from the home economics division, has a position there now.

All of last year's graduates from the division who wanted positions are placed now, Dean Weeks said, and some of the girls scheduled to graduate in June have positions promised.

Visual Aids

Widespread knowledge of the visual aids department of Tech was evidenced this week when Mrs. Janet McDonald received a letter from a visual aid service in Boston, Mass.

Inquiry was made about how Tech had secured six films depicting Shakespearean dramas. Mrs. McDonald said she was very proud someone so far away would recognize that the Tech's Film library has many valuable and educational films.

Loses Bet

Texas Tech's dean of men lost his best dress tie to Texas Tech's head yell leader recently when students proved the rule rather than the exception as indifferent voters.

Ten candidates for four publications offices 'took the stump' the night before elections at the first all-college political rally ever staged on the campus. The crowd fell short—far short—of the dean's expectations. He estimated that the college gymnasium, seating approximately 2,000, would be two-thirds full; the yell leader said not even a fourth. The yell leader won.

Recognition

In recognition of her outstanding work in the field of journalism on the campus, Freddy Boswell, LA VENTANA editor, was made an honorary member of Women's press club at a meeting of that organization recently.

In addition to voting upon the admittance of Miss Boswell, the club elected Margaret Martin, senior student from Grand Prairie, vice-president, and Virginia Glenn, junior from Wellington, secretary-treasurer. They are to serve during the remainder of the present semester.

Born

Mr. and Mrs. Terrell Haymes of Brownwood reported the arrival of a 7-pound daughter, Terrell Carolyn, March 6, according to an announcement received by C. V. Bullen, head professor of electrical engineering department.

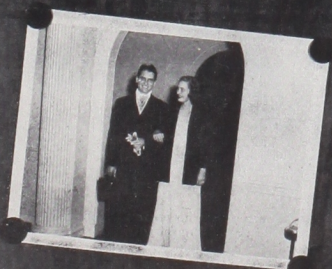

Haymes was graduated from Tech with a bachelor of science degree in electrical engineering in 1932. In 1935 he received a master's degree in physics here. His wife, the former Eva Eaton, also attended Tech.

Since his graduation, Haymes has been employed by Coastal Finding company with home offices in Houston.

Hugh Anderson, pictured above, is seeking the Democratic nomination for the office of County Attorney in Lubbock County. He attended Texas Tech during the 1926-27, 1928-29 sessions, and again in 1931, and has made his home in Lubbock County since 1936. He was admitted to the Bar of Texas in 1932 after having studied law at home and has practiced law in Lubbock since that time. He has twice been appointed Assistant County Attorney by two different County Attorneys and seeks to be promoted to the job of County Attorney.

Scene on the Campus

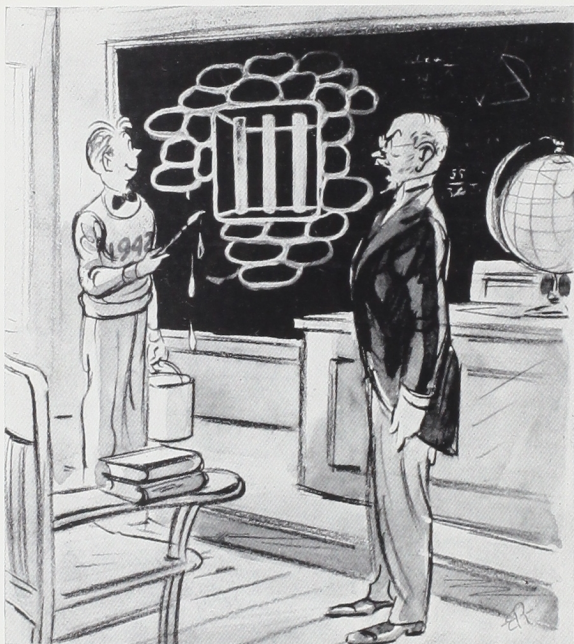

IN the snapshot at the upper left, the undergraduate on the lower step is wearing a dark brown shetland suit. He's carrying a camel's hair top coat. His competition is wearing a heavy tweed sport coat with contrasting dark grey trousers. On his arm is a natural colored alligator coat.

The young man who seems oblivious of the spring football practice is wearing a cashmere long sleeved v-neck sweater with flannel sport trousers.

The three figures stepping along so jauntily in the center all wear sport outfits of contrasting jackets and trousers.

All dressed up with someplace to go, the formal young man is wearing a Chesterfield overcoat, a white silk muffler, white buckskin gloves, and, of course, an opera hat.

Of the two shirts, one is thin striped with a round point collar. The other is solid blue with a buttoned down roll collar.

"I take it, Johnson, that you are not satisfied with classroom conditions here!"

MR. MOTTO ADVISES YOUNG SISTER

Keep away from track men; they are usually fast.

Never make dates with med students. They enjoy cutting up too much.

The football man is all right. He'll tackle anything.

You can trust a swimmer. He'll dive in and do his best.

The tennis player is a shrewd fellow. He's always got a racket.

Watch out for the baseball player; he hits and runs.

Be careful of the Thespian. He usually has several good lines.

