LUBBOCK--More than \$6 million in construction and renovation projects will be considered this week by the Boards of Regents of Texas Tech University and Texas Tech University Health Sciences Center.

Approximately 4,000 square-feet of laboratories may be approved for the Health Sciences Center in Lubbock. The project would convert existing space into eight research and teaching labs for an estimated cost of \$500,000.

The Regents will also consider awarding approximately \$6 million in contracts to build and renovate structures on the university campus. Proposed projects include a new Meats Laboratory, expansion of studios at KTXT-TV, relocation of the Biology Department greenhouse, and three renovations.

In other action, the Boards will consider raising student fees to cover rising costs and maintain services. Changes include:

-- A legislated tuition increase for medical students. In-state tuition is increased from \$2,400 to \$3,600 for the academic year. Non-resident tuition is increased from \$9,600 to \$14,400.

-- A legislated tuition increase for in-state law students of \$12 per credit hour. The new fee will be \$60 per credit hour.

-more-

-- An increase of 55 cents per credit hour in student services fees, which support several student activities. Students would pay a maximum increase of \$7.50 per semester, depending upon the number of hours enrolled.

-- A sliding fee for laboratory courses of up to \$8, depending upon the type of course, replacing the current fees of \$2 and \$4.

-- An increase in campus residence hall fees of less than one percent.

The Regents will hold committee meetings on Thursday (May 14) in room 2B152 of the Health Sciences Center, starting at 9:30 a.m. They will meet as a board on Friday (May 15) starting at 8:30 a.m. in the Board Suite on the second floor of the Administration Building.

The meeting will be the last for Regent Jean Kahle of Fort Worth, who has served since January 1986. It will be the first meeting for James Gulley of Tyler if his nomination is approved by the state senate this week.

LUBBOCK--Texas folk art will be highlighted in "Handmade and Heartfelt: Contemporary Folk Art in Texas" which opens May 24 at The Museum of Texas Tech University.

More than 50 artists from across Texas and many kinds of artistic mediums are represented in the exhibit which will be at The Museum through July 19. The exhibit was prepared by Laguna Gloria Art Museum in Austin and Texas Folklife Resources for TexArt/150, a coalition of Texas art museums which created special exhibits and programs in honor of the 1986 Texas Sesquicentennial.

Texas Folklife Resources is a non-profit organization for the preservation and presentation of Texas folk art. Its founder, Patricia Jasper, and associate director, Kay Turner, covered more than 20,000 miles in their year-long expedition to find Texas folk artists. The survey identified and documented more than 150 folk artists.

A reception for the artists and the public will be from 2-4 p.m. May 30 at The Museum. Jasper will talk about folk art and the exhibit at 7 p.m. May 28 at The Museum. Both events are free.

Jasper and Turner, in an exhibit brochure, wrote, "The folk artist works within a vocabulary of styles and symbols that are familiar and acceptable to his or her group. These conventions are not blindly accepted shackles on the creative process, but long-established patterns of communication. As such, folk artists must be understood as important designers of meaning within their communities."

Works by artists from this area include horses welded from horseshoes by Wilson Vaught of Littlefield, embroidery by Rachel Collazo of Post and chairs made from willow by General Ponder of Lubbock.

Dumas: Junior elementary education major Ralna Merriott, daughter of Nina Merriott, Etter Route, Willard M. Kirkpatrick Family Scholarship, \$600.

MEDICAL TIPSHEET

from

TEXAS TECH UNIVERSITY HEALTH SCIENCES CENTER

May 15, 1987

GARDENING DANGERS--Yardwork can be hazardous to your health. The reason is the pesticides homeowners often use around the house. By not following label instructions and simple safety precautions, homeowners can harm themselves and their families. Because of these dangers, the National Pesticide Telecommunication Network (NPTN) is housed at TTUHSC to provide information and referrals on pesticide issues. Funded by the Environmental Protection Agency, NPTN last year handled 18,327 inquiries nationally over its toll-free number 1-800-858-PEST. NPTN operates 24 hours a day, 365 days a year, with summer being its busiest season, averaging more than 100 calls a day. For information on NPTN and trends in pesticide use and abuse, contact Principal Investigator Director F.R. Jonas, M.D., at (806) 743-3091.

