Sunday
Feb. 6. 1955

Dear Julia:-

I arrived home Thursday
and found your sweet birthday
card, also the letter you spoke about
awaiting me, thanks for remember-
ing me.

I had a wonderful birthday with
my children, Hazel, gave me a lovely
navy blue sheer dress, her oldest
daughter gave me a pretty hat to go
with it, another gave me a beautiful
scarf pin, the one in Calif. sent me
a box of lovely Hallmark cards.
Rudolph, gave me two pairs of shoes
and six pairs of nylon hose, her son

and family in Corpus, sent me a book and their little girls picture.

So many cards and gifts from friends all made me so humble.

I was away six weeks, the girls did not want me to come home, but I felt I must, things here at the house are some better, Mrs S. is up and does around some, but she cant think, sits and stares into space most of the time. I found a lot of my mail she didnt forward to me, said she forgot.

Rudolph, is going to Tampico, Mexico, on Feb. 18th to settle up her business down there, its a sad trip for her, because she will have to go through Alvas papers and dispose of most of them in some way

She has cut her hair, and she looks ten years younger, said she couldnt go abroad with all that long hair, it would take too much time fixing it.

She and Goldie, are still working on passage for some time before the middle of June, I hope they get off.

I had a note from Hallie Story, thanking me for the Christmas card, she didnt tell me about her mother, sister Ella, didnt have much mind. When I saw her several years ago. Oh! why do we have to go through so much before we pass on?

I turned a child again while I was away, I rolled off the bed, hit my right shoulder on the gas jet and almost

broke it, I still suffer with it, cant wear the straps to my under wear over my shoulder. I also hit my head against the stove, and took all the skin off my knee. I'm use to a hard bed, and the bed was an inner spring mattress, I was too close to the edge, so when I turned over, I just went out on the floor. I had to laugh, even though I was hurt.

I went out to see my hermit sisters, they are pitiful, they do nothing but think how bad they feel, and get on each others nerves. they dont go any where so no one visits them often, so there they sit.

At last we have had a good rain it was slow and soaked in. we had over five inches in two days, its

still cloudy and we may have more.
I have so many letters of thanks to
write and with my sore arm its hard
to do. I cleaned my room yesterday
and got all my things in place
so its awful sore today.

This rambling letter has grown
rather lengthy, so I'd better stop
and let you rest.

With lots of love and many thanks
for your kind wishes

Sincerely
Joe.

Monday Night

Dear Julia:-

We have been frozen up for the past two days, I'm sure you folk have much colder weather, however, we had a right good rain on Sat, before the norther struck.

I went to the funeral of a good friend this after-noon, I had on so many clothes I could hardly walk, our cemetery is on a hill, and its cold up there, especially when the wind is high. I believe I told you that the father of one of Hazel's, son in law, was sick, well the poor man has been dying since last Sat. week, has been in a coma, under an oxygen tent its so hard

on his wife and son, just to sit and watch him linger - the son came from Calif. where he had gone to sail for Japan, for three years. they gave him a ten days leave, his time is up to-morrow, and they won't extend it.

He is the only child and he hates to leave his mother, when his Dad, is dying.

When he passes I'll go over for the funeral, and be there a few days.

Rudolph, left Sat. for Tampico, to settle up the remains of Alva's business, I hated to see her have to go, and go through his papers again, but she has so much will power, she can take it in a Christian way alone.

Clayton Malone and his wife, came by Thurs. and visited with us, for awhile, they were on their way to Dulles to visit their daughter that is in Hoka day school there.

Clayton, grows more like brother Willie, all the time, he still has that sweet smile, he was always my favorite of the two boys.

Beebie, hasn't been at all well lately, her hand have been swollen so badly she couldn't bend her fingers. of course sister Alma, is grunting too. Thank you for the nice words you said about me in your last letter. I do try to smile, be pleasant, and make people happy around me, no one

Care about my pains and aches so why tell them, when I begin to feel sorry for myself, I get down and pray and I soon get over it. dont ever think I dont have plenty of pain, with my back, hip, leg and shoulder, but I wont let it get me down.

Things here at the house are not any better, I dont know how its going to turn out. Mrs. Stocker, has lost all interest in every thing, she waits for the ones in the house to do for her, and I dont think her daughter cares, she wants her to die, she dont want the responsibility of caring for her.

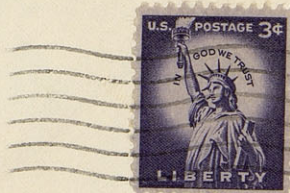

I wrote Hallie Malone Story, a long letter I told her I thought she did right to put her mother in a place where they could watch her, it was too hard on her to do it.

I wonder if sister Ella, has any thing
to take care of her, or if the children
have to do it.

I pray every day that I wont out live
what little I have, I dont want to be a burden
to my children ever.

I hope Campbell, has a nice trip to Mexico.
This letter is growing leughty, so I'd
better say good night.

With lots of love
Jon.

Corinne Bass Bruce, went
with them. she and Goldie
will come home Aug 1th but
R. will join another tour
and stay until the last of
Sept. she will fly home from
Scotland.

I'm doing fine - learning how
to cook and keep house, the
owner of the apt. is an old maid
I have known her all her life
she is wonderful to me, she
almost feeds me.

