

Tuesday night.

Dear Julia & Dad:-

Been

trying for days to get a note to you, but we still continue in the same rush. Was glad to hear you are feeling better & to get your note to that effect. The weather is so fine now & hope you are getting out a lot.

attended the circle Christmas party today, Mrs. Hines gave me a special invitation, & it was so nice, a real turkey dinner with all the trimmings - a nicely decorated tree & exchange of pretty gifts - Mrs. Morse was there, she had charge of the program which was interesting - she ask

about you as well as others. We put our membership in Tyler church Sunday, voted to do so until Campbell could get home, but they had been holding same so long & C. said not wait, he can't say when will get in, hopes so this wk. - as they are wanting him here.

Talked to Louise once she said they were busy doing around getting ready for Christmas.

M.A. had a very interesting trip to Waco - was entertained in a nice home of one of the debaters. The experience was good for him & they debated hard, against strong teams over Tex. but the Sunset boys team did not win, had many complaints in dif. props - so he thinks

much was gained from
the trip & is not discouraged
this was not the tournament
where cups & etc are given
still a practice affair -

all are working hard
on school work & made good
reports. W.R. still makes
honors well. Maryann is
low in Latin but other
grade fair. She is still
enjoying foods, they are
making Christmas salads.

She attended S.S. & Mason
foot ball game & got a thrill
if S.S. did lose out.

How Willie Mae helping
me a little. My! seems good
to get place little straight
surely makes me feel better
she is so glad to have some
work.

Bro. Fisher called today
while I was away. He is still
fine & delivers wonderful
sermons. How I do enjoy the
music there too.

am not trying to write
a history - hope you can
read this -

you may be almost to
Anton -

Hope Voda + family
are well.

We are thinking of you
if you need me to do
anything write me -

I have talked to Job
several times & they are
O. K.

Holds from J.H. W. run over
little while Sun. afternoon

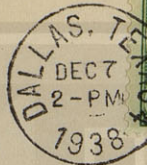

We will say good night
now do not get too cold
out in far West. I know
we need rain here
badly - Good night

Love to all

Glady -

was mighty proud of W.A.
99 Biology - + 98 Chemistry
one of the highest in school
in chemistry -
