| Month | Day | Year |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |       | Dolls.          |                 |       | Cts.        |       |
| Thurs | 11  |      | Con. from page 95<br>H.G. took the V8 and went to Pukah gin I came on home. Made ready to go to Clovis, N.M. <del>Mr. Goad</del> , Det, Sallie and I arrived in Clovis about noon. The beans cost \$3.00. Had to go to County Clerk's home. The Church of Christ preacher was out of town at that time, had to get the Justice of peace to marry them. He did not choke or hold his breath when he said \$5.00. I liked to have fell over. Mr. Goad said "well." To say the least that was money prices. The New Deal sure has put the morning people on their feet. Harold came back with the rays. They spent the day at Birds. I Dr. Jack but he seems no better. |               |       |                 |                 |       |             | Mon   |
| Fri   | 12  |      | I harnessed up to a pick sack and pulled 425 # cotton. Lenora pulled 87 #. The Newley Weds did not get back from Clovis until the 6 p.m. bus came. Det was sick she had an abscess on her nose. They have gone up to see Dr. Green. Buf and folks came up for a while. H.B., and boys are still here.                                                                                                                                                                                                                                                                                                                                                                |               |       |                 |                 |       |             | Tues  |
| Sat   | 13  |      | Bradley and I pulled cotton till noon. We all went to town in P.M. I found two bales of my cotton at Walter Strickson's office. I took them on my Bank note \$100.00 in all. Payed Det \$3.65. Our Lenora \$2.60.                                                                                                                                                                                                                                                                                                                                                                                                                                                    |               |       |                 |                 |       |             | Wed   |
| Sun   | 14  |      | Bradley and Det went home with Buf & Ida. Buf, Ida, Wanda Lu, Det and Bradley came up about 10 A.M. We looked for Della and her husband all P.M. but they did not arrive till about 8 P.M. They are all in. Della is the first wife of W.E. Leonard and Wayne Mather. All in bed now. H.C. came in. Della said Hello! Herby!                                                                                                                                                                                                                                                                                                                                         |               |       |                 |                 |       |             | Thurs |

## Butter Account

Monday November 15, 1937.

| DATE    | SOLD TO OR BOUGHT OF                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Quantity Sold | Price | Amount Received |      | Quantity Bought | Price | Amount Paid |      |

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |       | Dolls.          | Cts. |                 |       | Dolls.      | Cts. |
| mon 15  | H.G. and I left early for Bulah gin, Harold is to furnish half expenses from Cal. to Luban and back. Belle is taking the bag back to Conipton Calif. He could not get the money \$20.00, so I rushed about and raised \$16.00 for him. They left for Calif. about 10 A.M. I hated to see them start back so soon. The boys will be better off with their mother than with the step mother they had. I took my two wheel trailer up town to build me a cotton bed on it Bud and Harold helped me. Cost so far \$7.60. Will have to have a hitch made on my car that will take care of a two wheel trailer. Our first sand storm to day. Bradley pulled cotton all day. About 1/2 of bale out. Bought 4 45# cadd. \$2.10 A little calf trout. |               |       |                 |      |                 |       |             |      |
| Tues 16 | The long expected freeze came last nite. It did not freeze so hard. But killed every thing that was green. I had to take the car down to shop and have a hitch put on it, that I could handle a two wheel trailer with. It cost me \$4.25 and he furnished a part of the material. All cost up to date for the repairs on trailer including the extension on the bed and the side boards is \$12.45. Dealer got out of jail today. Came out here for his money. I did not have it here at home. So I told him to stay and I would get his money tomorrow. \$9.85.                                                                                                                                                                           |               |       |                 |      |                 |       |             |      |
| Wed 17  | I loaded up a bale of cotton on the New trailer. Gined off about 1 P.M. Came back home for another bale. Did not get it gined off till about 11 P.M. Came home Nov 12.30 A.M. This up at nite ginning cotton gets old.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |       |                 |      |                 |       |             |      |

| Thurs | 18  |      | The daddy blizzard was raging when we got up this morning. My old pack mule checked out some time in the past mid nite. I do not know just what the trouble was. Any way he is dead. Hated to see the old fellow pass away. But he has a long and useful life ahead of him. He was in his 27 year. Now 9:15 A.M. We stayed in house all day. was cold all day.                                                                                                                                                                               |               |       |                                |                 |       |                            | Sun         |
| Fri   | 19  |      | We threw the car out and pulled the dead mule down in the stalk field. Don't think he will bother any one with the smell. We pulled cotton in P.M. I pulled 81 # for noon. Near 300 # in P.M. So calf to nite. S.H.G. is staying here now. Dat and Bradley also. Sams like we can now come down to Texas farm again. I am just about out of a team now. Jack died. Kate crippled. Lorrel Mars is balkey and maby so the other one too. Will have to sell out and start out anew.                                                             |               |       |                                |                 |       |                            | Mon         |
| Sat   | 20  |      | Finished the 10th bale. S.H.G. took it to gin. Dat and Bradley went with him to town. S.H.G. had to go to Littlefield to have a correction made on a cotton contract and he did not have his car up here. Cold now 11:35 A.M. Harold came back with trailer about 2 P.M. Dat stayed in Sudan to have her hair set. All went back to Sudan except me. I hauled up some feed. cold as the devil all day. I took S.H.G. back to town tonight was so cold and I could not find a place to park so I did not get out of car. I came on back home. |               |       |                                |                 |       |                            | Tues        |

| Thurs.                                                           | 25. |      | Some time last nite after we had gone to bed, Aralis, Jim, Kalla, Dat and W.B. Came in from Ralls. Oh! yes Billy too. They said they left Ralls after 9 P.M. W.B. and I took the 12th bale to gin. Came back home and had Thanksgiving dinner. Aralis, Bill and Kalla went down to Buds to have them come up for dinner but they had a bunch pulling cotton and could not come. Wanda Lee came back with them. They all left about 4 P.M. went down by Buds to take Wanda Lee back home. Dat and W.B. intended to go to Clovis tomorrow just before Aralis and then left. Harold and Lattie came up. They have gone back together as soon as she found her hands tied she began on plans to get the injunction set aside. Just a cute way of getting S.B.'s children back in California. Now the "bird man" will not have to support any of his kids. I am off of the whole elegant road. I have been betrayed in this controversy till I am good and tired. Harold gathered up his 'dropped' shirts and ash tray and went back to his bird man job. |               |       |                 |      |                 |       |             |      |       | Sat   |
| a Note of Cooper & Dore theys<br>Mar. when they left for Clovis. |     |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |       |                 |      |                 |       |             |      |       | Cal   |
|                                                                  |     |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |       |                 |      |                 |       |             |      |       | Sun   |

|                                                                  |     |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |       |                 |      |                 |       |             |      |       | Wed   |
| Fri                                                              | 26  |      | I took bale # 13 to gin. Tom Martin and sister Lave called for a while when I came back from gin. W.B. and Dat were ready to go. I took them to Mule shoe. They caught the west bound passenger train to Clovis. I hated to see Dat leave. But maybe she will be better satisfied. Hope so. She looked so sweet when she said. Good bye Dad.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |               |       |                 |      |                 |       |             |      |       | Thurs |
|                                                                  |     |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |       |                 |      |                 |       |             |      |       | Cal   |

a Note of Cooper & Dorethys  
Nov. when they left for Clovis.

| one         |      | Sat   | 27  |      | The wind came up from N.E. about midnite and sun did blow. Put lots of feed down. Cold too. Sallie & I went down town as usual. Cold this p.m. The some old thing stand around. The people that pulled the cotton Gam. by name came out for a settle ment and chat tonite. We got some male for W.B. from his people in Okla. to day. Some letters from Coops folks. |          |       |                 |      |                 |       |             |      |  |

Sun 28 We (Sallie & I) went down to Bud & Ida. They were cornboring his feed. A high wind near all day. We came back by town. Gam's left this A.M.

Mon 29 I went up town for some gas on out to the Rev Mr Cale's place. He let me have 10 pigs to fatten out one for the fattening. They are white pigs. I cut feed balance of day. Had letter from Det she said they would have Chris for Rosewell tomorrow that would be Tues Nov. 30, 1937.

Tues 30 I cut feed all day. Sallie helped me some. Tom Kent and Ben Pierce came out at near night and told me I had been elected on the cotton committee. Well I am just like I used to be about it. If I can do the men that has been penalized I am ready to go. If I cant I will get out. Tom Kent is chairman of the com. I am Vice Chairman. call all day.

Wednesday December 1 1937.

Wed 1 I cut feed all day. Sallie helped some. In fact she cut quite a lot this P.M. Two out fits called, wanted to pull cotton. They said they would be back. But they did not come back. I will pull it my self.

Thurs 2 was cold as the dickens when we got up and I decided it was too cold to cut feed and I did not go out. After I did the work about the place I stayed in doors all day. Sallie & I went up town after dark. Was misting and awful dark. I like to have hit a man on highway.