News from Mrs Stocker is she
is doing fine and likes her
new home, hope she continues
to be satisfied.

I'll give you sister Alma's
address so you can write
her, it will please her to
hear from you.

Dear Julia:-

I was happy to
receive your nice letter
yesterday - and answering
right away because I'm
going to San Antonio
this morning for a few
days.

Hazel's, youngest daughter
Marjorie and little son
are leaving Monday for
California, where they will
take a boat for Japan, to
be gone for three years.

I want to see them before they
leave. then too I want to go
and see sister Alma, she is
still very ill.

Dr. Sage is the worse
case he has ever had in
his twenty nine years of
practice, she is so nauseated
all the time. I'm so thankful
she is with Lillie. I write
you when I return as to how
she is. Beebie, is doing fine
she looks better.

Well, I guess Rudolph and
Goldie, are on the high seas
now. They sailed at noon
Wed. on the Queen Elizabeth

dear Miss Julia:-

It was good to see you again.
We were sorry we did not get to
see you again before leaving,
but felt that we had better
get home before the traffic got
bad, it being Sat.

We did appreciate your coming
to see us.

I would have liked to have gone
on to Chillicothe, but knew the trip

would be too much for Ed. He
broke fairly well, but tore easily,
having so little strength.

Annabelle, Vol & the sisters were
all so brave. Am so grateful
Vol could come to her.

I called Lucy Reston & have
the address written on the back
of this note. Lucy said he was
in porch - & would just sit in
his rocking chair.

We are still dry & dusty - all
crops, fruit & vegetables gone, from
the freeze.

Thank you for all your kind-
ness to us, & for your friendship -

Lovingly,
Bessie.

be happy!

Dear Miss Julia:-

I appreciated your saving & sending me the stamps. I did not have any of them, so was doubly pleased.

We always enjoy hearing from you.

We are having lovely fall weather, the days are clear & cool, & the nights down-right cold. We finally had some rain, which will help grass, I hope & the late feed.

We sold our little herd of cattle.

It was like parting with old friends,

but we had reached the time,
when we could not look after them -
and you know what tired help
does. We hope to leave out our S. S.
farm.

Ed & I have enjoyed sitting on the
porch & "rocking" in grandma's old
rocking chair, she & pa used.

Ed had his 74th Oct. 10th. Several
widows & old maids remembered it.
Also a pretty young matron. The laugh-
ing said I have reached the
"Bot Polk stage".

Mr. Will Harris is still like a
cricket & snaps his eyes as if you
always ask about you. He & Bess
have had a nice life together - &
all their children close, but the baby,
Louise, who lives in Houston.

Jimmy Shoppemyer isn't well, is
thin & so yellow. They think it is
jaundice or possibly gall-bladder trouble.
Mrs Hagan, Eugene & the Charman
are going up to Ft. Worth, Sunday
to see him.

The Hagans made
a second long trip.
this summer. She is
a wonder - will be 88
Oct. 24th.

Poor nurse Agy is so
homesick for her child.
The trip has been most
useful for Annabelle.
We are having our
house painted.

My asthma keeps bad.
Ward Gada & Jeff had
bought a lovely one story
house in Dallas. Love
Thanks again, dear one.

Monday Dec 5, '55

Dear Julia: -

Your interesting letter was received a few days ago, in answering now so you will hear from me one more time before this year ends. In going to San Antonio, for the holidays, will leave on the 21st, so I'll be busy these few days before then. I won't return until some time in Jan.

To day is the first time I have been out since Tues. before Thanksgiving, I have had a bad case of nettle rash, nothing seemed to do me any good, I still scratch like a mangy dog full of fleas.

I was invited out Thanksgiving, I could ^{it} hold my head up, had temperature of 101 all day, my friend wanted to send my dinner, I said no I couldn't eat it. it was from the crown of my head to the soles of my feet.

Have you heard that sister Ella passed away the Saturday ^{after} Thanksgiving, we saw it in the paper, I wrote to Hallie, she answered, she said her mother had a hemorrhage of the brain on Mon. and lasted until Sat. she said her six boys were the pall bearers, and the service was sweet.

Rector Malone, her son lives in Calif. his wife died with cancer in Oct. after her funeral, he flew to San A. and spent

ten days with them, she was so glad he came while his mother knew him, he didn't come back to her funeral. She was 90 years old.

Poor Cousin Janie, Garrett, passed away Sun. week. she was 102 yrs and 6 mos. old, it was such a blessing, she had been in bed five years, hadn't known her own children for two years. she was buried in the Pitto cemetery in Stringtown. I was too sick to attend - it was a terrible day, raining and cold. I hope the Lord, will be better to me that to let me live that long.

Hazel, left yesterday for Montgomery Ala. to be with one of her daughters, who is expecting a baby any day now - she won't return until about the 21st of Dec.

Beebie, and Alma, are both looking better, Beebie, will 86 yrs. old Wed. - its remarkable how she gets around and does things.

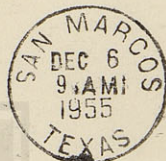

I'm glad Campbell, has a home and is doing so well, hope he stays there and is happy.

