## TEXAS TECH UNIVERSITY

Texas Tech is a state-assisted, multipurpose university of approximately 29,000 students enrolled in ten colleges—Agricultural Sciences and Natural Resources, Architecture, Arts and Sciences, Business Administration, Education, Engineering, Honors, Human Sciences, Mass Communications, and Visual and Performing Arts. The Graduate School and the School of Law provide graduate and professional programs. The Texas Tech Health Sciences Center—a separate institution—shares the Lubbock campus with the University. The common-campus arrangement, with a law school, is unique among the state's higher education institutions.

As is necessary for an educational institution of its scope and purpose, Texas Tech operates in several locations. Beyond its 1,839-acre Lubbock campus—all in one tract—the University operates agricultural and biological facilities at Texas Tech University at Amarillo, various research activities at the East Campus Research Center, and the Institute of Environmental and Human Health at Reese Center. Other agricultural research and teaching facilities are in Lubbock County. The Texas Tech University Center at Junction, in the Texas Hill Country, is a 411-acre unit including teaching, conference, and lodging facilities. There are Texas Tech University recognized Higher Education Teaching Sites at Amarillo, at Abilene, at Fredericksburg and at Highland Lakes. Texas Tech University Health Sciences Center is a multi-campus institution with Lubbock as the administrative center and regional campuses at Amarillo, El Paso and Odessa.

Paul Whitfield Horn, the first president of Texas Tech, drew from the broad open plains of West Texas his vision for the institution. "Let us make the work of our college fit into the scope of our country," he said. "Let our thoughts be big thoughts and broad thoughts. Let our thinking be in world-wide terms."

Horn's challenge to Texas Tech, now embarked on its eighty-third year, continues as a viable force. His insight is most evident as we—faculty, staff, and students, alumni, supporters, and friends—strive to shape the University's programs and activities to meet the highest standards of excellence in teaching, research, and public service.

## ALMA MATER “MATADOR SONG”

Fight, Matadors, for Tech!  
Songs of love we'll sing to thee.  
Bear our banners far and wide,  
Ever to be our pride.  
Fearless champions ever be.  
Stand on heights of victory.  
Strive for honor evermore,  
Long live the Matadors.

**Deborah Butterfield  
Wind River, 2004 Bronze  
Grover Murray Residence Hall (west entrance)**

Deborah Butterfield's sculptures of horses, which have been her sustained focus for more than twenty (20) years, often depict a range of naturalistic attitudes, curves, and movements of the animal, but they are never simply narrative. Instead, the artist's famed horses are poised between literal representation and abstraction. Created from carefully selected branches, sticks, or metal objects, the artist's sculpture can resemble textured line drawings that have risen from the paper to assume a weighty, expressive, three-dimensional form.

In the history of sculpture, the horse is commonly depicted in a public monument in tribute to the warrior or hero. This heroic tradition may be observed on Texas Tech's campus in the bronze sculptures of Will Rogers and the Masked Rider. The Butterfield horse invites viewers to look at this animal—full of symbolic and cultural significance—in a new way.

Works of art that encourage the viewer to study an animal, an object, or an idea from a fresh perspective are appropriate within a university, for the paradigm shift one experiences in the academic environment is often a gateway to intellectual growth and personal discovery.

Deborah Butterfield is one of America's most renowned sculptors. Her work is held in more than 75 private and public art collections throughout the U.S.

## THE TEXAS TECH UNIVERSITY PRESIDENTIAL MACE

The Texas Tech University Presidential Mace is the symbolic staff of power and authority of the University. The mace is crowned by a flame symbolizing the Light of Knowledge. It is constructed of lathed and molded bronze that has been covered with a layer of 24K gold. The school crest is presented on either side directly under the flame. Hand-rubbed black walnut has been used for the connecting shafts.

The mace was designed by Robly A. Glover, an Associate Professor of Art at Texas Tech University. Mr. Glover's artwork is shown throughout the United States. His work has recently been included in the permanent collection of the Art Institute of Chicago, Chicago, Illinois.

### INTERNATIONAL FLAGS

From earliest times flags have served as symbols of ideals, aspirations and loyalties, representing in modern times the national states and invoking sentiments of pride and patriotism. Every flag has its own tale, with the symbols and the colors having meaning for each nation. Texas Tech University has students from every state of the United States and from more than 100 other countries. It is with pride that the University displays the colors of those countries who have representatives among our students.

# The Official Texas Tech Class Ring

## History

Since 1999, Texas Tech has had one universal symbol of academic achievement - **The Official Alumni Association Class Ring**. The official ring is a tradition that has been restored from the 1950s. This ring evokes special memories of the occasions and traditions of Texas Tech, such as the "Fight Song" sung at the stadium with the Masked Rider streaking along the sidelines, Raider Red giving fans the "Guns Up" and firing his shotguns, and the unforgettable images created during the Carol of Lights where the red, white and orange holiday lights cast their spell over the campus. The ring is a symbolic, continuous link with classmates, friends and generations of alumni.

