

or services rendered by the Lubbock City Health Department. We are aware that the services provided currently through the Health Department are inadequate to meet the needs of the community as a whole. Any cutbacks or reductions would drastically jeopardize the overall health of the City of Lubbock.

We also petition against reduction of those services which are much needed by our community such as the Citi Bus Service. Many of the citizens of Lubbock are dependent on their well-being by the services provided by the Citi Bus.

We also strongly oppose any reduction in recreational services provided by Community Centers and Parks. It is our belief that the centers serve as the only source of organized recreation for our young, serve as the vehicle to prevent juvenile delinquency and provide a healthy atmosphere for the growth of our youth.

services rendered by the Lubbock City Health Department. We are aware that the services provided currently through the Health Department are inadequate to meet the needs of the community as a whole. Any cutbacks or reductions would drastically jeopardize the overall health of the City of Lubbock. We also petition against reduction of those services which are much needed by our community such as the Citi Bus Service. Many of the citizens of Lubbock are dependent on their well-being by the services provided by the Citi Bus. We also strongly oppose any reduction in recreational services provided by Community Centers and Parks. It is our belief that the centers serve as the only source of organized recreation for our young, serve as the vehicle to prevent juvenile delinquency and provide a healthy atmosphere for the growth of our youth.

of services rendered by the Lubbock City Health Department. We are aware that the services provided currently through the Health Department are inadequate to meet the needs of the community as a whole. Any cutbacks or reductions would drastically jeopardize the overall health of the City of Lubbock.

We also petition against reduction of those services which are much needed by our community such as the Citi Bus Service. Many of the citizens of Lubbock are dependent on their well-being by the services provided by the Citi Bus.

We also strongly oppose any reduction in recreational services provided by Community Centers and Parks. It is our belief that the centers serve as the only source of organized recreation for our young, serve as the vehicle to prevent juvenile delinquency and provide a healthy atmosphere for the growth of our youth.

services rendered by the Lubbock City Health Department. We are aware that the services provided currently through the Health Department are inadequate to meet the needs of the community as a whole. Any cutbacks or reductions would drastically jeopardize the overall health of the City of Lubbock. We also petition against reduction of those services which are much needed by our community such as the Citi Bus Service. Many of the citizens of Lubbock are dependent on their well-being by the services provided by the Citi Bus. We also strongly oppose any reduction in recreational services provided by Community Centers and Parks. It is our belief that the centers serve as the only source of organized recreation for our young, serve as the vehicle to prevent juvenile delinquency and provide a healthy atmosphere for the growth of our youth.

We are aware that the services provided currently through the Health Department are inadequate to meet the needs of the community as a whole. Any cutbacks or reductions would drastically jeopardize the overall health of the City of Lubbock.

We also petition against reduction of those services which are much needed by our community such as the Citi Bus Service. Many of the citizens of Lubbock are dependent on their well-being by the services provided by the Citi Bus.

We also strongly oppose any reduction in recreational services provided by Community Centers and Parks. It is our belief that the centers serve as the only source of organized recreation for our young, serve as the vehicle to prevent juvenile delinquency and provide a healthy atmosphere for the growth of our youth.

we, the undersigned, hereby petition the City Council to restrain from any reduction of services rendered by the Lubbock City Health Department. We are aware that the services provided currently through the Health Department are inadequate to meet the needs of the community as a whole. Any cutbacks or reductions would drastically jeopardize the overall health of the City of Lubbock.

We also petition against reduction of those services which are much needed by our community such as the Citi Bus Service. Many of the citizens of Lubbock are dependent on their well-being by the services provided by the Citi Bus.

We also strongly oppose any reduction in recreational services provided by Community Centers and Parks. It is our belief that the centers serve as the only source of organized recreation for our young, serve as the vehicle to prevent juvenile delinquency and provide a healthy atmosphere for the growth of our youth.

we, the undersigned, hereby petition the City Council to restrain from any reduction of services rendered by the Lubbock City Health Department. We are aware that the services provided currently through the Health Department are inadequate to meet the needs of the community as a whole. Any cutbacks or reductions would drastically jeopardize the overall health of the City of Lubbock. We also petition against reduction of those services which are much needed by our community such as the Citi Bus Service. Many of the citizens of Lubbock are dependent on their well-being by the services provided by the Citi Bus. We also strongly oppose any reduction in recreational services provided by Community Centers and Parks. It is our belief that the centers serve as the only source of organized recreation for our young, serve as the vehicle to prevent juvenile delinquency and provide a healthy atmosphere for the growth of our youth.

We also strongly oppose any reduction in recreational services provided by Community Centers and Parks. It is our belief that the centers serve as the only source of organized recreation for our young, serve as the vehicle to prevent juvenile delinquency and provide a healthy atmosphere for the growth of our youth.