I don't remember whether I wrote you that Gleora Malone's husband Mr Shaxton, passed away in Nov. with cancer, that's what she died with two years ago - our family is dwindling down fast.

Just one of Aunt Beck's family Cousin Sidney Cauthon and we three sisters are all the children born and raised in Stringtown, that's now living - and I'm the youngest 79 in Jan. I still miss brother Willie, better he always wrote me before Christmas, he wrote good letters. his sons always remember we girls with a check for Christmas, brother had them promise him to do this before he passed away.

God, bless and keep you through the coming year is my pray. With much love to you and yours this Yuletide

Sunday 5-

Dear Julia:-

Your card was received a few days ago, I was surprised when you said you hadn't heard from me in a long time, I was thinking the same about you. I wrote you a long letter in May, told you I had moved into an apartment not far from where I was boarding, I moved May 1st. Mrs. Stocker, was failing so fast, she couldn't run the house any more, her daughter came and took her to Florida, to live

2.

Miss Bruce and a friend are staying at the house the first six weeks of summer school, I don't know what they will do after that.

They told me I could stay there too but I didn't want the responsibility of that big old house, besides it would be too lonely.

I have a nice cool little apt.

I have a living room, small kitchen and bed room, and a very good size bath, it's all I need to keep. I'm very happy with it, I really don't have as much to do here as I did where I was, and paid board too.

My children came and moved me, they brought me a lot of my things they had, besides dishes, glasses and cook vessels, they gave me every thing I need.

Jay & Hazel had a phone put in and the bill goes to them each month. Jay filled my cupboard with all kinds of can goods. R. brought every thing she had in here before she left, so we had very little to buy so far.

I'm happy I can have my friends in and don't feel cramped, also my children feel free to come more often now.

Rudolph left Fri. night by plane for Washington and New York.

She sails June 15th at high noon
for Europe, Foldice, will meet
her there and sail too. Foldice,
will leave Europe Aug 11th but R-
will remain until the last
of Sept. They go over on the Queen
Elizabeth, but R- will fly back.
I think its wonderful that Claudia
won the Fellowship to study a
brood, I hope she goes it will
be a grand experience for her.
I know you are all proud of
her.

It surely was nice in Virginia,
to fix your bath room new-
what would we do without our
children?

Sister Alma, was feeling so bad
Lillian, came over and took
her to San Antonio, for a while.
Beebie, phoned me yesterday
that she had a letter from her,
and she said she was feeling
worse than when she left.

I don't know what's the matter
with her, she seems to have
given up.

Beebie, spent the day with me
There. she is enjoying doing
what she pleases and cooking
things she wants and how she
wants them, I hope Lillian,
keeps her mother a long time.

The government sent Hazel, to Washington in May, for a two weeks school, pertaining to her work, she said it kept her busy but she enjoyed the trip, she returned last week.

She had never been to Washington before, she went to church one Sun. and sat across the aisle from the President. On the week ends she went sight seeing.

Last weekend A. R. (Rison) and family came to see me and brought their new son Paul Winston, for me to see, he is a darling baby

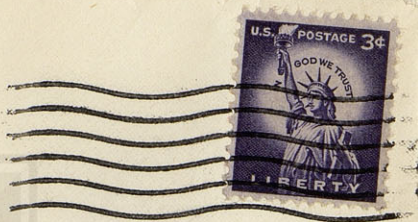

as well as good looking, smiles all the time he is $2\frac{1}{2}$ months old. they live in Corpus, they came up to tell Rudolph good bye, they took her car to Corpus, to keep while she is away.

I hope this rambling letter reaches you. I think I've about covered every thing. With lots of love to your dear self and family -

For,

I forgot to say I'm close to town, Beebies and the church.

Dear Julia:-

Your nice letter came a few days ago, was happy to hear from you as always.

I'm still in S. M. poor Mr. Hugo, is still dying, soon to four weeks, they keep him under an oxygen tent, is all that keeps him breathing. he is full of bed sores and the odor is terrible. The air force wouldn't

give Vaue, any more extensions, so he has already gone to Tokyo. I feel so sorry for his mother - as well as his family.

Last night A. R. (Rison) called me

from Corpus, that their baby had arrived and it was a boy and they named him Paul Kingston Howard.

I'm so glad it's over and every one is alright, Virginia, had such a terrible time when the little girl was born.

Rudolph, will arrive tomorrow night from Mexico, and she will stay until Pa. comes home from the hospital.

Alva Garrett Luder, Cousin Jamie's youngest daughter died last week and was brought to the Pitt cemetery in Stringtown for burial, she was 76 years old. Poor old Cousin Jamie is breathing, but not alive, has no

mind - she will be 102 - in May we wonder why she is left. she doesn't know her own children.

We are having a revival at our church this week, I get up and go to the 7 A.M. services every morning - I enjoy them better than the night service, it only lasts thirty minutes.

Beebie's hands are no swollen so bad now, it's funny how they do - Alma, is still enjoying poor health.

Neither one would go to Alva's funeral and it was a beautiful day - said they couldn't hear any thing.

Things here at my house get worse every day - Mrs S. can hardly get up and down now. she should go to her daughter. she can't do any thing - she doesn't have enough mind to think -

I wish she would go on and I would
know what I could do before it gets
so hot. Finding a decent place that
I can afford is a problem - rent is
so high here.

