VOL. 3, NO. 1, JUNE 7, 1972

COORDINATING BOARD ASKS \$83 MILLION INCREASE FOR 1974

The Coordinating Board, Texas College and University System, said in a recent *CB Report* that it has recommended formulas calling for an increase, over 1971 appropriations, of approximately \$83 million for Fiscal 1974 to finance higher education in Texas.

Vetoed appropriations for Fiscal 1973, with some minor exceptions, were the same as Fiscal 1972.

To fund functions covered by board-approved formulas, the *Report* said, the Texas Legislature appropriated \$254.4 million for Fiscal 1972. Approximately \$337 million would be required for Fiscal 1974 to fully fund the board's recommended formulas.

Formulas recommended by the Coordinating Board for Fiscal Years 1974 and 1975 call for:

- * Faculty salary increases
- * Increased appropriations to libraries
- * Revisions in the formula for General Administration and Student Services
- * Changing the base of the Public Junior College Formula from the number of full-time student equivalents to the actual cost per contact hour by program area
- * Inclusion of a 3.5 per cent increase to offset the effect of inflation in all formula areas
- * Addition of three new formula areas -- Instructional Administration, Faculty Development Leaves, and Faculty and Staff Group Insurance.

The board applied a 3.5 per cent factor to each formula area to account for an annual rate of inflation through 1975. Economic consultants, the *Report* said, estimated that the annual rate of inflation cannot be expected to fall below that percentage through 1975 and "public institutions of higher education should not be forced to operate below an adequate level of funding because of inflation."

The *Report* explained that formulas do not provide funds for all of the educational and general functions performed by public institutions of higher education in Texas, but they do cover about 85 per cent of the appropriations to colleges and universities.

The board has adopted formulas in 10 different areas. In addition to the three new formulas adopted for the 1973-75 biennium, there are formulas in General Administration and Student Services, Faculty Salaries, Departmental Operating Expense, Library, Organized Research, Building Maintenance, and Custodial Services.

Formulas recommended by the board for the 1973-75 biennium are printed in their entirety in the March-April 1972 *CB Report*.

GOOD SEATS OPEN FOR COACHES' ALL-AMERICA GAME

There still is a good selection of seats open in the east stands for the Coaches All-America Football Game to be played in Jones Stadium June 24. Space on the 10-yard line on the west side also is open.

The \$4 tickets for faculty and staff still are available, according to Athletic Ticket Manager Ruth Sturtz.

Player rosters are complete for the game which, officials hope, will draw another record crowd this year. Attendance was 43,320 in 1971.

The game is sponsored by the American Football Coaches Association in conjunction with the Lubbock Chamber of Commerce and the 63 Lions Clubs in District Two-T-2 of Lions International.

FITNESS PROGRAM HOURS

For the summer only the hour for the men's physical fitness program has been changed to 12 noon to 1 p.m. on Monday, Wednesday and Friday. Director of the program, Dr. A. Eugene Coleman, said organized activity probably will start at about 12:15 p.m. in the Intramural Gym. The program is open to any male member of the faculty or staff. During the fall and spring semesters participants meet from 11:30 a.m. to 12:30 p.m.

SUMMER REGISTRATION

Incomplete registration figures Monday, June 5, showed a total of 8,176 students enrolled for the first summer term at Texas Tech. In 1971 a record number of 8,260 students registered for the first summer term. Complete figures are expected later this week.

FACULTY NEWS

The appointment of Dr. Thomas Mastroianni as dean of the School of Music at Catholic University of America, Washington, D.C., has been announced. The appointment becomes effective Sept. 1.

Mastroianni is professor of piano and chairman of applied music at Texas Tech. He joined the faculty in 1961. His bachelor's and master's degrees were earned at Juilliard School of Music and his doctorate in piano at Indiana University.

Indiana State University at Terre Haute has announced the appointment of Dr. Charles D. King as chairman of its Department of Sociology and Social Work, effective Aug. 28. King is a member of the sociology faculty at Texas Tech.

Asst. Prof. Mitsuko Inano of the Department of Food and Nutrition was awarded the doctoral degree from the University of Wisconsin June 3.

WALKER NICHOLS MEMORIAL FUND

An Athletic Memorial Fund has been established at Texas Tech to honor the late Walker L. Nichols Sr., star guard and 1935 captain of the Texas Tech football team. Nichols died in Amarillo in May.

Nichols was listed in Tech's Who's Who for 1935-36 and was named to Tech's Athletic Hall of Honor in 1968. At the time of his death he was an associate director of the Red Raider Club for Amarillo.

Contributions to the fund are handled by the Red Raider Club through the Texas Tech University Foundation.

CATALOGS AVAILABLE

The Office of University Bulletins asks department chairmen to pick up their specially bound copies of the new *General Catalog* by June 15. Regular bound copies also are available in the same office, Room 104C, Administration Building, until that date. Copies of the new *Graduate School Catalog* should be available in the Office of the Registrar this week.

NOTABLE QUOTE

"I should like to be told a little less often that the University must be a reflecting mirror and hear more about its splendour as a shining light."-- Herbert Butterfield, Master of Peterhouse, Cambridge.

MORE COLLEGES OFFER 3-YEAR BACCALAUREATE PROGRAM

More and more colleges and universities are discarding the concept of a requirement of four years to earn the bachelor's degree in favor of three-year programs, according to a recent issue of *The Chronicle of Higher Education*.

Methods were reported in an article written by Philip W. Semas. The most common programs, Semas said, shorten the time it takes to earn a bachelor's degree by:

- * Giving students academic credit on the basis of tests;

- * Giving students credit for college-level work done in high school;

- * Encouraging students to attend classes in the summer or to take more than a normal course load during the regular academic year;

- * Revising the entire curriculum to operate on a three-year instead of a four-year cycle.

Semas estimated that more than 20 colleges have adopted or are considering special three-year bachelor's programs.

"Much of the impetus for this increased interest in the three-year degree appears to have come from *Less Time, More Options*, a report issued last year by the Carnegie Commission on Higher Education," Semas said. This report contended that the length of time spent in undergraduate education can be reduced a fourth with no sacrifice in educational quality.

The argument for shifting to three-year programs, according to Semas is two-fold. Students entering college are better prepared and the cost of education can be reduced.

Arguments against the three-year concept include these:

- * The bachelor's degree would be cheapened;

- * There would be increased academic pressure and decreased opportunity for experimental programs;

- * Private colleges would feel increased pressure to fill classes;

- * The number of disadvantaged students would be decreased in favor of the academically superior students.

Among the colleges and universities which either have a three-year program or are considering its adoption are: Stephens, Ripon, Dartmouth, Goucher, Muskingum, Webster colleges and Claremont Men's College; Colgate, Emory, Syracuse, Harvard, New York and Princeton universities; New College of California, which has only the three-year degree program; Hobart and William Smith Colleges; State University of New York College at Geneseo; the Minnesota state college system; the Utah state system, and the University of Iowa.

A Princeton proposal would organize the academic year into three tri-semester of 11, 6, and 11 weeks, instead of the current 12-week semester. In three years a student would spend about as much time in class as he would now in three and a half years.

With the 11-6-11 pattern, it has been suggested, the concept of intellectual parity in offerings would be disposed of, enabling departments to schedule courses, singly and in combination, for totals of 6, 11, 17, 22 or even 28 weeks.

At Hobart and William Smith Colleges the curriculum will be divided next fall into three periods: the freshman year; the "middle years" supplanting the traditional sophomore and junior years and lasting from one to three years; and the baccalaureate year which corresponds to the traditional senior year.

A student must qualify for admission to the baccalaureate year by meeting criteria established by the faculty. The bachelor's degree will be awarded after successful completion of the baccalaureate year, not on the basis of the number of courses taken.

SUMMER EVENTS OFFERED ON CAMPUS

Summer offerings by the University Theater, the University Center and The Museum of Texas Tech University combine to give Techsans a cultural variety in 1972.

The sixth summer repertory season at the University Theater will present Peter Nichols' psychological drama "Joe Egg," Thornton Wilder's "The Skin of Our Teeth," and "You're a Good Man, Charlie Brown," Clark Gessner's musical based on Charles Schultz' comic strip "Peanuts."

The cycle of three plays will be performed, one each night, from June 23 through July 4 in the intimate arena theater constructed especially for repertory productions.

Special events presented by the University Center this summer include: The John Biggs Consort at 8 p.m. June 17 in the Croslin Room of the Library; Dances of India by Bhaskar and Shala at 8 p.m. June 26 in the University Center Ballroom; folksinger David Baumgarten at 8 p.m. July 18 in the Coronado Room; and classic guitarist Francisco Espinosa at 8 p.m. Aug. 2 in the Coronado Room.

VOL. 2, NO. 24, JUNE 28, 1972

To the Faculty and Staff

The Texas Tech University community is deserving of the highest praise for its welcome given the annual conference of the American Society for Engineering Education which was held June 19-22 on the campus.

The College of Engineering provided the best possible planning and arrangements, but the success of the meeting also can be attributed to the cooperation, support and goodwill demonstrated by all segments of the university.

Texas Tech's reputation for a friendly and courteous atmosphere undoubtedly was greatly enhanced as a result of this meeting. I am confident that most of the 3,000 who registered for the conference went home favorably impressed with the people they met here as well as with the facilities provided for the ASEE.

Grover E. Murray
President

ASEE REGISTRANTS COMPLIMENT TECH

The friendly atmosphere of Texas Tech University and Lubbock received almost as many compliments as there were registrants for the annual conference of the American Society for Engineering Education held June 19-22 on the Tech campus.

For the conference there were 1,653 primary registrants not associated with Texas Tech and, in addition, 558 women and 487 youth for a total of 2,698 visitors. Total registration was 3,003.

Dr. James H. Lawrence of the mechanical engineering faculty was general chairman of the conference. He reported that he has "heard nothing but good words for Texas Tech."

Many people took time to call the ASEE office on campus to comment, he said, and there even were a few messages of praise left on computers.

"I would like to thank the faculty and staff for their sincere cooperation," Lawrence said. "It was this cooperation that made the meeting the success that it was, according to our guests."

To the Tech Faculty and Staff:

There are times in an individual's life when he feels that he is incapable of expressing the depth of his thoughts and emotions concerning the favors done him. Such is my position in regard to the ASEE Conference, and *your* incomparable cooperation with the College of Engineering all through the past year and more, but especially during the past week while the Conference was actually in effect.

According to our guests--and theirs were unsolicited, obviously deeply sincere remarks--this was THE BEST ASEE Conference ever held. Since this was our "Impossible Dream," its achievement is all the more thrilling. To have reached it with your unstinted aid is rewarding indeed.

Thank you most sincerely for helping us to surpass what seemed too-optimistic expectations.

John R. Bradford
Dean of Engineering

DVORACEK TO RETURN

Marvin Dvoracek, a member of the agricultural engineering faculty who has been on leave to complete the doctoral degree in surface hydrology at the University of Arizona, will return to Texas Tech in September, it was announced by the College of Agricultural Sciences.

ANTHROPOLOGY OFFICE

The Department of Anthropology has occupied new office space entered through Room 206, Administration Building. The departmental telephone number is 2-6293. Faculty will retain individual phone numbers.

SMILE WHEN YOU SAY THAT, PODNER!

Smiles can be heard as well as seen, says Southwestern Bell Telephone Company in a series of booklets on telephone personality. Because that "smile" is the only contact many have with Texas Tech University it is mentioned along with other telephone courtesies which give the university a good name. The company suggests:

Answer promptly, if possible on the first ring, and be ready to talk to the caller.

Your voice should be warm, friendly, sincere -- with an invitation to the caller to call again.

Identify the office and yourself: "Mr. Smith's office, Miss Brown speaking." This saves time, and it indicates to the caller that he not only has the right number but is talking to a responsible person. Proper identification prompts the caller to identify himself also, and prompt identification on the part of the caller is correct.

"Hold on" or "just a second" tell the caller nothing. If you know you will be away from the phone longer than a minute or two offer to call back, stating the approximate time you will call.

When you leave your desk, advise the person who is to answer the phone for you where you are going, the telephone number where you can be reached and approximately when you will return.

Give prompt attention to your phone messages when you return.

Request, rather than demand, information. "What's your name?" or "Repeat that, I didn't get it," sound abrupt. Instead of the challenge, "Who's calling?" explain the reason for wanting to know: "May I tell him who's calling please?"

If a name is unusual, verify the spelling through the technique of key-letter spelling -- A as in apple, etc.

When the person called cannot

MURRAY, CONSELMAN TO REPRESENT U.S.

President Grover E. Murray and Dr. Frank B. Conselman, director of the International Center for Arid and Semi-Arid Land Studies, have been named to the 12-member United States delegation to the 24th International Geological Congress meeting Aug. 21-30 in Montreal.

Other U.S. representatives are from Harvard and Stanford universities, the University of Chicago, the U.S. Geological Survey, E. I. du Pont de Nemours & Co., and the Carnegie Institute of Washington.

answer the telephone, give the reason as briefly as possible and state the approximate time the call can be returned. "He's in conference and cannot be disturbed," is more irritating to hear than, "He'll be in a conference until about 2 p.m. May I give him a message or can someone else help you?"

It is more believable to hear, "I'll ask him to call you," than "I'll have him call you."

It is especially important to be accurate when the message requires action on the part of another. Repeat the information to the caller to assure him that you have the correct information.

If information is requested and you do not have the answer, offer to make every effort to find the answer or refer the caller to another office which is likely to have the answer. Give the full name of the other office and, when possible, the telephone number.

Say "Goodbye" pleasantly, and let the caller hang up first.

INCREASED NEED FOR GRADUATE EDUCATION CITED

EDITOR'S NOTE: The following article is reprinted from *Grapevine*, a newsletter by D. M. Chambers distributed bi-monthly to members of the American College Public Relations Association.

It may well be true that fewer Ph.D.'s will be needed in the next decade as teachers in our colleges and universities. To conclude from this that the extended training of gifted and highly motivated young people interested in scholarly careers should therefore be curtailed shows, however, a lack of imagination. Such people are needed as never before, not only in the natural sciences, but in all fields of learning.

Those of us who appreciate how little men yet know and how much there is to find out should not throw up our hands and agree with the cost accountants and some of the politicians that graduate education should be curtailed. Rather we ought to begin now to provide the means for employment of more scholars in careers of research.

Solutions to the cancer problem, to the still larger medical problem of heart disease, or to the many problems of pollution associated with a high standard of living are not going to be found by untrained individuals. The great advances in biology in recent years may be directly correlated with the support given by certain foundations and by the National

Institutes of Health, support that made it possible for universities to maintain men committed in large part to research. It was this kind of support, for example, that resulted in a vaccine against polio and thereby saved millions of dollars that would otherwise have had to be spent for hospitalization and therapy of people crippled in youth by this disease. It is this kind of support that now permits some to contemplate a "final push" against cancer.

Rather than curtail training programs, we should work for future increases in job opportunities. One way to do this is to establish graduate universities and research institutions affiliated with them. The latter might be centered on practical problems but could approach these problems with a long-range view and in an interdisciplinary way. The Woods Hole Oceanographic Institution and its new graduate school of oceanography affiliated with the Massachusetts Institute of Technology provide an excellent working example.

It is already clear that such research and training centers are needed in diverse fields. They have to be staffed with scientists who have an equivalent of the Ph.D. A sharp curtailment in training of Ph.D.'s now will leave us short of the young people we will need. -- William Trager, Rockefeller University, New York 10021

FRESHMAN ORIENTATION PROGRAM SERVES 3,500

More than 3,500 students new to Texas Tech University in 1972 will receive a preview of college life and a head start on registration through on-campus conferences starting July 17-18.

Already 3,067 students have confirmed reservations for the conferences which end Aug. 3-4. This is the seventh year for the orientation program, and two conferences a week are scheduled.

Benefits work two days, according to Dr. William H. Duvall, assistant dean of students for programs. The university benefits by having completed registration for a sizable number of students. Students benefit through better selection in classes and a more relaxed atmosphere for academic advisement.

Parents are invited to accompany sons and daughters to the sessions. Residence hall facilities are used to house students and parents.

VOL. 2, NO. 25, JULY 19, 1972

TEXAS TECH PARTICIPATES IN PARTNERS OF THE AMERICAS

Texas Tech University's interest in the Partners of the Americas has brought to the campus two students and special visitors from Peru in recent weeks.

Edward Kuntz, a member of the faculty of the Escuela de Administracion de Negocios para Graduados (ESAN) is participating in a summer program in the Texas Tech College of Business Administration. He is studying methodology in teaching business policy.

A second student, Luis Flores, assistant professor of operations research at ESAN, will begin his graduate studies at Tech in the fall.

Both are supported by special research assistantships for Latin American students awarded under the aegis of the Graduate School.

Their enrollment is the result of the visit May 7-10 at Texas Tech of Alfredo Novoa, chief administrative officer and an associate dean at ESAN. Novoa discussed a faculty exchange with Dean Jack D. Steele.

In the College of Engineering Guillermo Perea, a Texas Tech graduate and general managing director of Cias Unidas Vitarte, Victoria, S. A. (CUVISA) was a visitor in early June. He discussed with Dean John R. Bradford arrangements for training Peruvian engineers in the areas necessary for specialists in textile engineering.

Programs undertaken through the Partners of the Americas, President Grover E. Murray emphasized, must provide mutual benefits. Texas Tech graduate students and faculty can gain immensely, he said, by learning experiences in Peru, and at the same time they could share their expertise. Curriculum development for Peruvian institutions, he added, could benefit immeasurably as students and faculty from Peru work within U.S. systems of higher education, gaining a full understanding of curricula which could be adapted to Peruvian uses.

WILLIAM D. MILLER SCHOLARSHIP ESTABLISHED

A memorial scholarship for students of geology has been established in honor of the late William D. Miller, chairman of the Department of Geology until his death in a plane crash June 22. Dr. Miller earned the bachelor's degree ('57) and the master's degree ('59) at Texas Tech. He was chairman of the West Texas Water Institute and the principal organizer of the first Ogallala Aquifer Symposium.

LOU BREUER MEMORIAL FUND BEGUN AT TECH

A Lou Breuer Football Memorial Scholarship Fund has been established for the former Texas Tech football star who died in action in Vietnam when the helicopter he was piloting was shot down in late June. The scholarship is for Texas Tech athletes who attend the university's Graduate School. Louis Breuer played tight end for the Red Raiders in 1967-68-69.

PHYSICS CHAIRMANSHIP SHIFTS TO MARSHALL

Dr. B. J. Marshall has been named chairman of the Department of Physics, effective Aug. 22, to succeed Dr. Henry C. Thomas who has served as chairman the past 14 years. Dr. Thomas will continue to serve on the faculty, teaching and working on his special research interests. Marshall is acting chairman for the second summer term.

Both men agreed that the graduate program in physics will continue in its current direction. Undergraduate programs likely will be changed -- made more flexible and more attractive to students who are not majoring in science.

BLACK ASSUMES DUTIES AS MUSEUM DIRECTOR

Dr. Craig C. Black assumed his new duties as director of The Museum of Texas Tech University July 1. His appointment was announced April 2.

Dr. Black also will serve as professor of geosciences.

He was curator of vertebrate fossils at the Carnegie Museum in Pittsburgh from 1962 to 1970 and has been associated with the academic program and Museum of Natural History at the University of Kansas since that time.

Dr. Black's major research interests are in evolution and dispersal of rodents during the Tertiary period, origins of modern mammalian faunas, Eocene and Oligocene vertebrate community structure, and mammalian distributions during the Tertiary.

NEW OFFICE

Dr. William J. Mayer-Oakes began a three-year term July 1 as a member of the Executive Council of the Rocky Mountain Social Science Association. The organization serves leading academic institutions in a 14-state region.

BOARD OF REGENTS

The Texas Tech University Board of Regents has rescheduled its Aug. 18 meeting for Aug. 4. The meeting will be at 3:30 p.m. in the Administration Building.

DONALD M. BOUCHER ASSUMES ADMINISTRATIVE DUTIES AT TECH

Donald M. Boucher has joined the Texas Tech University staff as coordinator for Internal Relations and special assistant to the Office of the President. His appointment was effective July 1.

Boucher's responsibilities will include the total area of university community relationships and problems; collaboration on student services, activities and programs; and collaboration on student counseling.

He has had extensive service in the U.S. Peace Corps, both as a volunteer and administrator, and he comes to Texas Tech after having served the past two years as Peace Corps director in Chile.

With his wife, Beverly, Boucher was one of the first 1,000 to volunteer for the Peace Corps and they were one of the first married couples to volunteer. They served as volunteers in Chile. He then served for two years as associate director of the Peace Corps in Venezuela and as director for 18 months in Honduras before returning to Chile.

He also served three years as youth director for the YMCA in Dallas.

Boucher holds the master's degree in community and international services from Springfield College, Springfield, Mass. He received his bachelor's degree in education from Oklahoma Baptist University in Shawnee where he played basketball under coach Bob Bass.

The Bouchers have one son, Anthony, 2.

ODELL ACCEPTS POST AS UT-DALLAS DEAN

Mathematics Prof. Patrick L. Odell, chairman of the Department of Mathematics from 1966 until his resignation in 1971, has accepted a position effective Sept. 1 as executive dean of Graduate Studies at the University of Texas at Dallas. He will continue for one year as adjunct professor at Texas Tech.

Odell has been active as a member of various Texas Tech committees. He currently is coordinator for all research efforts conducted through the recently established institutional research program in the College of Arts and Sciences.

GERACI COMPETES IN TENNIS MEET

Col. Albert J. Geraci, chairman of the Department of Military Science at Texas Tech, will compete in the All-Army Tennis Championship Tournament July 19-29 at Fort Meyer in Washington, D. C. He won the senior division singles title in that tournament in 1970 and then advanced to the interstate tennis finals in both singles and doubles. In 1969 he coached the Vietnamese Davis Cup team which won over six nations in the Southeast Asia games at Rangoon. The Army squash team he captained in 1969 won the interservice championship.

ASEE GIVES TEXAS TECH UNIVERSITY REASON TO TOOT ITS HORN

With a backup of testimonials from persons attending the June meeting of the American Society of Engineering Education at Texas Tech, the university is in a good position to "toot its own horn."

A sampling of letters received after the conference included these comments:

"Everyone to whom we spoke expressed the opinion that this was without a doubt the finest, most completely coordinated, best run national meeting we have ever attended. I do hope that you will congratulate everyone...on the outstanding display of good will and Texas hospitality. It was the most impressive aspect of the entire conference." -- from Paul A. Burns, director of the Division of Continuing Engineering Studies, Newark College of Engineering.

"In my many years of ASEE attendance, I have found yours to be the best organized. Also, it was a great personal pleasure to see the tremendous local community support including the many many personal courtesies which Lubbock gave on this occasion," -- from C. V. Kirkpatrick (Cullen College of Engineering, University of Houston), chairman, Engineering Education and Accreditation Committee, Engineers' Council for Professional Development.

"Most important to us was the wonderful impression we obtained of your university, of your community and especially that of its people." -- from Walter S. Kut, professor, The Cooper Union School of Engineering, New York.

"Words alone cannot express our gratitude to you and all the members of your fine staff. The hospitality, help, coordination and friendliness cannot be exceeded anywhere. I am assured of that." -- from R. E. Patterson Jr., Iowa State University, general chairman, 1973 annual conference.

"I don't believe any of us who have attended a number of ASEE meetings have ever experienced such an excellent job of hosting as your school has done for this last convention." -- from Lee Harrisberger, dean, Science and Engineering, University of Texas, Permian Basin.

"...a personal word. The ASEE meeting -- all aspects of it -- were very well done. We appreciated the hospitality, thoughtful attention to detail, and the well-planned events that you made available. It was a pleasure to attend." -- from Edwin C. Jones, secretary, Institute of Electrical and Electronics Engineers, Inc.

And Harold A. Bolz, immediate past president of ASEE, expressed "both high admiration and hearty appreciation for all that Texas Tech did for us."

EARLY REGISTRATION CONFERENCES START

More than 650 prospective students attended the first of six early registration conferences at Texas Tech on Monday and Tuesday of this week.

Early registration conferences are planned for Monday-Tuesday and Thursday-Friday for a three-week period. More than 3,500 new students have confirmed reservations for the conferences, and most will be accompanied by one or more parents.

Of those registered 1,674 have indicated they will be in the College of Arts and Sciences, 673 in Business Administration, 416 in Education, 295 in Engineering, 275 in Home Economics and 197 in Agricultural Sciences.

The conferences, which provide orientation, counseling and course scheduling are under the direction of Dr. William H. Duvall, assistant dean of students for Programs.

The Chamber of Commerce asked participants in tours it arranged to fill out questionnaires indicating their impressions. Responses came from 203 participants, mostly women.

Of these, 182 said they had not been to Lubbock before this convention. There were 149 who said they had some prior knowledge of Lubbock and 155 who knew of Texas Tech, most of this coming from advance ASEE mailings and conference promotion.

Commenting on Lubbock's best tourist attraction, 91 said this is Texas Tech; 51 indicated The Museum of Texas Tech University; 25 the Ranch Headquarters; and 18 Prairie Dog Town.