## Butter Account

Friday Dec 3 1937.

| DATE  |     |      | SOLD TO OR BOUGHT OF                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Quantity Sold | Price | Amount Received |      | Quantity Bought | Price | Amount Paid |      | Month |

| Fri   | 3   |      | Before I was out of bed Tom Kent called for me to go to Amherst. The local cotton com. met with the County com. Mr Kent was elected on County com. and I became Chairman of local com. Billy Boyd is now one of the local com. as he was high man over John Case. as alternate. We met at Amherst at 9 A.M. finished by noon. I cut feed this P.M.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |               |       |                 |      |                 |       |             |      | Mon   |
| Sat   | 4   |      | was cold all day. I did not cut any feed today. Sallie and I went up to Susan in P.M. Have not heard from Sat since she wrote at Cloris. Call to wife. Had letter from Southwestern Life Ins. Co. at Dallas, Tex. stating they would give me till the 1-1-1938 to pay balance of my premium which is \$28.28. Soon will be tax paying date.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |               |       |                 |      |                 |       |             |      | Tue   |
| Sun   | 5   |      | Buf, Ida and Wanda & I came up for the day. We went over to Amherst this P.M. to see Roby & Veloma. A niece of mine a man & wife came here this fore noon. They wanted a job of pulling my cotton. I let them move in the cellar. As we returned from Amherst just on the edge of town (Susan) the fast bound passenger train hit Jim Suratte's car and killed him tore the car. (It was a pick up with an oil tank on it) all to bits. It carried the pick up near 1/2 mile before the train could stop. The train must have been making 60 mi. when it hit the pick up. It hit it in center front, rolled it around the engine. Had to pry the door open to get Jim out. The engine tore the pilot off the locomotive and the pony trucks jumped the track. was an awful smash up. It literally swept the cattle gone off the road bed. |               |       |                 |      |                 |       |             |      | Wed   |

| Apr   | 10  |      | Has been cold all day and is awful cold now. 10:20 p.m. Ira and his wife and I pulled two weightings each this p.m. He and I went to town late. He had to get a few cats. I had to get a new battery for my car. The old one played out and I could not run tracks. I payed Ira \$2.40 on account. He sure is fine to help me do any thing that is to do about the place. The new battery cost \$4.45 with exchange. A car load of Mexicans came up ten to twelve with their car progs up. They had a time out in the cold thawing it out. They were looking for pole pulling. They had better been looking for a fire. We have not heard from Dot and W.B. yet. I wish she would write. We miss her so much when she is gone. Stan been gone two weeks today. Had one card from her before they left Clovis for Roswell N.M. |               |       |                 |      |                 |       |             |      | Sun   |     |
| Sat   | 11  |      | We were up early and decided to go to Raul. Mr Ira Hawkins and wife said they would attend the stack and milking. We started from home about 8:30 A.M. Had to stop in Sudan. Sold the cream \$4.32. On to Littlefield. I gave the Hewitt Chis. Co check for \$50.00 on my car note. I stopped at the Payton packing Co. office to see what they were paying for Milo & Kaffer heads. I left word for them to send the feed buyer out to my place coming Monday. On to Lubbock. Could not find place to park only way out on edge of town. We did not stay there long. On to Lovings. Enquired for Tom Martin finally found where they lived. Stayed a little while with sister Faye. Tom had gone to Secor Co. On to Raul at 9 p.m. Jim came home from Crosbyton.                                                             |               |       |                 |      |                 |       |             |      |       | Sun |

| Wed<br><del>Tues</del> | 15  |      | Was Nat so bad to-day I thought maybe I could get Peterman bales for Gether Cox and bay to pull. We walked over the field. The bales were O.K. We started over to see Peterman met him at his place. He said he was mchasing a two row puller and would pull his cotton with a slit puller. So we went to town saw A. K. Boyd. He gave them a job. He has 30 or 40 bales. Gether and the others of his party moved down. We went out to see the house and cotton was O.K. Not so cold tonight. I had returns on two bales of cotton today. I deposited \$50.00 to take care of the Hewitt check. Payed \$36.25 on Bank note. H.M. sold one of my bales of cotton. He caught the mistake and put \$35.88 to my credit at Bank. H.G. said he and Lattie were O.K. now. Hope so. |               |       |                 |                 |        |             | Sun   |     |
| Thurs                  | 16  |      | I had to go to town early. Came back jumped out of car harnessed up and started hauling out bundles. Ira has helped me all day. I stacked all the bundles of the S. E. patch of feed. Cold all day.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |               |       |                 |                 |        |             |       | Moo |
| Fri                    | 17  |      | We finished up the bundle stacking just before nite. Ira has a boil on his leg and he complained some. But I called him silly and he quit saying any thing about it. Was cold and windy all day.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |               |       |                 |                 |        |             |       | Ca  |
| Sat                    | 18  |      | Was awful cold all day. I went out to fill up my car with water and found I did not drain the water out when I came from town Thursday morning. That sure did scare me. But I sure did have a break. Only one hose connection was bursted. We went to town in p.m.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |               |       |                 |                 |        |             |       | Jur |

## Butter Account

Sunday Dec. 19. 1957

| Amount Paid |      | DATE  |     |      | SOLD TO OR BOUGHT OF                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  | Quantity Sold |  | Price |  | Amount Received |      | Quantity Bought |  | Price  |      | Amount Paid |      |  |  |

|             |      | Sun   | 19  |      | I went in to town early to get a basket of grape fruit that Edd sent me from Del Rio. They are sure fine. Wish I could send him something in return. But we are so poor this year that we can hardly manage to keep buckle and things together. Cartie and Frank called this P.m. Also Ruf Lee & Wanda. Has been a fine day. Hope Monday, Tuesday, Wednesday, and Thursday is pretty days. maby I can get the balance of cotton out. Ira and his wife are getting emphaunt. They are wanting to be on their way to Arizona. They ate dinner with us to day. We get so lonesome just us two. we are sending Dorothy a set of knives and forks and a spoon a nice Christ mas gift. Hope she gets along fine. Ruf said he had closed the deal for the Starvoys place at \$38.00 per Acre. If he can keep the Walrus place too he can make it O.K. Clear now 10.50 p.m. This day 34 years ago Starvoys was borned at Thurston Tex. We have not seen any thing of any of them to-day. |  |               |  |       |  |                 |      |                 |  |        |      |             |      |  |  |
|             |      | Mon   | 20  |      | when we got up with out of N.E. call. Claudy Cant pull cotton. Ira is getting restless. But he wants more money than I owe him. Gravis was here for a few mi about 10 A.M. He had come up to make some pictures of a car wreck. fudge Wicks of Ball was with him. We went out and pulled a few bales in p.m. They are too wet and tough.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |               |  |       |  |                 |      |                 |  |        |      |             |      |  |  |
|             |      | Tues  | 21  |      | was cloudy when we got up and stayed cloudy all day. we went to town in A.M. Sent a few packages to some of the kids and I sent mother a box of candy. A Mr Simmons of Abeline, Tex. called to see me about a note I made in 1928 to a Mr wood of Snyder, Tex. wood never complied with his contract so I let rat pay off the note. Mr Simmons marked the notes and turned them over to me "Settled in full." I told him I would give him \$2.00. He pay his gas bill. I told him I would not pay (a note)                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |  |               |  |       |  |                 |      |                 |  |        |      |             |      |  |  |

Wed 29 We all (Oralis, Jim, Ray, Lollie & I) went down to Budo. He had rat mosek his calves. Oralis & I helped him fix his lot fence and he mosek the calves before I left. We came home loaded up the cotton.

Thurs 30 Took Cotton to Terry gin. They were broke down did not get my bale out. I had contract on 1 bale. 8 1/2 @ loan 500H. Paid \$30.00 on bank rate. \$12.10 deposit. Came back home found I was sick. Went back to town to get him some medicine. Oralis & Jim have gone to Budo for the rite. Had letter from Dad and Wrenie her hubby. They are at Ada Okla. They have found no place yet. Said they were going to Calif. That may be O.K. but I am a little leary of it.

Fri 31 Oralis & Jim, Ray came back about 9.30 A.M. He and I went up town. Oralis had to attend a meeting of the Rotary Club. I stucked a lot of corn. Oralis wanted some for meal. Buf and folks came up. Ray and Wanda Lee cant get along very well. They fight and cry all the time. Guess Oralis & Jim will go as far as Suback with Buf & Ida tomorrow. They are going to Suback for some things to go in their house. They will move soon.

Saturday

Saturday January 1 1938

Sat 1 Another New Year. I guess one ought to make resolutions to do better. Well I want to be better by my fellow man than I were the last year. Bud & Ida came for A & J. Lollie also went to Suback with them. They are not back yet. 8.05 p.m. Well here they come now. They had to take Oralis & Jim on to Rales. They did not call Bill from Suback and they did not find him when they got to Rales. Guess he was on road up here. But has not arrived yet.

| Sun   | 9   |      | We stayed home all day. Ira and I played dominoes some. We all went up to the sand hills for some flumb bushes. We got them and went of the well. Cold to day. Nat so call tonight now 8:52 p.m.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |          |       |                 |      |          |       |             |      |       | Wed   |
| Mon   | 10  |      | Sallie & I Ira and wife all went to town early. I had to see several people in town before the bank opened. I saw the U.S. cotton clayer a Mr Melner. He said the sample I left in his office Sat. would go in the Govt loan. We all came back to me William cotton on the Widow Breeding place, and pulled cotton balance of day. I pulled 300# from 11 A.M. to 5 P.M. Sallie pulled 187#. She is all in tonight. She will be on the left in the morning. I do not feel bad over the days work. We had quite a north west wind today. Some sand and cold all day. Now 9:35 P.M.                                                                                                         |          |       |                 |      |          |       |             |      |       | Calif |
| Tues  | 11  |      | Sixty days since Dad and Mr Coop were married in Clovis N. M. It don't seem like it has been that long. All the hopes that I can extend to them is that they get along good. We do not hear from them as often as we should. Would like to hear more often. I pulled 331# bales to day. I am sure tired out to nite. Sallie plays and we sing some. That cheers us up so. Much. I come in tired and she plays the piano. I do not know just what we will do when Ira and wife leaves. They are so much company. Love has been a fine day. Was too hot. Sallie did not go to pull. She said she had some work to do here at home. But I think she has all the bale pulling she wants too. |          |       |                 |      |          |       |             |      |       | Thu   |

