'And It Was the First Time the Colonel Ever Ca

By United Press

NEW YORK, Jan. 14.—A heavy-set man telephoned the residence of Col. Jacob Ruppert last night, shortly before 7 o'clock. Al Brennan, Ruppert's secretary, answered his ring.

"I want to see the colonel, Al," the caller said. "This is Babe Ruth."

"Come right on up, Babe," Brennan replied, then tiptoed into the bedroom where Ruppert lay near death. He leaned over the Colonel

and whispered:

"The Babe is coming up to see you."

"Fine," the Colonel replied weakly, then closed his eyes.

Half an hour later, Ruppert turned fitfully to his nurse and

said, "I want to see the Ba

"He's right here at your side," the nurse replied.

Ruppert turned and wanly, reached out his hand. Babe took it awkwardly. The colonel tried to speak; Ruth

Remember her at state convention

Mrs Haldane Seeks GOP Nomination

MRS ANNE C. HALDANE
In Legislature Race

Mrs Anne Castle Haldane of Pasadena announced Tuesday as a candidate for the Republican nomination for state representative, Position 6.

She said that her name will be placed before the GOP precinct primary conventions July 21 and the county nominating convention of the party Aug 4. She was the first Republican candidate for state representative to announce.

A LONG TIME resident of the county, she is the wife of Robert Haldane, chief engineer of the Shell Oil Company's Houston refinery, and the mother of three sons and a daughter.

Mrs Haldane attended South-west Texas State Teachers College, the University of Houston, the Houston Law School and the Vassar Institute.

Mrs Haldane said that she favors improvement of the state government as a basis for states' rights and a reduction of the federal tax burden.

SHE FAVORS the naming of a commission to study revision of the state Constitution, state election law reforms, a long-range water conservation program, improvements in the legal status of women and stiffer enforcement of criminal laws with more workable rules of evidence for the courts.

"Give Light and the People Will Find Their Own Way"

Chamber Backs Bluebonnet Bowl

When President Leon Jaworski of the Houston Chamber of Commerce called on all Chamber members to support the Bluebonnet Bowl as a "civic enterprise," he hit the nail squarely.

Matching of two champions, TCU vs. Clemson, plus the festive air of a bowl contest make the Bluebonnet a double barrel bargain, well worth the support of every Houstonian or Houston firm, Mr. Jaworski pointed out.

You can buy Bluebonnet Bowl tickets personally at Oshman's, 902 Main, Holt's, 1017 Fannin, or at the Bluebonnet Bowl office, first floor of the Prudential Building . . . buy them by telephone by calling JA 6-4888 . . . or buy them by mail by writing P. O. Box 2262, Houston 1, and enclosing \$5.50 per ticket plus 25 cents service charge per order, regardless of the number of tickets ordered.

Every seat left is a good one because there are no bad seats in Rice Stadium.

Private Colleges Deserve Your Help

Gates Makes a Promise

Thomas S. Gates Jr., the new Secretary of Defense, made news the first day he was in office by announcing he would hold frequent press conferences, urge other top officials in the department to do likewise, and generally open up Pentagon information.

* * *

This was news because despite a horde of public relations men the Defense Department has not always been noted for freedom of information.

Mr. Gates says the Pentagon shouldn't have anything to hide except genuine military secrets. This exception, of course, often provides a dodge for non-security "secrets."

* * *

President Eisenhower over and over has declared that nothing, other than strict security matters, should be withheld by any department of the government. But getting his underlings to follow this policy is something else. Perhaps Mr. Gates will have better luck. Let's see.

'Voter's Key To 1960'

The League of Women Voters of Houston is to be congratulated on its neat "Voter's Key of 1960," a combination of political calendar and handbook.

The pamphlet covers about everything in an election year from how to pay your poll tax or secure an exemption to how to mark a paper ballot or vote by machine.

The League can supply any number of these "Keys" to individuals or firms at low cost. You may place your order through League of Women Voters, 3005 Brazos Street, Houston 6, Texas.

They are designed to promote political responsibility and understanding—and they will.

Want to Be In Velvet? Here's How to Work It

(Tenth of 12 articles)

By ANN VAN BUREN

Written for The Press and NEA

There's nothing more luxurious to the eye—or to the touch than velvet.

So to all of you who would like to be "in velvet," here's how to work with it.

Before you place pattern pieces on velvet, velveteen, or corduroy, be sure the nap is running the right way. The nap should be running the same way—all one way—UP.

Run your fingers up the fabric. If it's smooth to the touch, that's the way to place your pattern. If the fabric resists your fingers, that's against the nap, and wrong.

An easy way to remember this is to apply logic to the "seat" of the problem. When you sit you tend to slide forward in your chair. If the nap should run down, your sitting motion would push the nap in reverse . . . the wrong way. This would create a matted, shiny look.

Including pieces that aren't subject to being rubbed the wrong way, you must cut all of your nappy fabric—skirt, waist, sleeves—running the same way, nap up, or it will catch the light differently. Your outfit will look as though pieces of it are of non-matching colors or shades.

It's wise, too, to use a simple pattern requiring no buttonholes, and one with as little top stitching as possible.

But if your belt, say, requires top stitching, be sure to sew in the direction nap runs. When stitching in your zipper, it's helpful to use the cording foot on your machine, if you have one.

To lessen the matting when doing top-stitching, you might place transparent tissue about your fabric, stitch, rip away tissue, and if any matting has occurred, steam up.

Yes, steam—don't press—nappy fabrics. This is important.

This is the way to do it:

Use a needle board if you have one. Otherwise, stand iron on end, cover with a damp cloth. Run the wrong side of fabric at a slight distance. Never run the steam iron over the fabric. And brush steam away in direction of nap, as you go.

If you wish, you can use a steaming kettle for this operation, rather than an iron.

For the final pressing of a velvet or velveteen dress before you wear it, it will pay to have a professional cleaner press it. You can't beat their large steam-iron machines.

Don't miss the luxury of a velvet dress. Everybody likes the finer things in life, but you may not make it financially. However, if you do your own sewing and follow these tips, you can be in velvet.

The Grand Clean-Up!

WOMEN'S POLITICAL WORK OUTLINED IN CHRONICLE CARTOON
A Follow-Up on Women Voters Convention of 1922

League of Women Voters Is Still Stressing Many Early Projects

BY MAURINE PARKHURST
Club Editor

The Houston League of Women Voters has proved incorrect the old saying "Life Begins At Forty," for in its first 40 years the League vigorously has been promoting such projects as public services, jury service for women, health laws, voter education and more participation in political activities.

The organization will celebrate "Forty Years of a Great Idea" at 10 a.m. Friday at Wynn Blanton Memorial Bldg., 3410 W. Alabama.

The League was organized in 1920 on the Rice roof with Mrs. Hally Ruth Mosley as its first president. Two years later it served as hostess for the state meeting.

In its issue of Oct. 24, 1922, The Houston Chronicle welcomed delegates in a big way—a banner headline across the top of the front page, plus an editorial and five other stories on that same page.

The Sunday pictorial section of Oct. 22 presented a full page of pictures of state and local officers including Mrs. Moseley, and the late Miss Florence Sterling, state vice-president.

The editorial emphasized The Chronicle considered the convention fortunate in the program placed before it—prison reform, child welfare, and revision of the state constitution, "subjects which the citizenship of Texas finds itself vitally interested." It pointed out the penal system needed radical reformation, not only with reference to law and method, but also institutional activities.

Further it stated "it is generally recognized that the state constitution is anti-

is still advocating a revision of the state constitution, in fact, members say, it is number one on the state program.

The program subjects at that long ago convention, might well be those of today: Justification of a living wage, rural schools, efficient government, Texas constitution and taxation.

The Houston League in the 1920s sponsored the candidate rallies, the first one being held on the Y.W.C.A. roof. History has it, that in-

stead of sticking to issues as candidates have today—they spent their allotted time "vilifying one another."

An active worker in the League was the late Mrs. Harris Masterson, who served several times as president of the organization. When a long time member was asked about the program in those days, she answered, "We just did what Mrs. Masterson commanded."

In 1928 a chapter was founded at Rice Institute, now

Rice University, and these young members aided in a material way—they painted the slogan "Get Out The Vote" at street intersections—and with the approval of the City Council.

Friday's program includes a resume of the League's history, a high point being the Jubilee March in 1920 to celebrate passing of the women's suffrage amendment.

Past presidents and long time members will be honored at this celebration.

Women Voters To Have 40th Anniversary Meet

The Houston League of Women Voters will celebrate its 40th anniversary at a meeting at 10 AM Friday in the Wynn Blanton Memorial Building.

Mrs William Joor, president, will preside.

A SKIT depicting the league's history will be presented and an anniversary pamphlet will be distributed listing the group's accomplishments since 1920.

It explains how the league has been responsible for the institution of a secret ballot in Texas, its assistance in establishing a family court system, its work for initiative action on the Texas constitutional revision, jury service for women, health laws and for setting up citizenship coffees, candidates' rallies and voters' guides in the community.

From the first jubilee march down Main Street in 1920 to celebrate the women's suffrage amendment, the league has been vitally interested in improving public services, educating the voter and stimulating others to greater participation in political activity, Mrs Joor said.

SPECIAL GUEST will

Hally Ruth Moseley, the first president.

Among other past presidents to be introduced are Mrs R. D. Randolph, Miss Nina Cullinan, Mrs A. S. Bailey, Mrs Marshall Ferguson, Mrs Renfro Robertson, Mrs H. W. Cullen, Mrs A. S. Vandervort, Mrs Verne Maddox, Mrs J. W. Keerans, Mrs Harmon Ulrich, Mrs W. C. Spencer, Mrs Carl Herman, Mrs Malcolm Sher, Mrs Walter Lewis and Mrs Eugene Hughes.