Asked for suggestions for improvements, a San Francisco, Calif., respondent said, "More trees needed." A Lafayette, Ind., respondent said, "None -- it has been excellent."

The conference, which drew approximately 3,000 participants, was the largest ever held at Texas Tech University.

KTXT-FM RESPONSIBILITY IS TRANSFERRED

The responsibility for the operation of Texas Tech's radio station KTXT-FM was transferred July 1 from the Division of Continuing Education to the Department of Mass Communications. Dr. S. M. Kennedy, vice president for Academic Affairs, made the announcement. Prof. Clive J. Kinghorn will be director of KTXT-FM, working half-time on the faculty in mass communications and half-time as station director.

VOL. 3, NO. 5, AUG. 9, 1972

BOARD OF REGENTS ADOPTS '72-73 BUDGET

At its Aug. 4 meeting, the Board of Regents of Texas Tech University:

- * Approved a budget of \$45,814,465 for the university and The Museum. (Of the total, \$27.9 million is from state education and general appropriations. The remainder is from auxiliary enterprises, federal grants and other sources. The budget includes \$160,318 for faculty merit raises);

- * Elected Bill Collins chairman of the board and Clint Formby vice chairman, with Mrs. Freda Pierce reelected secretary;

- * Approved the 1972 Code of Student Affairs altered "to clarify" procedures;

- * By resolution named Dr. James R. Gammill professor emeritus of education;

- * Expressed, in resolutions, its appreciation to Mrs. Mamie Sybert Burns and Forrest Fenn for their assistance in providing a bronze bust of William Curry Holden for the rotunda of Holden Hall and to artist Peter Hurd for his mural in Holden Hall and his encouragement of other university projects;

- * Named to the Board of Directors of the Texas Tech University Foundation -- George N. Atkinson Jr., John F. Herzer, Phillip Hoel, and L. Edwin Smith, all of Lubbock; W. Ken Davis and Porter Parris of Houston; J. B. Potts, Post; and W. E. Robertson, Fort Worth;

- * Heard a report from C. I. Wall, chairman of the Regents Council, which named as members of the council's Executive Committee -- Warlick Carr, Donnell Echols, Lonnie Langston, Bob Pendleton and Jack Maddox; and to the list of members added J. Fike Godfrey, J. Fred Bucy Jr., James I. Campbell, L. W. A. Campbell, C. A. Cash, R. Canon Clements, W. Austin Davis, W. Ken Davis, Judge Don M. Dean, G. C. Dowell, C. Hill Garrison, John H. Latham, Don Maddox, Alfred L. Peterson and B. J. Pevehouse.

TENURE, PROMOTIONS GRANTED BY REGENTS

The Texas Tech University Board of Regents Aug. 4 granted tenure to one associate professor, Eugene P. Foerster, of the agricultural engineering faculty and to a dozen assistant professors:

David W. Carlyle, chemistry; Dale W. Davis and Jack D. Wages, English; Claud M. Davidson, geography; Patricia M. Hopkins, classical and romance languages; Lawrence C. Mayer and Neale J. Pearson, government; Alfred E. Coleman, health, physical education and recreation for men; Harry A. Jebsen, history; Harmon Morgan, mass communications; Richard A. McGowan, music; and Lynn L. Hatfield, physics.

Promotions from assistant to associate professor status were approved for Wages, Mayer and Benjamin H. Newcomb of the history faculty.

REGENTS NAME FOUR HORN PROFESSORS

Four faculty members, representing agriculture, engineering, law and art, were named Horn Professors by the Texas Tech University Board of Regents Aug. 4.

Honored were Chairman Harold E. Dregne of the Department of Agronomy, Law Prof. Richard W. Hemingway, Art Prof. Clarence E. Kincaid, and Civil Engineering Prof. Dan M. Wells, who is director of the Water Resources Center.

The board recognized the four for achievement of regional and national distinction for outstanding teaching, research or other creative work. Horn Professorships honor the university's first president, Paul Whitfield Horn.

REGISTRATION NOTES:

Texas Tech University students will begin fall registration at 1 p.m. Wednesday, Aug. 23. Students in the new Texas Tech University School of Medicine will register immediately after opening ceremonies beginning at 9:30 a.m. Monday, Aug. 21. First year law students will register from 9 a.m. to 12 noon Aug. 18, and advanced students will register in the School of Law Aug. 21.

Graduate students in the university may register at any time from 1 p.m. Wednesday, Aug. 23, until 12 noon Saturday, Aug. 26. University registration will take place Aug. 23- Aug. 25 in the Municipal Coliseum. The Saturday registration will take place at West Hall.

Registering during summer freshmen orientation conferences were 3,566.

ATHLETIC TICKETS

Faculty and staff who want to take advantage of half price rates should pick up their athletic tickets between Aug. 21 and Sept. 1 at the Athletic Ticket Office, according to Ticket Manager Ruth Sturtz.

FACULTY COUNCIL OFFICE MOVED

The office of the Faculty Council has been moved to Room 208 in the Administration Building. The telephone number remains unchanged, 2-6292.

TTU MEDICAL SCHOOL SETS AUG. 21 OPENING

The Board of Regents of the Texas Tech University School of Medicine approved a budget of \$5,060,345 at its Aug. 4 meeting and noted Aug. 21 as the date for ceremonies opening the new institution.

Of the budgeted amount, \$4.1 million is from state appropriated funds for operating the school; federal grants of \$750,000 have also been received.

From more than 500 applications, 36 freshmen and 25 juniors have been chosen for the entering classes. Ceremonies preceding their registration will begin at 9:30 a.m. Aug. 21 in Drane Hall.

New officers, the same as those for Texas Tech University's Board of Regents, were elected. In accepting his office as vice chairman, Regent Clint Formby reiterated the board's position in regard to the need for a school of veterinary and zoological medicine which has been approved by the Coordinating Board, Texas College and University System, but not yet implemented by state appropriation.

ADMINISTRATIVE APPOINTMENTS

Recent administrative appointments include:

Dean J. Knox Jones of the Graduate School named associate vice president for Research;

Dr. Orlo E. Childs, who is vice president for Research and Special Programs, named interim director of Development;

Clyde J. Morganti, special assistant to the Office of the President, named interim director of Information Services;

Dr. Richard Gray appointed director of Computer Services.

PARKING PERMIT DEADLINES

University personnel who wish to retain parking places now held have until Aug. 19 to send fees and information to the office of the Parking and Traffic Counselor. New stickers should be put on windshields Aug. 22.

TWO RESOLUTIONS HONOR MILLER

The Texas House of Representatives, on July 7, and the Texas Tech University Board of Regents, on Aug. 4, passed resolutions memorializing contributions made to the state and to the university by the late Dr. William D. Miller, chairman of the Department of Geosciences. Miller died June 22 in a plane crash.

The Regents conveyed its "deep appreciation for the contributions" of Miller and its "deep sense of bereavement" while the Texas House Resolution indicated the same feeling and also resolved to "support and encourage" establishment of a memorial scholarship fund in Miller's honor.

Within a little more than a month after Miller's death, the Texas Tech University Foundation reported that \$2,114.50 had been contributed to that fund.

HOORAY FOR RED TAPE!

KTXT-TV, Texas Tech's educational television station, recently ordered two books from Viking Press, Inc., and enclosed a blank Purchase Voucher for their use in billing. Instructions for using the voucher were enclosed. Back came this reply:

"Under separate cover we have sent you copies of **THE RESTLESS EARTH** and **THE VIOLENT UNIVERSE**. Since your purchase form is quite complicated, we have decided not to charge you for these books."

The books, by the way, are related to fall programming. "The Violent Universe" will be shown at 7 p.m. Sept. 11; "The Restless Earth," at 7 p.m. Sept. 18, and the "The Mind of Man," 7 p.m. Sept. 25.

DEAN AMANDES NAMED TO NATIONAL CONFERENCE

Gov. Preston Smith has named Texas Tech Law School Dean Richard B. Amandes to the National Conference of Commissioners on Uniform State Laws. Amandes is meeting with the conference this week, Aug. 3-11, in San Francisco.

The conference includes commissioners from each state, the District of Columbia and Puerto Rico, and its purpose is to promote uniformity in state laws. Commissioners draft specific acts and then work to secure their enactment by state legislatures. Among conference achievements is the Uniform Commercial Code, adopted by 49 states, which standardizes the law in the commercial and business area.

Amandes is one of five Texas commissioners. He holds a three-year term.

1972-73 HOLIDAY SCHEDULE APPROVED

The Board of Regents Aug. 4 approved a 1972-73 administrative holiday schedule for the university which includes:

Thanksgiving Day, Nov. 23, and the Friday following; Christmas Day, Dec. 25, the four days following and Jan. 1 and 2; March 28, 29, and 30; and July 4. Several of the holidays are in lieu of other dates designated as holidays in Texas which do not fall on Saturday or Sunday.

VOL. 3, NO. 6, SEPT. 6, 1972

MEDICAL SCHOOL OFFICIALLY OPENED

The Texas Tech University School of Medicine officially opened its doors to the first class of students with formal ceremonies Aug. 21. Chairman of the Board of Regents Bill Collins introduced the 36 freshmen and 25 junior students to those attending the ceremony.

Keynote speaker was Dr. Paul J. Sanazaro, associate deputy administrator for Development of the Health Science and Mental Health Administration, U.S. Department of Health, Education and Welfare (HEW).

Sanazaro reviewed HEW's objectives of constructive institutional reform. He explained that "in an increasingly homogenized society the most critically needed changes in our institutions are those that increase their humane responsiveness."

He commended the new school for including in its planning the elements of reform sought by HEW.

Also speaking at the formal opening ceremony was Dr. John A. Buesseler, vice president for Health Affairs and dean of the School of Medicine, who promised a student-centered institution dedicated to state service.

Other participants at the ceremony were Executive Vice President Glenn E. Barnett and Dr. William Seliger, chairman of the new school's departments of Anatomy and Oral Medicine and Surgery.

IIE DEADLINE OCT. 15 FOR OVERSEAS PROGRAMS

The deadline is Oct. 15 for filing applications for the IIE 1973-74 competition for grants for graduate study or research abroad and for professional training in the creative and performing arts.

The grants are provided under the Fulbright-Hays Act (1961) and are offered through the Institute for International Education. Application forms and information for students currently enrolled in Texas Tech may be obtained from the campus Fulbright Program Adviser David M. Vigness, chairman, Department of History.

Applicants usually should hold the bachelor's degree or its equivalent before the beginning date of the grant. Creative and performing artists are not required to have the B.A., but they must have four years of professional study or equivalent experience. Social work applicants must have at least two years of professional experience after the Master of Social Work degree. Candidates in medicine must have an M.D. at the time of application.

BOWLING

The Tech Faculty Bowling League is organizing for the 1972-73 season. This is a mixed bowling league and anyone interested in signing up should contact Jack Blackwell, president, at 795-9623, or Beverly Thompson, secretary, 799-4483.

FACULTY CLUB INVITES NEW MEMBERS TO JOIN

The Texas Tech Faculty Club invites all eligible persons who were not 1971-72 members to join now. Those eligible are employed by the Texas Tech University Complex as faculty, an officer of the administration, or anyone occupying a professional position in a non-academic department.

Annual dues of \$10 should be paid by Sept. 15 and no memberships are accepted after Nov. 1 from persons eligible before that date. Until Sept. 16, service is open to all prospective members on a cash basis. Service after Sept. 16 is available only to dues paid members on a credit basis. Prof. Maurice B. Kirk of the Law School faculty is club president.

To apply for membership, complete the form below and mail with a check for \$10 to Raymond Green, Faculty Club, Campus.

1972-73 APPLICATION FOR FACULTY CLUB MEMBERSHIP

PHYSICAL FITNESS PROGRAM UNDER WAY

The Faculty-Staff Physical Fitness class for men is offered Monday, Wednesday and Friday from 11:30 a.m. to 12:30 p.m. Faculty lockers in the Men's Gym should be renewed before Sept. 15. After paying the \$2 fee at the Comptroller's Office, forward the receipt with the row number, locker number and lock combination to Dr. Gene Coleman, Department of Physical Education for Men. Fee slips will be returned. Towel fees are payable in Room 205, Men's Gym. Present these receipts to the locker room attendant. For more information call 3-3160 or 3-3111.

WOMEN'S EXERCISE PROGRAM TO START

An exercise program for women faculty, staff and faculty wives will begin Sept. 12 with sessions offered Tuesdays and Thursdays from 12:30 to 1:30 p.m. in the Dance Studio of the Women's Gym. For the first session participants are asked to bring a swim suit to wear for posture pictures. Announcement of the new program was made by Chairman Margaret E. Wilson of the Department of Health, Physical Education and Recreation for Women.

CAMPUS DIRECTORY

The Texas Tech campus telephone directory should be ready for distribution about mid-September, according to present printing schedules. Target date is Sept. 12, but the publication may be as late as Sept. 18, according to the Office of Information Services which compiles the directory.

POSTER POLICY FOR CLEAN WALLS

Texas Tech's new "Policy on Posters" published in the 1972-73 Code of Student Affairs applies to all persons - students, faculty and staff. The gist of the policy is that only bulletin boards in permanent buildings may be used for posting.

Walls will regularly be cleared of all posted material.

No commercial signs or announcements are permitted under the policy. Bulletin boards are for approved university announcements. They belong to academic and administrative offices and are for official university use. Nothing may be displayed without consent of the office which owns the bulletin board.

The main office of each academic building, residence hall offices, the University Center office, the Bookstore and the Athletic Department all have rules which must be consulted before posting materials.

Campaign material for those seeking public office may be posted in a residence hall room or, in compliance with University Center rules, in the University Center.

Students' posters must have the approval of the Office of the Assistant Dean of Students for Programs. The Office of the Student Association approves student election posters.

ENGINEERING COLLEGE OFFICES ARE MOVED

Key personnel and offices of some departments and divisions of the College of Engineering have been relocated and now are in the old Architecture Building. Changes include:

Office of the Dean of Engineering -- Room 100 -- 2-1211 -- offices of Dean John R. Bradford (2-1214), and Associate Deans Arnold J. Gully and Robert L. Newell;

Engineering Analysis and Design -- Room 306 -- 2-1241 -- offices of Chairman James E. Archer, Lecturer John C. Aldredge and Prof. Paul G. Griffith;

Engineering Technology -- Room 211 -- 2-1287 -- office of engineering technology faculty, Lyman M. Graham Jr., Darrell B. Lancaster, Billy K. Power and Albert J. Sanger;

Division of Continuing Engineering Education and Office of Assistant Dean Lee J. Phillips -- Rooms 112 and 111 -- 2-1247;

Division of Engineering Services -- Room 100 -- 2-1214 -- office of Director Dale A. Courtney.

KTXT-TV OFFERS ECONOMICS PROGRAMS

The Texas Tech Department of Economics is presenting a series of television panel discussions on economic subjects of public interest. The programs will be shown at 6:30 p.m. the first and third Wednesdays of each month, on KTXT-TV.

Guest panelist for the first show, "The U.S. Balance of Payments," Sept. 6 is Prof. Stephen Magee of the University of Chicago. For the Sept. 20 program on "The State of the Economy," Arthur Laffer, former chief economist in the federal Office of Management and the Budget, will be a special guest. Laffer, now consultant to George Shultz, U.S. Secretary of the Treasury, is an adjunct professor at Texas Tech, visiting on the campus until Sept. 17 when he will rejoin the University of Chicago faculty.

Appearing with Magee will be Chairman Robert L. Rouse of the Department of Economics and Profs. Carl Stem and Robert Bonnington. Appearing with Laffer will be Profs. Roger Troub and Gene Uselton.

VOL. 3, NO. 7, SEPT. 20, 1972

TTU COMPLEX INDICATES BUDGET PLANNING FOR STATE BOARD

The Texas Tech University complex (the University, the School of Medicine and The Museum) will seek appropriations totaling \$117.7 million for the next biennium, and funds will be sought again next year to build a Texas Tech University School of Veterinary and Zoological Medicine.

The budget plans were announced when the Legislative Budget Board (LBB) staff met at the University Sept. 13.

A request for \$7.8 million for construction and operation of a school of veterinary and zoological medicine is planned, according to a report made at the meeting by President Grover E. Murray. The Coordinating Board, Texas College and University System, has approved establishment of the school at Texas Tech University, but a request for funds was not approved by the legislature at its last session.

Legislators attending the meeting included Reps. R. B. McAlister, Elmer Tarbox and Delwin Jones of Lubbock, Bryan Poff of Amarillo, E. L. Short of Tahoka and Bill Clayton of Springlake. Democratic nominee for state representative Pete Laney of Hale Center also attended. University officials said that the number of legislators indicated the great interest in Tech budgetary planning.

Dr. Murray said the main university needs \$36.2 million in fiscal 1974 and \$37.7 million the following year. This year's appropriation was \$25.9 million.

He told the LBB staff that the medical school's appropriation should go to \$8.5 million next year and to \$10 million the following year. In addition \$3.8 million would be requested to build and operate a health education center at Amarillo and to plan similar centers in other major West Texas cities.

Operating requests for The Museum are \$294,000 for 1974 and \$275,000 for the following year.

Present for the on-site hearing of the LBB were: Hermas L. Miller, J. B. Pace and Jere Peterson, board staff members; Ed Powers of the Governor's budget office; and Ray Fowler and Walter Guttman of the Coordinating Board.

COORDINATING BOARD TO MEET AT TECH

The Coordinating Board, Texas College and University System, will have a special called meeting in Room 230 of The Museum of Texas Tech University beginning at 9:30 a.m. Saturday Sept. 30.

The board's agenda includes a report on the development of the Texas Tech University School of Medicine.

TORNADO SEASON REMINDERS

May and September, the months when cold fronts are colliding with warmer weather, are the two with the highest incidence of tornadoes for the West Texas area.

Campus personnel are cautioned to locate now what place of refuge would serve best in case of danger. The sound of the siren means "Take refuge." The siren is not sounded for a tornado watch, but only when a tornado is sighted approaching the university.

Texas Tech faculty who have made a special study of tornadoes suggest these precautions:

Seek underground shelter, but if this is not available small interior rooms or hallways which have some reinforcement are often safe. Open windows if possible.

Stay away from windows and keep indoors as flying debris is particularly dangerous. Avoid auditoriums and gymnasiums.

Mobile homes should be evacuated even if they are well anchored because of the danger of flying debris penetrating walls.

Keep radios and television sets tuned, but do not use the telephone to call the weather bureau or other centers for tornado information.

If traveling in a car, it is best to leave the car and seek a culvert or lie face down in a depression -- the deeper the better.

Dr. Donald Haragan, acting chairman of the Department of Geosciences and a meteorologist, reports that although tornadoes can occur any time any where, the area of Kansas, Oklahoma and West Texas has the highest recorded incidence. The worst in the United States occurred May 11, 1970, in Lubbock.

Working in wind engineering as it relates to tornadoes and hurricanes are, in the Department of Civil Engineering, Joseph E. Minor who is coordinator of research and lecturer, Chairman Ernst W. Kiesling, and Profs. Kishor C. Mehta and James R. McDonald, and Industrial Engineering Prof. Brian K. Lambert.

Missouri news

STUDY ABROAD PANEL PLANNED FOR SEPT. 26

A panel discussion of international study opportunities will take place at 4 p.m. Tuesday, Sept. 26, in the Mesa Room of the University Center.

INSURANCE COMPANY SCHEDULES HOURS FOR MONTHLY COUNSELING

Beginning Oct. 4, a representative of Blue Cross-Blue Shield will be available in the Personnel Office from 2 to 5 p.m. on the first Wednesday of each month.

Representatives will be able to answer questions regarding coverage in any of the Blue Cross-Blue Shield programs (medical, life or disability), help in filing a claim, or assist employees to enroll in any of the programs.

NEW APPOINTMENTS

Recent staff appointments at Texas Tech University include those of R. P. Klocko, as director of the Office of Personnel Relations dealing with the relationships of the institution to the university personnel (excluding students), and of Michael Giroir, assistant director-activities of the University Center, serving as adviser to the students' Program Council.

ORVILLE WYSS TO BE TECH GUEST LECTURER

Dr. Orville Wyss of the University of Texas (Austin) Department of Microbiology will discuss "A Model System for Studying Bacterial Survival" at 4 p.m. Sept. 29 in Room 101 of the Biology Building.

The guest lecturer was invited by Texas Tech University's Department of Biology and the Texas Tech University Medical School's Department of Chemistry. The lecture is open to the public at no charge.

Wyss is the former president of the American Society for Microbiology, a Fulbright lecturer in Australia and a guest lecturer in the Soviet Union. As a member and officer on national committees he is nationally well known in the fields of microbiology and biochemistry.

BOARDS OF REGENTS

The Texas Tech University and Texas Tech University School of Medicine Boards of Regents will meet, beginning at 3:30 p.m., Sept. 29. The meetings take place on the second floor of the Administration Building.

TTU FOUNDATION REPORTS CONTRIBUTIONS OF \$538,947

The Texas Tech University Foundation Board of Directors was told at its Sept. 16 meeting that contributions during the first eight months of 1972 totaled \$538,947.

The report showed research funds received by the foundation during the period totaled \$318,954.74. Other totals were: scholarship, fellowships and loans, \$73,552; endowments for scholarships and loans, \$22,450; institutes and clinics, \$2,389; Friends of the University Library, \$2,153; cost of education, \$36,753; International Center for Arid and Semi-Arid Land Studies and Museum Development Fund, \$22,735; educational television, \$25,725; fund for institutional planning and development, \$24,178; miscellaneous designated, \$5,554; and general undesignated gifts, \$4,500.

Of the contributions, individuals gave \$64,340; corporations gave \$195,739; foundations contributed \$260,077; and associations and organizations presented \$18,789.

A total of \$85,408 came from Lubbock individuals, corporations, foundation, associations and organizations; \$355,460 came from other Texas contributors, and \$98,078 came from out-of-state contributors.

RANCH HEADQUARTERS MEMBERSHIPS OPEN

A drive for new memberships and renewals for the Ranch Headquarters Association is underway as a prelude to the third annual meeting of the organization Oct. 7 at The Museum of Texas Tech University.

DISTINGUISHED ALUMNI TO BE HONORED SEPT. 29

Four former Texas Tech University students who have received outstanding recognition in their chosen fields will be honored at the sixth annual "distinguished alumnus" banquet at 7 p.m. Friday, Sept. 29, in the University Center.

The awards program is sponsored jointly by the Ex-Students Association and Texas Tech University.

The 1972 recipients of the coveted honor are Mrs. Wilmer Smith, the former Lola Wheeler, class of 1939, of the New Home community; Maj. Gen. Ross Ayers, class of 1933, of Austin; Charles H. Feltz, 1940, Los Angeles; and Don Maddox, 1934, of Gastonia, N.C.

Memberships cost \$5 per person, \$10 per couple and \$12.50 per family. For more information and application blanks write: The Ranch Headquarters Association, Post Office Box 4499, Lubbock, Tex. 79409.

NSF OPPORTUNITIES DEADLINES ESTABLISHED

Deadlines for three National Science Foundation graduate opportunities have been announced. They are:

For NATO Postdoctoral Fellowships in Science, primarily for those who have received their doctorates within the past five years, Oct. 23;

For 500 new Graduate Fellowships leading to the master's or doctor's degree in science, including the social sciences, mathematics or engineering, Nov. 27;

And for off-campus engineering research, for new engineering faculty members at the instructor or assistant professor level, Dec. 1.

Additional information on any of these programs may be obtained through the office of the Graduate School.

SWIMMING POOL HOURS

The swimming pool in the Men's Gym is open to faculty and staff 11:30 a.m. to 12:30 p.m. Mondays, Wednesdays and Fridays and from 11 a.m. to 12 noon Tuesdays and Thursdays, according to Tech Swimming Coach and Physical Education Prof. James F. McNally.

In addition, faculty, staff and their families may use the pool from 7 to 9 p.m. Tuesdays. To use the facilities it is necessary to pay a \$3 locker fee at the cashier's office in the Administration Building and show the receipt upon entering the pool area.

CALENDAR

VOL. 3, NO. 8, SEPT. 20, 1972

STATE OF THE UNIVERSITY REPORT

Texas Techsians can take justifiable pride in their institution, President Grover E. Murray told the Fall Meeting of the faculty and staff Wednesday, Sept. 27. While rapid growth has created problems, the university complex has no more than its fair share, and they are the kinds of problems one would prefer, he said.

* The President compared 10 years of progress, 1962 to 1971: Operating income rose from \$8.5 million to \$28.6 million; instructional cost from \$5.7 million to \$19.1 million; physical plant assets from \$45.4 million to \$119.1 million; research expenditures from \$510,659 to \$3,504,406; Library holdings from 527,936 to 1.441 million items.

Student enrollment doubled from 1961-1971, from 10,212 to 21,313 with graduate enrollment going up from 641 to 2,707 in addition to 357 in the School of Law. Faculty numbers increased from 614 to 1,315. In 1961 Tech awarded 1,247 bachelor's degrees. In 1971 there were 3,051. The number of master's degrees earned rose from 144 to 523 and doctoral degrees from nine to 93 in addition to 47 J.D. degrees. Undergraduate degree fields rose from 62 to 96, master's from 34 to 60 and doctoral fields from six to 28.

