AUSTIN, April 4 -- Two Texas Tech faculty members were elected to offices in the 2,400-member Texas Association of College Teachers during a weekend meeting here.

Tech librarian Ray C. Janeway was elected vice president, and mathematics professor Robert M. Parker was re-elected treasurer.

Other Tech delegates attending the meeting were Dr. Kenneth Davis and Dr. Emmett Hazlewood.

LUBBOCK, April 4 — Betty Jane Smith, Texas Tech senior from Dallas, was elected president of the Texas Association of German Students during its annual conference held at Tech April 2.

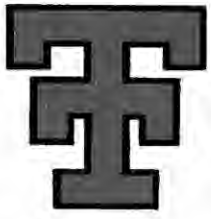

The daughter of Mr. and Mrs. Lloyd W. Smith of 3354 Royal Lane in Dallas, Miss Smith is majoring in German. She has been an honor student for the past four years.

Miss Smith is a member of Phi Kappa Phi, Kappa Kappa Gamma and past president of Delta Phi Alpha, German honor fraternity.

She is a graduate of Thomas Jefferson High School in Dallas.

LUBBOCK, April 5--Seniors in Texas Tech's Agricultural Economics Club in the School of Agriculture have returned from a trip to Fort Worth where they were guests of the Chamber of Commerce.

The group toured the General Motors Assembly Plant, Kimbell Milling Plant, the First National Bank and other area facilities.

Making the trip were Don Gailey, Memphis; Gary Wells, Houston; Joe Ayres, Friona; Robert Spencer, Dallas; Milton Hattaway, Houston; and Dan Street, Amarillo.

Sponsors accompanying the students were Dr. Hong Yong Lee and Dr. James Osborn, assistant professors of Agricultural Economics.

This release was distributed 4/5/66 to local media, special oil list, and authors hometowns.

FOR RELEASE SUNDAY, APRIL 10

LUBBOCK, April 9 -- A final list of authors and abstracts for the 13th annual Southwestern Petroleum Short Course scheduled at Texas Tech April 21-22 was released Saturday by Wallace B. Johnson, Conference general chairman.

Included are Otto R. Harrison, Eben D. Junkin, Jr., Houston; Charles N. Smith, M. L. Chester, James D. Crawford, Odessa; John D. Stone, Ed L. Reed, Midland; R. G. Parker, Fort Worth; Paul Witt and Harold F. Browne, Dallas.

Johnson, general sales manager for the Cardinal Chemical Co. in Odessa, is expecting more than 300 petroleum industry executives for the conference. Registration and conference headquarters will be in the Tech Union. Registration will begin at 8 a.m. with a fee of \$15 per person.

George Bush, director of the Zapata Off-Shore Co., will give the principal address at the opening day luncheon. Marshall Keathley, district manager of the secondary recovery department of Forest Oil Corp. in Midland, is program chairman.

Harrison, development engineer with Humble Oil and Refining Co., will discuss "Use of Computers for Gas Measurement and Well Control in the Greta Field." Harrison received a bachelors degree from the University of Texas. He will explain that 32 gas wells were incorporated into a computer program in the Greta Field in Refugio County. The program includes gas measurements for all wells and control of 15. Individual computers are located at the lease metering sites. Flow volumes are recorded, and wells are controlled from a console located at the Tom O'Connor Gas Plant.

Smith's paper explains what one pipeline is doing in the automation of its operations in the West Texas gathering area and on its mainline systems. The paper will cover automation in its gathering system and possible future operations. Smith, a division automation supervisor for Phillips Pipe Line, will discuss the mainline systems covering control of both electric and gas operated pump stations and telemetering equipment used. He received a degree in civil engineering from Kansas State.

SHORT COURSE...add one

"The Economical Use of Plastic Pipe for Corrosion Control" is the subject selected by Chester, division sales engineer for the Drilling Specialties Co. He holds a degree in mechanical engineering from Tech. He will discuss various properties of plastic materials, uses and methods of installation to aid producers in choosing the correct product for each application.

A dual subject concerning scale and paraffin problems encountered in petroleum production will be covered by Crawford, a technical director for Hydrochem-Continental Products. He received bachelors and masters degrees from Hardin-Simmons. He will discuss several methods of control for scale formation. Paraffin, or wax formation in oil production, will be covered by types and areas.

"Corrosion and Corrosion Control in Oil and Gas Producing Equipment" is the topic of Junkin, corrosion engineer with the Tidewater Oil Company. He holds a bachelor of science from Texas A&M. He will tell participants that an understanding of corrosion, its occurrence and causes, and ways and means of mitigation provides a sound basis for the selection, design and execution of an effective corrosion control program.

Stone, sales supervisor of petroleum industry chemicals for the Baroid Division of the National Lead Company, will discuss "Inhibitors for Corrosion Control". He will point out the importance of operating personnel responsible for setting up and maintaining a corrosion inhibition program to have a basic knowledge of the variety of materials used as corrosion inhibitors. Stone graduated from Texas A&I in 1949 with a bachelor of science degree in Chemistry.

"Functions of Middle Management" is the topic of Parker, regional production manager for Continental Oil Co. He has spent 28 years in the field, and was educated at the California Institute of Technology, University of California and Harvard. Parker will explain that there has always been a middle management furnishing the connecting link between top management and the operating management at the well head. Changes have occurred in which additional layers of supervision have been added and subtracted, all depending on the management philosophy prevalent at the time. Companies with aggressive middle managements, sensitive to changes in industry conditions, who have properly exercised the functions of planning, organizing, staffing, directing, coordinating, controlling and communicating, have survived and prospered.

(More)

SHORT COURSE...add two

A short history of the development of ground water sources for waterflooding programs will be given by Reed, a consulting geologist. His talk is entitled "Economic Evaluation of Water Sources for Waterflooding Programs." He will discuss the gradual trend from deep brine sources to shallow fresh or brackish water sources. A review of the development of the concept of a royalty, or in-place value in acquisition of water rights will be presented. Reed also will present an analysis of cost data in developing, producing and transporting water in relation to the present level of delivering prices for fresh or brackish water.

Bureau of Mines officials Witt and Browne, will present a demonstrated lecture on "Explosion-Proof and Permissible Electrical Equipment." They will illustrate the need for and the maintenance of explosion-proof and permissible electric equipment. Devices will be used to demonstrate the behavior of flammable gases in conduits and similar enclosures.

and Univ. of Texas alumni magazine.

LUBBOCK, April 5 -- Honored last weekend at the 18th annual Honor's Day ceremonies at the University of Texas was David B. Gracy II, new archivist of the Southwest Collection at Texas Tech. Gracy was recognized for his election to Phi Alpha Theta, national history honorary.

A former employee of the Texas State Archives and the University of Texas Archives, Gracy came to the Southwest Collection Feb. 1 from the Texas State Historical Association, where he worked as editorial assistant on the Southwestern Historical Quarterly.

For the past year he had been writing his master's thesis on the Littlefield Lands Company which opened the town of Littlefield between 1912 and 1920.

A native of Austin, he holds the bachelors and masters degrees from UT.

During the last three years Gracy has had eight articles and several book reviews published in scholarly journals from Tennessee to Texas to Arizona. He is also the author of Maxey's Texas, published last fall by the Pemberton Press. He will continue to serve as associate editor of Texas Military History, published by the Texas National Guard Association.

His memberships include the Western History Association, the Organization of American Historians, the Texas State Historical Association, the Society of American Archivists and the National Trust for Historic Preservation.

This release was distributed
4/5/66 to all local news media
and the Las Vegas Optic.

LUBBOCK, April 5 -- Texas Tech government professor Raymond D. Mack was installed as president of the Rocky Mountain Council for Latin American studies at the organization's 11th annual meeting held last weekend at Texas Western College in El Paso.

Tech geosciences professor Karl H. Wuerschling was named secretary-treasurer and Dr. Evelyn Montgomery, sociology and anthropology professor, was named to the executive council.

Also attending were Dr. John Hildebrand, economics professor, and history graduate assistants W. B. Aston and Nelson Delavan.

Texas Tech was designated to host the group's meeting in 1967.

Mack has been teaching at Tech since 1946. He earned a bachelor of arts degree from Texas Christian University in 1945 and a master of arts degree in government from the University of Texas in 1949. He has done doctoral work at the University of Indiana.

In 1960, he was a visiting professor of Latin American politics at the University of Tennessee and also was associate director of the Bureau of Public Service at UT. Mack is a native of Las Vegas, N.M.

LUBBOCK, April 5 -- Texas Tech has been awarded a regional Head Start Training Grant in the amount of \$19,885, President R. C. Goodwin announced Tuesday (April 5).

Mrs. Frances Lyle has been employed by the Home and Family Life Department of Tech's School of Home Economics as Regional Training Officer for the Head Start program for pre-school children.

Mrs. Lyle will be responsible for assisting communities within a 300 to 400-mile radius of Lubbock in developing their local Head Start projects. She also will do some teaching and seminar work at Tech.

The grant providing for the location of a regional training officer at Tech is a continuation of the program enabling institutions of higher learning to assist the Office of Economic Opportunity in carrying out Head Start objectives.

The Head Start Program implemented last summer under the Economic Opportunity Act provides child development centers for economically deprived children. Purpose of the pre-school training is to enable these children to become physically and educationally ready to start school in September.

Mrs. Lyle is a former assistant professor at Tech and former regional licensing worker and child welfare worker in the City-County Welfare Division of the State Department of Public Welfare. She also was a child development and family life consultant for the South Plains Guidance Center.

Her home is in Ralls.

This release was distributed 4/5/66
to local media.

LUBBOCK, April 8 -- Dr. Sara M. Hunt and Miss Barbara J. Zeches of the Food and Nutrition Department in Texas Tech's School of Home Economics will attend the 50th annual meeting of the Federation of American Societies for Experimental Biology (FASEB) in Atlantic City, N. J.

The FASEB sessions, scheduled Monday through Saturday (April 11-16) will deal with physiology, biochemistry, pharmacology, pathology, nutrition and immunology.

Approximately 1,000 professional representatives from the various fields of study are expected to attend.

This release was distributed 4/6/66 to local media.

LUBBOCK, April 6 -- George B. Hartzog, director of the National Park Service was a Texas Tech visitor Wednesday as a guest of Elo J. Urbanovsky, head of Park Administration.

Hartzog, with offices in Washington, has just returned from the Big Bend National Park where he accompanied Mrs. Lyndon B. Johnson on her tour of the 708,000-acre facility.

Describing Mrs. Johnson's trip as "extremely successful" Hartzog said her efforts on behalf of the national beautification program have provided "a big boost to parks and park conservation.

"Her program has helped point up the great need for preserving the beauty and character of America," he said.

Hartzog, a native of South Carolina, termed his trip to Tech and Lubbock as an "educational experience. It's the first time I have ever been here."

He pointed out that he was "quite impressed" with the physical plant and facilities available. Hartzog said he is pleased with the "creative work" being performed by Tech's Park Administration Department.

Hartzog, also visited with Park Administration graduate students Don Stence, Alden Sievers and Jerry Rogers.

FOR RELEASE: Sunday, April 10, or thereafter

LUBBOCK, April 9 -- Stanford University Electrical Engineering professor Gerald L. Pearson will speak at Texas Tech April 15 at the Engineering Lecture Series.

Dr. Pearson, also associated with the Solid-State Electronics Laboratory at Stanford, will speak at 4 p.m. in the Architecture Auditorium. His talk will be open to the public.

Dr. Pearson also will conduct a seminar on conversion of solar to electrical energy by means of photovoltaic cells and the effects of composition and uniaxial stress on microwave oscillations in certain alloys.

After receiving his bachelors degree from Willamette University in 1926, and his MA from Stanford in 1929, he joined Bell Telephone Laboratories as a research physicist. Dr. Pearson remained at Bell for 31 years, retiring in 1960 to join the faculty at Stanford. He accumulated 32 patents upon such semiconductor devices as thermistors, silicon alloy diodes, silicon diffused power rectifiers, the backward diode, drift transistors, the solar battery and special tunnel diode structures. His writings have been widely published in scientific journals.

Among Dr. Pearson's honors are the honorary ScD by Willamette, and the John Scott Award by the City of Philadelphia, both in 1956; directorship of a group specializing in the applied physics of solids from 1957-1960; and the John Price Wetherill Medal from The Franklin Technical Institute, and Gold Plate Award from the American Academy of Achievement, both in 1963.

He is a member of the American Physical Society, a Fellow of the Institute of Electrical and Electronics Engineers, a member of the New York Academy of Sciences, of the Solar Energy Society and Sigma Xi. He is a consultant to Varian Associates, TRW Space Technological Laboratories, Douglas Aircraft and Electro-Nuclear Laboratories.

At the Solid-State Electronics Laboratory, Dr. Pearson directs graduate students in investigations relating to the diffusion of impurities in compound semiconductors and other solid-state electronics research projects.

FOR RELEASE SUNDAY, APRIL 10 OR THEREAFTER

This release was distributed 4/7/66 to
all local media.

LUBBOCK, April 9 -- Dr. Michael M. Szwarc, research professor of physical and polymer chemistry at the State College of Forestry at Syracuse University, will conduct a seminar at Texas Tech April 15.

Dr. Szwarc will discuss "Reactivities of Ions and Ion-Pairs in Aprotic Solvents" at a 5 p.m. meeting in the Chemistry Building.

Born in Poland in 1909, Szwarc received a degree in chemical engineering from Warsaw Polytechnic College, a PhD in organic chemistry from the Hebrew University in Jerusalem, and a PhD and DSc from the University of Manchester in England.

Dr. Szwarc won the Sigma Xi Award for significant research work in methyl radical affinities in 1955. He was appointed by the Royal Society as a visiting professor to the University of Liverpool during 1963-64.

He was awarded the title of distinguished professor of chemistry by the State University of New York in 1964, and was elected a Fellow of the Royal Society in London this year.

Dr. Szwarc's work during the past several years has dealt with studies of reactivities of free radicals in the gas phase and in solution, studies of cage reactions, photochemistry, anionic polymerization, studies of ions and ion-pairs in aprotic solvents, electron transfer reactions in aprotic solvent and chemistry of radical-ions.

FOR RELEASE: Sunday, April 10

LUBBOCK, April 7 -- Faculty members from the School of Home Economics and the School of Agriculture will represent Texas Tech at the U.S. Office of Education's regional Vocational-Technical Conference which opens Tuesday (April 12) in Dallas.

Home Economics Education Department Head Dr. L. Ann Buntin will give a report on Tech's 1965 summer workshop for administrators of vocational home economics programs in wage-earning occupations.

Others attending from the Department of Home Economics Education will be Dr. Thelma Leonard, Dr. Margaret Sitton and Miss Billie Williamson.

Representing the Department of Agricultural Education will be Department Head T. L. Leach, L. M. Hargrove and Dr. Lewis Eggenberger.

Attending the four-day meeting will be state directors and supervisors of vocational education programs, city directors and college teacher trainers from Arkansas, Louisiana, New Mexico, Oklahoma and Texas.

LUBBOCK, TEX., April 7 -- Establishment of two annual scholarships by the Mosher Foundation of Houston for Texas Tech students majoring in civil engineering was announced here Thursday by R. Trent Campbell, a 1932 Tech graduate and vice president of the Mosher Steel Company.

Campbell said the annual \$500 awards would be called the James H. Murdough Scholarships, in honor of the former head of the Tech Department of Civil Engineering.

Prof. Murdough was an original member of the Tech faculty, serving until his retirement in 1962.

Present for the announcement in addition to Prof. Murdough and Campbell were Tech Engineering Dean John R. Bradford; Dr. Keith R. Marmion, Head of Civil Engineering; James L. Kindred, a former Tech student and now contracting manager for Mosher Steel in Lubbock; and James Chapman, a 1953 Tech graduate now contracting engineer for Mosher in Lubbock.

Campbell, in announcing that the scholarships would go to Tech undergraduates interested in building construction, said Prof. Murdough had made "great contributions" to the 641 students who had studied under him.

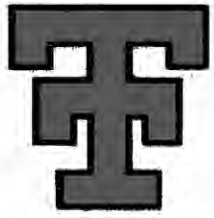

Prof. Murdough, who holds degrees from the Massachusetts Institute of Technology and the University of Michigan, taught at MIT and Oklahoma State before coming to Tech where he became department head in 1927.

Memberships in professional organizations include the American Society of Civil Engineers, the American Society for Engineering Education and Tau Beta Pi.

He is the author of a textbook, "Elements of Dynamics," and co-author of "Elements of Statics."

He and his wife reside in Lubbock. They have one son, James H.

Murdough Jr., who resides in Brownfield, Tex.

LUBBOCK, April 11 -- Texas Tech students Don Clifton Henry and Madeline Lemon were participants in an orientation program held for overseas mission workers in Memphis, Tenn. April 1-2.

The students have been selected by the Baptist Student Union to assist career missionaries this summer. Henry, a sophomore from Lubbock, will serve in Japan, and Miss Lemon, a Home Economics major from Lubbock, has been assigned to Malawi, Africa.

They will join other Baptist college students in 16 states who are participating in the program being conducted by the Southern Baptist Foreign Mission Board.

1-4-11-66

This release was distributed 4/11/66 to local, Brownsville, Dallas, Fort Worth, Houston, El Paso, Amarillo media, USIA-Washington, architectural list, Barrick parents.

LUBBOCK, Tex., April 12 -- Russians, in their eagerness to "erase the past and build anew" are losing much of their rich architectural heritage, says a Texas Tech senior architecture major who spent half of last year in the Soviet Union.

"The repeated sameness in Russia's modern buildings is boring," said Anatole Senkevitch Jr. of Brownsville. "When the Soviets repudiated their heritage of pre-Revolutionary architecture, calling it decadent, they negated the entire spectrum of styles and cultures which had in their turn, exerted influence upon it."

Senkevitch calls the emergent Soviet architecture "faceless and uninspiring" because of its uniformity. This, however, he points out, may be largely the result of an imposed social autonomy and lack of architectural expression, as well as the need for economy of construction.

Senkevitch was one of the student architects selected by the United States Information Agency to serve on the staff of a traveling exhibit, "Architecture -- USA," which toured Russia under auspices of the Cultural Exchange Agreement between the two countries.

The exhibit of huge color transparencies mounted in illuminated frames was tremendously popular, Senkevitch said. More than one and one-half million visitors thronged to see the display which was set up, first in Leningrad, and later in Minsk and Moscow, during the months from May through October.

"The curiosity shown by Soviet citizens concerning the American way of life was overwhelming," he commented. "They were hungry for enlightenment and seemed to consider American architecture a reflection of our environment -- of its nature as well as its potential.

"They were interested in every facet of American life, from the price of butter and eggs to city planning."

Because of his Russian parentage and his fluency in the language, Senkevitch feels he came closer to understanding the "Russian personality" than do many visitors to the USSR.

His parents were natives of Kiev. They left Russia in 1919 during the Revolution and went, first to Sophia, Bulgaria, and then to Beirut, Lebanon, where they lived when Anatole and his sister, Luba, were born. The family immigrated to the United States in 1949, and joined relatives in Brownsville. All became naturalized citizens in 1955.

