LUBBOCK, Texas, September ---. In an effort to make Lubbock the musical center of West Texas, the Texas Technological Artist Course this year brings to the South Plains people artists that are seldom heard outside the metropolitan centers of the country.

Torreblanca's Tipica Orchestra of Mexico, to be given October 23, is the first concert of the course. It is unlike any other musical group in the world, for with its thirty-seven members under the direction of Juan N. Torreblanca it represents the ultimate in orchestra concert attraction. The soloists who will appear with the orchestra are Maria Romero, Jose de Arratia, and several other favorites of Mexico.

The second concert, an evening of opera, to be given November 6, will feature Marie Tiffany (the Tiffany of the Metropolitan Opera Company, New York City), Louise Bernhardt of the Boston Opera Company, Guiseppi Martino-Rossi of the Philadelphia Opera Company, and Enzo Aita, the sensational tenor from Rome.

On February 16 the Cherniavsky Trio will give the third concert. These brothers, who have played in almost every civilized country of the world, are now in South America giving concerts.

The Brahms Quartet of New York City, composed of four young women soloists, will be the concert offered on March 20. The programs for this quartet are arranged by Deems Taylor, who wrote "The King's Henchman".

Maurice Dumesnil, the famous French pianist, will give the fifth and last concert of the season.

Although one of the most expensive artist courses ever sponsored by any college in the state, there is no increase in the price of tickets and season tickets are available to students for one dollar.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, September _____. With twenty-seven departments in Texas Technological College offering 235 subjects by correspondence and extension work, one of the best years in the history of the college is seen for this department. During the 1929-30 term over sixteen hundred extension courses were given by the college and the requests for such courses this year far outnumber those at the corresponding time last year. Requests for extension classes in various courses have come from Amarillo, Plainview, Paducah, Sudan, Brownfield, Meadow, Ralls, Crosbyton, Lorenzo, Tahoka, Levelland, Abernathy, Lockney, and Lubbock. If these classes are sufficiently large, and a minimum of ten is required in each class, the courses will be given.

Application for membership in the National University Extension Association has been made by the college and in the very near future a representative of the association will visit the college to inspect the work of the department. If his report is favorable a mail vote of the forty-three member institutions will be taken.

LUBBOCK, Texas, September _____. "El Picador" is the name of the new magazine which is being published by students of Texas Technological College. The magazine, which is of a literary and humorous nature, is edited by H. Y. Price of Lubbock. J. W. Timmons of Amarillo, who was a former business manager of the college newspaper, is the business manager. A thousand copies of the first issue of "El Picador" will be on the news stands over the South Plains by October 5.

LUBBOCK, Texas, September _____. That Texas Technological College is becoming known in foreign countries is indicated by the number of inquiries coming to E. L. Dohoney, registrar, from those countries and by students enrolled from various countries. Miss Laura Nackune Song is the name of the little black haired co-ed from Chung San, Korea, who is enrolled as a sophomore in the school of home economics. She is a transfer from the University of Southern California where she spent the past two years, after coming directly from Korea.

Chung Wo Au, a native of Canton, China, but who for the past two years has been in Hawaii, is also enrolled in the college. He is majoring in Economics with the idea of going into diplomatic service. Both students plan to receive degrees from this college.

A. Melendez, who entered the college last year is continuing his work here. Melendez is from Guatamala.

An inquiry about the textile engineering school has been received by Mr. Dohoney from Dehra Dun, India. A similar inquiry has also come from Spain.

LUBBOCK, Texas, September ---. Popular courses in Astronomy will be offered in Texas Technological College next year, according to present plans of the mathematics department. Mr. L. V. Robinson, department representative of astronomy, who for the past two years has been studying in Harvard, will return to the college to teach the course.

LUBBOCK, Texas, September. _____. The sixth annual session of Texas Technological College has an initial enrollment of 1850 students. Of these 1216 are men and 634 are women. The percentage of men this year is considerably greater than for previous years, the increase in men students being due to larger enrollments in the schools of engineering and agriculture.

LUBBOCK, Texas, October ---. Texas Technological College agricultural department will enter a livestock judging team in three international stock shows this fall, according to an announcement made by R. C. Mowery, professor of animal husbandry.

The shows the team will attend are the Kansas National Livestock Show, Wichita, Kansas, the week of November 13; the American Royal Livestock Show which will be held in Kansas City, Missouri, the week of November 20, and the International Livestock Show, Chicago, week of November 29.

The members of the team are: T. W. Giddens, Snyder; T. J. Harris, Clifton; Bruce Parks, Clifton; Colonel Sparkman, Bonham; Hal Yoder, Snyder; and Jim Williams, Lubbock.

LUBBOCK, Texas. October ---. After a two years leave of absence, Dr. Elizabeth Stafford has returned to Texas Technological College to teach engineering mathematics. She received her Ph.D. degree last June from Brown University.

Dr. Stafford represented the mathematical department of Texas Technological College at the annual meeting of the Mathematical Association which was held at Brown University in September.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, October ----. Of special interest to students and teachers over the South Plains will be the presentation of "Hamlet" by the Ben Greet Players on November 21 in the Texas Technological College gymnasium.

This company of actors, direct from England, is headed by Sir Philip Greet, who for thirty years has been directing Shakespearean dramas. Although Sir Philip Ben Greet himself trains all the actors, he takes only a minor part in this drama and Russell Thorndike plays the title role.

Because of the length of the play the First Quarto Version will be given. Only two copies of this version are known to exist, one in the British Museum, and the other in the Henry Huntington Library in California.

LUBBOCK, Texas, October --- The first forensic contest of the year at Texas Technological College will be with a debating team from England. The team represents the National Union of Students of England.

Although the dates have not been arranged, the Tech team this year will debate Abilene Christian College, McMurry, Simmons, East Texas Teachers College, Baylor University, and West Texas Teachers College.

LUBBOCK, Texas, October ----. Three animals from Texas Technological College live-stock department, shown at the Panhandle South Plains Fair were named grand champions. Three animals were designated senior champions, and twenty-five won first place positions in their respective classes.

Besides these honors, Tech captured sixteen second places, one third place, five fourth, and five fifth places.

At the Amarillo Tri-State Fair the week prior to the Lubbock exposition, with entries in the dairy cattle division only, Tech won two grand champion places and four first places.

LUBBOCK, Texas, October ----. At a recent meeting of the Tech Rifle club challenges of the University of Cincinnati, the University of Wisconsin, and the University of Pittsburg were accepted for matches on the sub-caliber range. The date of the matches will be announced as soon as further details are worked out with these schools.

On the date specified for these rifle matches the team of each school fires on its own range, then forwards the certified scores to the Director of Civilian Marksmanship at Washington, who announces the winner.

The Tech Rifle Club will also take part in a quadruple tournament, which is to be held at Roswell, N.M., and in which the Texas School of Mines, the University of Colorado, and New Mexico Military Institute will be the other three participants.

LUBBOCK, Texas, October ----. The Girls Band of Texas Technological College is a new organization on the campus. It holds a unique position in band circles of Texas, there being only one other womans' band in the state. Plans are now being made by the band to enter the contest held in connection with the West Texas Chamber of Commerce Convention which meets in Lubbock next spring.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Oct. 22--. Interest from the \$25,000 gift from the Will C. Hogg estate will be used as a loan fund for students in Texas Technological College, according to President Paul W. Horn. It is not known when the fund will become available.

One of the five faces of "outstanding Texans" on plaques mounted on the front of the Tech administration building is that of Governor James A. Hogg, father of the late Will C. Hogg.

LUBBOCK, Texas, Oct. ----. President Paul W. Horn addressed the teachers of the Amarillo public schools recently on the subject, "The Effect of Teaching upon the Teacher".

LUBBOCK, Texas, Oct. ----. Dr. Thor J. Beck, head of the French and German department in Texas Technological College, has been invited to speak at the annual meeting of the Modern Language Association of America in Washington, D. C., during the Christmas holidays. Dr. Beck's subject will be, "Northern Antiquities in the French Romantic Movement".

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Oct. ----. The Tech Matadors take on the Texas School of Mines, October 17, on the Tech field and every indication shows that this will be a game worth watching. Considerable interest is brought forth in that this game will be a coach versus his old player, Mack Saxon, former all T.I.A.A. full, is head coach at the Mines and was under Cawthon at Terrill Prep School and also at Austin College, before going to Texas University, where he made All-Southwestern full. He has long been noted for his brainy work on the field as a player, and now has entered the coaching field with the same success. Cawthon rates Saxon one of the greatest and smartest players ever to play under him. Too, the Texas Tech assistants were fellow players with Saxon at Austin College, as Golightly, Smith, and Morgan were hustling with Saxon to win the T.I.A.A. championship in 1923. Therefore, this Tech-Miners game should be a thriller.

The following week, October 25, will witness the Horned Frogs of T.C.U. taking Cawthon's men in the new stadium at Fort Worth. Last fall the Frogs defeated the Matadors 22-0 in Lubbock and every indication points to a much better game this fall. The Lubbock men are very anxious to show that part of the state that they can show more this fall.

The athletic situation this fall is much better at Texas Tech in that the spirit has improved with the players. With only very mediocre players, some from intra-mural, some without high school experience, and a few letter men, Cawthon is whipping together a team that stands out as a real fighting aggregation. He has a big problem in building the very poor material, the worst in Tech's history, to meet that of other outstanding teams. Tech's team this year is doing one thing --- and that is fighting. Win or lose, if Cawthon can keep his men doing that the first year will have been a success, considering the very poor material. With a good freshman team hopes are brighter for a better team in 1931.

By Cecil Horne

LUBBOCK, Texas, Oct. ---. From the wind-swept regions of West Texas a group of fighting Matadors will invade Fort Worth on Saturday, October 25, to battle the Horned Frogs. With the poorest rated material ever to represent Texas Tech, Head Coach Pete Cawthon has a real problem confronting him in meeting the champions of the Southwestern Conference.

Among those who journey to T. C. U. will be only nine letter men out of last year's team which won one game. The team, however, has possibilities and may be depended upon to fight until the final whistle blows. Cawthon and his staff, Morgan, Smith, and Golightly, are teaching the squad what it means to "rock 'em" and "sock 'em." The team averages only 160 pounds.

With the group composed of a few old men and members of intramural teams, on the whole inexperienced, Cawthon and his assistants have managed to develop a team that has defeated tough aggregations from New Mexico A. and M. and McMurry College, but lost the first game of the season to the husky Wayland eleven.