Added to the university were the College of Education, the School of Law and, as a part of the complex, the Texas Tech University School of Medicine.

* In regard to questions of salaries, wages, promotions and tenure, the President emphasized that decisions are made on the basis of merit performance.

"We are here to provide the finest educational environment for the students who choose to come here," he said. "That is the sole reason for being here."

Merit is determined, he said, on the basis of contributions made toward this goal. Decisions consider all activities contributing to the quality, prestige and reputation of Texas Tech University.

The President also read a letter he has sent to Texas legislators, reviewing the administrative position on salary increases. (For a copy of the text of this letter, write Information Services, Campus.)

* In addition to building programs acted upon by the Board of Regents Sept. 29, Dr. Murray reported: a new parking lot north of the Law School is completed, providing 1,300 spaces; construction on additions to the Psychology Building and The Museum's natural sciences research laboratory is underway; completion of architectural documents for new University Center-Music Department facilities is expected no later than January; a committee will soon start work with architects to plan additional Home Economics facilities; Drane Hall renovation is complete and the building occupied by the School of Medicine; Thompson Hall renovation should end in January, permitting use of it for medical school clinical teaching; and ground may be broken for the Medical School Building within six months.

* The first meeting of the Advisory Committee of the Institute of Food Sciences was scheduled for Oct. 3-4. President Murray is chairman.

Off-campus members include: Wilmer Smith, former Texas Tech regent who is nationally known in the cotton industry; Dr. Clifford M. Hardin, former Secretary of Agriculture and now vice chairman of the Board, Ralston-Purina Company; President Katharine E. Manchester, American Dietetic

Association; Dean Grace Goldsmith, Department of Public Health, Tulane University; Dr. Bernice M. Moore, Hogg Foundation for Mental Health; Dr. B. S. Schweigert, Food Science and Technology, University of California; Dean Helen LeB. Hilton, College of Home Economics, Iowa State University; Dean Virginia Trotter, College of Home Economics, University of Nebraska; Texas Tech Regent Charles Scruggs; Dean Naomi G. Albanese, School of Home Economics, University of North Carolina.

On campus members include: Graduate School Dean J. Knox Jones Jr., associate vice president for Research; Agricultural Sciences Dean Anson R. Bertrand; Home Economics Dean Donald S. Longworth; University Professor Louis Levin, special consultant for academic evaluation and planning; Food Technology Acting Chairman Milton L. Peebles; Biology Chairman Raymond C. Jackson; Chemical Engineering Prof. Harry W. Parker; Food and Nutrition Prof. Margaret Kassouny, and Chemistry Prof. John A. Anderson.

* President Murray emphasized the university's positive action program which encourages recruitment of students, faculty and staff from minority groups. He urged campuswide positive support of the program.

The President also said:

* He has appointed an *ad hoc* Committee of Horn Professors to develop a statement on faculty responsibility;

* Distinguished Teaching Awards will be announced at the fall meeting of the Faculty Council;

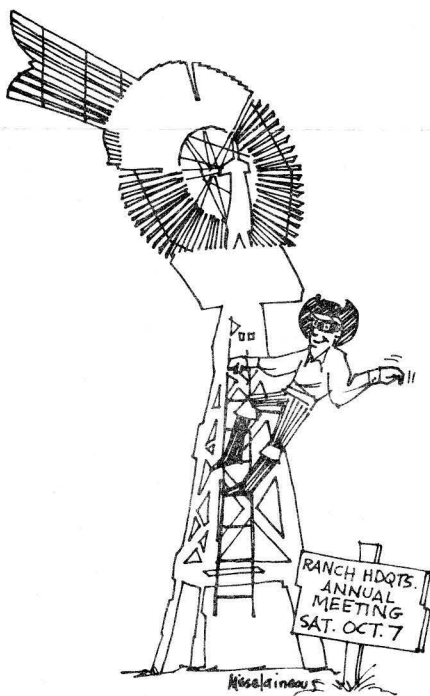

* Plans are underway to begin the 50th Anniversary observance of Texas Tech University Feb. 10, 1973, the anniversary of the signing of the bill creating Texas Tech.

RESEARCH SUPPORT

An Institute for University Research has been formed "to support individual and small group research projects that do not fall within the purview of formal research institutes." Faculty interested in submitting proposals to the institute should contact Dean J. Knox Jones Jr. of the Graduate School for more information. Proposal deadline is Oct. 10, and these should be submitted to the dean of the appropriate college.

RYAN APPOINTMENT

Dr. John A. Ryan, professor of marketing, has been appointed consultant to two state agencies, the Natural Fiber and Food Protein Committee of Texas and the Texas Department of Agriculture. The university's Board of Regents approved the appointments Sept. 29.

BECAUSE WE CARE WE SHARE!

The United Fund Drive -- the only solicitation authorized on the Texas Tech campus -- was kicked off this week with approximately 25,000 students, faculty and staff of the university asked to contribute \$30,000 as their share of the city's goal of \$887,945.

Fair share giving is an hour's pay per month or 1 per cent of the salary for those making \$10,000 or more per year.

Gifts support 33 agencies served through the United Fund which is operated locally and uses no professional fund raisers. Texas Tech's Executive Vice President Glenn E. Barnett is campaign chairman, heading a cabinet and solicitation workers who all are volunteers.

**GROUP INSURANCE
OPEN ENROLLMENT**

Texas Tech's annual open enrollment period for university group insurance will be Monday through Wednesday (Oct. 16-18). Enrollments will be accepted during this period in group medical, life term, and long term disability insurance programs to become effective Dec. 1.

Blue Cross Blue Shield representatives will man stations in the Personnel/Payroll area of the Administration Building (west wing basement) and in the foyer of the Faculty Club in the University Center from 9 a.m. to 5 p.m. Oct. 16, 17, and 18. They can explain insurance programs, answer questions, and assist in making applications for coverage.

EUROPEAN OPPORTUNITY

A Nov. 1 application deadline is set for 1973-74 junior lectureships in American studies in France, Italy and Spain. Opportunities serve advanced graduate students or persons who recently have completed the doctoral degree in American literature, history or government or in economics, geography, psychology or sociology. For more information write the Committee on International Exchange of Persons, 2101 Constitution Ave., Washington, D. C. 20418, or contact Texas Tech Fulbright Adviser David M. Vigness, chairman, Department of History.

EXHIBITS

**CB MEMBER LAUDS
MEDICAL SCHOOL'S
"SPLENDID PROGRESS"**

For the first time in its seven-year history the Coordinating Board, Texas College and University System, met Saturday, Sept. 30, at Texas Tech University. The called meeting took place at The Museum.

During the session President Grover E. Murray and Dr. John A. Buesseler, vice president for Health Sciences and dean of the Texas Tech University School of Medicine, made a joint presentation on the progress of the new and innovative medical school.

The medical school won kudos from Board member G. V. Brindley of Temple who expressed the Coordinating Board's satisfaction with the progress made.

He commended the Texas Tech University School of Medicine on its rapid development and particularly for its efforts to establish Health Education Centers in area cities. These centers are to be in Amarillo, Wichita Falls, Abilene, El Paso, the Midland-Odessa-Big Spring region, San Angelo and at the school in Lubbock.

Dr. Brindley spoke also of the people who have been working to implement legislative authorization for the new school.

"The progress they have made has been splendid," he told other members of the Coordinating Board and approximately 100 others who attended the meeting.

In action relating to Texas Tech University, the Coordinating Board appointed Comptroller and Treasurer Leo E. Ells as one of three new members of its Public Senior College and University Formula Advisory Committee. Other appointees are President Billy M. Jones of Southwest Texas State University and President F. H. McDowell of East Texas State University. Jones received the doctoral degree in history from Texas Tech in 1963.

EMPLOY THE HANDICAPPED.

**TTUSM REGENTS
APPROVE 2 SCHOOLS**

The Texas Tech University School of Medicine Board of Regents Friday (Sept. 29):

* Approved the establishment of schools of Pharmacy and Allied Health within the School of Medicine and authorized the administration to submit the proposals to the Coordinating Board, Texas College and University System, for its action.

* Approved the malpractice insurance and clinic liability insurance program as proposed by Hartford Insurance Company.

* Approved establishment of departments of Occupational Therapy and Physical Therapy within the School of Allied Health and authorized the administration to submit the proposals to the Coordinating Board.

* Authorized changes in the names of the departments of Pharmacology to Pharmacology and Therapeutics and of Computer Medicine and Biostatistics to Computer Medicine and Biomathematics.

* Authorized the execution of agreements with the United States Veterans Hospital in Amarillo and the U.S. Army William Beaumont General Hospital in El Paso.

* Granted tenure to these faculty members: Dr. John A. Buesseler, dean of the School of Medicine and professor and chairman of Health Organization Management and professor of ophthalmology; Dr. William G. Seliger, professor and chairman of the Department of Anatomy and Department of Oral Medicine and Surgery; Dr. Francis J. Behal, professor and chairman of the Department of Biochemistry; and Dr. George S. Tyner, professor of Ophthalmology.

APPOINTMENT

Recent administrative appointments include that of Bea Zeeck as interim director of the Office of Information Services. Mrs. Zeeck has been serving as an informational representative.

		OCT. 17-19	Accreditation visit, American Council on Education for Journalism, Mass Communications Dept., 8 a.m. to 5 p.m.

Texas Tech University offers equal employment opportunity through affirmative action.

For Your Information

A Newsletter to the Faculty and Staff of the TEXAS TECH UNIVERSITY COMPLEX

Published the first and third Wednesdays of each month by the Office of Information Services, 220 Administration Building. Special editions published when required. Items should be submitted before 9 a.m. on the Friday preceding the week of publication.

VOL. 3, NO. 9, OCT. 18, 1972

SCRUGGS' ADDRESS TO HIGHLIGHT DADS DAY

Regent Charles G. Scruggs of Dallas is to be the guest speaker at the annual luncheon of the Texas Tech Dads Association Saturday, Oct. 21, in the University Center.

Awards ceremonies, another highlight of the noon meeting, will include the presentation of the Spencer A. Wells Foundation Faculty Award for 1972 to Electrical Engineering Prof. Magne Kristiansen, the induction of Student Dean Lewis Jones and Former Coach Berl Huffman into Tech's Athletic Hall of Honor and the presentation of the Association's James G. Allen Student Achievement Award to Tech Sophomore Philip Rex Webb of Denver City.

Dads Day activities, which are to get under way with a registration coffee at 9 a.m. in the Coronado Room, also will include a Mother's Luncheon for wives and family members in Wall-Gates Hall and ceremonies honoring Tech Dads preceding the Texas Tech - Arizona University game in Jones Stadium.

TECH REACHES 65% OF UNITED FUND GOAL

Techsans, by Friday, Oct. 13, had reached 64.69 per cent of their United Fund goal of \$30,000. The figure represents giving by 790 persons in contributions totaling \$19,409.47.

While all who work at Texas Tech receive indirect benefits from the 33 agencies supported by the United Fund, one of every four Tech-related families use at least one of the agencies directly.

A dollar will help, and gifts measured to repay benefits could double the goal!

KELSEY NAMED HEAD OF DEVELOPMENT OFFICE

The Appointment of Dr. Clyde E. Kelsey Jr. to the vice presidency for development for the Texas Tech University Complex was announced Oct. 9 by President Grover E. Murray. The appointment became effective Oct. 16.

Kelsey served as vice chancellor, Development and Public Affairs, at the University of Denver prior to his appointment at Texas Tech. At Tech he will direct development and information activities for the University, the Texas Tech University School of Medicine and The Museum of Texas Tech University.

Kelsey holds the bachelor's degree from the University of Texas at El Paso, the master's from the University of Tulsa and the doctorate in psychology from the University of Denver.

He has served on both the faculty and staff at UTEP. Before joining the University of Denver as an administrator he spent three years with the Ford Foundation in Venezuela.

SEAL COMPETITION FOR 50TH ANNIVERSARY

In preparation for Texas Tech's celebration of its 50th Anniversary, a seal design competition has been announced to provide an appropriate symbol representing past accomplishments and future aspirations of the institution.

The competition ends Nov. 6. It is open to any person or any group. An award of \$100 will be made for the winning design.

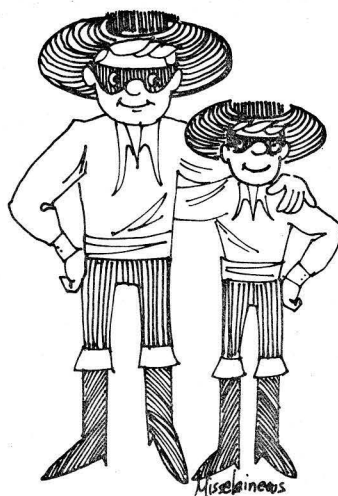

Entry forms may be picked up at the circulation desk of the Library and should be completed and attached to the back of the design when it is submitted.

For more information, contact Speech Prof. John F. Deethardt, chairman of the seal subcommittee of Tech's 50th Anniversary Activities Committee.

The anniversary observance will begin with Charter Day Feb. 10, 1973.

MEMORIAL FUND

A memorial fund has been established through the Texas Tech University Foundation named for the late Maurice Small, former associate director of the Red Raider Club and president of the Tahoka Red Raider Club.

SATURDAY IS DADS DAY!

LAWRENCE IS CHAIRMAN

Dr. James H. Lawrence Jr. has been named chairman of the Department of Mechanical Engineering, succeeding Prof. Louis J. Powers Jr., who has served in the position for 20 years. The announcement was made by Dean John R. Bradford of the College of Engineering.

L. J. (Jack) Powers received the Distinguished Teaching Award in 1968, and he will remain on the mechanical engineering faculty. Lawrence was general chairman for the 1972 annual conference of the American Society for Engineering Education held last June at Texas Tech.

RANCH HEADQUARTERS

Robert L. Snyder is the new president of the Ranch Headquarters Association, succeeding Dr. W. Curry Holden, Texas Tech history professor emeritus. Also elected at the association's Oct. 7 meeting was Treasurer Charles E. Maedgen Jr. He succeeds Snyder.

OPEN ENROLLMENT ENDS

The annual open enrollment period for Texas Tech University group insurance will end Wednesday, Oct. 18 at 5 p.m. Texas Tech Personnel may consult with Blue Cross-Blue Shield representatives in the Personnel/Payroll area of the Administration Building or in the foyer of the Faculty Club at the University Center. Enrollments are being accepted during this period in group medical, life term and in long term disability insurance programs to become effective Dec. 1.

ESAN OFFERS TECHSANS 10 GRADUATE FELLOWSHIPS

Peru's Escuela de Administracion de Negocios para Graduados (ESAN) has announced it will award up to 10 graduate fellowships to Texas Tech students interested in working toward the master's degree at the Lima institution.

The fellowships are open to Tech graduates in any field who have some knowledge of Spanish. Previous study of business administration is not required.

The deadline for applying is Nov. 15. For more information contact Dr. Harley D. Oberhelman, chairman, Latin American Studies Committee.

APPLICATION DEADLINE FOR NATO, SEATO GRANTS

Applications for North Atlantic Treaty Organization and for Southeast Asia Treaty Organization awards will be accepted until Dec. 1 by the Committee on International Exchange of Persons, 2101 Constitution Ave., Washington, D. C. 20418.

Grants are for scholars of established reputation with projects of direct interest to NATO or to the Atlantic community as a whole, or, in the case of SEATO awards, concerned with social, economic, political, cultural, scientific and educational problems of Southeast Asia.

More information or application forms may be obtained by writing the committee.

INSURANCE COUNSELING

A representative of Blue Cross-Blue Shield will be available to assist Texas Tech employees from 2 to 5 p.m. Wednesday, Nov. 1, in the Personnel Office. The purpose is to answer questions regarding coverage, help in filing a claim, or assist employees to enroll in any of the programs.

CALENDAR BY PHONE

To keep students and faculty up-to-date on what's happening at the University Center, the Art Design Committee has installed a code-a-phone with a 30-second recording of the week's calendar of events. The number to call is 742-6200.

EXHIBITS

ART OF THE ITALIAN RENAISSANCE -- Texas Tech Library
SISTINE CEILING, SEEN FOR THE FIRST TIME -- The Museum, until Oct. 22
TOM FRICANO PRINTMAKER -- Art Building Gallery, until Oct. 27
THE COWBOY IN AMERICAN PRINTS -- The Museum, opens Oct. 29
THE YAQUI -- The Museum
TREASURE OF THE MONTH, Perfume bottles from collection of Dr. Norma Walker -- The Museum

SPECIAL PROGRAMS

KTXT-TV, Channel 5, in October will carry two special programs dealing with the education of retarded children. "What Shall We Do for Thursday's Child?" is a 90-minute special beginning at 8:30 p.m. Saturday, Oct. 21. Within the Dateline America series, a 30-minute special, "Somebody Waiting," will be shown at 7:30 p.m. Tuesday, Oct. 31.

APPOINTMENT

Ray Janeway has been designated dean of Library Services for the University Complex, effective Oct. 1. President Grover E. Murray made the announcement.

In addition to his former responsibilities for the central Library, the departmental reading rooms and the Southwest Collection, Janeway now has the coordinating responsibility for the libraries of the School of Law and the Texas Tech University School of Medicine.

PHI KAPPA PHI

Texas Tech personnel who are members of the honorary organization, Phi Kappa Phi, are invited to affiliate with the local chapter by contacting Dr. Charles E. Dale, treasurer, College of Business Administration, Campus. Dr. Joe A. Adamcik of the chemistry faculty is president.

ELECTION

D. M. McElroy, director of Continuing Education, has been elected president of the Texas Association for Community Service and Continuing Education and secretary-treasurer of Region III of the National University Extension Association.

NSF INCREASES SUPPORT FOR FOREIGN PROJECTS

The National Science Foundation has announced it is increasing its research support for programs using excess foreign currencies.

Projects conducted under the Special Foreign Currency Program (SFCP) will be designed to be of mutual benefit to the U.S. and the participating country. They enable U.S. and foreign scientists and engineers to exchange and promote the best use of major research facilities. Opportunities allow U.S. scientists to conduct work abroad which often involves access to unique local resources and research environments.

The seven nations where funds are available for new projects are Burma, Egypt, Guinea, India, Pakistan, Poland and Tunisia.

For more information write the Office of International Programs, National Science Foundation, Washington, D. C. 20550.

TELEPHONE DIRECTORIES

Departments needing additional copies of the 1972-73 Campus Telephone Directory may pick them up at the Office of Information Services, Room 220, Administration Building.

VOL. 3, NO. 10, NOV. 1, 1972

NEW FRINGE BENEFIT OFFERED BY COMPLEX

Open enrollment is taking place now and will continue until Nov. 3 for a new Group Voluntary Accidental Death and Dismemberment Program for employees of the Texas Tech University Complex.

Fidelity & Casualty Company of New York, a Continental Insurance Company, is the underwriter.

Group premium rates are low and guaranteed for three years for coverage up to \$100,000 for individual employees, employees and their families, or employees and dependent children. Coverage is for accidental death, dismemberment and permanent, total disability.

Company representatives are in Room 42 (Payroll-Personnel area) of the Administration Building and in the foyer outside the Faculty Club from 9:30 a.m. to 5 p.m. daily through Nov. 3 to explain the program, answer questions and assist in making application. Enrollment closes Friday, Nov. 10, with coverage effective Dec. 1, 1972.

Employees may enroll by returning completed enrollment cards mailed them. This must be done by Nov. 10.

Group meetings have been scheduled for employees in service departments and may be arranged for other groups by making a request of Personnel Director Charles Strawn, 2-1112.

CONTEMPORARY MUSIC SYMPOSIUM NOVEMBER 1-10

SAVINGS BONDS OFFER OPPORTUNITY

Texas Tech's annual U.S. Savings Bond sales campaign will start Nov. 1, providing the opportunity for systematic saving by purchasing bonds through a payroll deduction plan.

Advantages include: safety -- with replacement of lost, stolen or destroyed bonds with principal and interest guaranteed; interest -- 5.5 per cent if held to maturity; tax advantages -- no state or local income tax or interest (federal tax may be deferred until redemption); cash reserve -- a bond may be cashed any time after two months; and convenience -- payroll deduction makes saving automatic.

Bond salesmen have been appointed in all major segments of the university complex. If you wish to purchase bonds and have not been contacted, call Campaign Chairman Clyde J. Morganti, 2-6194.

GOVERNOR SMITH SIGNS BILL RESTORING \$7.5 MILLION TO TTUSM

Gov. Preston Smith affixed his signature on legislation restoring \$7.5 million in construction funds for the Texas Tech University School of Medicine in ceremonies at the medical school Oct. 26.

The bill restored to TTUSM and the University of Texas Medical School at Houston funds which the governor had transferred to the State Department of Public Welfare in 1970 to avert a crisis and to avoid calling a special session at that time.

In signing House Bill No. 40, the governor stated that "the construction and the medical education programs of these schools can now proceed rapidly and without obstacles.

"In the past four years," he commented, "we have created more medical schools in Texas than have been established in the entire previous history of our State. We are answering the needs of our people in this way, just as we are by increasing our efforts in every area of education.

"And, I am pleased to note, as Tech's Chairman of the Board did in his introduction, that appropriations to this great University have increased 91 per cent since 1969."

Chairman Bill Collins of the Texas Tech University and the TTU School of Medicine Boards of Regents introduced the governor after welcoming guests including: Regents Field Scovell of Dallas and Clint Formby of Hereford; Lubbock Mayor Morris Turner, State Reps. Delwin Jones of Lubbock, E. L. Short of Tahoka, Bill Clayton of Springlake, and the Democratic nominee for state representative, James E. (Pete) Laney of Hale Center.

HOMECOMING '72: BIG DAYS FOR EX'S

Texas Tech's Red Raiders will meet Texas Christian's Horned Frogs in Jones Stadium at 2 p.m. Saturday for the highlight of Tech's traditional two-day Homecoming Nov. 10-11. Pregame activities start at 1:45 p.m.

Missing for the first time in generations will be the Saturday morning parade, but that time segment will offer open houses by academic colleges and schools of the university, departments, and sororities and fraternities.

KICKOFF

A perpetual scholarship fund honoring W. L. Stangel, dean emeritus of the College of Agricultural Sciences, will have its official kickoff Saturday, Nov. 11, at the college's homecoming breakfast. The dutch treat affair starts at 7:30 a.m. in the Livestock Pavilion.

Faculty and staff who have retired in the past year and new Ex-Student

Association officers will be honored at a reception Friday, Nov. 10, from 3 to 4:30 p.m.

The Century Club's annual dinner is scheduled for 6:30 p.m. Friday in the University Center.

A luncheon for ex-students and alumni and friends of the university will be from 11:30 a.m. to 1 p.m. in the Municipal Coliseum.

Classes to be honored include those from 1925-50, at a reunion dance at the KoKo Convention Center beginning at 9 a.m. Nov. 10, and those from 1956-60, honored at a reception beginning at 9:30 a.m. in the Ex-Students Building Nov. 11 and at the Homecoming Dance starting at 9 p.m. Saturday at KoKo Palace.

At the University Center Friday, there will be a 9:30 a.m. coffee for the Ex-Students Association Executive Board and Loyalty Fund Trustees; a 10 a.m. meeting of the board and trustees; an 11 a.m. coffee for past presidents of the association; a luncheon honoring Association Council members and a 1:30 p.m. meeting of the Council.

THE LAST WORD

A final note on the 80th annual conference of the American Society for Engineering Education held June 19-22 at Texas Tech could well be the ending lines of a review of the meeting printed in the October issue of *Engineering Education*:

"In general, the 80th annual ASEE Conference was a huge success, one which opened the eyes of many who weren't aware of the strength, power and size of Texas Tech nor the scope and size of west Texas. As one senior Society official was heard to say, 'How could this superb school have grown up under our very noses and us not know of it. I'm amazed -- and delighted.'"

OVER THE TOP!

Texas Tech University's goal of \$30,000 for the Lubbock United Fund was topped by \$215 Monday, Oct. 30. The sum does not include student contributions made apart from the institutional goal. Gifts support 33 agencies.

EXHIBITS

ANNUAL DEPARTMENT OF ART FACULTY SHOW - Art Department Gallery, opens Nov. 5

ART OF THE ITALIAN RENAISSANCE - Texas Tech Library

THE COWBOY IN AMERICAN PRINTS - The Museum, through Nov. 26

THE YAQUI - The Museum

TREASURE OF THE MONTH, Antique duck decoys from collection of Dr. Eric G. Bolen - The Museum

RANCH HEADQUARTERS

The *Smithsonian* magazine for November uses color photographs with the text for a seven-page article on the Ranch Headquarters at Texas Tech. "Cowboy ghosts feel at home at Texas museum" carries the headlined summary: "historians and preservationists saddle up to safeguard the drama of ranching from roving bands of television writers."

FINE ARTS DOCTORATE

The Coordinating Board, Texas College and University System, has approved a new Texas Tech University program leading to the doctor of philosophy degree in the fine arts.