(More)

SENKEVITCH...add one

As a member of the exhibit staff, Senkevitch explained the display to visitors, elaborating upon the approach, basis and standards of American architectural practice. When not thus engaged, he visited with architects, educators and students, or indulged in sightseeing.

He was surprised at the freedom given the American delegation to sightsee and take pictures, and credited much of this freedom to tourism. "The Russians realized they had to give the tourist essentially what he wanted to see," Senkevitch said. "Although ordinary tourists still follow a strictly controlled itinerary, they are visiting the country in increasing numbers."

Senkevitch also was surprised to find so many women in industry and the professions, particularly in those jobs demanding physical strength as well as stamina.

"Priding itself on its equality of the sexes, the Soviet Union allows its women the privilege of participating in the construction industry. No task is considered too difficult for them to perform.

"Approximately 50 per cent of Soviet engineers and scientists and well over 70 per cent of the doctors are women. In the architectural profession, at least a third of some 11,000 architects in Russia are women."

Senkevitch discovered that riding the train was "a delightful way to mingle with the people and to see the countryside."

"Evidence of Russian life before 1917 is still to be seen in the charming log cabins which dominate the landscape. In Moscow, particularly, these log structures stand next to modern, though by no means more beautiful, apartment buildings.

"The Soviets are embarrassed by the presence of these old buildings, structures which represent some of the most exquisite Russian wooden architecture," Senkevitch said. "The intricate carvings, details and ornaments in these buildings are primitive in nature, but outstanding in character and effect. The most heated objection to them seemed to be that they are not 'modern' and therefore not competitive with or representative of contemporary achievement," he explained.

Senkevitch calls Leningrad (formerly St. Petersburg) one of "the most beautiful, fascinating and least known cities of the world."

"An architectural mecca, it remains unchanged at the center, or the 'old city' where new buildings are forbidden. A periphery of modern buildings, called the 'new city,' has been built around the edge."

Tourism also has sparked the restoration of landmarks destroyed by war or old buildings which were allowed to fall into a state of disrepair.

(More)

SENKEVITCH...add two

The people do not want war, in Viet Nam or anywhere else, Senkevitch declared, because they were mercilessly ravaged by World War II.

"We in this country cannot begin to imagine the blight which lay in the ruins of the war-torn country," the Tech student said.

There is another aspect of the Russian nature which he feels has been underestimated by many, including Hitler.

"This is the fierce spirit of the Russian's nationalism, a feeling quite apart from politics." Thus, a suggestion of invasion from any source is sufficient to unite them in protection of the motherland.

"Soviet people always expressed a warm affection and kinship for the American people," Senkevitch said. "Many would ask me to convey their personal regards and good wishes, either to the American people in general, or to their working counterparts in the USA."

He found many Africans still studying in the country, but a marked absence of Chinese. The Russian people hold little affection for their 'idealogical brothers,' in Senkevitch's opinion.

This release was distributed 4/13/66 to local and Brownfield media and special oil list consisting of 22 newspapers.

FOR RELEASE: SUNDAY, APRIL 17 OR THEREAFTER

LUBBOCK, April 16 -- A panel discussion on "Waterflooding of Carbonate Reservoirs" shapes up as a highlight of this year's 13th annual Southwestern Petroleum Short Course scheduled at Texas Tech April 21-22, conference chairman Wallace B. Johnson of Odessa announced Saturday.

Participants in the Friday afternoon discussion will include John F. Buckwalter, managing partner of the Ryder Scott Company, Wichita Falls; John R. Garrett, petroleum engineer with the Pan American Petroleum Corp., Midland; J. L. Goolsby, senior petroleum engineer with Gulf Oil Corp., Midland; and D. E. Hewitt, district engineer with the Cities Service Oil Company in Brownfield.

R. S. Cooke, division engineer of the Union Oil Company of California, will serve as moderator.

The panelists will discuss operation of carbonate reservoirs and associated problems in regard to waterfloods. Aspects to be discussed include relation of pilot to full-scale results, analysis of injection well behavior and scale problems. A question and answer period will follow.

Buckwalter, associated with Ryder Scott for 28 years, has worked on more than 700 different waterflood projects in this country, Canada and South America. He is a graduate of Penn State.

Garrett, an engineer with Pan American Petroleum for four years, received a bachelor's degree in petroleum engineering from the University of Texas.

Goolsby, who worked three years as a geologist with Kerr-McGee Corp. and five years as a reservoir engineer with Gulf Oil, holds a bachelor of science in engineering, a master of science in geology and a masters degree in petroleum engineering from Texas A&M.

Hewitt, who holds a degree in mechanical engineering from the University of Kansas, has worked for Cities Service since 1951. He is presently district engineer in the Brownfield district.

Twenty-eight technical papers relating to the oil industry will be presented during the conference. Papers will cover drilling and completion, case histories and reservoir operations, artificial lift systems, lease facility operations, corrosion scale and paraffin control.

(More)

SHORT COURSE...add one

The program, which attracts several hundred men from the oil industry and related fields each year, is sponsored by Tech's Petroleum Engineering Department in cooperation with West Texas petroleum industry firms.

Registration and conference headquarters will be in the Tech Union.

Registration will begin at 8 a.m. with a fee of \$15 per person.

George Bush of Houston, director of the Zapata Off-Shore Co., will deliver the principal address at an opening day luncheon in the Union Ballroom. Dr. John R. Bradford, Dean of Tech's School of Engineering, will welcome registrants.

Other items on the opening day's agenda include a talk on the purpose and history of the short course, a briefing session and presentation of awards.

Late registration will be conducted in Room 103 of the West Engineering Building.

Classroom sessions, a main division of the conference, are scheduled in the Civil and Mechanical Engineering, Electrical Engineering, Petroleum Engineering and Architecture-Computer Buildings.

Marshall W. Keathley, district manager of the Secondary Recovery Department of the Forest Oil Corporation in Midland, will serve as conference program chairman. Administrative advisor is W. L. Ducker, Head of Tech's Department of Petroleum Engineering.

"Purpose of the conference." Johnson said, "is to advance the technology and engineering required in the lifting of petroleum from producing wells." He is general sales manager of Cardinal Chemical Inc. in Odessa.

LUBBOCK, Tex., April 12 -- Dr. Dan E. Feray, Chairman of the Geology Department at Texas Christian University, will join the Texas Tech faculty June 1 as Professor of Geosciences, President R. C. Goodwin said Tuesday.

Dr. Feray, who held the Magnolia Chair of Geology at Southern Methodist University, joined the TCU faculty in 1962. He also has taught at the University of Tulsa.

He has served as geologist with the Bureau of Economic Geology in Texas, was head of geological research for the Magnolia Petroleum Company and headed his own geological service.

His memberships include the American Association of Petroleum Geologists and the Society of Economic Paleontologists and Mineralogists. Dr. Feray was a Distinguished Lecturer for the AAPG and spoke in 25 states, Canada and Mexico.

A native of Beaumont, he is a graduate of Lamar Junior College and the University of Tulsa, holds a master's degree from the University of Illinois and a PhD from the University of Wisconsin.

Widely published in his field, Dr. Feray's articles have appeared in the "Journal of Paleontology" and the "Journal of Sedimentary Petrology."

to all local media.

FOR RELEASE AT 10 P.M. WEDNESDAY, APRIL 13, OR THEREAFTER

LUBBOCK, April 13 -- Four port of entry stations, designed to ease driving and parking problems on the Texas Tech campus, will begin operation Thursday (April 14), Tech Traffic Chief Bill Daniels said Wednesday.

The stations, approved by the Board of Directors in February, were scheduled to go into operation with the start of the fall term. However, the Tech Traffic Commission agreed to launch the plan earlier to allow time to determine the most ideal locations for the stations.

Daniels said the stations will be completely portable until final sites are determined. All stations will be located in areas where "turn around space for cars can be provided."

One station will be placed on each of the four routes to the interior part of the campus. Station No. 1 will be at the Broadway entrance west of Gordon, Sneed and West Hall parking lot; No. 2 will be located at the 15th Street entrance to the Drane Hall parking lot; No. 3 will be adjacent to 17th and Boston and No. 4 will be across from the Meats Lab on 15th Street.

The stations will be in operation from 7:15 a.m. until 3:15 p.m. and will be open only to service trucks, faculty and staff members, handicapped students and visitors.

Dean of Men Lewis N. Jones, head of the Traffic Commission, said the system should be a "tremendous help to visitors because they will be able to find the places they are looking for much easier." He also pointed out that the Tech student body, which returns from spring vacation Thursday, is in accord with the plan.

Officers manning the stations will provide visitors with a dated parking pass and a campus map.

This release was distributed 4/13/66 to local media.

LUBBOCK, April 13 -- Nominations for Texas Tech's Women of the Year will close Monday (April 18), Elections Chairman Janis Langley has announced.

Selections of two honorees, one from the student body and one from the faculty, will be determined in a campus election May 2. Any woman's organization on campus may nominate candidates for the 1966 awards which will be announced at Tech's 34th annual Woman's Day Banquet May 3.

Banquet speaker will be Mrs. Anna Chennault, whose husband, the late Lt. Gen. Claire Lee Chennault, was Flying Tiger Commander in China during World War II. She will speak on the topic "Our Challenge in Asia" at the 6 p.m. dinner in Tech Union Ballroom.

A native of China and graduate of Ling Nan University, Mrs. Chennault became the first woman to serve as a war correspondent for China's largest news agency, a career that led to a meeting with the famed war hero who became her husband. She is the author of numerous books in both Chinese and English, including the highly popular "A Thousand Springs" published in 1962.

Women's Day activities, sponsored by the Association of Women Students, will include a luncheon in Wall Hall honoring Mrs. Chennault and open house in the Dean of Women's office from 1:30 to 4 p.m..

Women's Day chairman is Nan Faulkner. Other committee chairmen are: Rebecca Anderson, tickets; Jane Edwards, food; Donna Schulz, publicity; Sandie Clegg, secretary; Jo Hansen, decorations; Cindy McCarty, programs; Liz Gerbetz, arrangements and Suzy Crane, welcome.

FOR RELEASE: SUNDAY, APRIL 17, OR THEREAFTER

LUBBOCK, April 16 -- Youthful scientists from area public schools will display their talents at the 10th annual South Plains Regional Science Fair at Texas Tech Friday and Saturday (April 22-23).

Sponsored by Tech, the South Plains Science Council and the South Plains Science and Math Association, the event will be held in the Tech Science Building.

Dr. Sam Lee, Tech chemistry professor, is president of the South Plains Science Council. Kerwin Baxter of Floydada High School is president of the South Plains Science and Math Association.

Students from 16 West Texas counties are expected to enter. Competition will be divided into three categories including elementary, junior high and senior high divisions.

Elementary competition will include both group and individual exhibits in grades four through six. Junior high competition will cover both group and individual exhibits in grades seven through nine. Competition in the senior division will include only individual entries from grades 10 through 12.

The senior division also will be divided into nine biological and physical science classifications including botany, medicine and health, microbiology, zoology, chemistry, earth and space science, electricity, physics and mathematics.

There will be an award to the winner in each of the nine classifications, provided there is a project that qualifies as a gold medal winner. In addition, the best of all the biological science projects will receive a separate award, as will the best physical science project.

The two students with the outstanding projects in the high school division will be eligible to participate in the 17th International Science Fair next month in Dallas. The senior student with the best project in areas of interest to the Navy will receive the U.S. Navy Science Cruiser Award which includes a five-day cruise aboard a Navy ship this summer. Numerous other awards will be presented.

The array of individual and classroom exhibits will be open to the public from 7 p.m. to 10 p.m. Friday and from 8 a.m. to 8 p.m. Saturday.

Closing event on Saturday's agenda is the annual banquet and awards ceremony at 6:30 p.m.

This release was distributed 4/14/66 to
all local media.

FOR RELEASE: SUNDAY, APRIL 17, OR THEREAFTER

LUBBOCK, April 16 -- Dr. Eugene Brutten, professor of speech correction at Southern Illinois University, will be on the Texas Tech campus Tuesday (April 19) to deliver a lecture on "Stuttering: Behavior Theory and Therapy."

His address at 7:30 p.m. in Tech Union Ballroom is being sponsored by the Tech Speech Department and Sigma Alpha Eta, speech and hearing honorary.

Dr. Brutten's visit, previously announced for early April, was rescheduled because of conflicting engagements, fraternity officials said.

The meeting will be open to the public at no admission charge, said Dr. William K. Ickes, director of Tech's Speech and Hearing Clinic.

Dr. Brutten is widely known for his research in speech pathology and as the originator of a device used to gauge anxiety present in stuttering behavior.

A member of the Southern Illinois University faculty since 1957, he earned his bachelors degree from Kent State University, his masters from Brooklyn College and a PhD in speech pathology from the University of Illinois. In addition to his professorial duties, he also is coordinator of the Cooperative Clinical Services at SIL.

This release was distributed 4/14/66 to all local and regional media.

LUBBOCK, April 14 -- The Texas Tech chapter of the American Marketing Association will sponsor its annual seminar next Tuesday (April 19) in the Tech Union Ballroom.

Dallas senior Frank Eikenburg, program and publicity chairman, said at least 300 persons are expected for the event which carries the theme: "Marketing Innovations -- Are You in Step?"

Highlights of the 10 a.m. to 3 p.m. meeting will be talks by three visiting marketing specialists and a buffet luncheon at noon. Luncheon tickets are \$1.50 for students and \$2 for all others.

Floyd O. Schneider, Vice President and General Manager of the Lone Star Brewing Company in San Antonio, will speak at the opening 10 a.m. session.

Schneider, also vice president of Sales and Marketing Executives -- International, has just returned from a tour of the Orient. Associated with Lone Star for 19 years, he has served two terms as President of the Brewer's Association of America and currently is a member of its Board of Directors.

L. O. Luther, branch manager in Lubbock of the National Cash Register Company, will speak at 11 a.m. on "Marketing Facts or Fiction." He has been associated with NCR for 21 years, and has been in Lubbock the past four years.

E. T. "Terry" Condrey of Lubbock, Division Manager for Investors Diversified Services, will be the final speaker of the day. He will discuss "Transferring Ideas to Action."

Condrey, with IDS since 1952, is in charge of all retail marketing for his firm in a 75-county area, including all of West Texas and four Eastern New Mexico counties.

He is a past president of the Lubbock chapter of the American Business Club and a director of the Lubbock Sales Executives Club.

The seminar will conclude with a series of informal discussions featuring the speakers as group leaders.

This release was distributed 4/14/66 to local media.

LUBBOCK, April 14 -- Dr. Gerald L. Pearson, Stanford University Electrical Engineering professor, will speak at Texas Tech Friday (April 15) as a part of the Engineering Lecture Series.

Dr. Pearson, also connected with the Solid-State Electronics Laboratory at Stanford, will speak at 4 p.m. in the Architecture Auditorium. The address is open to the public.

He also will conduct a seminar on conversion of solar to electrical energy by means of photovoltaic cells and the effects of composition and uniaxial stress on microwave oscillations in certain alloys.

LUBBOCK, April 14 -- Texas Tech student orators captured two fifth place awards and a top elective post in the Student Congress division at the national meeting of Delta Sigma Rho-Tau Kappa Alpha Forensic Society this week in Reno, Nev.

Tech debaters Janine Coats of Amarillo and Hal Upchurch of Kermit tied for fifth place with debate teams from Southwest Missouri State College and the University of Kentucky.

David Bradley of Denison was ranked fifth highest individual speaker in extemporaneous and persuasive speaking events.

Carl Moore of Lubbock was named majority floor leader of the "Liberal Party," in the Student Congress which was a feature of the three-day meet attended by 365 students from 70 U.S. colleges and universities.

Other members of the Tech delegation were Robert Trapp of Perryton and Speech Coach Vernon Ray McGuire.

--30--

16-4-14-66

LUBBOCK, April 14 -- Texas Tech Traffic Chief Bill Daniels said late Thursday that "everything went smoothly" during the first day of operation for Tech's new port of entry system.

"The spirit of cooperation has been wonderful so far," he said. Four port of entry stations, designed to ease driving and parking problems at Tech, were placed in operation early Thursday.

Daniels reported that the new system seems to be "working fine" with a "few extra parking spaces available on campus as a result."

The entry stations will be completely portable until final sites are determined. All stations are located in areas where turn around space is available.

The stations, approved by Tech's Board of Directors in February, were scheduled to go into operation with the start of the fall term. However, the Tech Traffic Commission agreed to launch the plan earlier to allow time to determine the most ideal locations for the stations.

Station No. 1 is located at the Broadway entrance west of Gordon, Sneed and West Hall parking lot; No. 2 is at the 15th Street entrance to the Drane Hall parking lot; No. 3 is adjacent to 17th and Boston and No. 4 is across from the Meats Lab on 15th Street.

The stations are open from 7:15 a.m. until 3:15 p.m. and are open only to service trucks, faculty and staff members, handicapped students and visitors.

Officers manning the stations are providing visitors with a dated parking pass and a campus map.

This release was distributed 4/14/66 to
all local media.

LUBBOCK, April 14 -- Original interior designs by students in Texas Tech's School of Home Economics may appear in forthcoming issues of national magazines.

In response to invitations from Interior Design and House Beautiful magazines, several student entries have been submitted for inclusion in July special editions, said Mrs. Troy A. Lockard, chairman of Interior Design in the Department of Applied Arts.

Purpose of the special editions is to introduce talented young designers to the profession and allied industries with which students will be working following graduation, Mrs. Lockard said.

Entries to Interior Design Magazine were the work of Gil Linnartz and Mrs. Barbara Warren Butler.

Designs to House Beautiful were by Sherry Stokes, Jan Vance, Winnie Kugel, Tommy Jackson, Paula Rodgers, Clarke Shiels, Shirley Meier, Don Johnson, Jerry Woodard, Marilyn Mingus, Ann Miller and Linnartz.

Three student designers also have entered competitions sponsored by the Texas Chapter of the American Institute of Interior Designers (AID). They are Mrs. Carol Ann Evans, Robert Merrill and Mrs. Rodgers.

Cash awards to first, second and third place winners will be presented at the AID regional conference in Houston April 28.

This release was distributed 4/14/66 to
all local media.

LUBBOCK, April 14 -- Col. William J. Davitt, Area Commandant for Air Force ROTC detachments at colleges and universities throughout the Southwest will visit Texas Tech Friday and Saturday (April 15-16) according to Lt. Col. Henry L. Gantz Jr., Professor of Aerospace Studies.

Col. Davitt will visit the Tech AFROTC detachment during an administrative survey. His initial visit here was Jan. 6-7, as the new area commander.

Col. Davitt flew as a fighter pilot during World War II and accumulated 494 combat hours. He previously served as Professor of Aerospace Studies at the University of South Carolina and at the University of Colorado. He holds a bachelor's degree from the University of Colorado and master's degrees from George Washington University and South Carolina. He also is a graduate of the Royal Air Force Staff College in London.

PLEASE RELEASE SUNDAY, APRIL 17, OR THEREAFTER

LUBBOCK, April 15 -- Dr. L. Carroll King, professor of chemistry at Northwestern University, will be guest lecturer at the April meeting of the South Plains Section, American Chemical Society, to be held Thursday (April 21) in Portales, N.M.