Ms. Grathys Coop was married on this date

Mrs. Ira & Coop were married

| Sun   | 16  |      | We stayed home all day. Our first sand storm. It raged all day. Mr Fife and wife G.W. and Hughie Fife and wife Harold and Lattie and Ruby all were here for the day. Had a splendid time. Ira and Ruby his wife ate supper with us to nite. Harold said a letter to me from Alutec was in his P.O. box. Lattie told me she had a hunch the letter was from Jennie telling her that Dat was at her home. But maybe not.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |       |                 |      |                 |       |             |      | Wed   |     |
|       |     |      | <i>Sand storm</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |       |                 |      |                 |       |             |      |       |     |
| Mon   | 17  |      | Lattie & I went to town. She had to wash. I had to sell a bale of cotton that had been rejected by Gov't classer. I sold to Dan Welch for 380¢ per lb. total \$7.17. Sun did like to take my breath. This low grade cotton is a pain in the pocket book. I paid Mission Service Station \$6.60 for Battery and gas + oil. Paid Isa Hawkins \$10.00 for pulling cotton. Still owe him \$9.00. Sun enough the letter was telling me that Dorothy was at Mr Newtons. They wrote as tho her husband had left her. I wish Dat had written the letter her self. They wanted me to send money for her to come home on. I cant send it now. She has caused me lots of trouble and worry in the last year. I have felt like <sup>all</sup> along that he would get her off some when and then leave her. I wish I had told him to be on his way last fall. But I was afraid they would run away and that would have been worse. All I can do is to send for her when I get the money. I do not want her staying down there on them. |               |       |                 |      |                 |       |             |      | Thurs |     |
|       |     |      | <i>Some sand today</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |       |                 |      |                 |       |             |      |       |     |
| Tues  | 18  |      | I pulled cotton most of day. Lattie helped me this p.m. I think I will have a big bale. Ira went to town. He started down to Budo. But had a blowout and stayed in town to have a vulcanizing job done. Had letter from Dat. She said she and W.B. were going to W. Falls.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |               |       |                 |      |                 |       |             |      |       | Fri |

|                            | Month | Day | Year |                      |               |       |                                |                 |       |                            |

Wed 19 We finished the bale pulling for this crop of 1937. About 18 bales of 500 lbs. wt. 17 bales in all. Ira and wife moved to Buds place this P.M. The B.E. Needles man out of Lubbock called to see me to nite. I told him I could not pay him at this time. But would see what I could do tomorrow. I sure would love to pay him and all other accounts I owe. I paid Ira \$10.00 on his cotton picking. I also sent Southwestern Life Insurance Co. Dallas, Tex. a check for \$28.28 payable 2-10-38. Looked a little rainy tonite.

Thurs. 20 Sallie & I took bale cotton to gin. I sent Needles of Lubbock M.O. for \$6.00. Sold Cotton to ~~Frank~~ Dan Welch for \$4.75 per hundred. P.O. money \$1.00 order to B.E. Needles of Lubbock. Paid up my ginning and what I had borrowed from gin \$8.00. When we came home we found a letter from Frank Drake of Altus, Okla. stating that Nat was at his place. That her husband had gone away, "saying he was looking for a job." But he said he did not think he aimed to come back. So we went down to Buds to get Ira and Ruby to come and stay here, while we go to Okla for Nat. They are here to nite. Looks rainy now 11.55 p.m.

Fri 21 When we got up we found things covered in snow. I thought for a while we would not start for Okla. About 9 a.m. the snow began to melt. So we started out. Went by Ralls picked up Bill. He wanted to go. And I wanted him to go, so he could do the driving. We made it Ok. till we crossed Red River. Had a dirt road from there on. And it was mud all way to Alveste except 3 or 4 miles. We arrived about 8.30 p.m. They all seemed to be surprised that we did not get in sooner. We were all wore out.

P.O. money \$1.00 order to B.E. Needles of Lubbock

| Month | Day                  | Year          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                 |      |                 |       |             |      |
| Wed   | 26                   |               | I finished resetting the Chinese elms in fore noon. I picked up the higia heads the Negro left when he cut my bundle feed. Some 4 or 5 hundred pounds. I also put a lot of corn stalks on the body of Jack the old family gray mule that died last fall and set them on fire. This body was pretty well burned when I came to have. Lettie called to see Sallie & set this p.m. It has not been so cold to day. Only things were froze up early A.M.                                                                                                                                                                                                                                                                                                                          |                 |      |                 |       |             |      |
| Thurs | 27                   |               | I did think for a while I would go down to see what the boys are doing. But decided not to go. I ought to go and help them stack feed. But I do not feel like it. I have been a little down and out since I had to go to Okla. We all went to Littlefield this p.m. I wanted to pay up Dats and Bill's insurance. Sallie discontinued here. I could not find the collector Mr. Tinsman. But I found his house and left \$1.00 to be used to pay up for the kids. There ought to be some left. Ira and Ruby came up to site for their mail. I payed Ira \$7.00 on what I owe him. I think a bal. of \$2.85 is yet due him. I am scattering the clay that came out of the dug out all around where the wind blows the top soil off. Sun has been a fine day. Warm and pleasant. |                 |      |                 |       |             |      |
| Fri   | 28                   |               | I finished gathering corn and hauled in the heads I picked up. I moved some of the dirt that came out of the cellar. I scattered it about where the sand blows the worst. Ira and Ruby came by just now on way to Okla. They had to make a quick trip. a little cold tonight.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                 |      |                 |       |             |      |
| Sat   | 29                   |               | I did intend to finish the dirt moving. But the wind came up and the sand began to blow. By noon or a little after one could no see 100 yds. We went to town late for coal. I intended to go home with Lettie but she and Sallie were not in town. a little cold tonight.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                 |      |                 |       |             |      |

## Butter Account

Sunday Jan. 30, 1938.

| DATE  |     |      | SOLD TO OR BOUGHT OF                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Quantity Sold | Price | Amount Received |      | Quantity Bought | Price | Amount Paid |      | Month |              |

| Sun   | 30  |      | <p>The day came in cold a N.E. Wind. The wind mill was froze up tighter than it has been since I put it up. We set around the stove all day. Mr Miller came in in the after noon. He wanted me to push his car home as he could not get gas thro his gas line. I did. Bud and father called in p.m. for a while. Pat went home with them. I did not want her to go. But she went. I had rather she would not mention going with them but we cant help it. It is an embarrassing trial any way around. Cold tonite.</p> |               |       |                 |      |                 |       |             |      | Wed.  |              |
| Mon   | 31  |      | <p>We did not do any thing in fore noon. Not ready to go down to Bud after noon. We started out on the high way and the clutch went out. I could do nothing but come back. Milard Garm came along I got him to push my car back to house. Cold tonite.</p>                                                                                                                                                                                                                                                             |               |       |                 |      |                 |       |             |      |       | Warm tonite. |

Tuesday Feb. naty. 1. 1938.

Tues 1 an other birth day. 5 & 8 yrs old to day.  
 I have had enough trouble and bother in  
 the last 12 months to run any man with  
 any gray matter at all bug haunce. Just one  
 thing than another. Now we are up against  
 the worst of all. and no money to help out.  
 and it seems like every body is out with  
 us. Of course they are not but one that has  
 always kept his chin up. cant keep from  
 thinking so. I walked nearly to town to get  
 some one to come out and push my  
 car in. So I could have it fixed. Young  
 Gordon came out for it. The Ford people are  
 doing the work. dont know just what it  
 will cost me. Shorty Kirkland brought me  
 home. Laiter boy and folks came out to visit.  
 Had letter from Jim & Bill at Ruler.  
 They have started there picture shop.  
 hope they do well in it.

Wednesday February 2, 1938

|       | DATE  |     |      | SOLD TO OR BOUGHT OF                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Quantity Sold | Price | Amount Received |      | Quantity Bought | Price | Amount Paid |      |

| Wed.  |       | 2   |      | I waited here till 10 A.M. for Bro. Gale, who was to come up here and help me castrate the two shats. But he did not show up. I went to town, had to walk near all the way in. They had my car ready when I arrived. Total cost for the job was \$7.75. Less than I thought it would be. I went on to Amherst got my check of \$29.00. I worked one day or part of a day on the committee. (The Local Cotton comm.) Came back home ate a bite then Lallie & I went down to Buds. They were not at home, so we drove on down to Harold's. Out was at his house. We left before nite came by Buds. He asked me to drive him to Littlefield. He wanted get a ring gear and pinion for his car. We had to hunt all over town before he found it. Came on back to Buds. Lallie & Bud were ready to come home. We came by store bought a loaf of bread came on home milked fed stock. Had supper ready by 9 P.M. I was tired and hungry when we got home. Will have to sell some feed to pay for my car fixing. Pleasant to nite. We had quite a sand storm today. |               |       |                 |      |                 |       |             |      |
| Thurs |       | 3   |      | I was up late. Had nothing much to do. I worked at the yard cleaning. I pruned the trees and watered them. Velma / Beth my niece and her little boy came by and stayed till Roby her husband came back from Merleboro. They live at Amherst. He drives a commercial truck. The little boy (Gordon) wanted to ride the poney. I let him ride for a while, a nice day. A little windy for a while this P.M. Now 10.10 P.M. I was to haul some feed in to town and pay the Chester Water Co for fixing my car. But Ira Hawkins has not come back with my trailer tire he borrowed to go to Chla.                                                                                                                                                                                                                                                                                                                                                                                                                                                                |               |       |                 |      |                 |       |             |      |
| Fri   |       | 4   |      | I worked on the water tank all day. It rained. Otis came up for a while. Has been warm all day. Was foggy this A.M. Looks rainy tonight now 10.35 P.M.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |               |       |                 |      |                 |       |             |      |

## Yearly Butter Account

Saturday Feb. 5. 1958.