REP. MAHON LOANS BUST TO MUSEUM

U.S. Rep. George H. Mahon has placed on indefinite loan to The Museum of Texas Tech University a bronze bust of himself, presented the congressman by Texas Farm Bureaus in his 19th District.

The Farm Bureau said the gift of the statue to the chairman of the House Appropriations Committee was made to symbolize Mahon's standard of excellence, "a permanent reminder of the greatness of George Mahon."

Dr. Craig C. Black, director of The Museum, deemed the loan "extremely appropriate" in view of Mahon's interest in the university and The Museum.

Mahon spoke at the dedication of The Museum in 1970.

TECH EMPLOYEES' MERIT PAY RAISES TOTAL 8.5 PER CENT

Texas Tech University is awarding, on a merit basis, pay increases totaling 8.5 per cent for classified employees. The pay boost includes the employees' anniversary merit increases amounting to 5 per cent plus a 3.5 upward adjustment in the university's pay plan.

The new pay plan became effective Oct. 19, immediately after the U.S. Congress adjourned without passage of a federal law increasing the minimum wage level. All funds appropriated by the Texas Legislature for salary increases during the current fiscal year will be used for the raises.

NEW APPOINTMENT FOR DR. NANCY BOZE

Dr. Nancy Boze, a member of the College of Education faculty, has been appointed to the State Board of Examiners for Teacher Education. She is one of two university professors on the 27-member board. Dr. Morris Wallace, also of Tech's education faculty, is retiring from membership after having served on the board for more than 13 years.

CALENDAR

- NOV. 1 Student Recital, Room 1, Music Bldg., 4:30 p.m.
"Economics of Personal Financial Planning," KTXT-TV, 6:30 p.m.
Feiffer's People, Municipal Auditorium, 8 p.m.

MURRAY ISSUES STATEMENT ON CAROL OF LIGHTS

Texas Tech University President Grover E. Murray, in issuing a policy statement with regard to the Carol of Lights program, said:

"I deeply regret the circumstances which dictated this development. At the same time I hasten to point out that all who have been involved in the development of this fine tradition at Texas Tech now have a responsibility to make the best of the circumstances and to present the finest possible pageant.

"I want to give all those involved my personal assurance that I personally and the Office of the President are ready to assist in every way possible."

The policy statement is as follows:

Texas Tech University has over the past 13 years built a tradition in the Carol of Lights to which students, faculty and residents of the surrounding area have responded with obvious warmth and appreciation. This interest is of great value to the University which is now searching for a new location for the ceremony which precedes the turning on of the Christmas lights. The Carol of Lights Ceremony has traditionally been held in the Science Quadrangle adjacent to the Memorial Circle.

The need for a change in location is a consequence of a series of United States Federal Appellate Court decisions indicating that areas must be available for comparable uses to all groups who make a request for such use. On advice of legal counsel the University has developed rules which designate areas for specific uses so that these decisions may be implemented on this campus. The Carol of Lights Program can now be held on any of eight areas designated for such uses under these regulations.

The use of the quadrangle and circle areas has been restricted in the same regulations due to their proximity to academic areas. Under the recent Federal Appellate court ruling the University may not make a choice between uses and a continuing scheduling of events in these areas could interfere with classes and other academic events.

Students and administrators who are looking for new locations are planning carefully to allow the several aspects of the program to be coordinated. With the strong desire of all those involved to have a fine program, it is anticipated that the Carol of Lights will again this year be outstanding.

To move the geographical location of a tradition can in reality enhance the tradition. This goal, now undertaken by the University, will allow the rules to be obeyed and the tradition to grow.

TECH GETS HOLIDAY FOR THANKSGIVING

Classes will be dismissed at 12:30 p.m. Wednesday, Nov. 22, for the Thanksgiving holiday at Texas Tech University. Classes will be resumed at 7:30 a.m. Monday, Nov. 27.

Thursday and Friday, Nov. 23 and 24, are official holidays for all Texas Tech personnel and administrative offices will be closed those days.

TECH HOMECOMING SUCCESS--ALMOST

The Texas Tech University Homecoming for 1972, by all standards, was one of the greatest, best attended, and most successful -- with the exception of the lack of cooperation of the Texas Christian University Horned Frogs.

The Texas Tech Red Raiders lost to the Christians, 7-31.

Among faculty returnees for the occasion were Dean Emeritus W. L. Stangel (see story elsewhere in this issue of FYI) and former dean of Business Administration J. O. Ellsworth, both of whom were highly honored.

A former Miss America, Marilyn Van Derbur, spoke to an audience of 400 at the Century Club banquet Friday night.

Wilmer Smith of New Home, a former member of the Texas Tech University Board of Regents, was elected president of the Ex-Students Association and will assume duties Jan. 1, succeeding Trent Root Jr. of Dallas.

Manuel De Busk, also of Dallas and a former member of the Board of Regents, was named president-elect.

FACULTY COUNCIL TO MEET NOV. 28

The Fall Faculty Council meeting will be held Tuesday, Nov. 28, at 3 p.m. in the Ballroom of the University Center. Items for the agenda must be sent to Charles Dale, Faculty Council (or phone 2-2191) by Nov. 18, 1972.

Dr. Dale, professor of business administration, is chairman of the Executive Committee of the Faculty Council.

VOL. 3, NO. 11, NOV. 15, 1972

FEBRUARY CEREMONIES LAUNCH OBSERVANCE

Texas Tech University will launch a two-year celebration of its 50th anniversary with ceremonies commemorating Charter Day Saturday, Feb. 10.

An academic ceremony with a processional of faculty members and visiting dignitaries in full regalia and featuring announcement of 1972-73 Horn professors and recognition of academic and scholastic leaders will be held at 9:30 a.m. in the Municipal Auditorium.

Following the academic ceremony, a special exhibit of the History of Texas Tech University will be opened at The Museum.

Dr. Nevitt Sanford, psychologist and educator and scientific director of the Wright Institute in Berkeley, Calif., will deliver the principal address at the academic ceremony. Lt. Gov.-elect Bill Hobby of Houston has accepted an invitation to speak and officially open the exhibit of History of Texas Tech at The Museum. Hobby's father was a member of Tech's first Board of Directors and served as governor of Texas from 1917 to 1921.

The 50th Anniversary Activities Committee asks that persons having a past association with the institution inform the university in writing if they have suggestions for the two-year celebration. Mail suggestions to the 50th Anniversary Activities Committee, Department of Philosophy, Texas Tech University.

DR. MURRAY CREATES ACADEMIC COUNCIL

Texas Tech President Grover E. Murray has created the Texas Tech University Complex Academic Council composed of all TTU deans, the dean of the Medical School, and the director of The Museum.

It will be chaired by Dr. Murray, with Dr. Glenn E. Barnett, executive vice president, and Dr. S. M. Kennedy, vice president for Academic Affairs, as ex-officio members. Meetings will be held when deemed necessary and not on a regular basis.

The Complex Council will review new undergraduate programs for both TTU and TTUSM, with special reference to the possibility of overlapping instructional effort and resultant duplicative use of resources. It will project, as nearly as possible, the effect on instructional resources, of new TTUSM programs and the students who will be attracted by them, with respect to departments in TTU which will be called upon to provide academic offerings basic to the new programs, Dr. Murray said.

The Complex Academic Council will not replace nor assume the functions of the Texas Tech University Academic Council of the TTU-TTUSM Liaison Advisory Committee.

EXHIBITS

ANNUAL DEPARTMENT OF ART FACULTY SHOW -- Art Department Gallery, through Nov. 24

ART DEPARTMENT STUDENT SHOW - Art Department Gallery, opens Dec. 3

ART OF THE ITALIAN RENAISSANCE - Texas Tech Library

THE COWBOY IN AMERICAN PRINTS - The Museum, through Nov. 26

TREASURE OF THE MONTH - Antique duck decoys from collection of Dr. Eric G. Bolen, The Museum

THE YAQUI - The Museum

SOS PROPOSALS SOUGHT

The National Science Foundation seeks proposals for its Student Originated Studies (SOS) Program under which undergraduate students initiate, plan, and direct projects dealing with significant societal problems.

The Foundation expects to make approximately 140 SOS awards totaling some \$2 million during March 1973. Application deadline for the program is Nov. 30, 1972.

For additional information contact the Office of Research Services.

REGENTS MEET DEC. 1

The Board of Regents for the Texas Tech University Complex will meet at 3:30 p.m. Friday, Dec. 1, in regular session. The meeting will be preceded by committee meetings.

STANGEL FUND GETS HEALTHY BOOST

Contributions and pledges received at the Aggie Homecoming breakfast to the W. L. Stangel Perpetual Scholarship Fund have pushed the total to \$9,766.

Two \$1,000 gifts were presented in ceremonies at the breakfast, attended by a record crowd of 240 persons. W. C. (Brigham) Young, Fort Worth, a Texas Tech University ex-student, presented two checks of \$500 each from companies he represents, National Farm Life Insurance and Agricultural Workers Auto Insurance Co.

A \$1,000 contribution was received from A. B. Kirk Edwards, representing the Kirk Edwards Foundation of Henrietta. Stangel, dean emeritus of Agricultural Sciences, attended the breakfast and spoke briefly.

VOL. 3, NO. 12, DEC. 6, 1972

THEME AND SEAL ADOPTED

The theme of Texas Tech University's 50th anniversary observance will be "Matured by the past--challenged by the future."

Suggestion for the theme was made by Civil Engineering Prof. Fred P. Wagner

The winning seal design was submitted by Jerry D. Kelly, manager of the Publications Bureau of the University's Information Services.

HISTORICAL MATERIALS

Persons who have photographs or other materials relating to the history of Texas Tech University are asked to call Alfred D. Bjelland, coordinator for Museum Services, at The Museum of Texas Tech University if the materials may be used for a 50th Anniversary exhibit on the institution's history. The telephone number is 742-5151.

REGENTS MOVE TO SPEED TTUSM BUILDING

The Board of Regents for Texas Tech University School of Medicine appointed H. A. Padgett Jr. of Lubbock construction manager for phase one of the TTUSM building program at its Dec. 1 meeting.

Regent Trent Campbell, chairman of the Campus and Building Committee, said he believed such action would bring about facilities for the School of Medicine a year to 18 months sooner than otherwise.

It was reported to the Board that 400 interviews have been scheduled with applicants for enrollment in the School of Medicine in the fall and that 289 of them have been completed.

The Board authorized further development of educational programs to facilitate establishment of the Amarillo Health Education Center and approved several medical school affiliation agreements, including those with VA hospitals at Amarillo and Big Spring, and agreements with the Lubbock Medical Center Hospital, the Presbyterian Center and the City-County Maternity Clinic in Lubbock.

Public Relations and Legislative Committee Chairman Clint Formby said the School of Medicine was "probably the most significant happening" to Texas Tech since it was established, but he also called attention to good reports from the College of Agricultural Sciences, Mass Communications and on expansion of the Music-University Center Building plans.

DR. MURRAY ANSWERS QUESTIONS ON TENURE POLICY

President Grover E. Murray answered questions regarding the university's tenure policy, on denial of tenure and on granting tenure at the fall meeting of the Faculty Council Tuesday, Nov. 28.

The questions had been proposed by the Texas Tech Chapter of the American Association of University Professors (AAUP).

He said:

ON TENURE POLICY GENERALLY --

It is protective of "academic freedom" to the extent that any statement is protective. Faculty with or without tenure enjoy citizenship without regard to their status in the professional ranks of the University.

Neither the faculty nor the University as a whole would be well served by a policy which "unduly" favors the incompetent and perpetuates mediocrity. The other side of the coin is that since the faculty members have a major role in the determination of peer competence they must take very seriously the responsibility for careful screening when tenure is bestowed and then be prepared to be equally insistent upon professional performance after tenure is acquired.

In one instance, the administration has considered initiating proceedings in accordance with the tenure policy against a faculty member whom it believes has not lived up to his professional responsibilities and the fact gathering phase is already well along.

The decision to vest tenure could easily amount to the allocation of institutional resources in excess of \$500,000 over a 35-year period. The decision commits students in the 21st Century to the classes of the 30-year-old acquiring tenure now. The magnitude of the decision is obviously great and the decision deserves everyone's best efforts. Dr. Murray pointed out in passing that the expenditures were, of course, for services rendered.

Regularly and meticulously the rationale for tenure as a principle of higher education and the processes for recommending it at Texas Tech are reviewed with Regents and other appropriate public bodies.

ON DENIAL OF TENURE --

The administration does not give written reasons for denial of tenure. Written reasons are not required nor is a hearing required unless statements, in writing or orally, challenge the professional competence or impugn the character of the person under consideration.

When the traditional professional relationship between faculty and administrators is altered by the introduction of formal legal counsel on the part of the faculty member, most administrators consider the matter to have shifted to another milieu -- that of the judicial approach.

The Tenure and Privilege Committee was set up in the original policy statement to provide for the "continuous study of pertinent problems and the interpretation of the Tenure Policy and its application to individual situations . . ." Since the membership of the committee includes at least two administrators who will have participated already in the cases under review the entire committee is obviously not an appropriate body for conducting appeals.

ON GRANTING TENURE --

The request for additional consideration of some of the applicants for tenure last year was based essentially on desire to get as current reactions from the departments as possible on a category of faculty -- mostly assistant professors -- who were being recommended for tenure and either not mentioned for promotion or with recommendations against promotion at the same time. The decision was made in the light of the importance of tenure and the belief that one who is "good enough to keep" is "good enough to be considered for senior academic rank," and in view of the opportunity to extend the period of observation for some months to allow further judgment by the faculty peer groups.

Letters from external sources regarding applicants for tenure are intended to augment the information available to the faculty rather than to supersede or override internal evaluations. On some groups of individuals very little information may be available outside the University.

Letters from external sources became a part of the personnel file submitted at the time of consideration and are available for review by those who review the file generally. Obviously no fixed weight ought to be ascribed to this source of data, since the whole process is a recommending one until acted upon by the Board.

Last year the ballots from one school or college were included in the applications which went forward to the office of the Vice President for Academic Affairs. That office noted the inclusion, gathered them up and returned them to the office of the Dean without their having been reviewed by anyone in the formal channel for recommendation. Transmittal of the ballots beyond the office of the Dean was not appropriate but was not consequential.

CREDIT CARDS

The Office of Contracting and Purchasing asks that if you use a gasoline and oil credit card issued to your department or a research account and you want to use a different account number for payment, please write the other account number on the sales ticket when making the purchase at the service station.

EXHIBITS

WEST TEXAS WATERCOLOR SOCIETY ANNUAL EXHIBITION -- The Museum, opens Dec. 10

STUDENT ART SHOW -- Art Department Gallery, through Dec. 20

ART OF THE ITALIAN RENAISSANCE -- Texas Tech Library, through December

TREASURE OF THE MONTH -- Dolls of many lands from collection of Dee and Tracy Dockray, The Museum

THREE RECEIVE TEACHING AWARDS

James G. Allen, professor emeritus of English, Dr. James E. Halligan, associate professor of chemical engineering, and Leonid Jirgensons, assistant professor of classical and Romance languages, have been named recipients of the 1971-72 Distinguished Teacher Awards.

Each receives a \$1,000 cash award made possible through the generosity of a grant from the Standard Oil (Indiana) Foundation, Inc.

SHARE A HOLIDAY?

Faculty and staff who want to share all or part of the holiday season (Dec. 19-Jan. 9) with international students far from home are asked to notify Dr. Sunanda Mitra, chairman of the Holiday Dinner Program, at 2-1269 or 799-3420, or call Robert Burnett, special student adviser, at 2-4163.

CAROL OF LIGHTS RULING UPHELD

The Texas Tech University Board of Regents has supported an administration ruling prohibiting the use of Memorial Circle and adjoining quadrangles for the Carol of Lights program.

The Board Dec. 1 complimented Student Association President Greg Wimmer for his presentation before the Board in behalf of the program and told him all members were sympathetic toward the traditional holiday pageant.

Board Chairman Bill E. Collins said the regents instructed the administration to continue to search every avenue possible for a means of holding the program in the future.

Academic and Student Affairs Committee Chairman Judson F. Williams reported that the 1972 fall record enrollment for Texas Tech was encouraging as was the report of the ratio of classroom hours taught, a ratio substantially above that required by the Legislature.

In other action, the Board:

*Voted to ask legislative permission to deed 3.365 acres of land from the Texas Tech University Center at Junction for widening Highway 377;

*Authorized continuation of renovation of the TTU Center at Junction, using \$250,000 appropriated in 1972. Authorization also was given for planning a study unit at Junction.

*Approved preliminary design of the Central Heating and Cooling Plant expansion program and authorized the administration to go ahead with drawing up contract documents; and

*Approved salary raises of \$1,000 to \$2,000 for members of the football coaching staff.

TEXAS TECH LOSES TWO GOOD FRIENDS

Dr. Gordon C. Lee, dean of the College of Education, and Dr. Clifford B. Jones, president-emeritus of the University, have died within the last fortnight.

The Board of Regents approved resolutions in appreciation of both men in its Dec. 1 meeting and President Grover E. Murray paid tribute to them at the fall meeting of the Faculty Council.

TECH MED SCHOOL IN "GOOD SHAPE"

President Grover E. Murray reported to the Texas Tech University Faculty Council Nov. 28 that the TTU Medical School is in "good shape" and is on schedule in every phase of its development.

He dispelled any rumors to the contrary and said there is no danger that it might lose accreditation. Two more classes of medical students will be enrolled in the fall, and the first graduates will receive their degrees in the spring of 1974.

Dr. Murray also reported that all funds earmarked for the 6.8 per cent increase for classified non-faculty personnel have been allocated and employees have begun receiving those increases.

Dr. Murray also announced that an accumulation of funds during the current biennium, through careful budgeting and expenditures, will permit limited increases for instructional personnel.

These increases will be on a merit basis and cannot exceed 10 per cent unless there have been promotions or added responsibilities to the recipient's position. He also announced other criteria for granting the increases which will become effective Jan. 1.

CALENDAR

- DEC. 6 Geosciences Lecture, Dr. Ralph Grim, "Clay Minerals: Their Mode of Origin and Distribution in Soils," Room 233, Science Bldg., 3:45 p.m.
Student Recital, Room 1, Music Bldg., 4:30 p.m.
"The South Plains Economy," Panel discussion, Dr. Robert Rouse, moderator, KTXT-TV, 6:30 p.m.

VOL. 3, NO. 13, DEC. 20, 1972

CARE TO JOIN DUDLEY JOHNS BOOSTERS?

The Texas Tech University Foundation recently received a copy of this letter from a New Mexico architect:

Dear Dudley:

I know of no one in or around Tech who did as much to create a warm and friendly campus as you did in your many years of service.

My regret is that the University, which you saw grow so dramatically, did not have a chance to let me and the many other Friends of Dudley join to recognize you on your retirement.

A copy of this letter and a small check is going to the Tech Foundation toward a Friends of Dudley Scholarship or whatever they may prefer to call it. It's

the only way I know to partially repay you for your warm greeting to me on the many days we crossed paths.

May you be blessed in your retirement by your many years of service to your friends.

Sincerely,

Charles E. Nolan, Jr. AIA

If there is a reader who must ask, "Who's Dudley?" he delivered mail on the Tech campus until his retirement last July. The Friends of Dudley Johns Scholarship fund has been established by the Foundation for any who care to join Nolan.

NEW HIGH VOLUME AD&D INSURANCE WELL ACCEPTED

Initial response of the Texas Tech University faculty and staff to the new high volume accidental death and dismemberment program indicates that many employees need and want this type of coverage, said C. B. Strawn, director of personnel.

The enrollment program was conducted in two parts. During the first two weeks, 641 employees purchased more than \$38 million of coverage. During the extended one week enrollment an additional 176 employees purchased \$10 million of coverage, resulting in a total of 817 employees purchasing \$48,265,000 coverage for themselves and their dependents.

Coverage became effective Dec. 1, 1972, for employees who enrolled in the program. These employees will receive a certificate of insurance in the near future. Strawn said cost of coverage is guaranteed for three years.

Strawn said faculty and staff members who purchased AD&D coverage under the university program should check the policy provisions of any other AD&D coverage they have, including air travel insurance. The Tech program will pay benefits irrespective of other AD&D coverage. However, a common provision in AD&D coverage is to set a maximum of benefit payment, usually \$100,000, to be paid from all sources of AD&D coverage.

"If, for example, you have a private policy for \$100,000 coverage (with this limiting clause in your policy) and also signed up for \$100,000 coverage with the university program you might be paying premiums on the private plan without having that coverage," Strawn said.

Any employee who decided not to enroll in Tech's program at this time, but later decides to do so, will have other opportunities. Another open enrollment period is tentatively planned to be scheduled sometime before the summer of 1973. Further information will be provided concerning this when a definite date is established.

GUIDE TO STUDENT ORGANIZATIONS OUT

A new publication titled *On Campus*, a guide to student organizations at Texas Tech, is now available in the office of the Assistant Dean of Students for Programs, Room 233, West Hall.

On Campus contains a list of 218 registered student organizations, a brief description of each, and the names and addresses of their presidents and sponsors. Information pertaining to student organizations and activities not found elsewhere in university publications is also included.

The 32-page booklet was issued as part of the official University Bulletins series. Copies will be distributed to all organizations and faculty members. Additional copies are available upon request.

DINNER AND MEETING APRIL 27 WILL HONOR RETIRING FACULTY

A dinner and meeting to honor faculty and staff members whose retirement from Texas Tech University falls between Sept. 1, 1972, and Aug. 31, 1973, will be held at 6:30 p.m. April 27, 1973, in the Main Ballroom of the University Center.

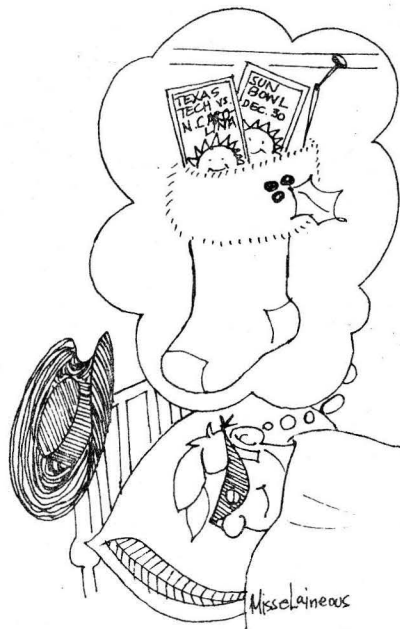

The Committee on Retired Faculty and Staff has invited every faculty and staff member to participate in helping bring Mr. and Mrs. Dudley Johns back to the campus for the dinner and recognition service. Johns served as campus mail carrier for 31 years. Persons wishing to participate in the effort are invited to send or take their money to Joe Winegar, Room 138, West Hall.

The committee also suggests that faculty and staff consider giving tickets for the dinner to friends who are retiring for Christmas presents. Tickets are \$2.50 each. Orders for tickets should be sent to Prof. Haskell Taylor, College of Business Administration, Campus.

Prof. Taylor is chairman of the Committee on Retired Faculty and Staff.

A clinic on retirement will be conducted on the morning of April 28 by Frank Jackson, executive secretary of the

Teacher Retirement System of Texas. Everyone within four or five years of retirement age is urged to attend.

NEW JOBS

Dean Anson R. Bertrand of the College of Agricultural Sciences Nov. 2 was named president-elect of the 4,200 member Soil Science Society of America. He will serve as president during the 1973-74 term. The election was held at the society's annual conference in Miami.

Dean E. Smith, purchasing agent for Texas Tech, has been selected the 1972-73 chairman of the Texas-Oklahoma-Arkansas Group of the National Association of Educational Buyers.

AT NEW LOCATIONS

The office of Richard P. Klocko, director of Personnel Relations in the Office of the President, has been moved to Room 17, Holden Hall, telephone 742-6208.

The office of Dr. Louis Levin, special consultant to the Office of Academic Evaluation and Planning, has been moved to Room 8, Holden Hall, telephone 742-5266.

MEMORIAL SCHOLARSHIP FUNDS ESTABLISHED

Memorial funds honoring the late Dean Gordon C. Lee of the College of Education; Dr. Clifford B. Jones, president emeritus of Texas Tech, and Mary Staudt Goodyear, honor graduate of the College of Home Economics, have been announced by Dr. Clyde E. Kelsey Jr., vice president for Development.

Dr. Jones and Dr. Lee died in November and Mrs. Goodyear was fatally injured about two months ago when struck by a car at Plains. Her husband, William Goodyear, a graduate student in sociology, established the memorial scholarship fund in the College of Home Economics.

The funds honoring Dean Lee will also go for scholarship support. The Dr. Jones fund has not been specifically earmarked.

RETIREMENT OFFICE WANTS TO KNOW SOON

Faculty and staff members who expect to retire this spring should contact the office of the Teacher Retirement System of Texas now for an estimate of their benefits.

Frank Jackson, executive secretary of the system, said an early contact with the retirement system office should expedite the processing of cases since there is a heavy workload in the office during the first few months of each year.

Jackson will be at Texas Tech April 28 to address faculty and staff planning to retire in the spring and individual interviews can be scheduled during that morning. Each interview should take about 20 minutes if prior preparations have not been made. Some will have to be scheduled during the afternoon if more than eight or ten persons want individual interviews.