The starting line-up with T. C. U. has not been decided upon definitely, but it will probably include Teal and Howard at ends, Simmons and McWilliams at tackles, Darr and Ross at guards, Captain Durham at center, with Wooldridge, Doose, Franz, and Brothers in the backfield. Both ends are youngsters off the freshman and intramural teams. McWilliams and Simmons were squad men last year who lettered, as were also Darr and Ross. Captain Jack Durham is playing his second year at center. Wooldridge and Brothers are both letter men while Franz and Doose are recruits from last fall's freshman squad.

Tech football - page 2.

Two other letter men, Tadlock and Vinzant at ends, will make the trip, but Vinzant is out on account of injuries. Big Murphy from the squad last year is another tackle likely to see service. Jones and Ayres from the 1929 squad will go as reserves for the guard positions. Other backfield men include Hodges and Waller, letter men, and Moffitt, Williams, Yeager, and McAdams.

None too optimistic, Coach Cawthon is going to Fort Worth to be at T. C. U. And if it isn't done those who see the game will witness plenty of hustle and fight. Always a scrapper himself, Cawthon from his berth on the bench can't tolerate a man on his team who isn't in there fighting, and so it is predicted that the Matadors of Tech's rejuvenated team will give the Horned Frogs a run for their money. In the past Cawthon has played T. C. U. three times while he was coach of the Austin College Kangaroos, winning two of the three contests.

A Tech special train will be run over the Fort Worth & Denver, leaving Lubbock Friday night and arriving in Fort Worth at eight o'clock Saturday morning. A round trip rate of \$6.50 has been made. From 800 to 1,000 students and fans are expected to make the trip.

From Texas Technological College Free News Service ---- Cecil Horne

LUBBOCK, Texas, Oct. ----. Miss Jo Wilder, new secretary of the Texas Technological College Young Woman's Christian Association, has arrived and taken up her duties. Miss Wilder received her B. A. degree from Iowa State Teachers College, and she did graduate work in Woodbrook College, Birmingham, England, and in the University of Edinburgh, Edinburgh, Scotland.

Miss Wilder has had quite a bit of work along this line, having taught four years in the Iowa high schools and she was Y.W.C.A. secretary at Iowa State Teachers College one year.

LUBBOCK, Texas, Oct. ----. Hugh Edward Killin, professor of military science and tactics in Texas Technological College, has recently been commissioned as a captain. After completing the company officers course in the infantry school, Fort Benning, Georgia, in 1927, Killin, who was then a first lieutenant, was given a certificate of capacity for captain of infantry. His four years as a lieutenant was up recently and his commission as a captain was then effective.

Captain Killin has been in charge of military science in Tech college since its opening, and this work is recognized in R. O. T. C. standing.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Oct.---. "Alkali Trails" is the title of a new book by Dr. W. C. Holden, professor of history in Texas Technological College. The book deals with the social and economic movements of the Texas frontier from 1846 to 1900, the frontier life period in Texas.

Dr. Holden speaks authoritatively and with interest regarding early explorations, the buffalo hide and bone industry, the cattle kingdom, the advent of settlers, the coming of the railroad, agriculture, droughts, and the mineral craze. He also writes entertainingly of amusements, frontier journalism, the origin and growth of sectionalism, and the movement for the division of the State.

The work is based on original sources, including files of frontier newspapers, personal correspondence, diaries, ranch records, records of the War Department, records of the Adjutant General's office, the Governor's papers, and various archive materials. The book contains over thirty maps and charts.

LUBBOCK, Texas, Oct.---. New books received recently at the Texas Technological College library include late publications on religion, child study, electricity, radio, moving pictures, accounting, salesmanship, building, textiles, and agriculture.

LUBBOCK, Texas, Oct. 22.--Figured from the usual signs, the only bright thing in the football outlook at present at Texas Technological College is the scarlet jersey of the uniforms. Clouds have hung low and menacingly over the South Plains the last two weeks, but the gloom on the usually sunny Llano Estacado is not to be compared to the melancholy of the Matadors. They have been told that the purple wave of Coach Francis Schmidt will engulf them with just a class C ripple, while the big breakers like Leland and his kind won't have to undulate at all.

Now Tech has always played her best game against T. C. U. in Fort Worth, and it is not likely that the big new stadium will be disgraced by just a puny serap this coming Saturday. Tech's team is light but some members of it are fleet. They are on the whole inexperienced, but they have played four hard games this season and acquitted themselves in each with credit. And the hard working Pete Cawthon and his staff, Smith, Morgan, and Golightly, have taught them some football and have trained them until every man is in top physical condition.

A bright ray through the lowering clouds today was the arrival of flashy new uniforms, the uniform of a matador in the arena, with which to clothe the forty-two members of the band which will make the trip on the special train. This colorful aggregation will descend upon Fort Worth with much enthusiasm and music.

The trip to Fort Worth is always an event with both students and faculty members of Texas Technological College. President Paul W. Horn bought the first ticket, and about one thousand others are expected to follow his example.

LUBBOCK, Texas, Nov.----. The Matador band of Texas Technological College recently made its first appearance in its new uniforms. The suits, of black serge trimmed in gold braid, carry out the bull-fighter idea from the red satin inserts in the legs to the black flat-topped Spanish hat.

LUBBOCK, Texas, Nov.----. Extending an opportunity to the people of this section of the state to hear players of note, the artist course committee of Texas Technological College announces the presentation of "Hamlet" by Sir Philip Ben Greet and his company of English players, on November 21 at the college gymnasium.

Sir Philip Ben Greet, an authority on English drama and for many years a producer of Shakespearean plays, takes a part in every play, but the title role in "Hamlet" is played by Russell Thorndike.

Although this is not a regular artist course number, students having artist course tickets may see the play at a special price.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Nov.---. According to plans made by the board of directors at a recent meeting in Fort Worth, Texas Technological College is to have a new \$20,000 power house on the campus. The contract will be let in the near future.

LUBBOCK, Texas, Nov.---. Upholding the affirmative side of the question, "Resolved: That the principle of democracy has been tried and found wanting", a team from England will meet the debaters of Texas Technological College next month.

The English team is composed of representatives from the National Union of Students of England with one student from the University of Liverpool, and another from Saint John's College of Oxford University.

LUBBOCK, Texas, Nov.---. Plans for the annual engineer's dance at Texas Technological College were made at a recent meeting of the Engineering Society. The dance will be given the latter part of next month.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Nov.---. Through the work of the Texas Technological College teacher-placement bureau, about four hundred students of the college have been able to secure positions in public schools over the state, according to Dr. A. W. Evans, head of the education department.

Although the bureau is able to place only about half of those that apply, more have been helped through the bureau this year than at any time previously.

The department was unable to fill all the places for vocational teachers, teachers of special subjects, and there were four times as many calls for athletic coaches as the department could fill.

Most of the calls for teachers come from Texas and from central and eastern New Mexico.

LUBBOCK, Texas, Nov.--- Thanksgiving holidays at Texas Technological College will consist of three days, Thursday, Friday, and Saturday, Nov. 27, 28, and 29. President P. W. Horn and Dr. A. W. Evans, head of the department of education, will take advantage of the holiday period to attend the meeting of the State Teachers Association at Houston. Reduced railroad fares have been announced, and it is expected that other members of the Tech faculty will attend.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Nov.---. The stock judging team that will represent Texas Technological College during 1930-31 will compete in four expositions, this fall at Wichita, Kansas City, and Chicago, and in the spring at Fort Worth. The group consists of eight members, as follows: Jim Williams, Lubbock; Hal C. Yoder, Snyder; Bruce Parks, Clifton; Colonel Sparkman, Bonham; T. J. Harris, Clifton; T. W. Giddens, Snyder; Percy Powers, Spearman. Prof. Ray C. Mowery is coach.

Tech teams have competed for the last four years at the Fat Stock Show in Fort Worth, winning second place in 1927, first place in 1928, third place in 1929, and second place in 1930. A Tech team has competed twice in the Kansas National Livestock Show at Wichita, and at the American Royal in Kansas City in 1928. In 1928 the Tech boys received eighth place in a field of twenty-five teams at the International Livestock Exposition in Chicago.

The Rambouillet trophy, offered for the first time in 1930 at the Fort Worth show, was brought home by the Tech team. Prof. W. L. Stangel is the head of the department of animal husbandry at Texas Technological College.

LUBBOCK, Texas, Nov.---. The extension department of Texas Technological College was placed on a par with other departments of the institution by the board of regents at its last meeting in Fort Worth. J. F. McDonald, director of the extension work in the college, was continued as head of the newly recognized department.

LUBBOCK, Texas, Nov.---. The text, "Introduction to the History of Civilization" being used in freshman history courses at Texas Technological College, is edited by Dr. J. C. Granbery, Dr. W. C. Holden, and Professor Bailey Carroll, of the Tech College history department.

By Eva Rob Watkins

Rich man, poor man, beggar man, thief,

Doctor, lawyer, merchant, chief.

LUBBOCK, Texas, Dec.----- All (in the last line) have one or more sons or daughters enrolled in Texas Technological College. According to the records, there are 41 doctors, 27 lawyers, 177 merchants, and five chiefs.

One of the many questions asked a student, when he is enrolling in the college, is the occupation of his father. Only eighty-seven students failed to answer this question.

Showing clearly the principal industry of this part of the state, 735 boys and girls in the college have come from farms and ranches, while 177 are children of merchants.

In the class ranking third, according to numbers, are listed 31 bankers, 37 carpenters, 47 contractors, 41 doctors, 21 druggists, 26 garage and service station men, 25 ginners, 35 insurance men, 27 lawyers, 33 ministers, 20 postal employes, 39 railroad men, 60 real estate men, 54 salesmen, and 47 teachers.

In the class between one and twenty there falls almost every known form of employment, while there are 18 parents who have retired. Some of those who are still working are architects, barbers, brokers, book-keepers, electrical engineers, post masters, newspapermen, undertakers, and icemen.

Thirty-eight occupations are listed only once and they range from financier to cook. Other interesting occupations in this class are airport manager, band director, boy scout executive, chemist, county agent, public weigher, optometrist, mineralogist, and X-Ray technician.

