day as my change of dress was not in
readiness, so I sat by my room window and
followed the entire service. Em Riker came
from Moshatas on Friday morning, but went
home last evening expecting to return tomorrow
morning when she will make me a dress
& wrapper. Aunt Riza Riker is with me
but she is not very trouble, and I think
she is improving in health. I was very
glad to have Alfred spend the night at
home, and his visit was a happy one to
me. He tells me Mary & Maria & yourself
are going to pick some Currants & Raspberries
for me to preserve. I shall be very glad
to have them, and much obliged for so
substantial a present, and such a
delicious result as I hope they will prove.

There are no letters waiting for your perusal. Lizzie Sands called
last Sunday after School to enquire for you. She did not
know you were away from home. She would like you to write
to her. The number is 1374 Broadway. I miss you very much
but am quite willing to spare you, if you are happy and enjoy-
ing your visit, and with such delightful surroundings there is
very much to enjoy. Give much love to Jennie I do hope she
is feeling better and stronger than when I saw her last.
Our Rock is quite deserted, and you scarce see a person on
the steps in the evening. Gertrude & Grace Gier are going
away very soon. I think the whole family go in August.
Thelia Sands has gone to Peekskill as a Summer teacher.
Living came up to see me Thursday and stood till
Saturday afternoon. Lou & he are going to Schenectady
next week. Jesse Beater is going with Mrs Simpson for a
short time but when I don't know. — Mr Moore calls quite
