

June 17, 1970

FOR YOUR INFORMATION

--From Texas Tech University

**JULY 1 DEADLINE
FOR FULBRIGHT-HAYS
SENIOR PROGRAM**

July 1 is the closing date for research grants under the Senior Fulbright-Hays Program. Application before July 1 is recommended for lectureships, but applications will be accepted as long as lectureships remain unfilled. The Committee on International Exchange of Persons (CIEP) asks American scholars interested in teaching or research abroad for a semester or academic year to complete a simple form every two years as an indication of interest. Forms are available on request (CIEP, 2101 Constitution Ave., NW, Washington, D.C. 20418; Phone 202-961-1627). Those who register receive a copy of the annual spring announcement of available Fulbright awards. Under the program lecturing openings occur annually in as many as 100 countries, in more than 45 teaching fields at all levels of postsecondary education. For additional information, Texas Tech faculty should contact Fulbright Program Advisor David M. Wigness, chairman of the Department of History.

**ICASALS, INC.
PROJECT BEGINS
IN ALGERIA**

ICASALS Director Frank B. Conselman and Dr. and Mrs. Emmanuel T.G.M. Van Nierop left for Algeria June 7 to make detailed arrangements for the start of an ICASALS-SONATRACH development program in that North African republic. Dr. Van Nierop is project director. Mrs. Van Nierop has the special assignment of locating schools, hospitals, grocery suppliers and possible housing for the families of personnel who will be working on the project. She expected to receive particularly good advice from American women now living in Algeria, including a former Texas Tech student, Pat Parnell Maoui, whose home town is Paducah, Tex. A brochure for orientation of personnel is to be a by-product of the current visit. Amar Berrahil, of Algeria's Ministry of Industry and Energy, will serve as liaison for the project. He visited on the Texas Tech campus in May, studying details of the work program with representatives of ICASALS and faculty. (Dr. Conselman has since returned and the Van Nierops are due to return June 19). The first contingent of Texas Tech personnel is scheduled to leave Paris for Algeria July 13.

**CWSP BENEFITS
STUDENTS AND
UNIVERSITY**

Since the College Work-Study Program was initiated at Texas Tech in 1967, students have received \$289,408.96. Texas Tech's portion of this was \$55,126.11 as of May 3. Since the federal government pays 80 per cent of the student wages now plus administrative costs, the total cost per student hour paid by the university is 25.7 cents. Students enrolled in the help-yourself program have been employed in 38 academic departments, 24 non-academic departments, 14 special research projects and four academic deans' offices. Students working in the program, through the spring semester, 1970, numbered 582.

**NEW AIR TRAVEL
TAX REGULATION**

Effective July 1, employees of Texas Tech University will no longer be exempt from payment of the air travel tax, which has been increased from 5 to 8 per cent. There also is a new \$3 per person tax imposed on overseas flights. The changes were made effective by Congressional legislation.

**MUSIOLOGISTS
VISIT CAMPUS**

Four consultants were visitors in April and May at the Texas Tech Museum: Dr. Fred Wendorf, chairman of the Southern Methodist University Department of Anthropology and a former Texas Tech faculty member; Prof. Patrick Horsbrugh of the Notre Dame University Department of Architecture; Dr. Charles C. Di Peso, director of the Amerind Foundation, Inc., Dragoon, Ariz., and Dr. Froelich Rainey, director of the University of Pennsylvania Museum, Philadelphia. Horsbrugh, whose field is environic design, and Rainey were asked to visit as special consultants. Wendorf and Di Peso have served as consultants to the university the past two years.

UNIVERSITY THEATER Three plays -- "A Man for All Seasons," "The Prime
SUMMER REPERTORY of Miss Jean Brodie," and "The Killing of Sister
George" will be presented in the Summer Repertory
of the University Theater June 26-July 7. Performances begin at 8:15
p.m. daily. Tickets are \$2 each for all but students. A special
faculty rate of \$4.50 is made for a season ticket for each of three
performances.

TECHSANS Dr. Berlie J. Fallon holds a new office in the
College of Education -- Associate Dean for Gradu-
ate Studies... Associate Chairman Paul Thompson of the Department of
Mathematics represented the Junior College Center for Professional
Development at Texas Tech when he visited the Tarrant County and Dallas
County junior college districts April 15-16... Education Dean Gordon C.
Lee's book, Education and Democratic Ideals (Harcourt, Brace and World,
1964) has just been published in Spanish by Editorial Paidós of Buenos
Aires... Resident Counsel William R. Shaver attended work sessions of
the National Association of College and University Attorney's in San
Diego June 13...

THE CALENDAR

IN SESSION UNTIL:

June 19	Art Education Workshop, third session (puppetry)
June 19	Elementary Music Workshop, second session (vocal)
June 26	Leadership Seminar in Elementary School Science
June 26	Elementary Music Workshop
July 10	Field Research in Prehistoric Archeology
Aug. 4	Biology Teachers Institute (NSF)

ALSO IN JUNE

June 17-19	Short Course (tour) for Vocational Agriculture Teachers
June 18	Grade of W will be given for all courses dropped on or before this date
June 18-19	FHA Officers' Leadership Workshops (Home Economics Education)
June 22	File statement of intention to graduate in August in the office of the academic dean
June 22-July 10	Art Field School (Taos), second session
June 22-July 10	Music Workshop in Special Education
June 22-26	Elementary Music Workshop, third session (exceptional children)
June 22-July 9	Analysis and Organization of Teaching Media (Home Economics Education)
June 22-July 10	Advanced Workshop in Special Education (emotionally disturbed children)
June 24-27	American Harp Society National Conference
June 25	John Biggs Consort, 8 p.m., Croslin Room, Library (free)
June 26-July 7	Summer Repertory (University) Theater (8:15 p.m.)
June 27	Coaches All-America Football Game (8:30 p.m.)
June 27-July 2	Cheerleaders School
June 29-July 3	Advanced Workshop in Special Education (multiply handicapped deaf)
June 29-July 10	Summer Orchestra School for Pre-College Students

IN JULY:

July 6	Last day to drop a course
July 6-10	Teaching in Occupational Training Programs (Home Economics Education)
July 6-10	Advanced Workshop in Special Education (preschool programming for handicapped children)
July 6-10	Teacher Growth Workshop
July 8	Vocational Agriculture Teachers Workshop
July 9-10	Final examinations
July 10-11	Swine Short Course

FOR YOUR INFORMATION

--From Texas Tech University

**TECH MUSEUM
STARTS MOVE
TO NEW SITE**

On June 29 the university accepted the new Tech Museum facility, subject to correction of any minor deficiencies and ratification by the Board of Regents. The move to the new building -- expected to take about one week -- was to get underway today, July 1.

**RETIREMENTS
ANNOUNCED**

Among Texas Tech employees who are retiring in August, 1970 are Hubert L. Burgess who has 36 years' service and Mrs. Mary Elizabeth Randal who has 23 years' service. Mrs. Randal is administrative assistant to Executive Vice President Glenn E. Barnett, and Burgess has been director of student loan payments the past year. Most of Burgess' service, however, was in the residence hall program, and his previous assignment was coordinator of room reservations.

**INNOVATIVE
ENVIRONMENTAL
QUALITY COURSE**

Texas Tech's first Environmental Quality Interdisciplinary Graduate Course is being held during the first Summer Session with more than 25 students from six departments enrolled. The course is the first cross-disciplinary study opportunity of its kind at Texas Tech. Lecturers for the first sessions include: President Murray, Donald R. Haragan and William D. Miller, geosciences; Dan M. Wells, civil engineering; Donald S. Longworth, home and family life; Robert W. Gorden and John E. George, biology; George F. Meenaghan and Robert M. Bethea, chemical engineering; Willie L. Ulich, agricultural engineering; Harold E. Dregne, agronomy; James W. Kitchen, park administration; A. Dudley Thompson, architecture, and Lewis E. Hill, economics.

**ORIENTATION
STARTS JULY 23**

The first of six 1970 orientation programs for freshmen students will begin July 23. As of June 26, there were 2,410 signed up for these programs compared with 2,388 participants signed up by July 8, 1969. A total of 3,200 freshmen registered early as a result of the program last year. Dr. William H. Duvall, assistant dean of student life and director of the program, said the apparent increase in 1970 probably is a reflection of expanding interest in the program.

**TECH GRADUATE
NAMED UT DEAN**

Ernest F. Gloyna, newly appointed dean of the College of Engineering at the University of Texas at Austin is a 1946 graduate of Texas Tech. He received the B.S. degree in civil engineering.

**AAUP ECONOMIC
STATUS REPORT**

In a report on compensation, the American Association of University Professors contends that "the sharpest deceleration in faculty purchasing power has occurred in public universities" with the rise in real salary levels cut from about 5 per cent in 1964-65 to well under 1 per cent last year. The May 15 issue of the National Association of State Universities and Land-Grant Colleges newsletter contains a review of the statistics compiled on a national basis.

FYI COMMENT

FOR YOUR INFORMATION has received several useful suggestions. Broader distribution was suggested by several. Almost unanimous was a suggestion that the calendar be restricted to university activities, leaving academic dates for distribution through official bulletins. One interesting comment: "...it appears there isn't as much to be included as had always been supposed." Information Services staff members feel that this can be corrected as FYI establishes regularity in publication and if FYI news items are relayed to the information office. These should be items of particular interest to the campus community. CALL BEA ZEECK, 742-4136.

ROTC REVIEWED AT FORT SILL Assistant Dean of Students George Scott Jr. and Associate Dean of Arts and Sciences William R. Johnson were institutional representatives at a June 25-27 program at Fort Sill, Okla., where about 50 Texas Tech Army ROTC cadets are enrolled in summer camp. They met with students, became acquainted with the type of training provided and attended a parade and review.

FOREIGN STUDENTS QUESTIONNAIRE CIRCULATED In addition to new information about the International Student Services programs at Texas Tech, prospective students from abroad now are receiving a special letter of welcome and a Hospitality Information Questionnaire. The answers should aid these hospitality programs: Homestay in Lubbock, Host Student, Host Family and Wives Club. Special efforts are made to meet incoming students and arrange for their initial lodging and orientation.

TECHSANS Dr. Mary Sue Carlock, associate professor of English, is the author of "Humpty Dumpty and the Autobiography" to be published in Genre..... Dr. Neale Pearson, assistant professor of government, is a delegate at the Summer Institute for College Teachers of Political Science June 16-July 13 at Virginia Polytechnic Institute, Blacksburg, Va.

