TEXAS TECH UNIVERSITY

Texas Tech is a state-assisted, multipurpose university of approximately 25,000 students enrolled in eight colleges—Agricultural Sciences and Natural Resources, Architecture, Arts and Sciences, Business Administration, Education, Engineering, Honors, and Human Sciences. Housed in the College of Arts and Sciences are the School of Art, School of Music and the School of Mass Communications. The Graduate School and the School of Law provide graduate and professional programs. The Texas Tech Health Sciences Center—a separate institution—shares the Lubbock campus with the University. The common-campus arrangement, with a law school, is unique among the state's higher education institutions.

As is necessary for an educational institution of its scope and purpose, Texas Tech operates in several locations. Beyond its 1,839-acre Lubbock campus—all in one tract—the University operates agricultural and biological facilities at the Texas Tech University Center at Amarillo, various research activities at the East Campus Research Center, and the Institute of Environmental and Human Health at Reese Center. Other agricultural research and teaching facilities are in Lubbock County. The Texas Tech University Center at Junction, in the Texas hill country, is a 411-acre unit including teaching, conference, and lodging facilities. There are Texas Tech University Centers in Fredericksburg and Marble Falls. Texas Tech University Health Sciences Center is a multi-campus institution with Lubbock as the administrative center and regional campuses at Amarillo, El Paso and Odessa.

Paul Whitfield Horn, the first president of Texas Tech, drew from the broad open plains of West Texas his vision for the institution. "Let us make the work of our college fit into the scope of our country," he said. "Let our thoughts be big thoughts and broad thoughts. Let our thinking be in world-wide terms."

Horn's challenge to Texas Tech, now embarked on its seventy-ninth year, continues as a viable force. His insight is most evident as we—faculty and students, administrators and alumni, supporters and friends—strive to shape the University's programs and activities to meet the highest standards of excellence in teaching, research, and public service.

**ALMA MATER
“MATADOR SONG”**

Fight, Matadors, for Tech!
Songs of love we'll sing to thee.
Bear our banners far and wide,
Ever to be our pride.
Fearless champions ever be.
Stand on heights of victory.
Strive for honor evermore,
Long live the Matadors.

THE TEXAS TECH UNIVERSITY PRESIDENTIAL MACE

The Texas Tech University Presidential Mace is the symbolic staff of power and authority of the University. The mace is crowned by a flame symbolizing the Light of Knowledge. It is constructed of lathed and molded bronze that has been covered with a layer of 24K gold. The school crest is presented on either side directly under the flame. Hand-rubbed black walnut has been used for the connecting shafts.

The mace was designed by Robly A. Glover, an Associate Professor of Art at Texas Tech University. Mr. Glover's artwork is shown throughout the United States. His work has recently been included in the permanent collection of the Art Institute of Chicago, Chicago, Illinois.

 Designated by 

ACADEMIC DRESS AND PROCESSION

The wearing of academic dress at commencement dates from the early history of the oldest universities somewhere in the twelfth or thirteenth century. Since educated people were almost always of the clergy, the black gown is somewhat of adaptation of the cope, a mantle of silk or other cloth worn by church dignitaries in processions and on other occasions. The long gown and cowl (similar to the academic hood of today) were worn by priests and monks for warmth in the cold medieval buildings.

In the early centuries, a great diversity of color and style of cap, gown, and hood appeared in different universities of Europe. The European custom of wearing academic dress was later introduced at American colleges. Not until after 1895 was a uniform academic code of dress adopted by most colleges and universities in the United States. Today, the black robe, hood, and cap are worn at most institutions of higher learning.

The gown is cut differently for the bachelor's, master's, and doctor's degrees. Usually the bachelor's robe has long pointed sleeves; the master's has closed sleeves, square at the end with a slit at the elbow; the doctor's is faced with velvet and has round open sleeves with three bars of velvet.

The doctor's hood has side panels and is slightly longer than the one worn for the master's degree. The color used in the velvet border of the hood indicates the field of study. The velvet border is widest on the doctor's hood. The colors of the lining of the hood indicate the college or university that conferred the degree. For example, those who have received advanced degrees from Texas Tech University wear hoods lined with red and black.

The Oxford—the so-called mortarboard—is black and has a long tassel fastened to the center. The tassel is usually worn pendant over the left front of the cap. Different colored tassels are often worn on the bachelor's and master's caps to indicate the type of degree. The tassel on the cap of the doctor's candidate, except for professional degrees, is either gold or black. The doctor's degree holders may also wear the velvet tam with a gold tassel as well.

Candidates for the undergraduate degree will wear the tassel on the right side of the cap at commencement. After the degrees have been conferred, baccalaureate degree recipients will turn the tassel to the left side of the cap, thus showing that they are now graduates. Those graduates who have the Official Texas Tech Alumni Association Class Ring are invited to turn their rings at this time.

All candidates who wear the red cord are honor students who possess a minimum 3.50 grade average and will graduate *Cum Laude*, *Magna Cum Laude*, or *Summa Cum Laude*. Texas Tech University has four university-wide honoraries: Golden Key, Mortar Board, Omicron Delta Kappa, and Phi Kappa Phi. Candidates wearing the red and black cords and black and silver medallions are Honors Studies graduates.

The following is a list of colors established by the Intercollegiate Code to represent the different departments of learning.