Many students give a rather vague idea of just what their father does to gain a livelihood, for there is quite a list made up of such occupations as manager, superintendent, foreman, executive, and others.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Dec. ---. Presaging united support for the coming year on the part of the students and faculty of Texas Technological College and the citizens of Lubbock for Pete W. Cawthon, head football coach, a silver loving cup was presented him just before the last game of the season. In the presentation it was stated that the cup was given in appreciation of the excellent showing made by the football team during Cawthon's first year at Tech. While the material this year was admittedly not up to the previous seasons, the whole squad worked hard, trained zealously, and gave a splendid account of themselves in every contest. With this kind of program continued it is felt that during the next season the scarlet and black machine will be hard to handle.

LUBBOCK, Texas, Dec. ---. Dean J. M. Gordon is attending a meeting of the Southern Association of Colleges and Secondary Schools at Atlanta, Georgia, as a representative of Texas Technological College. A discussion of the necessity of Tech's becoming a member of some athletic conference if membership is retained in the Southern educational body will probably be discussed at this meeting.

LUBBOCK, Texas, Dec. ---. Approval of the budget for Texas Technological College by the state board of control for the next biennium beginning September 1, 1931, includes an appropriation of \$250,000 for a new library building. For the two years the budget includes a total of \$1,359,900, \$556,750 for the first year, and \$803,150 for the second year, the latter sum including the appropriation for the library.

This budget will be presented to the 42nd legislature which convenes January 13, 1931. Before this sum is available it will have to be approved by both houses of the legislature and have the approval also of the governor. The budget as passed by the board of control represents approximately an increase of fifteen percent over the amount appropriated for the current two-year period.

The only new building included in the budget as it now stands is for the library. If this item is finally passed, although it is scheduled for the second year of the next biennium, President P. W. Horn expressed the hope that work might begin soon after September 1, 1931. The location of the new structure for the library will be immediately west of the administration building and south of the chemistry building. It will be in line with the general plan of Spanish architecture now on the campus.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Dec.----. A new well which has just been completed on Texas Technological college campus will more than double the present water supply, according to announcement of W. T. Gaston, business manager. The new well will pump 350 gallons per minute.

The original water supply, which has sufficed up to the present time, was planned for 1,000 people, the increased enrollment making the addition necessary.

Plans are also under way at the present for erection of additional barns and sheds for livestock at a cost of approximately \$7,000. Contract for work on an addition to the power house, authorization for which was made at a recent meeting of the board of regents at Fort Worth, will be let soon and work is expected to start by the first of the year. The addition will include one large boiler or two smaller ones, Mr. Gaston said, adding 450 horsepower to the present units. Cost will be about \$20,000.

Officials are also working on plans for solution of the traffic problem which has become acute on account of the large number of cars parked around the main building between classes.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Dec.--- . William R. Sewell and Wayne Castleberry have been chosen to represent Texas Technological College in the international forensic contest with an English team which will be here December 12.

The English debaters, representing the National Union of English Universities and composed of B. J. Crehan of the University of Liverpool, and B. Hope Elleston of St. John's College of Oxford University, will uphold the affirmative side of the question, "Resolved: that the principle of democracy has been tried and has been found wanting" while the Tech team will defend the negative.

Castleberry, a junior in the school of Liberal Arts, is from Eastland. Sewell, a senior in the same school, is from Slaton.

Other contests have been scheduled for the winter term for the boys' team with A. C. C., Simmons, W. T. S. T. C., McMurry, E. T. S. T. C., and possibly Baylor, and T. C. U. The girls' team has debates scheduled with Simmons and W. T. S. T. C. but they will not be held until the spring term.

LUBBOCK, Texas, Dec. ---. The senior livestock judging team of Texas Technological College placed twelfth among 23 teams of the United States and Canada in the stock judging contest held recently at the International Livestock show at Chicago.

Colonel Sparkman of Bonham led the college livestock judging quintet in individual honors and placed twenty-second in the field of 115 men.

Lubbock, Texas, Jan.---The twelfth annual Home-making and Education rally, sponsored by the State Department of Education, will be held in West Texas this year for the first time. Tentative plans for the meeting at Texas Technological College April 30 through May 2 have been started.

Lubbock, Texas, Jan.---Texas Tech's Matadors meet the Simmons Cowboys here Friday evening in an attempt to avenge the only defeat suffered on their recent invasion of Abilene. Simmons defeated Tech last Saturday 39 to 25.

Following the defeat by Simmons the scarlet squad of Coach Golightly flashed a brilliant offense to defeat McMurray 38 to 19 and A.C.G. 31 to 25. Captian Hodges, Tuscola, led the Matadors in scoring during the trip with a record of thirty-two points. Leon Fisher, Memphis, trailed Hodges with a total of twenty-four. Improved team-work and accuracy in shooting marked the play of the Matadors.

From Texas Technological College Free News Service--Cecil Horne.

Lubbock, Texas, Jan.---Nineteen varsity letters have been awarded members of the Texas Tech football team for services this past season.

Letters have been awarded to the following men: Bill Teal, Lubbock; Rip Vinzant, Lamesa; Harlan Howell, Brownfield; Bill McWilliams, San Benito; George Langford, Krankell; Henry Murphy, Hermleigh; E.C. Simmons, Santa Anna; Ross Ayers, Cuero; Jewell Darr, Melrose, N.M.; Curtis Allen, Lubbock; Jay Maltby, Desdemona; Jack Durham (Captain), Hamilton; Floyd Woolridge, Plainview; Lawrence France, Levelland; C.A. Doose, Ballinger; Milton Moffett, Stanton; Clarence Hodges, Tuscola; J.O. Brothers, Lubbock; and J.D. Waller, Pickton.

Freshmen Letters were awarded to the following thirty-three men: Aubry Butts, Waco; C.L. Duniven, Amarillo; Raymond Mitchell, Wichita Falls; Murray Nichols, DeLeon; Joe Powers, Lubbock; L.J. Sollis, Sherman; C.E. Potter, Cisco; Ray Shallenbarger, Logan, N.M.; T.B. Odam, San Angelo; Mark Welch, Lubbock; Ernest Dowell, Lubbock; Ben Anthony, Big Spring; Lester Tribble, Sherman; Ernest Nix, Greenville; Joe Leaverton, Lubbock; Logan Barksdale, Gainesville; Truett Owens, Sherman; Clarence Young, Ralls; Bennie McWilliams, San Benito; Yancey Price, Lubbock; George Cowan, Seymour; Ken Hart, Big Spring; J.C. Thomas, Holliday; Matt Hitchcock, Lexington; Jeff Davis, Glen Rose; Harold Cook, Sherman; Ealy Harris, Ralls; Burma Barley, Big Spring; Albert Greer, Comanche; Raymond Barton, Lubbock; Elva Baker, Abilene; and John Ross, Corsicana.

From Texas Technological College Free News Service--- Cecil Horne.

Lubbock, Texas, Jan.---Willet Kuhn, Weatherford, a freshman in the Engineering school, has replaced Earl Cain, Yoakum, as the champion rifle shot of Texas Tech. Kuhn scored a 183 out of a possible 200. Cain has held the championship for the past two years.

Lubbock, Texas, Jan.---Rifle meets have been scheduled by Texas Tech with teams from Leland Stanford and the University of Washington for February 28. During March the Matadors will compete with the University of Cincinnati, Brooklyn Polytechnic, Vermont University, and the University of Pittsburg.

Lubbock, Texas, Jan.--- Texas Technological College is sponsoring a series of lectures on aviation given by S.T. Shoff, Director of the local airport. These lectures, given without cost to students and townspeople, deal with the basic problems of aviation.

From Texas Technological College Free News Service--Cecil Horne.

Lubbock, Texas, Jan.---When the annual Farmers and Homemakers short course is held at Texas Technological College February 10, 11, and 12, the women will be entertained with a series of lectures and demonstrations by members of the faculty of the School of Home Economics.

Miss Margaret W. Weeks, dean of the school, will open the three days' program with a welcome address and a lecture on "Ideals for the Modern Home".

Miss Mabel Erwin, head of the clothing department, will give a demonstration and lecture on "Styles in Children's Clothing", and Mrs. Edna Buster, also of the department will give a demonstration on "Stain Removal".

Attention and discussion will also be given to foods. "Planning Meals for Health" will be the subject of an address by Miss Weeks. Miss Mamye Twyford will give a demonstration, "New Ways of Preparing Vegetables", and Miss Dorothy McFarlane will give a similar demonstration on "Yeast Breads and Beverages".

Other features of the program will be an illustrated talk, "Color in the Home to Make It More Livable" by Miss Jean Dorrel, head of the applied arts department; a lecture, "Training in Childhood for Right Habits" by Miss Johnnye McCrery; and a demonstration by Miss Johnnye Gilkerson, head of the physical education department, on "Exercise for Health".

The program will close with a reception at the Home Management house on the campus.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Jan. ---. Numerous interesting addresses will feature the program of the second annual meeting of the Plains Museum Society to be held at Texas Technological College February 8.

Professor R. A. Studhalter, president, will review the year's work. Dr. M. A. Stainbrook, curator of the museum, will speak. Dr. W. C. Holden, will cover considerable archaeological work which he has done during the year, and E. J. Lowery, of the Lubbock High School, will discuss interesting phases of the problem of the archaeologist in the Texas Panhandle.

Invitations to appear on the program have been sent to various Texas archaeologists. Among these invited are: Victor Smith of Sul Ross, Alpine; Dr. Cyrus N. Ray, president of the Texas Archaeological Society, Abilene; E. B. Sales, secretary of the Society, Amarillo; and Floyd B. Studer, Amarillo.

LUBBOCK, Texas, Jan. ---. A meeting of the board of regents of Texas Technological College will be held in Lubbock Jan. 27. Other than routine matters the principal business will be in connection with the appropriation program, according to President Paul W. Horn.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Jan. ---. Registration for the 1930-31 session at Texas Technological College has reached 2,218, breaking all enrollment records for the college for this time of the year. Included in this number are 235 new students for the winter term. A few more are expected to enroll during the next week.

Enrollment on the School of Agriculture is the largest in the history of the institution, 200 having registered for the winter term, according to Dean A. H. Leidigh. This is a fifteen percent increase over the figures for last year for the winter term. The Agricultural School started with a small initial attendance the first year but it has enjoyed a consistent growth each annual session.

LUBBOCK, Texas, Jan. ---. According to the new requirement of the Association of American Medical Colleges, all students who plan to enter a medical school this fall will be required to pass an aptitude test.