The lecture will be at 7:30 p.m. (MST) in Eastern New Mexico University's science building, said Program Chairman Dr. Joe A. Adamcik of Texas Tech. Dr. King's subject will be "Selective Halogenation with Copper II Halides."

Prior to the lecture, members of the Society will be given an opportunity to meet Dr. King at a social hour at 5 p.m. (MST) in Holiday Inn in Clovis. He will be guest of honor at a dinner at 6 p.m. in Sands Restaurant in Portales.

Dr. King received his PhD degree from Michigan State University and joined the Northwestern University faculty in 1942. He has served on the editorial board of "Chemistry," official publication of the ACS, and as member and chairman of several committees.

The society has members throughout a wide area of Texas and New Mexico.

This release was distributed 4/15/66 to all local media, 10 mechanical eng. journals and hometown papers of student initiates.

LUBBOCK, April 15 -- Pi Tau Sigma, a national honorary fraternity for mechanical engineering majors, was chartered on the Texas Tech campus Friday and 33 Tech undergraduates and graduates were initiated as charter members .

The Tech chapter, designated Sigma Epsilon, became the 78th group to affiliate and the first since installation of the Texas A&M chapter in 1964. The fraternity was founded in 1915 at the University of Illinois.

National officers participated in the Tech installation and initiation of new members. President E. Kent Springer of the University of Southern California presided, and was assisted by area vice president Dr. Donald Haworth of Oklahoma State. Dr. John W. Wiebelt, also of OSU, participated.

Dr. David M. Vigness, head of the Tech History Department, was the principal speaker at an initiation banquet Friday night held at the Johnson House.

Dr. D. J. Helmers, Tech mechanical engineering professor and the only Pi Tau Sigma member at Tech, was instrumental in formation of the new chapter along with students Leo Caesar and Daniel Puffer, both of Houston, Kenneth Young of Irving, Clive Lankford of Lubbock and Woodrow Hitchcock, Tucson.

Young was elected president of the new chapter along with Leland B. Carroll Jr. of Abilene, vice president; Jerry Ned Hudson of Novice, treasurer; and Johnny R. Leicht, Perryton, Secretary.

Tech faculty members who were initiated included professors James H. Lawrence Jr., Robert E. Martin, Robert L. Mason, R. L. Newell, L. J. Powers and Elbert B. Reynolds Jr.

Graduate initiates were James Larry Chance of Maud; Clift M. Epps, Lubbock; James B. Headrick, Phillips; Gerald S. Kirby, San Antonio; Raymond M. Kliewar, Phillips; Jorman A. Koski, Fort Worth; and William H. McCulloch Jr. of Lamesa.

(more)

Pi Tau Sigma -- add one

Undergraduates named to membership, in addition to the officers and organizers, included Jerrell J. Bryson, Hurst; Marvin F. Campbell, Abilene; Jay W. Carter Jr., Wichita Falls; Merton E. Fewell Jr., Clyde; Michael P. Houston, Morton; Richard B. McMichael and Charles W. Morris, both of Dallas; and James E. Phillips, Wichita Falls.

Others were William D. Pipes, Amarillo; Carl E. Prater, Coleman; Jerry S. Rawls, Houston; Samuel M. Ray, Dallas; Stephen E. Scott, Hobbs; Garry Joe Selby, Dalhart; Jeffrey D. Stewart, Amarillo; Charles W. Stormont, Victoria; William B. Wiegman, Amarillo; and William Louis Byrd III of Lubbock.

LUBBOCK, April 15 -- One of the world's most renowned orchestras, The Pittsburgh Symphony conducted by William Steinberg, will be presented in concert at Lubbock Municipal Auditorium at 8:15 p.m. Monday (April 18) under auspices of the Texas Tech Artists Course Series.

The concert will be the season's final Artists Course event to which Tech students are admitted on their ID cards. Tickets to the general public at \$4.00 per person are on sale in Tech Student Union building.

The symphony has had an illustrious history before reaching its present eminence under the gifted Steinberg baton. Founded in 1895, the Pittsburgh Symphony was directed by such noted conductors as Victor Herbert, Otto Klemperer and Fritz Reiner before Steinberg became permanent director in 1952.

Under Steinberg's direction the 108-piece ensemble has achieved world-wide fame and stature in the musical world in concerts at home and abroad and through its Command Classics recordings which have been acclaimed by critics in many lands. The orchestra recently returned from a U. S. State Department sponsored tour of Europe and the Middle East which included 42 concerts in 14 countries.

Steinberg, a native of Cologne, Germany, became a pianist and violinist before he was 12 and a conductor by the time he was 20. In the early 1930's he left Germany for Palestine where he helped found the Palestine Symphony, an accomplishment which led to an invitation from Arturo Toscanini to come to New York as Association conductor of the NBC Symphony. He was music director of the Buffalo Philharmonic before becoming director of the Pittsburgh Symphony.

Monday's concert will be the fourth and final presentation in Tech Artists Course Series which has brought a variety of fine arts programs to the Tech campus this Spring. Dr. Harold Simpson is chairman of the Fine Arts Committee which selects the programs.

This release was distributed 4/15/66 to local media, and oil list consisting of 22 newspapers and T.V. stations.

FOR RELEASE 10 P.M. TUESDAY, APRIL 19, OR THEREAFTER

LUBBOCK, April 18--George Bush, director of the Zapata Off-Shore Co. in Houston, will deliver the principal address at the 13th annual Southwestern Petroleum Short Course scheduled at Texas Tech Thursday and Friday, (April 21--22) conference chairman Wallace B. Johnson of Odessa said Tuesday.

Bush will discuss "Business, Politics and Welfare" at an opening day luncheon in the Tech Union Ballroom. More than 300 oil industry officials are expected to attend the annual conference.

Born in Milton, Mass., Bush earned a bachelor's degree in economics from Yale where he was Phi Beta Kappa. He first came to Texas in 1943 when he was stationed at Corpus Christi.

Following graduation in 1948, Bush moved to Odessa and became an oilfield supply store clerk for Dresser Industries. He formed Bush-Overbey Oil Development, Inc. in Midland in 1951. Bush was co-founder of the Zapata Petroleum Corp. in Midland in 1953, with Zapata Off-Shore being founded in 1954. Company headquarters were moved to Houston in 1959.

The son of a former senior Senator from Connecticut, Prescott S. Bush, he served in the South Pacific during World War II as a Navy pilot. Bush was shot down in combat during action which added the Distinguished Flying Cross to his three air medals.

While in Midland, he was an organizer of Midland's Commercial Bank and Trust Co., a founder, director and vice president of the Midland YMCA, chairman of the Cancer Crusade and a director of the Chamber of Commerce. He is active in many civic functions in Houston.

Although not a member of the Junior Chamber of Commerce, the organization named him one of "Five Outstanding Young Texans" in 1956.

Bush was an unsuccessful Republican candidate for the U.S. Senate in 1964 and is currently a candidate for Congress from the 7th District.

A director and vice president of the American Association of Oilwell Drilling Contractors, he is a former director of the Texas Mid-Continent Oil and Gas Association and is a director of Camco Inc., and of the Independent Petroleum Association of America.

(more)

Bush...add one

Bush and his wife, the former Barbara Pierce of New York, have five children. The family attends St. Martin's Episcopal Church in Houston.

The conference is sponsored by Tech's Petroleum Engineering Department in cooperation with West Texas petroleum industry firms.

Registration and conference headquarters will be in the Tech Union. Registration will begin at 8 a.m. with a fee of \$15 per person.

Other items on the opening day's agenda include a talk on the purpose and history of the short course, a briefing session and presentation of awards.

Late registration will be conducted in Room 103 of the West Engineering Building.

LUBBOCK, April 15 -- Music with a modern sound will highlight the series of concerts and special programs presented during Texas Tech's 15th annual Festival of Contemporary Music which will get underway Monday (April 18). All programs will be open to the public at no admission charge.

Guest composer for this year's festival will be Dr. Donald Erb, authority on electronic music, of Bowling Green State University music faculty. He received his bachelor's degree in trumpet from Kent State University, his master's from Cleveland Institute of Music and his doctorate from Indiana University in 1964. He currently holds a Guggenheim Fellowship to do work in electronic music at Case Institute of Technology where he is a visiting assistant professor.

Dr. Erb's compositions will be presented at various programs and he will give two lecture-recitals, on April 25 and May 2, each at 4 p.m. in Room 1 in the Music Building.

The Festival series will open with a recital by Department of Music students at 4:05 p.m. Monday (April 18) in Room 1 of the Music Building. The program will include compositions by Fukushima, Charles Ives, Mike Patterson, Elizabeth Lutyens, Virgil Thompson and Prokofief.

A faculty concert will be presented Tuesday (April 19) at 8:15 p.m. in Tech Union ballroom. This will feature a composition by Erb, "Music for Violin and Piano," as well as compositions by Christian Wolff, Apostel, Lowell Cross and Igor Stravinsky.

Tech's Symphony Orchestra, Choir and Tech Singers will present a choral work "Carmina Burana," by the contemporary German composer Carl Orff at 8:15 p.m. Friday (April 22), also in Tech Union Ballroom. Faculty soloists will be Betsy Roe, soprano; Charles Post, tenor, and Charles Roe, baritone.

(more)

Festival of Contemporary Music -- add one

The second week of programs will open with a faculty concert at 3 p.m., April 24, in the foyer of Tech Library building, continuing with Erb's lecture on "Electronic Music" the following day, a student recital at 4 p.m., April 27 in the Music Building, and a Tech Band and Orchestra concert at 8 p.m., April 30, in Tech Union Ballroom.

Opera Theater presentations are scheduled at 8 p.m. April 30, at 2:30 and 8 p.m., May 1 and at 8 p.m. May 2 in Tech Union Ballroom.

A discussion of "Modern Jazz" is slated for 3 p.m., May 3 in Room 1 of the Music Building, together with a performance by the Paul Winter Jazz Sextet. The Sextet will also present a concert at 7:30 p.m. that evening in Coronado Room of Tech Union.

A student recital will be presented at 4:05 p.m., May 4, in the Tech Music Building.

Closing event will be a Tech Choir, Chamber Orchestra and Ensemble concert at 8:15 p.m., May 7, in Tech Library Building foyer.

24-4-15-66

This release was distributed 4/15/66 to local media.

FOR RELEASE: SUNDAY, April 17, or thereafter

LUBBOCK, April 15 -- Inventor-Architect R. Buckminster Fuller, who has been called "the most forward-thinking engineer of our time," will be the fourth guest lecturer in Texas Tech's University Speaker Series.

In his address at 7:15 p.m. Tuesday (April 19) in Lubbock Municipal Auditorium Fuller is expected to discuss his unorthodox building concepts as well as to make some calculated predictions regarding the future of industrial technology.

Perhaps best known for his geodesic dome concept, Fuller is the architect for the U.S. Pavilion to be erected in Montreal for the 1967 World Exhibition.

He has been a professor at Southern Illinois University since 1959, and has won world renown as an original thinker who has taken cues from the natural laws of the universe.

Fuller's light, strong, quickly-erected geodesic domes house U.S. Marines in Antarctica. They shelter the revolving radar antennas of the Distant Early Warning (DEW) line in the Arctic. The Russians expressed their approval of the 200-foot-diameter dome at the 1959 U.S. exhibit in Moscow by buying it. The largest circular structure without internal supports, the Union Tank Car Co. roundhouse in Baton Rouge, La., 384 feet in diameter, is a geodesic dome.

Reams have been written about Fuller in the public press. In a recent cover article, Time Magazine dubbed him the "Dymaxion American," in allusion to a controversial house and car he designed some years ago, and the more successful Dymaxion World Map.

He was profiled early this year in The New Yorker, which commented, "Although, technically speaking, Fuller is not an architect, he has come to be recognized as a powerful force in contemporary architecture."

Fuller once described his ultimate aims as "discovering new ways to make more and more out of less and less material -- to redesign everything that man uses -- so that 100 per cent of the world's people can have their basic needs fulfilled." He says that people^{are} multiplying faster than new and additional physical resources can be found and "that we must increase the performance per pound of those resources in a very big way in order to give man environmental controls."

(More)

FULLER...add one

Born in Milton, Mass. in 1895, he received his formal education at Milton Academy, during a brief stay at Harvard and in special studies at the U.S. Naval Academy. He has been awarded honorary degrees by nine U.S. colleges and universities.

No admission will be charged for the lecture, and although the series is primarily for Tech students, the public is welcomed if seating space is available.

LUBBOCK, April 16 -- Dr. Gunnar Kullerud, geochemist of the Carnegie Institute Geophysical Laboratories, Washington, D.C., will be guest speaker at a series of lectures sponsored by Texas Tech's Department of Geosciences, beginning Monday (April 18).

In his first lecture at 1 p.m. Monday in Room 152 of the Science Building, Dr. Kullerud will give a review of current research now in progress at Carnegie Laboratories.

"Sulfide Systems as Geological Thermometers" will be his topic at a 1 p.m. lecture Tuesday (April 19) in Room 101 of the Chemistry Building. The Department of Chemistry will co-sponsor this meeting.

His subject at 3 p.m. Wednesday (April 20) in Room 152 of the Science Building will be "Some Sulfide-silicate, Sulfide-carbonate and Sulfide-oxide Reactions and Their Bearing on Mineral Assemblages in Rocks and Ore Deposits."

All lectures will be open to persons interested in these scientific areas.

A native of Norway, Dr. Kullerud earned his master's degree at the Technological University of Norway and his PhD at Oslo University. Associated with Carnegie Laboratories since 1954, his special research interests are in the application of synthetic sulfide systems to ore deposits, sulfide phase equilibrium and meteorites.

This release was distributed 4/18/66 to all local media.

LUBBOCK, April 18 -- Six members of Texas Tech's Graduate Economic Geology course will visit copper mines in the New Mexico-Arizona area April 28.

The students, accompanied by Geology professor Dr. Rae L. Harris Jr., will tour the Chino Mine of the Kennecott Copper Corp. at Santa Rita, N.M.; the Magma Mine at Superior, Ariz.; and the San Manuel Division of the Magma Copper Corp., Tiger, Ariz.

Students making the trip include Ron R. Allen, Charles D. Bitgood, Rene A. DeHon, David E. Normand, Clifford R. Williams and Karl W. Williams.

LUBBOCK, April 18 -- Traditional tapping ceremonies were invoked Monday (April 18) at Texas Tech as 31 junior coeds and one honorary member were notified of their selection for membership in Mortar Board, top national honorary for senior women.

Following a long-established custom, a procession of senior women, dressed in academic robes, paraded from class to class, "tapping" those who were to be honored. As they were tapped, new members joined the procession.

Members are selected for outstanding scholarship, leadership and service in the ceremony which is a well-kept secret until the day of actual tapping.

(cq)

Tapped for honorary membership was Miss Margret Stuart, associate professor of chemistry, current sponsor of Alpha Epsilon Delta (pre-med honorary), Tech's Pre-Med Club, and a past sponsor of Mortar Board.

Her record of service since joining the Tech faculty in 1946 includes chairmanship of the Discipline Committee, membership on the Self-Evaluation Project Committee, Student Organizations Committee, Education of Women Committee, Departmental Scholarship Committee, Faculty Advisory Committee and member of the Tech Faculty Club Board. She was senior advisor to Mortar Board in 1960 and again in 1963.

Junior women honored in Monday's processional included:

Audrey Keri Anderson, San Bernardino, Calif.; Eleanor Sherrell Andrews, Houston; Roselaine Louise Ashton, Odessa; Beverly Barlow, Richardson; Jean Biggs, Panhandle; Genelyn Cannon, Amarillo; Martha Clayton, Waco; Laura Virginia Coil, Lubbock,.

Cassandra Lee Devlin, Lubbock; ~~James~~ Edwards, Lubbock; Marge Eubank, Idalou; Nan Faulkner, Lubbock; Nancy Eileen Fordtran, Houston; Elizabeth Ann Gerbetz, Dallas; Sandy Harris, Corsicana; Suzanne Hightower, Arlington; Judy Jeter, Midland.

Karen Alita Kitzman, Bandera; Cindy McCarty, Abilene; Louise McCullough, Wichita Falls; Karolyn Kaye McGee, Amarillo; Marsha Ann Meyers, Fort Worth; Marilyn Mingus, Lubbock; Ann Nabers, Lubbock.

Ella Sue Nelson, Brownfield; Carolyn Pepper, Bellaire; Jill Philbrick, Lubbock; Beth Rutledge, Houston; Charlotte Ann Stewart, Snyder; Nancy Ruth Taylor, Fort Worth, and Christine Williams, Midland.

LUBBOCK, April 18 -- R. Buckminster Fuller, father of the geodesic dome concept, will be the fourth guest lecturer in Texas Tech's University Speaker Series scheduled at 7:15 p. m. Tuesday (April 19) in Municipal Auditorium.

Described as "the most forward-thinking engineer of our time," Fuller has been a professor at Southern Illinois University since 1959.

In a recent cover article, Time Magazine called him the "Dymaxion American," in allusion to a controversial house and car he designed some years ago, and the more successful Dymaxion World Map.

His light, strong, quickly-erected geodesic domes house U.S. Marines in Antarctica and shelter the revolving radar antennas of the Distant Early Warning (DEW) line in the Arctic. The Russians liked Fuller's 200-foot-diameter dome at the 1959 U.S. exhibit in Moscow so much they purchased it.

Fuller was born in Milton, Mass. in 1895, receiving his formal education at Milton Academy, Harvard and the U.S. Naval Academy. He has been awarded honorary degrees by nine colleges and universities.

LUBBOCK, April 18 -- More than 300 persons are expected to attend Texas Tech's annual Marketing Seminar scheduled Tuesday (April 19) in the Tech Union Ballroom.

Theme of the event, sponsored by the Tech chapter of the American Marketing Association, is "Marketing Innovations--Are You in Step?"

Talks by three visiting marketing specialists and a buffet luncheon will highlight the 10 a. m. to 3 p. m. meeting.

Floyd O. Schneider, vice president and general manager of the Lone Star Brewing Company in San Antonio, will address the opening session at 10 a. m.

L. O. Luther, branch manager in Lubbock of the National Cash Register Company, will speak on "Marketing Facts or Fiction" at 11 a. m. He has been with NCR for 21 years, and has been in Lubbock the past four years.

Final speaker will be E. T. "Terry" Condrey of Lubbock, division manager for Investors Diversified Services. His talk will cover "Transferring Ideas to Action."

With IDS since 1952, Condrey is in charge of all retail marketing for his firm in a 75-county area, including all of West Texas and four Eastern New Mexico counties.

The seminar will conclude with a series of informal discussions featuring the speakers as group leaders.

5-4-18-66

**This release was distributed 4/18/66 to
all local and regional media.**

LUBBOCK, April 18 -- Thousands of visitors will throng the Texas Tech campus this weekend for Tech's 34th annual Science and Engineering Show, University Interscholastic League regional competitions and the South Plains Regional Science Fair and Petroleum Short Course.

A helicopter landing on campus at 1 p. m. Friday (April 22) officially will raise the curtain on the Science and Engineering Show with its multitude of exhibits ranging from chemical displays to an X-15 rocket engine.

