THREE FLUTED TOWERS AROUND DOME  
OF FEDERAL BUILDING  
CHICAGO WORLD'S FAIR

These three fluted towers 150 feet high around  
the dome of the Federal Building represent the  
three branches of government—administrative,  
legislative and executive. The towers are illumin-  
ated at night.

Have certainly been on  
the go post week. Are  
some grand sights here.  
Have had two storms

The Castañeda at Las Vegas is a long low building, two stories high, faced with brick, roofed with red tiles and patterned after the Old California Missions. It is named after Pedro de Castañeda, who was the principal historian of Coronado's expedition into the Southwest in 1540. Las Vegas is the second city in New Mexico in size and commercial importance. Altitude 3,099 feet—population about 5,000.

# LOOPING THE LOOP

In the construction of railways in mountainous regions, engineers are occasionally confronted with the serious problem of overcoming unusual elevations within very restricted boundaries. The "loop" usually occurs in solution. This loop is of surpassing interest, since its construction is of corresponding difficulty. The location is virtually upon the very summit of the Continental Divide. There are other "loops" on other lines but none like this.

GATEWAY OF GARDEN OF GODS

The Garden of the Gods is one of the strangest most wonderful rock formations in the Rocky Mountains. Its reputation has spread 'round the world, and thousands marvel at its massive grandeur every year. The picture shows the Gateway. Hundreds of stone formations within the Garden assume as many varieties of eccentric sculpture. The stone is of a beautiful red tint, weathered into many fantastic forms, which are the wonder of nature lovers. The magnitude of these rock ruins is the first thing to impress the dweller of the plains.

TESUQUE is located on the left bank of the Tesuque River, a few miles north of Santa Fe and numbers about one hundred inhabitants. The town is quadrangular in shape, about 240 feet long and 150 feet wide. The houses rise to a height of two stories, entrance to the second floor being by means of a ladder from the street. The women still prepare their meals on the primitive metates, there being in many houses three or four compartment meal bins, where corn is ground between two stones. Their pottery comprises little images, Rain Gods, and curious animal forms.

PREHISTORIC PUEBLO IN FRIJOLES CANYON,  
NEW MEXICO.

Situated on the floor of the Canyon del Rito de los Frijoles, about thirty-five miles from Santa Fe, New Mexico, and at the foot of the cliffs in which thousands of cave dwellings are found, it would appear that this prehistoric pueblo, was one of the first efforts of these ancient people to build houses away from the cliffs and is a link in the chain of evidence which proves that pueblo Indians of today are descendants of the ancient cliff dwellers.

THE RUINS OF PUYE, A GREAT PREHISTORIC CLIFF  
DWELLING CITY IN PAJARITO PARK, NEW MEXICO.

Near the Pueblo of Santa Clara, New Mexico. Here are  
monuments of a race of long ago. Shaped like swallow  
nests, these mysterious dwellings have marked the faces of  
the canyon walls for hundreds of years in Northern New  
Mexico and in Arizona. The tradition is that the Pueblo Indians  
were being driven inch by inch from the north by a fierce foe.  
Upon reaching the plateau of New Mexico they built permanent  
fortress homes. With the coming of the Spaniards in 1540,  
these cliff dwellings were even then subjects of traditions  
centuries old.

THE UNITED STATES CAPITOL,  
WASHINGTON, D. C.

The U. S. Capitol at Washington, D. C., was begun in 1793, the cornerstone of which was laid by George Washington. The central building was finished in 1800, one wing in 1817 and was burned by the British in 1814. It ranks today among the noblest architectural objects in the world, its crowning glory being the Statue of Freedom which crowns the dome 307 feet above the esplanade. At one end is the U. S. Senate, at the other the U. S. House of Representatives, the combined edifice of whose members represent the greatest governmental undertaking in the world. It is 751 feet in length and 350 feet in width and covers an area of three and one-half acres. On its east central portico the oath of office is administered to each succeeding President by the Chief Justice of the U. S. Supreme Court before a multitude of spectators.

HALL OF FAME -- NEW YORK CITY

THE HALL OF FAME FOR GREAT AMERICANS, University Heights, New York City, erected by the gift of \$250,000 from Mrs. F. J. Shepard (Helen Gould) to the Council of New York University, in 1900, and a panel of 150 in the great colonade is to be inscribed with the name of a famous American; 50 at the beginning, and 5 to be added every 5 years, until the year 2000, when the 150 inscriptions will be completed. Only those dead 25 years or more may be selected for the honor. The public may freely nominate. The 100 electors selected by the University Senate determine. Sixty-five men and women, great Americans, have already been chosen.