IT'S A PAIN--For most of us, pain is an infrequent body signal, but for some it is an excruciating fact of daily life. These are the patients the Pain Center at TTUHSC is designed to help. Chronic pain can have both physical and psychological components, making its diagnosis elusive and its cure uncertain. In fact, some chronic pains have no known lasting cures. However, pain specialists can help patients modify their behavior to decrease the pain. For more on the common types of pain, what patients can do to cope with it and how the medical profession is trying to get pain under control, contact TTUHSC Pain Center Director Carmine U. Iacono, Ph.D., at (806) 743-2982.

COUNTRY MEDICINE--There simply aren't enough rural health practitioners to go around and the reasons may not be so much with them as with their spouses and families. Health Professionals tend to marry other professionals and career opportunities are not always available for their spouses in smaller communities. Further, rural school systems may lack many of the cultural opportunities found in urban areas, creating worries for the health practitioner and spouse about their children's education. Factors such as these are identified in community health assessments like those conducted by Assistant TTUHSC Nursing Dean Nancy Ridenhour to help rural communities not only attract, but also keep health professionals. For details, contact Ridenhour, R.N., Ph.D., at (806) 743-2731.

For assistance in covering these or other stories, contact TTUHSC news manager Preston Lewis at (806) 743-2143. Photographs and video footage can be arranged upon request.

LUBBOCK--Maria Rojo Garcia, a Texas Tech University master's degree candidate majoring in English, has been named a 1987 recipient of a \$1,000 award from the National Hispanic Scholarship Fund (NHSF).

Garcia, the daughter of Mr. and Mrs. R.G. Rojo of 341 Ocotillo, Ajo, Ariz., is a 1983 cum laude graduate of Texas Tech with a bachelor's degree in English with an emphasis in writing and editing.

The National Hispanic Scholarship Fund is organized to recognize Hispanic-American college students. The national scholarships are awarded competitively on the basis of academic achievement, personal strengths, leadership and financial need.

Garcia received the same NHSF award in 1982 and 1983. She is a 1970 graduate of Ajo High School. She expects to finish her master's degree work at Texas Tech by December.

28-5-15-87

LUBBOCK--Dr. J. William Langston, a pioneer in research helping link neurotoxins with Parkinson's Disease, will deliver the keynote address during a symposium for health professionals and Parkinson families June 25-27 in Ruidoso, N.M.

Langston will be among 16 speakers addressing not only medical factors related to the chronic neurological disease, but also social and family issues that arise. Langston, director of Parkinson Research and Clinical Programs at the Santa Clara Valley Medical Center in San Jose, Calif., will speak at 9 a.m. June 26. Theme for the symposium is "Parkinson's Disease: Looking to the Future."

Symposium registration, which includes three meals, will cost \$75 for patients and family members and \$85 for physicians and healthcare professionals. The conference will be conducted at the Inn of the Mountain Gods, which along with other area hotels will offer special rates to participants.

Speakers will also include Dr. Abraham Lieberman, chairman of the Medical Advisory Board of the American Parkinson Disease Association (APDA), on advances in transplant surgery and Dr. J. Thomas Hutton, professor of neurology in the Texas Tech University Health Sciences Center (TTUHSC) School of Medicine, on new studies on controlled release Sinemet, a drug used by 75 percent of Parkinson patients.

Conference sponsors are APDA and TTUHSC.

Continuing education credit will be offered for nurses and physicians attending the three-day program. For additional information, contact Susan Imke at the Parkinson Disease Information and Referral Center, Department of Neurology, TTUHSC, Lubbock, Texas 79430, (806) 743-2647.

29-5-15-87

LUBBOCK--A Dumas resident attending the Texas Tech University, School of Law, received three honorary awards during the school's Awards Day ceremonies.

Joe L. Lovell received the Donald M. Hunt Outstanding Barrister Award for outstanding membership on a moot court or mock trial competition team; J. Hadley Edgars Trial Excellence Award for mock trial competitors whose contribution best exemplifies dedication and trial skills; and the Order of Barristers, for students having exhibited excellence and attained high honors through courtroom advocacy.

Lovell, a third-year law student, is the son of Mr. and Mrs. James R. Lovell, 822 Normandy.

LUBBOCK -- The Texas Tech University chapter of Alpha Lambda Delta, National Scholastic Honor Society for freshman students, initiated 159 new members this academic year.

The society recognizes superior academic performance by college and university freshman students who must have obtained a 3.50 or higher grade-point-average to qualify for membership.