Don't play cards with a Civil Engineer; he's a bridge specialist.

Always let a member of the band talk about himself. He enjoys blowing his own horn.

Watch out for the basketball player; he might try a body check.

Don't believe all a member of the rifle team tells you. He likes to shoot the bull.

When a man tells you his life is an open book, don't fail to ask for missing pages.

Never ask a fraternity man why he is in a hurry; he believes in rushing.

The pursuit of happiness does not necessarily mean seventy miles an hour.

METHODS OF BREAKING UP A ROMANCE

Tell her about your wife and kiddies who are waiting for you at home.

Convince her that you don't want to stand in the way of her career.

Mention the fact that there's insanity in the family.

Start eating onions and garlic.

Tell her that the car you've been using really belongs to your friend.

Insist that she pay for her own ticket when you go anywhere.

Stop using Life Buoy.

Tell her that seats in the loges are for rich men and politicians only.

Tell her your real age.

Tell her to go to —.

"I cannot stand the heat," he said,

"I'll kill me much I fear."

"Oh, try to live," the maiden cried,

"You'll be much cooler here."

"Let them laugh, who cares! It saves me anywhere from a hundred to a hundred and fifty bucks in checking fees a year."

YOU CAN'T BUY A BETTER CIGARETTE

When you ask for Chesterfields the dealer will say with a smile...*They Satisfy.* You will find that Chesterfields smoke cooler, taste better and are definitely milder...for Chesterfields have the right combination of the world's best cigarette tobaccos.

*Make your
next pack*

CHESTERFIELD

SMOKY JOE HAD THE DAMSEL IN DISTRESS!

"GIDDYAP, NAPOLEON! Looks like this Romeo is trying his darndest to smoke us out. Phew! His tobacco smells like the backfire from Pa's flivver!" Just then

UP RIDES A RANGER, sniffs the pipe, says to clean it and refill with *mild* Sir Walter, a burley blend famous for aroma. It worked! Joe won her back!

IT SMOKES AS SWEET AS IT SMELLS

TUNE IN—Sir Walter Raleigh "Dog House." Every Tuesday night, NBC Red Network.

CINEMATICALLY SPEAKING

The picture was so bad they had to give a set of dishes to the producer to get him to look at the rushes.

The critics feel the author must have something on the producer to make him put out such a picture, and they believed it must be more than murder.

The picture was so bad they could not even get the audience in on dish night before they filled the plates with soup.

The star insisted on a raise because she receives equal billing with Dish Night and Screeno, wherever her picture is playing.

Today an actor is nothing more than a straight man for a set of dishes.

A moving picture owner said he could make more money if he could do away with running the pictures and just run screeno continuously.

Some gulls were following a ferry boat.

An Irishman said, "Nice flock of pigeons."

"Those are gulls," insisted a tourist.

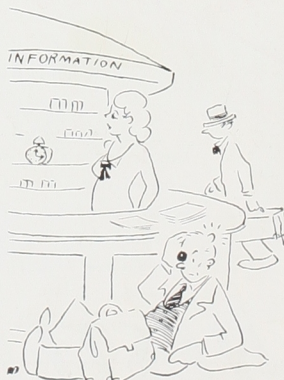

"Well," said the Irishman, "gulls or boys, they're a fine flock of pigeons."

"What a long letter!"

"Yes—sixteen pages—from Lucy."

"What does she say?"

"That she will tell me the news when she sees me."

lied Arts, interspersing her teaching with study in New York City and Mexico.

In the summer of 1936 Billie Langford received the degree of bachelor of arts with a major in Commercial Art. She taught school for the next two years at Sanford, Texas, and this past summer was married to Mr. John Henry Holder of that place.

The class of 1937 added three more women to the graduate list: Mary E. Bean, who is teaching at Skellytown, Texas, and Esther and Nancy Lou Jones. The Jones sisters did free lance advertising work for some time after graduation; then Nancy obtained a position as teacher in the Pecos public schools and Esther was married to E. Hoyse McMurtry, a 1937 graduate in Architecture. They are now living at Clovis, New Mexico.

1938 found our total brought up to ten women graduates when five young women received bachelor of arts degrees with a major in Commercial Art. Joni Bundy has been teaching in the Plainview public schools since her graduation and was fortunate enough to have a summer's study in New York City. Erma Stokes worked as saleslady and interior decorator with a furniture in Dallas for a time; then returned to Tech to secure a bachelor of science degree in education with a major in Commercial Art in the summer of 1939, and is now raising some of the loveliest dahlias in West Texas at her home in Lubbock. Mozelle Nordyke taught school at Wolf-orth, Texas, one year and was then married to Mr. Steve J. Dobb of Lubbock. Frances Campbell was decorator at Hemphill-Wells department store in Lubbock for a while but gave up her career to marry Wm. M. Pearce of the Tech history department faculty, and is now at home at 2220 Broadway, Lubbock. Roberta Hunt taught school for a year and a half at Tulia, Texas, but resigned in the fall of 1939 to go to the Panama Canal Zone to be married to Cedric Gragg, a 1938 Electrical Engineering graduate. Mr. Gragg is an electrical engineering supervisor on the construction of some permanent barracks in the Canal Zone. Roberta's address is Box 1302, Ancon, Canal Zone.