My Dear Julia.

Your letter received this A.M.  
I hope the dress will fit. am  
sorry you could not get one for  
yourself.

I do not know if you can get  
any sense out of this letter. Annie  
& Anne Duggan are here. Anne  
is playing with the children  
and the Victrola is playing.  
So much noise I cannot think.  
Annie & Anne have been in S. A.  
a week. they came out to see us  
but we were not at home.  
we went to S. S. church yester-  
day. then went to Los Angeles Sat.  
then and went to Pasadena. it  
is a beautiful place. Auty would  
have it & come home with us.  
Anne is a lovely girl. they will go  
to Berkley this week. Anne will  
attend school. I think the trip  
will benefit Anne.

Joe Clark + family, Clayton + Harris Walters and wives, Bessie Walters, Ella + Hector and our family are going to the Beach to suite and have a picnic. Annie + I will go with us.

Thursday evening we had an enjoyable visit with Shelby Walker + family.

Friday evening we went to Joe Clark's. Clayton + wife were there. we had a very enjoyable time. Joe is so nervous. he tries so hard to resist whisky. Harry Bell is a very attractive woman. she is expecting the Steink next month. Joe Dr is 5 years old is smart + spoiled. Bessie is a girl you have to love. she is so friendly. she teaches expression. she is delighted with Long Beach. her father + mother are coming next month.

Mrs. Peiska is in Calif not very far from Long Beach. I hope to see her soon. These San Saba folks seems to think lots of duty. he is the life of a crowd. he tries so hard not to worry over his condition. Auty + Bettie ask the blessing at meals. Bettie says I say your blessing little messer. she calls me grandmother most of the time. Auty Dr. ask her where her sweet heart. she points to me. I made her a hunch case last week. she is very proud of it.

I received a letter from Pitts last week. she said Victoria came to Houston to see Bess graduate. she stayed with Pitts. the Malone family are up next. the largest cotton firm in Houston. "Anderson + Clayton" phoned

out to Rice to recommend a boy to them  
so they selected Bess. There were 200 appli-  
cants for the place. They took Bess. Pitts  
said it was a splendid position. He  
does not have to begin work until the 1st  
of July. He went home with his mother  
to spend his vacation. Victoria visited  
Abbie. A was very ill while her mother was  
there. Malone wrote me. Sonnie would  
get to Austin that day. He had gotten  
him a good position thru the summer  
he will attend school in Austin. Malone  
was to leave the next day for Chicago.  
Annie says Helen is very fond of Malone  
has him for dinner often.  
They have quit playing. Anne is teaching  
Florence to play Mahjong. Annie has a  
nice set.  
George Anderson's wife and children  
are in Long Beach for the summer.  
Aunt & I went to see her, but she was not at

home. <sup>that "Good Mornin'" and "Evenin'"</sup>  
Grine came to see us last  
week and we were not at  
home. She said she was  
coming back this week  
and spend the night.  
Tell Gaida if she comes to  
Long Beach go to Auty's  
office. "Walker & Walter" Auty  
will tell her how to get out  
here. Auty says he would like  
to see her. of course I want to  
see her.

The climate is delightful  
here. The snowings and  
nites are cold.

I suppose you have received  
my last letter by now. please  
send me Mrs. Parker's address  
I want you not to send  
any more little stories. the  
children had rather play

than listen to stories, many  
thanks to you for sending  
them.

I am surprised that R. &  
and Tab have not been to  
see you. They have not writ-  
ten to me.

I got a nice hand bag the  
other day for 4.95 it is a  
dark gray.

Annie is doing well demonstrating  
coffee gets 25.00 a week and her  
expenses. She was in Seguin.  
Pitts wrote me.

I can hardly wait to see my  
dress. I guess it will be here  
tomorrow.

I am anxious to know how  
C. G. & Ed are getting along.

I believe this country has more  
idle men than Ball's.

Best love to you and all the  
folks. Annie & Anne send love  
Sincerely Mamma.

Monday after  
noon.

Dear Julia  
I mailed a letter to you  
this morning the dress  
came this afternoon  
it fits me nicely. too large  
of course. it will be a  
serviceable dress. I am  
glad you got it for me.  
Wish you could have gotten  
one for your self.  
Annie, Anne + Florence all  
like the dress.