Prof. Haskell G. Taylor, chairman of the Committee on Retired Faculty and Staff, has suggested that those persons approaching and planning for retirement inform the office of the Vice President for Academic Affairs

The address of the Teacher Retirement System of Texas is 314 West 11th St., Third Floor, Lowich Building, Austin, Texas 78701.

EXHIBITS

WEST TEXAS WATER COLOR SOCIETY ANNUAL EXHIBITION -- The Museum, through Jan. 12

ART OF THE ITALIAN RENAISSANCE -- Texas Tech Library

JANET LIPPINCOTT, Paintings and Sculptures -- Art Department Gallery, opens Jan. 14

DEC. 30 Pre-Sun Bowl Game Reception for Texas Tech ex-students, friends and boosters, International Club, State National Bank Bldg., El Paso, 8:30 a.m. to 10 a.m. MST

DEC. 30 Sun Bowl Football Classic, Texas Tech vs. North Carolina University, El Paso, 11 a.m. MST, 12 noon CST.

JAN. 4 Basketball - Creighton at Lubbock, 7:30 p.m.

JAN. 6 Basketball - Utah State at Logan, Utah

JAN. 10-13 Registration for Spring Semester

JAN. 10 Faculty Council meeting, Room 208, Administration Bldg., 3:30 p.m.

JAN. 12 All-University Dance, BABY Rock Group, University Center Ballroom, 8 p.m.

JAN. 13 Basketball - SMU at Lubbock (Southwest Conference Game)

JAN. 15 Classes begin.

JAN. 10-13 Registration for spring semester.

MUSEUM TO SPONSOR HIGH SCHOOL TRIP

High school students in grades 10 through 12 will participate in a Dec. 27-Jan. 2 holiday field expedition sponsored by The Museum of Texas Tech University.

The group will headquarter at the Texas Tech University Center at Junction where students will study the land formation, wildlife and history of the Texas Hill Country on the Llano River.

Principal instructors will be Dr. John P. Brand, geologist, and Daniel R. Womochel, graduate student in biology.

The expedition will be limited to 25 participants on a first come, first served basis. A check for the \$35 registration fee should be enclosed in applications to A. D. Bjelland, The Museum of Texas Tech University, P. O. Box 4210, Lubbock, Texas 79409. Additional information may be obtained by calling Bjelland at 742-5151. Registration deadline is today, Dec. 20.

APPOINTMENTS

President Grover E. Murray has been appointed to two special groups, one in the area of arts and humanities serving the National Association of State Universities and Land Grant Colleges and the other in the area of medical education serving the Coordinating Board, Texas College and University System.

He will serve the NASULGC Senate on an eight-member committee which will act as liaison between the association and the national Foundation for the Arts and Humanities.

For the Coordinating Board, Dr. Murray is one of 11 named to a Task Force to assist an Advisory Committee on Medical Education in Texas. The group has been asked to develop for the advisory committee the information necessary for making reasonable decisions regarding medical education which will have "a great impact" on future health care and quality of life in Texas.

VOL. 3, NO. 14, JAN. 17, 1973

SOCIAL SECURITY DEDUCTIONS FOR 1973 INCREASED

All Texas Tech faculty and staff subject to Social Security will have a larger deduction in 1973, starting with the January paycheck.

This year deductions will be made at the rate of 5.85 per cent on wages earned up to \$10,800 as compared with 5.2 per cent on wages earned up to \$9,000 in 1972, according to Charles B. Strawn, director of Personnel.

University contributions to Social Security will increase in exactly the same amounts.

Reasons cited for these increases by the U. S. Department of Health, Education and Welfare/Social Security Administration include, "...putting the hospital insurance program under Medicare on a sound financial basis and extending the protection of Medicare to disabled people under 65", as well as new and expanded benefits. A most significant change was to establish an automatic increase in benefits for future years to keep up with increases in cost of living.

The effect of these changes on employee deductions, Strawn said, will be:

An employee whose salary was at or below \$9,000 in 1972 paid \$52 in Social Security for each \$1,000 of wages earned. An employee whose salary is at or below \$10,800 in 1973 will pay \$58.50 for each \$1,000 of wages earned. This is an increase of \$6.50 per each \$1,000 wages earned.

An employee whose annual salary was over \$9,000 in 1972 paid Social Security on the first \$9,000 earned in wages for a total of \$486 per year. An employee whose annual salary is over \$10,800 in 1973 will pay on the first \$10,800 earned in wages for a total deduction of \$631.80 per year. This is an increase of \$163.80 per year.

For additional information concerning Social Security benefits or deduction amounts, contact the Social Security Administration office, 1205 Texas Avenue, telephone 747-3711, ext. 381, or the Texas Tech Personnel office, telephone 742-1112.

HARAGAN IS APPOINTED GEOSCIENCES CHAIRMAN

Dr. Donald R. Haragan has been appointed chairman of the Department of Geosciences at Texas Tech. He has been serving as acting chairman since July 1, 1972, shortly after the death of Chairman William D. Miller in an airplane crash.

Dr. Haragan has been a member of the Tech geosciences faculty since 1969, coming from the University of Texas at Austin where he had received his Ph.D. in 1969.

REGENTS TO MEET

The Boards of Regents for Texas Tech University and the Texas Tech University School of Medicine will meet at 3:30 p.m. Friday, Feb. 2, in the Regents' room.

ALLIED HEALTH SCIENCE PROGRAMS PLANNED

Texas Tech President Grover E. Murray has announced that Dr. Francis J. Behal, Ph.D., chairman of Allied Health Science in the School of Medicine, will be responsible for planning a broad spectrum of baccalaureate programs in Allied Health.

These programs will include such disciplines as occupational therapy, physical therapy, inhalation therapy and radiologic technology.

Such programs are usually structured so that students acquire two years of lower division courses (freshman and sophomore) to constitute their general education followed by two years of professional courses in a particular discipline.

Behal will be contacting appropriate department chairmen at Texas Tech University in regard to planning these programs so that the university departments may adequately plan for increases in enrollment as these allied health programs are activated.

Department chairmen with questions should contact Dr. Behal at the School of Medicine, 742-5279.

TECH CREDIT UNION TO ELECT OFFICERS

New officers are to be elected and six board vacancies filled at the annual shareholders meeting of the Texas Tech Federal Credit Union Jan. 25 in the University Center. Door prizes and special entertainment will be added attractions at the 7:30 p.m. meeting in the Coronado Room, according to TTFCU Pres. Berl M. Abel.

RANGE CHAIRMAN HERE

Dr. Donald F. Burzlaff, chairman of the Department of Range and Wildlife Management, assumed duties as head of the department Jan. 1. He comes from the University of Nebraska where he was professor of agronomy.

Dr. Burzlaff received bachelor's and master's degrees from the University of Wyoming in 1950 and 1952, respectively, and his doctorate from Utah University in 1960.

50TH ANNIVERSARY SPEAKERS HAVE TIES WITH TTU INTERESTS

Nevitt Sanford, who heads Wright Institute in Berkeley, Calif., and has among his special interests a concern for college teaching, and Lt. Gov. Bill Hobby will help Texas Tech University inaugurate its 50th Anniversary as principal speakers Charter Day, Feb. 10.

Homer D. Wade, who witnessed the signing of the legislative bill creating Texas Tech, wrote of its effect in West Texas:

"The emotion of all West Texas, when the news was flashed that the Texas Technological College was now an assured fact, cannot be described."

State Rep. Lewis T. Carpenter of Dallas called it "the dawning of a new day, industrially and educationally, for Texas."

One of the bill's co-authors, R. A. Baldwin of Slaton, called it "the greatest day for West Texas in the history of the state."

"The dreams of years had at last been realized," said Wade, who represented the West Texas Chamber of Commerce which had establishment of the college as a major goal, "and all West Texas was happy."

Bill Hobby's opening of the exhibit of the History of Texas Tech University at The Museum at 11 a.m. is particularly significant because his father, William P. Hobby, served as governor of the state during the time that West Texas was working to secure the institution for its area.

The younger Hobby is president and executive editor of the Houston Post. He has served on the Board of Regents of the University of Houston and has held various national and state committee assignments. He has six times been a member of the jury recommending winners of the Pulitzer Prize in Journalism.

Dr. Sanford, who will speak at the 9:30 a.m. academic ceremony, is recognized as one of America's leading educational innovators. He is the founder and scientific director of the Wright Institute. Sanford is known for his work on authoritarianism, prejudice and collective destructiveness, higher education, child development, alcohol problems, and prison psychology.

The Institute has a four-year Ph.D. program in social-clinical psychology and accepts a few post-doctoral students each year.

BEEF AVAILABLE

The Meats Laboratory in the College of Agricultural Sciences has begun taking orders for beef halves or quarters. Prices depend on the current market.

There also will be a large supply of ground beef available from the Meats Laboratory. For further information, telephone 742-4294.

EXHIBITS

JANET LIPPINCOTT, Paintings and bronzes - Art Department Gallery, through Feb. 2

WILLIAM FAULKNER'S WORLD, Manuscripts, first editions and photographs - The Museum, Jan. 24-31

TREASURE OF THE MONTH, Limited edition of historical coins from the collection of Royce Waltrip - The Museum

ART OF THE ITALIAN RENAISSANCE - Texas Tech Library

KENNEDY IS APPOINTED UNIVERSITY PROFESSOR

Dr. S. M. Kennedy has resigned as vice president for Academic Affairs and has been appointed University Professor. Both the resignation and the appointment become effective May 31.

Texas Tech President Grover E. Murray said he is immediately instituting a search for a vice president for the Office of Academic Affairs.

Nominations for Dr. Kennedy's successor should be sent to the Office of the President.

"Counsel of the Horn professors and deans, among others, will be utilized in evaluating the qualifications of those nominated," Dr. Murray said.

LEPHONE DIRECTORIES SHOULD BE PICKED UP

Departments which have not picked up the new December 1972 editions of the Lubbock Telephone Directory are asked to do so before Jan. 31 in Room 152, Administration Building.

Copies of the 1972-73 Texas Tech University Complex telephone directories may be obtained from the Office of Information Services, Room 220, Administration Building.

Cost of the Texas Tech directories is 50 cents or they may be charged to departmental accounts.

TECH RECEIVES GRANT

The National Science Foundation has announced the award of \$15,666 to Texas Tech University "to help it sustain its science programs." This is the fifth consecutive year for such a grant to Texas Tech.

JAN. 24 Lecture - "Environmental Geology and Genetic Mappings," Dr. L. F. Brown, Room 233, Science Bldg., 3:45 p.m.
"Introducing the Symposium on William Faulkner," Interview with Dr. Wendell M. Aycock, Dr. Robert G. Collmer and Ann A. Daghistany, KTXT-TV, 6 p.m.
First program in the Comparative Literature Symposium on William Faulkner, Scenes from "Journey to Jefferson," by Department of Speech & Theater Arts; Music by Dr. James Barber and Dr. Thomas Redcay, The Museum 7:30 p.m.

JAN. 25 "William Faulkner: Prevailing Verities and World Literature," Comparative Literature Symposium, University Center, 8:30 a.m. - 5 p.m.
Campus News, KTXT-TV, 6 p.m.
Texas Tech Federal Credit Union annual shareholders meeting, University Center, 7:30 p.m.
Artists Series - San Antonio Symphony Orchestra and

Texas Tech University Choir, Municipal Auditorium, 8:15 p.m.

JAN. 26 Auditions for "Six Flags Over Texas," University Center, all day
Movie - "Grasshopper," University Center, 7 p.m. and 9 p.m.

JAN. 27 "Stars of the Nile," Moody Planetarium, 3 p.m.
Basketball - University of Texas at Lubbock, 7:30 p.m.
Back to School Dance, University Center, 8 p.m.

JAN. 28 "Stars of the Nile," Moody Planetarium, 3 p.m.
Movie - "Grasshopper," University Center, 7 p.m.

JAN. 30 Art Seminar - "Italian Sculpture II," Rabbi Alexander S. Kline, The Museum, 10 a.m.
Basketball - Texas A&M at College Station
Marx Brothers Film Festival, "The Coconuts," University Center

JAN. 31 Artists Series - Pearl Williams Jones Soul Trio, University Center Ballroom, 11:30 a.m.
Student Recital, Room 1, Music Bldg., 4:30 p.m.
Marx Brothers Film Festival, "Horsefeathers," University Center

FEB. 1 Tech Music Theater and Department of Romance Languages present "Great Moments of French Opera," Old Naval Reserve Bldg., 6:30 p.m. & 8 p.m.
Western Dance, University Center, 8 p.m.
Marx Brothers Film Festival, "Duck Soup," University Center

FEB. 2 Lecture - "Geological Significance of Modern and Ancient Hurricane Deposits," Dr. W. Ralph Walton, Room 233, Science Bldg., 3 p.m.
Movie - "Lovers and Other Strangers," University Center, 7 and 9 p.m.
Board of Regents, Administration Bldg., 3:30 p.m.
Violin recital, Evelyn Gullatt, Seaman Hall, 8:15 p.m.

FEB. 3 "Stars of the Nile," Moody Planetarium, 3 p.m.
Basketball - Baylor at Waco.
Faculty Recital, David Payne, tuba, Croslin Room, Library, 8:15 p.m.

FEB. 4 Movie - "Lovers and Other Strangers," University Center, 7 p.m.
"Stars of the Nile," Moody Planetarium, 3 p.m.

FEB. 4-7 Southwest Parks and Recreation Training Institute, Department of Park Administration, Lake Texoma, Okla.

FEB. 6 Art Seminar - "Leonardo da Vinci," Rabbi Alexander S. Kline, The Museum, 10 a.m.
Basketball - Arkansas at Lubbock, 7:30 p.m.
Faculty Recital - Richard Tolley, trumpet, First National Bank, 8:15 p.m.

NOTABLE QUOTE

"We should be careful to get out of an experience only the wisdom that is in it. . . The cat that sits down on a hot stove lid will never sit down on a hot stove lid again - and that is well; but also she will never sit down on a cold one any more." - Mark Twain

VOL. 3, NO. 15, FEB. 7, 1973

TO THE FACULTY AND STAFF,

During Texas Tech University's 50th Anniversary celebration there will be much talk of things past and of the growth of the university, but the slogan we have chosen for this event speaks also to the future.

That slogan -- "Matured by the past -- challenged by the future" -- will underscore activities Saturday, February 10. On that date there is to be an Academic Ceremony, starting at 9:30 a.m. in the Municipal Auditorium, and the opening of an exhibit, "The History of Texas Tech University," at 11 a.m. at The Museum.

Although we will be honoring the past, it is an honor bestowed with the understanding that what has gone before serves only as the foundation for what is to come.

While there will be new buildings and new facilities in our future, these can only be the shells for additional academic growth which is dependent upon the people who will use the structures.

I urge you to participate in these first events of our 50th Anniversary celebration and, by doing so, to indicate your support of so worthy a goal as academic achievements among both our faculty and our students.

Lester E. Murray

GROUND IS BROKEN FOR MEDICAL SCHOOL AND ADDITION DOUBLING LIBRARY SIZE

Construction totaling almost \$40 million was inaugurated with two groundbreaking ceremonies on the Texas Tech campus Friday, Feb. 2, with the Board of Regents participating in both.

It was the first time in Tech history for two groundbreaking programs on the same day with the board participating. Former Gov. Preston Smith headlined the ceremony for the \$35 million Phase I of the School of Medicine to be completed during the last half of the decade of the 1970s. Completion of the \$4.8 million addition to the Library is expected in two years.

Smith hailed the advent of a new era of health care and economic impact for West Texas and the entire state of Texas. The need for such a school was emphasized by the former governor who cited the low ratio of doctors to patients in West Texas.

Economically speaking, he said, by 1980 more than \$100 million will have been expended and more than 3,500 jobs created by the School of Medicine.

Texas Tech President Grover E. Murray said history will reflect the wisdom of the citizens, boards of regents, and the legislators of the state for their farsightedness in locating the school on the campus of Texas Tech in Lubbock.

Dr. John A. Buesseler, dean of the School of Medicine and vice president for Health Affairs, said "The taxpayer is the holder, the client. We must serve him well."

Bill E. Collins, chairman of the Board of Regents, and other members of the board, participated in the dirt-moving ceremony, along with Marshall Formby of Plainview, member of the Coordinating Board, Texas College and University System.

REGENTS FOR TTUSM APPROVE PROGRAMS

The Board of Regents of the Texas Tech University School of Medicine in its Feb. 2 meeting:

- *Approved three new programs leading to the Master of Science and Doctor of Philosophy degree in anatomy, pharmacology and therapeutics, and physiology, and requested that the programs be sent to the Coordinating Board, Texas College and University System, for its consideration and action;

- *Approved a memorandum of agreement with Reese Air Force Base Hospital;

- *Approved the preliminary design for Phase I of the medical school;

- *Named H. A. Padgett Jr. construction manager for the \$35 million Phase I of the medical school and authorized him to execute contracts with the various companies who will be working on the building;

- *Approved a Medical Service Research and Development Plan including establishment of an Institutional Trust Fund regulating disbursement of fee income generated by the Texas Tech University School of Medicine;

- *Increased by \$70,000 the amount allocated for renovation of Thompson Hall as a clinical facility -- bringing the total cost to \$1,670,000 and heard Dr. John A. Buesseler, dean of the medical school, estimate that Thompson Hall will be occupied by TTUSM in March;

- *Announced that the schematic design for the Teaching Hospital of the Lubbock County Hospital District was approved Jan. 13;

- *Heard Dr. Buesseler announce that 1973 TTUSM freshmen will begin their work July 1 in the school's accelerated plan for medical education.

THREE BENEFACTORS HONORED BY REGENTS

The Texas Tech University Board of Regents, meeting Feb. 2, passed resolutions honoring three major benefactors of the institution: former Gov. Preston Smith, former Texas Tech President Clifford B. Jones, and George W. Dupree, the first chairman of the Texas Tech School of Law Foundation.

Gov. Smith was a special guest at the meeting, and he was described by Chairman Bill E. Collins as "one of Tech's greatest contributors and a dear friend." He was cited for exemplary achievement. In his response Smith, who with his wife has been designated a distinguished alumnus, called attention to the support of university and political leaders.

"I cannot do anything, but we can," he said.

Jones was cited for his continuous support of Texas Tech in his lifetime and extending to provisions of his will.

In another resolution, Dupree, a pioneer Lubbock attorney, was cited for several contributions including his "important role" in the establishment of the Southwest Collection.

In other action the Regents:

- *Agreed that Texas Tech University will administer an ROTC program at the

University of Texas-Permian Basin in Odessa;

- *Ruled that indirect costs or overhead on research and instructional projects will be charged on the basis of current HEW negotiated rates of chargeability, with any deviation from those rates requiring review and approval of the vice-president for Research and Special Programs;

- *Authorized the university to take bids for the first time for a voluntary term life insurance program for students;

- *Approved the preliminary design for a Mass Communications Building addition -- to cost more than \$2 million, and authorized the university to apply to HEW for funds for this addition and another, costing more than \$3 million, to the Social Sciences Building;

- *Awarded to H. C. Lewis the contract for the \$4,148,395 addition to the Library which has a total project cost of \$4.8 million;

- *In executive session named 1973 Horn Professors whose names will be announced at the Charter Day Academic Ceremony beginning at 9:30 a.m. in Municipal Auditorium.

EXHIBITS

TOM COSGROVE, Paintings -- Art Department Gallery, opens Feb. 7
HISTORY OF TEXAS TECH UNIVERSITY -- The Museum, opens Feb. 10

GRAVES ON BOARD

Arts and Sciences Dean Lawrence L. Graves has been elected to the board of directors of the Council of Colleges of Arts and Sciences in the United States. His term is for two years.

HARVE CARLSON NAMED SPECIAL ASSISTANT

Dr. Grover E. Murray announced Friday the appointment of Dr. Harve J. Carlson, formerly Director of the Division of Biological Sciences, as Special Assistant to the Office of the President. Dr. Carlson's duties will be (1) to maintain liaison and communications between the President's Office and the faculties of Texas Tech University, Texas Tech University School of Medicine and Texas Tech University Museum and (2) to assist in the development of research in the Texas Tech University Complex.

Dr. Carlson received his doctorate in Public Health from the University of Michigan and has been employed successively by the Idaho State Health Department, the University of Michigan, Western Reserve University, the Office of Naval Research and the National Science Foundation. His specialties are bacteriology and virology.

Dr. Murray indicated that the appointment of Dr. Carlson is a means of effecting improved communications and relations with individual faculty, faculty groups, departments and schools in the University Complex. Because Dr. Carlson has had extensive experience in the development and supervision of research, he is ideally suited to advise and to assist the faculty of the Complex regarding research activities and the development of proposals for funding.

Dr. Carlson is officing in the north wing of the lower floor of Holden Hall.

LEGAL COUNSELOR IS NAMED FOR STUDENTS

James T. Farr Jr., presiding judge of the Wichita Falls Municipal Court, has been named legal counselor for students at Texas Tech. He will assume duties here Feb. 19.

CALENDAR

FEB. 7 Noon Concert, Music by "Oedipus Rex," University Center ballroom.
Southwest Parks and Recreation Training Institute, Department of Park Administration, Lake Texoma, Okla.
"Hospital Manpower," Panel discussion, Dr. Robert Rouse, moderator, KTXT-TV, 6:30 p.m.
Movie - "Year of the Communes," University Center, 8 p.m.

FEB. 8 Gene Cotton, vocalist, University Center Fine Arts Series, ballroom, 8 p.m.
Campus News, KTXT-TV, 6 p.m.
Movie - "Virgin Spring," University Center, 8 p.m.
Organ Recital, Paul-Martin Maki, guest artists, First Baptist Church, 8:15 p.m.

FEB. 9 Gene Cotton, vocalist, University Center Fine Arts Series, ballroom, 8 p.m.
Movie - "Bonnie and Clyde," University Center, 7 and 9 p.m.

FEB. 10 Charter Day Service, Dr. Nevitt Sanford, speaker, Municipal Auditorium, 9:30 a.m.
Opening ceremony, "History of Texas Tech University," Exhibit, Lt. Gov. Bill Hobby, speaker, The Museum, 11 a.m. (approx.)
Founders Day Concert - Texas Tech Chamber Orchestra, The Museum, 8:15 p.m.
"Stars of the Nile," Moody Planetarium, 3 p.m.
Basketball - SMU at Dallas, 8 p.m.

FEB. 11-17 Mass Communications Week

FEB. 11 "Stars of the Nile," Moody Planetarium, 3 p.m.
Movie - "Bonnie and Clyde," University Center, 7 p.m.
Dance - Music by "War Babies," University Center, 7:30 p.m.

FEB. 12-15 Civil Engineering Short Course - "Design of Structures for Extreme Winds and Tornadoes," Textile Research Center, 8:30 - 5 p.m.

FEB. 12 Lecture - "Geophysical Research in the Gulf of Mexico," H. L. Krivoy, Room 233, Science Bldg., 3:45 p.m.
Artists Series - Martin Best, "The Art of the Minstrel," University Center, 8:15 p.m.

FEB. 13 Art Seminar - "Andrea del Sarto," Rabbi Alexander S. Kline, The Museum, 10 a.m.
Film shorts - "The Plow That Broke the Plains," "The River," "The Birth of Photography," University Center, 2 p.m.

Basketball - TCU at Lubbock, 7:30 p.m.
Henry Gibson, Municipal Auditorium, 8 p.m.
Movie - "Citizen Kane," University Center, 8 p.m.
Faculty Recital, Judson Maynard, organist, First Methodist Church, 8:15 p.m.

FEB. 14 Lecture - "Catalytic Control of Automotive Emissions," Dr. Richard L. Klimisch, Room 104, Old Architecture Bldg., 3 p.m.
Faculty Council Executive Committee, Room 208, Administration Bldg., 3:30 p.m.
Student Recital, Room 1, Music Bldg., 4:30 p.m.
Movies - "Some of My Best Friends Are White," "Mixed Marriages," University Center, 4 p.m. and 8 p.m.

FEB. 15 Lecture - "Solvent Extractions and Ion Exchange in Fused Salts," Dr. John W. Irvine, Room 5, Chemistry Bldg., 8 p.m.
Campus News, KTXT-TV, 6 p.m.

FEB. 16 Movie - "Sweet November," University Center, 7 p.m. & 9 p.m.
Graduate Recital, Pat Frazier, violin, Seaman Hall, 8:15 p.m.

FEB. 17 Junior Programs, "Bats and Rats and . . .," Dr. Robert L. Packard, The Museum, 9:30 a.m., 10:30 a.m., 11 a.m. & 12 noon.
Auditions - Lone Star District, National Federation of Music Clubs, Room 1, Music Bldg., 9:30 a.m.
"Stars of the Nile," Moody Planetarium, 3 p.m.
Basketball - Rice University at Houston, 8 p.m.

FEB. 18 "Stars of the Nile," Moody Planetarium, 3 p.m.
Junior Recital, Andy Davidson, bassoon & Renise Blair, clarinet, Room 1, Music Bldg., 3 p.m.
Faculty Recital, Richard Tolley, trumpet, First National Bank Bldg., 8:15 p.m.

