April 8, 1964

Dear Julius:-

Spring has turned to winter here today and its good to sit by a fire.

I have watched T. V. most all after-noon, seeing the cortage of Gen. McArthur - I couldn't help but wonder if old Trueman's conscience didn't hurt him for the way he sneaked around and dismissed the Gen. in the middle of the night, it should. Mildred and Lillian sister Alma's daughters spent Mon. with me - Mildred is on her way to Washington to a D. A. R. meeting - she and her husband were to leave this morning - Lillian is flying to Virginia Friday to visit a good friend -

you didn't speak of him in
your last letter.

Rudolph has gotten down yet
she was coming the week before
Easter and got sick, then she was
coming Easter and her son
came to see her.

Now they are settling John's estate
and she can't leave.

Medie Kyle is in Dallas with
Medie Donaldson, her side is still
draining. I hope she stays up
there until she is well, she
lives up stairs here and its
hard on her going up and
down the steps.

Wish you could see our wild
flowers, the blue bonnets are
more gorgeous this year than
they have been in years.
Hazel came over and spent Easter
with me.

2-

While they were here Clayton
Malone came by a while, he and
his wife and her brother had
been to Nebraska to visit their
daughter, Clayton looked better
than he did when I was down there
last Nov.

I had a letter this week from Mildred
Stilson, she said her husband was
so crippled up with arthritis and
suffered so, that he had gone to
Helena with their daughter Bernice
and was going to be operated on,
that the Dr was going in and
scrape the bone, she didn't say
where - it must be his arm or
legs - she said he was in pain
all the time.

She asked about you, said she
hadn't heard from you in a
long time.

Has Campbell gotten well?

Florence Joiner is still in Lebanon
with her daughter, the Dr says
she isn't able to come home, she
writes she is so homesick -

We surely need rain its so dry -
and the cattle pillars are eating
every thing up -

My news is about exhausted
so will close -

With lots of love -

Gov -