IN SESSION UNTIL:

July 2	Seventh Annual Summer Cheerleaders School
July 3	Advanced Workshop in Special Education (for the multiply handicapped deaf)
July 7	Summer Repertory Theater (8:15 p.m.)
July 9	Analysis and Organization of Teaching Media (Home Economics Education)
July 10	Art Field School (Taos), second session
July 10	Field Research in Prehistoric Archeology
July 10	Advanced Workshop in Special Education for emotionally disturbed children)
July 10	Summer Orchestra School for Pre-College Students
Aug. 4	Biology Teachers Institute (NSF)

JULY CALENDAR

July 2	Junior Recital--Janet Young, piano, Patricia Russell Moore, piano, Seaman Hall (8:15 p.m.)
July 6-10	Teaching in Occupational Training Programs (Home Economics Education)
July 6-10	Advanced Workshop in Special Education (preschool programming for handicapped children)
July 6-10	Teacher Growth Workshop
July 8	Vocational Agriculture Teachers Workshop (Animal Science)
July 9-10	Eighteenth Annual Swine Short Course
July 10-29	Communication Designs in Teaching - Learning (Home Economics)
July 12-24	Summer Music Camp -- Band
July 13-17	Food and the Consumer Workshop
July 13-31	Home and Family Life Workshop
July 14-Aug. 19	Field Course in Mexico, 1970
July 15-Aug. 2	Directing School Speech Activities Workshop
July 17-30	High School Theater Workshop
July 19-Aug. 1	High School Forensics Workshop
July 20	"World of My America," Pauline Myers, Coronado Room (8 p.m.)
July 20-24	Teaching the Disadvantaged (Home Economics Education)
July 20-Aug. 7	School Administration Workshop
July 23-24	New Student Orientation and Registration (first session)
July 26-31	High School Newspaper-Yearbook Photography Workshop
July 27-28	New Student Orientation and Registration (second session)

VOLUME 1, NO. 3

JULY 15, 1970

FOR YOUR INFORMATION

-- From Texas Tech University

MOBILE LABORATORY READIED FOR FIELD By Tuesday, July 14, Texas Tech's Mobile Environmental Laboratory was ready except for moving in the equipment. The laboratory was financed from special funds of the Graduate School, the Department of Chemical Engineering, the Water Resources Center and miscellaneous support. A "key word" in this project, according to Dr. Lawrence Graves, interim dean of the Graduate School, is "interdisciplinary." The mobile laboratory can be used in funded research by any department. In proposing the laboratory, the Environmental Studies Committee suggested these long range objectives: the study of the functions and interrelationships of the environment -- natural processes of land, air and water, particularly those basic biological, chemical and physical phenomena crucial to understanding; to examine man and how he lives within the environment in terms of cultural aspects, social preferences and economic activities; to develop knowledge in the basic principles and processes essential to environmental management; and to use the knowledge gained in developing solutions that answer demands of a democratic society. The Department of Chemical Engineering -- particularly Chairman George F. Meenaghan and Prof. Robert M. Bethea -- has been in charge of getting the laboratory in shape. The funding included a \$12,000 Graduate School improvement grant, \$1,700 from the Department of Chemical Engineering, \$1,250 from the Water Resources Center, and \$200 in miscellaneous funds. Prof. Bethea heads a Users Committee which will schedule time for the new "traveling classroom."

IN-SERVICE TRAINING PROGRAM An in-service secretarial training program will begin in September for 10 minority candidates. The objective is to train qualifiable minority members in basic secretarial skills and to place them in secretarial positions on campus after successful completion of the program. The training period will last from four to six months. Classroom instruction will be carried out by the Department of Business Education and Secretarial Administration. Emphasis will be on typing, bookkeeping, mailing and filing, correspondence, communication skills, personal grooming, business protocol, office supervision and the duties of the receptionist. A portion of each day will be spent in on-the-job training. Trainees will be placed in campus departments which indicate a willingness to work with the trainee in all phases of secretarial work. The program, approved by the university and Governor Smith under provisions of the State Employees Training Act of 1969, is expected to provide trained personnel for university staff positions and, at the same time, to move 10 minority people into non-traditional jobs.

UNIVERSITY ACCOMPLISHMENTS ARE CITED Since 1966, changes have taken place rapidly on the Texas Tech campus. Some -- NOT in chronological order -- are: research funding has quadrupled; state appropriated tax money for the university has increased three times; the College of Education and the School of Law were established; new deans have been named for these and for the College of Arts and Sciences and the College of Business Administration; a new executive vice president has been named and vice presidents named for Financial Affairs, Student Affairs, Public Affairs and Research; a resident counsel was named; an assistant to the executive vice president was named for housing; an assistant vice president for Administrative Services was named; in the Athletic Department, there were named an administrator of finance and development, a new athletic director and new basketball and football coaches, and new facilities have been constructed; new construction has provided facilities also for the School of Law, the Museum, the College of Business Administration, the Textile Research Center and the Department of Biology, and construction is underway for art and architecture and for chemistry; the International Center for Arid and Semi-Arid Land Studies was established; a Medical School has been authorized and a dean named; the Faculty Council was established; a new Code of Student Affairs was drawn; the institution's name has been changed and a Board of Regents named; the Library passed the million volume mark and now has about

1,400,000 items; the Welch Chair was established in chemistry; faculty development leaves were established; new and improved fringe benefits have been provided; a new director of ICASALS was named and an ICASALS, Inc., contract was signed with Algeria's national petroleum company; affiliations have been made with the Smithsonian Institution, the University of San Luis Potosi and Ankara University; AAUP censorship has been lifted; the Junior College Center for Professional Development has been established; Horn Professorships have been established; directors have been named for Development and Information Services and for New Construction; and academic programs have been increased with the university now offering the bachelor's degree in 95 areas, the master's in 60 and the doctoral degree in 26 areas, including agriculture.

TRC VISITORS

Texas Tech's Textile Research Center has had more than 600 visitors tour the facilities since last Oct. 31. Textile experts have come from seven countries and nine states. Countries represented include Japan, Israel, Korea, Egypt, New Zealand, Australia and Hong Kong. U.S. visitors have come from the District of Columbia and New Mexico, Virginia, Mississippi, South Carolina, Alabama, Pennsylvania, California, Tennessee and North Carolina.

3,000 SIGN UP FOR SUMMER PRE-REGISTRATION

Approximately 3,000 high school graduates have signed up for pre-registration and orientation during six sessions offered by Texas Tech this summer. Parents are urged to attend these sessions with the incoming students, giving the family an opportunity to help freshmen make the transition from secondary school to university life.

SUMMER SESSION II REGISTRATION

Unofficial figures for the registration of student for the second summer session showed 5,753 enrolled. The official count will not be completed until Friday, July 17. Enrollment for the second summer term in 1969 was 5,765.

THE CALENDAR

IN SESSION UNTIL:

July 17	Food and the Consumer Workshop
July 24	Summer Music Camp -- Band
July 29	Communication Designs in Teaching -- Learning (Home Economics)
July 31	Home and Family Life Workshop
Aug. 4	Biology Teachers Institute (NSF)
Aug. 19	Field Course in Mexico, 1970

JULY CALENDAR

July 15-Aug. 2	Directing School Speech Activities Workshop
July 17	"Big Hand for the Little Lady," Coronado Room, 8 p.m.
July 17-30	High School Theater Workshop
July 18	Band Camp Concert, Tech Union East Lawn, 7:30 p.m.
July 19-Aug. 1	High School Forensics Workshop
July 20	"World of My America," Pauline Myers, Coronado Room, 8 p.m.
July 20-24	Teaching the Disadvantaged (Home Economics Education)
July 20-Aug. 7	School Administration Workshop
July 23-24	New Student Orientation and Registration (1st session)
July 24	Band Concert, Tech Union, 4 and 7:30 p.m.
July 26-31	"The Mouse that Roared," Coronado Room, 8 p.m.
July 27-28	High School Newspaper-Yearbook Photography Workshop
July 30-31	New Student Orientation and Registration (2nd session)
July 31	New Student Orientation and Registration (3rd session)
July 31	"Daddy's Gone A Hunting," Coronado Room, 8 p.m.

FOR YOUR INFORMATION

-- From Texas Tech University

FOR YOUR INFORMATION FOR YOUR INFORMATION, informally known as FYI, is a new service begun on campus during the 1970 summer sessions. This is the first issue to have campus-wide distribution. FYI is for campus communication, primarily for the administration and faculty. While a permanent format is being established, FYI will appear in mimeographed form, biweekly. To include your information in any issue, please mail details to or call Bea Zeeck, Office of Information Services, 2-4136. (This office is located on the second floor, east wing, Administration Building.)

FACULTY CLUB INVITES NEW MEMBERSHIPS Dr. Charles E. Dale, president of the Texas Tech University Faculty Club, is using FYI to invite all persons eligible for membership in the organization to join, particularly those who were not members of the club during the 1969-70 academic year. Those eligible are full-time faculty, department heads or professional and administrative members of the staff. Dues should be paid by Sept. 15, and no memberships will be accepted after Nov. 1 from persons eligible before that date, Dale said. Annual dues are \$10. Until Sept. 15 all prospective members may use the club. All service will be on a cash basis until that date. To submit an application for membership, complete the form below and mail, with a check, to: Raymond Green, Faculty Club, Campus.

APPLICATION FOR MEMBERSHIP IN THE FACULTY CLUB FOR THE YEAR 1970-71

NAME (please print) _____

RANK OR POSITION _____

DEPARTMENT _____

FITNESS/CONDITIONING PROGRAM IS STARTED A Faculty-Staff Fitness and Conditioning Program for men is taking place from 11:30 a.m. to 12:30 p.m. Monday, Wednesday and Friday. Dr. Gene Coleman of the Department of Health, Physical Education and Recreation for Men is the instructor. Although individuals work at their own pace the program provides opportunities for 15 minutes of exercises, 15 minutes of running and 15 minutes of swimming, volley ball, tennis or some other sport three days a week. The Men's Gym is available for this program, and participants use the Astroturf or Tartan Track in the Stadium for running when the weather is good. Coleman said that an enrollment of 400 is hoped for this year. He pointed out that the same program at the University of Texas has drawn 1,400 this year and that it is equally popular at other universities where it has been instigated. Although he will furnish encouragement and direction, Coleman said, "no pressure is applied" for participants to advance. Advancement is up to the individual. For additional information, call 3-3111 or 3-3160.

NSF BROADENS USE OF DISSERTATION RESEARCH AWARDS The National Science Foundation has announced that its doctoral dissertation research awards now will include the environmental sciences (atmospheric and earth sciences and oceanography) and the biological oceanography. NSF Director William D. McElroy said the new authorization follows success of the use of awards in the social sciences. Application procedures may be obtained from the appropriate NSF division: Division of Biological and Medical Sciences; Division of Environmental Sciences; or Division of Social Sciences; National Science Foundation, Washington, D. C. 20550.