| Year                                                                                                                                                                                                                                                                                                                                                                                                  | Quantity Produced | Value<br>Dolls. | Sat.                                                                                                                                                                                                                                                                                                                                                                                                  | 5                 |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     | Thurs |
| I worked on the tank till noon. We all went up town in p.m. We drove out to the West tourist Camp to see Anna & Gaither Cox, but they had left. Bought a few bro. and came home. Not so cold tonite.                                                                                                                                                                                                  |                   |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     |       |
| Sun                                                                                                                                                                                                                                                                                                                                                                                                   | 6                 |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     | Fri   |
| H.G. and Lattie came up for the day. Gaither Anna Cox also there children and Lee Cox come for the day. Was glad they come. Buf, Ida said they would come up too. But they did not. Ira Hawkins and his father came by tonite for some milk and to bring my tire home. Was some ice early a.m. One of the pigs is sick. I am afraid it will die. Can't help it now.                                   |                   |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     |       |
| Mon                                                                                                                                                                                                                                                                                                                                                                                                   | 7                 |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     | Sat   |
| A cold S.W. wind blew all day. I did not get out much to-day. I went to Sudan this p.m. saw Sam Colburnham. He said he would pay me \$10.50 per ton for white feet, hignia or Kiefer. But seems to be better satisfied now. Hope she stays that way. The skate seems to be a lot better tonite. Now \$9.15 P.M. Not so cold tonite.                                                                   |                   |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     |       |
| Tues                                                                                                                                                                                                                                                                                                                                                                                                  | 8                 |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     | Sun   |
| I loaded up what I thought was about 2500# hignia heads on trailer. When I weighed I had 3550#. Check for \$18.63. I paid Chester Harvey Ford Motor Co. \$7.75. Paid George Briscoe \$1.00. Paid Vincent \$1.19 Bought suit underwear .66¢ Bought drum oil \$4.40 Bought 7 past at 7¢ each. The heads sure do weigh out heavy. Came home and worked on the dirt tank bal. of day.                     |                   |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     |       |
| Wed                                                                                                                                                                                                                                                                                                                                                                                                   | 9                 |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     | Mon   |
| We left early went down to W. G. Seaderman's for some trees he wrote me to come and get. He gave me a lot of cherry, plum, peach (3) Elm and other kinds. Shrubs also. Wanted me to take more. On down to H.G. Harold has gone over to see some cows at Bill Sanborn's place. We bought two and Sanborn loaned him one \$6.00 per head. We came home early and I put out most of the trees. Nice day. |                   |                      |               |                                |                  |                      |                                    |                 |                            |                       |                     |       |

| Month | Day | Year |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |               |       |                                |                 |       |                            |       |
| Tues  | 15  |      | I spaded up between two rows of fruit trees and hauled out 9 loads of barn yard manure and spread it over the garden. Put nearly a load in the yard for Sallie's flower bed. Am real tired tonite. Laid money in the east. Saw 9.50 p.m.                                                                                                                                                                                                                                                                  |               |       |                                |                 |       |                            | Sat.  |
| Wed   | 16  |      | The N.E. blizzard struck some time in the early A.M. All outside was covered in ice when I went to milk. Has been either sleeting or raining all day. Not any hard rain but slow. The stock seem to be O.K. They need more to eat. Both shates crowded in our oil drum. I have two drums in the pen. But they want to sleep double. Have stayed in all day. Out of coal as usual when a cold spell comes. But we moved oil stove in living room and all have been O.K. all day. Saw 10 p.m.               |               |       |                                |                 |       |                            | Sun   |
| Thurs | 17  |      | Has been a bitter cold day. All day I mean. The stock are not too well provided for shelter. I went up town in afternoon. Had a rate at Bank I had to reveal \$231.00. Had it set up for 30 days. Interest and principle all amounted to \$246.4. I borrowed \$10.00 all \$256.4. The feed has gone down so, now I hate to sell and take the loss. But will be forced to sell soon. I think the snow is falling out doors. I can't see out side. Saw 9.45 p.m.                                            |               |       |                                |                 |       |                            | Cold. |
| Fri   | 18  |      | The snow had things covered up this morning when we got up. A big snow fell. Has not melted much to-day. I wrote the Swifts packing company's head man of the poultry department a Mr. Smith a few days ago. Asking him if his Co. would be interested in a folding chicken coop. I had a letter from him to day. He said for me to bring my model to Fort Worth and they would be glad to see it and let me know if they would be interested in it. A little bit of snow was in house all day. 9.20 p.m. |               |       |                                |                 |       |                            |       |

| Sept. 19 | The snow did not melt much today. We all went to Sudan this p.m. Father Cox wife and children and Lee Cox came home with us to stay all night. Well we will have some domino games to night. A cold south wind is blowing. Now 7 p.m.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |       |                 |      |                 |       |             |      |
| Sun 20   | <p>           Were some excitement since Saturday night at around 10 p.m. we were playing dominoes some boys came up to house and called me out and said - 'We need a car. We have had a wreck down toward Smilesboro.' (They were all scared) and some of the girls are badly hurt. We filled up with water Father and I took one of the boys in my car and William Cox took other two boys and Lee Cox in his car and we went to the wreck. One of the girls was badly hurt. I took the four girls in my car and one or two of boys and left for Sudan. Dr. Ford gave all 4 girls first aid. The two cars went head on in the dark. 12 in all. 4 girls and 5 boys were in a Plymouth and 4 boys in a V8 pick up. They were all from Littlefield. That is where they started from on way to Clovis N.M. The core car was trying to get away from the pick up. Hence the dark driving. Each car turned their lights out and in maneuvering around they headed in to each other. They were all shaken up and bruised. A Mrs. Byham living east of Old Pueblo had a daughter in the wreck. She was the one that was hurt the worst. It was 1.4 m. when we came home. Bud and Ida Wanda Lee came up for the day. Father and folks left in late p.m. Cold to night. N.E. wind with a sleet and little snow falling now. 9.05 p.m.         </p> |               |       |                 |      |                 |       |             |      |

## Egg Account

Monday Feb. 21. 1938.

| DATE  |     |      | SOLD TO OR BOUGHT OF                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Quantity Sold | Price | Amount Received<br>Dolls. | Mon   | 21  |      | We made ready went down town. Sallie straighten up the insurance premium payments. The agent was in town I called him to car. I sent Saturday Cream Check # 8999-2, 19-1938 to The B. E. Needles Tire Co. Lubbock Tex. The amount was \$2.30 making a total I have payed of \$8.30. An other snow fell last nite. Things are wet now. After we attended to what we wanted to do in Lubbock we went down to Harolds. He and Lattie were gone. We came back to town for some coal. We met Harold & L. They were starting out to our home. We all had a late dinner. Ira and little boy called this p.m. Ira wanted some corn. The snow all melted today. Nearly dark 9.55 p.m. |               |       |                                |                 |       |                            | Thurs |
| Tues  | 22  |      | Washington's Birthday. No mail. Harold and Lattie came up early and we went with them to Praces. Bill and Jim were very busy making the Dr. pictures some were pleased and nat. How ever all one can do is do the best they can. We did not get home till near dark. In fact was dark. Baby Kay came home with me. She does not cry for Jim & Aralis. The snow is most all gone. Think we have a fine plowing season now. A pleasant day. A little cold in the shade and no fire. Near 10.15 p.m.                                                                                                                                                                            |               |       |                                |                 |       |                            | Fri   |
| Wed   | 23  |      | Was cold and bad all day. I did not get out much. The snow is all gone, but the ground is really slippery and was a little cold to day. We sure do enjoy Kay's company. She is very place and so congenial and pleasant about it. She asked for 'Mame' and cryed a little to nite when they went to put her to bed. But she put "Micky Mouse and Donald Duck and doll" in bed and she went to sleep. She eats oranges and wants peanuts to eat but let her eat peanuts with out roasting them.                                                                                                                                                                               |               |       |                                |                 |       |                            | Sat   |

| Thurs 24                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                      |     |      |               |       |                 |      |                 |       |             |      |
| <p>Began to snow out of last just as we got up and snowed all day. However the snow has melted as fast as it fell. Not too much left at nite. We just set around the stove and play with Ray. She is lots of company. She calls for her mama once and a while. But we get that off her mind. The cows are failing in their milk. I am having to feed more than usual. This weather will damage my feed head some. Can't help it now. Now 9:35 p.m.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                      |     |      |               |       |                 |      |                 |       |             |      |
| Fri 25                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                      |     |      |               |       |                 |      |                 |       |             |      |
| <p>Was cold and every thing froze up when we got up this morning. But warmed up early. When we had finished separating and tending the stock, we got ready and started down to Harold's. In the mean time the thaw had started. We met Harold about 3 mi from home. He and Lattie had started up here. He and Bud had fixed it up they would all come here for dinner. It being there 5th wedding anniversary? So we came back home. Harold &amp; I went to town. Bud and Lda did not get here till after 12 o'clock. We had dinner and set around bal. of day. Ray and Wanda Lee had a great time. She (Ray) is calling for her mama. She is just the age when she does not understand what mama is not her. The snow is all gone and the lots are in a mess of mud. But a fine plowing season. Gorvin came by wanted to buy my heifer calves. He offered \$30.00 for the two. I wanted \$40.00. Was offered \$38.00 from an Amherst buyer some time back. Now 10 p.m. Clear tonight.</p> |                      |     |      |               |       |                 |      |                 |       |             |      |
| Sat 26                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                      |     |      |               |       |                 |      |                 |       |             |      |
| <p>I worked in garden all forenoon. We all (Lattie sat, P.) went to Sudan in P.m. Cream check of \$2.25 which I introduced to B.E. Needles tire. a Lubbock Tex. #13476 drawn on Lubbock Poultry &amp; Egg Co. L. Tex. We did not stay in town long. We are looking for the kids from Sales. Ray is wanting her mama now. She went to sleep.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                      |     |      |               |       |                 |      |                 |       |             |      |

Warm.

9 p.m.

Sun 27 About 10:30 p.m. yesterday or last nite Coolie Jimmie and Bill came in from Bales. They tired out. Ray was asleep when they came but they had her up at once. Bill has his new suit on. He looked splendid in it. He brought me a nice pair of shoes. But they were too small. That is they were too tight and he took them back for exchange. 8 1/2 si. Bill went down town this p.m. for a while. They all left about 6 p.m. we miss Ray. She was lots of company. I think Jim & Bill are doing quite a bit of picture work now. Looks rainy to me. Would like to see it quit for a while now. Now 8:33 p.m.

I had Bill to take the check to B.E. Needles of Lubbock. As they went home, Oss Grant and wife Arrie called for a while this a.m. They are moving from Alvestee Okla to Portales N.M.

Mon 28 Mr Peter man gave me a straw stack on his place if I would haul it out. He said he did not want it and would have to burn it if I did not want it. I hauled out 7 loads today. put it in the place where the washer came last year, when the big rains came. Has been threatening rain all day. Started raining about 2 hrs ago and is raining now 10:25 p.m.

a poor fellow (an old man) came here to day about 11 A.M. said he wanted something to eat. Sallie told him to wait and she would have dinner ready by 12 noon. So he sat down out in the yard and she fixed him some dinner. He sure did enjoy the feed. He said any thing to eat was late to him.