2-12-61

THE HOUSTON CHRONICLE

Chronicle Photo

DO YOU REMEMBER? — "Do you remember?" was probably the most used phrase Friday morning at Wynn Blanton Memorial Bldg. The occasion was the celebration of "Forty Years of a Great Idea," by the Houston League of Women Voters. Among those enjoying reminiscing were Mrs. Sol Schoenmann, left, and Mrs. Hally Ruth H. Moseley. Mrs. Schoenmann, a member since 1927 and a former president, was in charge of the first candidates' rally sponsored by the League. Mrs. Moseley was the first president of the organization.

Women Voters League *Part* Seeks to Expand Work *8/16*

The League of Women Voters' original mission was to interest potential women voters in exercising their balloting rights, and then to inform them as to their proper exercise. Its sphere of nonpartisan activities has been extended to the entire electorate, men and women, and it has achieved much progress, especially through the issuance of voters' guides, hearings of candidates, citizenship coffees and courses, and through individual efforts of members to promote political responsibility through informed and active participation of citizens in government.

Much remains to challenge the League's efforts in the field of curing voters' apathy and lack of information. The League seeks to meet the challenge by enlarging its ranks for more comprehensive work.

Along with observance of its 40th birthday, the League of Women Voters has begun its annual finance drive, its only source of revenue. A contribution to the League is an investment in good government.

40 Years of Voters League

Chronicle Feb 16 '61

Back in 1922 The Chronicle, in welcoming the state convention of the League of Women Voters to Houston, said this: "It (the league) is a comparatively new organization in our political and social life, and it speaks of a comparatively new day. It represents something of a climax in the evolution of democracy, a rounding out of the franchise privilege, an effective participation of women in public affairs. . . . The nation, the state and the community are, after all, only extended homes, in which every faculty and talent must be brought to bear,

and in which the woman's viewpoint is absolutely essential if we are to obtain the best possible results."

The league now is 40 years old. Growing out of the woman's suffrage movement, it changed its goal from a woman's right to vote to a citizen's duty to know. Today, it constantly urges people not only to vote but to vote intelligently.

The league shares the same financial necessities as any civic-oriented organization. This is finance month for the league and contributions are needed and welcomed.

Ho Post 1-23-61

WOMEN VOTERS TAKE POLL TAXES

The women seated behind the booth are three of the 40 representatives of the League of Women Voters who are collecting poll taxes at booths throughout the city. Paying her tax is Mrs B. S. Peek Jr, of 3037 Gulf Crest St. Seated, left to right, are Mrs Benjamin Bloom, Mrs Philip Freedman and Mrs Richard Olivere. They and others will be collecting poll taxes at most of the large banks, law offices and some business firms through Jan 31, the deadline for payment of the \$1.50 tax.—Post Photo

Balloting In Isle Election Starts Today

THE POST'S TEXAS NEWS SERVICES
GALVESTON — Mrs Mary Morales, city secretary, said absentee balloting for the April 11 city election will start Wednesday at City Hall.

There are 34 candidates for the seven council seats under

the new city charter changing Galveston's municipal government from commission to the manager - council form.

Voters who will be absent from the city April 11 may vote absentee between now and April 7, Mrs Morales said.

Political activity in the city campaign is picking up, with the Citizens Charter Committee, a political group formed to back the new city charter, opening a campaign headquarters downtown for the eight candidates it has endorsed.

There also are several political rallies scheduled in the next few weeks. The 500 - member Citizens Charter Committee has called a meeting of its membership and others interested for 7 PM Wednesday in the court room of 122nd District Judge L. D. Godard.

Old Dive Razed

WARSAW —(P)— The Oasis Bar, Warsaw's most notorious hangout for weeks, tonight

Mrs Fugger New President Of Women Voters League

THE POST'S TEXAS NEWS SERVICE
GALVESTON — Mrs Edward Fugger was elected president of the Galveston League of Women Voters Tuesday, succeeding Mrs Jake Webster, who served as interim president after the resignation of Mrs Lewis Harris.

Other new officers are Mrs Eugene Sembler, second vice president; Mrs W. E. Mahaffey, third vice president, and Mrs Phillip Kocen, secretary. Mrs George Rounsell, first vice president, and Mrs Antonio Chuoke, treasurer, are holdover officers.

ELECTED TO THE board of directors were Mrs Samuel M. Calderon, Mrs Morris Plantowsky, Mrs E. B. Vogelpohl Jr and Mrs LeRoy Olson. Mrs Frank Nussbaum was chairman of the nominating committee.

The League of Women Voters was responsible for calling the election on drafting a new charter for the city, and backed the change to a council-manager government.

Mrs Harris, who was in her second term as president of the league, resigned from the presidency and the board of directors to take an active part in the Citizens Charter Committee, a political group, as did Mrs Harris Kempner, a candidate for City Council.

MEMBERS OF THE league heard the eight candidates for the Galveston School Board speak at the Tuesday meeting, with incumbents outlining a proposed \$3.5 Million school tax bond issue and all of the candidates voicing their opinions on federal aid to education.

MRS DAVID MENDELL, PRESIDENT OF THE LEAGUE OF WOMEN VOTERS

'Not Just an Organization. It Is a Way of Life'

—Post Photo by Ed Valdez

It Started After Suffrage

By LORETTA LAMBROUSSIS, Post Women's Staff

"The League of Women Voters is not just an organization. It is a way of life," said Mrs David Mendell, the president of the Houston chapter.

Mrs Mendell was the chief clerk of the Committee on Immigration and Naturalization of the House of Representatives from 1941 to 1945. She was the first woman to hold that post.

"I was so impressed with the respect paid to the League of Women Voters in Washington. The members came so thoroughly prepared, so objective and so free from emotion. They had no ax to grind.

"WE ENDORSE ISSUES only after they have been studied and analysed," said Mrs Mendell, who joined the league when she returned to Houston in 1950.

The purpose of the League of Women Voters, which is non-partisan is to promote political responsibility through informed and active participation of citizens in government, she said.

The league, which was founded in 1920, grew out of the suffrage movement. A league pamphlet of 1919 said: "The organization has three purposes: to foster education in citizenship, to promote forums and public discussions of civic re-

forms, and to support needed legislation . . . we do not fear issues . . . we'll vote not as women but as American citizens and we are unafraid."

"Once women got the vote," Mrs Mendell said, "they had to know how to use this new tool. The league sought to educate them.

"We work on three levels—local, state, national. It is a membership organization where decisions are made by the members.

"THERE IS A combination discussion and action group. Members consciously practice democracy within the league. Majority opinion prevails, but minority opinion is welcome.

"The league strives for substantial agreement on a position, not for unanimity.

"We are the only group that actually studies a problem, takes a consensus of members, takes a stand and then goes out and works for it."

Local, state and national boards are elected to carry out decisions made by the members in annual meetings, state conventions, and the biennial national convention.

A member joins the League of Women Voters of the United States. She works through her local league in the field of government in her community.

A STATE LEAGUE is composed of local government leagues and concerns itself with state government matters. It directs much of its effort toward state constitutional reform, improved legislature procedures and child welfare laws.

In national affairs the league has been devoted to the principle of international cooperation for nearly 40 years, Mrs Mendell said.

All members work on state and national matters through their local leagues. There are over 132,000 members in the U. S.

The League of Women Voters of Houston is one of the oldest chapters. It was founded in 1920 and has a membership of 270.

"A city this size should have a greater membership," Mrs Mendell said. "But it seems that the people who are interested in this type of thing are usually interested in many other groups.

"WE HAVE BEEN working for many See LEAGUE OF VOTERS on Page 3

Mrs Miller Gets Citation As Volunteer

A Houston woman is one of three semi-finalists from Texas in the competition for the 1961 Layne Bryant awards for volunteers in community welfare projects.

Mrs Annie Belle Miller, 6709 Westchester St, has been awarded a citation for her outstanding community service. Her activities have included work with Eastern Star, the Mary Burnett School, the Star of Hope Mission and many garden clubs.

Mrs Miller teaches a Sunday school class of 250 women at the Second Baptist Church. She writes a column in a local newspaper and has spoken to church groups, rotary clubs and other organizations in the Houston area.

Frank Ferree of Harlingen and Roscoe Lanier Thomas of Dallas are the other Texas semi-finalists for the award to an individual.

In the group competition for the award, the Dallas Society for Crippled Children and the League of Women Voters of Galveston are the semi-finalists from Texas.

Awards of \$1,000 will be presented to the final winners on Nov 29 in New York.

PR

mi-Annual Trance on by Balenciaga

"it looks more as if your slip were showing," according to one retailer.

There are ruffles all over the collection, but they are said to be understated and elegant, rather than silly ruffles. Little girl dinner dresses are made entirely of narrow, black ruffled val lace. For ballgowns, ruffles grew to the dimensions of Balenciaga's famous flamenco ruffle last season. A ruffle that comes in looking like part of a matador cape turns out to be the train of the ballgown beneath. Evening coats and dresses are both ruffled around the hem and up the edge of the closing.

Evening gowns, made of linen-like gauze or organdie, all have their own

cover-ups. They are floor length coats of the same fabric, beaded boleros that just cover the beaded band at the top of a dress, and three-corner scarfs.

Balenciaga has produced the throw-away fashion of all time — a floor length, black beaded coat over an absolutely simple black crepe evening sheath. Also remembered among the evening fashions: the pink crepe sheath, one of many pale pastels; the ruffled black organza jacket over a sheath; the jet bead sheath like a shiny black python.

Balenciaga's models wear little or no jewelry except for pearl earrings and real looking pins. He dresses his bride in white organdie. Amen.

LEAGUE OF VOTERS

Continued From Page 1

years for the revision of the Texas Constitution. We are trying to modernize the ox-cart 1876 constitution to meet jet-age challenges.

"This outmoded tool," Mrs Mendell said, "cannot serve an industrial state. It was adopted to serve agricultural Texas of that day.

"We must give our elected representatives the proper tools with which to work."

Another item on the current agenda of the state program is the evaluation of the methods of voter registration.

"We are working on the revision of the election code," Mrs Mendell said.

"The league's effort to help individuals to be politically effective is a year-round function."