The test will be given for students of Texas Technological College on February 13 under the direction of Prof. R. A. Studhalter, head of the pre-medical work of the College.

This test, designed by the Association, is devised to show the correlation of the student to his success in medical work, according to Mr. Studhalter.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Jan. --. The extension department of Texas Technological College has been organizing classes for the winter term in Amarillo, Plainview, Levelland, Meadow, Brownfield, and Lorenzo.

A special course in economics for business men of Lubbock is being taught this term in the Chamber of Commerce rooms. Requests have been made for a similar course in public speaking. This class will be organized if a sufficient number of people indicate that they want it.

It is planned to organize one or more classes in adult education, probably in cooking and in interior decorating, in cooperation with the School of Home Economics. The courses are especially designed for home-makers and business women.

The educational director of the First Methodist church is planning two credit courses, in cooperation with the department of extension, in Religious Education. Similar courses are already being taught at three other churches in Lubbock.

LUBBOCK, Texas, Jan.--. Luncheons are being served by home economic students of Texas Technological College, on two days each week by the class in large quantity cooking. The luncheons are served in the tea room of the Home Economics building, under the direction of Miss Mayme Twyford, of the School of Home Economics.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Jan. --. With the beginning of the winter term, a number of new courses are being offered at Texas Technological College.

A special advanced course in journalism, College Journalism - Principles, Problems, and Practice, is offered this term to students on the staffs of the various publications on the campus.

The purpose of the study is to raise the standards of the paper and the year-book, and during the term lectures will be given by the faculty members and townspeople. The ethics of journalism and the problems confronting publications will be particularly emphasized.

Another special course is offered by the textile department and any student in the college may register for it. This course, which is non-technical, deals with design, weave, and color of fabric.

LUBBOCK, Texas, Jan. --. President P. W. Horn has just received a letter from Dean G. E. Bethel of the Medical School of the University of Texas at Galveston to the effect that of the eight medical students who passed the recent chemistry examination with honors four of them were students of Texas Technological College.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Jan. -- . Tech's basketball team looks good this early in the season, having won three out of four games. The two games with the Southwestern Teachers of Weatherford, Okla., were split, the visitors taking the first game, 40 to 20 and Tech winning a hard contest the second night 48 to 44. These games were played on the home court. Tech took two hotly contested games for the Texas School of Mines played in Lubbock by the very uncomfortable scores of 33 to 31 and 26 to 24.

Dunn of Tech stepped into the limelight by tossing the winning goal each game during the last few seconds of play. Captain Hodges has lead his team mates in the scoring, having made 50 of the 123 points scored in the four games played.

Coach Golightly is having a two-game go with the T. I. A. A. 1930 champions, the Canyon Buffaloes, in Lubbock January 14 and 15. Canyon split a two-game affair with Baylor and is reputed to have a strong aggregation, though possibly not so invincible as the five last year.

The Tech cagers will leave home for three games at Abilene, Simmons on Jan. 17, McMurry on the 19th, and A. C. C. on the 20th. Simmons will return the favor in Lubbock Jan. 23 and A. C. C. here the 29th and 30th. The Texas School of Mines will be on the South Plains for two games with Tech the first week in February and Sul Ross will be here Feb. 17 for one game.

Golightly will take his charges into the lair of the Buffaloes at Canyon for two games Feb. 18 and 19. A trip into New Mexico will bring a game on Feb. 23 with the School of Mines at Socorro and two games at Albuquerque with the University of New Mexico Feb. 24 and 25. The bouts with the School of Mines at El Paso Feb. 27 and 28 will wind up the season for Tech.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Jan. ---. Dates for the third annual Farmers and Home Makers Short Course to be held at Texas Technological College have been set for Feb. 10, 11, and 12. A joint program will be put on under the auspices of the School of Agriculture and the School of Home Economics. Sessions will be conducted at the College.

Prof. H. J. Bower, head of the agronomy department, will be in charge of the program for men, and Miss Margaret W. Weeks, dean of the School of Home Economics, will be in charge of the program for women. Last year the attendance reached 800.

Speakers for the men's program are as follows: N. N. Blainey, Chicago, educational director of the American Farm Bureau federation; Roy W. Snyder, Texas A. & M. College; W. T. Martindale, farmer, Bloomington, Ill.; Dr. L. D. Howell, Dallas, economist studying cotton markets in Texas and a member of the Bureau of Agriculture; William J. Spillman, U. S. Department of Agriculture; Dr. L. E. Call, Manhattan, Kan., dean of Kansas State Agricultural College; R. E. Dickson, superintendent of State Agricultural Station at Spur; R. V. Miller, secretary of the State Plant and Pure Seed board; Don L. Jones, superintendent of the State Experiment station at Lubbock; W. W. Evans, Lamesa, county agent and former agricultural agent of the M. K. & T. railroad; J. A. Burroughs, Lubbock, farmer and pure seed breeder.

Subjects of interest to women will be discussed by faculty members of the School of Home Economics, including Dean Margaret W. Weeks; Miss Mabel Erwin, clothing and textiles; Miss Jonnie McCrery, foods; Miss Mayme Twyford, foods; Mrs. Edna Walker Buster, clothing and textiles; Miss Dorothy McFarlane, foods; Miss Jean Dorrel, applied art. Miss Johnnye Gilkerson of the physical education department will lecture and give demonstration in exercises for health.

One of the features of the three-day meet will be the annual farmers' supper to be held the second evening, February 11. Women of the Lubbock county home demonstration clubs will serve a dinner composed entirely of Lubbock county products.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Jan. --. Regents of Texas Technological College re-elected Clifford B. Jones of Spur chairman and named Mrs. F. N. Drane of Corsicana vice-chairman in the semi-annual meeting held at the College. Mrs. Drane is the first woman to hold such a position in Texas.

Plans for a \$20,000 addition to the power plant were approved. In an effort to solve traffic congestion and eliminate noise made by automobiles a new parking plan was adopted which will close the street in front of the main building and require cars to be parked in the open area south of the main building.

The report of President P. W. Horn showed an enrollment to date this term of 2,228 students from 183 counties, showing, according to the report, that Texas Technological College is not a sectional but a statewide institution. More than two-thirds of the counties send students.

Definite approval was given to a plan for putting in a printing plant as soon as room is secured and other details worked out. Houston Harte of San Angelo is chairman of this committee. Funds to begin this plant will be provided by the student publications, and the plant will be used to print the college newspaper and as a laboratory for journalism students.

LUBBOCK, Texas, Jan. --. An order for a copy of "Alkali Trails", a volume recently off the press, by Dr. W. C. Holden, professor of history in Texas Technological College, has just been received from a party in Wall Street, New York City. The order came to the college bookstore, according to W. C. Cole, manager.

LUBBOCK, Texas, Jan.--. Mrs. Minnie Fisher Cunningham, former candidate for governor in Texas, will appear on the woman's program of the third annual Farmers and Homemakers Short Course to be held at Texas Technological College Feb. 10, 11, and 12.

The speaker is connected with the agricultural and home economics extension service of Texas A. & M. Her subject will be, "Relation of the Family to the State", and will be given at 11 o'clock, Feb. 10.

LUBBOCK, Texas, Jan. --. Eating fried chicken with the hands has the official approval of Dean Margaret W. Weeks, of the Home Economics School of Texas Technological College. She set the example at a luncheon served by Tech economics students at a luncheon given in honor of the board of regents at their recent meeting. The regents evidenced approval and efficiency in following her lead.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Jan. --. Program for the third annual Farmers and Homemakers Short Course to be held at Texas Technological College Feb. 10, 11, and 12 has been announced.

Marketing will be discussed the first day with the morning session featured by two addresses. L. D. Howell of the U. S. Department of Agriculture, Division of Cotton Marketing, will discuss, Regulating Production by Studying Agricultural Forecasts of the United States Department of Agriculture. N. M. Blainey of the American Farm Bureau Federation, Chicago, will talk on, The Farmer's Fundamental Problems.

B. S. Burgess of the Texas Cotton Cooperative Association of Dallas will speak in the afternoon on, The Status of Cotton Marketing in Texas. Dean L. E. Call of the Kansas State Agricultural College will speak on, The World's Outlook for the Wheat Farmer. John Manley, vice-president of the National Grain Association, will talk on, The Essentials Fundamental to Cooperative Marketing. Visitors will be shown through the textile department which will be in full operation.

Two addresses will feature the night session. The Value of Farm Demonstration in Rural Education, will be discussed by Sterling C. Evans of Texas A. & M. College. The Greatest Need of American Agriculture for 1931, will be discussed by W. T. Martindale of Chicago, Director of the American Farm Bureau Federation.

(more)

Tech short course— page two

Soil and crop improvement will be the subject of the second day's program, Feb. 11. Soil Fertility and Permanent Agriculture, will be discussed by Dean L. E. Call. Water Conservation and Utilization in West Texas, will be the subject of an address by R. E. Dickson, superintendent of the Texas Agricultural Experiment Station at Spur. E. E. Tanner, agricultural agent of Dickens County, will talk on, Methods and Progress in Terracing.

An Agricultural Policy, by W. T. Martindale, will start the afternoon program. Dean L. E. Call will discuss, The Services of the Kansas Crop Improvement Association to the Individual Farmer and the Agricultural Experiment Station. R. V. Miller, secretary of the State Plant and Seed Board, Austin, will explain the services rendered by this department. In the evening a banquet of Lubbock County products will be served in the Tech gymnasium.

Livestock subjects will be discussed the last day, Feb. 12. Prof. Ray C. Mowery of Texas Tech will start the discussion with a talk on, Management of the Farm Flock. Prof. K. M. Renner of Tech will speak on, Sour or Sweet Cream or Farm Butter. Dean Call will appear on the program again with an address on, Livestock Feeding Experiments. Prof. W. L. Stangel will speak on, Producing Butter Fat at Low Costs.

Livestock Outlook for 1931, by L. D. Howell of the U. S. Department of Agriculture, will start the afternoon program. Farm Hog Killing, Cutting and Curing Demonstration, will be given by Prof. F. G. Harbaugh.

LUBBOCK, Texas, Jan. --. Play in the Texas Tech intra-mural football race enters the championship round here Saturday with the undefeated Liberal Artsentry scheduled to battle the Engineers.

An Engineer victory will send three teams, Aggies, Artists, and Engineers, into a triple tie for the championship.