LOCATION CHANGES The greatest shift in campus personnel during the summer came about as the result of completion of the new Museum. Staff moved into these quarters in mid-July. Offices for the College of Arts and Sciences then moved to the old Museum. The Graduate School office and that of the International Center for Arid and Semi-Arid Land Studies also will be moved to the old Museum. Occupying quarters released by the College of Arts and Sciences in the Administration Building (Room 208) is the Office of Research Services. Other office locations recently changed and of general interest include those for:

Dr. J. Wayland Bennett, associate vice president for Academic Affairs, Room 115, Administration Building.

Dr. John A. Buesseler, dean, Texas Tech University School of Medicine and Vice President for Health Affairs, Room 120, Administration Building.

Dr. Orlo E. Childs, Vice President for Research and Special Programs, Room 118, Administration Building.

John G. Taylor, contracting and purchasing officer, Room 204, Administration Building.

Fredric J. Wehmeyer, assistant vice president for Administrative Services, Room 206 Administration Building

Clifford Yoder, assistant to the Executive Vice President (residence halls and food service) Room 3 (basement, east wing) Administration Building.

The Dads Association, Room 101, English Building.

(Also located in the east wing of the Administration Building basement are the offices for Institutional Research, New Construction and Planning and Analyses.)

U. S. GOVERNMENT COLLEGE NEWS The "Federal College Newsletter" reports that federal hiring rates are down. These six agencies predict they will hire 100 or more persons from the Federal Service Entrance Examination by June 30, 1971: Department of Agriculture (600), Department of Housing and Urban Development (200), Department of Justice (200), Department of the Navy (200), U.S. Civil Service Commission (125), Federal Deposit Insurance Corp. (100). Two agencies predicting substantial needs for new engineers are the Department of Agriculture (620) and the Department of the Navy (640). Agriculture also estimates they will need 225 accountants, and the Navy will require 260 scientists.

CALENDAR

Sept. 1	New Student Convocation, Municipal Auditorium, 4 p.m.
Sept. 3	Spanish film, "Lazarillo," Tech Union, 9 p.m.
Sept. 7	Labor Day (University Holiday)
Sept. 8	W. C. Fields Film Festival, Coronado Room, 8 p.m.
Sept. 9	"The Best of Both Worlds," Tech Union Ballroom, 8 p.m. "Kinetic One" (prize-winning student film) 4 and 8 p.m.
Sept. 10	W. C. Fields Film Festival, Coronado Room, 8 p.m.
Sept. 11	Faculty recital, clarinet and piano, Music Building 1, 8:15 p.m. All School Dance, Coliseum, 8 p.m.
Sept. 12	Football, Tulane at Tech, 7:30 p.m. Class reunions (1945-1946), Ex-Students Building, Registration, 10 a.m.
Sept. 14	Speech and Theater Arts, videotaped lecture, X80A, 7 p.m.
Sept. 15	Faculty recital, piano, 8:15 p.m.
Sept. 15, 16, 17	"The Year of the Pig," (documentary), Coronado Room, 4 and 7:30 p.m. (admission \$.50)
Sept. 17	University Speakers Series, Abe Fortas, Municipal Auditorium, 7:15 p.m.
Sept. 18	Food Science and Institute Speaker Series, Business Administration 202, 3:30 p.m.

Sept. 30	"Kinetic One" (No. 2), Coronado Room 4 and 7 p.m.

FOR YOUR INFORMATION

-- From Texas Tech University

**PRESIDENT TO ADDRESS 1970 CONVOCA-
TION OF FACULTY/STAFF** Dr. Grover E. Murray will address members of the faculty and staff of Texas Tech University at a convocation at 4 p.m., Sept. 10, in the Municipal Auditorium. Traditionally at the fall convocation, the President summarizes accomplishments of the past months and outlines new directions and plans for the university in the year to come.

RECEPTION WILL HONOR NEW FACULTY The new Texas Tech University Museum will be the location for the President's Reception honoring new members of the faculty and staff. All faculty and staff are invited to attend this reception from 3 to 4:30 p.m. Sunday, Sept. 13. Access to the Museum is from 4th Street at Indiana and parking is available in front of the building.

RANCH HEADQUARTERS DEDICATION OCT. 3 Dedication of the Ranch Headquarters -- the living, outdoor museum which will depict the history of ranching in Texas -- is scheduled for Oct. 3, the day of the first annual meeting of the Ranch Headquarters Association. This dedication will precede the dedication of the Moody Planetarium and the formal opening of The Museum at Texas Tech University Nov. 14.

The Ranch Headquarters affair will be a real old-fashioned "wingding" for members and their guests. Gov. Preston Smith has been invited. The Ft. Griffin Fandangle players will present a "Fandangle Sampler" from their regular performance which has become nationally famous among fans of the American West. The Texas State Historical Survey Committee will participate with the presentation of a historical marker. Plans are underway to have a saddle maker, a boot maker, a blacksmith and other craftsmen plying their trades. A wagon and mule team and a horse and buggy are expected to be available for picture taking. Five buildings for the Ranch Headquarters should be at The Museum site -- three of them standing. A blacksmith shop from the Renderbrook Spade Ranch, a box and strip house from the Long S. Ranch and the carriage house from the U Lazy S Ranch should be on location in addition to the dismantled meat and milk house from the JA Ranch and the headquarters of the Capote Ranch.

Membership in the Association -- open to anyone interested in preservation of ranching history -- is \$5 for an individual membership or \$12.50 for family memberships.

FACULTY COUNCIL EXECUTIVE COMMITTEE TO MEET The 20 member Executive Committee of the Faculty Council has planned its first meeting of the fall semester for 3:30 p.m. Sept. 9, in the Board Room of the Administration Building. Officers for the new academic year will be elected and the members will hear routine committee reports. The Executive Committee meets on the second Wednesday of each month. The full Faculty Council meets at least once each semester.

BUSINESS NOTE FOR NEW FACULTY The Personnel Office reports that some payroll packets still are outstanding for new faculty members. These should be completed as soon as possible and returned to the Personnel Office -- with preference stated for insurance and retirement plans.

MURRAY DESCRIBES
UNIVERSITY ROLE

The role of a university is "to develop knowledge to be used by society for its purposes, which may include change," President Murray told graduating Techsans Aug. 22. It is not the role of the university, he said, to act as an agent to effect change in society.

Dr. Murray was the speaker for the commencement for students who completed degree requirements in December, 1969, May, 1970, and August, 1970, in a combined ceremony made necessary as the result of the May 11 tornado in Lubbock.

"One of the most important things a university should do," he said, "is to teach its students to think. And in many respects, all else is basically dependent on that. At the same time, through its teaching, research and public service functions, a university does train people and does provide new knowledge for use by society."

Dr. Murray said the mission of a university is two-fold: the advancement of knowledge and the preparation of young people for future, productive and rewarding activities through which they will contribute to the advancement and welfare of mankind.

BOWLING LEAGUE
OPEN FOR FACULTY

All faculty members are invited to join the Texas Tech Faculty Bowling League which meets from 6:30 to 8:30 p.m. each Thursday at Oakwood Lanes, 3006 Slide Road. For information concerning membership, please call Betty Tevis, 2-4105, or John Craig, 2-1254.

CALENDAR

(Note: What was Tech Union is now University Center)

Sept. 10	W. C. Fields Film Festival, University Center, 8 p.m.
Sept. 11	Keith McCarty, Clarinet, Music Building 1, 8:15 p.m. All School Dance, Coliseum, 8 p.m. "Prime of Miss Jean Brodie," University Center, 8 p.m.
Sept. 12	Football, Tulane at Tech, 7:30 p.m. Class reunions (1945-1946, Ex-Students Building, 10 a.m. International Student Tour of Lubbock, University Center, 9:30 a.m.
Sept. 13	"Prime of Miss Jean Brodie," University Center, 3 p.m., 7 p.m.
Sept. 14	Speech and Theater Arts, videotaped lecture, X80A, 7 p.m. Monday Nickelodeon, University Center, 12 noon
Sept. 15	Thomas Mastroianni, piano, Croslin Room, Library, 8:15 pm
Sept. 15-17	"The Year of the Pig," documentary, University Center, 4 p.m., 7:30 p.m.
Sept. 17	University Speakers Series, Abe Fortas, Municipal Auditorium, 7:15 p.m.
Sept. 18	Food Science and Institute Speaker Series, Business Administration 202, 2:30 p.m. Tech Symphony with Maid of Cotton, Municipal Auditorium 8:15 p.m. "How Sweet It Is," University Center, 8 p.m.
Sept. 19	Football, Tech at Kansas, 1:30 p.m. All-School Rodeo, Dub Parks Arena
Sept. 20	"How Sweet It Is," University Center, 3 p.m., 7 p.m. All School Rodeo, Dub Parks Arena
Sept. 21	Monday Nickelodeon, University Center, 12 noon
Sept. 22	Preservation Hall Jazz Band, University Center, 12 noon
Sept. 23	Transfer Student Orientation, University Center, 8 p.m.
Sept. 25	Board of Regents, 3:30 p.m. Dona Lee Cherry, violin, First Christian Church 8:15 p.m. "Che," University Center, 8 p.m.
Sept. 26	All School Dance, Coliseum 8:30 p.m. Football, Texas at Tech, 7:30 p.m. Texas Tech University Foundation, University Center, 12 noon Ex-Students Executive Board meeting, University Center, 8 a.m. Farm and Ranch Law Institute, Law School, 8:30 a.m.-4 p.m. Coffee House, University Center, after game

FOR YOUR INFORMATION

--From Texas Tech University

**PRESIDENT'S
CONDITION
IS 'EXCELLENT'**

Dr. Grover E. Murray is "doing extremely well and already is doing some Tech work," following corrective eye surgery Sept. 12. Executive Vice President Glenn E. Barnett said he has been in daily contact with President Murray. He explained that the President began to notice he had "unclear vision" about Sept. 7. His Lubbock ophthalmologist suggested he consult with a Dallas specialist. When the President went to Dallas Friday, Sept. 11, on business relating to the School of Medicine, he did consult with this surgeon and was told he was suffering from a partially detached retina of the right eye. Surgery was recommended for the following day. The correction was satisfactorily made, and the surgeon reported Dr. Murray's condition as "fine" immediately after the operation.

**FACULTY COUNCIL
EXECUTIVE COMMITTEE
ELECTS OFFICERS**

The Executive Committee of the Faculty Council held its initial meeting of the 1970-71 academic year Sept. 9 and elected Dr. Donald S. Longworth, of the home and family life faculty, as chairman. Serving with Prof. Longworth will be Vice Chairman Robert L. Rouse, chairman of the Department of Economics, and Secretary Mary Dabney from the faculty of the Department of Health, Physical Education and Recreation for Women. By Council by-laws, the university's President serves as a member of the Executive Committee and as chairman and presiding officer of the Faculty Council. The full Faculty Council meets at least once each semester.