FEB. 19 "Scarborough Faire," sponsored by Fine Arts Committee, University Center, all day.

FEB. 20 Seminar - "School of Lombardy," Rabbi Alexander S. Kline, The Museum, 10 a.m.
Lecture - "The Role of Technical Journals in Chemical Engineering," Dr. Robert C. Reid, Room 104, Old Architecture Bldg., 3 p.m.
"Scarborough Faire," sponsored by Fine Arts Committee, University Center, all day.
Basketball - Texas at Austin, 7:30 p.m.
Movie - "Rashomon," University Center, 2 p.m. and 8 p.m.

NOTABLE QUOTES

"This is a beautiful day. . . even if it were raining or snowing, it would still be a beautiful day." - Ray Janeway, Dean of Library Sciences, at the groundbreaking ceremonies, Feb. 2, for the \$4.8 million addition to the Texas Tech University Library Building.

In appreciation of his contribution to "Notable Quotes," FYI will send Dean Janeway a campus photo suitable for framing.

SPECIAL CHARTER DAY EDITION

VOL. 3, NO. 16, FEB. 8, 1973

Tech To Inaugurate 50th Anniversary Observance

FACULTY, STAFF AND STUDENTS URGED TO ATTEND CEREMONIES

A formal program with the public cordially invited to attend and participate will officially inaugurate the Texas Tech University Fiftieth Anniversary observance at 9:30 a.m. Saturday (Feb. 10) in the Municipal Auditorium.

The ceremony will feature a full processional and recessional of faculty administrators in academic regalia and an address by a nationally recognized scientist, Dr. Nevitt Sanford, scientific director of the Wright Institute (Berkeley, Calif.) which he founded in 1968.

Anniversary of Signing

The Charter Day activities commemorate the 50th anniversary of the signing of the legislation creating an institution of higher education for West Texas. It was on Feb. 10, 1923, that then Texas Gov. Pat Neff signed the bill which created Texas Technological College. The observance will continue through 1975, the semi-centennial of the acceptance of the first class of students at Texas Tech.

The academic ceremony will be followed by another program to be held in The Museum of Texas Tech. (See columns two and three below program at right.)

Bill E. Collins, chairman of the Board of Regents of Texas Tech University, will preside over the assembly. Both he and Texas Tech President Grover E. Murray have invited the public to join the university in the opening ceremonies as well as throughout the two years of programs and other related activities.

Many to be Recognized

After an official welcome by Collins, greetings will be extended by Dr. Charles E. Dale, chairman of the Executive Committee of the Faculty Council; Greg Wimmer, president of the Student Association; and Wilmer Smith, president of the Texas Tech University Ex-Students Association.

Dr. Murray will speak and introduce Dr. Sanford. Many groups of faculty and students who are or have been recipients of major academic honors will be recognized and 1973 Horn Professors will be announced.

The University Chamber Orchestra directed by Paul Ellsworth will provide music for the processional and recessional and present special music as will the University Choir under the direction of Gene Kenney.

Get There Early

Dr. Kline A. Nall, university marshal in charge of arrangements for the processional and recessional, said faculty and staff planning to participate in the march should gather by 9:15 a.m. on the north side of the Auditorium and form a line preparatory to entering.

PROGRAM

Presiding—Bill E. Collins
Chairman, Board of Regents, Texas Tech University

PROCESSIONAL

Suite from the Water Music George Frederick Handel
Texas Tech University Chamber Orchestra—Paul Ellsworth, Director
(Audience is requested to remain seated during the processional)

WELCOME

Bill E. Collins

INVOCATION

Create in Me, O God, A Pure Heart Johannes Brahms
Texas Tech University Choir—Gene Kenney, Conductor

GREETINGS

Charles E. Dale
Chairman, Executive Committee of the Faculty Council,
Texas Tech University
Greg Wimmer—President, Student Association, Texas Tech University
Wilmer Smith—President, Ex-Students Association, Texas Tech University

MUSICAL SELECTION

Variations On a Shaker Melody From "Appalachian Spring" . . . Aaron Copland
Texas Tech University Chamber Orchestra

REMARKS

Grover E. Murray—President, Texas Tech University

INTRODUCTION OF PRINCIPAL SPEAKER

Grover E. Murray

CHARTER DAY ADDRESS

Nevitt Sanford
Scientific Director, The Wright Institute, Berkeley, California

CONCLUDING REMARKS

Bill E. Collins

RECESSIONAL

Suite from the Water Music George Frederick Handel
Texas Tech University Chamber Orchestra
(Audience is requested to remain seated during the recessional)

"HISTORY OF TEXAS TECH" EXHIBIT TO GO ON DISPLAY

"The History of Texas Tech" exhibit will go on display at The Museum of Texas Tech University at 11 a.m. Saturday with the inauguration of it by Lt. Gov. William P. Hobby.

The program is the second and concluding Charter Day activity commemorating the 50th anniversary of the signing of the legislative act creating the institution. Faculty, staff, students and the general public are invited to attend.

Hobby is the son and namesake of a former Texas governor directly involved in obtaining an institution of higher learning for West Texas. The elder Hobby also was a member of the first Board of Directors.

One of the pens used by the late Gov. Pat Neff to sign the bill creating Texas Tech and the dress and crown worn by the first campus queen will be among hundreds of items on display in the exhibit. The display is a pictorial

representation of the development of the institution from the turn of the century when it was just an idea and a hope in the minds of West Texans through its chartering in 1923, the admission of its first students in 1925 to the present. There also will be a brief glimpse into the future in the exhibit with artists' renderings of proposed new buildings for the campus.

William E. Green, graduate student and candidate for the doctoral degree in history at Texas Tech, gathered the materials used for the exhibit.

The exhibit will remain on display through March 25. Board of Regents Chairman Bill E. Collins will welcome those attending the opening of the exhibit and Texas Tech President Grover E. Murray will introduce Lt. Gov. Hobby. The lieutenant governor is president and executive editor of the Houston Post and has served on the Board of Regents for the University of Houston.

NEVITT SANFORD

Dr. Nevitt Sanford is scientific director of the Wright Institute, Berkeley, Calif., which he founded in 1968. Just prior to taking this position he was professor of psychology and education and director of the Institute for the Study of Human Problems at Stanford University.

He has been a prison psychologist, a practicing psychoanalyst, and a director of major studies in child development, personality assessment, political and social attitudes, the social psychology of higher education, alcoholism and other alcohol related problems.

Before joining the Stanford faculty in 1961 he was professor of psychology at the University of California, Berkeley.

The Wright Institute does action-research, trains students for the doctoral degree in social-clinical psychology, offers various forms of adult education including special training sessions and conferences, and consults with institutions, so far mainly for higher education.

"It is a fine thing to participate in the beginning of any great enterprise," -- Gov. Pat Neff to Clifford B. Jones, Feb. 19, 1923.

SPECIAL GUEST IS 1923 LEGISLATOR

Burke Mathes, one of the architects of the Texas legislative bill creating Texas Tech University in 1923, will be a special guest for the 50th Anniversary Charter Day ceremonies.

Mathes at that time represented several High Plains counties and lived in Plainview. Now in his 70's, he is a lawyer in Los Angeles.

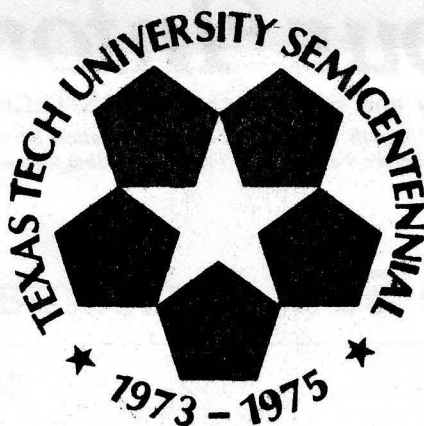

His son, Burke Mathes Jr. of Athens, Tex., also is expected to attend the February 10 events at Texas Tech.

The elder Mathes has not been to the campus of Texas Tech since August, 1923.

"What I remember was a big bare space," he said, and photographs which will appear in The Museum exhibit of the "History of Texas Tech University," support his memory although the 2,000 acre site did have farming operations on part of it.

Other authors of Senate Bill No. 103 were Sen. W. H. Bledsoe of Lubbock, Rep. R. M. Chitwood of Sweetwater, Rep. L. T. Carpenter of Dallas and Rep. R. A. Baldwin of Slaton.

"The soul of West Texas was joyful and vocal today, with the throats of 7,000 Texans from the birthplace of broad-brimmed hats of the cowmen as vehicles for the spirit of jubilation incident to the realization of a fond dream." -- Harry Bengé Crozier in the Dallas Morning News, March 2, 1923, when Sweetwater celebrated the first meeting of Texas Tech's Board of Directors.

SPECIAL SEAL, THEME ATTUNED TO OCCASION

The theme for Texas Tech University's Fiftieth Anniversary celebration is "Matured by the past-challenged by the future." It was submitted by Civil Engineering Prof. Fred P. Wagner Jr. and chosen by a Theme Subcommittee of the Activities Committee.

The winning seal design was submitted by Jerry D. Kelly, manager of the Publications Bureau of Texas Tech University's Information Services. The design (shown above) uses five pentagon shaped blocks--each representing a decade--to form the Lone Star of Texas in the center. Texas Tech's colors are red and black, and four of the five blocks are black with the fifth in red, representing the current decade.

The design is to be used on stationery, brochures and other printed and published materials during the two-year observance.

SOME POLICYHOLDERS MAY GET ENDORSEMENTS

Participants in the Texas Tech University group life insurance program who have received salary increases during the 12-month period ending Dec. 1, 1972, may receive an endorsement document through the campus mail.

"The university's contract with Group Life and Health Insurance Company provides for an automatic, annual updating of insurance coverage based on annual salary," said Charles B. Strawn, director of Personnel.

Endorsements are prepared only for those employees who have had change in volume of life insurance coverage.

Since the volume of insurance coverage is based on annual salary rounded to the next highest \$1,000, some may have received a salary increase but may not have gone into the next \$1,000 bracket, he said.

WILLIAM P. HOBBY

Lt. Gov. William P. Hobby is a native Houstonian. He is president and executive editor of the Houston Post, having served previously as managing editor and executive vice president.

Hobby has served on the Board of Regents of the University of Houston. He was a member of the Presidential Task Force on Suburban Problems, and the National Citizens Advisory Committee on Vocational Rehabilitation. He also served as a member of the Texas Air Control Board and chairman of the Senate Interim Committee on Welfare Reform.

The Texas Junior Chamber of Commerce selected him as one of its five Outstanding Young Texans in 1965. He is a past director of the Houston Chamber of Commerce.

Hobby is a graduate of Rice University. He served three years in the Office of Naval Intelligence. In 1959, he was parliamentarian of the Texas Senate during the regular session of the 56th Legislature.

His father, a former governor, was a member of Texas Tech's first Board of Directors.

NEW TEXANS NEED NEW LICENSE PLATES

All out-of-state residents moving to Texas for employment or permanent residency have 30 days to obtain Texas license plates for passenger cars, according to a reminder from Traffic and Parking Counselor Gene Lake.

For additional information, Lake suggested a call to the Lubbock office of the Department of Public Safety.

"For example, if you received a salary increase to \$10,100 effective Sept. 1, 1971, your life insurance coverage was changed to \$11,000 per year," Strawn said. "Furthermore, if you received another increase to \$10,800 effective Sept. 1, 1972, your insurance coverage would continue to be \$11,000 per year. In this example, no endorsement would be prepared since the volume of coverage remains the same."

Persons who think they should have received an endorsement but did not, or who believe the volume of coverage on the endorsement is incorrect, should contact the Personnel Office, phone extension 2-1112. Endorsements should be kept with the insurance certificate in a safe place, he said.

VOL. 3, NO. 17, FEB. 21, 1973

TEXAS TECH BEGINS SECOND FIFTY YEARS

Texas Tech University began its second 50 years with an appeal to the institution "to revive, rescue or sustain the image of man as a complex and potentially integrated whole, and above all as a self-determining, self-reflective being."

Dr. Nevitt Sanford, scientific director of the Wright Institute in Berkeley, made his plea for an integrated, rather than a departmentalized, university in his address at the academic ceremony which opened 50th Anniversary Charter Day events Feb. 10.

The complete text of Dr. Sanford's address is to be published and will be made available to faculty and staff.

The exhibit reviewing Texas Tech's first 50 years, "The History of Texas Tech University," will remain open at The Museum through March 25.

In opening this exhibit, Lt. Gov. William P. Hobby commented that his father's wish was to be known as an "education governor." The late Gov. Hobby served on the university's first Board of Directors and was active in political affairs during the time that West Texans were waging a legislative struggle for the establishment of Texas Tech. Lt. Gov. Hobby is the president of the Houston Post.

PROGRAMS AVAILABLE

Copies of invitations and programs for the Charter Day academic ceremony at which Dr. Nevitt Sanford delivered the principal address are available for those who want copies for their files or as souvenirs.

They may be claimed at the Office of Information Services at no cost, Room 220, East Wing, Administration Building.

PARKS AND RECREATION

What began as a drive for contributions to a fund for one scholarship for a Texas Tech student in the Department of Park Administration and Horticulture ended with funds for two scholarships and a start on a third at the 18th Annual Southwest Parks and Recreation Training Institute Feb. 4 - 7.

The yearly institute at Lake Texoma Lodge is conducted by the Texas Tech Department of Park Administration and Horticulture. At this year's meeting institute members were asked to contribute to a \$500 scholarship for a Texas Tech student.

STATE DEPARTMENT DESK OFFICER COMING

William J. Dyess, desk officer for the Soviet Union in the U.S. Department of State, will visit with Texas Tech students, appear before campus organizations and address classes Thursday (Feb. 22).

STRANDTMANN, WALLACE 1973 HORN PROFESSORS

Dr. Russell W. Strandtmann, professor of biology, and Dr. Morris S. Wallace, professor of education, have been named 1973 Paul Whitfield Horn Professors.

The announcement was made at the Feb. 10 Charter Day academic ceremony which inaugurated the Texas Tech 50th anniversary observance.

Their appointments recognize their achievement of distinction on a regional or national level. Strandtmann came to Texas Tech in 1948 and Wallace in 1955.

Strandtmann is an entomologist with a special interest in acarology.

Dr. Wallace is nationally recognized as an educational consultant and authority on school administration, teacher training and school public relations.

MEDICAL SCHOOL ACCREDITATION SITE TEAM VISITS CAMPUS

The Accreditation Site Team for the Texas Tech University School of Medicine visited the campus Feb. 15-16, representing the Liaison Committee on Medical Education of the American Medical Association and the Association of American Medical Colleges. A report on that visit will be sent to President Grover E. Murray.

CREDIT UNION WINNER OF "HONOR AWARD"

The Texas Tech Federal Credit Union has received the National Credit Union Administration "Thrift Honor Award" in recognition of its success in encouraging members with small accounts to increase their shareholdings.

The Credit Union attained a monthly rate of growth of 3.3 per cent in share accounts of \$20,000 and under. This growth rate was above the average for federal credit unions of similar size.

On July 31, 1972, the Credit Union had 1,928 members who had saved a total of \$1,456,835. As of Dec. 31, the savings had reached \$1,590,766, with the organization's total assets reaching \$1,714,068.

Prof. Burl M. Abel was re-elected president of the board of directors. Other officers are Charles Dale, vice-president; Raymond Green, treasurer; and David Cummins, secretary. Other members of the board include Ellis Huddleston, Gertrude Morse and Lewis Jones.

Members of the loan committee are William Cain, chairman; Charles Riggs, L. L. Graves, Fred Briggs and John Baumgardner.

SENATOR HONORED BY MASS COMMUNICATIONS

The first annual Thomas Jefferson Award was presented to North Carolina Senator Sam J. Ervin Jr., concluding Mass Communications Week at Texas Tech Feb. 16.

Ervin's award was for his defense of news media and for the rights guaranteed under the First Amendment during 1972.

The award was presented by Texas Tech, the Texas Association of Broadcasters, the Texas Daily Newspaper Association and the Mass Communications Advisory Committee of Texas Tech.

The actual presentation was made by Guy Ryan, immediate past president of Sigma Delta Chi and representative of Copley Newspapers, San Diego.

Earlier in the week the late Joe H. Bryant, pioneer Lubbock broadcaster, and the late Don Belding, advertising agency executive, had been inducted into the Texas Tech Mass Communications Hall of Fame. Bryant is a former chairman of the Texas Tech University Foundation Board of Directors and Belding was the founder of the Don Belding Fund: grant-in-aid program for international advertising at Texas Tech.

STUDENT COMMISSION PLANS HEARINGS

The Commission on Student Participation in Decision-Making (CSPDM) is scheduling hearings to gain information on the extent and relevancy of student involvement in determining policy and policy implementation at Texas Tech.

The commission was created last November by Student Association President Greg Wimmer. Rickey Alexander is chairman.

Alexander said faculty will be invited to hearings Feb. 26 through March 2, and administrators during the week of March 9-13, at hours and places to be announced.

After its study, Alexander said, CSPDM will make suggestions on the extent of student participation in university decision-making, more effective methods of communicating with the student body in its responsibilities in university decision-making, and better utilization of student input to reflect their opinions.

BOLEN RECEIVES AWARD

Dr. Eric G. Bolen, professor of range and wildlife management at Texas Tech, was presented the Reese Air Force Base fourth quarter Individual Support Safety Award.

The award was for "his outstanding support" of the Reese safety program. "His efforts in the identification of bird remains for us, often with the sketchiest of evidence, has immeasurably aided our Safety and Bird Control Programs," said Col. Walter H. Baxter III, Reese commanding officer.

WORLD AFFAIRS MEET TO FOCUS ON CHINA

The 1973 World Affairs Conference, arranged by the University Center's World Affairs Conference Committee, will focus on China. Sessions are scheduled Feb. 28-March 2.

While seminars are held for participating students, the public is invited to attend lectures. Sam Jaffe, American Broadcasting Company Far East correspondent who has just returned from a three-week trip to China, will speak at 8 p.m. Wednesday, Feb. 28. Dr. Gordon Bennett, professor of government at the University of Texas, Austin, will lecture at 7:30 p.m. Thursday, March 1. At the five-course Chinese dinner Friday, at 7 p.m., John and Schuman Yang will present Chinese music. Mrs. Yang is a professor of music at Louisiana Tech University.

EXHIBITS

TOM COSGROVE, Paintings - Art Department Gallery, through Feb. 23

HISTORY OF TEXAS TECH UNIVERSITY - The Museum

INVITATIONAL SHOW OF CONTEMPORARY PHOTOGRAPHY - Art Department Gallery, opens March 3

BRAZIL AMBASSADOR TO SPEAK AT TECH

The Brazilian ambassador to the United States, Joao Augusto de Araujo Castro, will be the speaker for the opening session Feb. 23 of a conference on "Continuity and Change in Latin America," sponsored by the Southwestern Council of Latin American Studies.

All sessions for the day-and-a-half meeting will be at The Museum of Texas Tech University.

RAY DOWNING DIES

Ray Downing, a graduate of Texas Tech University who had worked as an employe since 1936, died Feb. 9. At the time of his death he was director of Building Maintenance and Utilities. Persons wanting to contribute to a memorial fund in Downing's name may do so through the Texas Tech University Foundation.

VOL. 3, NO. 18, MAR. 7, 1973

TECH BUDGET REQUESTS GIVEN LEGISLATURE

Texas Tech President Grover E. Murray and other administrators appeared before Texas legislative committees Feb. 20 in support of biennial 1974-75 budget requests totaling more than \$124.2 million.

The figure includes \$96.5 million for Texas Tech University, the Texas Tech University School of Medicine current operations on the Lubbock campus and The Museum of Texas Tech University.

An additional \$27.8 million was requested for development of medical school programs including the establishment of colleges of pharmacy and allied health, the establishment of a Texas Tech University School of Veterinary and Zoological Medicine, and progress for area Health Education Centers.

The major requests for the university complex are: for the university, \$38 million in 1974 and \$39.4 million in 1975; The Museum, \$294,000 in 1974 and \$275,000 in 1975; the medical school, \$8.5 million in 1974 and \$10 million in 1975.

A college of pharmacy request was for \$112,000 in 1974 and \$5.8 million in 1975. For a college of allied health, the request is for \$181,000 in 1974 and \$6.9 million in 1975. The request for a veterinary school was for \$7.2 million in 1974 and \$753,000 in 1975.

INDIANA U. SPEAKER TO VISIT THIS WEEK

Dr. Robert W. Briggs, research professor and Zoology Department chairman at Indiana University, will be on campus March 7-8 to lecture in the Biology Department Distinguished Speakers Series and address the annual Sigma Xi initiation and banquet.

He will speak on "Nuclear Transplantation" at the Sigma Xi dinner March 8, at 6:30 p.m. in the University Center Ballroom. Banquet tickets are \$2.50.

From the President...

In view of the overall significance of the Vice Presidency for Academic Affairs to the continued development of Texas Tech University, I am convinced that a nationwide and exhaustive search must be carried out for the best qualified candidate.

Accordingly, the following advertisement has been placed in *The Chronicle of Higher Education*:

TEXAS TECH UNIVERSITY COMPLEX

Lubbock, Texas

This state university, situated on a 1834 acre campus, with an enrollment of 21,500 students, invites applications from well qualified men and women for the following position:

VICE PRESIDENT FOR ACADEMIC AFFAIRS. Position responsible for development and enhancement of the academic affairs of a major, multi-purpose, state university. Objective is development of unique and innovative programs preparatory for the future.

Applicants must demonstrate high academic achievements; ability to innovate and to develop flexible academic programs; comprehensive and deep interest in undergraduate and graduate programs; understanding of academic budgeting and legislative attitudes; experience in research and administration; and ability to deal with university personnel.

I plan to take whatever time is necessary to ensure that the best qualified person available is appointed to this important position, even if this means an appointment is not made until sometime next year. Should this be the case, I shall chair the Academic Council (Deans) and make certain appointments to ensure that the basic activities of the Office of Academic Affairs are carried on expeditiously.

I also wish to solicit nominations from any of you who would care to submit them. Please direct these to my office as soon as possible.

APPLICATIONS SOUGHT FOR NSF GRANTS

Texas Tech has been awarded a grant of \$10,500 from the National Science Foundation (NSF) to support two graduate students during the 1973-74 academic year.

The monies are part of \$4.8 million in grants to 172 institutions in all states and the District of Columbia. Each award will provide a \$2,500 stipend for the student, education allowance and funds for departmental and Graduate School administrative expenses.

Applications for the graduate traineeships are invited by the Graduate School, said Dr. Eugene A. Coleman, acting associate dean of the school. Tentative deadline for applications is May 15. Graduate students now on such traineeships will be given high consideration for continuation, he said.

HENRY WRIGHT FUND

A savings fund has been established at the Lubbock National Bank in the name of Henry A. Wright for the purchase of a kidney machine. Dr. Wright, one of the nation's leading fire ecologists, is receiving treatment in Dallas. Any who wish to contribute may send a check to the Henry A. Wright savings account at LNB or to the Department of Range and Wildlife Management on campus.

MUSEUM WILL SPONSOR ZOOLOGY FIELD COURSE

A field course in vertebrate zoology in the Mexican State of Hidalgo will be sponsored by The Museum during the second summer session of 1973.

Six hours of credit will be given for the course through the Biology Dept. Limited to 12 participants, the course will begin July 9 and end August 18.

Graduate students and college seniors may apply for the course through March 15 through the office of Dr. Dillard C. Carter in the Graduate School. Persons selected for the course will be announced March 30, or as soon as possible thereafter.

BEHAL NEW ASSOCIATE GRADUATE SCHOOL DEAN

Francis J. Behal, M.D., has been named associate dean of the Graduate School of the University Complex, in addition to his existing appointments.

Dr. Behal's specific responsibility will be to assist Dean J. Knox Jones Jr. of the Graduate School in coordinating affairs related to the Texas Tech University School of Medicine.

Dr. Behal is professor and chairman of the Department of Biochemistry, Allied Health, and associate dean for Research in the School of Medicine.

EXHIBITS

TREASURE OF THE MONTH - 19th Century Texas Firearms and Tools, The Museum

FORUMS ON TEACHING TO START TONIGHT

"What is Excellence in Undergraduate Teaching?" is the topic to be explored tonight (March 7) at 7 p.m. in BA 352 in the first of three panel discussions and open forum programs on various aspects of undergraduate teaching planned for this semester.

A second discussion of "The Teacher and the Student" will be held March 21 in BA 352. The final session of the series, tentatively scheduled for April 12, will explore "Relevance in Undergraduate Teaching."

The campus community is invited to attend and participate.

NOMINEES SOLICITED

Nominations for the 1973 Distinguished Engineer Awards are being solicited by the College of Engineering at Texas Tech. They should be made to the Office of the Dean of the college.

The outstanding graduates of the College of Engineering will be honored at the seventh annual Distinguished Engineer Awards Luncheon April 13.

"Engineering at its broadest and best aspects is the basis of considering engineers for the award," said Dr. John R. Bradford, dean of the College of Engineering.

CALENDAR

- MAR. 7 Movie - Bing Crosby and Bob Hope in "Road to Rio," University Center, 2 and 8 p.m.