The show an annual project of Tech science and engineering seniors, is designed to inform area high school and Tech students and Lubbock and area residents on the activities of Tech's School of Engineering and new developments in the world of science and engineering.

Brig. Gen. John McNabb, commander general and director of the X-15 training program, will speak at 2 p. m. Saturday near the flagpole at the Industrial Engineering building. Gen. McNabb will speak in the Lubbock Municipal Auditorium in case of bad weather.

Action in the Interscholastic League competitions will open at 3 p. m. Thursday with one-act play contests of Conference B high schools in the University Theater. Conference A plays will be presented for judging on Friday at 3 p. m. Entries in Conference AA will be unreeled beginning at 3 p. m. Saturday (April 23).

Athletic events, including golf, girls' volleyball, tennis and track and field events, are on the agenda for Friday and Saturday.

Golf for all three conferences, AA-A and B, will begin at 8:30 a. m. Friday at Meadowbrook Golf Course under direction of Tech golf coach Danny Mason.

Girls' volleyball competition will be staged in the Tech Women's Gym Friday and Saturday.

(more)

League -- add one

Tennis competition for boys and girls will be held Friday and Saturday at the Tech and Lubbock High School courts. Tennis coach George Philbrick and Dr. John Cobb will direct the play.

Preliminaries in track and field events are scheduled Friday at the Tech track. Finals will be held on Saturday. Willard Holsberry and Edsel Buchanan, of Tech's Intramural Department, are in charge of the track events.

Twelve literary events will be held Saturday. Events will include science, slide rule, number sense, shorthand, typewriting, persuasive speaking, ready writing, extemporaneous speaking, prose reading, poetry interpretation, journalism and debate.

The Science and Engineering Show promises to have something for everyone, including displays provided by the Army and Air Force, along with exhibits from the Science and Engineering Departments.

In addition to the X-15 engine, exhibits will feature a communications gas laser beam provided by the Tech Electrical Engineering Department. The exhibit will be located in the Electrical Engineering Building.

The X-15 is an experimental, high-altitude, manned research rocket airplane designed to explore piloted flight problems at the earth's atmospheric limits. It was developed to obtain scientific data on hypersonic aerodynamics, reentry heating, propulsion, stability and control. The exhibit will feature the YLR-99 rocket engine, the X-15's powerplant.

As a special attraction during the Interscholastic League competition, members of the Tech Speech Department's Oral Interpretation class will present Dylan Thomas' play "Under Milk Wood" in the Speech Auditorium at 3 p.m. Saturday. The play will be directed by teaching assistant Mike Niemczyk, under the supervision of speech instructor Mrs. Vera Simpson.

Youthful scientists from the public schools will display their talents at the South Plains Regional Science Fair which will be set up in the Tech science building.

(more)

League -- add two

The two students with the outstanding projects in the high school division will be eligible to participate in the 17th International Science Fair next month in Dallas. The senior student with the best project in areas of interest to the Navy will receive the U.S. Navy Science Cruiser Award which includes a five-day cruise aboard a Navy ship this summer.

The array of individual and classroom exhibits will be open to the public from 7 p.m. to 10 p.m. Friday and from 8 a.m. to 8 p.m. Saturday.

Students from 16 West Texas counties are expected to enter the Science Fair competition.

Other items on a heavy weekend agenda at Tech include a regular session of the Board of Directors, the 13th annual Southwestern Petroleum Short Course and a Publications Awards Banquet.

6-4-18-66

This release was distributed 4/18/66 to local media.

LUBBOCK, April 18 -- Dr. V. J. Polidora, senior staff member of the University of Wisconsin's Regional Primate Research Center, will deliver a lecture at Texas Tech Wednesday (April 20) under auspices of the Tech Department of Psychology.

Dr. Polidora will speak at 4 p.m. in the Mesa Room of Tech Union on the topic "In Search of a PKU Rat."

PKU, or phenylpyruvic feeble-mindedness, is described as a congenital disorder sometimes present in infants, which, if uncorrected, will lead to mental deficiency. Dr. Polidora has conducted PKU research in which both rats and monkeys have been used as laboratory animals.

Dr. Polidora is an associate professor of psychology at the University of Wisconsin and has written many articles for major scientific journals.

This release was distributed 4/19/66 to local media, and Harlingen newspaper.

LUBBOCK, April 19 -- Maj. John K. England Jr. of the Air Defense Command will address Texas Tech Air Force ROTC cadets Thursday (April 21) on organization of the North American Air Defense Command of which ADC is the Air Force component.

Maj. England will describe the ground environment/interceptor weapons, the four basic actions taken by ADC against the manned bomber threat, and explain the DEW Line and contiguous radar response as well as a simulated Semi-Automatic Ground Environment (SAGE) alert and scramble activity.

Space defense, the final part of the presentation describes Ballistic Missile Early Warning System (BMEWS) and SPACETRACK operations including sites, tracking problems and system explanation. He will conclude with a general discussion of expected requirements of aerospace defense for the future.

Maj. England is Chief of the Quality Control Branch in the Career Management Division of the Directorate of Officer Personnel for Air Defense Command.

He is the son of John K. England Sr. of Harlingen. He was commissioned under the ROTC program and has a BS from Texas A&M and a master's degree from George Washington.

FOR RELEASE: 1 P.M. THURSDAY, APRIL 21 OR THEREAFTER

Editor's Note: This award will not be made public until a noon luncheon on April 21. Texas Tech Public Information.

LUBBOCK, April 21 -- Leo W. Fagg, president of Johnson-Fagg Inc. of Tulsa, Okla., and the late Douglas O. Johnson were named recipients of the J. C. Slonneger Award Thursday (April 21) at the Southwestern Petroleum Short Course at Texas Tech.

The award was established in 1960 by Short Course directors for presentation to persons who, in the opinion of the board, have made outstanding contributions to petroleum production technology.

A plaque was presented for outstanding contributions to the petroleum industry through research and publications pertaining to the design, manufacture and application of specialized equipment for analyzing and correcting pumping well problems.

Fagg accepted Johnson's posthumous award. He was treasurer of the firm until his death in 1965.

The award is in honor of J. C. Slonneger of Dallas, a retired mechanical engineer and the first recipient. He retired from Continental Supply Company in 1956.

Other recipients have included C. J. Coberly, president of Kobe, Inc. of California, 1962; and Joseph Zaba, petroleum consultant of Tulsa in 1964.

Fagg attended Oklahoma State where he received a bachelor's degree in industrial engineering. He has been in engineering work pertaining to oil field pumping problems in both the United States and foreign countries since 1937.

(More)

SHORT COURSE...add one

Johnson received a degree in electrical engineering from the University of Minnesota. He was engaged in sales engineering and consulting pertaining to oil field pumping from 1936.

Fagg has been involved in the design and manufacture of specialized equipment to fulfill production equipment needs including dynamometers and kindred test equipment, hydraulic pumping systems and well head equipment.

He is a co-holder of a patent on the J-F Dynamometer and other patents dealing with production equipment. Fagg holds memberships in the Registered Professional Engineers of Oklahoma, Tulsa Engineer Club, ASME, AIME, API, NSPE and OSPE.

The awards were presented at an opening day luncheon in the Tech Union. George Bush of Houston, director of the Zapata Off-Shore Co., delivered the principal address.

The conference, which attracts several hundred men from the oil industry and related fields each year, is sponsored by Tech's Petroleum Engineering Department in cooperation with West Texas petroleum industry firms.

Marshall W. Keathley, district manager of the Secondary Recovery Department of the Forest Oil Corporation in Midland, is serving as conference program chairman. Administrative advisor is W. L. Ducker, head of Tech's Department of Petroleum Engineering.

A panel discussion on "Waterflooding of Carbonate Reservoirs" will be a highlight of Friday's session. R. S. Cooke, division engineer of the Union Oil Company of California, will serve as moderator.

11-4-19-66

This release was distributed 4/19/66 to all local and regional media. Also Midland, Odessa and Amarillo media.

LUBBOCK, April 19 -- Texas Tech's School of Business Administration will conduct an Open House from 9 a.m. until 4 p.m. Saturday (April 23) to highlight opportunities and careers in business.

The event will be held in connection with a variety of weekend events scheduled for the Tech campus. Dean George W. Heather said the thousands of visitors for the University Interscholastic League Region One meet and the South Plains Science Fair and the Science and Engineering Show were invited to visit the School.

Dr. Heather said the event, the first scheduled by his School, was an attempt at acquainting prospective students with offerings of the various business majors available at Tech.

A special coffee for counselors and a display featuring a full color picture of the new Business Administration building will be highlights.

Rooms in the Business Administration School where information can be obtained concerning the various majors include IBM Data Processing - Room 126; Accounting - Room 124; Economics, International Trade, and Public Administration - Room 122; Administration Management, Industrial Management, Office Management, Personnel Management, and Traffic Management - Room 220; Banking, Financial Administration, Insurance and Real Estate, and Pre-Law - Room 222; Advertising, Marketing, and Retailing - Room 224 and Business Education, Secretarial Administration, and Placement - Room 226.

This release was distributed 4/19/66 to local media.

LUBBOCK, April 19 -- A sky diving exhibition was announced Tuesday as an added attraction to Texas Tech's 34th annual Science and Engineering Show this weekend.

Tech students Richard Honey, Ronnie Gardner and Charles Allen, will attempt to land on Memorial Circle at 2 p.m. Friday. Lt. Jerry Landry of Reese Air Force Base will join Honey and Gardner for a jump at 1 p.m. Saturday.

Show coordinator Jay Carter, said the sky divers will not jump if surface winds exceed 15 mph. The jumps will be made from 4,500 feet with a free fall to 2,500 feet.

Thousands of visitors are expected on the Tech campus Friday and Saturday for the Science and Engineering Show, University Interscholastic League regional competitions and the South Plains Regional Science Fair.

--30--

13-4-19-66

LUBBOCK, April 19 -- "Creating a good image on the market place will spell success for the advertiser," delegates to Texas Tech's annual Marketing Seminar were told Tuesday (April 19) at a meeting in Tech Union Ballroom.

"Romance the name of your product, if you wish to create a feeling of warmth and friendliness," said keynote speaker Floyd Schneider, who also stressed the importance of letting the public know about new conveniences in design and packaging as soon as the convenience is introduced.

Schneider is vice president of marketing for the Lone Star Brewing Company of San Antonio.

"Romancing" the name of a product, Schneider explained, sometimes means creating a new brand name which "catches on" with the public and soon becomes identified with the product. "Innovations in advertising, new concepts in introducing an old product in a new package can often be the means of revitalizing a company," he added.

"Marketing Innovations: Are You In Step?" was the theme of the one-day meeting at which approximately 300 Business Administration students, businessmen and faculty members heard discussions relating to new approaches to merchandising.

L. O. Luther, branch manager of National Cash Register Co., Lubbock, discussed "Marketing Facts or Fiction." Closing speaker was E. T. "Terry" Condrey, also of Lubbock, whose topic was "Putting Marketing Ideas Into Action." Condrey is division manager for Investors Diversified Services.

The meeting closed with an informal discussion session at 2 p.m. featuring the speakers as group leaders.

This release was distributed 4/20/66
to local, and newspapers in Hereford,
El Paso, Lamesa, New Home, San Antonio, P
Post, Tyler, and Crosbyton

LUBBOCK, April 20 -- Don Anderson of Crosbyton, President of the Texas Tech Ex-Students Association, Wednesday announced the appointment of several Tech alumni to head various Association committees.

Anderson, a Crosby County farmer, said Lubbock radio newsman Ed Wilkes would serve as chairman of the important Homecoming Committee for next fall's annual event.

Other Lubbock appointments include George Wilson, Silver Anniversary Reunion Class (1941); co-chairmen David Casey and C. H. Cummings, Outstanding Alumni Program; Cummings, Special Equipment and Entrance Marker Committees.

Wilmer Smith of New Home, Dr. Harold Loden of Post and Don Johnson and Charles Verner, both of Lubbock, were named to head the Cotton-Textile Study Committee.

Clint Formby of Hereford was appointed chairman of the Tech Century Club Committee; Ralph Davis of El Paso, Office Space; Donnell Echols of Lamesa, Campus Relations; Bill Bales of Tyler, Chapter Relations; and Andy Behrends, San Antonio, Insurance.

15-4-20-66

This release was distributed 4/20/66 to local and regional media, Albuquerque, Clovis, Hobbs, Portales, Roswell newspapers and 54 Texas farm editors & TV and radio farm directors.

FOR RELEASE: FRIDAY, APRIL 22, OR THEREAFTER

LUBBOCK, Tex., April 22 -- C. G. "Charlie" Scruggs, vice president and editor of the Progressive Farmer, will be the principal speaker at Texas Tech's Livestock Feeders Conference May 12.

Scruggs, a leader in and spokesman for Texas agriculture, will speak at 10:15 a. m. in the Tech Union on the "Changing Agricultural Situation: Its Future Outlook."

Registration for the one-day event is \$5 per person. The fee includes a luncheon and a printed copy of the conference proceedings.

Dr. George F. Ellis Jr., head of the sponsoring Tech Department of Animal Husbandry, said at least 300 ranchers and cattle feeders from throughout the South Plains and Eastern New Mexico were expected to attend.

Other featured speakers include Spur rancher Jim Barron who will discuss utilization of research results, and Paul Marion of the Texas Agriculture Experiment Station who will talk on cattle feeding at the Spur installation.

Tech Agriculture School faculty members will deliver a variety of papers with emphasis on development of all-concentrate feeding.

Scruggs, an active rancher who raises beef cattle and Mohair goats, has had a longtime interest in agriculture. He was born at McGregor and, while still in high school, was elected president of the Texas Association of Future Farmers of America in 1941. He also was awarded the association's highest national honor the American Farmer Degree.

He is a graduate of Texas A&M with a degree in agricultural economics. Now a lieutenant colonel in the Army Reserve, Scruggs enlisted as a private during World War II and served as an infantry officer in Europe.

(more)

Scruggs -- add one

A past president of four different Texas agricultural organizations, Scruggs also is a former president of the American Agricultural Editors' Association -- the first Texan to hold the post.

He was one of the founders and served as the first president of the Southwest Animal Health Research Foundation, the organization that led the successful Southwest Screwworm Eradication Program.

Scruggs' leadership in this program brought him the Outstanding Service Award of the Texas and Southwestern Cattle Raisers Association, selection as Man of the Year in Texas Agriculture by the Texas County Agents Association and honors at a "Charlie Scruggs" Day at the Houston Livestock Exposition where he was named a Life Member.

Other recent major awards include the "ASTA" Award as the outstanding U. S. agricultural writer in 1963 by the American Seed Trade Association, the Award of Honor for Distinguished Service to Journalism in 1963 by the American Agricultural Editors' Association, the Reuben Brigham Award in 1965 by the American Association of Agricultural College Editors and the Distinguished Service Award of the Young Farmers of Texas in 1964.

Scruggs currently is a member of the Coordinating Board of the Texas College and University System, the Pan American Committee of the State Fair of Texas, Board of Trustees of the Southwest Animal Health Research Foundation, Board of Governors of the National Agriculture Hall of Fame, the Farm Conference Board of the National Safety Council and the Board of Directors of National Farm City Week.

Listed in the Ninth Edition of "Who's Who in the South and Southwest," Scruggs resides in Dallas with his wife, the former Miriam June Wigley. They have a son and a daughter.

This release was distributed 4/20/66
to local media.

LUBBOCK, April 20--~~Texas~~ Tech. chemistry professor Dr. Henry J. Shine has been invited to give a review lecture at the Second International Organic Sulfur Symposium at the University of Groningen in Holland May 9-12.

Dr. Shine will discuss research being conducted at Tech concerning the formation of cations and cation radicals from aromatic sulfides and sulfoxides.

The Tech research is supported by grants from the Directorate of Chemical Sciences, U. S. Airforce Office of Scientific Research.

Dr. Shine is one of four U. S. chemists invited to lecture at the symposium. Other lecturers will include chemists from seven foreign countries.

Dr. Shine will travel to Italy following the symposium where he has been invited to lecture at the Universities of Bari and Pisa, and before the Italian Chemical Society at the University of Rome.

He also will visit the Universities of London and East Anglia.

17-4-20-66

This release was distributed 4/20/66 to local media.

DALLAS, April 20 -- Three members of Texas Tech's Electrical Engineering Department are participating in the 18th annual Southwestern Institute of Electrical and Electronic Engineers Conference and Show here this week.

Participating are Acting Department Head Dr. R. H. Seacat, I. C. Lankford Jr., director of undergraduate laboratories, and senior student Albert A. Smith. They will deliver three papers, the largest number of any school represented at the Conference.

Dr. Seacat will deliver a paper Thursday (April 21) on the "Complexity Sensitivity and Trees in Networks" with Air Force Capt. R. H. Beene, a Tech graduate presently engaged in research activities in the Systems Development Command at Holloman AFB. Capt. Beene, who holds all three degrees from Tech, is the first person to earn the PhD in electrical engineering from the Lubbock institution.

University of Illinois professor J. B. Cruz will moderate the session on networks.

Smith and Dr. Seacat will discuss "Load Flow Analysis" in a Friday session on Power System Engineering. J. B. Roebuck of Texas Power and Light will moderate.

Dr. Seacat will team with Lankford Friday during a seminar on Engineering Education presenting a paper on "Project Laboratories in Undergraduate Education."

Oklahoma State University professor William Hughes will serve as moderator.

Dr. John V. N. Granger of Granger Associates in California delivered the technical highlight address on Wednesday, discussing "The Management of Innovation."

--30--

This release was distributed 4/20/66 to all local media.

LUBBOCK, April 20 -- The 13th annual Southwestern Petroleum Short Course will get underway Thursday with registration beginning at 8 a. m. in the Texas Tech Union.

More than 300 persons are expected to enroll for the two-day meet which annually features technical papers on matters concerning the oil and gas industry.

Twenty-eight papers will be delivered on drilling and completion, case histories and reservoir operations, artificial lift systems, lease facility operations, corrosion scale and paraffin control.

The meeting will begin with a meeting of authors at 9:15 a. m. in the Grand Ballroom of the Student Union Building. At 9:30 a. m. a briefing session will be conducted by Wallace B. Johnson, general chairman. The purpose and history of the course will be explained by program chairman Marshall Keathley.

Highlight of the meeting will be a luncheon Thursday in the Ballroom featuring an address by George Bush, director of the Zapata Off-Shore Co.

A panel discussion will be held from 1:30-4 p. m. Friday on "Waterflooding of Carbonate Reservoirs." The panel, led by R. S. Cooke, will discuss operation of and problems associated with waterfloods in carbonate reservoirs.

Panelists include John F. Buckwalter, Ryder Scott Co; John R. Garrett, Pan American Petroleum Corp.; J. L. Goolsby, Gulf Oil Corp.; and D. E. Hewitt, Cities Service Oil Co.

This release was distributed 4/20/66
to local media.

LUBBOCK, April 20 -- Texas Tech junior Pino Joseph Maurino of Lubbock has received a National Defense Education Act grant to study at Rutgers University's Italian Institute this summer in New Brunswick, N. J.

