Dear Sirs :-

Find herewith folios 1 to 12, inclusive, which constitute report of detailed audit of the books of your Company for the fiscal year ending November 30th, 1914.

PRELIMINARY TRIAL BALANCE, on folio 1 to 3 shows the status of all accounts on November 30th, before taking Inventory and Profit & Loss into consideration,. Administration or Dallas Office Expenses are listed on folio 1. The item Sherwin-Williams Co \$140.00, is a debit for amount paid them for drums, which will be refunded when the drums have been returned.

FARM TRIAL BALANCE appears on folio 2.

RANCH TRIAL BALANCE " " 3.

FARM INVENTORY as furnished by foreman is shown on folio 4. Prices are almost identical with those of a year ago; the differences are slight reductions.

RANCH INVENTORY is listed on folio 5. Prices carried during past four years have been increased by authority of the members of your Board. Cows have been changed from 20.00 to 30.00; Steers from 30.00 to 35.00; and Calves from 10.00 to 15.00. These amended prices are believed to be as conservative today as the lower prices were four years ago.

FARM PROFIT & LOSS is shown on folio 6. The expense account, with the exception of Taxes, is less than last year. The loss is due to decrease in amount of Hay for sale. Depreciations were written off as usual.

RANCH PROFIT & LOSS appears on folio 7. Depreciations are handled same as preceeding years, excepting "Labor" and "Dipping", expenses compare favorably with last year.

PROFIT & LOSS summarized is given on folio 8.

ASSETS & LIABILITIES after closing revenue and expense accounts appear on folio 9. Reserve for Taxes is amount estimated for Farm.

BANK RECONCILEMENT appears on folio 10.

NOTES RECEIVABLE are listed on folio 11. Only one is past due.

UNSIGNED LABOR VOUCHERS are listed on folio 12. ACCOUNTING shows usual neatness and accuracy.

Respectfully submitted, HUTCHINSON & SI

# ANNUAL REPORT OF THE BOARD OF DIRECTORS OF THE C. C. SLAUGHTER CATTLE COMPANY FOR

Ninetyen Hundred and Twelve.

To the Chairman and Stock Holders of the C. C. Slaughter Cattle Company:

We, ther board of directors, beg to submit our annual report for the fiscal year ending December 1st, 1912, as follows:

At the beginning of our term of office upon the election of officers, R. L. Slaughter was elected President, C. C. Slaughter Jr., Secretary, E. Dick Slaughter, Treasurer and Geo. M. Slaughter, General Manager. The Secretary was employed at a salary of \$100 per month and the General Manager at a salary of \$300 per month and all necessary expenses in conducting the affairs of the Company. We thought it best to have an office in Dallas for the exclusive conduct of our business and we therefore rented room 614 in the Slaughter Building and established the head office of the Company in said office, where all papers of the Company are kept on file f for the inspection of the stock holders during office hours at any t ime and where any stock holder may obtain any information from the Secretary concerning any detail of the Company's business. All meetings of the Board of Directors are held in this office and all stock holders are cordially invited to attend any meeting of the directors and the directors will be glad to have the advice of any stock holder either in writing or verbally, and will take pleasure in considering any advice or suggestion of any stock holder who may see fit to offer same.

The detailed system of transacting the Company's business which was recommended by the Board of Directors at the last annual meeting of the stock holders was adopted and put into effect on April

1st of this year. In brief, this system provides that all official acts of the officers or employes of the Company shall be reduced to writing and signed in duplicate and consists of a complete system of reports on the condition of the Company's business at stated intervals and results in the checking of every order for the expenditure of money. Under this system not a single dollar can be paid out by the Company except upon a written order or voucher signed in duplicate and approved by the proper employe or officer of the Company. No check can be drawn against the Company by any one expept the Secretary and his check is invalid unless countersigned by another director. The Secretary is held rigidly responsible for every check which he may draw and unless he can show proper wuchers or authority for the issuance of such check he and the directors which countersigned the check are to be held responsible to re-imburse the Company for the amount of the check. Except under extraordinary circumstances no contract binding the Company is valid and no supplies can be ordered or person employed, or bill paid, or contract entered into except upon the proper blanks sign ed in duplicate by the proper employe and approved by the officers of the Company. In addition, the carrying out of the system furnishes the Board of Directors with the most complete and detailed knowledge of everything that is happening upon the properties of the Company, as the foremen on the ranch and farm, as well as the general Manager are required to make weekly reports of the exact condition of affairs, including all happenings or events that might be of importance or interest to the Board of Directors. In order to carry out the system and to make it more effective we employed a store keeper at the ranch and farm in the persons of the wives of the foremen, each of whom we pay \$10.00 per month in order that all the details of the system may be carried out. wisdom of this has been shown in that the reports in our office are more complete and elaborate than usual and your Board of Directors has the advantage of more thorough knowledge in regard to the Company's business and what is going on upon its properties than is
