LUBBOCK -- Texas Tech University's Division of Continuing Education is offering an opportunity to fish the boundary waters of northern Minnesota. The trip, scheduled for June 7-16, will feature wilderness fishing and canoeing in the Boundary Waters Canoe Area adjacent to the Quetico Provincial Park of Canada.

No motorized vehicles are allowed in the Boundary Waters Canoe Area, making it one of the only unspoiled canoeing/camping/fishing wilderness areas in North America. The area, which covers more than 1 million acres of lakes, streams and portage trails, is home to walleyed pike, northern pike, small-mouthed bass and lake trout. Participants will set up a base camp and fish for six days in the pristine area.

The \$450 per-person cost includes transportation, on-site equipment and on-site meals. Transportation to Ely, Minn., will be by chartered bus. Participants will be required to bring their own fishing gear and pay for meals to and from Ely. Deadline for registration is May 1.

For more information, contact Jim Walker at the Division of Continuing Education, (806) 745-3300.

LUBBOCK -- Five entomology students from Texas Tech University recently won the 1991 Linnaean Games during the Southwestern Branch meetings of the Entomological Society of America (ESA) in College Station.

The Linnaean Games, similar to the former College Bowl television program, test team members on their knowledge of entomology, biology and ecology. The Texas Tech team soundly defeated two teams from Texas A&M University and one team from New Mexico State University to win the championship in a double elimination tournament.

As winners of the Southwestern Branch of the ESA, the students will advance to the national meet scheduled for December in Reno, Nev. There, the team will compete against nine other teams representing branches throughout the United States.

Team members are: Jeffrey Back, son of Elizabeth Trent of Vancouver, Wash.; Gerado Camilo, son of Florencio Antonio Camilo and Josefina Rivera of Rio Piedras, Puerto Rico; Doudou Diané Faye, son of Abdou Faye and Marie Diop of Kaolack, Senegal, West Africa; Rafael Jusino-Atresino, son of Rafael Jusino Valle and Elsie Atresino Martinez of Sabana Grande, Puerto Rico; and Sergio Sánchez-Peña, son of Sergio Sánchez-Reza and Maria C. Peña-Garza of Monterrey, Nuevo León, Mexico.

Two of the students also competed in the Student Research Paper Contest at the meeting. Sánchez-Peña earned the third-place certificate and a cash prize, and Jusino-Atresino received an honorable mention certificate.

LUBBOCK -- Texas Tech University student James Henderson of Snyder finished first overall among 95 participants in the meat judging contest at the Houston Livestock Show and Rodeo.

Henderson, a sophomore animal production major, took the individual title with a total of 1,009 points. He finished first in the reasons, lamb judging and pork judging categories. He tied for first in the Institutional Meat Purchasing Specification (IMPS) category and finished fifth in the total beef category.

The Texas Tech team placed second among 18 teams. The team took first place in the beef judging, lamb judging, reasons and placings categories.

LUBBOCK -- Volunteers of all ages are invited to the Texas Tech University Ranching Heritage Center ranch host orientation at 8:30 a.m. March 30 in the center's Pioneer Room.

The orientation session is open to anyone interested in volunteering to guide tours or to work in the center's 30 historic structures depicting period-style ranch life.

Part of the Museum of Texas Tech, the Ranching Heritage Center is an outdoor museum representing the development of ranching from the 1830s through the 1930s. The center is located at Fourth Street and Indiana Avenue.

Volunteers should be able to work one Sunday every month from May through October. Volunteers also will be needed during Ranch Day, Sept. 21, and during Candlelight at the Ranching Heritage Center, Dec. 12-13.

As part of the orientation, Richard Mason, former director of the Haley Library in Midland, will speak on "Changing Views of the Llano Estacado." Authentic pioneer clothing from 1860 to 1903 also will be presented by ranch host Charolette Simms of Brownfield.

Volunteers need to pre-register for the orientation session. Children under the age of 16 must be accompanied by an adult who also will be volunteering. For more information or to register for the session, contact Tommy Morman, controller for the Ranching Heritage Association, at (806) 742-2498.