The eight-week course, scheduled June 19 through Aug. 12, will offer 12 hours of undergraduate credit. Conducted entirely in Italian, the program will include applied linguistics, methods of teaching, demonstration lectures, studies in Italian culture and literature, plus weekend field trips to New York museums and libraries.

Maurino is the son of Dr. and Mrs. Fernando D. Maurino, 5203 39th St. His father joined the Tech faculty in September as professor of Spanish and Italian.

Young Maurino spent his freshman year at the Liceo Scientifico Di Cesena near Florence, Italy, where his father was on a sabbatical, and his sophomore year at Dickinson College in Carlisle, Penn. He plans to acquire a double major, in French and Italian.

Italian was introduced this year at Tech with Dr. Maurino teaching the first-year courses in which approximately 65 students are enrolled. Second year courses are to be offered next year and upper level courses, including studies toward a minor, have been approved.

Purpose of the NDA grant is to supplement the undergraduate training of 40 college juniors to make it possible for them to complete a major or minor in Italian by time of graduation, Dr. Maurino said.

Institutes such as the one at Rutgers reflect increasing interest in the study of Italian, Dr. Maurino said, noting "that it is a field which has been coming up rapidly in recent years."

This release was distributed 4/21/66 to local media.

LUBBOCK, April 21 -- Texas Tech graduate Dr. James Estes Jones of Amherst N.H., represented Tech at the recent inauguration of Shannon McCune as 18th president of the University of Vermont.

Dr. Jones received his bachelor of science degree in zoology from Tech in 1939.

21-4-20-66

This release was distributed 4/20/66 to local media.

FOR RELEASE: APRIL 20 at 8 p.m. or thereafter

LUBBOCK, April 20 -- Tech Union president Sue Walker was honored as the senior making the greatest contribution to this year's Student Union program and Beverly Barlow was named outstanding committee chairman at the group's annual Awards Night Dinner Wednesday.

Miss Walker received the W. B. Rushing Award and also a lifetime pass service award at the 6:30 p.m. meeting in the Union's Coronado Room.

Stanley Farrar was named outstanding assistant chairman. He and Miss Barlow served on the Ideas and Issues Committee. Personnel Director Patty DeJon received a lifetime pass award.

Trophies for excellent service went to Sherrell Andrews, secretary-treasurer, and to Jimmy Hogg, art and design director.

Key awards were presented to the following chairmen and assistant chairmen: Janie Kinney, dance; Kathy Harrison, fine arts; Chris Williams, hospitality; Beverly Barlow, Jeanne Affleck, special events, and to Union Vice President Gary Rose.

Committee members honored were Michele Rohr, Dan Long, Barbra Worley, Helen Sisco, Julie Shapira, Max Marx Jr., Bryan Sims, Ginny Winegar and Betty Tyson.

Members of the 1966-67 program council were introduced and installed. They are: Chris Hickey, president; Beverly Barlow, vice president; Carol Best, secretary-treasurer; Janie Kinney, personnel director; George Strickland, public relations director; Jimmy Hogg, arts and design, and Sherrell Andrews, Region XII vice chairman.

22-4-20-66

This release was distributed 4/20/66 to local and regional media. Also Associated Press in Dallas and 11 college news bureaus.

LUBBOCK, Tex., April 20 -- Top-ranked college cowboys and cowgirls from 12 colleges and universities will appear at the 1966 edition of the Texas Tech Collegiate Rodeo April 28-30.

Grand entry time is 8 p.m. each day in Lubbock Municipal Coliseum with a matinee set for 1:30 p.m. Saturday. More than 250 performers are expected to compete in the three-day affair.

The show, billed as the largest indoor collegiate rodeo in the world, will feature appearances at each performance by Milburn Stone and Ken Curtis, better known as "Doc" and "Festus" on the television show, "Gunsmoke."

The crowning of the Tech Rodeo Queen will be a highlight of the opening night, according to rodeo secretary Bob Bradley.

Tommy Steiner of Austin will supply the stock for this year's show. Steiner has supplied stock for some of the better professional events in the country.

The Tech rodeo team will be competing against 11 other college rodeo groups for championship points in the Southwest region of the National Intercollegiate Rodeo Association. Points earned here will be counted toward qualification in the national finals slated this summer in South Dakota.

Other schools entered include Midwestern University, Panhandle A&M, Oklahoma State, Cisco Junior College, Hardin Simmons University, Sul Ross College, Texas Western, West Texas State, Eastern New Mexico State, South Plains Junior College and New Mexico State.

Tech's team has placed first in three of the four rodeos on the circuit, Bradley said.

A special guest will be Miss Carolyn Seay of Corpus Christi, currently Miss Rodeo of America. She was selected by members of the Rodeo Cowboy's Association. Miss Seay will make several appearances in the show here.

(more)

Rodeo -- add one

Events include bull riding, bareback bronc, saddle bronc, tie-down calf roping, ribbon roping and steer wrestling for the boys. There also will be wild mare racing for Tech fraternities.

Girls events include barrel racing and goat tying.

Each school will enter six individuals to compete for a team trophy. Only these contestants can compete for the final team point total.

Sponsors of this year's Tech teams are Dr. Frank Hudson, associate professor of Animal Husbandry and Mrs. Lenore Tunnell, English Department instructor.

23-4-20-66

This release was distributed 4/20/66 to local media.

LUBBOCK, April 20 -- Approximately 200 young actors from 23 high schools will participate in Region I Interscholastic League One-Act Play competitions beginning Thursday (April 21) in Texas Tech's University Theater.

Conference B entries are scheduled Thursday, Conference A contests Friday and Conference AA competitions on Saturday, said Contest Director Ron Schulz,

Plays are scheduled at 45-minute intervals, beginning at 3 p.m. each day. Four plays will be presented in the afternoon, and the others in the evening beginning at 7 p.m. Winners will be announced at the close of each day's competitions.

All performances will be open to the public. Tickets, at 25 cents for students and 50 cents for non-students, will admit the holder to all performances on a given day.

Thursday's schedule, in the order of presentation, will include the following plays, "The Knight of the Burning Pestle," Meadow High School; "Overtones," Wheeler High School; "What Never Dies," New Deal High School; "The Importance of Being Earnest," Vega High School; "The Ugly Duckling," Old Glory High School; "The Trysting Place," Matador High School; "Mr. Flannery's Ocean," Booker High School, and "Under the Sycamore Tree," Happy High School.

Scheduled Friday are "The Sandbox," Fabens High School; "1984," Lorenzo High School; "The Boor," Canadian High School; "Queens of France," Gruver High School; "Gammer Gurton's Needle," Roscoe High School; "The Glass Menagerie," Plains High School; "Rise and Shine," Hale Center High School, and "Riders to the Sea," Menard High School.

Saturday's schedule will be "The Madwoman of Chaillot (Act II)," Haskell High School; "Six Who Pass," McCamey High School; "Othello," Dalhart High School; "Impromptu," Floydada High School; "Antigone," Quanah High School, and "Early Frost," Slaton High School.

Critic judge for the three-day series of competitions will be Dr. Charles Schmidt, chairman of the Department of Speech and Drama at Sam Houston State College.

This release was distributed 4/20/66 to all local media.

LUBBOCK, April 20 -- Awards for excellence were presented to Texas Tech students of Latin and Greek at the Department of Foreign Languages annual Classics Section Banquet Tuesday.

Speaker at the dinner meeting in Tech Union was the Rev. James Houston Hodges, Head of Tech's Biblical Literature Department. His subject was "Semantics and the Search for God."

First-year Latin awards went to Marilyn J. Coker, John H. Cunningham Jr., Michael L. Freeman, Ronald N. Gray, Janis R. Holmes, Beverly J. Lumpkins, James W. Pickford, Susan K. Pohly, Charles L. Biehler, Gary B. Byrd, and Mary Jo Healy.

Recipients of second-year Latin awards were Priscilla Cameron, Joanne Koch, Marsha J. Mattox and Mary Morgan Smith. Cited in third-year classes were Phyllis M. Bichsel, Gerry E. Clark, Larry D. Hollis and Gayle Underwood. Fourth-year Latin awards went to James H. Burleson, Julie K. Parkinson, Alta A. Schoner and Patricia M. Young.

Honored in Greek classes were first-year students Jo Von Bryan, James H. Burleson, Linda L. Parker and Julie K. Parkinson and second year students E. Jane Loudon and Charles D. Watkins.

Department Head Dr. Harley D. Oberhelman presented the awards.

PLEASE RELEASE SUNDAY, APRIL 24, OR THEREAFTER

LUBBOCK, April 21 -- Two Texas Tech seniors, Judith Guynes of Dallas and Dwight Young of Lubbock, have been invited to enter training as Southern Baptist missionary journeymen. After an eight-week training period, beginning June 18, they expect to teach in Baptist Schools overseas.

The training program will be on the campus of Virginia Intermont College, Bristol, Va.

Dwight, an English major, plans to teach English in Hong Kong Baptist College. Miss Guynes, a history major, expects to teach English and music at the Baptist Academy, Temuco, Chili.

They are among 49 young men and women approved by the Southern Baptist Foreign Mission Board for journeyman service, contingent upon their completion of training. Journeymen, Board officials explained, are single college graduates with talents and training needed for specific jobs in overseas mission work.

Dwight was captain of Texas Tech's team on the "College Bowl" television program in 1963 and was president of Tech's Model United Nations in 1964. He said he was influenced to apply for a journeyman assignment by experiences he had as a summer missionary to Juarez, Mexico, in 1963 and as Lubbock's Community Ambassador to Nigeria the following year. He is the son of Mrs. Murline Young, 2612 47th St.

Miss Guynes, who was a delegate to Tech's Model United Nations, has participated in student government at the College and was a conference assistant at Tech last summer. Her parents are Mr. and Mrs. Carl Guynes, 6814 Blackwood, Dallas.

Both are active in Baptist Student Union programs.

This release was distributed 4/21/66 to local media, Nacogdoches media and news bureau, Stephen F. Austin College.

FOR RELEASE: SUNDAY, MAY 1, OR THEREAFTER

LUBBOCK, April 30 -- Dr. Ralph W. Steen, President of Stephen F. Austin State College and noted author on Texas history and government, will be the speaker at the initiation banquet May 5 of the Texas Tech chapter of Phi Kappa Phi, national academic honorary.

The banquet will be held at 6:30 p. m. in the Ballroom of the Tech Union.

The banquet will honor 179 students from all six of Tech's Schools who have achieved outstanding scholastic attainment.

Requirements for membership include ranking in the top 10 per cent of their class for seniors and graduate students and the top two per cent for juniors.

Nineteen graduate students, 25 juniors and 135 seniors comprise the honorees. Three juniors -- Gertrude A. Post of (3812 54th St.) Lubbock, Nancy Roth Taylor of Fort Worth and Billye Myrhl Grisham of Abilene -- will be recognized for having compiled a straight "A" average.

Dr. Steen is the third president of Stephen F. Austin, a position he has held since November of 1958. He has written 15 books on Texas and American history and government, many of which are used in the state's junior and senior high schools.

In addition, he has published 75 articles and has presented scholarly papers at meetings of such societies as the Texas State Historical Association, the Southwestern Social Science Association, the Texas Academy of Science, the Southern Historical Association and the Mississippi Valley Historical Association.

(more)

Dr. Steen -- add one

Dr. Steen is a former president of the Texas State Historical Association and holds membership in the East Texas Historical Association, the American Historical Association and the Southern Historical Association.

He was born in Clyde . After graduating from Clyde High School, he entered McMurry College in Abilene, where he received his bachelor's degree. He later was awarded the master's and PhD degrees from the University of Texas. He has taught at McMurry College, the University of Texas, Reagan County High School and Hillsboro Junior College.

Dr. Steen joined the faculty of Texas A&M University in 1935 as an assistant professor of history, then rose to the rank of department head. He served at A&M until he was named president of Stephen F. Austin.

This release was distributed 4/21/66 to local media, Big Spring, Ben Franklin and Dallas newspapers.

LUBBOCK, April 21 -- Texas Tech seniors majoring in Applied Arts, Art and Art Education in Tech's School of Home Economics will be honored at a reception from 2 to 4 p.m. Sunday (April 24) at Lubbock Garden-Arts Center marking the opening of the annual Senior Applied Arts Exhibit.

The exhibit will remain open to the public from 9 a.m. to 5 p.m. daily through Thursday (April 28). On display will be original work by 25 graduating seniors, a comprehensive show including paintings, drawings, sculpture, textiles, stitchery, jewelry, ceramics and perspective drawings of interior designs.

Lubbock students whose work will be on display include Roger Allen, Quatha Baker, Geneva Billings, Terry Cocanaugher, Jim Henderson, Jenny Kay Jackson, Richard A. McGovern, Tanya Middleton, Suzanne Samson, Susan Sanders, and Leo Smith.

Other exhibitors are, Janet Hogan Brigman, Big Spring; Sonya Haynie, Odessa; Linda Cate and Jo Hansen, both of Fort Worth; Nancy Harris, Waco; Terry Kay Hart, Linda Larey, Barbara Warren Butler and Lyn Waggoner, all of Dallas; H. Gilbert Linnartz Jr., Lake Jackson; Fay Moss, Ben Franklin; Judy Nachlinger, Snyder; Michele Stephens, Port Arthur, and Mary Lee Ullum, LaMarque.

The five-day show is being sponsored by the Tech Department of Applied Arts and the Lubbock Art Association .

This release was distributed 4/21/66 to all local media.

LUBBOCK, April 21 -- More than 300 officials of the petroleum industry representing seven states registered Thursday for the 13th annual Southwestern Petroleum Short Course which continues through Friday at Texas Tech.

Participants heard George Bush, director of the Zapata Off-Shore Co. in Houston, discuss "Business, Politics and Welfare." at a luncheon in the Tech Union.

A luncheon highlight was presentation of the J. C. Slonnegar Award to Leo W. Fagg and the late Douglas O. Johnson of Johnson-Fagg, Inc. of Tulsa, Okla. The award is given by Short Course Directors to persons making outstanding contributions to petroleum production.

W. L. Ducker, administrative advisor of the conference and Head of Tech's Petroleum Engineering Department, made the presentation.

Other items on the opening day's agenda included a talk on the purpose and history of the short course by program chairman Marshall Keathley and a welcome by Dr. John R. Bradford, Dean of Tech's School of Engineering.

A panel discussion on "Waterflooding of Carbonate Reservoirs" will highlight Friday's agenda. The panel, led by R. S. Cooke, will cover operation of and problems associated with waterfloods in carbonate reservoirs.

This release was distributed 4/21/66 to local media.

LUBBOCK, April 21 -- The Texas Tech campus will be a beehive of activity this weekend as the curtain goes up on Tech's 34th annual Science and Engineering Show, University Interscholastic League regional competitions and the South Plains Regional Science Fair.

Events ranging from a sky diving exhibition to an Open House in Tech's School of Business Administration, will await the thousands of expected visitors.

A helicopter landing on campus at 1 p.m. Friday (April 22) officially opens the Science and Engineering Show with its multitude of exhibits ranging from chemical displays to an X-15 rocket engine.

The air rescue helicopter (HH-43B) from Reese Air Force Base is scheduled to land near the West Texas Museum.

The Interscholastic League competitions, expected to draw 164 high schools from 23 districts, opened Thursday with one-act play contests of Conference B high schools in the University Theater. Conference A contests are slated Friday and Conference AA competitions on Saturday.

All performances will be open to the public. Tickets, at 25 cents for students and 50 cents for others, will admit the holder to all of one day's performances. Plays are scheduled at 45-minute intervals, beginning at 3 p.m.

Athletic events, including golf, girls' volleyball, tennis and track and field events, are on the Friday and Saturday agenda.

Twelve literary events will be held Saturday. Events will include science, slide rule, number sense, shorthand, typewriting, persuasive speaking, ready writing, extemporaneous speaking, prose reading, poetry interpretation, journalism and debate.

The Science and Engineering Show promises to have something for everyone, including displays provided by the Army and Air Force, along with exhibits from the Science and Engineering Departments.

In addition to the X-15 engine, exhibits will feature a communications gas laser beam provided by the Tech Electrical Engineering Department.

The X-15 exhibit will feature the YLR-99 rocket engine, the X-15's powerplant.

The sky diving exhibition will feature Tech students. The sky divers will not jump if surface winds exceed 15 mph. The jump will be made from 4,500 feet with a free fall to 2,500 feet.

(More)

SHOW...add one

Tech's School of Business Administration will conduct an Open House from 9 a.m. until 4 p.m. Saturday (April 23) to highlight opportunities and careers in business.

Members of the Tech Speech Department's Oral Interpretation class will present Dylan Thomas' play "Under Milk Wood" in the Speech Auditorium at 3 p.m. Saturday. The play will be directed by teaching assistant Mike Niemczyk, under the supervision of speech instructor Mrs. Vera Simpson.

Young scientists from the public schools will display their talents at the South Plains Regional Fair which will be set up in the Tech science building.

The two students with the outstanding projects in the high school division will qualify for the 17th International Science Fair in Dallas next month. The senior student with the best project in areas of interest to the Navy will receive the U.S. Navy Science Cruiser Award -- a five-day cruise aboard a Navy ship this summer.

Individual and classroom exhibits will be open to the public from 7 p.m. to 10 p.m. Friday and from 8 a.m. to 8 p.m. Saturday. The Science and Engineering Show will be open Friday from 1 p.m. to 10 p.m. and from 9 a.m. to 10 p.m. Saturday.

30-4-22-66

This release was distributed 4/21/66 to local media.

LUBBOCK, April 21 -- Brig. Gen. John McNabb of Randolph Air Force Base will speak at Texas Tech Saturday during the 34th annual Science and Engineering Show.

Gen. McNabb, deputy chief of staff of technical training for the Air Training Command will discuss "Science and Engineering Technology in the Air Force Today" at 2 p. m.

A native of Detroit, Gen. McNabb holds a bachelor's degree from Lehigh University. He received an ROTC commission upon graduation and went on active duty at Ft. Benning.

Gen. McNabb flew P-51 Mustangs during World War II while serving as a squadron commander in Europe.

He returned to England in 1949 to become commander of the USAF base at Burtonwood. Gen. McNabb assumed his present duties at Randolph last year.

Decorations include the Legion of Merit, Distinguished Flying Cross, Air Medal with seven Oak Leaf Clusters, Commendation Ribbon, French Croix de Guerre, Belgian Croix de Guerre and the Belgian Officer of the Crown.

This release was distributed 4/21/66 to local media.

LUBBOCK, April 21 -- Texas Tech's Junior Council, honorary for junior women, will serve as hosts to a group of honor students from several area high schools Saturday (April 23).

A program of orientation and entertainment has been planned for approximately 40 members of National Scholastic Honor Society chapters who have accepted an invitation to spend a day on the Tech campus, said Junior Council President Sandra Harris.

Purpose of the project is to assist high school seniors, both boys and girls, in becoming acquainted with college procedures, services and buildings, Miss Harris said.

After an opening meeting at 9 a.m. in Tech Union, the visitors will "sit in" various 10 to 11 a.m. classes according to a schedule arranged by Council members. Tours of campus buildings, including the Tech Union, several dormitories, University Theater and the Tech Library are scheduled in the afternoon.