I hope you will not stay  
alone while Faida is gone.  
I am sending you a check  
for the dress. Lots of love from  
over Mamma

Maam, ever see Gladys &  
Annie the baby. I am. Hur-  
gry to see the little dear.  
Dad & stay at home alone.

Tuesday they have all  
gone bathing except  
Annie & me.

Just as we were ready  
to leave for the picnic  
one last evening.

Mr & Mrs Best. their  
married daughter  
& husband & the two

little boys drove up  
but we all went to  
the picnic and had

A good time. The

Annie & Ann will go  
to Los Angeles this A. M.  
Mrs. has no use for

May 11, 1930.

Dear Mrs. Hart--

I'm always bad about writing, but I think this is my worst offense. You've been on my mind and conscience ever since I got back--and received your lovely letter, but not until now am I "doing anything" about it.

Believe it or not, as Mr. Ripley would say, it was the poem that got me started on this procrastination. I kept thinking I would write when I had something to tell you about that-- and it looked as if I would never have anything!

Soon after I got back to New York-- from Texas-- I started in to find the Secretary of the Gold Star Organization whose address you gave me. After phoning around and making a long subway trip, I found that she had moved, and the organization had disbanded!

The Secretary told me, however, that there were other Gold Star organizations hereabouts, so I began trying to run them down. By dint of phoning some newspaper offices and getting hold of the World Almanac, I found that there was a large one in the Bronx, but could not learn any of the officers names.

You would have laughed to have seen me following out these clues.

My next step was to wait and watch the newspapers-- to see if I could get the name of a Bronx officer. One day I saw a mention of Mrs. A. Johnson, as President of the Bronx order. So I wrote a letter (couldn't find her address in any directory) to Mrs. A. Johnson, President Bronx Gold Star Mothers, New York. After a few weeks had passed, a letter came from her. She said it had "traveled some." She wanted the poem, and said they would have it read at their next meeting. I sent it to her, and told her if she saw a way to make any wider use of it, to do so and let me know. Haven't heard from her yet.

It all looked so simple in the beginning, and grew so complicated as time passed! It seems that there is no centralized agency to work through now. Each chapter apparently makes its own arrangements about the trip overseas, etc.

Of course, I should have written you about it-- but it was so easy to put it off until, as I say, there was something to tell.

I also had a letter from your friend at the Sheldon, but have not yet looked her up. I had to hunt an apartment-- get moved and settled, etc. and have had my hands full at the office. What a difference there is between the strenuous life here and the placid one you can live there!

Just this week, things have been whirling about me a little more than usual. I think I told you about my friend Jeanette, who has been holding "Charm Schools" over the country for about three years. Well, she hove in sight this week. Had a school in Patterson, New Jersey, which is within commuting distance of N. Y. I've spent as much time with her as possible, taken her to the theatre, etc. It had been six years since we'd met. I saw her mother and little five-year old son while I was in Ft. Worth.

You were so sweet to mention the "Making the Grade in Gotham" series in connection with me. I feel that there is so far to go, I have scarcely begun to "make the grade". But if you really mean that you'd like to have something about me, I have some clippings which I'll look up and send along. As I say, I feel awfully shy about this "success" business, because there is <sup>so</sup> great and ominous uncertainty always connected with business. And the bigger the business, the greater the uncertainty-- it seems.

I sent Ilee a telegram today. She has been a second Mother to me, and I always do some little thing for Mother's Day. She wanted a pearl necklace, so I sent her a very pretty one of three short strands.

Lucille sent me a newspaper recently, practically all of which was devoted to the opening of Burl's new store (that's the boy friend, you know.) Apparently, it was the event of the season. Of course it was the opening of the whole new building that made it such big news.

We are having some real spring, now. A few days have been heat record breakers for this time of year. Fraid it augurs bad for summer. I imagine you've had spring there so long it's an old story. It's probably like the middle of summer in Corpus Christi.

I haven't made any definite vacation plans yet. Usually try to make some kind of trip. Went to Bermuda one summer. One of my most pleasant trips was two years ago when I went to Cape Cod. The place is as quaint and different as another civilization. The Pilgrims landed there, you know, before they made their permanent landing at Plymouthrock. If you are ever in this part of the world, you'd enjoy the oldness and mellowness of it all as much as I did.

Can't you make it, sometime? Ilee declared that she and Sam were coming. When, of course, is the big question. But maybe you could come too? It really would be a great trip-- and we'd have a chance to talk a little psychology between hops!