Dr. Kline A. Nall, retiring secretary, presented the second annual report. As a result of committee work begun last year, reports are due this year on the status of professional librarians and on the structure, character and procedures of the Faculty Council. An ad hoc committee helped to prepare a comprehensive brochure on "Information for Prospective Foreign Students," and the Council has made a Committee on International Students an integral part of the organization. The Council considered Faculty Development Leaves and the need for more of these. These were among 14 major issues considered by the Executive Committee during the 1969-70 year.

Business at the Sept. 9 meeting included consideration of problems relating to retired faculty and the Council's interest in the continued participation of these people in university activities. This question, presented by Haskell Taylor, was referred to committee for study with a request for a report at the October meeting.

**FACULTY HANDBOOK
IS DISTRIBUTED**

The first new Faculty Handbook since 1964 was delivered last week. Dr. Jacquelin Collins of the history faculty was editor. He described as "very, very helpful" the work contributed by Mrs. Anna Burt Gibson, administrative assistant to the School of Medicine, Mrs. Gale R. Webber, assistant editor of University Bulletins, and Mrs. Carolyn Moss, administrative assistant in the Office of the Vice President for Academic Affairs.

Especially noteworthy in the 48-page bulletin are: the Faculty Council Charter, page 9; the Texas Tech University Tenure Policy, pages 20-25; the listing of university committees, pages 12-17; and the section on Faculty Privileges and Benefits, particularly pages 39-41.

The handbook was prepared through the direction of the Office of the Vice President for Academic Affairs, and that office is handling the distribution.

Vice President Kennedy pointed out that in the time lapse between writing material for the handbook and its publication, the information "cannot be kept fully up to date in a dynamic institution." Because of this he urged that all recommended changes and corrections be transmitted to his office in writing for assistance in preparing future editions.

"We intend to have a continuing revision of the Faculty Handbook," he said, "with republication as it is necessary."

**BUDGET HEARINGS
HELD AT TECH**

A budget hearing was held Sept. 1, in the Board of Regents Room, pertaining to Texas Tech University, the Texas Tech University School of Medicine and The Museum. The hearing was conducted jointly by the staffs of the Coordinating Board, Texas College and University System, and the state's Executive Budget Office and the Legislative Budget Board. President Murray presented supporting material and answered questions relating to the budget requests of the three institutions for the 1972-1973 biennium.

**RHODES, WILSON,
FULBRIGHT STUDENT
OPPORTUNITIES**

Chairman David M. Vigness of the Department of History this week announced deadlines for three student opportunities: Candidates for Woodrow Wilson fellowships must be nominated by a faculty member not later than Oct. 31. This is also the last date (Oct. 31) for applications from Rhodes Scholarship candidates. Applications for the Fulbright competition must be received by Dr. Vigness' office by Dec. 1. Two years of study at Oxford University is the minimum award for a Rhodes Scholar. Woodrow Wilson Fellows and Finalists are named in an effort to attract outstanding young people to careers in college teaching. A Fulbright award usually will pay round trip transportation, tuition and fees and a living allowance for a student studying in a foreign university -- in most cases with an additional allowance for dependents.

**LYSISTRATA MARKS
100th PRODUCTION
OF TECH THEATER**

"Lysistrata," opening at the University Theater Oct. 9, will mark the 100th production offered by campus players. It will run Oct. 9, 10, 11, 15 and 16 and will be offered also Oct. 29 and Nov. 1 for participants meeting in Lubbock for the Southwest Theater Conference. Prof. Ronald Schulz, who will direct "Lysistrata", is vice president of the five-state conference.

Season tickets are available until Oct. 16 to faculty and staff and their immediate families at a special price of \$5. This entitles the holder to a reserved seat for the performance of his choice for each of four major productions.

FYI NOTES

Texas Tech University campus calendars still are available from the Office of Information Services ...Mrs. Jean A. Jenkins, director of the Placement Service, has announced that her office has mailed a calendar and listing of projected numbers of graduates for 1971 to 1,488 employers who sought to fill positions with Texas Tech graduates in 1969-70...Acting Chairman Robert Collmer of the Department of English reports that the purchase of a Hinman Collator -- for use in advanced bibliographical research -- has been authorized for installation in the Tech Library...The Regional Moot Court Competition for Region 10 will be held this year at the Texas Tech Law School, Nov. 12-14...Latin American Area Studies now has offices on the second floor of the College of Arts and Sciences complex in the old Museum.

CALENDAR

Sept. 21	Monday Nickelodeon, University Center, 12 noon
Sept. 22	Preservation Hall Jazz Band, University Center, 12 noon
Sept. 23	Transfer Student Orientation, University Center, 8 p.m.
Sept. 25	Board of Regents, 3:30 p.m. Dona Lee Cherry, violin, First Christian Church 8:15 p.m. "Che," University Center, 8 p.m. All School Dance, Coliseum 8:30 p.m.
Sept. 26	Football, Texas at Tech, 7:30 p.m. Texas Tech University Foundation, University Center, 12 noon. Ex-Students Executive Board meeting, University Center, 8 a.m. Farm and Ranch Law Institute, Law School, 8:30 a.m.-4 p.m. Coffee House, University Center, after game
Sept. 27	"Che," University Center, 3 p.m., 7 p.m.
Sept. 28	Monday Nickelodeon, University Center, 12 noon
Sept. 29	Bill Lucas, baritone, 8:15 p.m. "Best of Both Worlds," University Center, 8 p.m.
Sept. 30	"Kinetic One," (No. 2), University Center, 4 p.m., 8 p.m.

FOR YOUR INFORMATION

-- From Texas Tech University

**18 GRANTED FACULTY
DEVELOPMENT LEAVES**

Eighteen members of the Texas Tech faculty have been granted development leaves for the 1970-71 academic year. Named by the Board of Regents as recipients for the current year, and the departments represented, are: for the fall semester -- Dr. M. Kent Rylander, biology; Dr. Warren S. Walker and Dr. Dahlia J. Terrell, English, and Dr. M.A.K. Lodhi, physics; for the spring semester -- Dr. Coleman A. O'Brien, animal science; Dr. Vernon W. Proctor, biology; Acting Chairman Robert G. Collmer, Dr. Joseph J. Mogan Jr., and Dr. Kline A. Nall, English; Dr. William E. Oden, government; Dr. Allan J. Kuethe and Dr. James V. Reese, history; Roy Sylvan Dunn, sociology; Dr. John Wittman Jr., economics, and Dr. Marshall Nagle Jr., secondary education; for the fall and spring semesters -- Dr. Charles H. Mahone, psychology; Tom B. Stenis, electrical engineering; and Chairman L. J. Powers of mechanical engineering. The Faculty Development Committee receives and reviews applications for faculty development assignments made possible by the Texas 60th Legislature.

**INTRAMURALS OFFER
VARIETY OF SPORTS**

Intramurals Director Edsel Buchanan reports that six touch football teams have been formed, but there is room for more who would like to participate (if they hurry). The Intramural Program for Men offers a team sport program for faculty, staff and graduates in the sports of touch football and basketball. Offered will be singles or doubles -- if interest warrants -- in golf, handball, tennis, paddleball and badminton. The number to call is 3-3113, or go to Room 1 in the Intramural Gym to sign up or obtain additional information.

**LIABILITY INSURANCE
REQUIREMENTS CITED**

John G. Taylor, contracting and purchasing officer, has announced that it is necessary to arrange for liability insurance for two types of events: 1) events held in the Lubbock Auditorium or the Coliseum or both when there is an admission charge and 2) for workshops, short courses, association meetings or other events of this type when participants are required to pay fees or charges other than state tuition and state fees. Arrangements for insurance in the first category should be made when the form, REQUEST FOR USE OF CITY AUDITORIUM AND/OR COLISEUM, is submitted for approval. Arrangements for the second category should be requested in writing from the Contracting and Purchasing Officer (Taylor). This request should give the name and type of meeting, the dates the insurance should cover, the account to be billed and the estimated number of persons expected for the event. Exceptions cannot be made, Taylor said.

**ADMINISTRATION
HOLIDAY CALENDAR**

Seventeen holidays have been scheduled on the university's official Administrative Calendar for 1970-71. Labor Day, Sept. 7, was the first. Others include: Nov. 26-27, Thanksgiving; Dec. 23-Jan. 4, Christmas; March 22-24, spring break; and July 4 (which falls on Sunday). In addition to holidays observed in all states, Texas observes Jan. 19, Feb. 12, March 2, April 21, May 30, June 3 and Oct. 12. The actual dates on which these are observed may be adjusted at educational institutions to permit efficient academic schedules. At Texas Tech this is done to coincide, in part, with student holidays.

VITAE WANTED

The Office of Information Services, Room 220, Administration Building, asks that new faculty or other faculty who have not sent an updated vita to this office since January, 1970, please do so. This is kept on file, and the information is used for news release purposes. This should include academic background, career background, areas of special interest and publications.

WIN COURSE SERVES TEN CAMPUSES

The Western Information Network this fall is serving 10 campuses, offering an introductory course in computer sciences at Texas Tech University, Angelo State University, Hardin Simmons University, Howard Payne College, Lubbock Christian College, McMurray College, Odessa Junior College, South Plains Junior College, Wayland Baptist College and West Texas State University. The course is videotaped at Texas Tech as Prof. James E. Archer teaches. Dr. Archer is chairman of the Department of Engineering Analysis and Design. Videotapes are shipped to the other nine campuses for classroom use there. WIN eventually is to be a closed circuit network among its 18 member institutions in a system supported by an Aug. 17 editorial in the "Dallas Morning News" which claimed that network instruction "reduces costs and makes it easier for students. Quality of instruction also is improved in many cases. Those involved in educational programs should insist that this modern teaching aid be utilized widely in Texas."

SPECIAL LECTURES

The Society of the Sigma Xi will sponsor the lecture of Dr. Robert Livingston of Scripps Institute, University of California at La Jolla, Oct. 15. He will discuss the "Neurosciences as an Interdisciplinary Research Frontier"... Dr. Karl Menninger of the Menninger Foundation will be the University Series guest lecturer Oct. 8...The telelecture sponsored by the Department of Speech and Theater Arts Oct. 12 will be presented by Prof. Frank E.X. Dance of the University of Wisconsin, Milwaukee. This is open to faculty and students interested in communication theory and behavioral and social sciences as applied to the phenomenon of speech communication...The interdisciplinary seminar series in Food Science and Nutrition of the Seventies will present three speakers Oct. 16 -- Dr. Ricardo Bressani, Institute of Nutrition for Central America and Panama; Dr. Daniel Rosenfield, U.S. Department of Agriculture, and Dr. Edwin T. Mertz of Purdue University.