RANCH HEADQUARTERS TO DEDICATE SCHOOL

The Bairfield School, a one-room structure which served ranching families near Clarendon and was donated to the Ranch Headquarters by C. E. Bairfield, will be dedicated at 10 a.m. April 7 at the site adjacent to The Museum of Texas Tech University.

The structure has been restored and will be furnished in the style of the country school. Special guests are expected to include former students and teachers.

COACHES NAMED FOR ALL AMERICA GAME

University of Southern California's John McKay will coach the West and Auburn's Ralph "Shug" Jordan the East in the Coaches All America football game to be played at 7:30 p.m. June 23 in Jones Stadium. The game will be nationally televised.

McKay will be assisted by coaches John Robinson of USC, Ben Martin of the Air Force Academy, and Maxie Lambright of Louisiana Tech.

Jordan's assistants will be Paul Davis, also of Auburn, Lou Holtz of North Carolina State, and Tubby Raymond of Delaware.

The game is sponsored by the American Football Coaches Association in conjunction with the Lubbock Chamber of Commerce and the 63 Lions clubs in District 2T-2. This will be the fourth year for the game in Lubbock.

McGUIRE NAMED DEBATE COACH OF THE YEAR

Prof. Vernon R. McGuire of the Speech and Theater Arts Department and director of forensics and debate coach has been named "Outstanding Coach of the Year" in debate.

The presentation was made at the tournament conducted early in March at North Texas State University and goes to the debate coach in this section of the United States who has made the most outstanding contributions in debate.

DISTRICT, REGIONAL UIL MEETS AT TECH

Texas Tech University will host the literary contests of the District 4 AAAA University Interscholastic League April 7 and the literary and athletic events of the Region 1, Conference AAAA, A and B meet April 12-14.

The regional meet is expected to bring more than 2,250 participants, along with hundreds of parents, friends and classmates, to the campus. Nat Williams of Texas Tech's College of Education is director general of the meets.

The regional meet is one of four in the state and attracts more contestants than the state meet later in Austin.

SYMPHONY ORCHESTRA WILL TOUR MEXICO

Conductor Paul Ellsworth and members of the Texas Tech University Symphony Orchestra are to leave Saturday, March 24, on a concert tour of Mexico that will take them to five major cities south of the border during the week of Spring Vacation.

Beginning with performances March 25-26 in Guadalajara, the tour itinerary will include concerts in Guanajuato, Puebla, Oaxtepec and at the Pyramids in conjunction with the Festival of Lights observance. The closing concert will be March 31 at the Palace of Fine Arts in Mexico City.

Appearing as featured soloists with the orchestra will be violinists Barbara Gerald of Amarillo and Walter Olivares of Santiago, Chile.

Tour arrangements are being coordinated by Frank Gonzales of Project Good Neighbors in Lubbock and Prof. Emilio M. Tello, director of El Centro de Estudios Technologicos in Mexico.

INSURANCE COUNSELING

A representative of Blue Cross-Blue Shield continues to be available in the Personnel Office on the First Wednesday of each month from 1 to 5 p.m. for counseling with Texas Tech personnel. His next visit is scheduled for April 4.

The representative will answer questions or help with problems concerning Blue Cross-Blue Shield medical, life term, life permanent, long term disability and accidental death and dismemberment insurance.

He will also advise employees about coverage available and enrollment in any of the Blue Cross-Blue Shield programs, as well as assist in filing claims for benefits.

PARKER HEADS TEXTILE RESEARCH CENTER

James S. Parker, former director of technical services for the Plains Cotton Growers and more recently director of technical services for the American Textile Manufacturers Institute, Charlotte, N.C., has been named director of the Texas Tech University Textile Research Center.

Parker's selection culminates a search for a director that has spanned several years. He has been closely associated with the textile industry during all of his professional life, with exception of service with the Army Air Corps during World War II.

He joined the staff of Plains Cotton Growers in 1961, a position he held five years. In this capacity he supervised the fiber and yarn testing experiments conducted by the Pilot Spinning Plant at Texas Tech and sponsored by the PCG.

"It will be my goal and the goal of the TRC to develop an outstanding institution that will be a major source of new, practical knowledge to the textile industry," he said. "It is hoped that new textile plants will be attracted to the West Texas region and that new markets for Texas fibers can be developed throughout the world."

ANNUAL FIELD DAY IS CONDUCTED AT PANTEX

The Texas Tech University Center at Amarillo hosted more than 300 cattle producers and buyers, faculty, students and other visitors at the annual Field Day and Performance Tested Bull Sale March 15.

Two animal scientists, Dr. Leif Thompson of Texas Tech and Prof. Neil Burcham of New Mexico State University, spoke at the morning program. Texas Tech Executive Vice-President Glenn E. Barnett welcomed visitors and Agricultural Sciences Dean Anson R. Bertrand presided.

Dr. R. Hollis Klett, director of the center, was in charge of arrangements, assisted by Dr. Lloyd B. Sherrod, Nolan Poteet and other members of the Amarillo Center staff.

A Simmental bull which gained an average of 4.06 pounds per day sold for \$1,800. The top performer, a Charolais, brought \$1,550. The high test Hereford sold for \$1,300. The top Angus sold for \$1,250; the top Santa Gertrudis for \$975; and the lone Red Poll for \$600.

REGENTS MEET MAR. 23

The Texas University Board of Regents will meet in regular session at 3:30 p.m. Friday (March 23) in the Board Room in the Administration Building.

Upon completion of business for the university, the regents will re-convene to sit as the governing body of the Texas Tech University School of Medicine.

DEAN STEELE KEYNOTES ENGINEERS' INSTITUTE

Dean Jack D. Steele of Texas Tech's College of Business Administration was one of three keynote speakers for the March 5-7 Institute for Engineering Deans at Arizona State University in Tempe. The Institute is sponsored annually by the American Society for Engineering Education.

Associate Dean Robert L. Newell of Tech's College of Engineering was the official delegate from the university.

In discussing "What Is a Profession?" Dean Steele concluded with the view that "the goal for a College of Business Administration should be to create an environment that gives the student the maximum opportunity and the maximum temptation for learning rather than to be taught a set of skills."

DADS ASSOCIATION KICKS OFF PHASE II

Trustees of the Texas Tech Dads Association brought themselves up to date on current projects and kicked off Phase II of their \$253,000 Scholarship Endowment Fund Drive at their midwinter business meeting.

Ed McElroy, Jr., of Sherman, Chairman of Phase I, reported that 53 per cent of the \$100,000 goal set by the Big Gifts Committee had been reached.

COLLEGE ATTENDANCE IN TEXAS NEAR NATION'S TOP

More than 53 per cent of the college age population of Texas are enrolled in institutions of higher education, according to figures published by the FACT BOOK ON HIGHER EDUCATION IN THE SOUTH 1971 AND 1972.

Only two states, Florida and Maryland, of the 14 Southern States showed higher percentages. The Texas percentage compared with 46 per cent for the entire area.

GRADUATE SCHOOL MOVES TO HOLDEN BASEMENT

Offices of the dean of the Graduate School will move March 26 to the east wing of the basement of Holden Hall. They presently occupy space on the second floor.

The move is being made at the request of Graduate Dean J. Knox Jones Jr., because of the need for more space to accommodate expanded activities and added personnel. The offices will occupy the entire east wing. The move has been timed so that there will be no interruption of telephone service at the offices. The telephone numbers will remain the same.

EARLY REGISTRATION CONFERENCES DELAYED

New dates have been announced for the early registration conferences to be held this summer for students planning to enroll in the fall semester.

The new dates for the six conferences are July 23-24, July 26-27, July 30-31, Aug. 2-3, Aug. 6-7, and Aug. 9-10.

The schedule for the conferences was changed because the registration date for the second session of summer school has been changed to July 16.

VOL. 3, NO. 20, APRIL 4, 1973

TORNADO SEASON IS HERE

Tornado season is here and your personal safety, and that of your students or co-workers will be enhanced with some basic knowledge of tornadoes and precautions to be taken if one occurs.

Tornado Watch means tornadoes are expected to develop. *Tornado Warning* means a tornado has been sighted—visually or by weather radar. Watches are announced publicly by radio and TV with many TV stations placing a "W" in the corner of the screen. Monitor radio or TV stations during a tornado watch to obtain continuous weather advisories.

The tornado warning signal is a steady high pitched tone and on the campus this is provided by a siren. The siren signal is augmented by police car sirens and telephoned messages from the central switchboard to dormitories and other locations where there may be a concentration of people.

General guidelines for safety during tornadoes are:

Seek inside shelter, preferably a tornado cellar, underground excavation, or reinforced concrete building. (All major buildings on the Texas Tech campus are reinforced concrete.) Stay away from windows.

In office type buildings, stand in an interior hallway, on a lower floor, preferably in the basement.

In classroom type buildings, go to an interior hallway on the lowest floor, and a basement if possible. Avoid auditoriums, gymnasiums, or other structures with wide free-span roofs.

Evacuate a mobile home.

If caught in the open, lie flat in a depression such as a ditch or ravine.

If in a car, leave the car and seek cover in a reinforced building if time permits or else lie face down in the deepest depression available.

Keep radios and television sets tuned, but do not telephone the weather bureau or other information centers.

TICKET PRIORITIES

Tickets for the Coaches All America Game June 23 in Jones Stadium will go on sale on a first-come, first-served basis May 15, but before that time faculty and staff will be able to take advantage of a brief priority period -- April 20 to May 15.

There are three price ranges.

Mrs. Ruth Sturtz, ticket manager, said that all tickets for west side seats and for sections 19 and 119 on the east side of the stadium will cost \$7.

East side sections 17, 18, 20, 21 and 117, 118, 120 and 121 will sell at \$5. All other seats will go for \$2 apiece.

JOINT DEGREE PROGRAMS GET REGENTS' APPROVAL

The Texas Tech University Board of Regents March 23:

- * Approved for forwarding to the Coordinating Board, Texas College and University System, three new academic programs -- to be offered jointly by the university and the Texas Tech University School of Medicine -- offering the bachelor of science degree in occupational therapy, physical therapy and pharmacy;

- * Heard a report from the Academic Affairs Committee that the teacher-student ratio at Texas Tech for both undergraduate and graduate programs is 1:10.882;

- * Granted tenure to 51 faculty members and promotions to 77;

- * Named the major exhibition hall in The Museum for David M. and Florence A. DeVitt in recognition of a distinguished West Texas family which has contributed much to the region, Texas Tech University and The Museum of Texas Tech University.

NEW REGENTS NAMED

Gov. Dolph Briscoe has submitted to the Texas Senate the names of three nominees as regents of Texas Tech University and the Texas Tech University School of Medicine. They are:

Dr. Judson F. Williams of El Paso, currently a member of the board and president of Uptrends which deals in oil, gas, farming and ranching investments;

A. J. Kemp of Fort Worth, executive vice president of the Texas Livestock Marketing Association and the National Finance Credit Corp.;

J. Fred Bucy, executive vice president of Texas Instruments, Inc.

Both Kemp and Bucy are graduates of Texas Tech, and Bucy last year was named "Distinguished Engineer" by the College of Engineering. He received his degree in physics in 1951 and Kemp received his in journalism in 1942.

They would replace Regents Waggoner Carr and Field Scovell whose terms of office with Williams, expired last January.

- * Instructed the Administration to ask the legislature to authorize the board to provide the necessary right-of-way to the Texas Highway Department to extend Indiana Avenue from 4th to 19th Street, through the campus;

- * Voted to extend Athletic Director J. T. King's contract four years, to 1978;

- * Passed a resolution commending the 1972-73 performance of the Texas Tech basketball team and its coaching staff;

- * Approved the schematics for a \$1.5 million addition to the Home Economics Building;

- * Named McMurtry & Craig of Lubbock as architects for construction of a \$480,000 range and wildlife building, made possible by a \$300,000 grant from the Goddard Foundation, and also as architects for remodeling in Horn-Knapp, and Stangel-Murdough residence halls;

- * Authorized the Administration to take bids on a \$150,000 renovation program at the Texas Tech University Center at Junction;

- * Authorized the Administration to make provisions for voluntary term life insurance and group hospitalization and surgical insurance for students, beginning with the fall 1973 semester, with the award going to the lowest bidder (Eagle Life Insurance Company of San Antonio was the low bidder of life insurance and the American General Life Insurance Company, also of San Antonio, had the low bid on hospitalization and surgical insurance.);

- * Awarded to Taylor Publishing Company a contract to print the 1974 and 1975 *La Ventana* at a base price of \$33,000 for 6,500 copies;

- * Announced that its next meeting will be May 11 and 1973-74 meetings will be Oct. 12, Nov. 30, Feb. 1, March 22, May 17 and Aug. 2.

After adjourning and reconvening as the Board of Regents of the Texas Tech University School of Medicine the members took similar action for the medical school on the degree programs and student insurance and:

- * Approved the schematic design for a power plant to serve the medical school complex;

- * Authorized the architects to proceed with medical school planning at a revised estimated construction cost of \$29 million;

- * Heard a report that 1,099 student applications have been received, that a significant number of these are from ethnic minority groups, that 479 are eligible while only 36 may be enrolled;

- * Heard Regent John Hinchey, M.D., explain that Texas Tech is the first Texas School actively to recruit the 56 Texans now enrolled in foreign medical schools, and heard Dean John A. Buessler report that Texas Tech expects to find 25 of these to fill its junior class for the fall of 1973.

EXHIBITS

NATIONAL JURIED JEWELRY SHOW - Department of Art Gallery, opens April 8
PAINTINGS BY AMERICAN WATERCOLORISTS from the collection of Dr. Homer Clark, Salt Lake City - The Museum
NINETEENTH CENTURY TEXAS FIREARMS AND TOOLS - The Museum, through April 15

NEW OFFICE FOR STEELE

Dean Jack D. Steele of the College of Business Administration March 22 was elected president of the Southwestern Business Administration Association at its annual conference in Dallas.

GEOLOGY SPEAKER

Dr. George M. Bennison, senior lecturer in geology at the University of Birmingham, England, will visit Texas Tech April 2-6 to consult with faculty and students and lecture on "Cretaceous Stratigraphy and Paleontology of an Area in the Alicante Province in Southern Spain."

AUSTRALIAN TO SPEAK

Dr. E.S.T. O'Driscoll, senior consultant for Western Mining Corporation, Western Australia, will address a meeting of the Department of Geosciences and the Lubbock Geological Society at 3:45 p.m., April 10, in Room 233 of the Science Building.

INTERIM DEAN FOR MED SCHOOL SOUGHT

As the Texas Tech University School of Medicine moves into its next phase of expansion and development, John A. Buesseler, M.D., vice president for Health Affairs and dean of the School of Medicine, will concentrate his efforts on the office of vice-presidency.

An interim dean for the School of Medicine will be named by May 1 to assume the responsibilities of that office.

His immediate responsibilities will include planning, programming, and staffing of the developing health schools and the coordination of health-related activities throughout the complex.

Dr. Buesseler invited nominations for the interim deanship at a meeting of chairmen of the departments of the School of Medicine Monday afternoon.

CALENDAR

- APRIL 4** Lecture--"Cretaceous Stratigraphy and Paleontology of an Area in the Alicante Province of Southern Spain," Dr. George M. Bennison, Science Building Room 233, 3:45 p.m.
 Movie--"The Cranes are Flying," University Center 4 and 8 p.m.
 Student Recital, Music Building, Room 1, 4:30 p.m.
 Panel Discussion - "The Poverty Problem," KTXT-TV, 6:30 p.m.
 Lecture - "Acoustics," Wayne Barlow, Music Building, Room 1, 7 p.m.
- APRIL 5** Lecture - "Cretaceous Stratigraphy and Paleontology of an Area in the Alicante Province of Southern Spain," Dr. George M. Bennison, Science Building, Room 233, 3:45 p.m.
 ICASALS Travel Lecture--"Eastern Europe," Dr. Idris Traylor, The Museum, 4 p.m.
 Banquet - Beta Gamma Sigma Honorary Business Fraternity, Dr. George Kozmetsky, speaker, The Museum 6:30 p.m.
 Western Dance - University Center, 8 p.m.
 Junior Recital - Danny Barnett, baritone, Music Building Room 1, 8:15 p.m.
- APRIL 6** Baseball - Texas at Austin (doubleheader), 1 p.m.
 Movie--"Billy Jack," University Center, 7 and 9 p.m.
 Concert--Tech Choir, University Center, 8:15 p.m.
- APRIL 7** Bairfield School House Dedication, Ranch Headquarters, The Museum, 10 a.m.
 UIL District 4-AAAA Literary Contests, all day
 Baseball--Texas at Austin, 1 p.m.
 14th annual Pre-Med Day, Registration in the Chemistry Building, 9 a.m.
 Chamber Music Program--String Quartet, Seaman Hall, 7 p.m.
 Concert--Salt Lake Symphonic Choir, Lubbock Municipal Auditorium, 8:15 p.m.
 Dance Concert--Tech Dance Division, Lubbock Theater Center, 8:15 p.m.
- APRIL 8** Opening--National Juried Jewelry Show. Art Department Gallery, 2 p.m.
 "Black Holes, Galaxies and Quasars," Moody Planetarium, 3 p.m.
 Recital--Holly Hughes, piano, Seaman Hall, 3 p.m.
 Movie--"Billy Jack," University Center, 7 p.m.
 Junior Recital--Bill Gammill, baritone; Bill Louthan, bass; Music Building, Room 1, 8:15 p.m.
- APRIL 12-14** UIL Region I 4-AAAA Literary and Athletic Events--all day
- APRIL 12** Lecture--"Libya," Dr. James Underwood, The Museum, 4 p.m.
 Movie--"The Hawks and the Sparrows," University Center, 4 and 8 p.m.

- All Campus Talent Show Preliminaries--various times in dormitories
 Speaker--Dick Gregory, Lubbock Municipal Auditorium, 7:15 p.m.
 Drama--"Mary Stuart," University Theater, 8:15 p.m.
APRIL 13 Art Workshop on Casting, Art Department, Begins at 1 p.m., continues through Saturday
 Food and Nutrition Seminar--"Nutritional Problems of the Mexican-American Population," Buford L. Nichols, College of Engineering, Room 110, 1:30 p.m.
 Distinguished Engineer Awards Luncheon, University Center, noon
 Music Theater--"Don Giovanni," Moody Auditorium, Lubbock Christian College, 8 p.m.
 Movie--"House of Dark Shadows," University Center, 7 and 9 p.m.
 "Mary Stuart," University Theater, 8:15 p.m.
 All Campus Talent Show, University Center, 8 p.m.
- APRIL 14** Lubbock Conference on Abortion, Law School Building, 9 a.m.
 Music Scholarship Auditions, Music Building, Room 1, 2 p.m.
 Casting Workshop, Art Department, all day
 Kutana Players, Dunbar High School, 8:15 p.m.
 Street Dance, Administration Building parking lot, 6:30 p.m.
 Music Theater--"Don Giovanni," Moody Auditorium, Lubbock Christian College, 8 p.m.
 "Mary Stuart," University Theater, 8:15 p.m.
- APRIL 15** Mini Woodstock, University Center Green, all day
 "Black Holes, Galaxies and Quasars," Moody Planetarium, 3 p.m.
 Senior Recital - Margaret Cabenaugh, soprano; Joyce McGlaun, violin, Seaman Hall, 3 p.m.
 Movie--"House of Dark Shadows," University Center, 7 p.m.
 "Mary Stuart," University Theater, 8:15 p.m.
 Senior Recital--Wanda Faubion, organ, First Methodist Church, 8:30 p.m.
- APRIL 16** Lecture--"Industrial Manufacture of Polyethylene," Dr. J. P. Marano Jr., College of Engineering Conference Room 104, 3 p.m.
 Movie--"The Shop on Mainstreet," University Center, 8 p.m.
 Recital--Nancy Young, piano, Seaman Hall, 7 p.m.
 "Mary Stuart," University Theater, 8:15 p.m.
- APRIL 17-19** Mae West/W.C. Fields Film Festival
- APRIL 17** Movie--"I Am No Angel," University Center, 2 and 8 p.m.
 Faculty Recital--Virginia Kellogg, violin; Norma Auchter, piano; Seaman Hall, 8:15 p.m.

SACS Visiting Team to Arrive Next Week

A MESSAGE FROM THE PRESIDENT--

As a member of the Southern Association of Colleges and Schools, Texas Tech University undertakes a self-study every ten years. The purpose of the self-study is to provide an opportunity for all members of the University community to review our activities, measure our progress during the preceding decade, and make projections for the next decade.

The 1972 study began with a briefing session in Atlanta, Georgia, to acquaint those directly responsible for coordinating the program with the best ways and means of accomplishing the task of implementing the study.

Thereafter a Phase I Steering Committee and a number of sub-committees were appointed. Each sub-committee was responsible for a particular phase of the report. After a thorough study of its area of operations, each sub-committee prepared a report for review by the Phase I and Phase II Steering Committees.

In September 1972, the Phase II Steering Committee was appointed and this committee was charged with the preparation of the final report, summarizing the many reports which had been prepared by the sub-committees. This was truly a gigantic task, but one which has now been very ably completed, resulting in a final report which primarily reflects faculty opinion.

Copies of the final report have been sent to each member of the team, appointed by the Southern Association of Colleges and Schools, which will visit our campus from April 22-25. Copies of this summary report are available in the Library and in the offices of Deans and Department Chairmen. The visiting team members will study the report and will then move freely around the campus, interviewing those they feel can contribute additional information or elaborate on the material included in the report.

I want to urge each of you to do whatever you can to aid the members of the visiting team as they seek to obtain information about this University.

I am certainly aware of the constant need for improvement, but I think you will agree with me that we have no reason to be apologetic about Texas Tech University when viewed from the quality of our faculty, our students, our staff, and our academic programs.

A self-study such as this involves a great deal of time and effort, and I am extremely grateful to all of you who have participated at all levels in the study. One of the greatest benefits which accrues from this program is the involvement of so many people in a critical, objective analysis of the University's activities.

As we move forward into Phase III, which will include the study and review of the visiting team's report and the implementation of feasible recommendations, I am confident that you will bring to this the same effort and goodwill which characterized your participation in the earlier phases of the study.

The visiting team will use Engineering Center as its headquarters, although the individual members will spend most of their time visiting with members of the University community around the campus.

I urge you to respond in every way possible to all requests from members of the visiting Self-Study Committee.

The telephone number for the Committee's headquarters in Engineering Center is 742-1247.

COMMENCEMENT SPEAKER

Dr. Frederick P. Thieme, president of the University of Colorado at Boulder, will deliver the 47th annual commencement address at Texas Tech University May 12.

The Southern Association of Colleges and Schools has advised that the following members will comprise the visiting team:

Dr. Cecil G. Taylor (Chairman), Chancellor, Louisiana State University.

Dr. Thomas Jones, President, University of South Carolina.

Dr. Hugh Holman, Keanan Professor of English, University of North Carolina.

Dr. Robert F. Davidson, St. Andrews Presbyterian College.

Dr. Paul Vestal, Professor of Science, Department of Biology, Rollins College.

Mr. Robert Koser, Registrar, Florida Atlantic University.

Mr. Peter Styres-Duran, Director of Libraries, Florida Atlantic University.

Mr. Richard J. Schiffli, Business Manager, University of Florida.

Dr. L. F. Seatz (Head), Department of Agronomy, University of Tennessee.

Dr. Billy Bryan (Head), Department of Agricultural Engineering, University of Arkansas.

Dr. Charles F. Kolb, Assoc. Director, Summer Session, North Carolina State University.

Dr. Bernard C. Kissell (Dean), College of Social Sciences, Florida Technological University.

Dr. William R. Butler, Vice President for Student Affairs, University of Miami.

Dr. Robert B. Beckmann (Dean), College of Engineering, University of Maryland.

Dr. Agnes Miller (Dean), College of Home Economics, Louisiana Tech University.

Dr. Randolph Batson, Director of Medical Affairs, Vanderbilt University.

Professor Agnes F. Ridley, Home Economics Education, School of Home Economics, Florida State University.

Professor Bertel M. Sparkes, Duke University School of Law, Duke University.

Dr. Gaines M. Rogers (Dean), College of Business & Industry, Mississippi State University.

Dr. John P. Wescott, Assoc. Prof. of Educational Admin., School of Education, Georgia State University.

Dr. Lawrence E. Smith, Professor of Education, Florida Atlantic University.

Mr. Hubert B. Owens (Dean), School of Environmental Design, University of Georgia.

Dr. Marion T. Loftin, Associate Dean of the Graduate School and Professor of Sociology, Mississippi State University.

Dr. Dale Huffman, Associate Professor, Department of Animal & Dairy Science, Auburn University.

Dr. W. G. McGuinnies, Office of Arid Land Studies, University of Arizona.

Dr. Norman Campbell, Vice Chancellor for Academic Affairs, University of Tennessee at Martin, Martin, Tennessee.

Dean Charles A. Rovelta, School of Business, Florida State University, Tallahassee, Florida.

ASSOCIATE V-P'S FOR ACADEMIC AFFAIRS NAMED

President Grover E. Murray has appointed Dr. William R. Johnson senior associate vice president and interim vice president for Academic Affairs.

