

prove overwhelming -- What do you
think cousin Maggie is my last
arrangement for the remainder
of the season? Nothing very
exciting only a return to Scarsdale

Mrs. C. was about sending
someone to ask me to return to them
when she heard from Miss Margaret
that I was expected on Saturday
When she made known her
wishes I could not tell her of
Miss Margaret's arrangements but I
did promise that I would stay
with Mrs. C. until the first of Septem.
and afterwards with Miss Mrs. Per-
mission I told Mrs. C. that if
I did not go to Kansas this autumn
I would again try the school and
she very willingly agreed to let the
boys go to school if I had charge
of it. So you see the Father who
has always made a way for me
still vouchsafes his care and guidance
although I must confess that if
his right - and Gods will I shall
gladly exchange life at Scarsdale
with all its beauty and excellency

for a rougher road amid our western wilds. We do not expect to hear from Kansas until nearly the middle of August.

Well Cousin Maggie Bud & I need arrived home safe and sound after one o'clock today and I tell you he keeps busy and I think were only his mama on hand we would laugh outright - as it is I draw down my face and try to keep it straight. He has given three cents to a poor woman at the door - Bought some marbles

Took a parcel around to the office for Scarsdale -

Taken a note down to Uncle Alfred Sand's store for some Bought part of a pine apple and ate it on the way - out again and bought some chewing gum

Next changed his clothes and began to clean his second grey

suit - The dinner bell rang he dressed for dinner. Then tried on some of his clothes for his father some of which did not please "pretty well"

His shirts are very much the worse for wear and I hardly know what to do about getting some made

I think the sunstun in the house will make serviceable ones I wonder what his Ma would do

I think I will order them at least - And then you can tell what you would like to do or have done -

Uncle Scarsdale came over Friday toward evening and staid over night - The Brooklynites were doing pretty well. A little boy who lived upper part of Mr. Hunt's house

died last week he had had Meas-
tells and other sickness follow-
ed. The children about the
neighborhood generally I
believe have a whooping cough
Frank was doing pretty
well Aunt L. wanted to
know if you wished Frank
treated homeopathically ^{or}
Hess should give him the
same doses as she gives her
own. Rich says by homeopathy
although Aunt Hannah does
not yet know this.

Belle is well to saw her
to day but Alfred Beanie & Theo.
have the meas. The babe is
really sick - - Sarah is not
very well but has sore throat
and little Rich is complaining
To day is Lizzie's birthday she
would have been 12 years old
^{to day} had she lived - - I have not
seen or heard from Cousin Lelia
Have you seen how the
Berrien family are being brought
before the public in the case of
my