Poor old fellow. what has he in view? Old enough and so poor he can call home. Nothing to eat only what he begs. That is awful. Those white locks looked so pitiful. I just cant turn a hungry person away. Especially an old fellow that down & out. Now 10:30 p.m.

Tues 1 Was wet and cloudy when I got up. I was ready to go to Amherst by 8 A.M. went down town and on over to Amherst with Ben Pience. We did not learn much. The main speaker did not know much more about the New Government form bill than the County Committeemen or the Local Comm'men. I saw even we need all the dope any one can put out. The main issue he stressed was the voting on the quota issue which 12<sup>th</sup>. No one knew just how to vote on that subject. Because no one at this time knows what he is voting for. Hope they will clear this up soon. Came back home hauled two loads of straw and scattered it in south field. I raked up a lot of Sudan seed, where Peterman thrashed.

Clear  
acc p.m.

Now 9.25 P.M.

Wed 2 We worked all forenoon cleaning the Sudan seed. I guess maybe 225#. Well that is better made than loss. They would have rotted if I had not raked them up. I hauled straw out to the south field and two loads in the stomp lot. Harold & Lattie came by this late P.M. Has been real everm all day. It is now 9.30 P.M. H.G. & Lattie called this P.M.

Warm.

Thurs 3 We heard a rumor that one of the "Miller boys" had been killed at Muleshoe, Tex. Not thinking any thing more about it at the time. For there is lots of Millers. But later I ducted that it was one of our near neighbors Bill Brisco's wife's people are Millers, and I noticed lots of cars going up to Brisco's house. So I shooed and went over to find out about it. Sure enough the one called Jake (I think that is what he is called) was killed Tuesday about 11 A.M. I could not understand why Brisco's did not let me know. We went to the funeral at First Baptist church at Sudan. I have been sick all day. A bad cold. Some sand to day. Am sick. now 9 P.M.

said all day.

| Fri   | 11                   |               | I was up early and ready to go to Auburn. met Tom Kent at Suban. I went in his car. He and I did intend to go to Suback to the 1:30 p.m. State speaking. But we decided not to go. I did not want to go. I felt so bad. Came on back home. Cleaned some cotton seed. and washed an lister. One Grant came by for the seed Maize. \$6.00 worth. He left money with Sallie. I do not get well of my cold fast. Now 10 p.m.                                                                                                                                                                                                                                 |                 |      |                 |       |             |      |
| Sat   | 12                   |               | I went down to Suban. Opened polls at 6 a.m. gin for the Refersan? vote on the quota plan. I came home for dinner. Took Lattie and Dat back to town. We closed polls at 7 p.m. 233 yes votes and 28 no votes were cast. Dat went home with Lattie and S.H.B. when we arrived home the cows were not up. I guess they are out in the field. Can't figure out why they got out unless the stock put them under the fence. Now 10:45 p.m.                                                                                                                                                                                                                   |                 |      |                 |       |             |      |
| Sun   | 13                   |               | We stayed home till afternoon. Went down town in p.m. to hear the election went about 8 to one (1) for the cotton quota, a little wind and sank to day. Hope we do not have any bad sand storms this spring. Now 10 p.m.                                                                                                                                                                                                                                                                                                                                                                                                                                 |                 |      |                 |       |             |      |
| Mon   | 14                   |               | I was ready to go to Auburn early. We were in a meeting till noon. I learned Uncle Bob Brisham fell dead last nite 7 or 8 p.m. I came back home. The wind was moving the sand. It has been awful bad this whole afternoon. Sallie and I went to the funeral this p.m. A big crowd at the Methodist Church. The masons had charge of the funeral. The boy mare cut her foot this a.m. To bad just when I got ready to plow. But was here for dinner. Dat has not come home yet. I sent check for \$2.00 to B.E. Needles Suback to apply on tire account. I traded 2 \$1.00 to J.R. Dean for a \$2.00 check. Total Paid to Needles \$4.55 Bal. due \$9.65. |                 |      |                 |       |             |      |

Sandy day.

Dean check \$2.00 to Needles Suback

Tues 15 Oh! my? The sand sun is a pain the way it drifted up. The feed stacks bath heads and bundles are blown full of sand. I think the wind and sand blew all day and all yesterday. I worked on the lister till about 4 p.m. Switched up and started plowing. The ground plows fine. The stacks are soft and spongy. They swayed badly at first. Dat has not come home yet. I guess we will have to go after her. But I feel so bad all the time. I thought I had better plow while I feel like it.

Now 10.15 p.m. Had letter from Sister Fannie L. A.C.

Wed 16 I plowed all day. Finished the sudan plot. Started on the cotton land. The stack did not get so hot today. Had letter from Jennie Drake Sallies sister of Alustie, Okla. Stating Mr Newton was back home. He seems to be better and is sure of a cure. Now 8<sup>10</sup> p.m.

Thurs 17 I plowed all A.M. Sallie & I went down to Buds & Ida's or by then we started to Harold's and Lattie's to bring Dat home. While at Buds & Ida's, Lattie & Dat came by. We came on home some sand and wind. We went to the play at Sudan. "The Womanless Wedding." Sure was lots of fun.

Fri 18 I plowed all day. Am tired to xite. a little cold. Wind out of N.E.

Sat 19 Did not plow. Sallie was all broke down. She has spells and seems she cant outdo herself. I am in such a state of mind I do not know what to do. We have had so much trouble the last year, and the kids cant get along. That sure does bother one. I have something coming on my left ear I think some time it is a cancer. That and all the other trouble sure makes it hard to carry on. We went to Sudan this P.M. Now 10.20 P.M.

| Sat   | 2   |      | We caught up 18 hens took them to Sudan sold for 11¢ per #. They weighed 75 # \$8.50. I paid \$8.00 on car tags, gave check for \$3.50. Days cost \$11.50. Sallie went with me to Littlefield to get Sallie's glasses. They seem to fit her eyes Ok. And look good. Sallie agreed to take up the 200 baby chick contract I booked with Mulier. I decided the 200 I already have is enough. I do not want any more debts than I can help at this time. I do not know just when I am libal to need some money. Not so call tonite. Now 10.05 p.m. |               |       |                                |                 |       |                            | Wed   |
| Sun   | 3   |      | We decided we would go down to Buds for the day. But when we arrived at his home, we found out he and Ida and Wanda Lee had gone to Ball's the day before. So we came back home. Would have gone on down to Harold's but we think they went over to spend day at Bulah's. We cut the heat from the chickens. Guess they will be Ok. Now 9 P.M.                                                                                                                                                                                                  |               |       |                                |                 |       |                            | Cold  |
| Mon   | 4   |      | I plowed till noon. Had car from County apt. to come to Amherst for my compliance check. We went over in p.m. Check \$64.47. Came back to Sudan. I paid Bass \$10.00. Foxworth Galbreath Lbr. Co \$5.00 bal. due them \$1.60. Also paid Dr Spark \$5.00 bal. due him \$5.75 on date glasses. I took 75# hogan and had it ground for the little chickens. Bought another sack of the growing mash \$2.40. I took 170# shelled corn at \$1.25 per hundred lbs. \$2.12 to add on the chick feed. at Walter Lebring feed mill.                      |               |       |                                |                 |       |                            | Thurs |
| Tues  | 5   |      | I plowed till noon. plowed some in afternoon was held up by Buck Slaughter for a while. He called by to collect \$1.40 I sent him. I paid him about the time he left Bud, Ida and Wanda came up. I plowed only two more mounds. We all went home with them. I thought it would be Sallie good to get away from home for the rite. We had a big domino game I ra, Bob and I. Ida beat all the games.                                                                                                                                             |               |       |                                |                 |       |                            | Snow  |

Wed 6 We did not get home till about 10 A.M. Bud and I went to work and fixed up the hen house for the baby chicks. Moved them out of the dug out in to the hen house. About 3 P.M. a N.E. blizzard hit here. Lallie & I worked to line the brooder house. The lamp we fixed under a large piece of heavy tin waulf that put out enough heat. We got it fixed up the best we could and then decided to take the chicks back to the cellar. I lit the brooder stove and moved them back just before nite. They would have froze or smothered out in the hen house for boy believe me it is cold now. I guess it is freezing and the high wind from N.E. Things will be froze up by morning. I think. I think I am in luck to have a good cellar to keep them in. It is now 9:50 P.M. and the wind is howling and the sand is moving too. Lallie seems to have a better appetite? She ate some supper.

Thurs 7 Boy! was it cold this morning? and has been all day. Every thing that had budged out is killed. The North wind has blown for the last 24 hrs. up to 3 P.M. today and is still howling out of the north now. 10 P.M. we have moved the oil case stove in to the living room and believe it or not we stay close to it. The chicks are OK. Since we moved them back to the cellar. They would all have froze to death last nite if we had left them in the brooder house we fixed up for them. Harold and Lattie came up for the day. The stock and cows and hogs are all shivering. Or was when I fed and milked. And it is as cold now as then. And the wind is just as high. I think all the sand that moved and drifted east on Mich. 14. has gone south since this North wind started. Snowed a little today.

Mon 18 I was in Amherst by 8 a.m. We worked thru the Sudan work sheets and had a list by noon that had not signed up. I took them and started out. Saw most of the boys today. But have two or three that I will have to contact tomorrow.

Tues 19 I went out east of Sudan to see a Mr. Davis and he said I would have to go see Ben Beachamp. He has the Davis land rented, so I did. On to Amherst made my report to County Agent. Came back to Sudan on aut home.

Wed 20 I went to Littlefield with a Clovis trucker. I paid the B.E. Necker's time.

P.E.N. agent \$2.00. Receipt No. 6869. That leaves me owing a balance of \$2.20. Back to Sudan on aut home. Shelled some corn. I am tired and go to bed now 9:15 p.m.