Final event will be a panel discussion at 3 p.m. at which Tech student leaders will be on hand to discuss extra-curricular programs and to answer questions concerning student organizations and projects.

LUBBOCK, April 22 --Three outstanding students were honored and 36 new members initiated into Texas Tech's Alpha Phi Chapter of Sigma Delta Pi, national Spanish language honorary, at the group's annual Awards Banquet Friday (April 22).

Top awards for excellence in graduate study were shared by Mrs. Judy Greene (cq) Alexander of Panorama, Santo Domingo, and Mrs. Gay Nell Haught Wight of Lubbock, who tied for first place honors.

Mrs. Sue Stagner of Lubbock received the award for achievement in fourth-year Spanish.

Miss Dora Riddel of Lubbock gave the main address, in Spanish, at the dinner meeting in La Hacienda Restaurant. Her topic was "General Impressions of Contemporary Spain."

Miss Riddel, a graduate of Sophie Newcomb College, spent her junior year in Spain where she studied at the University of Madrid under direction of Julian Marias, one of the country's most distinguished writers.

Initiation ceremonies preceding the banquet were under direction of Chapter President Robert Carter and Dr. Scotti Mae Tucker, chapter advisor.

Initiated were: Patricia Ann Adler, Shirley Allen, Mrs. Phyllis Bichsel, Leon Brown, Pat Clancy, Patricia Copeland, Lorene Danelle Crowley, Ann Curry, Mrs. Jolene Decker, Mrs. Sharon De Walt, Donna Dodson, Don Elgin, Lana Kay Evans, Margaret Fallis, Claudia Henderson, Kay Hervey, Mrs. Elizabeth Holder, Carolyn Houston, Jessie Hubbard, Betsy Hurt, Mrs. Catherine Jay, Phillip Kimball, Janis Langley, Don Logan, Frank Medley Jr., William Moffitt, Jeannette Moody, Nancy Naim, Moises Perez, Elizabeth Ramos, George Rice, Judith Stroud, Viola Lucille Townsend, Barrett Trask, Ginger Viets, and Mrs. Marcheta Woicikowski.

FOR RELEASE: AT 10 p.m. SATURDAY, APRIL 24 OR THEREAFTER

LUBBOCK, April 22 -- Texas Tech journalism students were honored with awards and scholarships during the annual journalism awards banquet Saturday night in the Tech Union.

Students comprising the Toreador and La Ventana staffs were on hand, along with special quests and college officials. Phil Orman, Director of Student Publications, served as master of ceremonies.

The annual Louise Allen award was presented to Joe Murfee of Lubbock by Toreador Editor Cecil Green. The award is given each year to a person who is not a student publication staff member but has shown particular interest in both staffs.

Bronson Havard of Clute was named the outstanding graduating male journalism student. John Armistead, Fort Stockton senior, made the presentation.

Mike Ferrell of Midland was named the outstanding Sigma Delta Chi student chapter member, receiving the Wallace Garets Sigma Delta Chi Award. Jim Jones of Lubbock made the presentation.

Theta Sigma Phi awards went to Barbara Worley, Houston, best feature story; Carmen Keith, Fort Worth, best news story; Derrel Thomas, best photograph; David Snyder, Denver City, best news column; Bill Moore of El Paso, best feature; and Mike Lutz, Alice, overall sports.

Pauline Edwards of Lubbock received the annual Theta Sigma Phi Scholarship.

Angele Schleeter of Houston was named the outstanding La Ventana non-paid staff member.

41-4-22-66

This release was distributed 4/23/66 to local media.

LUBBOCK, April 23 -- Bill Beuck, Gary Rose, Karen Kitzman and Johnny Walker were elected executive officers of the 1966-67 Texas Tech Student Association Friday.

Beuck, Midland, will serve as president, Rose, Lubbock, vice president, Miss Kitzman, Bandera, as secretary, and Walker, Lubbock, business manager.

Walker's election was protested Friday by a dormitory resident on the basis of campaign literature being placed under dormitory doors. The Elections Committee will meet at 3 p.m. Monday to consider the protest.

Boy cheerleaders elected were Mike Canon, Midland; Ronald Todd, Lubbock; and Rex Wood, Midland. Alvie Burdine of Kellerville was elected alternate.

Marcie White, Lubbock; Kay Hayden, Midland; and Leslie Duckworth, Lubbock, were named girl cheerleaders. Diane Shackelford of San Antonio was named alternate.

A total of 5,904 votes were counted as valid in the election. Beuck defeated Jerry Rawls by a vote of 4,067 to 1,837 in the presidential race. Rose was unopposed for the vice president post.

Miss Kitzman polled 3,163 votes to defeat Lynn Melton with 2,696 for secretary and Walker had 3,031 votes as compared to 2,846 for Max Blakney in the business manager race.

This release was distributed to local & regional media, Dallas, Houston, Ft. Worth, El Paso, Amarillo, Midland,

^{APR. 23}
LUBBOCK, Tex. -- Appointment of U. V. Jones, currently Librarian of the Lamar School of Law at Emory University, as Librarian and Associate Professor in Texas Tech's new Law School was announced ^{SAT.} today by Tech President R. C. Goodwin.

The Law School, scheduled to open in the Fall of 1967, will be headed by Dean Richard B. Amandes, currently Assistant Dean of the University of California's Hastings College of the Law.

Dean Amandes, who will join the Tech faculty July 1, said he was "most happy" to have Jones associated with the new school. "As a former practicing attorney, he knows the value of a law library and what it must do for the student," Dean Amandes said.

Jones, a native of Snyder, Okla., holds a bachelor's and LL. B degree from the University of Oklahoma and the Master of Law Librarianship from the University of Washington.

He served as County Attorney in Kiowa County, Okla. for two terms, practiced law in his hometown and was assistant general counsel for the Anderson-Prichard Oil Corp. in Oklahoma City.

Jones, 49, was a law reference librarian at the University of Washington for two years and has occupied his present post since 1962. At Emory he also is Associate Professor of Law and teaches legal bibliography.

He is married to the former Miss Reba Jo Curry of Altus, Okla. They have three sons, 21, 15 and 8.

Jones is a member of the Oklahoma Bar Association, the Special Libraries Association, Beta Phi Mu library honorary and the American Association of Law Librarians of which he is president of the Southeastern Chapter.

He belongs to the Christian Church and is a past member of the Rotary Club, Lions and Kiwanis.

43-4-23-66

This release was distributed 4/23/66 to local media, Floydada, Lorenzo, Olton, Brownfield,

LUBBOCK, April 24 -- Winners in the 10th annual South Plains Regional Science Fair at Texas Tech were announced Saturday by fair director Lloyd Patterson of Lockney.

Winner in the high school physical science division was Danny Watts of Floydada with a "Colorimeter" project.

Top winner in the biological science division was Kareen Rhew of Lorenzo with a project entitled "Testing and Recognizing Textiles."

Watts and Miss Rhew earned the right to compete in the 17th International Science Fair next month in Dallas.

The Navy Cruise Award went to Glenn Loveless of Olton with a project on the "Tesla Coil." He will receive a five day cruise aboard a Navy ship this summer.

Brownfield High School won the Student Congress conducted Friday by Rondal Nauret of Brownfield.

First place winner was Mary Jane Blackstock with a paper entitled "Radiation in the Field of Medicine." Second place went to Carole Gaasch with a paper on "Fears: Causes and Cures." Shirley Beaver won third with a paper on "Nucleic Acids."

Winners were announced at the annual awards banquet in the Tech Union Saturday night. Dr. Sam Lee, Tech chemistry professor, is president of the South Plains Science Council which sponsors the fair with the South Plains Science and Math Association.

Students from more than 15 West Texas counties were represented.

HY

LUBBOCK, April 23 -- The Texas Tech Board of Directors Saturday approved a \$23, 278, 387 operating budget for 1966-67, an increase of \$1, 526, 210 over 1965-66, and received the resignation of Chairman R. Wright Armstrong of Fort Worth because of ill health.

Board Vice Chairman J. Edd McLaughlin of Ralls, who delivered the report, said the new budget provided for the addition of 113 new positions to the Tech faculty.

This addition, he said, will bring the Tech faculty to 773 with the budget providing for an increase of \$1, 286, 598 for faculty salaries, including those of new members and increases for the present faculty.

McLaughlin, who observed that Tech's enrollment could reach 20, 000 this fall, noted that expenditures for faculty salaries and the library had doubled during the past five years.

"It is in these areas," he said, "where concentrated efforts have been made to improve academic instruction." But he said increases had not kept pace with the growth of the College in other areas of operational expenditures, noting increases of only about 50 per cent since 1961.

Armstrong, a former vice president of the Fort Worth and Denver Railway Company who was appointed to the Tech Board in 1961 by then Gov. Price Daniels, submitted a letter of resignation which he had sent Gov. Connally.

"Upon the advice and urging of my doctors," Armstrong wrote the Governor, "I must request that you accept my resignation as a member of the Texas Technological College Board effective June 1st of this year."

Armstrong, a native of Brownwood, pointed out that while his regular term would have expired in February of 1967, "it is recommended that I should relieve myself of all tensions."

He said it had been "a great privilege to have been able to serve" on the Board and added that it had been "a wonderful and broadening experience."

(more)

Board -- add one

The Board also approved appointments of 12 new faculty members for the summer term, 13 for the current semester, 102 for next fall and promotions for 24 present faculty members.

Names for two present dormitories and three yet to be constructed also were approved. The Board named the dormitory now known as Men's Dorm No. 9 in honor of former Tech Dean of Agriculture W. L. Stangel, and Men's No. 10 for retired Civil Engineering Prof. James H. Murdough, a member of the original Tech faculty.

Dr. Stangel became Dean in 1945 and held that post until he was named Dean Emeritus in 1958. A resident of Lubbock, he is widely known throughout the Southwest as a Livestock judge.

Prof. Murdough, who recently had two scholarships named in his honor by the Mosher Foundation of Houston, is a former head of Tech's Department of Civil Engineering. He retired from the Tech faculty in 1962 and resides in Lubbock.

Names for three towers of a six-tower dormitory complex to be constructed at 19th and Flint also were announced. The Board said the complex would be named for Dr. D. M. Wiggins, Tech's fifth president.

Dr. Wiggins, a Lubbock banker and member of the Coordinating Board, Texas College and Universities, was President of Tech from 1948 until 1952. He is a native of Louisiana, but has resided in Texas since 1905.

Armstrong said more than 25 suggestions had been received. Selected were Weymouth Hall, for former Board Member Chanslor E. Weymouth of Amarillo; Chitwood Hall, for the late Rep. Richard M. Chitwood of Sweetwater who worked for the establishment of Tech while a member of the Texas House of Representatives; and Coleman Hall, in honor of the late Dr. P. C. Coleman of Colorado City. Dr. Coleman was instrumental in forming the West Texas Chamber of Commerce, a strong advocate of placing Tech at Lubbock.

Armstrong said the Board also had decided to name that strip of land running from the Broadway entrance to the College to Memorial Circle as Amon G. Carter Plaza in honor of the well-known West Texas leader.

(more)

Board -- add two

In other action, the Board voted to ask the Coordinating Board for approval to award the bachelor of arts degree in geography and for the new Law School to award the Juris Doctor degree, and approved the procurement of 19 temporary wooden buildings from Sheppard Air Force Base to provide classrooms and faculty office space for next fall.

Other items included a report by Bill J. Parsley, Vice President for Development, that the Tech Foundation had received \$1, 511, 265 in gifts and grants during 1965 contrasted with \$658, 792 received in 1964.

The Board was told the \$270, 000 expansion program scheduled to begin this spring for KTXT-TV, the College's educational television station, will include close-circuit television and will provide facilities for teaching 14, 150 students by tv this fall.

This release was distributed 4/23/66 to local media.

LUBBOCK, April 23 -- Sylvan Dunn, Director of Texas Tech's Southwest Collection, will speak at a luncheon of the Texas State Historical Association during 70th annual meeting in Austin Saturday (April 30).

Dunn will discuss "Water Under the Bridge: Weather and Man in Texas." The talk is based on intensive research conducted during the past decade.

Dunn received the bachelor's and master's degrees from the University of Texas. He also received training at the National Archives.

Dunn joined the Southwest Collection as an archivist in 1956. He is an associate professor of sociology and anthropology at Tech. His graduate seminar, "Sociological Uses of Historical Materials" is used to stimulate the scholarly use of archives.

Dunn has written 22 biographical studies contained in Builders of the Southwest. His analysis of agricultural development in 23 West Texas counties was included in A History of Lubbock. He has had several articles published in historical, farming and travel magazines.

This release was distributed 4/23/66 to local media.

LUBBOCK, April 23 -- The Texas Tech Board of Directors went on record Saturday as unanimously endorsing a formula recommended by the Coordinating Board, Texas College and University System, as a basis for appropriations requests for the biennium beginning Sept. 1.

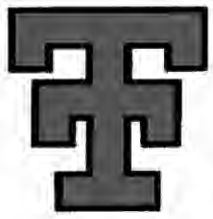

The Tech Board, in a formal motion, said it had determined that the formulas "are an equitable means of providing support in the seven designated areas for the state-supported institutions of higher education in the pursuit of excellence;

"Therefore, be it resolved that this Board hereby enthusiastically endorses the formulas as recommended ... and pledges its support of these formulas ... "

The seven formula areas are general administration and student services faculty salaries, departmental operating expenses, library, organized research, building maintenance and custodial services.

49-4-23-66

This release was distributed 4/23/66 to local and regional media and Texas Bar Journal.

LUBBOCK, April 23 -- The Texas Tech Board of Directors was told Saturday that Tech's new School of Law, scheduled to open in the fall of 1967, would admit a first year class of 75 with enrollment expected to total 585 by 1975.

The report was submitted by Dean Richard B. Amandes, currently assistant dean of the University of California's Hastings College of the Law. Dean Amandes will join the Tech faculty on July 1.

Board member Al Allison of Levelland, who has played a leading role in establishment of the Law School, said he thought the School "could open with a first year class of 350-400, but that enrollment should be limited in favor of quality instruction."

The enrollment projections called for the first year class of 75 in 1967, a first year class of 75 and second year class of 60 by 1968 and 75 for first year and 60 for both second and third year classes by 1969 for a total of 195.

Enrollment by years was set for 270 by 1970, 300 by 1971, 390 by 1972, 465 by 1973, 525 by 1974 and 585 by 1975.

The Board also voted, upon Allison's recommendation, that a bachelor's degree, acceptable undergraduate record and satisfactory score on the Law School Aptitude Test be made requirements for admission to the School.

The Board also voted to request the Coordinating Board to empower the School to award the Juris Doctor (JD) degree, in recognition of its stature as a graduate school.

This reglease was distributed 4/23/66 to
local and regional media.

LUBBOCK, April 23 -- Michigan State football coach Duffey Daugherty will speak
at the annual Red Raider Club Sports Banquet May 7.

Scheduled for 6:30 p.m. in the Municipal Coliseum, the banquet will honor
Tech athletes of 1965-66.

Daugherty was named Coach of the Year in 1965 after his team won the national
championship.

The Pete Cawthon Award for the best all-around football player and the Dell
Morgan Award for the player displaying the most courage will be presented.

Entertainment will be provided by Dean Killion and Tech's Court Jesters.

--30--

51-4-23-66

LUBBOCK, April 24 -- Bill Beuck, 20-year-old Texas Tech junior from Midland, was named president of the Tech student body Friday in a campus-wide election.

A banking finance major, Beuck is the son of Mr. and Mrs. W. F. Beuck of 3003 Sentinel in Midland.

Beuck was the Student Senate representative from the School of Business Administration for two years serving on several committees including elections, summer senators and government day.

He was a member of the president's cabinet as a representative to the Southwest Conference Sportsmanship Committee, student representative on the Student Publications Committee, sponsor of the Freshman Council, member Board Student Organizations, IFC representative and justice on IFC court and president and chaplain of his social fraternity.

Beuck is a member of the Army ROTC and has been recognized for leadership at All-College Recognition Service.

--30--

52-4-23-66

LUBBOCK, April 25 -- Karen Kitzman, Texas Tech junior from Bandera, has been elected secretary of the Tech student body in a campus-wide election.

Miss Kitzman, a chemistry major, is the daughter of Mr. and Mrs. A. A. Kitzman of Peaceful Valley St. in Bandera.

Active in campus affairs, Miss Kitzman has served as a student senator, member of the food committee, secretary of Tech's Model United Nations, member of the Junior Council, member of Mortar Board, and assistant secretary-treasurer of the Tech Union.

NAVY CRUISE WINNER -- Glenn Loveless of Olton won the Gold Medal Award during the Regional South Plains Fair at Texas Tech Saturday. His project, "Tesla Coil High Frequency Generator," earned him the Navy Cruise Award -- a five day cruise aboard a Navy ship this summer. (Tech Photo) 4/23/66

This release was distributed 4/27/66 to local media.

LUBBOCK, April 27 -- Texas Tech's Department of Aerospace Studies will hold its annual Spring Awards Ceremony at 1 p.m. Thursday (April 28) in Tech Union Ballroom.

Seventeen outstanding Air Force ROTC cadets are scheduled to receive awards from Tech officials and Air Force officers, said Tech aerospace professor Lt. Col. Henry L. Gantz Jr.

Heading the agenda will be the Texas Tech President's Award to be conferred by Dr. R. C. Goodwin and the Professor of Aerospace Studies Award which will be presented by Lt. Col. Gantz.

The Rev. Robert J. Hearn of Lubbock Second Baptist Church will present the Air Force Association Award. James A. Watkins, instructor in the School of Business Administration, will confer the Chicago Tribune Service Medal and Gold Medal Awards.

The Air Force Times Award and the General Dynamics Award will be presented by freshman football coach Burl Huffman and the Armed Forces Communications and Electronics Association awards by Assistant Engineering Dean Robert L. Newell.

The Arnold Air Service Award, the Arnold Air Society Medal and the Arnold Air Achievement Award will be presented by assistant professor of aerospace studies Capt. Robert Dyer. Presentation of the Sabre Flight Drill Instructor Award and the Outstanding Sabre Award will be by assistant professor Capt. Herman A. Jones. Assistant professor Maj. Robert A. Paradis will present the Flight Instruction Program Award.

Lt. Col. Gantz will present the Angel Flight Drill Instructor Award, the Professor of Aerospace Studies Angel Award and the Outstanding Angel Award in recognition of outstanding contributions by the AFROTC women's drill team.

This release was distributed 4/25/66 to local, regional media, Dallas, Houston, El Paso, Fort Worth, Hobbs, Clovis, Portales, Roswell, San Angelo, Wichita Falls, Midland, Odessa, and key high school newspapers.

FOR RELEASE: SUNDAY, MAY 1, OR THEREAFTER

LUBBOCK, Tex., April 30 -- Upwards of 4,000 of next fall's Texas Tech freshmen class will get a taste of college life this summer during one of nine two-day briefing sessions under Tech's Summer Program of Academic Advisement, Orientation and Registration for Entering Freshmen.

