

HOTEL GADSDEN

DOUGLAS, ARIZONA,

we may decide on a
tile roof, which now is
prohibitive on account
cost of R.R. & wagoning
I also mixes concrete
& cement ready for laying
also mixes the plaster
for the workman.

I am investigating
and if convinced I will
try it out.

Lumber is getting dearer
all the time

Cement is expensive and
we have no sand &
gravel close so it will
pay us to look for a
cheap material.

Yours bro

Bah.