I don't mind you answering my
letters as soon, I feel like that
you are glad to get them.
I may go to B.A. most anytime.
With lots of love.

Yours.

Sunday -

Dear Julia:-

No I haven't forgotten I owe you a letter but I have just returned from three weeks in San Antonio.

It wasn't a pleasure trip. I went over for Mr Hugo's funeral, he is the one I wrote you was sick so long.

The funeral was set for Wed. three hours before it was held, they had a call from his son in Tokyo, that he could come so they postponed it a lot of folk from out of town came among them was one of Mrs Hugo's uncle from Houston. On his way back his car was wrecked and he was killed, his body was brought to S.A. and his funeral was the day before Mr Hugo's. On Sat. of the

same week one of Jay's nephews mother-in-law died, she was a close friend of the families, so it seemed we went to funerals every day.

The terrible dust storm we had gave me hay fever and since I couldn't speak above a whisper for a week, I was miserable. Rudolph, returned from

Mexico, with a terrible cold and the dust and cold settled in her ears and she had to go to the Dr. every two days. so you can see why I say it wasn't a pleasure trip. She is still quite deaf but her Dr. thinks he can keep from puncturing her eardrum. she sails June 15th on the Queen Elizabeth for Europe, and she wants to get it cleared up. She says her new grandson is a precious baby, he is so good. I went out to see my sisters this afternoon, both complaining both had Sundayitis, always felt worse on Sun. if they would get up and go to church even if they couldn't hear a word, they would feel better. We have had July weather the past two days, don't see how we are to stand several months of it.

Mrs Stocker, thinks she is going to her daughters in Fla. soon as school is out and they come for her. I'll have to move, I can't find an apartment I can afford close in, so I may be sitting in the middle of the street. She isn't able to run the house any longer, she can't think any more, and she should be with her daughter. May Withers, has gotten her a television and now she stays home to watch it.

Where is Campbell now? I hope
his kidney trouble has improved
he wrote he felt so bad -
This rambling letter has
grown rather lengthy so I
had better close.

With lots of love
Jon.

crops, but as usual, are wanting

more.

The "old river" got on a "rise" - but did not get over the Cemetery. Lucky got over the north highway, a small distance, between the slough & river. If course the low lands were covered, & lots of damage done to those crops & fences. How ever much good came from it.

My asthma hangs on, but am hoping "our trip" will bring relief. Joe. is so anxious for us to visit him. He plans to go & return with him, in his car. Just hope it will be too hot coming back by La.®

Nell Furber Phelan has been here on a visit. She still shows signs of her former beauty. Her widow now sees Joe. live with her. She found her son David dead, in bed, one morning about 2 yrs. ago. She lost

one of the twins, in
infancy. Still have
3 boys & 3 grandsons, I believe.
Poor Kate Martin
Collins, is so lost
since Jas. Alf's death.
Annie's husband died
in Nov. & Jas. Alf in April.
Bess & Will still up
& going.
Ed & I had a nice little
visit to La. the first of
May. Clay & Ethel Knysundall
were going to Minn. to see
Laura & invited us to
ride to Minden La. 80 mi.
from Marysville. Lots of
love - Bessie.

Saturday-

Dear Julia:-

I was happy to receive your letter a few days ago - glad to know you are standing this hot, hot weather -

Seems to me I never perspired like I do now, perhaps its because I havn't cooked in so long -

Mary Kyle and Charlotte, came Thurs. for a visit. Mary and Irvin, had a watermelon feast in their beautiful back yard

last night and had all the kin folk, those of us who couldn't eat melon, she had ice cream for - we had such a good time, we don't get together often enough. May & C - went to Kerrville today to spend the week end with Wilber and Mary - May, looks fine, but she says she can't think - Sister Alma, is a little better, she is wanting to come home, I told Beebie, to write Lillian, and tell her not to bring her, that she was not able to wait on and cook for her this hot weather.

Beebie, is having a lot of trouble with her feet and legs cramping

I think she has done enough for her all these years, she is hardly able to do for herself. I hope Lillian, has sense enough not to bring her.

You told me to ask Eva & May about the picture, they have one, but I surely would love to have it for my family book, if you want to part with it, I don't have an early picture of either sister Medie or Laura, I have one of the other girls. I have always wanted one.

Well, the girls still write they are having a wonderful trip, they are in Italy now, R. sent me a picture of all three taken in Venice, and another taken in Florence Italy -

They go to Spain next week for a
ten day tour-

Foldice, wrote me that Rudolph, would
be a book when she returned, all
I would have to do would be to sit
and listen.

There is Claudia, going to study?
I think its grand she is going, it
will be a wonderful experience.

Hazel & Jay, came over last Sat P.M.
and brought supper, we went out and
got Beebie, we had a nice visit.

May & Eviotte, are going to Corpus, next
week for a visit with a friend -

Are you going to Ed's this summer?
I have about told all the family
news & know -

With lots of love

Sept. 13 - 55

Dear Julia:-

Well, you past another mile stone on the 6th I hope it was a good one, and may you have many more. Along time ago you asked me for some stamps off of Rudolph's letters, I would forget each time I wrote to mention them, she only wrote me two letters, all the rest were cards, and of course I couldn't tear them off so I'm enclosing the ones from the letters.