Thurs 21 The sand started early, by noon it was bad. We could do nothing but sit and watch the sand go by. Lallie & I went over to see some pigs at the Rev. Cole's place. They were on fine pigs \$5.00 per. We went on to town, staying for a short while at <sup>Roice</sup> Biller. He is still sick. On to town and aut home. The wind calmed down about 3 or 4 p.m. I am trading my hog to Bro. Cole for 3 of his pigs and whatever it brings on the Clovis N.M. hog market. He will call by tomorrow for the hog.

Fri 22 Henry Damon, Bro Cole came by picked up the hog. They came back after noon. The hog weighed 220# sold for \$7.80 per hundred. So I have the three pigs and \$2.16 out of my hog. He did not weigh as much as I thought he would. Harold & Lattie came by today. Det went home with them. A little call to night.

Sat 23 I worked out in field but in forenoon. Went to town in p.m. Took 187# shelled corn to Walter Cebing. I still owe him 43¢. We had L. to Nite. Singing. Mr Otwell and wife, Mr McWilliams and wife, Mrs. Breeding and son. Also the Otwell and me Mr. Children. We sure was glad they came over. Det went back to bed.

| Month | Day | Year |                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                      |       |                                |                        |       |                            |             |
| Sun   | 24  |      | We went down to Buds, and picked them up and on to Harold & Lattie. Had a fine feed. Lattie can shape up a feed quick. We won at home before note.                                                                                                                                                                                                                                                                                                      |                      |       |                                |                        |       |                            | Sun         |
| Mon   | 25  |      | I took the two mares over to Williams Jack. Had to leave them. He (W.) brought me home. I worked about place till dark and sand put me in door.                                                                                                                                                                                                                                                                                                         |                      |       |                                |                        |       |                            | Large storm |
| Tues  | 26  |      | I worked with the feed. Fixing it so it would not get wet through in forenoon. We went to Littlefield this p.m. Did not stay long. A claud came up in S.W. So I hit for home. But the storm caught us about a mile from home. Ray did not rain. hail and the wind blew hard. we could not get out of car for a while. I was afraid the chicks would all be killed. But not so. I payed the last day ment to B.E. Needles' agent \$2.70, at Littlefield. |                      |       |                                |                        |       |                            | Mar         |
|       |     |      | \$2.70 paid to B.E.N.                                                                                                                                                                                                                                                                                                                                                                                                                                   |                      |       |                                |                        |       |                            |             |
|       |     |      | Demmett {<br>Marr. }                                                                                                                                                                                                                                                                                                                                                                                                                                    |                      |       |                                |                        |       |                            | Large storm |
| Wed   | 27  |      | I worked out in feed lot drying out the feed. It was not very wet. H.G. and Lattie came up and wanted us to go to Clovis to the opening ball game. Clovis - Lubback. 8-7. Clovis was late when we arrived home. Cold tonight.                                                                                                                                                                                                                           |                      |       |                                |                        |       |                            | Tu          |
|       |     |      | Paratt {<br>Marr. }                                                                                                                                                                                                                                                                                                                                                                                                                                     |                      |       |                                |                        |       |                            | Large Stb   |
| Thurs | 28  |      | I plowed up some fence rows in A.M. worked in feed lot after noon. I have about all of the loose grain cleaned out now. some yet at bundle stack. We drove over to Lonie Fox' store after supper just came in. Now 8.45 P.M.                                                                                                                                                                                                                            |                      |       |                                |                        |       |                            | We          |
| Fri   | 29  |      | I worked all fore noon cleaning grain Bud & folks came up for a while this P.M. Bud was down in the dumps about his feed. It did not turn out like he thought it would. Hope mine done better. A claud in S.W. Now 10 P.M.                                                                                                                                                                                                                              |                      |       |                                |                        |       |                            | Large rice  |
| Sat   | 30  |      | I worked on the feed stacks to make them shed water. we want to town. Sent 10 fryers 25¢ each to Dad Kent. Raining now. 10 P.M. will clean out 100 # of haffer seed for Dad Kent 2¢ per lb. but went down to millers.                                                                                                                                                                                                                                   |                      |       |                                |                        |       |                            |             |

|                        | Month | Day | Year |                      |                            |       | Dolls.             | Cts. |                              |       | Dolls.         | Cts. |

Tues 10 I fixed up the trailer went to town, dot  
 went to where I got 7 bu. of cotton seed  
 from Tom Kent \$200 per bu. I had payed him  
 \$500 on seed. Our hint \$200. payed \$110 for the  
 washing. Went by Bro. Cole got sugar & pigs  
 and brought them home. They are crying  
 for their milk tonight. But we will not  
 have milk for them for a few days I hope.  
 The cows are passed due now.  
 Mrs. Breeding came over and stayed  
 most of the day. The only woman that  
 has called for an all day visit since  
 we have lived here. A nice day. Seems I  
 ought to be planting cotton but it is too  
 early. I fixed up my shop outfit this  
 p.m.

Wed 11 It is 'set' around all forenoon. G. F. Broyles came  
 by and wanted to thrash my feed. Said  
 he would thrash and deliver grain to el-  
 evator for 7¢ per C. W. I. I told him to get on the  
 job. Kaffer corn at 56¢ per hundred. Maize  
 60¢. They thrashed one truck load. I will not  
 have much more than half what I thought I  
 would have.

Thurs 12 They came back and finished up the thrash-  
 ing. H. G. & Lattie came up for a while dot  
 went home with them. Mother, Lattie and  
 I went down town this p.m. I had 14250#  
 white grain 6920# maize \$1500+ for thrashing  
 and haul. My check is \$108.40. Sure is not much  
 out of my feed. But I was afraid would sit  
 in to raining and ruin a lot of it. After we  
 came in from town an awful hail and  
 rain came up from the north. The hail  
 was big. But no large hail stones about the  
 size of quail eggs. But the ground was  
 covered. I went out to turn my car around  
 and I could not get out.

Hail  
 rain

| Mon   | 23  |      | I started in to planting cotton The ground is in fine shape. Think the cotton will come up quick.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                      |       |                                |                        |       |                            | Fri   |
| Tues  | 24  |      | I planted cotton near all day. Harold and Lattie came up for dinner. They have no planting season. Awful dry. They say I had to go to town for some cotton seeds. I fought from Cecil pain. Lots of sand in the seed. The seed wts were 24 & 8 H. I think I have the weights set down ant at the shop. Left for home Del Rio. 3.30 A.M.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                      |       |                                |                        |       |                            |       |
| Wed   | 25  |      | I planted cotton till near nite came up an awful sand storm out of a cloud in N.W. Sure did blow. No rain. A little hail. The sudan is up.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                      |       |                                |                        |       |                            | Sat   |
| Thurs | 26  |      | I finished planting cotton noon. Came in for dinner found Sallie & Dot in an argument. So Dot decided to leave. Sure did hurt me when she started away carrying her suit case and coat. I got in car and picked her up. Gave her \$2.00 all the money I had except \$1.00 which I had to spend before I got back home. I took her to Texico N.M. That was the hardest trial I ever went thro. When she got out of the car I could do nothing about it. She said she was getting out on her own. I have done evry thing I could to keep her at home and satisfied. But she would not be. And I could not stand to see her walk away and no money. What I gave her was not much. But all I had. All I can do is not wish her well, which I do. I sure did feel sorry for her. But I could not talk her in nation to come back. I did not do any thing only harrow some sudan before nite. Cleve & Hersell Browley come down and tell us they saw Dot in El Paso. Thanks to them. More trouble and worry. I pray God that she will take care of her. |                      |       |                                |                        |       |                            | Sun   |

She did<br>intend to get some dope for the chickens<br>but forgot it. I left 50¢ at Suckup Cafe<br>for the Insurance man. Harrowed field<br>to pull in some fresh dirt as well<br>as to break the crust. That will keep ground<br>from blowing.                                                                                                                                                                                 |                  |       |                    |      |                    |       |                |      |
|                                                                                                                                                                                                                 | Tues  | 21  |      | I had to go to town for the chicken medicine<br>100. Tablet \$1.00. We caught each chick 1/2 tablet<br>to some and 1 whole tablet to others.<br>I rigged up a single row horse sled. Striped<br>some. did not like the work. Hitched on<br>to the drag harrow and finished the day.<br>Nice day. A little hot. But no wind.                                                                                                                                    |                  |       |                    |      |                    |       |                |      |
|                                                                                                                                                                                                                 | Wed   | 22  |      | I harrowed the N.W. cotton this Am. Finished<br>balance of cotton. Kaffer, Sudan and Cone. Corn.<br>My feet are sore and 3 blisters. This walking<br>behind a drag harrow is not what it is<br>crooked up to be. I guess I will plant some<br>more tomorrow. Having fine weather now.<br>The chickens seem to be some better.<br>None died to day. Mother had some letters<br>from Pruitt-Moppie. Octave and Edg.<br>She gets a kick out of receiving letters. |                  |       |                    |      |                    |       |                |      |
|                                                                                                                                                                                                                 | Thurs | 23  |      | I plowed sudan grass most of day. Planted<br>cotton the latest I ever planted cotton just a<br>small place where the sand had<br>covered the old stand up. Bud and<br>Jalpa called for a while to day. We<br>went over to the Fox store for some ice.<br>Labs a little rainier tonight. The Kate<br>mule is about all in. She can't hardly<br>walk. I am down to two heep, and only<br>one of them is very good.                                               |                  |       |                    |      |                    |       |                |      |
|                                                                                                                                                                                                                 | Fri   | 24  |      | I started plowing sudan. Did not plow but a<br>few rows. Started to rain. Had rained near<br>all day. The ground is full of water.<br>Joe Linn whiped the germ man. 2 1/2 mi quick work<br>about two. for pay of \$3.20, 2.45, 2.00                                                                                                                                                                                                                            |                  |       |                    |      |                    |       |                |      |

Rain.

Thurs 30 We got up about 6:30 A.M. while I was feeding. A truck stopped at my driveway. Dat and her husband came up to the house. They had come in from Amarillo. Will write some more in near future. I planted peas and Red Top cane till about 4 P.M. Ran out of soap, flavored bath of P.M. I had to go to the drug store for some tobacco. The folks all went with me.

Friday July 1 1938

Fri 1 I took Dat and husband to Farwell to catch out for Amarillo. Came back home and planted cane. The crop is all up now except the cane and peas. Lillie went with me to Farwell.