TELEPHONE DIRECTORY

Work is underway on the 1971-72 Texas Tech University campus telephone directory. Recommendations and changes should be submitted in writing to Emil Carmichael, Office of Information Services, campus.

CALENDAR:

- Oct. 1 Western Dance, University Center, 7:30-10 p.m.
French film, "Umbrellas of Cherbourg," University Center, 8 p.m.
- Oct. 2 Briefing sessions for campus interviews and career planning for all seniors and graduate students end (Placement Center)
- Oct. 3 Alan Ramsey, coffee house, University Center, 8 p.m.
Football--California (Santa Barbara) at Tech 7:30 p.m.
Class reunion 1950, Ex-Students Building, registration, 10 a.m.
Ranch Headquarters Association, Inc., annual meeting, Museum grounds, 9:30 a.m.-3:30 p.m.
- Oct. 4 "The Committee," University Center, 3 p.m. and 7 p.m.
- Oct. 5 Karl Sagar, "D. H. Lawrence," 1:30 p.m. (English 126)
- Oct. 6 Bill McGaw, University Center, 8 p.m.
Major-Minor Club, Agricultural Engineering Auditorium, 7:30 p.m.
- Oct. 7 Rob Inglis, "The Canterbury Tales," University Center, 8 p.m.
- Oct. 8 Dr. Karl Menninger, University Speakers Series, Municipal Auditorium, 8 p.m.
Marta Pender, soprano, Moody Auditorium, Lubbock Christian College, 8:15 p.m.
- Oct. 9 "Lysistrata," University Theater's 100th production, 8:15 p.m.
"Wait Until Dark," University Center, 8 p.m.
- Oct. 10 Football -- Texas A&M at College Station, 7:30 p.m.
"Lysistrata," University Theater, 8:15 p.m.
- Oct. 11 International Dinner, University Center, 6:30-8 p.m.
"Wait Until Dark," University Center, 3 p.m. and 7 p.m.
- Oct. 12 Dairy and Food Industry Conference, Holiday Inn, 9 a.m.-4:30 p.m.
Opening date of campus interviews, Placement Center
Speech & Theater Arts Telelecture, X-80-A, 7 p.m.

FOR YOUR INFORMATION

-- From Texas Tech University

**ELECTRICAL ENGINEERING
DEVELOPMENT GRANT**

The largest single grant ever to come through the University's Office of Research Services -- \$476,000 -- was awarded the Department of Electrical Engineering Sept. 16 by the National Science Foundation. The grant will be used over a three-year period for general improvements, support facilities and staff. The order of priority for development is physical electronics, controls and instrumentation, systems and circuit theory and engineering electro-magnetics. In terms of research, electrical engineering is the university's fastest growing department. In 1962, six per cent of the faculty held the doctoral degree. Today 87 per cent hold doctorates. The publication rate has increased from almost none before 1964 to an annual output of about 40 papers on research and teaching techniques. Research funding in 1965-66 amounted to about \$27,500 compared with approximately \$300,000 for each of the past two years. This year the department has been a co-sponsor with the Atomic Energy Commission of a Fusion Reactor Design Symposium and has initiated two short courses, one for traffic signal technicians and one for oil-field automation engineers.

**UNIVERSITY COMMITTEE
CHAIRMEN LISTED**

University committees have been named for the 1970-71 academic year. The chairmen are: Academic Status, D. S. Longworth; Admission and Retention (undergraduate) D.A. Crawford; Athletic Council, T.L. Leach; Budget Advisory, Arthur Roberts; Campus Emergency, Walter J. Jordan; Campus Planning, Haskell Taylor; Code of Student Affairs, Justin Smith; Commencement, Kline Nall; Courses and Curricula, K.W. Davis; English Usage, R.A. Rooker; Faculty Development, J.W. Davis; Fire Prevention, coordinated through Fire Marshall C.H. Franklin; Graduate Council, B.L. Allen; Library, Carl Hammer; Parking and Traffic Advisory, E.W. Kiesling; Parking Violation Appeals, Charles Wade; Radiation Safety, David Howe; Radio-Television Advisory, Bill Ross; Recognition, Bruce Mattson; Registration, W.J. Cartwright; Solicitations, Margaret Sitton; Student Financial Aids, Frank Imke, vice chairman with the associate vice president for academic affairs ex-officio chairman; Student Organizations, Mary L. Brewer; Student Orientation, Milton Peebles; Student Publications, Beatrix Cobb; Student Services Fee Allocations, has ex-officio members -- the vice president for financial affairs, the associate vice president for academic affairs and the president and business manager of the Student Association; Tenure and Privilege, Henry Thomas; University Appeals Katherine Evans; University Artists and Speakers, Haynes Baumgardner; University Benefits, Wildring Edwards; University Faculty-Student Discipline, I.L. Little.

CORRECTION

Texas Tech employees will not have 17 holidays, as FYI reported on Sept. 29. The Board of Regents' approved schedule calls for 15 holidays, and the Christmas holidays will begin at the close of business on Tuesday, Dec. 22, and offices will reopen Monday, Jan. 4.

**BABYSITTING
SERVICE OFFERED**

The University Center Hospitality Committee has announced that it provides free babysitting for the children of Texas Tech students and faculty during the Speakers Series. Children 8 years old and younger may be brought to rooms 207 and 208 of the University Center 30 minutes before the lecture begins and should be picked up within 30 minutes after the lecture ends.

**DEVELOPMENT LEAVE
APPLICATIONS READY**

Dr. J. William Davis, chairman of the Faculty Development Leave Committee, has announced that Development Leave application forms will be available after Oct. 18 -- to be obtained from the secretary, Room 203, Department of Government, Social Science Building. Applications with substantiating letters of recommendation must be in the hands of the committee no later than Dec. 1. Davis said the applicant has the responsibility to follow up on letters of recommendation and to see to it that these have reached the chairman of the committee before the Dec. 1 deadline. The policy which governs selection is stated in the application packet. This should be read before the application form is filled out.

SIGMA XI SCHEDULES
NATIONAL LECTURER

Dr. Robert Livingston, chairman of the Department of Neurosciences, University of California at San Diego, will deliver the annual National Lecture, sponsored by the Society of the Sigma Xi, at 8:30 p.m. Thursday, Oct. 15, in the Biology Auditorium. His subject will be "The Neurosciences as an Interdisciplinary Research Frontier."

INSPECTION DISPLAY
SET FOR "GARDYLOO"

Texas Tech's new mobile environmental sampling laboratory, named "Gardylloo", is now fully functional for use as a field station by the various departments at Texas Tech University. Prof. George F. Meenan, chairman of the Department of Chemical Engineering, has announced it will be on display from 9 a.m. to 4 p.m. Friday, Oct. 16, in the Administration Building parking lot. Faculty are invited to inspect the traveling laboratory and inquire about possible use and costs. The bus has a two-way radio, an oven and furnace, refrigerator, sink, laboratory glassware and supplies, water and air pollution testing equipment, and a generator mounted on a trailer to offer 18 hours of uninterrupted operation. Its first operational use will be in water pollution studies, but it is expected to serve for social as well as physical sciences research. "Gardylloo" (definition in the dictionary) was financed by the Graduate School and the Water Resources Center. The Department of Chemical Engineering faculty, with others, designed and arranged for the equipment installation, and they give credit to the Cabinet Shop for special interior work.

QUOTE OF NOTE

"Now, I don't go into a coma while waiting for dinner," reports one of 65 participants enrolled in a faculty-staff Fitness and Conditioning Program for Men, directed by the Department of Health, Physical Education and Recreation for Men. Thirty to 35 men work out three days a week, during the noon hour, and Dr. Gene Coleman, the instructor, reports some who started running a half a lap a day now run four or five laps without stopping. "The participants tell me," he said, "they have more energy in the afternoon; they're enjoying their weekends more." Coleman said he furnishes "encouragement and direction" but advancement is up to the individual with no pressure applied to advance at a given rate. Men who want to participate should call 3-3111 or 3-3160. If enough women are interested, Coleman said, a class might be started for them. They should call 2-1271 and register their interest with Mrs. Lois Bierwirth.

CALENDAR

- Oct. 15 Sigma Xi National Lecturer: Dr. Robert Livingston, Biology Auditorium, 8:30 p.m.
"Lysistrata," University Theater, 8:15 p.m.
Esta Noche Teatro, University Center, 8 p.m.
Arthur Follows, cello, Seaman Hall, 8:15 p.m.
"Medea," Laboratory Theater, 8:15 p.m.
- Oct. 16 Food Science Institute Speaker Series, Business Administration Auditorium, 2:30-5 p.m.
Tech Chamber Orchestra, Judson Maynard, soloist, Westminster Presbyterian Church, 8:15 p.m.
"Lysistrata," University Theater, 8:15 p.m.
Faculty Brass Quintet and Madrigal Singers, University Center, 8:15 p.m.
"The Chairman," University Center, 8 p.m.
"Medea," Laboratory Theater, 8:15 p.m.
- Oct. 17 Football -- Mississippi State at Jackson, 7:30 p.m.
"Medea," Laboratory Theater, 7 p.m. and 9:45 p.m.
- Oct. 18 Homer Stewart, clarinet, Seaman Hall, 3 p.m.
"The Chairman," University Center, 3 p.m. and 7 p.m.
"Medea," Laboratory Theater 8:15 p.m.
- Oct. 19 Oilfield Automation Short Course, Harold Hinn Conference Center, 8 a.m. - 5 p.m.
"Medea," Laboratory Theater, 8:15 p.m.
- Oct. 20 Oilfield Automation Short Course, 8 a.m. - 5 p.m.
- Oct. 21 Oilfield Automation Short Course, 8 a.m. - 5 p.m.
Student Recital, Music Building, Room 1, 4:30 p.m.
- Oct. 22 Oilfield Automation Short Course, 8 a.m. - 5 p.m.
- Oct. 23 Homecoming Weekend begins
Ex-Students Board Meeting, 208 University Center, 8:30 a.m.
Ex-Students Council, University Center, 10 a.m.
Distinguished Alumnus Luncheon, University Center, 12 noon
Century Club Dinner, University Center, 6:30 p.m.
Open House, all ex-students, Ex-Students Building, 3 p.m.
Pep Rally - Bonfire,

FOR YOUR INFORMATION

-- From Texas Tech University

**FACULTY COUNCIL
FALL MEETING
SET FOR NOV. 12**

The fall meeting of the Faculty Council will be held at 3 p.m., Nov. 12 in the Ballroom of the University Center. The council is composed of all faculty -- persons under full-time contract possessing the academic rank of instructor, assistant professor, associate professor or professor. The Executive Committee of the council set the fall meeting date. The President of the University presides at this meeting. Chairman Donald S. Longworth of the Executive Council said that all resolutions or proposals to be introduced at the meeting should be in his hands seven days prior to Nov. 12 so that they can be circulated to all faculty prior to the meeting. This deadline (Nov. 5) will have to be observed, he said, to allow for an orderly session. "We would prefer that resolutions or proposals be received even earlier to reduce last-minute pressure, but we can circulate any received as late as seven days before the meeting." Three items already on the agenda are a report of the Radio-TV Committee (regarding faculty compensation for teaching in this area), a report on the status of retired faculty members (of growing importance as the number of faculty is increasing), and the Pass-Fail proposal upon which faculty will be asked to vote.

