Communism: A form of government in which all that is not forbidden is compulsory.

A motorist on a muddy road pulled up alongside a fellow traveler who was digging his car out.

"Stuck in the mud?"
"No—my engine died here and I'm digging a grave to bury it."

Communism: A form of government in which all that is not forbidden is compulsory.

Some of today's pin-up girls ought to be buttoned up instead.

A long time ago I received this advice: "Yesterday is a cancelled check; tomorrow is a promissory note; today is the only cash day you have. Spend it wisely."

Rates requested by the company are: \$11 a month for a business telephone, \$5.50 for one-party residence service, \$4.50 for two-party service, and \$3.75 for four-party line.

Keep your mind on your work when at work but don't keep your work on your mind when not at work.

A woman will try on any number of shoes before she's finally dissatisfied.

Eve: The first chicken to ruin a man's garden.

Not being able to understand women wouldn't be so bad, if they didn't understand men.

Courtship: Where the outcome depends on the income.

Don't believe the world owes you a living. The world owes you nothing—it was here first.

A woman never knows what kind of husband she doesn't want until she marries him.

Some parents have difficulty in deciding on a name for the new baby. Others have rich relatives.

Most women want to hear the truth, no matter how flattering.

Poverty can sleep soundly. When it lies down at night it feels sure no thief will come and take any of it away.

Bena's old church was all right as a means of getting to heaven, but she joined a more fashionable church in an effort to get into society.

Little Elsie complained to her father that every day when she started home from school some of the boys would grab her and kiss her. "Why don't you try to run away from them?" suggested papa. "I did try it," said Elsie, "but they won't chase me."

THESE FUNNY PEOPLE.

Mrs. Newlywed: "Boo-hoo! The dog ate all the nice cookies I baked for you."

Mr. Newlywed: "Don't cry, honey. We'll get another dog."

Things might be worse. Suppose your errors were tabulated and published every day like those of a ball player.

Here's some advice it'll pay you to heed:

Don't plant more than your wife can weed.

(Copyright General Features Corp.)

"There is so much bad in the best of us.

"And so much good in the worst of us.

"That it does not behoove any of us.

"To talk about it."

Men fall into three categories: The rich, the handsome, and the majority.

More square people per mile might be of greater help to this country than more people per square mile.

You might as well laugh at yourself once in a while. Everybody else does.

More square people per mile might be of greater help to this country than more people per square mile.

Police: "Can you give me a description of your missing bookkeeper?"

Store owner: "He was 5 feet 6 inches tall, and about \$4,000 short."

Mrs. Mosquito: "Where is your daughter?"

Mrs. Housefly: "She just went to the front door for a screen test."

A cold is both affirmative and negative: Sometimes the eyes have it and sometimes the nose.

Hot tip on when the fish are biting Just before you get there, and after you leave.

There's really only one thing wrong with the younger generation—a lot of us don't belong to it anymore.

Definition

A committee is a group of the unfit, chosen by the unwilling, to do the unnecessary.

Tribute to a Wife

By Ira M. Powell, Houston

She's a saintly soul with heart of gold,
She's tender, unselfish, and true;
She's ready to stand by the noble man
That love has led her to.

She's gone apart to search her heart,
She's sought God's will divine;
She's closed her ears to worldly cheers,
She's said, "Thy will, not mine."

She's baked the bread, her children fed,
She's kept love's fire aglow;
She's paid the price in sacrifice
That other homes might grow.

She walks with pride by her husband's side,
She's a helper in sorrow and strife;
Her heart sings a song as she cheers him along,
She's only the minister's wife.

"After you were held up did you call the police?"

"Yes, your honor, everything I could think of."

School days are the happiest days of your life—especially if your children happen to be going.

Many a girl who seems to be throwing herself at a man is actually taking very careful aim.

Many a girl who seems to be throwing herself at a man is actually taking very careful aim.

A gossip is a person who will never tell a lie if the truth will do as much damage.

It seems unfair to say that man descended directly from the ape, without giving some credit to the parrot.

The husband was feeling sentimental as Christmas approached. "Well, my dear," he said to his wife, "I've carried you safely over the rough places of life, haven't I?"

"Yes," she said slowly. "I don't think you missed a one."