I told her when she left, I wouldn't expect letters, because she was on the go, but I'd settle for cards, and she surely sent me lovely ones.

Poor Beebie and Alma, are not doing so well, sister Alma, is so hard to please Beebie, can't cook to suit her finicky appertite, there fore, neither eat what they should, so both are nervous and irritable, it's a pitiful situation and I don't know how it's to be helped. I know one thing my girls wouldn't let me impose on dear little old Beebie that way.

School has started and it's quiet in our neighborhood most of the day. Since May Withers, bought her a television, I don't see much of her and Eva, they stay home and look at their favorite programs.

My news is scarce.

With lots of love
Gor.

It certainly keeps me worried, I cook food and walk out there and take it to them, and she will eat it.

Will Joiner, (Florence's husband, she is the one who took us riding twice) was operated on a couple of weeks ago for prostate glands, in Austin, he got along fine, they let him come home in ten days, three days ago he began to bleed internally. They took him to Austin and they had to open him up again, he is some better now. This is the second operation he has had in two years.

We had an inch of rain early Sunday morning, it was surely welcome, and it's been cooler since.

May Kyle, sold her place by Beebe, to Laura Holcomb's son Herbert, I'm glad for B's sake they bought it, because they are nice to her.

Rudolph, was over one afternoon last week, she may have to go to Mexico, most any time on business I hate for her to have to go.

Dear Miss Julia:

It was just wonderful
having your letter and
birthday greeting.

We went to Amarillo to
a Board Meeting of South

I recognized her when
she got up to make her
report. We had a few
minutes of visiting at
noon. She said all family
fine. She looks as much
like Dad. We enjoyed
spending the day in
Amarillo, Bettie went
with us as she and Lee
shopped and had lunch
in town. The meeting

Wednesday Oct. 12th

Dear Julia:-

Well Oct. is almost half gone and we still are having Aug. weather, with no rain, the last few weeks has almost gotten me down. its reported a norther is on the way, I hope it does it play out before it gets here.

Sunday after. noon Hazel and Jay surprised me with a little visit.

Hazel leaves the 24th for Washington to attend a Government school for three weeks, Jay, says he dont know how he is going to get along

keeping house without her for so long. He is such a baby, he doesn't like to stay alone.

Edna Kone Lewis (cousin Ed's, youngest daughter) is in Austin visiting her sisters Eula and Caroline,

Florence Joiner, has invited them down to her house tomorrow, in the after-noon she is having all the cousins here in San Marcos, to come in to see Edna. she will have a house full. there are so many of us.

Beebie, has said she would try to go if she felt well enough, her hands have been so badly swollen for a couple of weeks until she can hardly

use them, she looks bad.

I was out there yesterday, sister Alma, was in bed, she has been bad for three days, I don't know what will become of her, she doesn't have any resistance at all. and that makes it bad for Beebie, to hear how bad she feels all day long. It's really a pitiful situation.

I hope Beebie, goes first, because she doesn't have any family to care for her, maybe then Alma's girls would have to take care of her.

What do you hear from Claudia? I hope she likes it over there as well as Rudolph, did. R. was thinking of going to Tampico Mexico on business, but hadn't

gotten off - when the storm struck
down there - we were all happy
she hadn't gone. she may not
have any thing to see about after
all the high water.

Mr Thorntie Bass, cousin James'
son-in-law, passed away a couple
of weeks ago, he was 88 yrs old, he
had cancer of the prostate gland -
Halter & Louise Donaldson, had their
50th wedding anniversary Oct 8th
Medie & family had them out and
had friends to come in - her S. M.
friends all sent cards, L. wrote me
such a sweet note, she is a fine
woman.

With lots of love
Gon.

Friday night Nov. 11-

Dear Julia:-

Well I hear you have been running around over the country, while I have been laid up with a bad sprained ankle.

Glad you could have a nice trip, it does us all good to get away from home once in awhile, it really makes us appreciate home more when we return.

I stepped on a rock and turned my ankle ten days ago, today is the first time I've been out of the house, the swelling has about all gone, but it's still very sore.

It's been two weeks since I've been out to see my sisters, I talk to them every day, Beebie, has been sick for several days, she won't have a doctor, she does not eat, that's unlike her, she always has a very good appetite. sister Alma, says she feels better, she had a Dr. here to come and see her, he gave her some medicine that has made her more comfortable. and has done away with ^{some} of the soreness.

My friends and neighbors have been wonderful to me since I've been cripple, they brought me more lovely food than I could eat. my land lady has done every thing for me outside, and brings me food

every day.

Hazel, has returned from Washington, she spent one week end in New York. she saw Goldie Rylander in Washington. Rudolph, spent last week end in Dallas last with friends, she reports a lovely time. I'm so glad she has waked up to the fact that she can get up and go again, seems she was tied down with business for so long she got out of the habit.

The storm in Tampico has hurt her interest there.