It publishes factual information, Mrs Mendell said, on issues to help the electorate to cast an informed vote. At election time it also issues factual information on candidates and conducts candidates' meetings.

VOTERS GUIDES, published by the League of Women Voters, are distributed to citizens by all available means.

"The publications of the league have been used for years," Mrs Mendell said, "by libraries throughout the country.

"It is one of the few women's organizations whose publications were requested for the files of the Library of Congress.

"This year for the first time we have published some pamphlets in Spanish. We felt that we were not really reaching the Spanish group.

"An unofficial check has disclosed," she said, "that the Houston League — 48 of our members were deputized for the

purpose — have written 15,000 poll taxes. A final count will probably show that there were more than that," Mrs Mendell said.

A reasonable zoning ordinance for Houston and study of the public library systems of Houston and Harris County are on the Houston current agenda.

AMONG THE CONTINUING responsibilities of the Houston group are adequate financial structure for the Houston Independent School District and the adoption of County Home Rule for Harris County.

"The league is non-partisan. It does not oppose or support political parties.

"Members are urged to take part and to share a responsibility for the actions of the government. Members of the League of Women Voters," Mrs Mendell emphasized, work as individuals in the political parties of their choice. To protect the non-partisanship policy of the league, board members do not work actively in their parties while serving a term.

"We are dedicated," Mrs Mendell said, "to the principle of self-government. The league works through its program and through its voter service to promote political responsibility.

"It helps the individual citizen to be politically effective, to develop understanding of the essentials of individual liberty and representative government. It helps to increase citizen participation in political processes in the interest of responsible and responsive government."

Mrs Mendell graduated from the University of Washington, DC. She majored in psychology. She has two children, Jeffrey and Mark, who are seventh and sixth graders in Saint John's School. Her husband is a physician.

Citizenship Card Party *February 7*

A card party for the women citizens of Houston will be given by the league of Women Voters Tuesday February 7 at the Rice hotel ballroom at 2:30 in the afternoon, in order to raise \$1000 for the work of the State league which is of importance to all women.

The general chairman of the party will be Mrs. W. E. Gilliland, who will be assisted by Mrs. F. Y. Jones, Miss Florence Sterling, Mrs. Jesse E. Moseley, The prize committee will include Mrs. W. N. Grafius, Mrs. C. A. Teagle, Mrs. J. Watson Northrup, Mrs. George F. Howard and Miss Pansy Holman.

The ticket committee includes Mrs. Neils Esperson, chairman, Mrs. J. Edward Hodges, Mrs. H. A. Delery, Mrs. Harry Goode and Mrs. Martha Cade. The committee on arrangements is Mrs. J. W. Butler, chairman; Mrs. J. P. Carter and Mrs. Belle Wisdom. The committee for the sale of candy has Mrs. Oscar Hild as chairman, Mrs. R. E. Necco and Mrs. R. J. McHugh assisting.

The party is open to all interested women whether they are league members or whether they have paid their poll tax or not.

News and Notes

Women Voters

Mrs David Mendell, newly elected president of the Houston League of Women Voters, and a group of members are in Austin attending the Texas League's presidents' council.

In the party are Mrs Karl Kamrath, Mrs William Joor, Mrs Phillip Freedman, Mrs Eugene Hughes, Mrs Herman Badash, Mrs Walter Lewis, Mrs Jack Kelminson, Mrs Joseph Wiesenthal and Mrs A. J. Pelletieri.

Music Program

The music of Spain will be discussed at the Treble Clef Club meeting Friday at 10 AM at the home of Mrs W. J. Steed. Co-hostesses will be Mrs B. E. Patterson and Mrs T. J. Robichaux.

Arts and Flowers

The Arts and Flowers Garden Club will meet at 10 AM Friday in Suzanne's Cafeteria before visiting the garden of Mrs B. Carrol Thorp.

Mrs Richard R. McKay will be hostess to Houston alumnae of Pi Beta Phi at 10 AM Friday in her home. New officers will

MRS KAMRATH AND MRS MENDELL
Reviewing 40 Years of League Activities

—Post Photo by Dan Hardy

Voters' League Suggested

Mirror of World Opinion

Is it perhaps time the League of Women Voters dropped the word "Women" from its title, and became simply the League of Voters?

Many groups today attempt to arouse public awareness of public issues. Probably the prototype has been established by the A.F.L.-C.I.O., whose techniques have been copied in large measure by the U.S. Chamber of Commerce. We have Republican workshops and Democratic action groups. We have political committees of farmers, doctors, lawyers.

But all these operate on a bias. They are essentially concerned with selling their own political philosophies.

The League of Women Voters also had a bias at birth, the stimulation of political activity among women. Today, the woman vote is a myth, unsupported by election returns. Today, the League's program is of concern to both men and women.

Why, then, continue to practice segregation of the sexes in political affairs? Why not a League of Voters, nonpartisan, objective, functioning to examine the issues and to develop our democracy, organize without regard to sex, party, economic status, or previous condition of servitude?

FEDERATION OF WOMEN'S CLUBS IS BIG ASSET

UNITED DAUGHTERS OF CONFEDERACY SEEK TO KEEP MEMORIES OF OLD SOUTH ALIVE

Houston has three chapters of the United Daughters of the Confederacy, comprising a membership of almost 300 at the present time. All of the chapters are working along the same lines and are in co-operation with the state and national bodies.

The oldest chapter in Houston is the Robert E. Lee Chapter, organized Nov. 11, 1897, in a response to a call from the Dick Dowling Camp of Confederate Veterans. It was the first chapter in the state to take the name of Robert E. Lee, the greatest of Confederate heroes. Mrs. Margaret Foster was made chairman, and a committee of co-workers was appointed to assist in the organization of the chapter. Officers who were elected to head the chapter were: Mrs. Joseph Hutchison, president; Mrs. Milton G. Howe, first vice president; Mrs. Thomas F. Franklin, second vice president; Mrs. Bettie Stephens, president; and Margaret H. Foster, secretary. Mrs. W. B. R. Watson was made chairman of the credentials committee, and the organization enrolled 14 members when the charter was received. Upon the completion of the organization, Mildred Lee, daughter of General Robert E. Lee, sent the chapter a lock of her father's hair to be placed among the relics of the chapter.

CHAPTER'S AIM

The aim of the chapter has been to keep alive the memories of the Confederacy. Probably the biggest material thing the Robert E. Lee chapter has done was to foster the placing of a monument to Robert E. Lee in City Park. Money was raised by popular subscription under the leadership of the chapter, and the monument was designed by Anatze, sculptor of Washington, D. C. The chapter will aid in the fund to educate the children of Confederate veterans which is being raised by the state organization. The chapter will work for the living members of the Confederacy, as well as strive to keep alive the memory of the dead.

Mrs. Mary E. Bryan, who has been president for the last 15 years, was re-elected to the office at the last election of officers. Others who hold offices in the chapter are Mrs. Leeland D.

Fletcher, first vice president; Mrs. P. Carter Walker, second vice president; Mrs. Johnson, third vice president; Mrs. Lou Salter, fourth vice president; Mrs. Hugh, secretary; Mrs. Phillip Fall, treasurer; Mrs. Annie Dewey Bailey, corresponding secretary; Mrs. U. S. Shockey, registrar. The chapter has always been represented at division and general conventions.

ROBERTS CHAPTER

The Oran M. Roberts Chapter, UDC, was organized on the 24th day of January, 1901, with a membership of 32 charter members. Officers elected at the first meeting were: Miss Adella Dunavant, president; Mrs. S. F. Carter, first vice president; Mrs. T. W. House, second vice president; Mrs. E. B. Bates, third vice president; Mrs. W. B. King, fourth vice president; Miss Jennie Stephens, secretary; Mrs. T. M. Blandin, treasurer; Mrs. T. M. Blandin, historian. The chapter was named for Oran M. Roberts, who was governor of Texas during the civil war. Its object was to perpetuate the history of the Confederacy and to vindicate the Southern soldier. Purposes of the chapter are historical, charitable and social.

It has contributed materially to the erection of the statue of Jefferson Davis, which is being erected at Fairview, Va. The chapter has taken part in the establishing of the Jefferson Davis Ocean to Ocean Highway, which is under construction. Donations have been given to the scholarship fund for the education of some worthy child of a veteran. Officers of the chapter are: Mrs. F. I. Nevill, president; Mrs. B. H. Harman, first vice president; Mrs. Hattie E. Hatch, second vice president; Mrs. S. A. Brown, third vice president; Mrs. Bettie Kaufhold, fourth vice president; Mrs. Irma Cook, secretary; Mrs. W. M. Grafius, treasurer; and Mrs. B. B. Knolls, historian. The motto of the chapter is: "Superior to Adversity; Equal to Prosperity." The bluebonnet is the flower. It has a membership of 200.

DAVIS CHAPTER. The baby chapter is the Jefferson Davis Chapter, organized May 29, 1916, with a membership

of 37. The present president, Mrs. W. Hansen, was elected to the office which she still holds. Others who were elected to office following the granting of the charter were: Mrs. Uvalde Burns, first vice president; Mrs. Sam Steele, second vice president; Mrs. Bettie Bodenheimer, third vice president; Mrs. R. F. Noble, fourth vice president; Mrs. G. W. Gates, recording secretary; Miss Maidie McCloud, corresponding secretary; Mrs. J. S. Hoover, treasurer; Mrs. Whit Boyd, historian; Mrs. Nita V. Thompson, registrar; Mrs. H. L. Rook, custodian; Mrs. Alice Miller, librarian; and Mrs. J. C. Reichardt, parliamentarian.

CHARACTER BUILT BY GIRL SCOUTS

Not a year old and a membership of 350 is the record the girl scout organization of Houston offers as the champion record of Houston.

Starting from a troop organization at Rusk settlement by Miss Annie Jones, social settlement worker, other groups were organized in various parts of the city and practically without leadership until Miss Corinne Fonde, of Recreation and Community Service, was asked by some of the girls to call a meeting of all girls in the city who were interested in the girl scout movement.