Clinic dates, as announced this week by Dr. William M. Pearce, Tech Vice President for Academic Affairs, are July 18-19, 21-22, 25-26 and 28-29 and August 1-2, 4-5, 8-9, 11-12 and 15-16.

Purpose of the clinics, according to Dr. Pearce, is to "give the entering freshman an opportunity to visit the campus, to engage in individual counseling, to determine courses to be taken this fall and to accomplish registration."

Participation is voluntary, but is limited only to those students who have completed all of Tech's admissions procedures, including the filing of all test scores and high school records.

Parents are invited to accompany their children to the clinics, and will be made full participants. Housing will be provided in Tech's air conditioned dormitories with parents and students expected to pay for lodging and food.

Dean of Admissions Floyd D. Boze said freshmen who have been admitted will be sent cards listing clinic dates and preference for attendance. Students also will be mailed pre-registration materials and forms to complete prior to their arrival.

The program is a continuation of one carried out last summer which evolved from a pilot program begun in the summer of 1964 at the urging of the Tech Student Senate.

About 300 students attended the first program with about 2,600 on hand last summer. "This is our method," Dr. Boze said, "of serving the incoming freshmen more effectively.

"It is a very fine opportunity for the entering students to get their programs lined up for the fall during a period when we can devote more time to them."

(More)

CLINICS ...add one

Dr. Boze, who coordinates the program, said each clinic will begin with registration of parents and students before noon on the day of arrival. The formal program begins following lunch with a general session for everyone.

Students will then attend sessions in their respective schools and will meet with academic advisors. In consultation with the advisors, the student's course list for the fall will be prepared.

The Office of the Dean of Student Life will conduct evening sessions for parents and students at which Dean James G. Allen and Student Senate representatives will discuss various College policies and will orientate students to campus life and to what to expect outside the academic area.

"The purpose," Dean Allen said, "is to explain to both the students and parents regulations and activities as planned by the College and carried out by the students under guidance of the College as a furtherance of the educational experience at Tech.

"We want to give them a shared understanding of the philosophy under which we operate and to give the parents especially a picture of the college campus of 1966."

The morning of the second and final day will be occupied with completion of the academic advisement program for students and bus tours for the parents.

After departure, class tickets and schedules will be assembled by the Registrar's Office. Fees will be determined and students will be billed by mail by the Comptroller's Office.

Students who pay by mail may pick up packets containing their class tickets when they return to campus in the fall. Freshmen* who have not attended one of the summer clinics must go through the regular, complete registration process in September.

This release was distributed 4/25/66 to
all local media.

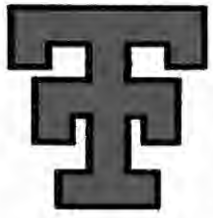

LUBBOCK, April 25 -- The April issue of the Texas Techsan, featuring a full-color cover photograph of Tech's Miss Mademoiselle and Miss Playmate, will go into the mail this week to more than 10,000 alumni and friends of the College.

The 32-page magazine, official publication of the Tech Ex-Students Association, features an article on "Women at Tech" and an interview with former College Board Member Manuel DeBusk of Dallas.

The four-page article on DeBusk is a frank give-and-take appraisal of questions and issues facing the College.

This release was distributed 4/26/66 to local and regional media. Also Texas farm editors.

LUBBOCK, April 26 -- More than 1,600 West Texas vocational agriculture students will be on the Texas Tech campus Saturday (April 30) for the 39th annual Tech Vocational Agriculture Judging contest, Agriculture Dean Gerald W. Thomas said Tuesday.

Coordinated by Tech's Department of Agricultural Education, the event will feature elimination contests in livestock, dairy cattle, dairy products, poultry and meats. Winners will earn the right to enter the state contest at Texas A&M in May.

Tech contests in cotton, wool, crops, grass and land also will be held. Contestants will report at 7:30 a. m.

The departments of Animal Husbandry, Agronomy and Dairy Industry, will direct the various events. A meeting for team coaches will be held in the Tech Union Ballroom at 9:15 a. m. A luncheon for teachers is set for 12:30 p. m. at the Plains Cooperative Oil Mill.

A barbecue for contestants will be served by Plains Coop Oil Mill at 5 p. m. west of the livestock pavilion.

Special guest will include J. A. Marshall, assistant state director of Agricultural Education, and Wilbert H. Meischen, executive secretary of the Texas Vocational Agriculture Teachers Association, both of Austin.

Contest results will be announced in the Union Ballroom at 2:30 p. m. Thomas Leach is Agricultural Education Head and Prof. L. M. Fargrave is contest general superintendent.

This release was distributed 4/27/66 to all local media.

LUBBOCK, April 27--Five Texas Tech beauties are vying for the title of Tech Collegiate Rodeo queen and one will be crowned at the first performance Thursday night (April 28) at Municipal Coliseum.

The five finalists include juniors Marianne Munz, Alvin; Mary John Espy, Sonora; Karen Robinson, Snyder; D'Lynn McGinty, Plains; and Meg Garland, Fort Worth sophomore.

They are survivors from a group of 12 aspirants who started the quest for the queen's crown less than two weeks ago. Judging included western style riding and western dress contests.

Voting has been underway since Monday in the Tech Union on the basis of one penny per vote. Finalists will ride in the Grand Entry at 8 p.m. Thursday.

Miss Munz is studying Home Economics Education. A transfer from Alvin Junior College, she is a member of the Tech Rodeo team. Her hobbies include tennis, 4-H projects, piano and rodeos.

A member of the Tech Rodeo team, Miss Espy is majoring in Elementary Education. She hopes to teach after college and enjoys ranch work as a hobby.

Miss Robinson, majoring in Elementary Education, is an active member of the Tech Rodeo team. She also hopes to teach and enjoys sewing, dancing and rodeos.

A former queen of the Plains rodeo, Miss McGinty is a Home Economics Education major. She hopes to become a county extension agent and later to design her own line of western wear. Miss McGinty enjoys riding in rodeos, painting and sewing.

An advertising art and design major, Miss Garland is a member of the Tech Rodeo Club. A graduate of Eastern Hills High School in Fort Worth, she enjoys sewing and working on her father's ranch.

Cowboys and cowgirls from 12 colleges and universities will compete in the annual rodeo which is billed as the largest indoor collegiate rodeo in the world.

Milburn Stone and Ken Curtis, better known as "Doc" and "Festus" on television's "Gunsmoke," will appear at each performance.

Tommy Steiner of Austin will supply the stock for this year's show. Steiner has supplied stock for some of the better professional events in the country.

(more)

Add 1--Rodeo

A special guest will be Miss Carolyn Seay of Corpus Christi, currently Miss Rodeo of America. She was selected by members of the Rodeo Cowboy's Association. Miss Seay will make several appearances in the show here.

Rodeo officials announced Wednesday that Bernie Howell will provide music for this year's show.

They also announced that good seats are available for all performances, but tickets are moving at a "rapid clip."

8-4-27-66

###

LUBBOCK, April 27 -- Texas Tech History Prof. Lawrence L. Graves will be in Atlanta Friday and Saturday (April 29-30) for the annual meeting of the American Association of University Professors.

Dr. Graves, president of the Tech chapter of the AAUP, said at least 500 delegates were expected for the meeting.

The two-day session will be concerned with discussions of issues facing the Association, Dr. Graves said.

--30--

9-4-27-66

LUBBOCK, April 27 -- More than 300 ranchers and cattle feeders from throughout the South Plains and Eastern New Mexico are expected for Texas Tech's Livestock Feeders Conference May 12.

Dr. George F. Ellis Jr., head of the sponsoring Tech Department of Animal Husbandry, said registration for the one-day event is \$5 per person. The fee includes a luncheon and a printed copy of the conference proceedings.

C. G. "Charlie" Scruggs, vice president and editor of the Progressive Farmer, will be the principal speaker. He will talk at 10:20 a.m. in the Tech Union on the "Changing Agricultural Situation: Its Future Outlook."

Registration will begin in the Tech Union Ballroom at 8 a.m. Bill J. Parsley, Tech Vice President for Development, will welcome participants. Agriculture Dean Gerald W. Thomas will serve as master of ceremonies for the morning session and Dr. Ellis will be in charge of the afternoon program.

Dr. Ellis will report on "Livestock Research at Texas Tech" at 9:10 a.m., followed by a discussion of "The Application of Research Findings to Commercial Beef Production," by O. J. Barron Jr., Spur rancher.

Scruggs' address will follow a 10 a.m. coffee break. Dr. Willard F. Williams, Agricultural Economics Head, will discuss "Dynamics of the Livestock and Meat Industry" at 11:05 a.m. and Paul Marion, superintendent of the Texas Agricultural Experiment Station at Spur, will report on "Beef Cattle Research at Spur" before the luncheon break.

The afternoon session will feature a talk on "The Texas Tech All-Concentrate Story" at 1:15 p.m. by Dr. Ralph Durham, Animal Husbandry professor.

A variety of research papers will be delivered by the Tech Agriculture School faculty including "Beef Cattle Research at Pantex," Dr. Richard Dale Furr, superintendent; "Utilization of Nitrogen by Feedlot Cattle," Dr. Robert C. Albin; "Addition of Zinc to All-Concentrate Rations for Heifers," Dr. Fred G. Harbaugh.

Also, "Research on Growth and Development of Beef Cattle," Professor Dale Zinn; "Current Aspects of Sire Fertility," Dr. Coleman A. O'Brien; "Research on All-Concentrate Rations for Sheep," Dr. Frank A. Hudson; and "Summary of Reproduction Research," Dr. Sam E. Cupl.

A tour of the Tech feedlots at 3:45 p.m. will conclude the program.

This release was distributed 4/27/66 to local and regional media, major Texas newspapers, Corpus Christi, Seymour, Yokum and Hobbs, N. M. newspapers.

FOR RELEASE: At Noon, Thursday, April 28, or thereafter

LUBBOCK, April 28 -- Texas Tech has been given a bequest from the estate of the late Eva Browning of Lubbock to establish a Chair in Piano, or scholarships for piano students, College officials announced Thursday.

Bill J. Parsley, Tech Vice President for Development, placed a value on the estate, which includes cash and land in Lubbock, Bailey and Cochran counties, at between \$200,000-\$300,000.

"Full credit for this splendid gift," said Parsley, "must go to Dr. Joe Dennis, Head of the Tech Chemistry Department and to Dr. Gene Hemmle, Music Department Head, for their efforts in assisting Miss Browning in disposing of her estate as she wished."

Miss Browning, who moved to Lubbock in 1917 and who died here Feb. 23 at the age of 92, stipulated that the income from her estate would go to the Texas Tech College Foundation for "the purpose of creating an artist-in-residence for piano, or piano scholarships, in the Department of Music."

Foundation Chairman Jack Maddox said from his home in Hobbs, N. M., that he was "most gratified and pleased with this bequest. I am certain," he said, "that this will be a fine memorial to the memory of Miss Browning."

Terms of Miss Browning's will also gave \$10,000 to a cousin, Kathrine Park of Atlanta, and \$20,000 to the First Presbyterian Church of Lubbock, of which she was a member.

The gift to the Presbyterian Church was to establish the Eva Browning Scholarship Fund and the Joe Dennis Scholarship Fund for Texas Tech music majors, who are members of the First Presbyterian Church of Lubbock and the Lubbock Choir.

(more)

Browning -- add one

Miss Browning is survived by her cousin and two brothers, W. T. Browning of Yokum and Roy H. Browning of Corpus Christi.

She was born in McKinney and taught piano here until a few years before her death. One former pupil, Marion Roberts, had a successful concert tour before joining the faculty of the Juilliard School of Music in New York.

Tech President R. C. Goodwin said "We certainly appreciate this most generous expression of interest in the College and in the Department of Music.

"We look forward to the implementation of this gift for the continued improvement of instruction in piano, and in the College's ability to provide additional artists, both for the campus and for the community. We trust Miss Browning's love of music will be memorialized through this bequest."

Dr. Dennis called the gift "a very significant contribution to the College. It is of a sort that seldom comes to the area of the fine arts, and will be a tremendous boost both for music and fine arts in general."

Dr. Hemmle said his department was "very grateful to Dr. Dennis who pointed out to Miss Browning the quality of work being accomplished here, and of our great need for scholarship funds."

Miss Browning had donated \$50,000 to the Music Department for scholarships while she was still living.

Miss Browning was one of the most selfless persons I have ever known," said Dr. Hemmle. "Her interest in others was indeed great. She constantly sought to aid other people in a variety of ways.

to all Lubbock media
and students' hometowns.

LUBBOCK, April 27 -- Denver City sophomore David Snyder Wednesday was named editor of the Toreador, Texas Tech student newspaper, for 1966-67, and sophomores Nancy Heddleston and Charlotte Shive were named co-editors of the 1967 La Ventana, student yearbook.

Voting was by the Tech Student Publications Committee, consisting of four students and four faculty members.

Snyder, an accounting major and journalism minor, is a member of Sigma Delta Chi, national professional journalism fraternity.

He currently is assistant managing editor of the newspaper, and served as copy editor during his freshmen year.

Miss Heddleston and Miss Shive, both from Big Spring, were co-editors of their high school yearbook.

Both are education majors and both serve as section editors for this year's annual. Miss Heddleston is a member of Delta Delta Delta sorority, and Miss Shive is a member of Delta Gamma.

FOR RELEASE: AT 6 p.m. SATURDAY, APRIL 30, OR THEREAFTER

LUBBOCK, April 27 -- Texas Tech will be represented by both officers and speakers at the 42nd annual meeting of the Southwestern and Rocky Mountain Division of the American Association for Advancement of Science which opens Sunday (May 1) at New Mexico State University, Las Cruces.

Biology Department Head Dr. Earl D. Camp is division president. Members of Tech's biology and chemistry departments and several graduate students will present technical papers at the four-day conference.

Dr. Camp will preside at an executive committee meeting at 3 p.m. Sunday and will address the opening general session at 8 p.m. He will deliver his presidential address at the division's annual banquet at 7 p.m. Tuesday (May 3).

A member of the Tech faculty since 1945, Dr. Camp is a Fellow in the American Association for the Advancement of Science, a member of the Society of Sigma Xi and has written articles for leading scientific journals.

Representing Tech on the Botanical Sciences section program will be Dr. Paul V. Prior and Dr. Murray W. Coulter of the department of biology and graduate students Charles Hutchins and Turner Collins.

Papers by Tech chemistry professor Dr. Wesley W. Wendlandt and graduate students E. L. Simmons, Thomas M. Southern and John R. Williams will be read at the Physical Sciences Section meeting.

Assistant biology professor Dr. Eileen Lowe, graduate student Joe T. Preston and Tech senior Penny May will present papers at the section meeting on zoological sciences.

Others attending from Tech will include associate professor of biology Dr. Lyle Kuhnley, assistant professor Chester M. Rowell and graduate teaching assistant Mrs. Virginia C. Riggs.

FOR RELEASE SUNDAY, May 1, or THEREAFTER

LUBBOCK, April 30 -- Texas Tech History Prof. Otto M. Nelson is the author of an article, "The Chicago Relief and Aid Society, 1850-1874," just published in the Spring Issue of the Journal of the Illinois State Historical Society.

The article narrates and analyzes the Society's activities during the period mentioned with emphasis on its response to the Chicago Fire of Oct. 8-9, 1871, which killed 300 persons, left another 100,000 homeless and resulted in \$ 196 million damages.

The article also examines the Society's fund-raising efforts, methods of dispensing aid and its attitude toward pauperism.

Prof. Nelson makes the point that, on the basis of previously unused records of the Society, it was inactive from 1858 until 1867, contrary to previous writings on the subject.

LUBBOCK, April 28 -- Texas Tech's new Law School won't admit its first student until the fall of 1967, but work and planning is underway even though two key participants won't be on campus until mid or late summer.

Dean Richard B. Amandes is winding up his assignment as Assistant Dean of the University of California's Hastings College of the Law in San Francisco. He expects to begin his duties at Tech about July 15.

U. V. Jones, newly appointed Librarian, is completing his work at the Emory University Lamar School of Law in Atlanta where he is Librarian and Associate Professor.

Jones, 48, plans to bring his wife and three sons to Lubbock no earlier than Aug. 15.

But both men, while fulfilling obligations to their present institutions, are keeping one eye on West Texas and making plans to hit the ground running when they assume their new posts.

Dean Amandes is evaluating the kind of faculty and staff he wants, and is making plans to begin talking with candidates.

He is considering space needs and possible locations for temporary quarters, and is discussing plans for a permanent structure.

Dean Amandes does have one problem solved. He knows what kind of a law school he wants. "I told the Board of Directors law school committee," he said, "that I didn't want just any deanship.

"I wanted a school, like this, where my staff and I could start fresh and build a good law school. I didn't want to inherit another dean's problems, because I want to know that all mistakes and problems are my own.

"I consider this the greatest challenge any dean could want, and in the future I want this to be the greatest law school in the state and even in the nation."

Jones also is aware of the needs and problems confronting him. The most pressing of these is a minimum of 30,000 basic law texts -- on the shelves and ready for use when the school opens.

"We have received several large donations of books," he said, "but we haven't had a chance yet to look through them and see what we still need."

(More)

LAW SCHOOL...add one

One of those gifts was a contribution of 46 cartons of law volumes, channeled through the Tech Ex-Students Association, and donated by the American Liberty Oil Company of Dallas.

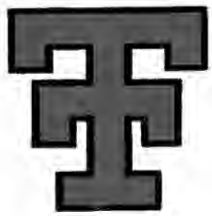

The Association's Executive Board also has voted to provide at least four Law School scholarships. They will be financed through gifts to the Tech Loyalty Fund, and are thought to be the first pledged for the new School.

Correspondence and inquiries concerning the new school may be forwarded to Dr. William M. Pearce, Vice President for Academic Affairs.

Dr. Pearce pointed out, however, that a preliminary announcement on the school would be issued by the first of the summer with a Law School Bulletin to be published in the fall.

LUBBOCK, April 28 -- Texas Tech's horse facilities are being moved into spanking new quarters located across the Tech freeway, Director of Building Maintenance Ray Downing said Thursday.

Construction of a 6,832 square foot building with a covered feeder shed extending approximately 180 feet, is complete. The building, located near the beef cattle facilities, is constructed of concrete blocks with a steel frame and metal roof.

Stalls are located along each side of the building. An exercise area containing sand to protect horses hoofs and storage for grain and hay are included. Three 60x45 pens and a 100x200 training arena are being built adjacent to the structure. Parking space for 24 cars has been provided.

Recent rains have slowed paving work, but Downing expects all construction to be complete within two weeks. The new facilities are replacing those located at 15th and Flint. Project cost is \$59,000.

Dr. George F. Ellis Jr., Department of Animal Husbandry Head, describes the new facilities as "a valuable asset to Tech's agricultural program."

He said 23 Tech horses will be housed in the new quarters. The School of Agriculture will use the complex for judging classes, teaching program demonstrations and public service meetings.

Downing said the horse facilities were moved as a part of a continuing program to locate Tech poultry, swine, beef cattle and horses in the same area. The 15th and Flint property will be the site of Tech's new Business Administration Building.

This release was distributed 4/28/66 to local media.