Ina Rylander Fourqurean, has undergone a very critical operation at the Brackwidge hospital in Austin. her son is the manager of that hospital, she is doing very nicely. her husband Tom, had a stroke several years ago, he is in a wheel chair, he can't even talk, she has almost killed her self waiting on him, don't know what he is going to do when she gets out of the hospital she won't be able to lift him any more. he is in the hospital too, while she is there.

I had a long letter from Mrs Fowler not long ago, she is rather frail since her illness in the spring, says she misses all the relatives down here, they were always so sweet to her, Rene, Hilber's, daughter is looking for her second baby this month, Mrs. F. is sorry she can't come and help her out. she doesn't think they write her enough.

Today is Nov. 11th seems centuries since we were all happy to hear the bells ring and the whistle blow, telling us the terrible war was over. the pity of it was, in a few years another more horrible one was on us, then in a few years another. seems the world is war crazy - and we are not ready for peace, it will never come as long as we can't live with our selves, let alone our neighbors across the water.

Mrs Stocker, has had another stroke, one leg is paralyzed poor old soul I wish she could go, she doesn't have much mind either.

Where is Campbell, now and how is he getting along?

Glenora Malone Thaxton's, husband, has passed away, he had cancer of the stomach like she had, they took most of his stomach out months ago, but it did no good.

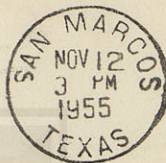

I hope Vada, will be much improved in New Mexico.

This letter has grown quite long, I don't want to tire you so had better stop.

One more question where and how is Freeman's wife I can't think of her name?

With lots of love
 for

ADDRESS

Mrs Julia C. Hart

Sunday - June 24th

Dear Julia: -

It's been some time since I wrote you last, but I've been quite busy lately try to give parties, and pay back some of my obligations.

May 27th was May Withers, birthday and I had 16 of her friends for supper on the 28th I was going to have them in the yard, but it rained and I had to have it in my little living room, but they didn't seem to mind being in close quarters.

My children gave me a window fan for Mother's Day, so it wasn't so hot in the house.

June 19th was Miss Bruce's birthday
so I gave her a supper party on the 18th
and had 24 - most of them were teachers
who had been nice to me. I planned this
for the yard too, and again we just
had enough rain to mess things up.
I moved every thing I could out of my
living room and put up card tables.
I didn't see how I could do it, but it
went off very nicely. They said my
food was grand. I did it all by my
self - only had help to wash the dishes.
My friends helped me put up the tables
and arrange things.

I'm through now for the summer.
I said I should have planned parties
months ago, and perhaps we should

have gotten some rain.
My sisters think I'm crazy to do all this
but I can't keep accepting parties, and
not do something myself, it didn't
hurt me either.

Rudolph came over yesterday and we
went to Austin to see some old friends.
It's been a long time since I'd been to
Austin, I was glad to go.

One of Hazeki's daughters is in S. A. now
with her family visiting before sailing
to Tokio Japan, I want to go over and
see them soon, I've never seen her baby
boy that was born last Dec. R.
says he is a beautiful baby.

R's son and his family are in Japan
this week visiting Virginia's parents.
They are coming by to see me Sat.
on their way to S. A. to see Rudolph.
I was out to Beebie's, Fri. They both

looked better. I'd die if I stayed home
in the house shut up like they do.
Russell Rylander, and wife have been
down here visiting. R. looks more
like Papa, every day, he even has
ways like him.

Foldine, is coming home on a visit in
August. She hasn't been here in 3 yrs.
We have had a few showers, but not
enough to do much good.

I believe I have about exhausted
my news for this time.

With lots of love and be good
to your dear self.

Dear Julia:-

I was happy to receive your card and hear you had such a nice time on your trip, and saw so many of your relatives.

It does us all good to get away from home, see new people, new country and eat other peoples food - still, when we return, we feel there is no place like home.

I've had a siege the past three weeks my land lady, had a stroke and had to be in the hospital, I took over her two dogs, a cat, eleven chickens, many pot plants and a yard to water - it was a job - but she was so wonderful to me, when I was sick, I was glad to help any way I could.

She is home now, and doing nicely,
she has a good colored woman to stay
with her.

Seems every whered move, I get into a
jack pot.

Mildred, sister Alma's daughter from
Oregon, was here for four days, she
was on her way home from the D. A. R.
Convention in Washington. she spent
two days in S. M. and she took her mother
with her to S. A. for the other two days.
Sister A. was like a different person,
her trip and seeing her girl did her
a world of good. the girls gave her
a permanent while she was there.

Beebie, had a good time doing as
she pleased while A. was away.
We had an inch and a half of rain

Tues. night. the biggest rain we have

with me that we will keep it dry
for 67 more years, we don't need
it here, with all the schools we

I want to get this in the box be-

Dear Julia:-

When Bebie brought in a card for me stating it was from Abilene, I remarked I guess it is from Julia asking about Pop and sure enough it was.

Pop went to see Antonio to spend Mother's Day with her children was gone ten days or more and found your letter when she returned. You probably do not realize that since she is not boarding she has much more to do, besides her two children, she writes to each of her grandchildren and then too she has several friends that she writes to, so she can't be as prompt as she once was, she requested me to say she would write you soon.

It seems every one that is able to be up is always busy, and you know older we get slower we move.