Of our 1939 graduates, Julia Austin and Mary Clark have joined the teaching profession. Julia is teaching art and penmanship at Slaton, and Mary is with the Kress public schools. Natalie Tandy spent all summer and fall in the New Mexico mountains but is now at home in Houston, Texas. Frances Turner returned to her home in Abilene where she worked for a while in a department store before her marriage to Vernon A. Cravens of Matador, a former engineering student. Opal Hill, our only graduate from the department of Textile Engineering, will be remembered as the No. 1 Cotton Girl of America and queen of the Cotton Bowl football game on New Year's day 1939 when Tech's Red Raiders played St. Mary's Gaels.

Women Graduates

To date there have been fifteen women who have graduated from the Division of Engineering at Texas Tech. Fourteen of these have been graduates from the department of Architecture and Allied Arts and one young lady received the degree of bachelor of science in Textile Engineering.

Edna Houghton was the first woman to graduate in engineering, having received the B. S. degree in Architectural Engineering in 1930. Following her graduation she was associated with the Decorator's Studio for one year; then returned to the college to teach in the department of Architecture and Al-

JACK TUCKER — OWNER — MGR.

SURE OF HER FIGURE

Speaking of kissing, or were you? Reminds me that the other night in one of the first-circle houses a new pledge and a Chem student were sitting closely on a divan. Finally the Chemist took the little frosh in his arms and kissed her.

"I'm sorry," she said, "but I always tell my sorority sisters everything, so as soon as you go home I'll tell them you kissed me seven times."

"Seven times? Why I only kissed you once," he said.

"But surely you're not going home yet," said the cute pledge.

—Alabama Rammer-Jammer.

UNAPPRECIATIVE

Coed: "I had a date with an absent-minded professor last night."

Collegian: "How do you know he's absent-minded?"

Coed: "Well, he must be. He gave me a D on my history test this morning."

—Washington Columns.

STRONG FOR THE WEEKLY

She was trying to work her way through L. S. U. by selling subscriptions to the Saturday Evening Post. But most of the fellows wanted to take Liberties.

—Northwestern Purple Parrot.

POME

There was once a man unique. Who fancied himself quite a shique.

But the girls didn't fall

For the fellow at all—

He made only twenty a wique.

—Cornell Widow.

SHOE 'NUF

Instead of saying "Heil Hitler" we say "Heel, Hitler," because he has a lot of tongue and no soul.

—Lafayette Lyre.

COURTING DISASTER

Caller: "I would like to see the Judge, please."

Secretary: "I'm sorry, sir, but he is at dinner."

Caller: "But my man, my errand is important."

Secretary: "It can't be helped, sir. His honor is at steak."

How About FloraDa?

Teacher: Can you name the sister states?

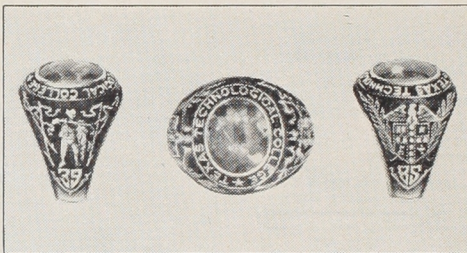

Phi Bete: MissOuri, IdaHo, MaryLand, LouisaAna, DelaWare and MinnieSota.

"What kind of oil do you use in your car?"

"Oh, I usually begin by telling them I'm lonely."

She was an optician's daughter. Two glasses and she made a spectacle of herself.

in slower-burning
Camels," says Bill Corum,
famed sports writer
and columnist

LIGHTNING-FAST in the press-box. Why, Bill Corum's been known to file 3,000 words of sizzling copy during a single big sports event. But no speed for him in his smoking—slower-burning Camels are Bill Corum's cigarette.

And here's Bill at work in the quiet of his office. Bill...typewriter...books...pictures...and Camels—slow-burning Camels. "I find them milder and cooler—and thriftier," he says.

Copyright, 1940, R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

BILL CORUM'S sports news isn't just printed... it's *sprinted*... at lightning speed from press-box to press and the Five-Star Final. But when the candid camera catches Bill in his office with a cigarette—well, "No speed for me in my smoking," he says.

His own common sense and experience tell him what scientists have found out in their research laboratories—that "slow-burning cigarettes are extra mild, extra cool, fragrant, and flavorful."

Cigarettes that burn fast just naturally burn hot. And nothing so surely wrecks the delicate elements of flavor and fragrance as excess heat. No wonder you get a hot, flat, unsatisfactory smoke.

The delightful mildness, coolness, fragrance, and flavor of Camels are explained by this important finding—Camels proved to be the *slowest-burning* cigarette of the sixteen largest-selling brands tested! (The panel at the right explains the test.)

In recent laboratory tests, CAMELS burned 25% *slower* than the average of the 15 other of the largest-selling brands tested—*slower* than any of them. That means, on the average, a smoking *plus* equal to