The meeting held November 15 resulted in the appointment of Mrs. F. M. Law as girl scout commissioner and a membership of 35 girls in the scout organization so popular was the movement and so ripe the time that five new troops were organized during the remainder of the month. Membership grew steadily and March 15 the scouts of the city met, and organized the Houston Girl Scout Council. Officers elected were Mrs. F. M. Law, commissioner; Mrs. P. B. Timpon, deputy commis-

sioner; Rebecca Sanders, treasurer; Isabel Deming sec. and Miss Corinne Fonde, executive secretary. Application for a charter was made and the organization became fully organized April 17 upon arrival of the charter from headquarters in New York.

The purpose and aim of the Girl Scout Movement is to make better all-around girls. It teaches self-reliance, organization, co-operation and better citizenship and womanhood. Among the things which the girls learn in the scout work are out-door life and how to take care of themselves in most any situation, home management, care of smaller children, first aid, home nursing, and others too numerous to mention. The qualities of personal conduct and those governing democracy and good citizenship are taught thru scout activities.

Houston scouts served as assistant playground supervisors in the city parks, under the leadership of Recreation and Community Service.

The first girl scout summer camp which was held in August of this year was one of the biggest and most successful. The girls learned to swim at the camp and all of them learned how to conduct themselves in the woods and to make the most of tent life. Basketball was taught, and setting up exercises were given.

With the organization complete, and a working group of girls co-operating in scout activities, the leaders are looking forward to a very active year for 1923. Better scouting and greater service will be two of the things to be stressed in scout work.

Many of the girls will take the merit badge tests and will qualify for first class scouts before this time next year. The membership will be enlarged and plans for a more thorough co-operation between girls scouts, camp fire girls and girl reserves. A friendly rivalry will be instituted between the three organizations for the honor in accomplishments.

Plans call for central organization of these bodies to exchange methods and for the promotion of good fellowship among the girls of Houston.

Looking long into the future, scouting is calculated to prepare girls for capable, efficient womanhood and better citizenship, so that the girls who have been scouts may take their places in the adult organization with a full knowledge and appreciation of the meaning of organized womanhood.

DYE BLOUSE OR
BABY'S COAT IN
"DIAMOND DYES"

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors into her worn garments or dyes even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.—Adv.

Home-Made Fruit Butters

Want to get full directions and instructions for making 'em at home—now, while you can get the apples and other fruit in plenty? Our Washington Bureau is prepared to help you. This bulletin gives full directions for making apple butter, apple butter with cider, with grape juice, with lemons, with plums, with rhubarb; crabapple butter, pear butter, peach butter, plain, with dried and canned peaches; peach butter with lemon juice, plum butter, Gamagrass butter—they're all in the bulletin. It's free to readers of The Houston Press. Just fill out carefully and legibly the coupon below, and mail as directed:

Washington Bureau, Daily Houston Press, 1322 N. Y. Ave., Washington, D. C.

I want a copy of the bulletin Home-Made Fruit Butters, and enclose 2 cents in stamps to cover postage.

City

State

TO ENTERTAIN LARGE BRIMS TO STATE CLUBS THIS FALL

The City Federation of Women's Clubs was organized in 1899 with a membership of six clubs, whose personnel felt the need of co-ordination of women's activities in the upbuilding of Houston.

The clubs which were eligible for membership at that time and which joined the federation were the Shakespeare Club, Ladies' Reading Club, Current Literature Club, Mansfield Dramatic Club and the Uxoris Club.

The immediate cause of the forming of the federation was the need of the city for a public library. Each club had been striving separately to bring about, and each had contributed in time and money to the cause. But there developed the need of a united effort on the part of all those who were interested in the library project.

The Woman's Club had been offered \$50,000 by the Carnegie library board for the building of a library building if the city would furnish a site and provide for the maintenance of a library. The Ladies' Reading Club being the oldest of the clubs in the city, the duty of calling the clubs together for organization fell upon its shoulders.

OLD OFFICERS

The president of the Ladies' Reading Club presided at the called meeting, when the following officers were elected: Mrs. Adelle B. Loosan, president; Mrs. W. B. Slosson, first vice president; W. B. Kendall, second vice president; E. Raphael, recording secretary; Mrs. F. B. King, corresponding secretary; and Mrs. Horace Booth, treasurer.

The first work of the federation was to appoint a committee to secure money for the site. The object of the federation was to encourage and promote harmonious relations and unity among the local clubs and labor for the general good of the community at large.

Having secured the library site, the federation took up other activities. They assisted in establishing traveling libraries and brought lecturers and artists to the city.

The federation pioneered in work for peace in Houston, playing games, manual training in the schools, home economics, kindergartens in the schools, and laws for compulsory school attendance. The federation was called on to promote an affair affecting the betterment of the city.

The membership has grown to 25 individual clubs whose activities co-ordinate thru the federation. They are devoted to various activities from music and art to the wearing of public health, both from a home and civic standpoint.

WAR WORK

Being entirely non-partisan and non-sectarian in nature, its membership made up of women of many religions and races, the federation was peculiarly fitted to render valuable service during the war. All women's organizations of the city were mobilized thru the federation. A register was established where every woman might register for the work she could do to take the place of some man who had entered the service. Among the notable things the federation accomplished were: Assisting in the making and sending of 10,000 garments to be distributed by Ann Morgan among the destitute children of France; sold Liberty bonds and war saving stamps thru the individual clubs, maintained a recreational center for the use of the soldiers at Camp Logan, furnishing home-made refreshments below cost and giving the boys companionship and surroundings of the highest character.

The membership is composed of nearly 2,000 active women of Houston who can be readily mobilized for any kind of concentrated effort. It operates thru two delegates from each club who vote and answer for their organizations at regular monthly meetings.

CONVENTION

The Houston federation has twice entertained the state convention of Federated Clubs, and is to have the honor of entertaining them for the third time this fall, when the convention meets in Houston Nov. 6 to 10.

LARGE BRIMS

Popular on Women's Hats Now

Large brims on the women's hats are gaining favor rapidly in the East, says S. G. Meehan, manager of the millinery department of Landers.

New fall models have just been received.

Metal flower trimmings also are proving popular.

The United States treasury is paying pensions to 60 widows of the War of 1812.

Simple Way to Take Off Fat

There can be nothing simpler than taking a convenient little tablet four times each day until your weight is reduced to normal. That's all—just purchase a case of Marmola Prescription Tablets from your druggist for one dollar, the same price the world over. Follow directions—no starvation dieting or tiresome exercising. Eat substantial food—be as lazy as you like and keep on getting slimmer. And the best part of Marmola Prescription Tablets is they are harmless. That is your absolute safeguard. Purchase them from your druggist, or send direct to Marmola Co., 4012 Woodward Ave., Detroit, Mich.—Advertisement.

PERMIT US TO INTRODUCE A COW

An out-of-the-ordinary cow—bred for cream production—housed in a sanitary dairy building—scientifically fed—treated with kindness and milked with every care for cleanliness.

She is typical of the thousands that supply superior cream for Morning Glory Butter.

You should know her and know about her—she and her kind are the sole source of butter-fat—the one food for which there is no substitute. Morning Glory Butter is made entirely with butter-fat.

We pasteurize the cream for purity, and churn it in a sanitary, modern creamery, cleaner than the cleanest kitchen.

Texas Creamery Company
Houston, Texas

Women's Organizations Are Big Factor in Houston's Welfare

PARENT-TEACHERS MAKE SCHOOLS EFFICIENT

No woman's organization of Houston is of more importance than the Houston Council of Parent-Teachers associations, through which all work of the mothers and the teachers in bettering school conditions is unified.

Organized in April of 1908 under the leadership of Dr. P. W. Horn, the council was called the Parent-Teachers association. Miss Mamie Gearing, in whose home the association was organized, also took a leading part in the affairs of the association.

Schools which had associations entering the central association were Pannin, the oldest Mothers club in the city, Longfellow, Dow, Jones, Austin, Sherman, Taylor, and Allen.

Officers who were elected at the first meeting to head the association were Mrs. Harris Master-son, president; Dr. P. W. Horn, first vice president; Mrs. F. C. Red, second vice president; Miss Edith Bradley, recording secretary; Mrs. E. A. Holland, Cor. secretary, and Mrs. E. M. Tallaferrro, treasurer.

Mrs. Jefferson D. Gibbs, of Los Angeles representing the national Parent-Teachers association, assisted in the organization which was along the lines of the national body and which joined the national association.

Work of the association turned immediately to delinquent children. The object of the organization was to bring a better understanding between the parents and teachers to the end that the child's education might be facilitated and enlarged thru such co-operation. In 1918, the association was reorganized under the name of the Houston Council of Parent-Teachers associations and the work of the council broadened with the addition of several new associations.

Lunch rooms in practically every school in the city, with lunches served at cost to the children under the supervision of the associations, playground equipment, which was a pioneer movement among the mothers clubs for the recreation of the school children, beautiful school grounds and all kinds of facilities for the pleasure and education of the school children—all have been accomplished under the leadership and management of the associations.

Most of the schools have phonographs or pianos purchased by the

associations. Pictures donated to the rooms by the Houston Art League for assistance in the study of literature, have been framed and placed in the rooms by the associations. School libraries have been augmented and in some cases actually established by the mothers clubs. The kindergartens have been and still are in some instances furnished and operated under the sponsorship of the Parent-Teachers associations. Manual training and domestic science in the schools were first advocated by the associations and were in many instances established in the schools with fear and doubts on the part of the school boards of the city.

Two years ago, the Houston Council sponsored a healthy movement in the schools when the Young Men's Business League paid the salary of Miss Lou Stallings, an expert dietician, who weighed and measured every child in the city schools with a view of determining proper diet in each particular case. Lectures to the mothers thru the association proved of great benefit in the proper feeding of the school child.