I'll never forget my pleasant stay there, and how much I enjoyed our conversations. Wish we might be near enough to have them often. Most people have interests so divergent from that, that it's a treat to meet a kindred spirit.

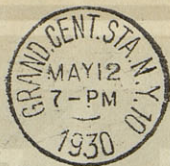

Am going to say goodnight to my new-and-old friend in one, for that is what you mean to me. Do forgive me for my long silence. The heart was right every minute of the time!

Much love and all good wishes,

Beatrice -

Dear Mrs Hart,

I am writing this  
to see if you can give me  
the address of Mr Malone  
Duggan. I knew him  
when he was taking his  
Medical degree in St. Louis  
Mo. but have lost track of  
him. I secured your address  
from Mr Smith P.O. Master of  
San Saba Tex he told me  
you was his sister.

Most Sincerely  
C. L. David

P.S

I and My Family  
thought a great deal  
of Malone, and I  
have written him  
Several times at  
San Saba Tex but got  
No reply. C.B.

Dear Mrs Hart

Yours of the  
5<sup>th</sup> Inst- duly rec'd and  
was awfully sorry to hear  
of the passing of your dear <sup>Brother</sup>  
yes he was a wonderful  
Man. But he was more  
wonderful as a boy. For  
of the Hundreds of <sup>men</sup> young  
that I have met in my  
life none of them have  
quite measured up with your  
Brother Malone in refinement.  
was always quiet and reserved.  
Never a rough thing about him.  
Very much unlike myself and

2nd the average boy,  
of course I have reformed  
quite a bit. I lived a year  
in Port Arthur Tex. and  
have visited in Dallas and  
Oak Cliff - I was in San-  
Antonio Tex just before the  
War But I had no  
idea that Dr Duggan was  
living there. I lived six  
years in Colo Springs and  
have met Senator Johnson.  
I am a native of Ills -  
and have often been in  
Danville, that is before the  
Dr went there to live.

My wife and I have been  
living in Calif for 20 years  
and like it fine, retiring  
from business a few yrs ago.

Mrs Hart if you ever  
get in Calif- please  
look us up, and if  
we get down in your  
part of the Country we  
will certainly call on  
you. We have old friends  
in Beaumont Tex.

The words you wrote Mr Len the  
veil is lifted is very pretty.  
and with the full assurance  
of life everlasting, soon we shall  
meet again. The loss of earthly  
hopes and pleasures has  
brightened the ascending path  
of many a heart. Sincerely  
C. L. Baird

P.S. Mrs Hart your Brother  
had a room mate and a  
Class mate in St Louis  
by the name of Ruff,  
Do you know anything  
Concerning him?

Sunday Afternoon

Dear Sister:

If you had been here yesterday you would never again feel that your efforts in life had been a failure.

Bro. Griswold was called on to speak and he paid Vernon the most beautiful tribute that was ever paid any one. One of the many things that he said was that a sweetest, nobler boy never lived. He seemed to be so proud of the fact that he had made good as an officer and ~~that~~. I felt that every one there felt just like he did.

The programme was not made out before we got there. Different ones got up and said what they pleased. It was the most satisfying day that I have had in all my life, it seems.

I will send you the clipping so you will know who were there. Miss Charles wrote a grand message.

I sat next to Ark Coffman. His little boy and Tom spent the day together going to the show and getting their hamburgers etc. Ark has the sweetest wife and both children are beautiful.

Celile and Dr. Strother each wrote to me. Bones Wyatt and Jim Bushy were there. I will tell you more about it when I see you.

We will meet next year in Stamford, I think.

Sarah English and Raymond Austin are going together now and were here.

Both Thompson boys came from Dallas and are fine looking and are, I am sure, fine men. Their wives are friendly and seemed to have a grand time.

Blanche wrote that she couldn't come, as did Mawune. They should be there next year. One girl Alma Brunson, came from Midland just to see Mawune. There were 106 here.

Ross moved from Little Rock Ark. That  
he would be in tonight.

The children have been fine.  
I have all the curtains clean and  
the yard all clean awaiting your  
arrival.

Tell Ed that every one asked  
about him and said for him to show  
up next year.

We have heard from Ross four  
different times, which is grand  
for him. I am sure that he  
has had a grand trip.

Not being settled down enough  
to write a real letter I will  
close for this time.

Bushels of Love -

Tada.
