Goodrich Road Map of Texas

Touring Information

FREE to all MOTORISTS

State road map folders, similar to this, have been prepared, covering the entire country. These are given to car-owners, without charge. Accurate, legible, easily followed, they are of unusual value in routing weekend trips, or more extensive tours. Get them from Goodrich Branches—see back page—or your local dealer. Local touring information is also a part of our Branch Service. See them or communicate directly with

Keep The Business Wheel Turning

Good Roads

All commercial business of the City and the Farm consists of two fundamentals—PRODUCTION and DISTRIBUTION.

DISTRIBUTION is made by Railroad, Waterway and Highway. Over 90% of the tonnage of rail and water lines is transported over the highway in course of its distribution. Better Transport Service by Rail, Highway and Water is an urgent requirement now to stimulate Business for farm and city.

All Business of our country must be transported over 15,000 miles of inland waterways, 350,000 miles of railways and 2,000,000 of highways. Less than one-tenth of our highways are improved.

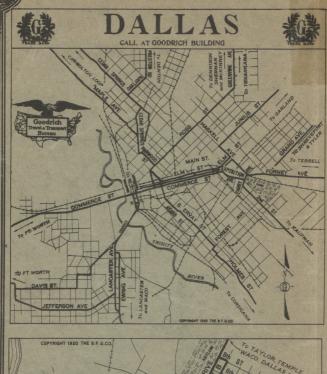

The highways, efficiently used, offer the only additional means of communication and transportation.

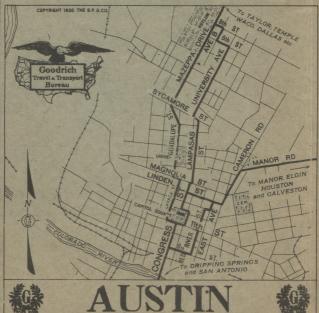

It is therefore imperative that highways be constructed and maintained in order that food and manufactured products may be conveyed economically from the source of production to the point of consumption. It is equally essential that when constructed and improved, that they be used to the maximum of their capacity.

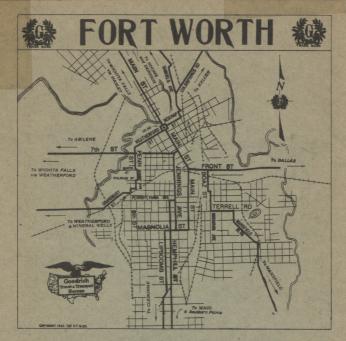

If our Distribution System of farm and city products is to be stimulated, it is absolutely necessary that the traffic on our Highways be not obstructed by poor roads, by lack of maintenance nor by snow or other causes.

A national system of highways will pay for itself ten times over by making accessible the tremendous waste of farm and city products that does not now reach the consumer.