EX-PRESIDENTS

Members of the individual associations who have served in the last 14 years as president of the council are Mrs. Harris Master-son, Mrs. Presley K. Ewing, Mrs. George W. Heyer, Mrs. H. Worth Jones, Mrs. Eli Ensign and Mrs. O. C. Castle who is the president for 1922.

The council has 32 associations enrolled. The association president, a teacher and a mother delegate are elected from each association to the council. Meetings are held every third Thursday when helpful methods are exchanged and efforts made to unify the work in all the association of the city.

Sixteen departments have been worked out, with committees made up of one member from each school club to look after the development of each department. They are: Education, membership, finance, juvenile court and probation, child hygiene, extension, playground, recreation and community centers, home and school gardens, parents' day, child welfare, exhibits, thrift, art, kindergarten, legislative, better films and humane.

Four phases of child life fill the work of the council and associations in their aim for the children of Houston. They are physical, mental, moral and last and most important, spiritual development.

Young Mothers Aided By Child Conservation Body

"The woman who takes into her heart her own child may be an ordinary mother; but she who takes into her heart the children of others is one of God's mothers."

Open to every woman who is interested and wants to work for better child health among Houston children, the Houston Heights Child Conservation League was organized February 11, 1914, and was encircled in the National Child Conservation League.

The purpose of the league has been to assist young mothers with the experience of older mothers and with literature to conserve the health of their children and to intelligently care for their babies in the way of proper feeding and care.

Officers to head the league upon its organization were: Mrs. R. L. Whitehead, president; Mrs. Chas. E. Hill, vice-president; Mrs. B. Baker, secretary and Mrs. G. H. Harrell, treasurer. The league has always been non-sectarian and for the benefit of children of every race and color. Any woman, whether mother or not, who is interested in the child life of the city is eligible for membership.

The League formed a Red Cross unit in 1917, and was active in all forms of war work during the time the United States was at war with Germany. A French orphan baby was adopted for three years.

The League held its first free clinic the first week of June, 1918 when 200 babies were examined and results tabulated. This was the first free clinic ever held in Houston for babies. Local doctors and nurses from the public health service volunteered their services for the work. A letter of commendation from Governor Hobby was received by the League following the conference.

The program for 1922, of helping American mothers and babies as adopted with a view to relieving home conditions during the period of unemployment. Baby layettes and all kinds of child assistance has been rendered by the league. Much work along the line of charity for needy mothers and babies has been done during the present year.

"The league is looking to the future citizenship of the city, to the end that Houston children may have all the opportunities of healthy bodies and normal well regulated lives to cope with the struggles of later life" said Mrs. G. B. Nogle, president of the league for the third consecutive year.

Officers who are in charge of the league at present are: Mrs. E. P. Sherman, vice-president; Mrs. F. E. Clappert, secretary and Mrs. Walter Hayes, treasurer. The membership of the league numbers 46 at the present time.

SECOND WARD CLUB HELPS BUILD CITY

In the Second Ward Civic Club, organized 21 years ago, Houston has one of the most active civic improvement clubs in the entire state. In park development, child out-door life and beautification of the city the Second Ward Civic Club improvements clubs in the entire state." In nothing but name.

Mrs. P. L. (Julia) Franklin, one of the pioneers in civic matters among the women of Houston, had a vision of a park for east end children where they could have supervised play. She called to gather the women of the ward and out of the meeting grew the Second Ward Civic club. Officers who were elected at the first meeting were Mrs. Nelson Jones, president; Mrs. James A. Thompson, secretary, and Mrs. E. M. Mills, treasurer. There were 26 charter members in the organization—all of whom had a part in the building up of the community under the leadership of the club.

GETS PARK

In 1908, thru the activity of the club, J. J. Settecast offered to donate one city block if the city would buy one block—the ground to be used as a park for the second ward district. Mrs. W. M. Paines, who was president of the club at that time, was made chairman of the park committee. After the park had been established, the club went to work to get it equipped with necessary entertainment features.

A band stand was erected under the leadership of the club and later a moving picture machine was purchased for showing free movies to the children. This was the first movement of its kind in the city and proved to be one of the most beneficial things the club has ever undertaken. The machine was later purchased by private parties and is still being used to show free pictures to children.

An appropriation of \$33,000 for the improvement of the park has been of great assistance in beautifying the park and getting it equipped for play. One of the largest swimming pools in Houston is located at Settecast park and the shelter house is sufficient and roomy to take care of a crowd on rainy days. Basket ball courts, large park equipment and all kind of small equipment for child play has been installed and is being used under the supervision of Recreation and Community Service.

OFFICERS

The Second Ward Civic club has purchased and erected in the park a drinking fountain which stands

as a memorial to three of the most active members of the club who are dead. They are Mrs. Julia Franklin, Mrs. Ida Fromm and Mrs. Theresa Decker. The names of these members are engraved on the fountain, which is one of the prettiest of its kind in the city.

Officers who were elected to head the club this year are: Mrs. E. G. Burke, president; Mrs. W. M. Paines, honorary president; Mrs. C. L. Leach, first vice-president; Mrs. George Howard, second vice-president; Mrs. C. J. Woodman, treasurer; Mrs. Grover Gelselman, secretary and Mrs. H. Heinze, officer at large.

"Our purposes are to make the ward a better, prettier place in which to live, to do charitable deeds and to teach and render patriotic service to the community in which we live" said Mrs. E. G. Burke.

The immediate aim of the club for the coming year is an open air stage where children can give dramas and other ward entertainments and where the citizens of the vicinity may give all kinds of affairs of interest to the residents.

Elks Make Extensive Dance Season Plans

The dancing season will be ushered in by the Houston Lodge of Elks with a dance Oct. 11. Other water dances will be held Oct. 30, Nov. 15 and 30, Dec. 13 and 20, and Jan. 1. Special Halloween, Thanksgiving and New Year programs are planned.

The next initiation will be held Oct. 3.

The population of Houston has doubled since the birth of The Houston Press.

Houston World War Nurses Form Post of Legion

Houston's "baby club" for women is the Emma Kotte Post of the American Legion, which is really not a club but a working body of ex-service nurses who have banded together for the perpetuation of the principles under which they served during the war with Germany.

The post was organized with a membership of 15, at a meeting held early in August at the Light Guard armory, when the nurses were assisted by members of the Houston Dismuke post in forming temporary organization pending the receipt of the charter.

The name for the post was chosen from the names of two Harris county nurses who died in the service of their country.

Miss Elizabeth Birks, who has been the leading spirit in the organization, is one of six members who will go to New Orleans to the national convention of ex-service men and women. The post is allowed only two delegates, more than half of the membership will go as visitors.

Meetings of the new post will be held at Y. W. C. A. headquarters. "The Emma Kotte post of the American Legion has no past to hark back to but it surely has a future to look forward to," said one of the members.

Only nurses who were enlisted in the government services are eligible for membership. The post is anxious to hear from more in Harris-co who are eligible for membership in the Emma Kotte post, and who are interested in keeping alive the memories of the war.

DOOK Glee Club to Give Play on Oct. 20

The DOOK Glee Club will present a fantasia Oct. 20 at City Auditorium. Fred A. Switzer wrote it and Mrs. Wesley Graham assembled the music.

Special scenery has been planned. About 100 will take part.

VOTERS LEAGUE PREPARES FOR CONVENTION

The Houston League of Women Voters, probably the largest unit of women's organizations in Houston, has had exceptional growth in the three years of its existence.

Organized early in 1920 under the leadership of Miss Florence Sterling with a tentative organization, the league has grown steadily until it now has a membership of 250. The league was assisted in its initial organization by Mrs. Minnie Fisher Cunningham, who came to Houston for the purpose of addressing the women on the principles of the state and national body. Miss Florence Sterling was elected temporary chairman.

RESPONSIBILITY

Leaders in the city feel that with the privilege of using the ballot would become responsibility—the responsibility of intelligent voting. The organization had three main purposes in its inception. They were:

First, to foster education in citizenship.

Second, to support improved legislation.

Third, to promote public forums and the discussion of civic reforms.

The league is and always has been, strictly non-partisan and members of all parties are eligible for membership in the league. It is essentially non-sectarian, all classes and creeds being represented in its membership.

The local organization has subscribed to and taken part in practically all of the activities of the state and national body.

The Houston League has endorsed and worked for the passage of the Cable bill which provides for independent citizenship for married women. The Sterling-Townner bill was endorsed by the league as was the Kenyon bill—providing for a federal department of education. The organization has succeeded in getting women appointed on all boards managing

industries where women and minors are employed.

Passage of the Sheppard-Townner bill was aided by the local league by writing to the senators and congressmen of the state.

Looking into the future, the league hopes to see the thought of the world turning to world peace and disarmament and in doing its bit in directing thought in that direction. Hopes of the state league include a program of a thriving league in every city and town, an adequate child labor law, a uniform wage law for women in industry and many other good and needed laws for the protection of women and children.

The Houston league will continue to conduct schools in citizenship, to stand for reforms and the passage of laws in the city and state regarding the safety and education of the people of Texas.

Just at present the league is engaged in preparations to entertain the state League of Women Voters convention which will be held in Houston for the first time October 24 to 27 inclusive. Plans include the entertainment of around 500 delegates who will come from all parts of Texas. State and national officers will attend and address the convention.

Officers who head the body for 1922 are: Mrs. Jesse E. Wesley, president; Miss Florence Sterling, honorary president; Mrs. M. H. Tracey, first vice-president; Mrs. H. A. Delery, second vice-president; Mrs. J. W. Butler, Cor. secretary; Mrs. W. N. Graftus, rec. secretary; Miss Amanda Dunlay, treasurer, and Mrs. J. Watson Northrup, auditor.

PROPOSE "PERMANENT RELATIONS" CONFERENCE FOR CENTRAL AMERICAN REPUBLICS

UNITED STATES TAKES LEAD IN NEW PROGRAM

Limitation of Armaments, Setting Up Tribunal to Adjudicate Disputes and Other Matters to Be Considered.

By Associated Press.