Dennis Vinzant, former Fort Worth athlete, had the satisfaction of coaching the first Aggie eleven to defeat an Engineer team in Texas Tech intra-mural play. Vinzant's team, thanks to the brilliant playing of Matt Hitchcock, Lexington, and David Banta, Lamesa, sent the Engineers to the showers humilitated by a 7 to 0 defeat.

The first place Liberal Artsquad, coached by Floyd Woolridge, Plainview, had little difficulty trampling down a plucky Military Science eleven 35 to 0. Woolridge's hard driving backfield led by Mina Watkins, Lubbock sensation, piled up a substantial lead in the first half to allow the second and third string players a chance to perform.

One hundred and twenty-five men are participating in the Tech intra-mural football program. Varsity and freshman squad men are ineligible for competition in these games.

January 15, 1931

Houston Chronicle,
Houston, Texas.

Gentlemen:

Enclosed is photo of Professor K. M. Renner, head of the department of dairy manufactures, Texas Technological College, who will address a joint session of the Texas Ice Cream Manufacturers association and the Texas Milk Dealers association which meet in Houston.

He will speak at 11 o'clock Monday morning, Dec. 19, at the Rice hotel.

Enclosed is the text of his address. I hope it may of some interest to you; it is sent to the Chronicle exclusively.

Cordially,

Cecil Horne,
Director of Publicity.

LUBBOCK, Texas, Jan. --. Athletic authorities at Texas Tech have announced a cut in the price of admission to home basketball games. General admission has been placed at fifty cents instead of ~~seventy-five~~. An additional twenty-five cents gives the customer a reserved seat.

LUBBOCK, Texas, Jan. --. Men students at Texas Tech have won their long fight for recognition. The college annual, LA VENTANA, edited by R. C. Marshall, Hillsboro, will sponsor an election Jan. 29 and 30. At that time the "man of the year" will be selected. A full page picture of the winner will appear in LA VENTANA.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Jan. ---. Play in the Texas Tech intramural football race this past week brought several potential varsity candidates to the front.

Mina Watkins, Lubbock, exhibited the same type of aggressive play that established his high school reputation. Watkins performed under the colors of the league leading Liberal Arts squad.

Clarence Turner, Claude, has been a tower of strength in the Liberal Arts line.

Earnest Nix, husky freshman from Greenville, appears to be the most likely candidate for the all-star team at center.

Greer Frizzell, Lubbock, and Matt Hitchcock, Lexington, loom as possible varsity material with the Aggie squad. Both are linemen.

Howard Bartley, Waco, backfield ace of the Engineers, showed ability at heaving passes.

LUBBOCK, Texas, Jan. ---. The recently organized branch of the American Society of Mechanical Engineers at Texas Tech has elected Bill Fry, Dallas, president. Bruce Moore, Tyler, was elected secretary.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Feb. --. Texas Tech will play two football games of inter-sectional importance next fall. On October 13 the Matadors will meet the Haskell Indians in Dallas. Ten days later the Colorado School of Mines will send a team here to battle Pete Cawthon's eleven.

The Tech schedule as announced by the athletic department follows:

Sept. 18	Canyon Teachers	here
Oct. 3	New Mexico A & M	State College, N. M.
Oct. 9	St. Mary's Uni.	here
Oct. 13	Haskell Indians	Dallas State Fair
Oct. 23	Colorado Miners	here
Oct. 29	Daniel Baker	Brownwood
Nov. 6	Abilene Christian	here
Nov. 11	Texas Miners	El Paso
Nov. 20	New Mexico Uni.	here
Nov. 26	Simmons	Abilene

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Feb.--, Dean L. E. Call, director of the Kansas State Experiment Station and dean of the Agricultural Division of Kansas State Agricultural College, will make several addresses during the three-day Short Course to be held at Texas Technological College Feb. 10, 11, and 12.

According to Dean A. H. Leidigh of the Tech School of Agriculture, the appearance of Dean Call on the program is a distinct compliment to the Short Course, and ought to be the cause of a record attendance.

Dean Call is one of the outstanding authorities on research in agronomy, crops and soils in the United States and officials of the Short Course feel highly fortunate in securing him as one of the principal speakers. He has been employed in his present work at the Kansas institution continuously since 1906. He is a former president of the American Society of Agronomy and is a man of national reputation.

LUBBOCK, Texas, Feb. --. Thrity-five of the two hundred men taking part in the Texas Tech intramural football program have been selected to participate in an "all-star" game here Saturday. Eleven of the "all-stars" will be invited to join the Matadors during the spring practice.

LUBBOCK, Texas, Feb. --. Texas Tech's Matadors swing into the final half of their basket-ball schedule here Monday evening when the McMurry Indians call for a two-game series. Tech recently defeated McMurry in Abilene.

Captain Clarence Hodges, Buffalo Gap, scored 20 of the 61 points registered by the Matadors last week in sending the A. C. C. Wildcats home on the losing end of a pair of games. Leon Fisher, Memphis, with a total of 18 points, gave the Tech leader a close race for scoring honors.

LUBBOCK, Texas, Feb. --. Freshmen at Texas Tech elected Matt Seymour, Waco, president, Charles O'Neill, Lubbock, vice-president, and Miss Temple Boone, Junction, secretary, to fill vacancies created by the failure of previously elected class officials to re-enroll in college.

LUBBOCK, Texas, Feb. --. Miss Catherine Jameson, Lubbock, has been elected Junior Prom Queen at Texas Tech according to the announcement of Bill Collins, Brownfield, class president. March 7 has been selected as the date of the Prom.

Miss Jameson was selected by Gary Cooper, screen star, as the most attractive co-ed in attendance here last year.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas. Feb. __. Annually enough gasoline is consumed here on the campus of Texas Tech to drive an automobile around the world ten times.

Statistics compiled by an engineering class at Texas Tech show that over 2,000 cars enter and leave the campus during a twenty-four hour period.

On the basis that each car consumes one-half pint of fuel while on the campus the daily total of gasoline burned would exceed 125 gallons. During the school year the total consumption would reach 25,000 gallons or sufficient gas to drive an average make car over 250,000 miles. This mileage is equivalent to ten times around the world.

Fillers--

A course in Chinese is offered at Texas Tech.

Roller-skating has become a popular pastime at Texas Tech.

Students from twenty-three states are enrolled in Texas Tech.

The Chisholm trail will be depicted in the art work of "La Ventana", year book of Texas Tech.

Students in the textile school of Texas Tech are making handkerchiefs in red and black, the college colors.

Nation-wide publicity has been given the "Fast day" for the jobless sponsored by Dr. J. C. Granbery of Texas Tech.

Pulchritude stands high in the minds of Texas Tech students. To date they have elected a Picador queen, Rodeo queen, Junior prom queen, Freshman queen, and several lesser queens.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Feb. __. Men here at Texas Tech are about to lose their prestige as marksmen.

Under the direction of Capt. H. E. Killin, head of the military department, the co-eds have formed a rifle club. Forty-five girls have joined this organization and are practicing in anticipation of competing against similar clubs from other colleges.

Instruction in scientific rifle shooting is given the girls on the indoor rifle gallery and the outdoor range. Triangling, sighting, and firing positions are being studied preliminary to actual firing. Four cadets, George Redinger, Hale Center; Willet Kuhn, Weatherford; L. W. Chapman, Lubbock; and R. R. Sprayberry, Lubbock, are coaching the girls.

Miss Josephine Cowser, Dimmitt, is president of the girls' rifle club and Virginia Hash, El Paso, secretary.

LUBBOCK, Texas, Feb. __. Figures compiled by the Texas Tech employment bureau show that the earning power of students recorded with that office averages \$36.55 monthly.

Men students average \$38.43 each month while the co-eds reach a monthly average of \$31.82.

Tentative figures indicate that Tech students will earn well over \$130,000.00 by the close of the regular school year. This figure, however, is somewhat lower than the earnings last year.

LUBBOCK, Texas, Feb. --. Coaches and officials of the Texas Tech intramural football league announced their "all-star" selection here today.

Men selected to receive the miniature football charms and an invitation to join the Matadors in their spring football drill follow: Hitchcock, Lexington, Smith, Childress, and Stubbs, Corpus Christi, ends; Turner, Claude, and Frizzell, Lubbock, tackles; Holley, Dumas, and Harris, Ralls, guards; Nix, Greenville, center; Potter, Crane City, and Williams, Lubbock, halfbacks; Smith, Colorado, fullback; and Watkins, Lubbock, quarterback.

In addition to the "all-star" team the following intramural stars have been invited to attend the varsity spring practice: Madden, Waxahachie; Tate, Colorado; Love, Lubbock; Davis, Lubbock; Locke, Altus, Okla.; Gray, Tyler; Rodgers, Lubbock; Ross, Corsicana; Grundy, Quitaque; Bartley, Waco; Maddox, Lubbock; Oswalt, Crowell; Banta, Lamesa; Young, Ralls; Ratliff, Haskell; and Cunningham, McLean.

Immediately following the Christmas recess 200 Tech students reported for intramural football play. During the past six weeks these candidates have been sent through a grueling schedule. Liberal Arts college won the title after sweeping through its games undefeated.

TEXAS TECH'S ALL-STATE STATUS

(Editorial from Ft. Worth Star-Telegram, Feb. 9, 1931.)

Texas Technological College, situated at Lubbock, endures a special handicap because of the peculiar inability of the people of the State as a whole to understand that it is not a local or sectional institution. The college is, by virtue of the articles of its foundation and by the nature of the educational field it occupies, an all-Texas institution, and represents the rounding out, after many years of evidenced need, of the superstructure of the Texas educational system, now composed of the University of Texas, the Texas Agricultural and Mechanical College, and Texas Technological College. The field which Texas Technological College occupies entitles it to equal rank in the public consideration with the two older institutions. Each of the three serves well in its special field; none of the three could serve as well in the field of one of the others as the new one now in that field serves.

It is the persistence of the mistaken view of Texas Technological College as a sectional institution that is responsible for the troubles which that institution has encountered at the hands of those who hold the purse strings of the State's educational expenditure. Texas Tech is further handicapped by the fact that it has not been in existence long enough to build up an alumni of prominent citizens to help fight the institution's battles before the Legislature for needed funds.