**OCT. 30 IS DEADLINE
FOR OPEN INSURANCE
ENROLLMENT PERIOD**

Until this Friday, Oct. 30, permanent group life insurance is available on an open enrollment basis from Group Life and Health Insurance Co. (Blue Cross). The University Benefits Committee recommended the addition of group permanent life to the employee benefit package, and it is endorsed by the Executive Committee of the Faculty Council. During the open period it is possible for an employee to change a part or all of his group term life insurance to group permanent life insurance. For employees who have not previously enrolled in the group term life insurance program, application may be made during this open enrollment period. Application also can be made during the period for group term coverage and conversion to group permanent coverage. C.B. Strawn, director of personnel, pointed out that there is a substantial cost advantage in purchasing permanent life insurance at university group rates. One advantage is that permanent insurance accumulates cash value and builds paid-up life insurance values. Another advantage is that the full amount of this coverage can be carried forward into retirement at no increase in premium. For additional information, group specialists will be available for conference through Friday in the main corridor, east wing, Administration Building (outside the Payroll Office doors) and in the lobby outside the Faculty Club in the University Center.

**SAVINGS BOND DRIVE
STARTS IN NOVEMBER**

The fellow who found a silver lining in every cloud was the fellow who bought U.S. Savings Bonds in preparation for a rainy day. At Texas Tech, November is Savings Bond Drive Month. Employees may elect to set aside as much as they want each month--more or less than enough to buy a bond. Whenever enough is accumulated in this lay-away program, a bond is purchased in the name of the employee and it is sent to him for safe-keeping. No income tax is paid on the bond purchase price until the bond is cashed. A special representative in each department or division will contact employees personally during the Savings Bond Drive. For further information, please call Dr. Harley Oberhelman, campus chairman for the drive, at 2-1197 or 2-5111, Ext. 32.

**PROCEDURE FOR
RECEIPT OF GIFTS**

Director of Development and Information Services B.K. Beckwith calls faculty and staff attention to the "Faculty Handbook," Page 35 (II.26) for procedures related to the receipt of gifts. This section states that the Texas Tech University Foundation is the gift-receiving agency of the university. All private gifts to the foundation and to the university, including research grants and funds, must be approved by the University Board of Regents. All gifts received are acknowledged in two ways--by the director of Development and Information Services and by the individual, department chairman, or college dean for whose use the gift is designated. When a gift is offered, the person to whom it is offered should seek preliminary approval from the director of Development and Information Services who also serves as director of development for the foundation.

CAMPUS UNREST
REPORT REVIEWED

The National Association of State Universities and Land-Grant Colleges' Circular Letter 21 for Oct. 2 reviews the Scranton Commission Report on Campus Unrest released Sept. 26. "Of most immediate importance," the newsletter states, "the report strongly urges that campus unrest not be made a political issue." The review also stated: "Everyone is involved, and everyone can help. The report contains recommendations for all, not as 'cure-alls,' but as rational and responsive steps that should be taken"... "Our colleges and universities cannot survive as combat zones," the report said, "but they cannot thrive unless they are receptive to new ideas. They must be prepared to institute needed reforms in their administrative procedures and instructional programs." The U.S. Government Printing Office is publishing the full report. Texas Tech librarians said they will notify FYI readers when a copy arrives.

In an earlier newsletter the NASULGC executive director said that "recent statements...have put the blame for violence on the campus wholly on the academic community. ...we should, I believe, refute these allegations vigorously," he said, in part. He suggested that all of the academic community's publics be told "of the extensive efforts we have made to produce constructive change, hold faculty and student support, and prepare for and control campus disruption...We should distinguish between student dissent, which is and should be our responsibility, and criminal terrorism for which we are not and cannot be accountable. We should make clear that criminal terrorism is endemic today--assassinations of policemen, plane hijacking, interference with judicial procedures and destruction of buildings...We should point out that the youth rebellion, whatever it is, is not peculiarly American... Perhaps we might add modestly," he concluded, "that those who blame us for original sin overestimate our influence considerably."

JAMES JOYCE SYMPOSIUM PROCEEDINGS REVIEWED "James Joyce: His Place in World Literature" -- the proceedings of the Comparative Literature Symposium at Texas Tech University in 1969 --has received favorable review in the October 1970 issue of "The South Central Bulletin." The volume is described as "an extremely useful, readable collection of lectures by deservedly prestigious Joyce scholars, pointing the way into the Joyce critical labyrinth, and suggesting some navigational bearings for future explorations. Herbert V. Fackler of the University of Tulsa wrote the review of the proceedings edited by Texas Tech Prof. W. T. Zyla.

CALENDAR

- Oct. 29 University Speakers Series, Dr. Jean Houston, Municipal Auditorium, 7:15 p.m.
Southwest Theater Conference, Registration, In Town Inn, 9:30 a.m.
Beef Cattle Conference, University Center, 9:15 a.m.-4 p.m.
Playa Lake Symposium, Red Raider Inn, 8 a.m.-5 p.m.
- Oct. 30 "Those Daring Young Men on Their Jaunty Jalopies," University Center, 8 p.m.
Southwest Theater Conference

-- From Texas Tech University

**FACULTY COUNCIL
MEETING AGENDA**

A seven-point agenda faces members of the Faculty Council meeting at 3 p.m. Thursday, Nov. 12, in the Ballroom of the University Center.

In addition to previously announced matters to be discussed (faculty compensation for television teaching; status of retired personnel and a proposed pass-fail plan) faculty will consider two new resolutions and a report of the ad hoc committee on rights and responsibilities of faculty members in regard to holding of classes.

One resolution outlines a new procedure for granting honorary degrees by the university. Another is a request for a new ruling which would allow faculty to register for course work and pursue advanced degrees at Texas Tech.

Guidelines proposed for faculty in regard to holding classes would make specific the rules already observed. These include: the holding of lectures, labs and examinations at officially scheduled places and times; notification of departmental chairmen when substitutions are made; and dismissal of classes permitted in specific circumstances with classes made up at the convenience of students.

President Murray, who is the presiding officer for Faculty Council meetings, also will address the faculty.

**MEDICAL INSURANCE
DEADLINE NEARS**

An open enrollment period -- the last for at least a year -- for University Group Medical Insurance will end Friday, Nov. 13. Changes in

the coverage now carried by employees also would be made at this time. The insurance is carried by the Provident Life and Accident Insurance Company, and the university pays a portion of the premiums. No action is required if you do not want to make changes in your present coverage.

**FORMAL OPENING
FOR NEW MUSEUM**

The Museum of Texas Tech University will have its formal opening, with dedication of the Moody Planetarium, Saturday, Nov. 14, in ceremonies

beginning at 10 a.m. Events will begin with a dinner at 7 p.m. Friday, Nov. 13, sponsored by the West Texas Museum Association and featuring, as guest speaker, Frank A. Taylor who is director of museums, Smithsonian Institution. This will take place in the Ballroom of the University Center.

A flag ceremony will highlight Saturday morning events. Rep. George Mahon will make the dedicatory remarks for the Moody Planetarium ceremony and will present the national flag. Texas Secretary of State Martin Dies will speak at the official opening of The Museum, and present the state flag. President Grover E. Murray will present the Texas Tech flag when he discusses briefly the role of The Museum in relationship to the university.

A luncheon at The Museum will follow the ceremony.

The main art gallery of The Museum will feature an exhibition of "The West -- Records and Impressions." Other exhibits will provide a sampling of the impact The Museum will offer.

A "Holiday Fling" bazaar and auction will take place Nov. 18-19, sponsored by the Women's Council of the West Texas Museum Association to raise funds for The Museum.

**PAYROLL, PERSONNEL
OFFICES ARE MOVED**

The Administration Building's west wing basement has a new look and a new purpose -- to serve both the Payroll Office and Personnel Office.

The suites can be reached either from the north or south end of the wing. (The southwestern-most door of the building is an easy entrance.)

Elsewhere in the Administration Building, present plans call for allotting second floor space vacated by Personnel to offices relating to budget and auditing and contracting and purchasing. Space vacated by Payroll on the first floor is expected to provide additional room for the Office of the Comptroller.

TECHSANS

Director Ronald Schulz of Texas Tech's University Theater has been named 1971 president of the

Southwest Theater Conference, representing professional, community and educational theaters in Arkansas, Louisiana, Oklahoma, Texas and New Mexico.Chemistry Prof. Pill-Soon Song has been appointed a member of the editorial board of "Photochemistry and Photobiology, an International Journal."

- Nov. 30 Classes resume, 7:30 a.m., offices open, 8 a.m.
 Conceptual Frontiers of Speech Education for Black Folk, X-80A, 7 p.m.

 (continued from page 1)

WORK-STUDY FUNDS APPROVED FOR 1971

The Department of Health, Education and Welfare has announced the approval of \$55,800 in College Work-Study Program funds for Texas Tech, for use during the spring semester and the first summer session. Campus offices wanting to employ students in the work-study program should give a job description to Mrs. Lois Denson in the Financial Aid office (2-2215). These will be posted for students who then arrange for interviews with prospective employers. Financial Aid Interim Director Dudley S. Akins emphasized that his office operates not as a placement but as a referral service.

SCHOLARSHIP, LOAN FUNDS GROW FOR LAW SCHOOL STUDENTS

Texas Tech Law School students stand to benefit from six new scholarships, funds or awards announced for the first time in the 1970-71 catalog. New scholarships include one to honor G.

Robert and Aileen Hackney Nelson and another awarded semiannually by the Texas Tech Law Wives. New funds include the Texas Tech "Law Review" Loan Fund, expected to grow into a scholarship for members of the "Law Review" staff. The Judge Dan Blair and the Judge Marvin Jones funds are for short term loans to students. In addition, the Dallas firm of Geary, Brice, Barron & Stahl now awards \$200 to the winning team in the first year Moot Court competition.

VOL 1 NO. 11 - NOV. 18, 1970

FACULTY COUNCIL HOLDS 1970 MEETING

A pass-fail plan and undergraduate credit by examination were approved Nov. 12 at the fall meeting of the Faculty Council which approved three other measures set before it, tabled one for rewriting and sent a sixth proposal to committee for consideration and study.

At a brief session, the faculty approved guidelines for faculty compensation for television teaching. This provided for reduced classroom loads for faculty members to residuals for repeated use of TV material, beginning one year after the faculty member resigns or retires.