Washington, Oct. 24.—Invitation to appoint plenipotentiaries to a conference in Washington, beginning December 4, to consider the negotiation of a treaty for the "permanent regulation of their mutual interests and relations" has been extended by the United States to the governments of Guatemala, Nicaragua, Honduras, Salvador and Costa Rica.

Announcement was made by the state department last night that invitation to the conference had been extended to the presidents of the five Central American republics through the American legations on October 21, following representations favoring such a course made by the governments of Nicaragua, Honduras and Salvador, as a result of the meeting of their executives August 26, last, on board the U. S. S. Tacoma.

At the last meeting the three governments signed an agreement acknowledging as in force between them the general treaty of peace and friendship signed at Washington on December 20, 1907, by the five Central American republics and the latter are invited in the proposed conference to discuss the negotiation of a treaty to make effective those provisions of the 1907 treaty "which experience has shown to be effective in maintaining friendly relations and co-operation" among them.

It is further proposed that the conference consider measures for the limitation of armaments, for setting up of tribunals of inquiry to adjust any disputes arising under the proposed new treaty, and any other questions which it is desired unanimously to consider.

MEWING OF KITTEN PREVENTS ESCAPE OF KANSAS PRISONERS

By Associated Press.

Hutchinson, Kan., Oct. 24.—The mewing of a kitten probably prevented the escape of the prisoners held in the Reno County jail here yesterday.

Reassured after a summary inspection, Jailer Bennett had bustled himself in the boiler room, when he was attracted by the cries of the kitten in a corner.

Going to rescue it, he heard tailings above him which drew his attention to a large hole which prisoners were making in the wall.

Women's Vote Puzzles British Politicians

London, Oct. 24.—Will England's general elections result in an upheaval which will bring with it the dawn of a new political era throughout the empire?

Politicians, veterans of long-standing in Britain's public affairs admit they are unable to gauge the strength or effect of one new feature—the feminine vote.

With feminine leaders planning an intense campaign among the women voters, with more women seeking public office than ever before and with the feminine politicians demanding absolute equality the coming elections promise to establish once and for all the power of British women in politics.

Lady Astor, M. P., the former Nancy Langhorne of Virginia, probably is the best known of the women candidates seeking election or reelection. She now is campaigning for another term in the house of commons.

Mrs. Wintlingham Out. Mrs. Margaret Wintlingham, Mrs. Astor's feminine colleague in the house, an independent liberal, also is seeking re-election by her Grimsham constituency.

Others who are taking a leading part in the feminine movement are Lady Duff Gordon, editor of "Femina," and Miss Helen Fraser.

Recently the National Union of Societies for Equal Citizenship held its first year of the campaign by sending out a list of 15 questions to parliamentary candidates. The member societies intend to force every can-

didate to take a stand on these questions before the elections. Among other things these questions demand an equal moral standard and equal divorce laws; equal pay for equal work; equal property rights, and equal franchise.

The effect of the Lloyd George resignation and the attitude the women will take toward it are other aspects which the old line politicians are unable to fathom to their own satisfaction.

A score or more of women are seeking seats in the house of commons. Many of these are Lloyd George adherents, openly so. And politicians would give much to know just how the presently enfranchised 8,000,000 women are going to vote on this plea.

Under Secretary, Dr. W. M. Scott, who modestly declared that clergymen made the best husbands, now says artists, authors and newspaper men are the worst.

Red Fuse Reflection Turns in Fire Alarm

Bellaire, Ohio, Oct. 24.—A red fuse, left burning by a flagman on a railroad was responsible for a run by the fire department. A man saw a reflection of the signal light in a window and thought a house was afire.

Left, Lady Diana Duff Cooper; center, Lady Astor; right, Miss Helen Fraser; below, Mrs. Margaret Wintlingham.

SOVIET READY TO GIVE BACK ALIENS' LANDS

BY GEORGE WITTE.

Special Cable Service to the Chicago News and Houston Chronicle. Copyright.

Berlin, Oct. 24.—Germany probably will be the first country with which soviet Russia will make an agreement for the return to non-Russians on certain conditions, of all privately owned property in Russia.

M. Krasin has been placed in charge of the negotiations with the various governments and he will visit all the countries concerned early next year or soon as preliminary agreement with individual governments have been reached.

The soviet program, sponsored by Nicolai Lenin and passed by the executive council, is as follows: Return to all pre-revolution private owners all properties not exceeding in value 10,000 gold rubles (\$5000).

Return to all pre-revolution owners a certain share of their properties in the form of concessions for 99 years, the government to receive a percentage of the profits.

Re-establishment of the inheritance law for properties not exceeding 10,000 gold rubles in value.

Opening of negotiations with foreign governments for the return on certain conditions of all privately owned property, to non-Russians.

America's refusal to deal with Russia, unless she changed her policy, was a big factor in forcing the soviet to abandon its "no concessions to capitalist countries," according to word just brought here from Moscow by M. Krestinski, Russian ambassador to Germany.

For defrauding many widows who purchased tombstones, an Englishman got a long prison term.

TEMPLE DOORKEEPER * * * * * DICKENS' OFFICE BOY

FREDERICK EDRUPT.

Frederick Edrupt, 75, now doorkeeper at the Middle Temple, London, amuses tourists by telling them of his experiences while working as an office boy for Charles Dickens, noted English author.

REPORT CURZON WILL BE DUKE

By Associated Press.

London, Oct. 24.—The issuance of Mr. Lloyd George's honors list, which is expected tomorrow or Thursday, is awaited with great interest.

It is persistently rumored that Almeric Curzon of Kedleston, who was foreign minister in Mr. Lloyd George's cabinet, is to be made a duke. This would be a most remarkable incident, as the dukedom is the highest rank in the British peerage, next only to the royal princes, and is an honor rarely conferred. The last duke created was Westminster, in 1874.

The marquis, who was born George Nathaniel Curzon, was made a baron in 1898, became an earl in 1911 and received his present rank last year. He is 63 years old.

Gossip also says that the wealthy Sir Philip Sassoon is to be raised to the peerage. He is the son of the great Anglo-Indian merchant, Sir Edward Sassoon, and was one of Mr. Lloyd George's secretaries. Two of Mr. Lloyd George's conferences with the French premier were held at Sir Philip's sumptuous house near Hyde.

DISCOVERY OF NEW COMET IS REPORTED

By Associated Press.

Cambridge, Mass., Oct. 24.—A new comet has been discovered by the astronomer, Baade of Hamburg, Germany, according to a cablegram received by the Harvard College observatory from Copenhagen. The discovery was made last Thursday, and the comet was subsequently observed on Sunday by the Danish astronomer, Stromgren, at Copenhagen.

The comet was reported to be in the constellation Cygnus. It was much too faint to be seen without a telescope. During the interval between Thursday and Sunday, however, it was reported to have increased in brightness from magnitude 11.5 to magnitude 9.

LABOR REPORT SHOWS MARKED IMPROVEMENT

By Associated Press.

Washington, Oct. 24.—Improved business conditions and increased employment with almost no idle men seeking work now obtain in practically all sections of the United States, according to an official report today by the department of labor. The conclusion is based upon telegraphic response to a query sent out through the United States employment service to every state, the agents of the service in their answers indicating an almost universal shortage of common labor and a very general demand for skilled workers in a wide variety of trades and occupations.

In Massachusetts, Connecticut and other New England states, common labor shortage was said to be pronounced and building trade workers fully employed. In Illinois the department found the industrial situation "better than it has been in the past two years," and in Michigan and Ohio similar improvements were noted.

In New York state clerical help was said to show the only oversupply of workers.

In the Southeast, Alabama and North Carolina cited building operations as a source of betterment.

Russian Ships Sold to Rebels Are Confiscated
Moscow, Oct. 24.—From Batumi comes the report that two Russian revolutionaries having appeared in the harbor there have been seized and confiscated by the authorities.

BOXING
GOLFRice Eleven Prepares
To Meet Southwestern
Pirates Here Saturday

A second time this month it has become necessary for the Rice Owls to swallow the memories of defeat and get a new start in practice. The 25 players who made the unsuccessful trip to Stillwater, Okla., last week and arrived in Houston Monday morning in a more or less downhearted condition. Gloom, however, was almost entirely dispelled a few minutes after leaving the train because practically the entire student body at Rice was in the station yelling a welcome and bringing cheer to the defeated players.

Rice's next three games will be played in Houston. First, on October 28, comes Southwestern University. On November 4 the University of Texas comes to Houston and on Armistice Day Arizona University sends a picked eleven to compete with Rice.

Southwestern, it is said, should be easy pickings for the Rice team. Not so easy, however, as she has been in past years. Since Rice entered collegiate athletics she has played eight games with the Pirates. She won seven of the eight. However, Rice this year has the lightest team in her history and has a worse season's record behind her than she usually has at this time of year. It is entirely possible that Southwestern may spring surprises enough to luck out a victory.

Coach Bill Gardner's Pirate team is centered around a few old heads, including Buddie Foster, Aiken, Goodrich, Roach and Ellis. Both Howard Payne and Texas A. and M. have administered defeats to Southwestern this season but reports from the school declare that the defeats in no way indicate the present ability of the team.

Few Changes for Owls.
Few, if any, changes will be made in the Owl lineup for Saturday. Only one touchdown was made on straight football, without unfortunate breaks which went in Oklahoma's favor, the men declare.

The Rice Freshmen also have a defeat to redeem. Toward that end they have scheduled a game for Saturday which is expected to be their season's hardest, with Sam Houston Normal. The normal team is the same that held the Rice varsity to a 23 to 3 score at the beginning of the season. This fact, though, does not necessarily argue badly for the Slims' chances because the Green Owls have consistently worried the varsity in practice this year. It is possible, therefore, that the freshmen may run up even a bigger score on Sam Houston than the first string Owls did.

Coach Arbuckle is delighted with the showing being made by the freshmen this year. He foresees in them the makings of a championship team next season. The giant Ulrich is back in school. He proved his ability last year before he withdrew from the institute. Chief Calvert is an Oklahoma who brings the stamina and fight for which his state is famous. Harris, Hines, Danglestein, Chastain, Kale, Heyek, Watson and others are men who will be depended upon to add weight and effectiveness to the Rice team next year.