LUBBOCK, April 28 -- Dr. Morris S. Wallace, Head of Texas Tech's Education Department and Director of Teacher Training, has returned from a two-day conference in New York City called by the New York State Department of Education to discuss the possibility of reciprocity in teacher certification.

Dr. Wallace and Dr. Milo Kearney, Director of Teacher Education and Certification for the Texas Education Agency, were the two official representatives from Texas.

Representatives of 10 other states also were on hand to consider the project which is being sponsored by the New York Education Department and the U.S. Office of Education.

Dr. Wallace said the study's purpose is to explore advantages and disadvantages, problems and issues of reciprocity in certification of teachers as they move from state to state.

Mobility of teachers throughout the country has increased rapidly in recent years. Dr. Wallace said he thought the proposed study probably would run three or four years with other states to be invited to participate.

LUBBOCK, April 28 -- Seventeen outstanding Air Force ROTC cadets were honored at Texas Tech's Department of Aerospace Studies annual Spring Awards ceremony Thursday (April 28).

Top awards went to Winston H. King of El Paso and Robert J. Vacker of Seymour at the 1 p.m. service in Tech Union ballroom.

King received the President's Award presented by Dr. R. C. Goodwin to the outstanding Professional Officer Corps cadet for academic achievement and contributions to student life. King is cadet wing executive officer, a member of Arnold Air Society and Kappa Alpha Order. He is the son of Mr. and Mrs. Howard Squires of El Paso.

Vacker received the Professor of Aerospace Studies Leadership Award from AFROTC Commander Lt. Col. Henry L. Gantz Jr. for leadership within the cadet wing. Cadet Vacker is the son of Mr. and Mrs. Willie Vacek, Seymour.

The Air Force Association Award went to Michael G. Gurley of Marlin and the AFROTC Dynamics Award to Charles Edward Burton of Comfort.

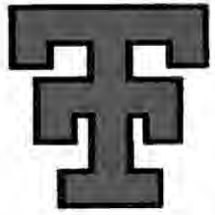

John N. Turquette of Lubbock received the Chicago Tribune Silver Service Medal and Michael William Starch of Ralls was awarded the Chicago Tribune Gold Leadership Medal.

Wayne E. King of Lubbock received the Air Force Times Award. The Flight Instruction Program Award went to George M. Burnup of Austin and the Armed Forces Communications and Electronics Association Award to Andrew A. Kochis Jr. of San Antonio.

For outstanding contributions to the Arnold Air Society, Don B. Kennedy of Burkburnett received the Society's service award, Mackie B. Curry of San Angelo was presented a gold medal and Gerald E. Gaige of Midland received the achievement award.

Sabre Flight Drill Team awards went to Donald M. Mitchell of Goodnight and Stanley Brinkley of San Antonio. Mitchell received the Drill Instructor Award and Brinkley was named outstanding Sabre.

Three members of Angel Flight, women's drill team, were honored. Barbara Birmingham of Dallas received the Angel Flight Drill Instructor Award, Jane Sosnowy of Texas City received the Professor of Aerospace Studies Angel Award and Carol Giraud of San Antonio was named outstanding Angel.

LUBBOCK, April 28 -- Texas Tech Professor of Spanish Dr. T. Earle Hamilton will address two out-of-state meetings this weekend.

At the University of Kentucky's annual Foreign Language Conference in Lexington Saturday (April 30), he will read a paper on "Dramatic Criticism in the Comedias of Ruiz de Alarcon."

Dr. Hamilton will speak the following Monday (May 2) at a banquet sponsored by the University of Tennessee's Department of Romance Languages and Literature in Knoxville. His subject will be "A Modern Don Quijote."

Dr. Hamilton recently was re-elected national president of Sigma Delta Pi, honorary for teachers and students of Spanish, a post he was first named to in 1960.

LUBBOCK, April 29 -- Texas Tech's Faculty Woman of the Year and Tech's Woman of the Year will be elected Monday in preparation for annual Woman's Day Tuesday (May 3).

Announcement of the two honorees will be made at the Woman's Day banquet Tuesday which climaxes the special observance sponsored annually by the Association of Women Students at Tech.

Nominees for Woman of the Year are Joy Cox, Sara Cox, Marge Eubank, Anne Faith, Nancy Hood, Jenny Matthews, Gena O'Dell, Vicki Pharr, Rita Reynolds, Karen Schroeder, Jane Sosnowy, Mary Tannahill, Sue Walker, Carolyn Weaver and Becky Wilson.

Nominees for Faculty Woman of the Year are Mrs. Suzanne Aker, Mrs. Wildring Edwards, Dr. Panze Kimmel, Dr. Mina Lamb, Dr. Evelyn Montgomery, Mrs. Emma Reeves, (cq) Miss Margret Stuart, Mrs. Lenore Tunnell and Miss Peggy Williams.

Candidates are nominated by Tech women students. Polls will be open from 1 to 5 p.m. Monday in women's residence halls.

24-4-29-66

FOR RELEASE: SUNDAY, MAY 1 OR THEREAFTER

LUBBOCK, April 29 -- An author and journalist whose own life reads like an adventure story will be the main speaker at Texas Tech's annual Women's Day banquet Tuesday (May 3).

Mrs. Anna Chennault, widow of the late Lt. Gen. Claire Chennault, famed Flying Tiger Commander of World War II, will address Tech's women students and faculty members at 6 p.m. in Tech Union ballroom.

Her firsthand knowledge of the Far East, both past and present, is expected to lend particular timeliness to her address on the subject "Our Challenge In Asia."

A native of China and a graduate of Ling Nan University, Mrs. Chennault was the first woman to serve as a war correspondent for China's largest news agency, a career that led to a meeting with the famed war hero who became her husband.

Since her husband's death in 1958, she has become a militant leader in the campaign to free her homeland from Communism. Her voice is heard weekly in Free China, Red China and Southeast Asia over the Voice of America. She is president of Chinese Refugee Relief, a private program to aid Chinese refugees in Hong Kong. She also is president of General Claire Lee Chennault Foundation, an organization to bring closer relationship and understanding between the East and West.

To further this understanding, she worked in the Machine Translation Research at the Institute of Languages and Linguistics to produce two new Chinese dictionaries, simplifying that complex language for machine translation research.

Her latest book, "Chennault and the Flying Tigers," is the first complete story of her husband's life and of the daring American volunteer pilots he organized into a formidable fighting group.

In her previous bestseller, "A Thousand Springs," she related how her husband maneuvered his forces on many fronts in the closing days of World War II, prior to their marriage.

Despite these intellectual pursuits, Mrs. Chennault is feminine enough to be a dress designer, too. Much in demand for her creations which fuse Chinese and American chic, she recently completed a series of fashion designs shown widely in the United States and Latin America.

(More)

ANNA CHENNAULT...page 2

Mrs. Chennault makes her home in Washington, D.C. with her two daughters, Claire Anna and Cynthia Louise. Each year, however, she returns to the Far East and to her second home in Taiwan to keep abreast of developments in that sensitive area.

Another highlight of the banquet will be the announcement of Tech's Woman of the Year, selected from the student body, and of Tech's Faculty Woman of the Year. Candidates nominated by women students for these two honors will be voted on in elections Monday.

Women's Day is sponsored by Tech's Association of Women Students.

This release was distributed 4/29/66 to Sonora, San Angelo, Fort Worth, Abilene newspapers and parents.

LUBBOCK, April 29 -- Texas Tech's 1966 Rodeo Queen is Miss Mary John Espy, daughter of Mr. and Mrs. Howard Espy of Sonora.

Miss Espy was crowned Thursday night (April 28) at the first performance of the Tech Collegiate Rodio. The red-haired beauty was chosen from a field of five finalists. She is a member of the Tech Rodeo Team.

Majoring in Elementary Education, Miss Espy hopes to teach after college. She is a junior and said she likes ranch work as a hobby.

Queen candidates were judged in western style riding and western dress contests and the five finalists were voted upon by the student body on a penny a vote basis.

LUBBOCK, April 29 -- Texas Tech President R. C. Goodwin Friday announced receipt of a \$2,000 award to the College from the Monsanto Company in St. Louis.

Dr. Goodwin said \$500 each would go to the Chemistry Department and to the Department of Chemical Engineering, and \$1,000 to Textile Engineering.

The Textile Engineering award will be divided equally between a scholarship and departmental operations.

--30--

29-4-29-66

This release was distributed 4/29/66 to local, state and regional media, Ford Foundation, Jordanian Embassy, and 5 Jordanian newspapers

FOR RELEASE: SUNDAY, MAY 1, OR THEREAFTER

LUBBOCK, Tex., April 29 -- Dr. John C. Gilliam, Texas Tech Business Administration professor, will take a year's leave of absence beginning in August to assist in establishing a junior college of business administration in Beit Hanina, Jordan, a suburb of Jerusalem.

Dr. Gilliam, serving as a consultant to the Ford Foundation, will spend the 1966-67 school year as a special advisor to the school which is being financed by a Ford grant.

The initial professional staff of the new college will consist of five Jordanian students currently enrolled in Tech's School of Business Administration. The students -- Khalid Amin Abdullah, Naim Husni Dahmash, Hamed Hadidi, Saleh Fawvez Khassowneh and Hashem Sabbagh -- have bachelor's degrees from Middle East universities and are working on their master of business administration degrees at Tech.

The students will leave for Jordan at the end of the summer term to teach professional courses in business and economics.

Dr. Gilliam said the new college's purposes include preparing business teachers for Jordan public schools, and providing intermediate-level workers in accounting, management, marketing and related business and office occupations.

"The College," Dr. Gilliam said, "will be the first of its kind in Jordan and one of the very few educational institutions in the Middle East offering this type of preparation."

Dr. Gilliam said Jordan "like many developing nations, has no middle class" and that the new college will help fill the country's educational void "and help make it possible for a middle class to emerge."

"I consider this assignment a great opportunity and challenge," Dr. Gilliam said, "There is no question that there is a great need for this college in Jordan."

(more)

Gilliam -- add one

Jordan now has about six junior colleges--each of which specializes in a specific field. None offers business courses.

"They haven't really neglected business courses any more than any other field of study, they simply haven't had the facilities or teachers," said Dr. Gilliam.

The idea for the new college began to take shape when Dr. Gilliam spent a month in Jordan last year as a Ford Foundation consultant and as an advisor to the Jordanian government. His survey was a part of the Foundation's Overseas Development Program.

In his report, Dr. Gilliam stressed a definite need for the college because "if a developing nation is to develop a sound economy, its people must be trained in business areas."

The Jordanian government, in cooperation with the Ford Foundation, prepared a five-year economic development plan in 1962 to improve the country's literacy level.

After studying the Gilliam report, the Ford Foundation put plans into operation to help shoulder the expense. Dr. Gilliam made recommendations for equipment, facilities, curriculum and personnel.

Buildings to house the school are constructed and ready for occupancy. "It's simply a matter now of rolling up our sleeves and going to work," Dr. Gilliam said.

Dr. Gilliam expects to miss Tech football and basketball games "about as much as anything." He is an avid sports fan.

Dr. Gilliam's family, which includes his wife, Katherine, sons Charles, 13, and Bruce, 16, and daughter Carol Ann, 7, will accompany him to Jordan.

This release was distributed 4/29/66 to local media.

LUBBOCK, April 29 -- Vocational agriculture students from throughout West Texas are expected on the Texas Tech campus Saturday (April 30) for the 39th annual Tech Vocational Agriculture Judging contest.

Coordinated by Tech's Department of Agricultural Education, the event will feature elimination contests in livestock, dairy cattle, dairy products, poultry and meats. Winners will earn the right to enter the state contest at Texas A&M in May.

Tech contests in cotton, wool, crops, grass and land also will be held. Contestants will report at 7:30 a.m. Results will be announced in the Union Ballroom at 2:30 p.m. Prof. L. M. Hargraves is contest general superintendent.

31-4-29-66

This release was distributed 4/29/66 to local media.

LUBBOCK, April 29 -- Texas Tech's Department of Mechanical Engineering has been awarded a \$9,400 National Science Foundation matching fund grant to purchase instructional scientific equipment.

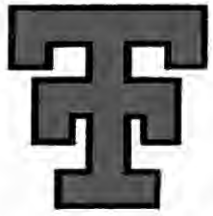

The total fund of \$18,800 will be applied toward the purchase of laboratory equipment to improve instruction in Materials Behavior and Stress Analysis courses for undergraduates, said Prof. L. A. Reis.

Principal item to be added will be a tension-compression testing machine with load-deflexion recording capabilities, a testing device which will greatly increase the quality of metallurgy instruction, Reis explained.

Plans call for the machine to be installed early this fall.

LUBBOCK, April 29 -- Texas Tech senior Garland Weeks of Wichita Falls was awarded the annual Dub Parks Award at the opening performance of the Tech Collegiate Rodeo Thursday night.

Parks was president of the Tech Rodeo Association and a Tech graduate who died in an auto accident in 1954. His mother, Mrs. Roy Hickman of Morton, provided financial support for the building of the "Dub Parks Memorial Arena" here. Tech cowboys now use the arena for practice and roping sessions.

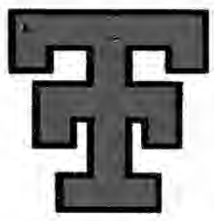

Weeks received a check from Mrs. Hickman which is annually presented to the Dub Parks Award winner. She also presents an annual check to the Rodeo Association.

Mrs. Lenore Tunnell, English Department instructor, rodeo team sponsor, and longtime friend of the Tech Rodeo Association, presented Mrs. Hickman a bouquet in behalf of the association.

The award, a silver belt buckle, went to Weeks, 1966 Rodeo Association president, for his "outstanding contributions to the association."

Weeks, majoring in agricultural economics, is the son of Mr. and Mrs. Glynn C. Weeks of (Route One) Wichita Falls.

Individual club members conduct a secret ballot to select the award winner, Rodeo secretary Bob Bradley said Parks made "great contributions to the club in the form of leadership, honor and willingness to work."

LUBBOCK, April 29 -- Texas Tech's Sigma Delta Chi student chapter saluted 15 members of the Tech community in a special awards issue of The Daily Toreador Friday.

Recognized in the fifth annual edition were Music Prof. Gene Kenney, Mortar Board President Linda McSpadden, Speech Prof. Ronald Schulz, Board Member Al Allison of Levelland, Interfraternity Council President Larry Strickland, Tom Wilson, Dean Killion, Residence Hall Supervisor Richard Vaden, Arts and Sciences Administrative Assistant Mrs. Kathryn Durham and Assistant Registrar Evelyn Clewell.

Groups honored included the Speakers Committee, Artists Course, Debate team and Track team.

The awards issue was started in 1961 to recognize persons or groups who "have proven true to the three standards of Sigma Delta Chi--Talent, Truth and Energy," said SDX president John Armistead.

Kennedy was cited for his work with choral groups on and off the campus. He is Tech choral music director, working with the Tech Choir, the Tech Singers, the Madrigal Singers and the Male Glee Club. He also is choir director of Lubbock's First Presbyterian Church.

Miss McSpadden's award read, "her notable scholastic achievement has placed her among an elite group of campus scholars and her continuing friendliness makes her an all-around campus favorite." She is president of Mortar Board and a member of the University Speaker's Committee.

Killion was described as a person "whose record of achievement speaks for itself." In his seven years at Tech, he has done much to bring honor to himself and his "going band from Raiderland," Armistead said.

Vaden, Stangel Hall (formerly Men's No.9) supervisor, was selected because of the "excellent record of student activities made by the men of his hall." He was described as a professional listener. Vaden will teach management courses when he joins the Tech faculty this fall.

(More)

Sigma Delta Chi ... add one

Mrs. Durham, administrative assistant to Arts and Sciences Dean S. M. Kennedy, was honored for her tireless work with "countless distraught seniors on their degree problems, helping them to figure out how to graduate."

Dr. Kennedy said Mrs. Durham "won't budge on graduation requirements, but she does help students solve their problems."

Schulz, associate speech professor, was praised as a man "whose name is synonymous with work and as the University Theater's most important asset."

In his 13 years at Tech, the Speech Department's theater activities have included four plays annually. Schulz also teaches drama and dramatic literature classes.

Allison was lauded for "speaking frankly as a member of the board" and for his "work for the betterment of Tech in physical growth and educational excellence."

He received special praise for his work on the new Law School, to open in September, 1967. The award said, "After the law school was approved, Allison didn't stop working; he led the search to find a capable man who would head the new school, Richard B. Amantes."

Strickland was honored for his work with the Interfraternity Council. "Strickland is the primary reason the IFC has furthered its own goals and simultaneously afforded leadership for the entire student body," Armistead said. He is a senior, and one of the nine Tech men named to Who's Who in American Colleges and Universities for 1965-66. His qualifications include a 3.10 overall grade point average.

Wilson, quarterback of the 1965 Red Raider football team, was described as a person who "has that 'something' that makes for respect." He led Tech to its first winning season in nine years in 1964, and to a second place finish in the Southwest Conference and a Gator Bowl berth last year.

Miss Clewell, who serves as assistant registrar and coordinator of space, was praised for her work in preparing class schedules, breakdowns of grade-point averages, final examination schedules and job dedication.

"Miss Clewell not only does an efficient job, she looks for ways

(More)

Sigma Delta Chi .. add two

to help students," said Dean of Student Life James G. Allen.

The Speakers Committee was cited for bringing such outstanding speakers as Arthur Schlesinger, Al Capp, Dr. Huston Smith and Buckminster Fuller to the campus this year.

The Artists Course Award pointed out the program has "created and perpetuated a cultural atmosphere unparalleled in the history of Tech."

The Debate team, under the direction of Vernon Ray McGuire, was honored for "...winning trophies from coast to coast. Its victories have set records all Tech students should be proud of."

The Track team award stated, "dedication has been the key word as Tech's tracksters pulled themselves up to Southwest Conference standards and surprised many experts by winning the Fort Worth invitational track meet."

This release was distributed 4/29/66 to local media.

LUBBOCK, April 29 -- Texas Tech's Opera Theater will present four 20th century operas as its contribution to the Music Department's 15th annual Festival of Contemporary Music.

Arranged in two programs, the offerings include three modern comedies and a recent work by Tech music major Jack Williams. Each program will be presented twice, on an alternating plan, in Tech Union ballroom under direction of Charles Lawrie.

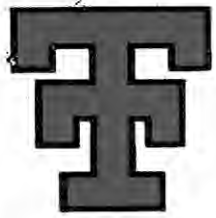

Program One, to be presented at 8 p.m. Saturday (April 30) and again at 8 p.m. Sunday (May 1) will include "There and Back" (1927) by Paul Hindemith, and "The Old Maid and the Thief" (1943) by Gian Carlo Menotti.

Program Two, presented at 2:30 p.m. Sunday (May 1) and at 8 p.m. Monday (May 2), will feature "The Hinge Tune" (1964), music by Williams, text by Elizabeth Lyne, and "Comedy on the Bridge" (1951) by Bohuslav Martinu.

All performances will be in English and will be open to the public without charge. Director Lawrie, Georgette Gettel of the Tech music faculty, and Mary Clare Babin, student music assistant, will serve as pianists.
