

down this uncalled for rebellion?

Mr Rufel (Belleville) says a judgement
has gone against him in favor of Bank of
Arkland in a note favor of Creary which
he endorsed for me. What has gone with
the judgement vs Ryne which was to
have been applied to the Creary note?

I wrote to the Sheriff of Lewis Co.
but can get no reply. What has gone
with the Davis & Williams Case? Are
we to get nothing out of as plain a
case as that.

I assigned a note on Ward Tabb to
Mr Rufel one 29th Nov. as collateral
to secure him on the Creary note.

Will you please write me about
these matters. Do the best you can for
me & I will try to pay you soon. I save
my salary & am paying off my debts
as fast as I can. If my wife can,
secure my wheat at harvest it will
come near squaring all my honest
debts. In the mean time I would like
to have what is honestly due me.

Please write. Sincerely,

Paul Jones, 2nd Mo.

Dear Friend Ireland

After so long a silence
one hardly knows how or where to begin
A Correspondence, I have been intending
to write ever since we came here but
could not think of any thing that would
be likely to interest you,

There is not much probability of our
remaining long in Canada. Three or
four weeks more and our year in this
Province will be completed, and then
I think we shall be turning our eyes
toward Uncle Sam. Living in British
Territory does not tend in the least to
make us more British in feeling. Too
much old fogginess for me, that is, in
the City, in the Country there is not
near so much of this to complain of

but whether Canada or any where else
either the Country folks like me or I
like the Country folks— I have been
very busy during the winter months in
teaching vocal music, Sacred & Secular
and some first rate singing I have
heard in some of my classes. The folk
here however sing only in the winter
— The Summer, I suppose are too short
to admit of time for that purpose.

We feel very much like returning
to the States, would you not give me
your opinion as to the probability of
my finding employment of some kind
No doubt business affairs have been
considerably jumbled up during the ex-
periments consequent upon the war yet
it may be that you could judge as
to what is likely to be the chance of
teaching ~~strange~~ or common schools in

State of Kentucky. How does your
Law business succeed these times. I
sometimes wish I had taken the offer
you made me the day I left Greensburg.
If you could find me employment
in writing or traveling for you, please
let me know. At any rate I am open
to an engagement and I would prefer
the State of Ky to almost any other,
either in or out of the Union.

Mrs E. & I are both anxious to
hear from you as to the health & prosperity
of your family. How is Mrs Ireland's
health? She was not well when we
last heard of her. We cannot complain
in this respect ourselves, indeed we
think Canada a very healthy country.

Give our kind regards to Mrs
Ireland & the Children, also to all our

Friends in Greensburg; and please
Answer as soon as you can conveniently
as I want to make up my mind soon
in regard to moving.

Your Friend

Ar Sir

Yours of the 5th inst
came to hand this evening—The House by a vote
of 41 to 31 passed the bill suspending the courts until
Nov next—This Bill will fail in the Senate—The Senate
will adopt a substitute similar to Rankin's amendment
which will be adopted by the House—The act regulating
the holding of the Justice and Justices Courts passed
the Senate and has been approved by the Governor—
The courts will be held in June & December—Magoffin
has not appointed a judge in Bremer place, and I
am informed he will not—But I do not know whether
or this information is reliable or not—I have not
seen him to tell him your request—The Bill
authorizing the Millin loan passed the Senate
with Senner last a proviso struck out—The bill has
not been acted on in the House—I cannot say what
bank will furnish the money for the Ninth District
The House will agree to the Senate amendment

Mr held a caucus to night to agree on a day of adjournment. At one time I thought we must break up in a row. Wolf & Heady were opposed to adjourning until the Senate agreed to a relief Bill. In fact they threatened the Senate that they must not adjourn until something was done. Several speeches were made, and finally all got in a good humor and adjourned to meet Monday night. I think we will now get along without any difficulty. The Senate will send us a measure that will satisfy all. We must prevent the formation of two new parties - relief and anti-relief. I think this will be prevented. There is a better feeling existing among the Union members. I have been fearful all the time that our party must split on the relief question. When the motion to adjourn was made James Martin (Spunknose James) arose from his seat, with a very knowing and mischievous look, ~~and~~ moved to lay the motion on the table. The Chair amidst peals of laughter decided that James' motion was not in order. James very deliberately sat down. James is the author of the Bill resolutions.

The Gov has not returned the expatriation

Rice - It is thought that he will enter the bill -
I think we will go forward about the 12th inst to
meet either in June or January - It is generally
believed in the latter month -

You say that you will write again touching
the matter about which I feel a great interest -
I hope your conclusions upon that subject will
be favorable to my claims, but I assure you that
whatever may be your conclusions, I shall be
satisfied - I need say further so far as I am
concerned, that I do not intend that this matter
shall in the least interfere with our social
relations, which have hitherto been so agreeable
and kind - If we have to submit our claims
to a Convention, let us do so as friends, and I
do assure you that I shall be satisfied
with the result - I hope it will not be neces-
sary - I feel very ~~anxious~~ anxious to get the
position as I informed you here but have no
right to insist on your giving up your claims -
I write at a very late hour of the night - Sleepy and
tired - Excuse bad writing - Must put this in
the office to night - I am most
Respectfully
Yours Geo. M. Thomas

(Confidential)

My Dear Sir

Since I saw you this morning I have had a long talk with H. C. Halbert. I was anxious to have a long conversation with you. What I now write I hope will be confidential. If not acted on, then I do not wish it known if acted on and successful, it is not necessary to be known. I was at Carlisle on last Monday and made a speech. I got acquainted with a great many people. I tell you that there is great dissatisfaction in that county about Mr Andrews. While they like him and would vote for him for must any office, they do not think he will make a good judge. They held a meeting (being County Court day and large crowd present) and appointed delegates to the Maryland Convention, and instructed the Delegates to vote for me for County's ates and Mr Andrews or some good union man for Judge. I then went into Martin. There the union men are for Hickman first, and for Ireland, Dublin, Porters & before Andrews. If your county will vote for you for Judge, I think I can demonstrate to you that you can be nominated. Andrews will get Ruwan. Fleming, Nicholas out of Hickman will get Martin. So is will vote for you or Hickman on the first ballot. When Hickman's friends find that he cannot be nominated they will vote for you. So is