Rice Rooters Move
To New Location So
Yells Can Be Heard

For the benefit of those Houston football enthusiasts who are supporters of Rice and who usually sit on the side of Rice Field with the Rice rooting section, it is announced that Rice students hereafter will occupy the north grandstand.

The change in the Rice rooting section is made because the majority of the spectators buy tickets in the south stands and therefore are scarcely able to hear the Rice yells when they come from the side. In past games a handful of opposing rooters could yell from across the field and seem to drown out the 900 Rice rooters. However, across the field, the Rice yells literally tore things up.

In order that this false impression as to Rice loyalty should be corrected, the Rice student body recently voted to move the boys to the north side. The girls will sit in a group on the south side and yell special yells and sing special songs.

Another reason for separating the boys and girls is that many of the boys feel some embarrassment in opening their mouths to the fullest extent if they feel the nearness of an admired member of the opposite sex. The psychology works both ways. Miss Co-Ed hesitates to demonstrate the possible opening between her usually cherry-red, baby-size lips if Mr. Hero is likely to see.

men this year. He foresees in them the makings of a championship team next season. The giant Ulrich is back in school. He proved his ability last year before he withdrew from the institute. Harris, Hines, Danglestein, Chastain, Kale, Heyek, Watson and others are men who will be depended upon to add weight and effectiveness to the Rice team next year.

Big Crowds Jam
Midwest Stands
To See Football

By Associated Press.
Chicago, Oct. 24.—Football in the mid-West is rapidly assuming the proportions of an industry, and is causing officials of the Western Conference perplexity over the problem of seating between 2,000,000 and 3,000,000 people this season in stadiums.

Receipts from games in the conference this season will total in all probability more than \$1,500,000, officials said Tuesday. That much more will be expended in building more seats to increase the attendance.

At Ohio State University where a new \$1,400,000 stadium seating 63,000 persons was dedicated last Saturday, 72,000 persons jammed their way into the enclosure and thousands were turned away. The demand for tickets to the big intercollegiate clash between Chicago and Princeton here next Saturday was so brisk that all the seats were sold not only three weeks before the game and thousands of applications were returned. Stage Field has a seating capacity of only 21,000 but more than 100,000 applications, each calling for two or more seats were received.

Extraordinary crowds have turned out at all the conference games thus far this season. The Iowa-Illinois game at Urbana last Saturday drew capacity, 23,000—while the Wisconsin-Indiana game at Madison drew another capacity crowd—25,000.

George Huff, director of athletics at the University of Illinois, who built Illinois' first bleachers, seated 300, almost 20 years ago, turned the first spadeful of earth for a new stadium seating 60,000 at Urbana last month. Architects have already completed plans which will increase the capacity to 80,000 if necessary.

This demand has entailed such tremendous amount of clerical work at some universities that these institutions are actually advertising to keep people away from games.

LEONARD TO DEFEND
TITLE AGAINST WHITE

New York, Oct. 24.—Benny Leonard will defend his title as lightweight boxing champion against Charley White of Chicago, or any other challenger, in December and January. Billy Gibson, his manager, declared today.

December 22 has been set tentatively as the date for a match with White at Madison Square Garden.

BOXING NEWS

BY FAIR PLAY.

By Chronicle Licensed Wire.

New York, Oct. 24.—Promoters are after Tommy Gibbons again. As soon as affairs in St. Paul, resulting from the death of his father, have been settled, Gibbons will be ready for all comers. The fact that Gibbons lost to Mike by a foul after he had completely outfought his fellow townsman is not held against the fighter in the East. No one believes that wallow was intentional. It is not unlikely that another Gibbons-Greb fight will mark Tommy's return to the ring.

Mike Gibbons is having a lot of trouble with his eye. Probably he will lose the sight of the damaged optic. This is the result of an injury due to a glove lacing across the ball. Mike's wife did not want him to return to the ring two years ago. He had plenty of money and was getting along very nicely in a business way. But the big purse promoters were hanging out, caused Mike to stand firm in his decision of resuming the life of a gladiator. Result, a lot more money and one eye practically gone.

What is going to happen after the Siki-Beckett meeting will be a bout in Europe between Dempsey and the winner of this set-to.

New Coach and Change of Style
Give Indiana Great Grid Hopes

Above, Coach Pat Herron instructing backs on formations. Below, James Goodman, tackle and war hero, trying out his offensive strength against two other linemen, and close-up of Captain Frank Hanny.

usually have been of the foxy type, quick to size up the opposing team's attacks and quick to realize weakness in the opponent's defense.

In the two opening games of the season, the Indiana eleven clearly showed its inexperience with the new system of play being introduced and failed to do more than hold De Pauw to a scoreless tie and Minnesota to a 20-0 victory. In the second half of the Minnesota game, however, the Hoosiers got their new plays working well and outplayed the strong North Star State eleven. There is no lack of confidence, either among the Indiana players or among the coaches, that the new system which Pat Herron is introducing into the Western Conference will win as soon as it is mastered.

Indiana plays Michigan Aggies at Bloomington, October 28; Notre Dame at South Bend, November 4; West Virginia at Bloomington, November 11, and Purdue at Lafayette, November 25.

Captain Hanny plays right end on defense and at fullback on the offense. On his left in the line is Cloyd France, reliable tackle of two conference seasons. Lehar, who was ineligible last year, is back at center, while Frank Cox, guard of last season, is up to his old form. Eberhart, substitute end in 1921, is the other veteran of the Indiana line. In the backfield is Wilkins, quarter and dropkick; Harris at full, and Raymond at left half, all of them regulars on the team last season. Thomas, at right half, and Lewis and Rommes, substitute quarterbacks, are veterans. Among the most promising men from the freshmen team of last year are Smith, who starred at quarter during the second half of the Minnesota game, and Butler at left guard.

Assisting Coach Herron are a galaxy of former gridiron stars, including "Shifty" Bolen, star end at Ohio State in 1918; F. L. Murray, all-American quarter at Princeton the same year; Leslie Mann, outfielder on the St. Louis National League baseball team and former coach at Rice Institute; Tom Whelan, former Dartmouth star; K. W. Brewer, former Indiana captain, and Pat Donovan, who played end on the Indiana team last year.

Making a Woman Happy

"You surely made one woman happy in this big world when you sent me the shoes I've been trying for over one year to get. I put them on and went right back to the P. O. and got the enclosed Money Order, and I want to thank you very kindly for making me the shoes. As I've said before, they are the only shoes I've ever had that's perfectly comfortable on my foot. Sure they are large, but I am a large woman and on my feet all the time. Please don't let anything happen to last fall, for some day I'll be sending for another pair of shoes."

The above letter from a woman in the West came last week to the Cantilever factory. It is typical of many letters written by wearers of the Cantilever Shoe.

There's a reason for this. You'll feel the same way yourself when you have been properly fitted to a pair of Cantilever Shoes.

FLEX WITH THE FOOT

Cantilevers have no stiff piece of steel in the arch, just where your foot ought to be allowed to flex. They are made with a flexible arch—just like that of your own foot—built on the same Cantilever plan. They let your foot flex when it ought to flex. They allow every muscle its natural exercise—which keeps the feet strong and young and supple. They throw the body's weight on the ball, the outside of the foot and the heel, just as you will see it should be if you will take the trouble to look at the imprint of a child's bare foot in the sand or its wet footprint on the floor.

Cantilever Shoes will leave your foot as free and natural in its action as a child's bare foot. No binding anywhere—just a snug, comfortable fit without a bit of waste room. The rounded toe and medium heel of Cantilevers is now all the style. It has always been the vogue for the youthful foot.

Be fitted to a pair tomorrow and keep your feet young and your spirits buoyant.

NEGRO MAKES CONFESSION OF MANY THEFTS

After a two-hour grilling by Detectives James Davis, 24-year-old negro, who was arrested at 2:30 Monday afternoon by Detectives Cain and Margiotta, made a statement telling of robbing more than 75 homes in the city in the last six months.

Davis was arrested on Main Street by the detectives and after accompanying them on a tour of the city, pointing out some of the houses he had visited.

He also took them to some woods on the Alameda Road, where he said that he had been sleeping and showed them some of the loot, consisting of suits of clothes, shirts and other articles.

He has no home, he told Chief of Detectives William E. Kessler, but picks up vacant houses and boxes for his home for a few days.

On one occasion he told the chief that he robbed a house and then crawled under it to sleep.

Davis also told the chief that one reason he had escaped detection was that he avoided the pawnshops and sold to individuals.

He has by his own admission been detected while trying to break into a house but always escaped unharmed.

His closest call was Sunday night, he told the chief, when he was caught in the home of H. Rubenstein, 2511 Charras Street. The burglar was returning home from a visit found a negro in the act of ransacking the home. Rubenstein shot at the negro but he made his escape with three suits of clothes.

Chief Kessler stated that charges of burglary and felony theft would be filed against him today.

WILL SPEAK ON ESSENTIALS OF CITY PLANNING

Charles Wacker, who has spent the last 12 years as chairman of the Chicago Plan Commission, will be the principal speaker at the bi-weekly luncheon of the Houston Chapter of the American Association of Engineers at the Rice Hotel at 12:15 Wednesday. He will speak on the "Essentials of City Planning."

C. C. Sauer will preside at the luncheon as chairman of the day.

CAMPAIGN STARTS TO BRING 1924 MEET OF AD CLUBS TO HOUSTON

A strong movement to bring the 1924 National Advertising Association convention to Houston will be launched at the annual state convention of the Advertising Clubs of America, which will be held in Houston, November 12 to 14. Every unit which will attend the state convention in Houston is said to have pledged its unanimous support to fight in Houston's behalf at the 1924 convention of the National Advertising Association which will be held in Atlantic City, N. J.

