Sept. 5 To Virginia from Homer (?) + Emma - Aunt Polly is death
from Anna Browne - - Thank you for the
beautiful memorial - We never read a more beautiful tribute and
it was so justly deserved in every way, and we know it was
appreciation + love which prompted every word.

Homer is beginning to pick up in flesh(?) as his symptoms come back.
His appetite is good and he sleeps fine; His head + neck are much
better + free from pain. We have had a pleasant week. One afternoon
Mr. Lera sent us to one of the Parks - to see a very (pretty?) this
place of Mrs. — (?). It was a very lovely afternoon and a ride is
quite a treat. Think we were the only farms(?) in the Parks
except a number of workmen who were — ? gast — ing? up the
— to the street for the winter. I would have enjoyed staying
an hour or more but Homer can't walk for we could not keep him
waiting long for us.

I will be so glad when Homer can walk again - a distance 2 mi.
so we can resume our strolls - about 3 or 4 blocks is all he can for
now. Our new President expects to be in Des Moines next week, so we will
probably find the best or the worst about the job.

I haven't heard further from Nan. This morning, write(?) for own family
+ the various friends she helps. She is a busy lady. She has expected
to go to " farm" - (Their summer home last Sat. They love
their new place even more than the Lake(?) George Home. Much love and
good wishes Homer + Emma (Cymann?)

Feb 1, 1917 My dear Aunt Polly, I have heard through Aunt Alice of your fall and
and the severe injury you sustained. She has also sent word from time to time
also. Thanks for gifts, Christmas, "6 children + that would make a happy Christmas