A report from the Academic Status Committee regarding retired personnel received unanimous approval. The report proposed that the Executive Committee of the Faculty Council establish a standing committee responsible for implementing a policy to give retired faculty as full a status as is legally permissible and practical, with participation in departmental and college affairs upon invitation.

Also passed was a resolution that honorary degrees be conferred by the university upon the majority vote recommendation of a board to include

three administrators appointed by the President, three faculty members elected by the Faculty Council and three students appointed by the president of the Student Association, with the advice and consent of the Student Senate. Nominations could be made to the board by faculty, administrators, students, alumni and members of the Board of Regents. The proposed board would forward its recommendations to the Board of Regents which awards all degrees.

The proposed pass-fail plan would allow undergraduates to take a maximum of 24 semester hours graded on a pass-fail basis. Credit earned under the pass-fail system would count toward the total hours required for graduation. The student's grade point average would be

based on letter grades only.

In granting credit by examination, entering freshmen could be given credit by special examination in all courses where proficiency might be practicably determined by examination. Proficiency would be demonstrated through CEEB Advanced Placement and Achievement Examinations. Pass or fail grades would be given, and the courses would not be considered in determining grade point averages. A previously matriculated student could attempt examinations on courses in which he thinks he has acquired basic knowledge. Departments responsible for the courses would administer comprehensive examinations to determine whether credit could be given.

Tabled for rewriting of one paragraph was a report of the *ad hoc* committee on the rights and responsibilities of faculty members with regard to holding classes. A question of misinterpretation was raised relating to the phrase "functions sanctioned by the university, college or department." Authors of the resolution held that this meant functions which would be of sufficient benefit to a class to make attendance there important enough to dismiss the class — which would be made up at the students' convenience.

Referred to the Faculty Council Executive Committee for consideration and study was a resolution to permit faculty to enroll for course work and pursue advanced degrees at Texas Tech.

DEADLINE EXTENDED FOR TENURE REQUESTS

The deadline for faculty to notify the Office of the Vice President for Academic Affairs of a choice to be considered for tenure under the amended Tenure Policy has been extended to Dec. 1, 1970.

All faculty hired prior to Oct. 1, 1969, and for whom the decision as to tenure has not yet been made, are automatically under the tenure policy under which they were hired unless written notification is received by Academic Vice President S. M. Kennedy by Dec. 1. This letter should be sent through departmental and college channels, notifying the recipient that the case should fall under the amended Tenure Policy.

INTERNATIONAL CENTER OFFERS NEW SERVICE

A Research Editorial Service open to all research workers at Texas Tech University now is in operation at the International Center for Arid and Semi-Arid Land Studies which has offices in the old museum building.

"With the aid of new IBM equipment," International Center Director Frank B. Conselman said, "we hope to speed the preparation of camera ready material."

Dr. Conselman said all material will be reviewed by competent editors selected by the International Center with the cooperation of the Office of University Bulletins and the Department of English.

Manuscripts should be prepared in as nearly final a form as possible to minimize the amount of necessary editorial attention, he said. Authors will be asked to proofread all papers before publication.

"This service," Dr. Conselman said, "is not only for persons preparing ICASALS reports but also is available to any Texas Tech research worker who wants to use it."

UNITED FUND CAMPUS REPORT

From the Texas Tech campus community, the Lubbock United Fund received \$19,836.89 which is 98.2 per cent of the goal of \$20,200. Within the city, the goal was \$776,879.82 and a total of \$777,457.83 was given. Campus co-chairmen for the fund drive were Assistant Vice President for Administrative Affairs Fred J. Wehmeyer and Economics Prof. John Wittman Jr.

NEW LUBBOCK STORM PUBLICATIONS

The Department of Civil Engineering has announced publication of its first storm research report — relating to the structural response of the Great Plains Life Building to the Lubbock tornado, and a National Academy of Sciences (NAS) report on the May 11 disaster.

Both publications are intended to be of use in the evaluation of studies and rehabilitation projects now underway or projected in Lubbock, and in more general investigations of the adequacy of current building practices under extreme weather conditions.

The "Structural Response of a Twenty-Story Building to the Lubbock Tornado" is the work of Dr. James R. McDonald whose research was sponsored by the American Institute of Steel Construction. "Additional work is contemplated," he said, "as the building frame is straightened and as repair and restoration work is carried out."

The National Academy of Sciences volume, published for the National Academy of Engineering, has more than 60 photographs — chosen from over 2,000 used in the study — and 14 maps, illustrating particular factors in the tornado research. According to the report

the tornado damaged or destroyed 9,916 residential units, 600 commercial units, 100 mobile trailers, 220 metal light poles and 500 business signs on poles — all within 30 minutes or less.

This report was prepared by Chairman Ernst W. Kiesling of the Department of Civil Engineering, Texas Tech Profs. Kishor C. Mehta and John Wittman Jr., Research Coordinator Joseph E. Minor and, from other universities: J. Niels Thompson, director of the Balcones Research Center, and Chairman Franklin B. Johnson of the Architectural Engineering Department, both of the University of Texas; Prof. J. L. Goldman, associate director of research for the University of St. Thomas Institute for Storm Research; and Dr. G. W. Reynolds, meteorologist, Utah State University.

A limited number of Dr. McDonald's report are available for research purposes. Copies of the NAS report may be obtained from the Clearinghouse for Federal Scientific and Technical Information, U.S. Department of Commerce, Springfield, Va. 22151. The cost is \$3 for a paper copy and 65 cents for microfiche.

SCRANTON REPORT NOW AVAILABLE

The Scranton Report on Campus Unrest is now available for use in the Documents Room of the Texas Tech Library (Call number: Pr 37.8:C15/R29). Ask for it at the documents desk. Additional copies have been ordered.

MATHEMATICS EXHIBIT REFLECTS HISTORY

A foyer exhibit by the Department of Mathematics in the Foreign Language and Mathematics Building displays 25 volumes published by present and former members of the department, dating back to 1935 and up to 1970. *Jaunts into Space* is the oldest book, copyright 1935, by Prof. Emeritus R. S. Underwood. The newest books, all copyright 1970, include: *Empirical Bayes Estimation and Computing in Statistics*, by Profs. Thomas A. Atchison and Harry F. Martz Jr.; *Elements of Differentiable Manifolds*, Prof. John D. Miller; *Probability for Practicing Engineers*, Profs. Henry L. Gray and Patrick L. Odell. *Plane Trigonometry with Tables*, by Prof. E. Richard Heineman, was one of the most used volumes with copyrights for 1941, 1950, 1956 and 1964. Underwood was author or co-author of six volumes.

VOL. 1, NO. 12, DEC. 2, 1970

SPRING REGISTRATION PLAN

Registration paper work for undergraduates with a minimum of 96 hours by Aug. 22, 1970, and for graduate students will be completed by Dec. 12. Other undergraduate students will start registration procedures before leaving for the Christmas holidays.

Registrar D. N. Peterson said course cards will be available in the registrar's office on Dec. 3 and 4 for inspection by department chairmen. It is important, he said, for department heads to come by the office and examine the course cards in order to instruct the registrar's office of any changes which should be made before registration.

The 96-hour undergraduates and graduate students have until noon Saturday, Dec. 5, to pick up from the registrar's office the necessary permits, data verification sheets, form Bs and dean's instructions for the early registration. For these students, registration will begin at 9 a.m. Tuesday, Dec. 8, and continue through noon Saturday, Dec. 12, in the Coronado Room of the University Center. Fees, fixed by computer, will be sent to the comptroller's office where early registrants will pay between Jan. 13 and 19.

All undergraduates with less than 96 hours are asked to pick up registration forms in the Mesa Room of the University Center between Dec. 7 and 11. Students will be asked to complete the data verification sheet and leave it at the registrar's office before leaving the campus for the holidays. Regular registration will begin at 1 p.m. Jan. 13 and continue through Saturday noon, Jan. 16. Fees for these students also will be computer fixed and pay schedules will be announced.

DEPARTMENT OF GOOD NEWS

FYI reported Nov. 18 that Texas Tech had contributed 98.2 per cent of its Lubbock United Fund goal of \$20,200. This week, Assistant Vice President Fred J. Wehmeyer said the university is over the goal with a total of \$20,419.89 in reported campus contributions.

Faculty registration workers are requested for duty from 12:45 p.m. Wednesday, Jan. 13, through noon Saturday, Jan. 16. Faculty should enter through the north door of the Coliseum and should be on duty until sectionizing for the last group of students—admitted at 4:10 p.m. each day—is completed.

A change initiated for the spring semester, 1970, will be in effect in regard to course cards. Only course cards requested by the department heads will be available for student distribution—a number limited by the desired size of the class. Extra cards—limited by room capacity—will be available at the north end of the coliseum. These may be drawn upon as needed, as directed by the department head.

SAVINGS BOND DRIVE

Dr. Harley D. Oberhelman, campus chairman for the 1970 U.S. Savings Bond Drive, has announced that the campaign will wind up this week. Those who wish to sign up for this payroll savings plan may still contact their departmental representative or Dr. Oberhelman (phones 2-1197 or 2-5111, ext. 32) before Friday, Dec. 4.

COMPUTER CENTER OFFERS PHONE SERVICE

Faculty members who personally pick up completed programs at the Computer Center may now telephone to find out if their programs are ready. The telephone number is listed as Job Status—Academic, 2-1200.

Instructors who wish to have course input picked up and computer output delivered at scheduled times may make arrangements for courier service by calling Robert O. Haynes, assistant director, 2-1201.

The job status service by telephone is a convenience restricted to faculty now, but Acting Director Richard Barton of the Computer Center said that plans are underway to extend this service to students.

STUDENT CLUB HAS 'HOT' ITEM FOR SALE

The Dairy Industry Club has a hot item for sale—300 pounds of jalepeno cheese wrapped and ready for the holiday market. The cheese sells in one and two-pound blocks at \$1.25 per pound. The popular item is made annually by the student members of the club as a fund-raising project. It may be purchased in Room 215 of the Agriculture Building. To reserve a sale, call Mrs. Margaret Smith, 2-1109.

AUDIO-VISUAL REPAIR SERVICE INAUGURATED

An Audio-visual Center Repair Service, operated through the Department of Building Maintenance, has been established on campus. Jack Johnston is in charge of the office. The number to call for repair is 2-5225.

Johnston said that unless parts must be ordered, equipment brought in the morning usually is ready by late afternoon. The service is located in Room 212, Central Heating and Cooling Building. Equipment must be delivered to the service shop, and owners will be telephoned when the equipment is ready, Johnston said.

Projectionists also are available for evening programs. They may be hired on an hourly basis to be worked out with departments, Johnston said.