Sat 2 I harrowed cotton all forenoon. We went to Sudan in P.M. Bud & Ida came up for a while. To nite we will go to Rolls tomorrow. Bud folks with us in my car. Harold & Lillie will not go.

Sun 3 We were up early went down by Bud's Report 9 gallons gas in my car. We arrived at Rolls by 9:30 or 10:00 A.M. On down to Silver Falls. Had a fine feed. Kids and women folks played in water for a while. On back to Rolls we started for home about 7 P.M. Arrived home milked the cows. Fed stock to bed tired out. Orelis & Jim said they would be at my place Thursday nite on way to the park. We are to go with them if I can get some one to stay out here and look after the stock and milk.

Mon 4 I harrowed all A.M. Lillie & I went to town in P.M. we did not draw the calf. We made ice cream to nite. I feel like I have eaten too much.

| Tues  | 5   |      | I harrowed and plowed all day. I have been feeling bad too much ice cream last night. A little rain would be Ok. now. Altho <sup>tho</sup> stuff of all kinds is growing. Cotton is doing Ok. The old stock get tired. They can't stand the gaff. Now 10:30 p.m.                                                                                                                                                                                                                                                                                                                                            |               |       |                                |                 |       |                            | Fri   |
| Wed   | 6   |      | I plowed all day. Was some of the hot for a while. The stock gets ting. Am skimping on the feed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |               |       |                                |                 |       |                            |       |
| Thurs | 7   |      | I plowed till noon. Sallie went out to see the people on the Brice place to see if they would stay here and attend the stock and milk the cows. They said they would. Said they wanted to get the safe on things which they did. Sallie & I went down town for a while this p.m. Just as we drove up to the house Brother Bowden and family drove up. They did not stay long. They were going to Curtis to get mother and take her back to Monahan's. Aralis and Jim come in just before nite. We fixed up the bedding and made ready for an early start in the morning for El Paso. Now 12:10 A.M. (Fri 8) |               |       |                                |                 |       |                            | Sat   |
| Fri   | 8   |      | We were up early but did not get off as early as we expected. The people did not get out here as soon as we expected them. We made Roswell N.M. on to Big Bend Junction by late noon hour. ate dinner on to Tulare, Allamore, and El Paso. Arriving El Paso about 3:30 or 4 P.M. Aralis attended his "business" and we started back for Cloud Creek. Arrived there about 11:30 P.M. Had come a big rain cold in the afternoon. We kept him after we found a place to                                                                                                                                        |               |       |                                |                 |       |                            |       |

| Sun   | 10  |      | after we had breakfast we loaded up and started for home. we made Rascals about 1 p.m. tried to buy some Box B. G. He wanted 50¢ per lb. I would not pay that. We bought 2 lb. Sausage. Cooked dinner and started for home. Arrived home just before dark. The folks had the milking done. We separated the milk fed the calves and all went to bed. Orvis & Jim beat it for Rascals early. |               |       |                 |      |                 |       |             |      |
| Mon   | 11  |      | I plowed all day. Went to Foster's tobacco.                                                                                                                                                                                                                                                                                                                                                 |               |       |                 |      |                 |       |             |      |
| Tues  | 12  |      | I plowed all day.                                                                                                                                                                                                                                                                                                                                                                           |               |       |                 |      |                 |       |             |      |
| Wed   | 13  |      | " " " "                                                                                                                                                                                                                                                                                                                                                                                     |               |       |                 |      |                 |       |             |      |
| Thurs | 14  |      | " " " " Rained some to day.                                                                                                                                                                                                                                                                                                                                                                 |               |       |                 |      |                 |       |             |      |
| Fri   | 15  |      | " " till noon. Work in the cotton S.W. of the house. We finished that patch. I am a little tired.                                                                                                                                                                                                                                                                                           |               |       |                 |      |                 |       |             |      |
| Sat   | 16  |      | We work in the north cotton along the highway till noon. Lots of weeds. We went to town in p.m. cash check \$2.50. I borrowed \$10.00 at Bank. paid Dick Slaughter \$2.00. Also \$2.00. I left at Snakes. Insights for Teal the Insurance collector. We had fallen behind 3 weeks. Hence the \$2.00. Bud and Ida came by for an cream freezer. They are having a cream supper at his home.  |               |       |                 |      |                 |       |             |      |
| Sun   | 17  |      | We stayed home till about 4 p.m. We drove over passed Mr. Otwell's and on east to Highway going north. We went on to Suban for a while. A heavy clank in N.W. New Thunder and lightning. Think will rain soon. New 10:40 p.m.                                                                                                                                                               |               |       |                 |      |                 |       |             |      |
| Mon   | 18  |      | Out of ink. The clank came up with a good rain. We did not need it. But never turn a rain down on these plains. Sallie wanted to go wash. I could not start the car. Went over to pertermans place, got Bruce Funder to come over and give me a push. Car on next page.                                                                                                                     |               |       |                 |      |                 |       |             |      |

| <p>I went down town in p.m. Lillie to work and I saw Judge Dryden about the land deal. He said I would have to have the abstract brought down to date. I saw Mrs Miller and told her I would have to go to Olton to get the abstract finished to date.</p>                                                                                                                                                                                                                                                                                                                                             |      |          |             |          |          |          |             |             |          |        |             |             |
| Tue 16                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |      |          |             |          |          |          |             |             |          |        |             |             |
| <p>Mr Newton, Lillie &amp; I went over to Olton. Had Guy Willis start work on my abstract. He had it ready by 3:30 p.m. Since Mrs Miller wanted to have Atty. Gaudy to pass on abstract I had him to make an opinion. He found a flaw. Which The Halsell Land Co will have to correct. Came by Amherst to see Bill Rawland head Office man for the Halsell people. He said he would attend to it. However I was not satisfied with his attitude. When I arrived home I found a notice to come to Amherst and adjust the cotton lint average. Ben Pierce, John Case &amp; I are on Local Committee.</p> |      |          |             |          |          |          |             |             |          |        |             |             |

Sun 28 Sallie Mr Newton and I went down to Sudan to hear how the election went. On down to Fife's stopped for a while. On down to Harold's & Sallie's had dinner. Aralis & Jimmie, Ray and Bill came in about 1 pm. We all went to Baptist Church to the funeral on out to cemetery. On home. The kids all came up to house. Jim & Aralis went down to Harold's for the night. Bill stayed here. No rain yet.

Mon 29 Bill & I stretched some wire around Sudan grass pasture. Aralis and Jim and Ray came up from H. & S. about 10 A.M. We went to town for some ice and a connection for generator on my car. The Insurance man come out. We payed him \$15.00 on Sallie's Bill's and Dorothy's policy. Aralis, Bill, Jim, and Ray started for Raees after dinner. I sent Jack Linderson's can to him by Bill. A few clouds in sight all P.M. No rain.

Tue 30 I can't do any work so dry. I took Sallie to wash. I went on over to Amherst to sign up my acreage compliance. I was lost on Caton 21A. 4 A. Long on fact. Will only be \$2.00 off my check. And if I plowed up the 1/4 of an acre, that would cost me \$1.00 to have it measured. So I would only make \$1.00 and the feed is worth that.

Wed 31 We set around and read and sleep. No rain a few clouds.

| Tues  | 6   |      | Harold and Lallie came by going to mule shoe. They stayed till after dinner. Lallie went up to mule shoe with them. Mr Newton and I did not go. When they came back Mr Newton went home with them. Mr Elliott came over and wanted me to move him down to Watson school house or near it. I told him I would have to have the money to buy gas & oil. Lallie and I went to town to get some coal oil. The car began to cut up before we got to town. Had Ford shop man to check over carburetor. Ok, 25¢ he said. I picked up Elliott started home. We did not get out of town till it (car) stopped. Elliott went back to Ford shop had the man come and push me back to shop. He worked on it some more. Said it would take us home. But about 1/2 way out it stopped. Something had to be done. So Elliott tore carburetor up and cleaned it out. Well we came in fine. The boy sure did cure the pain. |               |       |                 |      |                 |       |             |      |       |  |
| Wed   | 7   |      | We drove down in field picked up a bunch of water melons in forenoon. Put out some to sell at mail box, but they did not sell. We picked a bunch of black eyed peas this p.m. No rain yet to speak of. A cloud in West. Lightning. Now 8:40 P.M. Mr Newton is still down at Harold's.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |               |       |                 |      |                 |       |             |      |       |  |
| Thurs | 8   |      | I took 'Slim' cow to Porters this forenoon. I also picked a few Black E. peas. Bird came by going to mule shoe for some seed wheat. I went with him. H. & Lallie brought Mr Newton home this p.m. Rained around noon, none here.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |               |       |                 |      |                 |       |             |      |       |  |

| Thurs | 15  |      | I went over to Mr Porters shacked feed till noon. Came home for lunch. Went back worked about 2 hrs. Sallie came over for me to come home. That Harold had come with binder to cut my feed. We did not get much cut. Had to work on tractor.                                                                                                                                                                                                                                                                                                                        |               |       |                 |      |                 |       |             |      |
| Fri   | 16  |      | We could not cut feed early a little rain. I loaded up Bess cow. took her to Porters bull. I dehorned her. We cut for an hrs or two after noon. But we had a break down. Had to go to Mr Barnes' place. Barnes gave me the needed parts. only a collar breaking S.G. had to buy it at States. Sallie came up to bring Harold a letter from Della. Harold went home tonight Mr Newton is telling us about the Negro Horace down in La. Now Horace is shooting and drinking 2 gal. of whiskey. Took whiskey away. Put Negro on head with six gun. Ah! boy such a time |               |       |                 |      |                 |       |             |      |
| Sat   | 17  |      | S.G. came back early and we finished the feed cutting by 3:30 P.M. Harold started for home at once. We made ready and went up town. The same old thing. No enjoyment to go to town. Does not seem like the same place we had heard from Det. She stated she was coming back home. That is more trouble I was in hope she would not do that. She has caused us so much trouble. I can't hardly keep going have been in a mental strain on her account for the last two years. The same thing will happen when she comes home only worse.                             |               |       |                 |      |                 |       |             |      |