F. Bateman of Dallas, president of the Texas Advertising Association, will attend the regular weekly luncheon of the Houston Ad Club at the Rice Hotel Tuesday, and it is probable that plans for the state convention will be discussed.

A committee composed of W. B. Drexel, chairman; A. P. Sory and Percy Howell was appointed Monday at a meeting of the Houston Auto Trades Association at the Harris County \$6,000,000 road bond issue.

A committee was also appointed to complete details for a uniform decorative scheme for the automobile show at the Houston Fair and Exposition. The committee comprises Ed Allison, C. S. Moffat, W. N. Kuntz and President H. H. Goldman.

W. N. Kuntz was appointed to complete arrangements for the viewing by the association of two five-reel films, "Ask Them to Buy" and "Stopping the Leaks."

SEEK TO RESTORE COLLEGE HARMONY

By Associated Press. Los Angeles, Oct. 24.—Steps to end the feud between students of the University of Southern California and the University of California, southern branch, are being taken by officials of both institutions.

It is announced that the several hundred trojans who invaded the campus of southern branch early last Friday morning and set fire to a pile of wood collected for a bonfire for a football rally, were on probation.

Excitement following the invasion of the campus, in which 20 students were injured, rested for a day, only to be revived with an attack on William Sykes, southern branch student, by three unidentified men, who bound him to his bed in his home and painted his forehead with the letters "U. S. C."

CURTIS BIPLANES TO BE USED BY ARMY

By Associated Press. Mount Clemens, Mich., Oct. 24.—The Curtiss army biplanes which finished in the first four positions in the Pulitzer trophy race are to be developed by the army as the standard pursuit plane, according to officers of the First Pursuit Group, stationed at Selfridge Field, near here. The racers which broke all speed records during the recent meet are being packed for shipment to Dayton, Ohio, for further tests at the army engineering field.

A few changes in the design are to be made, it is understood. They probably will embrace a regular radiator to supplant the wing type radiator, and changes in the cockpit to afford greater protection for the pilot.

STRIKE AT VLADIVOSTOK. By Associated Press. Tokyo, Oct. 24.—Vladivostok is paralyzed by a general strike, involving the operators and communications, but official wireless dispatches indicate the situation otherwise is comparatively tranquil.

FRENCH VOTING MAY BE MADE OBLIGATORY

By William E. Nash. Special Cable Service to the Chicago News and Houston Chronicle, Copyright.

Paris, Oct. 24.—A proposition to make voting obligatory in France has been made the order of the day in the parliamentary commission for universal suffrage when in course of time it will pass to the chamber.

It is held to be a duty incumbent on all good citizens.

"By this measure we hope to increase the influence of the moderates in politics," said Marc Sangnier, a deputy and member of the union of suffrage commission. "Many of those who neglect to vote probably belong with the parties of the center and if shaken from their apathy would probably cast their ballots against socialism, nationalism and other extremes. Their indifference therefore constitutes an injury to the nation. Every country should be ruled as much as possible by men of moderation."

It is said that the percentage of non-voters in France often rises as high as 30 per cent and in local elections even higher. Nearly 50 per cent according to published statistics, failed to put in an appearance at the aldermanic polls in Paris last year.

Another measure which may change completely the aspect of French politics is due to come before the senate within two weeks, and that is the law for woman suffrage. Though rejected twice by the upper house since the armistice, the bill is now said to have a good chance of being passed. The chamber of deputies is for it, and Rene Viviani, the champion orator, was recently elected a senator, who will speak for it. France is about the only important country in Europe that still bars women from the polls.

Bristol, Eng.—Richard Brown, a farmer, who boasted he had never bathed, was persuaded to try his first bath. He died half an hour later.

Prayer For Large Crops Is Granted; Will Give Thanks

By Associated Press. New England, N. D., Oct. 24.—People of this district will join in a community thanksgiving October 29, "to pay homage to the Divine Providence which heard their prayers of May 23 and sent the greatest wheat and grain crops in the history of farming in this area."

Last May 23 Protestant and Catholic men and women of all creeds, united in a common prayer service for rain as a deliverance from four years of drought. The rain came. So did the crops.

MAN ACCIDENTALLY SHOT. By Associated Press. Greenville, Texas, Oct. 24.—Gerard Cole was seriously wounded about the legs Monday when a gun in the hands of a fellow hunter was accidentally discharged. Cole lives near here and was brought to a local hospital for treatment.

10¢ "CASCARETS"—CONSTIPATION

Clean Your Bowels! Stop Sick Headache, Dizziness, Colds, Sour Stomach, Gases, Bad Breath

Clean your bowels—then feel fine! Enjoy the nicest, gentlest bowel cleansing you ever experienced by taking one or two candy-like Cascarets tonight. They physically cleanse your bowels and your system. Your liver and bowels than all other laxatives fully. All the constipated and sour bile will move out of the bowels without griping or straining you up. There will be no

bowel poison to cause colds, sick headache, dizziness, biliousness or sour stomach when you wake up in the morning. More men, women and children take Cascarets for the liver and bowels than all other laxatives combined. 10 cent boxes, also 25 and 50 cent boxes. Any drug store.

Federal CLOTHING STORES 302½ Main Street "THE HOUSE OF SERVICE"

—The people have been clamoring for action on the part of the government but the authorities have no proper remedy. William Kopetzky, president of the Berlin Stock Exchange and vice president of the chamber of commerce, asserts that the only way to stabilize the German mark is to reduce the reparations burden.

"The sooner the allies recognize this," he declares, "the sooner the mark will recover its former value. There is no reason why the German mark should be running a race with

Expect Times to Revert to Walters

By Associated Press. London, Oct. 24.—It is understood that negotiations have been completed under which the Times will revert to the Walter family and that it will adopt the policy of supporting the government of the day, but with complete independence.

An interest in the newspaper has been purchased from the estate of Lord Northcliffe by John Walter, present chairman of the Times, after long negotiations conducted by Sir Campbell Stuart, managing director of the newspaper.

The Times was founded by John Walter, great-great grandfather of the present John Walter, in 1785.

CATASTROPHIC DROP OF MARK CAUSING PANIC

By George Witte. Special Cable Service to the Chicago News and Houston Chronicle, Copyright.

Berlin, Oct. 24.—The catastrophic fall in the value of the mark, which is now worth only one-thousandth of its pre-war value, has caused panic among even the most cool-headed and optimistic members of the government and among the industrialists.

The people have been clamoring for action on the part of the government but the authorities have no proper remedy. William Kopetzky, president of the Berlin Stock Exchange and vice president of the chamber of commerce, asserts that the only way to stabilize the German mark is to reduce the reparations burden.

"The sooner the allies recognize this," he declares, "the sooner the mark will recover its former value. There is no reason why the German mark should be running a race with

the Polish mark, the Austrian crown and the currency of Hungary. But compare those countries with Germany. After all, Germany is still a nation of 60,000,000 inhabitants, with great cities and industries and with scarcely any unemployed."

When asked what he thought of the government's plan to issue gold bonds to balance the paper money which is issued daily by the billion, Herr Kopetzky came out emphatically against this plan.

FREIGHT RATES AMENDED. By Associated Press. Austin, Texas, Oct. 24.—Freight rates on cement, transported by Texas railroads, will also apply on kals, some carried in earload lots, under an order issued by the state railroad commission Monday. The order is effective November 1. The commission also issued an order changing

the minimum weight of earload shipments of window glass from 36,000 to 40,000 pounds.

PHONE MR. COLLINS, PRESTON 1447

TODAY'S BEAUTY HINT

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of cantharox which can be obtained from any druggist, in a cup of hot water. This makes a full cup of shampoo liquid, enough to use as is easy to apply to all the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so coated, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft, fluffiness that makes it seem very heavy.

After-Dinner Tricks

String Through Handkerchief.

Two cords are held together, and a handkerchief is tied about them at the center. The four ends of the cords are held by different persons, and at the command to pull the cords are drawn right through the handkerchief.

A loop of thread was previously tied about the cords at the center, but its presence was kept secret. Just before tying the handkerchief, the cords were arranged as illustrated, so that, instead of two cords passing through the knot, as supposed, each cord comes into the knot and returns. When all four persons pull, the loop of thread is broken and the handkerchief drops from the cords.

SOUTHERN RAILWAY REWARDS EMPLOYEES

By Associated Press. Washington, Oct. 24.—All employees of the Southern Railway who volunteered to leave their regular duties and serve in its shops during the strike last summer, are being presented this week with either checks for \$350, or certificates for five shares of its stock.

INDIANS GUARD DUST OF THEIR ANCESTORS

By Associated Press. Kansas City, Mo., Oct. 24.—Guarding what they claim is the honored dust of their ancestors, three Indian

sisters, Helena, Lydia and Ida Conley, have taken up vigil with shotguns in the cemetery here. The sisters resent an alleged attempt to bury the body of a man, whose parents are said to lie near the graves over which the girls keep watch. Three grave diggers, cemetery keepers declare, made futile efforts

to prepare the new grave, alleging that permission had been granted by H. B. Pears, head of the Haskell Institute, to a sister of the man whose body awaits burial.

The Indian girls have divided the night vigil, and bring blankets with them, sleeping on the cemetery sod.

Sunburn Healed Over Night with Ingalls Eczema Remedy. Takes the burn out of sunburn. One generous application is enough. Your druggist is authorized to refund your money if it fails.

How to Make Pine Cough Syrup at Home

Has no equal for prompt results. Takes but a moment to prepare, and saves you about \$2.

Pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine cough syrups are combinations of pine and syrup. The syrup part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 1/2 ounce of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and tastes very pleasant. You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it usually in 24 hours or less. Splendid, too, for bronchitis, asthma, hoarseness, or any ordinary throat ailment. Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs. Beware of substitutes. Ask your druggist for 1/2 ounce of Pinex with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

LITTLE'S SULPHUR COMPOUND

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Little's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle. Large size \$1.00. JAMES F. BALLARD, Prop. St. Louis, Mo.

exterminates dandruff or money back. Ask your barber, hairdresser, or druggist.