Students initiated are from:

Bellaire: Renee Ritchie, marketing major, daughter of Mr. and Mrs. Robin P. Ritchie, 537 Cascade; Ellen Nolen, mass communications major, daughter of Mr. and Mrs. Ken Reid, 4507 Pine;

Cleveland: Amanda Jo Plank, horticulture major, daughter of Mr. and Mrs. Pete Plank, Route 4;

Houston: Laura Christine Staffa, speech communication major, daughter of Charles and Darlene Staff, 3127 Tangle; Danielle Finney, elementary education major, daughter of Mr. and Mrs. J.C. Finney, 13507 Butterfly; Dorothea E. Tarasi, advertising major; Darren McCollum, finance major, daughter of Michael McCollum and Diana Layne, 601 Cypress Station; Susanne Lea Haswell; electrical engineering major, daughter of Dan and Shirley Haswell, 2715 Meadowgrass Lane;

Katy: Brenda L. Binkowski, music education major, daughter of Mr. and Mrs. Robert S. Binkowski, 22711 Goldstone;

Kingwood: Christine Farina, music education major, daughter of John and Kathleen Farina, 3214 Spring Gardens; Sharlene Fleener, undeclared major, daughter of Mr. and Mrs. Richard Fleener, 3210 Redwood Lodge Drive;

Orange: Karen Kennedy, chemical engineering major, daughter of Jim and Elaine Kennedy, 2230 Chasse Bend;

Portland: Renee Ramspeck, international trade major, daughter of Gene and Karin Sloan, 1702 Crosby;

Rockport: Carrie Lynn McHale, psychology major, daughter of Car'a McHale, 436 N. Burton;

Spring: Valarie Koop, marketing major, daughter of Fred Koop, 17122 Camberwell Green Lane, and Barbara Ziegler; Melissa Harper, photocommunications major, daughter of Julian and Sandy Harper, 6402 Saffeeon Hills Drive;

Texas City: Stacie D. Schaper, interior design major, daughter of Mr. and Mrs. Carl D. Shaper, 1505 Ave. N.

TORNADO PROOFING--Wind-proofing products and building techniques are available to make homes better able to withstand tornadic winds. But Texas Tech University civil engineering Professor Ernst Kiesling says use of these developments is stunted by lack of education and incentives, such as lower insurance rates. For the latest on tornado-proofing technology and why it's not in common practice, call Dr. Kiesling at 742-3523.

HART-RICE FALLOUT--Much has been reported about the Gary Hart-Donna Rice episode and its impact on Hart's political career. But Texas Tech political science Professor Sue Rinehart says the incident is likely to raise questions about relations between the sexes. The story cast Hart into the stereotypical role of the older, powerful man involved with the young beauty. Dr. Rinehart says the incident may have received more media attention because Hart was considered a progressive, innovative candidate for President. For more, contact Dr. Rinehart at 742-2991 or 742-3121.

May 24-July 19--HOMEMADE--Texas folk art will be highlighted in "Handmade and Heartfelt: Contemporary Folk Art in Texas," which opens May 24 at The Museum of Texas Tech University. More than 50 artists from across Texas and many kinds of artistic mediums are represented in the exhibit. For more, contact The Museum, 742-2442.

For assistance with these and other story ideas, contact Dorothy Power/Don Vanlandingham, News & Publications, 742-2186.

Two professional business seminars and registration for summer swimming lessons will be held this week at Texas Tech University (TTU).

Adults and children who want to learn to swim can register for two-week classes offered during June and July at the TTU Aquatic Center. The American Red Cross certified classes are offered Monday through Friday in three sessions: June 8-19, June 22-July 3 and July 13-24. Classes for parents and their children and for 4- and 5-year-old swimmers will begin every 30 minutes from 9 to 11:30 a.m. Other classes last 45 minutes and are offered for beginners through advanced swimmers. Cost of the classes is \$15. Registration is 8 a.m. to 5:30 p.m. Thursday (May 21) and Friday (May 22) in the Student Recreation Center. For more information and late registration, phone the Aquatic Center, 742-3896 or 742-3897.

The TTU Center for Professional Development will present the 10th annual Southwest School of Governmental Finance Sunday through Thursday (May 17-21). For more information and to register, phone the College of Business Administration, 742-3170.

The School of Banking for employees of commercial banks will be presented by the TTU Center for Professional Development Sunday through Friday (May 17-22). For more information phone the College of Business Administration, 742-3170.