| m.                         | Sept  | 27  |      | I hitched up and cut Koffer heads all day. Corral Williams came out tonight for some chickens. Sold him 7 at 35¢ a piece, \$2.45. I'd payed \$2.00. Bal due 45¢ P.B. 9/29                                                                                                                                                                                                                      |                  |       |                    |      |                    |       |                |      |
| Wed                        |       | 28  |      | We went down to Buds. Ida is up yet. I helped Bud cut feed. He permitted me. Let me drive the tractor. First time I ever run a tractor. Harold & Lattie came by for a while (at Buds) they came in from Okla last nite. Second time. I did not feel like cutting heads today. In fact I am down and out. Have no energy to do any thing. No price for nothing we raise.                        |                  |       |                    |      |                    |       |                |      |
| Thurs                      |       | 29  |      | I did not cut feed today. We went to town in p.m. to vote against the school bond issue. Lattie wanted to watch any way. Had letter from the Salvation Army at Charlotte N.C. stating Sat was there, and asking for transportation to Sudan. I just can't send it. Haven't got it to send. A horse trader from Clovis N.M. left 3 head horses here for the nite. We had a flat on his trailer. |                  |       |                    |      |                    |       |                |      |
| Fri                        |       | 30  |      | Bud & Harold came up this fore noon to tell us about the new boy at Buds house, Robert Edwin. They named him. We all went down to see him. That makes 3 grandsons & two granddaughters.                                                                                                                                                                                                        |                  |       |                    |      |                    |       |                |      |
| Saturday October 1 1938.   |       |     |      |                                                                                                                                                                                                                                                                                                                                                                                                |                  |       |                    |      |                    |       |                |      |
| Sat                        |       | 1   |      | We did talk about going to Lubbock to the fair. But we did not. We went down town in p.m.                                                                                                                                                                                                                                                                                                      |                  |       |                    |      |                    |       |                |      |
| Sun                        |       | 2   |      | Some time around 2 A.M. Ardis, Jimmie Bill and Ray came in. We did not sleep much. Ardis & Bill started for Plain View about 8:30 A.M. Ardis was taking Bill back to Plain View, and Ardis was going on to Rakes. Jim & Ray are going to stay awhile.                                                                                                                                          |                  |       |                    |      |                    |       |                |      |

Thur 10 While eating breakfast we decided to go down to H.S. and Lattie. We went as far as Buds and found it all there. So we stayed. H.S. went home after dinner. I went to gin with Bud and then came on home. The way the wind started blowing this AM. I thought we would have a bad day. But did not. Some cotton blew out. No seed blew to amount to anything. Guess we will hammer up to a pink sack tomorrow as we have nothing else to do.

Fri 11 I went down town thought I would get some people to pull my cotton. But could find none. They are all busy now. Saw - even the longer I wait the more of it will open up. I made \$2.13 on the bale of cotton. Welch had returned on. Besides my \$2.50 he felt back for his protection. The rebate check was \$9.88 with \$5.25 advance money he let me have. Bal. due me \$4.63. I pulled two sacks of cotton this p.m. Looked rainy till about sun set. Don't think will rain now. Lattie did not go to town to day. No mail to day. 20 years ago I planted wheats the big guns at Ft Sill Okla began to shoot and I did not know what it was all about. Would like to kill hogs. They are eating all of my corn up.

Sat 12 A hard S.W. wind blew all day. That is it changed to N.W. before nite cold Nov. 10 p.m. We went down town in p.m. I bought suit of work clothes \$2.69, paid Tom Kent \$1.00 bal due him \$1.00, on cotton seed. S.D.S. just came by. Lattie has Skinner & wife with him. Think they had some rooge. Said he and Lattie wanted come up for the day tomorrow. Saw Ira Hawkins to day. He said they would come up and pull cotton for me Monday.

| Mon                                      | 19  |      | This is Harold's birth day. 35 years old. Sure does not seem that long since he was a little fellow. But he has man ways now. Or does he? wish he would quit some of the man ways. Was raining some all fore noon. Snow as it fell. We went down town to wash in p.m. Had to get some coal. Call to wife.                        |               |       |                 |      |                 |       |             |      |      | Sat. |
| Tues                                     | 20  |      | We stayed by stove all day. Only I fixed some cross ties up for a wind break. Sent the gifts out that we had to send away. One to mother at Charalatt H. C. A ham to Bro Ed at Del Rio Tex. one to mother at Ira. One to C. C. Newton Sallies dad at Alustee Okla. Seems like we sent one to some one else but I cant think who. |               |       |                 |      |                 |       |             |      |      | Sun  |
| Oh! you a gift to Leonard & Wayne Skater |     |      | was cold all day. we did not go any place. Thought Maby Bud would bring team home and I would haul out bundles. Fine weather now for bundle hauling. Temp.                                                                                                                                                                       |               |       |                 |      |                 |       |             |      |      |      |
| Wed                                      | 21  |      | We went over to Circle back to the sale. but did not stay long. No one seemed to be interested in the sale. So we went on down to Bud. ate dinner and I helped him haul out bundles this p.m. Will go and help him tomorrow. If nothing happens. Had letter from Bill. he said he would be here Fri or Sat.                      |               |       |                 |      |                 |       |             |      |      | Mon  |
| Fri                                      | 23  |      | I went back to Buds helped him stack sudan. we worked all day. Bill just came in from Plainview. He came in on the 8 p.m. bus from Luback. He is the picture of health. Dont think he intends to work for Mr Woods any more. Now 12 Mid nite                                                                                     |               |       |                 |      |                 |       |             |      |      | Tues |

Bill came in from Plainview

Ed out back

Rained a little in forenoon. I went down town for a while to-day. Sallie has the bad cold too. Both of us on sick list. My head is hurting me terrible. would love to get my feet soaked.                                                                                                                                                                                                                                                                                                                          |               |        |        |      |                 |      |
|                                                                                                                                                                                                                        |       |     |      | Thurs 5       | I stayed home all day. Was cold. Me sick                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |               |        |        |      |                 |      |
|                                                                                                                                                                                                                        |       |     |      | Fri 6         | We went down town to work. I felt bad. Came back home finished up the wheel borrow. Cold and windy all day. Sallie sick too                                                                                                                                                                                                                                                                                                                                                                                                                         |               |        |        |      |                 |      |
|                                                                                                                                                                                                                        |       |     |      | Sat 7         | was raining a little when I got up. Sallie down in her back. would not let me rub her back. "said the pain was to low down from top. and two close up from bottom". So she did the rubbing her self. We went to town this P.M. Has been raining all day. Has not rained much but the clouds are low and moist. My cold seemed to be some better. But have a pain under my right shoulder blade. My paper has not come yet. I sent the money last Sat. or gave it to Arthur Shuttleworth. He bought a pass for me yesterday and today. He knows why. |               |        |        |      |                 |      |
|                                                                                                                                                                                                                        |       |     |      | Sun 8         | I think rained near all nite. was raining over time I was awake. was down town this A.M. some reported as much as 2.5" of rain. I think it is the best moisture we have had at this time of year since 1926. and that was not by a Jan. rain. The moisture of the year was from snow. See Ledger # 4                                                                                                                                                                                                                                                |               |        |        |      |                 |      |

| Mon   | 9   |      | <p>was too all day. I fixed up a place for my old saw. She is due to parrow on 15th insty. and I do not want to lose the figs. Hauled out some bundles for feed.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                             |         |               |        |        |      |                 |      |  |
| Tues  | 10  |      | <p>I worked out at the lat all forenoon. Bud and folks called at noon. I ate and went over to Amherst to a Com. meeting. Saw Harold at Amherst. He is all shut up he and Lattie. She wants him to leave with out a c. He said he payed the Gro. Pice at Porkers, \$104.00. Well it is just as I told them long ago they could not make a go of it. She wants him to work there and put every thing in her place and he could not get any thing for his work. A cold N.E. wind hit here about 6 P.M. Will freeze soon. Now 10 P.M.</p>                                                                                            |         |               |        |        |      |                 |      |  |
| Wed   | 11  |      | <p>was snowing when I got up this morning. Has snowed and rained a little from time to time all day. Not much but some. Lattie &amp; I went down town this p.m. I bought two 10¢ Novels. One detective one love. I have been reading the detective stories. Bloody murder and all. Will have wild dreams toite. Is snowing now 10.45 P.M.</p>                                                                                                                                                                                                                                                                                    |         |               |        |        |      |                 |      |  |
| Thurs | 12  |      | <p>We set around store all day. Both of us is all but down with colds, and Lattie has a litch in her back has been hurting her since last Sat. Lattie brought Harold up with his little pack of clothes. He has been working down there soon will be six years. and putting what he made in on her place in improvements and to day for the 4th or 5th time she has brought him up with a little hand bag of clothes all he has to show for 6 years of work. But I am glad of that. If he will, now let him talk him in to going back to her. She promised me what all she would do in 1935 is I would get him to come back.</p> |         |               |        |        |      |                 |      |  |

and she did not go what she said

Take notice of it.

| rmey            |      |       |     |      | Fr. 13        | We were all ready to start for Ralls by 9.30 p.m. I Harold had to stop in Sudan and tell Herman Lyles at the Bank, that he (Harold) was leaving the country. They owe some \$600 <sup>00</sup> at Bank and Lattie said she would not help pay any of it. But she wanted him to give her Bill of sale to the family car. She got it any way. Oh! Well that woman is the most desiring woman I ever had the misfortune to know. We went on to Lubback and out to Ralls. Oralie came back to Lubback with Harold. To see if he (Harold) could catch a stock truck to Ft. Worth Jimmie and Ray came over to Lubback with Sallie and I. We left them at about 5 p.m. I gave H.G. \$300. The boy was leaving down there with \$2 <sup>00</sup> which I had had more money I would sure have given it to him. We got home about 8 p.m. Sallie back sure did give her fits and I was sick with cold. Now 10 <sup>30</sup> p.m. |               |        |        |      |                 |      |  |  |  |