I am sure you miss Vada, I know how that is for I miss mine too. Mildred was back for a week in May, had not been here in eight years, I learned years ago that what can't be cured must be endured.

Clarence and Alice Maloney stopped by to see us a while on their way home from their lodge in Winnebago. Clarence looks awful bad and has no appetite for any thing. They are building a new air conditioned house and will be moving into it soon, and the bank has also built a new building and will be moving too so they will ~~not~~ ^{not} be

not spend much time up there this summer.
Betsey Thaxton Jackson is still alive but the
Drs say there is no hopes she will ever get well
altho they do not know how long she might live
has never spoken or moved since she was hurt
you of course know she was Glenora's daughter.
May Withers and Laura Holcomb are both
having backaches that keep them down at
times. I did not hear Alice was out in
Ruidoso, she is a very lovable person and I
am sure Vader is happy to have her out there
I never cared for Sarah but we are fond of
Alice.

Russell and Blanche Rylander from Cameron
stopped a short while to see us this morning we
their way home had spent the night with Shucks
sister both looked fine.

This has certainly been one of our hottest days
was 92 after the breeze went down, we need rain
too, so many trees over town are dying on
account of the drought.

I still suffer from shingles, keep up and do when
I am not too sick. I certainly hope you will never
have them, I never dreamed they could get one down
and keep them there so long, and what they do to our
nerves is awful, but Bebie and I are about the only
two our age that are up on our feet, its tough
going but we are thankful its no worse.

School is out and the children will run wild for
a while, I think they are much better off in school.
Jellia hope you can read this, I am getting so
lumpy will have to close. Bebie joins me in love
and hope you keep well -

Hi - Here I am on the
gad again. The trip
up was wonderful
and this is quite
a city. The state is
very beautiful - so
different from the
West. Had a brief
visit in Chicago but
didn't care for it.
Went thru the Art Institute

Dear Julia:-

Before I start my days work
I'll chat with you for awhile - its really
too hot to do much these days and
I might add dry -

Our river is lower than I've ever
seen it, all those beautiful springs
in Sander's Park in New Braunfels,
are dry - never was known to do that
before - They made the Comal river
its only a mile long, its dry and the
fish have died and they say it
smells terrible -

It seems to shower all around us
but I guess the Lord is furnishing
us for not serving him better -
Last Saturday night work Rudolph
had a picnic over here and had all
my family except the grand daughter

and family in Japan. There were
twenty eight of us.

I know you will be surprised when
I tell you Sister Alma, went and had
a good time, Beebie, went too, but we
were all surprised at Alma.

She had every thing good, she said it
was for Hazel's and Jay's, thirty-ninth
anniversary which was June 27th
Her son and family were there too
from Corpus.

Hazel's daughter Evelyn and family
have been with H. for the past three
weeks, they leave for San Francisco
on the 23rd and fly to Tokyo on the
27th to be gone three years - so she
will have most of her family over
there.

I phoned my sisters this A.M. to see
how they were, Beebie, said about
as well as usual, stiff, sore and
no account.

Do you have any one in the house with you now? you didn't mention it in your last letter.

Clive McKie Farmer, and her daughter Margaret and little girl, spent the week end with May & Evelette, Clive is so pretty and sweet, she looks a lot like Medie, did -

Did you know Louise Donaldson, had an operation and was in the hospital several weeks, don't know the nature of it. Medie and Walter Jr and family were on their vacation at the time.

I'm going to a Sunday school class picnic tomorrow night, I'm Miss Bruce's guest. its nice to go and not have to fix anything.

Summer school is out this week and I surely am going to Miss Miss Bruce, she is so nice to take me place.

She and a friend are leaving Sat.
for a trip to the West coast and on up
into Canada.

I think I have about exhausted my
news, so had better stop -

With lots of love
Joe -

Thursday -

Dear Julia:-

I had gotten this far on this letter when the postman came with your card saying you were leaving for Milton. I was glad I hadn't mailed it.

Well, the celebration for Dr de Steiguer, was a big success, a hundred and twenty five of his close kin came. never saw so much grand food -

I gave his Life as I had known him down thru the years, every one said it was good, also true. I believe I told you I was giving it as a T.V. show.

Jay, acted as M.C. and one of his

daughters & her husband gave a
commercial on Tarleton cigarettes.
when I finished another grand
daughter was dressed as a cigarette
girl and brought in a beautiful
tray with 102 pkgs of cigarettes
done up pretty, and set them before
him - it really was a good show -
But we have had sadness in our
family since then, I think I wrote
you in the Spring that Frances F. Smith
Ina Pylander Fournier, daughter
had her breast removed and it was
magnificent, well it spread all over her
body and she passed away last
Sat and was buried Sun. in Victoria.
her husband died last Oct. she left
a fifteen age daughter, badly spoiled.
Ina & Tom, (you know he is an invalid) are

moving to Victoria, and stay until
she finishes High school in June.
I am very very sorry for Ina, she has
her heart and hands full.