How mistaken this view is may be understood from a glance at the college's roster of students. This year there are students from 183 counties, or more than two-thirds of the counties of the State, and the enrollment last year was 2,353, this despite the curtailment of appropriations which denied educational opportunities to many who knocked at the college's doors. In the college's first year, it enrolled 1,043 students, all of college grade. Three years later its enrollment had more than doubled. This year, the sixth of the college's existence, likely will show an enrollment total of nearly 3,000. A state educational institution which is utilized by so great a number of youth can not be set down as a merely sectional institution.

Texas Tech is co-educational, with the standard academic departments as well as especially strong departments of agriculture, engineering, and home science. In one important respect, it is more thoroughly Texan than any other state school. Its engineering schools are devoted especially to the development of Texas manufactures, turning Texas raw materials into finished articles for Texas consumption.

(more)

Texas Tech presents to the present Legislature a request for funds that is very moderate. Other than the appropriations certified by the Board of Control as minimum essentials, it asks for the restoration of departmental maintenance to the level of four years ago when a gesture at economy in government finances was carried out chiefly at the expense of the state educational institutions. To this is added a very necessary provision, and the smallest practicable, of \$25,000 as a contingent salary fund to meet extraordinary faculty expense which is always arising in the administration of colleges and to allow for bringing Texas youth into contact with experts in important lines. Then it requests \$50,000 for a dairy products building, to further a development of vital importance to Texas but one which is proceeding with costly slowness because of the lack of just such leadership and inspiration as Texas Tech desires to develop.

There is nothing extravagant in any of these requests. They represent the ambition of Texas Technological College to fulfill its destiny and its duty. And in detail and in the total, they reveal a willingness of the college administration and faculty to make up with hard work and fortitude what is lacking in facilities and conveniences. It is no luxurious plant that is being proposed at Texas Tech, but one which will be taxed to its capacity from the day it is installed.

By its record of consistent achievement and steady growth in the face of financial handicaps, Texas Tech is entitled to the sympathetic consideration of the Legislature in appropriations for the forthcoming biennium. With the vitality which arises from the planting of the proper seed in the proper place, Texas Tech asks only a minimum of fostering care to produce a growth that will astonish and delight the whole State.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Feb. --. Athletic officials of Texas Tech announced here today the signing of Coaches Wallace Wade and Jimmy Phelan to conduct the college's coaching school to be held the first two weeks of August.

Wade, now with Duke University, was former coach at the University of Alabama while Phelan, former Purdue mentor, is coaching at the University of Washington.

Authorities at Tech expect a large number of college and high school athletic coaches to enroll for the two weeks schooling.

LUBBOCK, Texas, Feb. --. Don Maddox, a junior in the school of Engineering and from Lubbock, has been elected president of the Chamber of Commerce at Texas Technological College. Other new officers are: J. W. Timmons, Amarillo; Virgil Rowland, Anton; and Harold Busby, Houston. Mose Witherspoon, of Strawn, has been appointed chairman of the membership committee.

According to present plans the organization will sponsor a banquet this spring for visiting high school athletes.

LUBBOCK, Texas, Feb. --. A class of speech for the business men of this city is being sponsored by Texas Tech.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, Feb. --. The annual election for freshman queen was held February 23 and 24 at Texas Technological College, but her identity will be kept a secret until her formal coronation at the annual frosh dance to be held April 18.

According to Matt Seymour, class president, a committee is working out one of the most unique and brilliant coronations ever to be held on the Tech campus. The royal court will be composed of dukes and duchesses from the freshman class and representatives from the other classes and social clubs.

Those who were nominated for freshman queen are: Tina Alexander, Moody; Evelyn Heatly, Lubbock; Mona Cowan, Estelline; Mildred Price, Lubbock; Eleanor Aycock, Lubbock; Dorothy Griffin, Sweetwater; Louise Garrison, Lubbock; Harriet Roach, Lubbock; Josephine Caraway, Houston; Harriet Swaine, Crowell; Margaret Lindsey, Lubbock; Tempie Boone, Junction; Ruth Norman, Copperas Cove; and Beatrice Casteel, Lubbock.

LUBBOCK, Texas, Feb.--. Texas Tech's Matadors wind up their basket-ball season against Max Saxon's Texas Miners at El Paso Friday and Saturday evenings.

Early in their campaign the Golightly coached quintet defeated the Miners in a two game series.

BUTTER FAT AT
LOW FEED COSTS.

By Prof. W. L. Stangel, Head Department of Animal Husbandry,
Texas Technological College.

LUBBOCK, Texas, Feb.---. Most farmers either have or certainly should have some dairy cows. The cows that they own are kept primarily for one purpose: namely, to supply milk, cream, and butter for the family. Some farmers have a surplus of the product of the cow to sell and sell it either as whole milk, sweet or sour cream, or farm butter.

Experimentally it has been proven that the dairy cow is the most economical producer of human food from feeds that she consumes. She outranks the hog, calf, poultry, lamb, and the steer in the order named. Since the dairy cow is the most economical producer of human food, what does it take for her to produce butter fat at a low cost? It goes without saying that good cows will go a long way towards accomplishing this end. Certainly good cows properly fed on rations that are composed largely of homegrown feeds will accomplish the purpose. A cow is properly fed when she reaches maximum production. This usually occurs in the early summer while she is on grass, in which case the protein and mineral matter is obtained in sufficient amounts and her surroundings are comfortable. In order to maintain high production it becomes necessary, insofar as it is possible, to provide year-round summer conditions. This can be done by supplying the cow with an abundance of palatable feed containing sufficient protein and mineral matter and that is succulent and bulky in nature. Of course, it also becomes necessary to provide comfortable quarters so that the cow will not be unduly exposed.

Not only is the character of the ration that the cow receives important, but also the amount that is given the cow. In all cases high producing cows should be full-fed. Ordinarily cows use from 40 to 60% of their feed for maintenance of their bodies. The balance is used for milk production. Therefore, high producing cows require comparatively less feed for maintenance than the lower producing cows. Above everything else, avoid over-feeding. It is as disastrous as under-feeding. On the average farm a dairy cow should receive 45% of her nutrients in the form of concentrates. She should be fed all of the roughages that she will clean up daily. Most satisfactory results are obtained when the grain mixture is composed of at least 3 concentrates and when part of the roughages are made up of a legume. The grain mixtures which are common to the plains section should be fed at the rate of 1# of concentrates to 2.75# of milk to Jerseys, and 1# for 3½# of milk to Holsteins. Be sure that your concentrates are light in nature, because a light concentrate will be more thoroughly digested than one that is heavy.

The available homegrown feeds on the plains are: grain sorghum heads; threshed grain sorghums; grain and sweet sorghum fodders; barley; wheat; sudan grass pasture, and hay; wheat pasture; and native grass pastures. In addition to these homegrown feeds, there is available wheat bran and cottonseed meal.

(more)

W. L. Stangel.
#2.

As a general rule our pasture seasons are short. Consequently it is impossible to provide a succulent feed the year round unless provisions are made to ensile our grain sorghum crops. Silage, which can be produced as cheaply on the plains as it can in any other part of the U. S., will help to expand the non-pasture season and thus provide the needed succulents for satisfactory feeding of dairy cows.

Assuming that we have a 1000# cow producing 20# of 5% milk, this cow can be fed the nutrients that are required by giving her some of the following rations:

Ration 1: 22.1# kafir fodder; 3.9# cottonseed meal. If you desire to prepare this ration in bulk, use 85% kafir fodder and 15% cottonseed meal. At prevailing prices, it will cost you 75¢ per cwt., or 19¢ a day to feed your cow.

Ration 2; which is composed of a grain mixture of: 60% milo heads, 20% wheat bran, 20% cottonseed meal, costing \$1 per cwt., consists of 9# of the above concentrate, 4# alfalfa hay, 6# kafir fodder, and 30# sorghum silage and will cost 25 $\frac{1}{2}$ ¢ per day to feed the cow. If the silage is omitted and the kafir fodder substituted entirely, it will cost 18 $\frac{1}{2}$ ¢ per day, and if both the alfalfa hay and silage are omitted, and only kaffir fodder is fed, it will cost 20¢ per day.

Ration 3, which includes a mixture of 50% barley, 25% wheat bran, 25% cottonseed meal, costing \$1.33 per cwt., was composed of 8# of the above concentrate, 4# of alfalfa hay, 6# of kafir fodder, and 30# of sorghum silage costing 27¢, 22¢, and 21¢ respectively per day, assuming that the substitutions in roughages were made as in ration 2.

Ration 4, which includes a mixture of 50% ground threshed milo, 25% wheat bran, and 25% cottonseed meal, costs \$1.35 per cwt. and consisted of 8# of the above mixture, 4# of alfalfa hay, 6# kafir fodder, and 30# sorghum silage, cost 27 $\frac{1}{2}$ ¢, 24¢, 22 $\frac{1}{2}$ ¢ respectively, assuming that the substitutions for the roughages were made as in ration 2.

Ration 5, which included a grain mixture of: 60% ground threshed milo, 20% wheat bran, and 20% cottonseed meal, cost \$1.35 $\frac{1}{2}$ ¢ per cwt., and consisted of 8# of the above mixture, 4# alfalfa hay, 6# kafir fodder, 30# sorghum silage. It cost 28¢, 25¢, 24¢ respectively, assuming that the substitutions for roughages were made as in ration 2.

Ration 7, which included a mixture of 35% ground threshed milo, 20% wheat bran, and 25% cottonseed meal cost \$1.38 per cwt. and consisted of 8 $\frac{1}{2}$ # of the above mixture, 4# alfalfa hay, 6# kafir fodder, and 30# sorghum silage, and cost 29¢, 24¢, and 22¢ respectively to feed the cow, assuming that the substitutions for roughages were made as in ration 2.

NOTE

Ration 8, which includes a grain mixture of 25% threshed milo 25% wheat bran, and 25% cottonseed meal, cost $\$1.38\frac{1}{2}$ per cwt. and consisted of 8# of the above mixture, 4# alfalfa hay, 6# kafir, 30# sorghum silage. It cost 28¢, 24¢, and 22¢ daily respectively to feed the cow, assuming that the substitutions for roughages were made as in ration 2.

To illustrate the value of owning good cows that have been properly fed on rations that contain sufficient amounts of protein and mineral, that are bulky and light in nature, and also that are succulent, we submit the records of two cows -- one a Holstein, and the other a Jersey. Both of these cows are owned by the Texas Technological College, and have made the high records respectively in their breed. Flowerdale Echo Cynthia started her test at the age of 5 years, 5 months, and 12 days, and has completed a 365-day record, producing 26,019.7# milk and 817.13# fat. The college receives \$3.00 per cwt. for grade A raw sweet milk. At that price the value of her product amounted to \$783.55. During the time that she was on test, her feed cost was \$230.37, thus leaving a net return, not including cost of labor, of \$553.18. She produced milk for $88\frac{1}{2}$ ¢ per cwt. and butter fat for 28.2¢ per #.