**(MEDIA ADVISORY: John Duke Anthony, president of the National Council on U.S.-Arab Relations, will hold a press conference at 4 p.m. March 28 in the Board of Regents Suite of Texas Tech University's Administration Building. Anthony will lecture on "The Future of the Persian Gulf Area," later that day at 7 p.m. in the University Center Allen Theater as part of International Week, March 25-29.**

Anthony, who serves as the president of the Society of Gulf Arab Studies in addition to his post at the National Council on U.S.-Arab Relations, is widely regarded as a foremost expert on the Arabian Peninsula and the Persian Gulf. A member of the prestigious Council on Foreign Relations, he is the only American to have been invited to attend each of the annual Heads of States Summits of the Gulf Cooperation Council, a regional organization including Saudi Arabia, Kuwait, Bahrain, Qatar, Oman and the United Arab Emirates.

Anthony also serves as adjunct professor of Middle East studies at the Defense Intelligence College and as a lecturer at the Air Force Special Operations School. He has served as a visiting professor on foreign affairs at the University of Virginia, the University of Texas and the University of Pennsylvania.

Anthony is a frequent commentator on the Voice of America and the British Broadcasting Corporation networks and was interviewed by all major U.S. networks during the Persian Gulf War.

He received his graduate training at Georgetown University and Johns Hopkins University, after receiving his undergraduate degree at Virginia Military Institute. A native of Richmond, he currently resides in Washington, D.C.)

**(MEDIA ADVISORY: Special interviews immediately before or after the lectures may be arranged by contacting the Office of News and Publications.)**

LUBBOCK -- Texas Tech University's first-ever International Week, March 25-29, will be highlighted with free public lectures by two of the foremost authorities on the world's political hot spots.

Leonid Dobrokhotoy, counselor for political analysis, press and information for the Soviet Embassy in Washington, D.C., will speak on "The Future of Perestroika" at 7 p.m. March 26 (Tuesday) in Texas Tech's Allen Theater. The lecture will address current events that are changing the face of the Soviet Union including the possibility of civil war in the Soviet Republics and current thinking on Glasnost and Perestroika in the Soviet Union.

John Duke Anthony, president and chief executive officer of the National Council on U.S.-Arab Relations and consultant on the Persian Gulf states to the U.S. Departments of State, Defense and Treasury, will speak on implications of the recent Persian Gulf War. Anthony's lecture, "The Future of the Persian Gulf Area," will be at 7 p.m. March 28 (Thursday) in the Allen Theater.

Both lectures are underwritten by a grant from the W.B. and Mozelle Rushing Endowment at Texas Tech.

Dobrokhotoy, a native of Moscow, is the son of the former conductor of the Moscow Philharmonic Orchestra. He is a scholar in American history and holds a doctorate in American studies from the Academy of Sciences of the Soviet Union.

Known as the "Voice of the Soviet Union" in the United States, Dobrokhotoy serves as the chief spokesman for his country in the United States. Previously, he worked for the Central Committee of the Communist Party of the Soviet Union in the International Information Division.

Anthony, who serves as the president of the Society of Gulf Arab Studies in addition to his post at the National Council on U.S.-Arab Relations, is widely regarded as a foremost expert on the Arabian Peninsula and the Persian Gulf. A member of the prestigious Council on Foreign Relations, he is the only American to have been invited to attend each of the annual Heads of States Summits of the Gulf Cooperation Council, a regional organization including Saudi Arabia, Kuwait, Bahrain, Qatar, Oman and the United Arab Emirates.

LUBBOCK -- Virginia Sowell, professor of education and associate vice president for academic affairs at Texas Tech University, recently was honored by the Texas School for the Blind and Visually Impaired (TSBVI).

Sowell was recognized for her outstanding performance from 1986 to 1990 as chairperson of the TSBVI Board of Directors. The nine-member board of directors is comprised of three visually impaired persons, three parents of visually impaired children and three professional leaders in services for the blind and visually impaired. Sowell serves on the board in the capacity of professional leader. Board members are appointed by the Texas governor and confirmed by the state Senate.