He also announced the appointment of three other associate vice presidents for Academic Affairs, Dr. Samuel E. Curl, Dr. C. Leonard Ainsworth and Dr. Floyd Perry Jr. All the appointments are effective June 1.

Johnson is associate dean of the College of Arts and Sciences. Curl and Ainsworth will return soon from internships they have held this year as American Council of Education Fellows. Dr. Perry comes from Lincoln University, Jefferson City, Mo., where he has served as director of instruction since 1971. Prior to that he was assistant professor of education and program associate at the Center for Urban Studies at Wichita (Kansas) State University.

Academic Affairs Vice President S. M. Kennedy's resignation to become University Professor becomes effective May 31 and other administrators in the office, Drs. Owen L. Caskey, J. Wayland Bennett and Fred D. Rigby, will engage in teaching and research in their respective fields.

LEASE AGREEMENTS

Because of legal and liability problems, all lease agreements between any element of Texas Tech University Complex and any vendor covering trucks, trailers or tractors must be cleared by the Contracting and Purchasing Office and the Resident Legal Counsel before they are signed, according to Leo E. Ellis, comptroller and treasurer.

TELEGRAM PROCEDURES

When telegrams or cables are not sent by the Desk-Fax Telegraph machine in the Purchasing Office, a copy of the message should be filed with that office as soon as possible, according to John G. Taylor, contracting and purchasing officer.

Taylor also reminded that the account number to which the message is to be charged should be included.

CALENDAR

- APRIL 18-21 Annual meeting of the Southwestern and Rocky Mountain Division of the American Association for the Advancement of Science.
- APRIL 18 Movie - Mae West and W. C. Fields in "The Bank Dick," University Center, 2 and 8 p.m.
Student Recital, Room 1, Music Bldg., 4:30 p.m.
Panel discussion, "The Energy Crisis," Dr. Robert Rouse, moderator, KTXU-TV, 6:30 p.m.
Senior Recital, Walter Olivares, violin, Seaman Hall, 8:15 p.m.
- APRIL 19 Movie - Mae West and W. C. Fields in "My Little Chickadee," University Center, 2 and 8 p.m.
Student Woodwind and Brass Ensembles, Room 1, Music Bldg., 4:30 p.m.
University Center Awards Banquet, ballroom, 6:30 p.m.
Senior Recital, Susanna Garcia, flute, Seaman Hall, 7 p.m.
Texas Tech National Intercollegiate Rodeo, Lubbock Municipal Coliseum, 8 p.m.
- APRIL 20 Movie - "Kotch," University Center, 7 and 9 p.m.
Junior Recital, Mimi Bruner, soprano, Room 1, Music Bldg., 8:15 p.m.
Texas Tech National Intercollegiate Rodeo, Lubbock Municipal Coliseum, 8 p.m.
- APRIL 21 Junior Recital, Denise Neal, violin, Seaman Hall, 3 p.m.
"Black Holes, Galaxies and Quasars," Moody Planetarium, 3 p.m.
Junior Recital, Lauren Hutson, piano, Seaman Hall, 7 p.m.
Texas Tech National Intercollegiate Rodeo, Lubbock Municipal Coliseum, 8 p.m.
- APRIL 22 "Black Holes, Galaxies and Quasars," Moody Planetarium, 3 p.m.
Movie - "Kotch," University Center, 7 p.m.
Graduate Recital, Joe Faucett, baritone, Room 1, Music Bldg., 8:15 p.m.
- APRIL 23 Studio Recital, Joe Faucett, Room 1, Music Bldg., 7 p.m.
Concert - Texas Tech Concert Band, Varsity Bands and Brass Ensemble, Coronado High School Auditorium, 7:30 p.m.
Senior Recital, Benjamin King, baritone, Room 1, Music Bldg., 8:15 p.m.

EXHIBITS

NATIONAL JURIED JEWELRY SHOW -- Department of Art Gallery, through April 20

THESIS EXHIBIT -- Work of graduate students in the Department of Art, Art Building Gallery, April 24-May 18.

PAINTINGS BY AMERICAN WATERCOLORISTS from the collection of Dr. Homer Clark, Salt Lake City - The Museum, through April 29

TREASURE OF THE MONTH -- Mineral specimens and cut stones from the collection of the late Dr. William H. Stout

NEW PRESIDENCY

Dr. Mhyra S. Minnis of the sociology faculty has been elected president of the Southwestern Sociological Association which has 400 members in Texas, New Mexico, Arizona,

Oklahoma, Louisiana and parts of Colorado. She was elected March 24th at the 50th Anniversary session held in Dallas. She was program chairman for the meeting.

FCEC ELECTION

Dr. Charles Hardwick, chairman of the Department of Philosophy, was elected chairman of the Executive Committee of the Faculty Council April 11. Dr. C. Richard Quade of the physics faculty was elected vice chairman and Dr. Charles Burford of the industrial engineering faculty is the newly elected secretary.

RECEIVES A.C.E. FELLOWSHIP

Associate Dean C. Thomas Reese of the Texas Tech University School of Law has been named an American Council on Education Fellow for the 1973-74 Academic Internship Program at the University of Virginia. His mentor will be President Edgar Shannon of the University of Virginia.

- APRIL 14 Movie "The Dutchman," University Center, 2 and 8 p.m.
Junior Recital, Joe Rackley, trombone, Room 1, Music Bldg., 7 p.m.
Tech Choir Concert, University Center ballroom, 8:15 p.m.
- APRIL 25 Student Recital, Room 1, Music Bldg., 4:30 p.m.
Senior Recital, Joe Dennis, baritone, Room 1, Music Bldg., 7 p.m.
Junior Recital, John Childress, percussion, and Alvin Bedford, trombone, Room 1, Music Bldg., 8:15 p.m.
- APRIL 26 Army ROTC Awards Ceremonies, Mesa Room, University Center, 1:30 p.m. and 3 p.m.
Air Force ROTC Awards Ceremonies, Lecture Room 38, Chemistry Bldg., 3 p.m.
Graduate Recital, Charlotte Garner, clarinet, Room 1, Music Bldg., 7 p.m.
Symphony Orchestra Commencement Concert with piano soloists Micaela Daia and Mary Ann Ybarra, Estacado High School Auditorium, 8:15 p.m.
- APRIL 27 Dinner honoring retiring faculty and staff, University Center Ballroom, 6:30 p.m.
Movie - "Klute," University Center, 7 and 9 p.m.
Junior Violin Recital, Paula Woyton and Evelyn Gullatt, Seaman Hall, 7 p.m.
Junior Recital, Troy Warren, clarinet and flute, Room 1, Music Bldg., 8:15 p.m.
- APRIL 28 Retirement workshop for faculty and staff, Mesa Room, University Center, 8:45 a.m. to 12 noon.
"Black Holes, Galaxies and Quasars," Moody Planetarium, 3 p.m.
Flute Recital, Margaret Smith, Seaman Hall, 3 p.m.
Junior Recital, Edward Quillin, tenor, Room 1, Music Bldg., 7 p.m.
- APRIL 29 Junior Recital, Jedda Jones, soprano, Room 1, Music Bldg., 3 p.m.
"Black Holes, Galaxies and Quasars," Moody Planetarium, 3 p.m.
Mu Phi Epsilon Recital, Seaman Hall, 4:30 p.m.
Phi Mu Alpha American Music Concert, Room 1, Music Bldg., 7 p.m.
Movie - "Klute," University Center, 7 p.m.
Graduate Recital, Dan Whiteley, piano, Room 1, Music Bldg., 8:15 p.m.
- APR. 30- MAY 7 Final Examinations

VOL. 3, NO. 22, MAY 2, 1973

COMMENCEMENT PROGRAM SCHEDULED MAY 12

Approximately 1,900 spring graduates will receive their degrees in commencement exercises to be conducted at 8 p.m. Saturday (May 12) in the Lubbock Municipal Coliseum.

More than 2,000 others who completed requirements for their degrees in August and December 1972 are invited to participate in this spring's commencement program.

The spring list includes approximately 230 master's and doctoral degrees and 75 law degrees.

FACULTY PARTICIPATION

Faculty and staff are requested to assemble on the south side of the Coliseum at 7:40 p.m. to form the procession which will begin at 8 p.m., according to Dr. Kline A. Nall, commencement marshal.

The commencement address will be delivered by Dr. Frederick P. Thieme, president of the University of Colorado at Boulder. Texas Tech President Grover E. Murray will confer the degrees and introduce the speaker. Dr. Glenn E. Barnett, executive vice president, will preside.

Rev. Morris Sheats, pastor of Trinity Church, will offer the invocation and Rev. Howard Cupp, pastor of Westmont Christian Church, will pronounce the benediction.

Music will be provided by Dr. Judson Maynard, organist, and members of the Tech choral organizations under the direction of Conductor Gene Kenney.

MURRAY WILL HOST GRADUATES, GUESTS

Texas Tech University President Grover E. Murray will serve as host for a reception for graduating seniors, those receiving graduate degrees and their families and friends from 9:30 to 10:45 a.m. Saturday (May 12).

The reception will be in the Coronado Room of the University Center. In the past these receptions have been held in the afternoon. Dr. Murray said he hoped the new time would prove more convenient for graduates, faculty, staff and guests.

COBB HEADS FRATERNITY

Dr. John Cobb, chairman of the Department of Health, Physical Education and Recreation for Men, has been elected national president of Phi Epsilon Kappa Fraternity.

The fraternity is a national organization for men professionally engaged in health, physical education, recreation, safety and athletics. Dr. Cobb will serve a two-year term.

FACULTY COUNCIL HEARS REPORT FROM DR. MURRAY ON EFFORTS TO FILL VICE PRESIDENCY, DEANSHIP

The Faculty Council held its spring meeting April 17 and heard from its presiding officer, President Grover E. Murray, that:

* For the post of Vice President for Academic Affairs, 140 nominations or applications had been received with more expected; Among those received were only two from women, indicating the difficulty of seeking and finding women and minorities for administrative and faculty positions; deans will be asked to assist in the final selection; faculty members will be asked to assist in appraisals of various nominees and applicants; the President's primary interest is "finding for this university the very best possible academic vice president."

* Candidates for the position of dean of Education are to be invited to the campus as a result of work by a committee assisting the President in this area;

* As a result of an Attorney General's opinion regarding the payment of organizational dues by the university on behalf of the faculty this is considered a personal and not a state expense.

The Council received the report of the *Ad Hoc* Committee on Final Examination Week, and Dr. Murray said he would forward the report for additional review. The report indicated that most faculty members feel one hour is not enough for final exams, but there might be some sentiment favoring a shortened period.

The Council also:

* Endorsed the "principle of having a final examination;"

* Heard a petition to amend Article III, Section 4, of the Faculty Council Charter to read -- "Qualification for membership on the Executive Committee shall be (tenure) *membership in the voting faculty*, except that administrative officials, including assistant deans, shall not be eligible. Department chairmen shall not be excluded from membership." (The petition is to be voted upon at the fall meeting of the Faculty Council);

* Adopted, for consideration by the President, the recommendations of the Faculty Council Executive Committee from the Report and Recommendations of the *Ad Hoc* Committee on Minority Students and Ethnic Studies, including three major points -- 1) a Faculty Council Standing Committee on Minority Students and Ethnic Studies made up of faculty and students, 2) a university developed comprehensive plan to provide the fullest development of talents and interests of minority students, and 3) actions to implement the intent of such a comprehensive plan.

SWIMMING AND TENNIS INSTRUCTION AVAILABLE

Texas Tech University's Health, Physical Education and Recreation Department will conduct courses of instruction in tennis and swimming for faculty and staff families during the summer.

The first of six courses in swimming will start May 28 and the first session of tennis instruction will begin June 4. Additional information may be obtained by calling 743-3113.

TELEPHONE CHANGES

To improve telephone equipment service and to prepare for the beginning of the new TEX-AN state telephone network in January 1974, it is necessary to change 743-XXXX numbers to 742-XXXX numbers effective Oct. 1, 1973, according to Leo E. Ells, comptroller and treasurer.

The 743-XXXX numbers will work on either number until the effective date of change, he said, but be sure that the 742-XXXX number is used for the TEX-AN Directory and the Texas Tech University Complex Telephone Directory for 1973-74.

ELLZEY HEADS COUNCIL

Prof. W. Clark Ellzey of the Home and Family Life Department faculty at Texas Tech has been elected president of the Texas Council on Family Relations for a two-year term.

DUDLEY JOHNS HONORED

Retired Tech postman Dudley Johns was a special honoree April 27 at a dinner honoring retired faculty and staff. Mailbag No. 1 was officially retired in his honor and a check for \$450 was presented to Johns. Johns returned the check to establish a scholarship named for himself and his wife, Jessie. Some 360 persons attended the dinner in the University Center.

NEW APPOINTMENTS FOR FRYE AND BUESSELER

Dr. William W. Frye has been named interim dean of the Texas Tech University School of Medicine effective May 1. He has consented to serve in this capacity until the appointment of a new dean.

Dr. Frye has been a special full-time consultant to the School of Medicine since August 1970. He has worked closely with Texas Tech President Grover E. Murray and Dr. John A. Buesseler who has relinquished the deanship of the medical school to devote full time to the duties of vice presidencies for Health Affairs and Health Sciences.

Drs. Buesseler and Frye have been named University Professors. They are the third and fourth individuals to hold the title, a position created by the Texas Tech Board of Regents last year.

APPLICATIONS SOUGHT FOR FULBRIGHT AWARDS

Applications for senior Fulbright-Hays awards for university lecturing and advanced research during 1974-75 in more than 75 countries are now being accepted.

The booklet on the program for the period may be consulted at the office of Dr. David M. Vigness, professor and chairman, Department of History, Texas Tech's Fulbright adviser.

July 1, 1973, is the deadline for applying for most of the announced research awards and it is the suggested date for filing for lectureships.

GOLF TOURNAMENT

Texas Tech University employees are invited to participate in the first annual state employees West Texas Golf Tournament to be held the weekend of June 2, 1973. The tournament will be held at Pinehill Golf Club and the entry fee for each employee-guest is \$24, which includes green fees and tournament fees. Deadline for entering is May 25.

Additional information may be obtained from Bob Jones, Motor Vehicle Division, Texas Highway Department, Briercroft Shopping Center, telephone 747-0296.

GET TICKETS NOW!

Priority for Texas Tech faculty and staff to purchase choice seats for the 13th annual Coaches All-America Game June 23 ends this week, according to Ruth Sturtz, ticket manager for the Athletic Department. After this weekend, faculty and staff will have to take what is available, she said.

The 7:30 p.m. game will be televised nationally.

BARRICK IS AIA FELLOW

Prof. Nolan E. Barrick, chairman of the Department of Architecture at Texas Tech University since 1953, has been named one of eight Texas Architects to the College of Fellows of the American Institute of Architects in 1973.

EXHIBITS

THESIS EXHIBIT - Work of graduate students in the Department of Art -- Art Building Gallery, through May 18

ART IN ANTIQUITY - Pottery, bronzes, terra cotta -- The Museum, opens May 8

TREASURE OF THE MONTH - Mineral specimens and cut stones from the collection of the late Dr. William H. Stout -- The Museum

GRADUATE SCHOOL NAMES PHELAN ASSISTANT DEAN

Dr. Marilyn Phelan of the faculty in the College of Business Administration has been named assistant dean of the Graduate School, effective Sept. 1. Dr. Phelan holds a law degree from the University of Texas and a DBA degree from Texas Tech University. Her areas of special interest include accounting and taxation. She has a CPA certificate from the state of Texas.

INSURANCE PREMIUMS

Employees paid on a nine-month basis must pay insurance premiums by check for the summer months. The Payroll Department explained:

Since insurance premiums are deducted on a 12-month basis, it is necessary for premiums to be paid by check any month in which no payroll deduction is made. If no premium is received your name will be deleted from the billing and your insurance cancelled. Checks made payable to *Texas Tech University* may be brought or mailed to the Payroll Department, Box 4400, Lubbock, Tex. 79409.

OFFICERS ELECTED BY TECH AAUP CHAPTER

Prof. William A. Stewart of the Department of Architecture has been elected president of the Texas Tech chapter of the American Association of University Professors, succeeding Dr. Benjamin Newcomb, professor of history, who remains a member of the Executive Committee.

Other new officers are Dr. Margaret Wilson, chairman of the Department of Health, Physical Education and Recreation for Women, vice president; Dr. Robert G. Collmer, professor of English, secretary; and Dr. Harry A. Jebson, professor of history, treasurer.

REGENTS TO MEET

The Boards of Regents of Texas Tech University and the Texas Tech University School of Medicine will meet in regular session at 3:30 p.m. Friday (May 11) in the Board Room of the Administration Building. Members of the board have been invited to remain for Spring Commencement exercises at 8 p.m. Saturday.

MAN OF THE YEAR

The staff of La Ventana has named President Grover E. Murray "Man of the Year" for his "outstanding contributions to Tech during the past academic year."

The President's picture will appear on the cover of the Tyme section of the 1972-73 yearbook.

La Ventana Co-editors Jan Shaw and Jeff Lawhon, in a surprise presentation ceremony April 25, cited Murray for helping the university gain national academic recognition, speeding Texas Tech on its way to becoming a first class university, for his efforts to have a medical school established at Texas Tech, and for his support of the sports program, the new School of Law, and an "effective faculty."

CALENDAR

APRIL 30-

MAY 7 Final Examinations

MAY 2 Panel discussion, "The Energy Crisis," (Part 2), Dr. Robert Rouse, moderator, KTXT-TV, 6:30 p.m.

MAY 3 "Texas Wildlife," Range and Wildlife Department, KTXT-TV, 6:30 p.m.

NEW VICE-PRESIDENT NAMED

Dr. Robert H. Ewalt, director of Residence Living at Washington State University since 1969, has been appointed vice-president for Student Affairs at Texas Tech University.

He will assume duties here Aug. 1.

"Dr. Ewalt's position at Texas Tech will fill a major role in administration activities," Dr. Murray said. "His experiences at the University of Illinois and at Washington State have given him in-depth understanding of the broad spectrum of student life. We expect his appointment to this vice-presidency to strengthen the entire administration of the institution and to enhance and to enrich the academic experience at Texas Tech."

BOARD OPPOSES ANY NEW MEDICAL SCHOOLS

The Board of Regents of the Texas Tech University School of Medicine May 11 went on record as opposed to the creation and funding of any new or additional schools of medicine in the State of Texas requiring state funds for construction or operation until existing schools of medicine and centers connected with them are fully funded so as to achieve excellence in all medical fields of study.

In connection with this stand the board declined to authorize the participation of TTUSM in the establishment of a new state medical school under the provisions of a law whereby the federal government, through the auspices of the Veterans Administration, has offered partial funding for new medical schools.

The board accepted renovation of Thompson Hall, converting it from a residence hall to a temporary clinical facility.

The regents also approved affiliations with R. E. Thomason General Hospital in El Paso, the High Plains Baptist Hospital and St. Anthony's Hospital in Amarillo, Memorial Hospital of Kermit, Midland Memorial Hospital, Ochiltree Hospital District, Perryton, and Posey Neighborhood Clinic in Lubbock.

REGENTS APPROVE FOOD SCIENCE AND HUMAN NUTRITION INSTITUTE, GRADUATE PROGRAMS

The Board of Regents May 11 approved the establishment of an Institute of Food Science and Human Nutrition, a free standing institute of Texas Tech University and Texas Tech University School of Medicine.

The institute is to be developed in the broadest sense of the word "food" with the view of developing efficient and nutritionally sound food systems for people, with the broadest possible interdisciplinary involvement by personnel of the university and the medical school.

Initial development, administrative procedures and staffing will be largely by joint appointment using current strengths of the present faculty and staff. The long range goal is to make the institute free standing with its own staffing, financing and facilities, offering opportunities in undergraduate and graduate areas as well as research.

KENNEDY, BUESSELER HONORED BY BOARD

The Board of Regents May 11 passed special resolutions honoring Dr. S. M. Kennedy, vice president for Academic Affairs, and Dr. John A. Buesseler, vice president for Health Affairs and for Health Sciences.

Dr. Kennedy, who came to Texas Tech as a student in 1935, was recognized for his services as a teacher and administrator.

His resignation as vice president becomes effective May 31 when, as a University Professor, he will return to teaching, research, and writing.

Dr. Buesseler, also a University Professor, was recognized for his outstanding leadership in establishing the operation of the Texas Tech University School of Medicine. He served as the school's first dean.

A FIRST FOR TECH--

For the first time in the history of Texas Tech University new members of the Board of Regents accepted the oath of office in ceremonies on the university campus.

Judge William R. Shaver of 140th District Court administered the oath of office to new members A. J. Kemp Jr. of Fort Worth and J. Fred Bucy Jr. of Dallas and to Dr. Judson Williams of El Paso, reappointed to another six-year term. Judge Shaver was the first resident counsel for the university.

The ceremony preceded the meeting of the Board Friday (May 11).

The administration was directed to develop detailed plans for both short and longtime goals.

The regents also:

* Approved, for forwarding to the Coordinating Board, Texas College and University System, a master of arts degree program in museum science, the only one of its kind in Texas;

* Approved a resolution recognizing as a high priority the need to meet the educational needs of personnel at Reese Air Force Base;

* Authorized the Administration to study further the internal traffic flow on campus, with the Administration asked to investigate also the possibility of eliminating the railroad tracks which bisect the campus and to have at least a preliminary report ready for the August meeting of the Board of Regents;

* Approved a television policy for non-conference home basketball games calling for blackouts within a 120-mile radius of Lubbock and conforming to policies at other Southwest Conference schools;

* Extended through Aug. 31, 1977, the contract of Polk Robison, athletic administrator of Finance and Development;

* By a state auditor's ruling, discontinued the credit system at the University Bookstore;

* Granted promotion and tenure to several faculty members and emeritus status to former Dean of Student Life James G. Allen and Profs. Burl M. Abel, Mary Louise Brewer, Truman W. Camp, Lola Beth Green, Emmett Hazlewood, E. R. Heineman, Edna Houghton, P. Merville Larson, Robert I. Lockard, A. G. Oberg, Robert Parker and F. Alton Wade;

* Authorized, providing funds are available, completion of the second floor and other remodeling of the Agriculture Building and air conditioning of it and the Agricultural Engineering and Veterinary Science buildings; authorized a call for bids for chemistry building laboratory equipment; accepted construction of the greenhouses; authorized a call for bids for University Center-Music Building facilities with approval of plans by the office of Housing and Urban Development, authorized a call for bids for expansion of the Central Heating and Cooling Plant, and awarded a contract to Knox Gailey and Meader for residence hall remodeling;

* To cover increased costs, increased the residence hall base rate \$25 per semester;

* Authorized a call for bids for a contract to supply vending machines on campus;

* Cancelled present insurance policies for a rebate of \$121,000 and accepted new bids at an annual saving of \$94,000.

EXHIBITS

NAVAJO SAND PAINTINGS from the collection of Mrs. Glenn Harris of Many Farms, Ariz.--The Museum, opens May 19

ART IN ANTIQUITY, pottery, bronzes, terra cotta--The Museum, through June 10

TREASURE OF THE MONTH, mineral specimens and cut stones from the collection of the late Dr. William H. Stout--The Museum

THESIS EXHIBIT by graduate students in the Department of Art--Art Building Gallery, through May 18

STEELE HONORED

Business Administration Dean Jack D. Steele has been named to a special board of the Small Business Institute "Review." Board members will serve as national representatives of the academic disciplines related to business management.

RESEARCH FELLOWS NAMED FOR SUMMER

Thirteen faculty members have been named University Faculty Research Fellows for the summer of 1973. The fellowship program is sponsored through National Science Foundation institutional development grants. The fellows will concentrate their research efforts during six-week periods in the summer. This is the second year for granting of the fellowships at Texas Tech.

Recipients of the grants are: Drs. William Atchley, biology; David Carlyle, chemistry; V. Thomas Dock, business administration; Gary S. Elbow, geography; Gerald Kirby, mechanical engineering; Raymond Meyer, agronomy; Robert Mitchell, biology; Coleman O'Brien, animal science; Thomas O'Brien, chemistry; Otis Templer, geography; Thomas Trost, electrical engineering; Reed Quilliam Jr., law; and Ehud Yairi, speech and theater arts.

GET TICKETS NOW FOR ALL-AMERICA GAME

COURSES AT JUNCTION TO START JUNE 5

Basic freshman and sophomore courses and courses for educators and graduate students will be offered in two six-week and four three-week summer session at the University Center at Junction.

Six-week sessions will be conducted June 5-July 13 and July 16-Aug. 23. Three-week sessions will be June 5-23; June 25-July 13; July 16-Aug 3; and Aug 6-23.

Courses offered will include entomology, anthropology, art, biology, education, English, geosciences, government, history and mathematics.

For more information, contact the Office of the Dean of Admissions, or the Director, University Center at Junction, Box 186, Junction, Tex. 76849.

MATHEMATICS MEETING

The first of a three-year six-part series of conferences on "The American Mathematical Heritage, 1776-1976" will be held on the Texas Tech campus May 28-30.
