K A B L

Music

I have just concluded my last visit to WPAT's music library and have finished going through their 10,000 albums. The attached list is made up of these records that I feel we need to obtain. Please have Jeanne do the same with this list as she did with the last one. Indicate which of these albums we do not have and of those which are out of press.

While in New York, I was able to locate between 35-40 of the out of press albums designated on the last list and paid a considerable amount of money for them. They are being shipped here to my office in order that I might spot check a few of the cuts for our Kurio category and then will be forwarding them to you immediately.

For heavens sake make sure that these records, above all, receive the best of care since we paid full retail price for them and some of them were the only copies available in this particular shop.