Sowell is internationally known as an active supporter and a leader in many organizations for the blind and visually impaired. She instituted and currently serves as the project director for the Graduate Preparation of Multiple Competencies program at Texas Tech. The program prepares graduate students and professionals to teach visually impaired children, adolescents and adults and is based in the College of Education at Texas Tech. The American Foundation for the Blind recently awarded the program its Access Award because the program faculty travel to various sites in Texas to train teachers to serve blind children in rural areas.

Sowell holds a doctorate in special education from the University of Texas at Austin, a master's degree in education from Trinity University in San Antonio and a bachelor's degree in English from Sam Houston State University.

**[MEDIA ADVISORY: Media representatives are invited to attend presentations during the conference. For additional information, contact M. Michelle Balcomb, Ph.D., executive director of the SWARM Division of AAAS, Colorado Mountain College, at (303) 945-5516.]**

LUBBOCK -- Richard S. Westfall, Ph.D., noted expert on the history of the scientific revolution of the 17th century, will be among featured lecturers at the 67th annual meeting of the Southwestern and Rocky Mountain (SWARM) Division of the American Association for the Advancement of Science (AAAS). The meeting is set for May 15-18 at Texas Tech University.

This year's theme is "Making Sense Out of Science: Communication in Science and Technology."

The three-day meeting will include presentations by university researchers and papers by students in the nine-state division of AAAS, a poster session for public school students in kindergarten through 12th grades and awards for junior college teachers. Professional topics will be covered in 12 disciplinary sections by scientists from Texas, New Mexico, Oklahoma, Arizona, Colorado, Kansas, Nebraska, Wyoming and Montana.

"Last year, more than 300 people attended the conference in Colorado Springs, (Colo.) We're expecting at least that many to come to Lubbock," said M. Michelle Balcomb, executive director of the SWARM Division.

Westfall, distinguished professor emeritus of the history of science at Harvard University, will present the annual John Wesley Powell Memorial Lecture. He will speak on "The Construction of a New Model of Nature: the 17th Century" at 7:30 p.m. May 16 in the Sheraton Inn Ballroom, 505 Ave. Q. The lecture is part of a series which began in 1929 in honor of geologist John Wesley Powell.

Other nationally known speakers will include F. James Rutherford, Ph.D., chief education officer of the Directorate of Science and Technology Education and director of Project 2061 at AAAS in Washington, D.C.; and Manert Kennedy, Ph.D., president of the Triangle Coalition in Boulder, Colo.

-more-

CONFERENCE/PAGE 2

Rutherford will present "The Progress and Impact of Project 2061," a national plan for science educators, during the meeting's opening session at 1 p.m. May 15 in the Chemistry Building Auditorium on the Texas Tech campus. Kennedy will present "Building Broad-Based Coalitions for Science Teaching" at the Educators Honors Luncheon at noon May 17 in Texas Tech's University Center.

The SWARM meeting will include seven symposia.

"Playas, Community Analysis and Landscape Patterns" will be the subject of the annual symposium presented by the SWARM Committee on Desert and Arid Zones Research. The symposium and lectures will focus on conservation uses and the variety of organisms in playa sites.

Additional symposia to be presented during the meeting include "Molecular Responses to Stress," in the Biomedical Sciences Section. A discussion on heat shock proteins and other phenomena of stress will be presented. Participants in the History and Philosophy of Science Section will present papers on the subject of "Technology and Philosophy."

The Psychological Sciences Section symposium topic will be "Stress: Advances and Reconceptualizations." An additional symposium in the Psychological Sciences Section will be on "Cognition: Advances, Concerns and Research."

The Social Sciences Section symposia will address two subjects, "Cultural Dynamics on the Southern Plains" and "Attribution: Motivational and Cognitive Perspectives." These sessions will deal with special groups and cross-cultural terms. To supplement the meeting, archeological field trips are planned to Palo Duro Canyon in the Texas Panhandle and to the Lubbock Lake Landmark State Historical Park, a newly dedicated archeological site that holds a 12,000-year continuous record of human occupation in the New World.

The deadline for advance registration is April 19. The fee for advance registration is \$30 for members and \$21 for students and non-members. The fees will be \$40 for members and \$25 for students and non-members after April 19. On-site registration also will be available.