Let us assume that this cow is owned by a farmer and that while she was on test the farmer received only 18¢ per # for the butter fat that she produced. She would have then returned \$147.80 for butter fat and \$120 for skim milk, charging to whatever it was fed at 50¢ per cwt. The gross return from the Holstein cow would have been \$267.08 from which the cost of her feed should be deducted, leaving a net return of \$36.71, not including the cost of labor.

The Jersey cow, Flowerdale Noble Bessie, started her test at the age of 4 years, and 4 months, and in 365 days produced 8560# milk and 500.04# butter fat. The value of her milk was \$256.80, and the cost of her feed \$92.57, leaving a net return of \$164.23. She produced milk at a cost of \$1.08 per cwt. milk and $18\frac{1}{2}$ ¢ per pound fat.

Again assuming that she is owned by a farmer and that he received only 18¢ for butter fat, he would have received for the year that she was on test \$90 for butter fat and \$39.40 for skim milk at 50¢ per cwt., making a gross return of \$129.40, less the feed cost, \$92.57, leaving a net return of \$36.83, not including the cost of labor.

In using these 2 cows as examples of good cows, it is not intended to compare breeds, but merely to bring out the fact that good cows of any breed are essential and that when good cows are properly fed and cared for, they should produce butter fat at low feed costs. The speaker does not want to be misunderstood, by inferring that one can make money with butter fat selling at 18¢ per#, but he feels that butter fat can be produced at low costs, if due consideration is given to the keeping of good cows and to the care of these cows.

From Texas Technological College Free News Service -- Cecil Horne.

LUBBOCK, Texas, March ---. Announcement is made by officials of Texas Technological College that a summer school of two terms will be held, following the appropriation recently made by the legislature. The first term will open June 9 and close July 18 and the second term will open July 20 and close August 27.

In addition to the regular faculty some special lecturers will feature the summer session. The usual trip to Carlsbad Caverns will be made and a course of entertainments will be provided for summer school attendants.

Catalog for the summer session giving full announcements and a list of the courses to be offered is in process of being printed and will be mailed as soon as it is out to all who request a copy. The attendance last summer was 1315, and it is expected that at least that number will enroll during the coming summer.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, Mar. --. Coach "Pete" Cawthon's Texas Tech football squad will meet the Baylor Bears next fall. Time and place of the game have not been announced. The scheduling of Baylor resulted from an open date created by St. Mary's abandoning football. Tech was to meet the San Antonio eleven Oct. 9.

The appearance of a Southwestern conference team on the Matador schedule along with the establishment of Tech's first annual school for football coaches has created a revived interest in the sport on the campus.

During the first two weeks of August two nationally known grid coaches, Wally Wade, former Alabama mentor, and Jimmy Phelan, whose Purdue teams of the past several years bid for the national title, will have charge of the two weeks' course. Applications for attendance in the school have been coming in daily to indicate that nearly two hundred coaches will enroll for instruction.

LUBBOCK, Texas, Mar. --. Texas Tech's scarlet clad basket-ball team have returned from a road trip into New Mexico with three scalps dangling from their belts.

The Matadors wound up their campaign by defeating the New Mexico Miners, splitting a two-game series with New Mexico University, and then breaking even with the Texas Miners in a two-game stand.

Coach Golightly's entire squad will be eligible for another campaign. With the return of the varsity and the addition of several likely looking yearlings the Matadors will present a strong quintet next winter.

March

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, March ---. Athletic Director P. W. Cawthon, of Texas Tech, will be host to all the leading football coaches of the Southwestern Conference here during the first two weeks of August.

Plans for the first coaching school sponsored by Texas Tech have attracted nation-wide notice. Besides indications that all the football mentors of the Southwestern Conference will enroll here under Wallace Wade and Jimmy Phelan, applications have been received from L. W. Nimme, Cincinnati, Ohio, and Torrence Lyons, Pittsburg, Pa. Both are high school coaches.

Cawthon has received encouraging letters from Knute Rockne, Pop Warner, and Alonzo Stagg congratulating him upon the splendid impression the Tech coaching course is making upon the football minded public.

LUBBOCK, Texas, March--- Texas Tech will soon be another of the colleges where mothers bring their children to school.

During the summer sessions a course in nursing will be sponsored by the school of home economics. Miss Margaret W. Weeks, dean of the school, said this of the plan:

"It is planned to offer the school for children between the ages of two and six. We are offering this course on the condition that the mothers or parents study with us. The school is for the training of parents as well as children."

From Texas Technological College Free News Service --Cecil Horne

By E. W. Young

LUBBOCK, Texas, March--: Athletic authorities here at Texas Tech announced today that entries in the high school relay meet sponsored by the college must be made by April 6.

Tech officials invite all class A and B high schools in Texas, New Mexico, and Oklahoma to participate in the meet free of charge. The program, five relays and five special events, will be run off here the afternoon of April 11 in accordance with the rules of the Texas Interscholastic league. Preliminaries will be held in the morning for the special events which include the 50 yard dash, 100 yard dash, 220 yard low hurdles, javelin throw, and high jump.

The relay events will consist of a quarter mile relay, a half mile relay, a mile relay, a medley, and a special relay. In the latter the first man runs 120 yard low hurdles, the second 220 yards, the third 120 yards, and the anchor man one quarter mile.

The team entry scoring highest number of points will be awarded the 28 inch engraved trophy presented by the Lubbock Avalanche-Journal. Second highest scoring team will receive a large loving cup. Winners in the relays and special events are to receive silver track statuettes while the runners-up are awarded loving cups. The two high point men of the meet will be presented with wrist watches. Suitable prizes, donated by local business firms, will be presented third place winners.

LUBBOCK, Texas, March _____. By virtue of two firsts, a third, and a sixth place the judging teams of Dublin high school came out of the sixth annual Vocational Agriculture judging contests sponsored here by Texas Tech victors in the sweep-stakes. 100 teams representing four hundred boys from 32 high schools were entered in the event.

Team entries placed as follows in the sweepstakes: Dublin, 11 points; McLean, 14; Tahoka, 21; Tulia, 30; Dimmit, 30.

Tech scholarships were awarded the following individuals in each class: dairy cattle, M. Jones, Dublin; farm shop contest, M. Windom, McLean; livestock judging, F. C. Shillingburg, Dublin; plant production, L. Smith, Post; poultry judging, W. Smith, Hale Center.

LUBBOCK, Texas, March --. Texas Tech's department of education will be strengthened for the two six-week summer sessions by the addition of seven visiting teachers.

These instructors, leaders in the state field of education, include five city superintendents, a city supervisor, and a member of a junior college faculty.

M. H. Duncan, Lubbock; W. A. McIntosh, Amarillo; Lee Clark, Plainview; M. S. Holland, Breckenridge; Mae Pendergrass, Wichita Falls; C. M. Rogers, Amarillo; and S. M. Belton, Cuero, will serve on the Tech faculty during summer school beginning June 9.

From Texas Technological College Free News Service --- Cecil Horne

LUBBOCK, Texas, March---. Captain Jack Durham, Hamilton, will call out his varsity and freshman football men here March 29 in preparation for the grueling schedule booked for the Matadors next fall. Besides games with Baylor, Haskell Institute, and New Mexico University, the Texas Tech eleven is scheduled to battle the Colorado Miners.

LUBBOCK, Texas, March ---. Flowerdale Echo Cynthia, 5 year old Holstein cow belonging to the agriculture department of Texas Tech, has established a record during the past 365 days at which Texas cows will be shooting.

The pride of the Tech dairy produced 26,019.7 pounds of milk and 817.13 pounds of butter to earn a net profit of \$553.18.

LUBBOCK, Texas, March---. Sixty-six members of the Texas Tech faculty will remain here during the summer to participate in the two sessions of the college. The first term opens June 9.

Two hundred forty coeds were enrolled in the department of home economics at Texas Tech during the winter term.

LUBBOCK, Texas, April - - Texas Tech's Matadors launched into their spring football training here today with 65 candidates taking part in the initial workout.

With opponents from five conferences of the southwest on their schedule the Tech eleven next fall faces the hardest competition that it has met in recent years. Baylor, Southwest; Colorado Mines, Rocky Mountain; Simmons, Texas; New Mexico, Far Southwest; and Canyon Teacher's, Texas Intercollegiate, appear on the Matador program. Coach Cawthon's squad will also tackle the Texas Miners, New Mexico A. and M., and Haskell Indians. The Indians will be met in Dallas on Oct. 13 during the State Fair.

Coach Cawthon will miss the services of several outstanding backfield men who graduate this spring. Candidates from the Freshman squad include a dozen backfield men from whom Cawthon will be forced to select material for his varsity eleven.

Mina Watkins, Lubbock; Harold Crites, Lubbock; Bob Oswalt, Crowell; Yancey Price, Lubbock; Ben Anthony, Big Spring; Tubby Baker, Abilene; Matt Hitchcott, Lexington; and Stud Turner, Claude, loom as freshmen who will give varsity men a fight for positions on the Matador eleven.

Lubbock, Texas, April - - Approaching graduation exercises at Texas Technological College find 251 candidates for degrees expecting to finish their work. The regular commencement will be held June 7 and 8, at which time 170 are planning to receive their diplomas, while the additional 81 candidates are scheduled to receive their sheep skins at the end of the summer session August 25.

President Thomas A. Walton, of Texas A. and M. College, will deliver the commencement address. Dr. Ivan Lee Holt, pastor of the St John's Methodist Episcopal Church of St. Louis, Mo., will deliver the baccalaureate sermon. Rev. C.E. Wooldridge, Plainview, father of Floyd Wooldridge, president of the graduating class, will render the invocation.

Lubbock, Texas, April - - Five members of the Texas Technological College faculty will attend the Southwestern Political and Social Science Association gathering in Oklahoma City, April 3 and 4.

Dr. W.A. Jackson, head of the government department, and H.C. Pender, J.W. Jackson, and M. E. Ogden, also of the government department, and Dr. John C. Granbery, head of the history department, will represent Tech.