SPEAKERS BUREAU INVITES PARTICIPANTS

The Office of Information Services has asked members of the faculty, administration and staff who wish to participate in the 1971 Speakers Bureau to list speech topics with the office. A brochure will be prepared for distribution to organizations which might require speakers.

The purpose of the Speakers Bureau is to bring the university's resources, services, faculty and staff closer to the people of the Lubbock area. For further information, call David T. (Butch) Seay, deputy director of Information Services, at 2-4136.

INTERDISCIPLINARY COURSE IS NEW GRADUATE OFFERING

A new graduate course, "Current Problems of American Society," will be offered during the spring semester with the cooperation of more than 20 university departments.

Coordinating the program are Electrical Engineering Profs. William M. Portnoy and Marion O. Hagler although the course will not be taught by the Department of Electrical Engineering. It is a part of the Graduate School Evaluation and Improvement Program.

The course will be taught, in part, by 10 to 14 visiting lecturers and through discussion sessions on such topics as business and economics, engineering and technology, health and medicine, law, science, sociology, politics, performing and graphic arts and resources.

Among those who already have agreed to speak are: Dr. Hugh Macaulay, Alumni Professor of Economics, Clemson University; Dr. Bernice Moore, Hogg Foundation of Mental Health; Dr. John

Ide, director of Engineering Programs, National Science Foundation; Richard Jackson, vice president, Gits Brothers Manufacturing Company and lecturer for the Black Consortium on Business, Washington University, St. Louis; Reynell Parkins, associate professor of architecture, University of Texas at Austin, and Dr. Harry S. Lipscomb, director, Xerox Center for Health Care Research.

Two class meetings will involve attending the University Speakers Series lectures by Dr. Paul Ehrlich and Dr. Charles Hamilton. Each graduate department has been invited to enroll one student and one faculty member to conduct a discussion section. Each participating student will be responsible to his own department for course requirements and for grade evaluation.

Others may attend the lectures without enrolling in the course.

SMITHSONIAN INSTITUTION OPPORTUNITIES ANNOUNCED

The Smithsonian Institution has announced fellowships and study opportunities in the humanities for postdoctoral scholars, doctoral candidates and graduate and undergraduate students. Deadline for applications is Jan. 15, and additional information is available from department chairmen. Participation is considered from the areas of history of science and technology, American history, history of art and music and museum studies.

NSF COMPETITION OPENS

The Graduate School has announced that competition is open for one-year, postdoctoral appointments as fellows in the National Science Foundation-sponsored National Center for Atmospheric Research at Boulder, Colo. Participants will be chosen from the fields of applied mathematics, physics and chemistry.

VOL. 1, No. 13, Dec. 16, 1970

KAFKA SYMPOSIUM SET FOR JANUARY

"Franz Kafka, His Place in World Literature" is the topic selected for the 1971 Comparative Literature Symposium, Jan. 28-29, at Texas Tech. The symposium this season will be combined with the sixth annual Symposium of the Department of English.

Sponsors are the Interdepartmental Committee on Comparative Literature and the departments of Classical and Romance Languages, English, and German and Slavonic languages. Cooperating also are the departments of Art, Music, and Speech and Theater Arts and The Museum of Texas Tech University.

The Museum will display the International Franz Kafka Exhibit Jan. 7-31. This is sponsored by the Akademie der Künste, Berlin, and arranged by the Goethe Institut, Munich, in cooperation with the Leo Baeck Institute, New York.

Texas Tech faculty participants will include Profs. Mary Louise Brewer, John Bodoh, Andrew S. Cairncross, Peder G. Christiansen, Alonso Alegria, David Rodnick, Alfred Cismaru, Robert G. Collmer, James W. Culp, Patricia Gillis, Charles S. Hardwick, Patricia M. Hopkins and Ruth Levinsky. Prof. W. T. Zyla is chairman of the event.

In addition to Tech faculty, guest speakers will include Dr. Maja J. Goth, chairman, Department of German, Wellesley College; Dr. Edith Kern, professor of French and comparative literature, University of Washington; Dr. Peter Heller, chairman, Department of German and Slavic, State University of New York, Buffalo; Dr. Roman S. Struc, head, Department of Germanic and Slavic Studies, University of Calgary; Dr. Peter E. Bondanella, professor of Italian, Wayne State University; Dr. Cyrena N. Pondrom, professor of English, University of Wisconsin, and assistant editor of *Contemporary Literature*.

Mrs. Gertrude Urzidil, widow of Prof. Johannes Urzidil, prize-winning author and authority on Kafka, will speak on her recollections of the German author who at one time was a neighbor.

MUSEUM CHRISTMAS SCHEDULE ANNOUNCED

The Museum of Texas Tech University will observe a holiday schedule from Dec. 24 through Jan. 4. In addition to the regular Monday closings -- effective Dec. 28 and Jan. 4, The Museum will be closed Christmas Day, Dec. 25, and New Year's Day, Jan. 1. On Dec. 24, The Museum will be open from 10 a.m. until noon. It will be open from 1 to 5 p.m. Dec. 26 and 27 and on Jan. 2 and 3. The Museum will be open from 10 a.m. to 5 p.m. Dec. 29, 30 and 31.

INSURANCE REMINDER

Remember last summer when your daughter fell off the swing at day camp and broke her leg? You were going to file your medical insurance claim with the Personnel Office "the next day." Months later, you still had not done this, and your spouse stopped talking to you, and your doctor threatened to sue.

Remember, too, that 1970 is coming rapidly to a close. Now is "the next day." The Personnel Office asks that you please file that claim. Among other good results, you'll feel better.

For information or help, stop by Personnel, Administration Building, west wing basement, or call 2-4101.

INSURANCE PARTICIPATION

The Personnel Office has mailed 272 group permanent life insurance policies to Texas Tech employees who converted \$1,794,000 worth of group term life during the recent enrollment period. This brings to 1,659 the number participating in the university's group life insurance program.

Additional participation in the long-term disability program has increased, with 793 employees now covered by the salary continuation program.

Enrollment in the group medical program is 1,761. The university contributes \$3.50 each month toward the employee's premium for medical coverage through this program.

"BOOKING" OFFICE IS ESTABLISHED

A central office to book and schedule dates for major cultural events at Texas Tech has been established in the University Center. Associate Vice President Owen L. Caskey, who made the announcement, said the office will not make selections for programs.

Music Prof. Charles W. Post is manager of the new office adjacent to the news stand in the University Center. His time will be divided between teaching assignments and the new administrative responsibility.

Post said the office will function in the areas of negotiation, scheduling and information.

The University Artists Series and the Speakers Series will continue to work with a joint advisory committee. The new office will present these programs, however. University Center major events funded by University Center fees will continue to present programs chosen by committees named for this purpose. Post's office will handle the business negotiations for all programs and will correlate dates to reduce conflicts in bookings and demands on university facilities.

"Coordination of this calendar will be a primary function of the office," Post said, "and by eliminating conflicts it should, among other things, help attendance at major events."

His office will assist any campus group in correlating dates to reduce competition for audience attendance and to balance demands on facilities. The campus calendar of events, Post said, will take into account community and commercially sponsored events.

CHINESE OFFERED

Chinese 131, although not listed in the Class Schedule, will be offered in the 1971 spring semester. Mrs. Jean Koh will teach the course at 10:30 a.m. MWF with a drill class on Tuesday at an hour to be announced. Mrs. Koh also teaches Chinese 132. The course is offered in the Department of German and Slavonic Languages.

TECH LIBRARY CHRISTMAS SCHEDULE

The Tech Library schedule for the Christmas holidays includes these hours: Sunday, Dec. 20 - 2 p.m. to midnight; Monday, Dec. 21 - 7:20 a.m. to 5 p.m.; Tuesday and Wednesday, Dec. 22-23 - 8 a.m. to 5 p.m.; Thursday, Dec. 24 through Sunday, Jan. 3 - closed; Monday through Friday, Jan. 4-8 - 8 a.m. to 5 p.m.; Saturday, Jan. 9 - 8 a.m. to noon; Sunday, Jan. 10 - closed; Monday through Friday, Jan. 11-15 - 8 a.m. to 5 p.m.; Saturday, Jan. 16 - 8 a.m. to noon; Sunday, Jan. 17 - 2 p.m. to midnight; Monday, Jan. 18, when classes resume - 7:20 a.m. to midnight.

IBM REPRESENTATIVE

Kerry King has been assigned as marketing representative at Texas Tech for IBM's Data Processing Division, according to Dr. Richard F. Barton, director of the Office of Planning and Analyses.

King, through IBM, has been associated with the university since 1965. Barton said that inquiries about computer service or information supplied by IBM may be directed either to the Computer Center or to King at IBM.

LIBRARY ANNOUNCES NEWS BANK SERVICE

Texas Tech Librarian Ray C. Janeway has announced that the library now has in operation a "News Bank" which reproduces in microform published reports of planning or action on the part of state and local governments in the area of environmental quality.

This "current awareness" service should keep one informed of what is happening in the fields of air, water, noise or other pollution problems or in any field relating to the condition of the environment, Janeway said.

The News Bank is located in the Microform Center on the third floor of the Library. It is kept up to date on a regular basis.

SAVINGS BOND SALES REPORT

At the close of the U.S. Savings Bond Campaign in November at Texas Tech, 158 new savers had been added to the payroll savings plan. The campus committee in charge of the 1970 campaign included Dr. Harley D. Oberhelman, chairman; Dr. Louise Luchsinger, Col. Haynes Baumgardner and Larry Templeton.

MAKE IT A GOOD TRIP

Last year 56,500 people were killed and 4,700,000 injured accidentally. In Texas 3,075 were killed either operating or riding in a motor vehicle, and there were 476 pedestrian deaths. So, if you feel like a fugitive from the law of averages, keep it that way.

Texas' "Drive Friendly" campaign suggests six ways to separate yourself from the statistics: 1) be courteous, sensible and responsible; 2) obey traffic laws; 3) be generous with the right of way - giving it up beats dying for it; 4) respect officers who patrol streets and highways for everybody's benefit; 5) keep your vehicle in good operating condition; 6) if you've been drinking, using drugs or are ill, let somebody else drive.

You could save your life and others and reduce the \$1 billion lost through traffic accidents in Texas alone last year.

These reminders come from Assistant Vice President Fred Wehmeyer and Chief Security Officer B. G. Daniels who brought them from the second annual Governor's Public Support Conference on Traffic Safety Nov. 24 in Austin.

MERRY CHRISTMAS!

CALENDAR

DEC. 19 Basketball - Southern Illinois University at Lubbock, 8 p.m.
DEC. 21 Final examinations end
DEC. 22 Fall Semester ends
Residence halls close, 10 a.m.
Joint Armed Forces Commissioning Ceremony, University Center, 9:15 a.m.
Offices close for Christmas recess, 5 p.m.