The unique ring design is copyrighted to protect it from duplication. The ring is reserved exclusively for individuals who have successfully met the university's standards. Designed by a group of Texas Tech students, alumni and administrators, the ring will remain unchanged into the university's future. As a symbol of Texas Tech tradition, it is instantly recognizable — a tangible connection for those who are graduating, while the visual continuity will generate an exclusive link with graduates in years to come.

Each student is presented their ring by the university president during the Official Ring Ceremonies. Each semester, there are three ceremonies, which are held at the Merket Alumni Center.

Those able to wear the ring proudly state to others, "I am a person of honor, a Texas Tech graduate — a Red Raider for Life!" For the graduates and their peers, it holds a whole world of meaning.

## Ring Components

Each ring symbolically captures the essence of Texas Tech with the prominent **Double T** standing proud, surrounded by the university's full name and date of foundation. On one shoulder of the ring, you will find the **Administration Building**, with the bells that represent victory. On the other shoulder is the **university seal**, which features the American eagle, perched above a book, a star, a key, and a lamp. These elements are separated by a cross, featuring 10 cotton bolls, representing Lubbock and its surrounding nine cotton-producing counties. Of course, the ring would not be complete without the appearance of the Masked Rider.

Inside each official ring is forged with **STRIVE FOR HONOR**. This inscription is from "The Matador Song" and serves as a charge to every Texas Tech graduate to excel with integrity in all endeavors. The inside of the ring can be personalized by engraving whatever the recipient wishes.

The ring is custom-made in a choice of 10, 14 or 18-karat solid yellow or white gold. The ring is available with, or without, diamonds or cubic zirconias. Balfour, the ring supplier, provides an interest-free monthly installment plan.

You must be satisfied with the Official Class Ring upon receipt, or it may be returned for a full refund or exchange. The lifetime warranty provides for free resizing and refinishing as needed.

## Ring Ceremony

The Official Texas Tech Class Rings are personally presented to each recipient by the president of Texas Tech in a Ring Ceremony at the Merket Alumni Center. All students and their families are invited to join the ring tradition by attending the ring ceremony.

Once all rings are presented, students are asked to put their rings on as a group and sing "The Matador Song." Traditionally, juniors and seniors wear their rings with the Double T facing them. However, on commencement day, the ring is turned as an indication of reaching graduate status.

The Texas Tech Alumni Association and the Student Alumni Association Board of Directors host the Ring Ceremonies, which take place every fall and spring semester.

For more information or questions about the ring, contact the Texas Tech Alumni Association at [www.TexasTechRing.org](http://www.TexasTechRing.org) or 806.742.3641.

## ACADEMIC DRESS AND PROCESSION

The wearing of academic dress at commencement dates from the early history of the oldest universities somewhere in the twelfth or thirteenth century. Since educated people were almost always of the clergy, the black gown is somewhat of adaptation of the cope, a mantle of silk or other cloth worn by church dignitaries in processions and on other occasions. The long gown and cowl (similar to the academic hood of today) were worn by priests and monks for warmth in the cold medieval buildings.

In the early centuries, a great diversity of color and style of cap, gown, and hood appeared in different universities of Europe. The European custom of wearing academic dress was later introduced at American colleges. Not until after 1895 was a uniform academic code of dress adopted by most colleges and universities in the United States. Today, the black robe, hood, and cap are worn at most institutions of higher learning.

The gown is cut differently for the bachelor's, master's, and doctor's degrees. Usually the bachelor's robe has long pointed sleeves; the master's has closed sleeves, square at the end with a slit at the elbow; the doctor's is faced with velvet and has round open sleeves with three bars of velvet.

The doctor's hood has side panels and is slightly longer than the one worn for the master's degree. The color used in the velvet border of the hood indicates the field of study. The velvet border is widest on the doctor's hood. The colors of the lining of the hood indicate the college or university that conferred the degree. For example, those who have received advanced degrees from Texas Tech University wear hoods lined with red and black.

The Oxford—the so-called mortarboard—is black and has a long tassel fastened to the center. The tassel is usually worn pendant over the left front of the cap. Different colored tassels are often worn on the bachelor's and master's caps to indicate the type of degree. The tassel on the cap of the doctor's candidate, except for professional degrees, is either gold or black. The doctor's degree holders may also wear the velvet tam with a gold tassel as well.

Candidates for the undergraduate degree will wear the tassel on the right side of the cap at commencement. After the degrees have been conferred, baccalaureate degree recipients will turn the tassel to the left side of the cap, thus showing that they are now graduates. Those graduates who have the Official Texas Tech Alumni Association Class Ring are invited to turn their rings at this time.

All candidates who wear the red cord are honor students who possess a minimum 3.50 grade average and will graduate *Cum Laude*, *Magna Cum Laude*, or *Summa Cum Laude*. Texas Tech University has four university-wide honoraries: Golden Key, Mortar Board, Omicron Delta Kappa, and Phi Kappa Phi. Candidates wearing the red cords have earned the Latin designations of *cum laude*, *magna cum laude* or *summa cum laude* based on their cumulative grade point averages. Candidates wearing kite-shaped medallions are Honors College graduates earning a minimum of 24-hours of Honors coursework, with red ribbons indicating a notation of "With Honors" (non-thesis) and gold ribbons indicating a notation of "With Highest Honors" (thesis).