Sixteen quintets are participating in the Texas Tech intramural basketball tourney.

Texas Tech will not charge an entry fee to high school teams entering the Tech relays. This meet will be held April 11 with high school teams from Texas, Oklahoma, and New Mexico participating.

FROM TEXAS TECHNOLOGICAL COLLEGE FREE NEWS SERVICE - - - CECIL HORNE

LUBBOCK? Texas, April - - Final plans for the first annual Texas Tech high school relay meet were announced here today. Entries for the Matador relay carnival close April 6.

The meet, scheduled for April 11, has attracted teams from many of the leading high schools throughout the states of Texas, Oklahoma, and New Mexico. San Angelo, consistently a track winner in Texas high School circles, has indicated that it will compete in several of the relay and special events.

Tech's first attempt in high school track meets has been carefully planned by "Duthey" Smith, manager of the event, and other members of the coaching staff. Smith has arranged a program to include quarter mile, half mile, mile medley, and special relays. Besides these he has scheduled the high jump, javelin throw, 220 yard low hurdles, and 50 and 100 yard dashes as special events.

Through efforts of the Tech athletic department and local business men a beautiful array of trophies has been assembled to be presented winners in both relay and special events. Besides ten inch silver statuettes, for first place winners, and silver loving cups, for second place winners, wrist watches will be awarded the two high point men of the meet. The team scoring the highest number of points will be presented the Lubbock Avalanche-Journal trophy while the runners-up will win the Texas Tech athletic council shield.

By E. W. Young

LUBBOCK, Texas. April---. Three Sherman high school boys loom as potential material for the 1931 edition of Texas Tech football teams. Two of the youths are line-men while the third is a back.

"Lefty" Sollis, now nearing the heavy-weight class with a tonnage of 174 pounds, is exhibiting form in the spring drill of the Matadors that indicates the former Sherman ace will be a hard man to keep out of the backfield next fall. "Lefty", a clever open field runner, has developed into an accurate left-handed passer.

"Chesty" Owens, star tackle of the freshman eleven, is considered by Tech coaches as the finest line prospect that ever entered the college. Owens, a youth of over 200 pounds, will be forced to fight it out with three letter-men before he steps into the varsity line-up.

In all probabilities Captain Jack Durham, Hamilton, crack pivot man of the Matadors, will be shifted to a guard position. In this event three freshmen, Anthony, Big Spring; Nix, Greenwood; and Tribble, Sherman, will fight it out for the center position. Tribble is looked upon as the outstanding candidate to replace Durham.

The spring drill of the Matadors has been limited to limbering up exercises this past week. The men have reported in track uniforms. Coach Cawthon, however, will send his prospects through six weeks of vigorous work as soon as the sixty-five candidates get into shape. The Tech coach must build an eleven that is capable of undertaking the hardest schedule yet booked by the college. Games with Baylor, Haskell Indians, and Colorado Mines appear on next fall's program.

LUBBOCK, Texas, April ---. With advent of spring weather youthful farmers in the Texas Technological College school of agriculture have entered the busiest months of their schooling. Crops must be planted, stock must be bred, and final preparations made for the growing season.

The Panhandle-Scuth Plains Dairy show in Plainview attracted a great number of the embryo farmers. Although Tech did not enter an exhibit of the work of its dairy manufacturing department in the show because several members of the department's faculty have been selected as judges, a delegation of students assisted at the show. Ray C. Mowery, of the animal husbandry department, has selected T. W. Giddens of Snyder, T. J. Harris of Clifton, J. B. Parks of Clifton, P. G. Powers of Perryton, J. P. Williams of Lubbock, and Colonel Sparkman of Bonham, students, to aid in judging livestock.

The horticultural department plans to spend considerable time experimenting with crops adaptable to the Plains area. "We are planting a variety rose garden to see if we can find the best types suitable for the back yard gardens in this area," Professor C. H. Mahoney, of the department, announced. He also mentioned that every farm should have some nut trees on it. By experimentation Mahoney has found that, although the dry atmosphere of the area is not suited to the growth of ~~peas~~, the farmer can successfully raise black walnuts.

Tech's annual freshman stock judging contest will be held the latter part of next month.

LUBBOCK, Texas, April _____. Visions of the 1931 Texas Tech football team are rapidly taking form as Coach P. W. Cawthon sends his 75 candidates through spring training drills.

Instead of the light team that carried Tech colors into battle last fall the Matadors, who hope to trounce Baylor, Colorado Mines, Haskell Indians, and other tough opponents, will average better than 180 pounds. In commenting upon his squad Coach Cawthon said:

"With the help of the Red Cross and others we may make an impression next fall. I know one thing for a fact -- the boys will work like the devil -- and they'll fight."

The entire line, half the backfield, practically all the reserves, and a freshman team that included a half dozen all-district men will be eligible for competition next fall.

Freshman Coach Dutchy Smith spent three months last fall teaching the Cawthon style of play to "Tubby" Baker, all-state guard of Abilene; Toby Greer, all-district guard of Comanche; Whacker Barton, all-district tackle of Lubbock; and "Howy" Butts, all-district back of Waco. Besides these prospects Smith developed a trio of centers in Ben Anthony, Big Springs; Les Tribble, Sherman; and John Nix, Greenwood; a pair of hard-hitting ends in Yancey Price, Lubbock, and Matt Hitchcock, Lexington; and a quartet of shifty backfield men in "Lefty" Sollis, Sherman; Mina Watkins, Lubbock; "Shorty" Duniven, Amarillo; and Harold Crites, Lubbock.

LUBBOCK, Texas, April _____. Thursday, April 9, has been set aside by coeds of Texas Technological College as "Cotton Day".

Upon invitation of the Mortor Board, University of Texas, young women of the Forum at Tech are sponsoring a campaign advocating coeds to wear cotton frocks. Thursday all young women of the college will be dressed in cotton. In the evening a style show featuring cotton garments will be staged.

Dr. P. W. Horn, president of the college, will address the audience at the show attired in a cotton suit made in the textile and home economics schools.

LUBBOCK, Texas, April _____. Dr. A. W. Evans, head of the department of education of Texas Technological College, has estimated that over seven hundred teachers, principals, and superintendents will attend the meeting of the Northwest Texas Teachers' association which meets in Lubbock April 10 and 11.

Upon advice of John Hess, county superintendent at Pampa, it has been learned that his city will seek the 1932 meeting of the teachers' association.

LUBBOCK, Texas, April _____. Maurice Dumesnil, French pianist, will conclude the Texas Technological College artists' course here April 16. This will be his first visit to this city.

By E. W. Young

LUBBOCK, Texas, April _____. Although the 1931 football season is distant the interest of the football-minded Southwest is centered here upon the coaching school to be offered by Texas Technological College beginning August 3.

With two of the nation's premier gridiron authorities engaged to conduct the two weeks' course and with each day's mail bringing enrollment blanks from all parts of the nation it is apparent that this city will become a mecca for football coaches early next fall. Practically the entire coaching staffs of all Southwest conference members have signified their intention of participating in the course.

Wallace Wade, who recently transferred his allegiance from the University of Alabama to Duke University, and James Phelan, former Purdue university coach now directing the football destiny of the University of Washington, will have charge of the coaching school, the only one scheduled in the Southwest this year.

Both Wade and Phelan occupy positions of national prestige in the football world. Wade won fame as coach of Alabama's Crimson Tide that three times invaded the Rose Bowl to emerge victorious while Phelan's Boilermakers gave Purdue several football championships in the Big Ten conference and a bid for national honors. Wade will instruct the visiting coaches in the short punt formation style of attack. Phelan will teach Notre Dame's weak side formation.

Morning sessions during the course will be devoted to classroom lectures while in the afternoon the study will be conducted upon the five gridirons of the college.

LUBBOCK, Texas, April _____. Dean R. L. Sackett, chairman of the national committee on education and training for industries of the American Society of Mechanical Engineers and a member of the engineering faculty of Pennsylvania State College, addressed the students of Texas Technological College here Thursday in their first convocation of the spring term.

LUBBOCK, Texas, April _____. Of the thirteen animals entered in the recent Panhandle Plains dairy show at Plainview by Texas Technological College all but one placed in the judging.

The Tech herd took six firsts, five seconds, a third, and a fourth.

LUBBOCK, Texas, April _____. Spring football training for the Texas Tech Matadors enters the third week with seventy-five candidates for the 1931 eleven participating in the drill. Indications are that Tech will be represented by a heavy but unexperienced team next fall. Graduates of the 1930 freshman squad will predominate in the starting line-up.

From Texas Technological College Free News Service -- Cecil Horne

LUBBOCK, Texas, April _____. Six thousand catalogues giving information and a description of courses for the 1931 summer school of Texas Technological College were mailed to prospective students here recently.

Tech's summer session will be divided into two six week terms, the first beginning June 9 and the second July 20.

LUBBOCK, Texas, April _____. Journalism classes of Texas Technological College will be represented at the Southwestern Journalism Congress in Austin, May 1 and 2, by a delegation of twenty-five students. Frank Emison of Brownwood, James Strange of Tulia, and Eva Robb Watkins of Seagraves, have charge of arrangements for the Tech representatives.

LUBBOCK, Texas, April _____. Texas Technological College will apply for membership in the National Extension Association at the latter's convention in Boulder, Colorado, May 11. The University of Texas, only institution of this state holding membership in the association, will support Tech in its application for membership. Mr. J. F. McDonald, director of the Tech Extension department, will attend.

TWENTY PERCENT ENROLLMENT INCREASE

LUBBOCK, Texas, June - - A twenty percent increase in summer school enrollment at Texas Technological College has been announced by E.L.Dohoney, registrar. 1240 students have registered for the first of the two six week summer sessions offered at the college.

The twenty percent increase, based upon comparison of enrollment figures over a corresponding period last summer, keeps pace with the remarkable growth of Texas Technological College during its six years of existence.

ATHLETIC SCHOLARSHIPS ANNOUNCED

LUBBOCK, Texas, June - - Hershel Tadlock, Amarillo, and Bill Teal, Enoch, have been awarded the two athletic scholarships given annually at Texas Technological College.

Tadlock, as best all-around athlete, won the FORT WORTH STAR-TELEGRAM scholarship of \$250. Teal was awarded the \$200 scholarship given the Tech athlete exhibiting the finest sportsmanship, leadership, and fighting spirit in inter-collegiate contests.

Both men are juniors in the college.