Clive McKie Farmer of Beaumont, who
had a stroke in Feb. has improved
enough to be brought up here with
May & Eva, for awhile. She looks so
badly, she can talk a little, and walk
a few steps with help. They have a
nurse with her. We don't realize how
blessed we are, until we see a case
like this -

Rudolph, sold her place in S. A. to the
first and only people who looked at
it. She is busy packing and disposing
of things, she has to give possession
by Aug-22. John, is going to fly
down and drive back with her -

She is going to spend this week end
with me. which makes me very happy -
Beebie, hasn't been well this week,
says she is weak and nervous and
her left side hurts, she looks bad -
Alma, is about the same -
Hazel & Jay, are planning on going to
Colo. the last of this month for ten days.
I'm so glad you are having a visit
with Ed's family, I know you will en-
joy them. Give them my love -
Cousin Sidney Lawhon, had her
ninetieth birthday last week she is
the only living one of Aunt Beck
Honey's children. she is very feeble.
I believe I had covered all the family
news for this time -
With lots of love to you all

Friday-

Dear Julia:-

* I have been home
* a week and have hardly had
time to catch my breath, as so many
things piled up while I was away -
I had a nice visit with my children,
Rudolph, was quite busy getting some
work done on her place before putting
it on the market.

She phoned me this week that she had
sold it, only one party looked at
it, and took it.

I know how hard it is on her to have
to break up, I've been through it
and I know. when she had a home
in Texas, she felt she could come
when she wanted to and stay as long
as she liked, and she will never feel
that way again. I'm sure.

She is getting anxious to get home

John, came down the week end of
the fourth, he surely hated to go back
alone.

Last Sat. after-noon I went out to Beebie's
who do you think was there Abbie Moran
she was on her way to San Antonio, and
she stoped between busses. She looks
so much like her father, she is very
entertaining. I was so glad she stoped.
This hot weather take the starch out
of me, but I can't stop -

I believe I wrote you that Orde Stigner
Hilli's brother in law will be 88 yrs
old Aug 4, and he is having a big
celebration that day. and that I
have written his life as I have known
it thru the years.

I'm giving it like a T.V. show. having
an M.C. also a commercial on Tareyton
cigarettes - so I have worked hard on it

and I hope it goes over big-

There will be about 125 there.

Sister Alma, has been down again this week, she just can't stand pain.

Medie Donelson, has bought a new home in Dallas, next door to May Kyle, and May is so happy about it.

Mathie McKie Mitchell's oldest son McKie, passed away this month in Marfa, with a heart attack, his health has been bad about three years. He was Maunson's first great grand son.

Clayton Malone & wife made me a nice visit Tuesday. Clayton, looks so much like Brother Willie, now. He is such a fine man, and I like his wife very much, she is so homesome as well as pretty.

I want to get this in the box before
the mail is taken up -
With lots of love -

Tuesday -

Dear Julia:-

I was happy to receive your letter and hear you were having such a nice visit with your children. What would life be without our children. I thank my Lord every day for my two.

Rudolph, sold her house and got every thing fixed up, John, came down last Friday night, and they drove to Okla. City Sun. they came by a few minutes to see me -

Hazel and Jay, left today for Colorado on a little vacation. They will be gone until Sept. 8th -

Marilyn, Hazel's daughter is coming over to spend the day with me. Thursday - at least I have one grand

child in Texas, in case I need some one.

I'm sorry I didn't answer your question about Mattie McKie Mitchell - she passed away in 1945 and her husband passed away in 1943.

The article you sent was her brother in law - her oldest son McKie, passed away the week before Mr. Tom. All of her sons and one daughter live in Marfa, Texas.

I believe I wrote you that Clive McKie Farmer, had a stroke in the Spring. She is here now with May and Eddie. She is so pitiful, she can talk a little and walk with help and a cane. They have a nurse with her.

We heard in around about way that Mary Malone, Hill's wife was very low with cancer, they live in

Plainview. His health is terrible too.

Clarence Malone's daughter Mildred and her family are up at Kimberley on a vacation. They came down yesterday to see me, she is so pretty and sweet, she has a lovely daughter 15 and a son 14. The son went to Washington to the Boy Scout Jamboree and the girl has been in camp at Kerrville.

Beebie and Alma, are about the same, stay shut up in a hot house all the time, I'd die.

Medie Donaldson and her children are visiting here, I haven't seen them. She told Beebie, she enjoyed her new home so much, and it was grand to have May and Charlotte for close neighbors.

I think I've brought you up on
all the family news for this time.
With lots of love

Dear Julia:

I was happy to receive
your nice letter a few days ago -
I am having a time, with bursitis
in my right shoulder, have been
so I couldn't comb my hair nor
dress myself half way for three
weeks, nothing seems to help me..
On top of that the leg I had phlebitis
in several years ago, has been
acting up and I can hardly ~~able~~
walk. Old age is terrible when
one gets down and don't have
the strength to ~~come~~ make a come
back quickly -

Beebe and Alma, both are sick. Alma

has been down with flu since last Thurs. really has been sick, she won't eat and of course she is very weak. Beebie, has a bad throat, she went to the Dr. this afternoon. I haven't been able to go out there for the last three weeks.

Hazel, came over Sun. and spent the day with me, she wanted me to go home with her, but I didn't feel able to go.

I go to the Dr. every other day and he gives me two shots, and a 30 min. diathermia treatment.

My left arm is like a pin cushion and sore to the touch.

It's all I can do to hold my pen

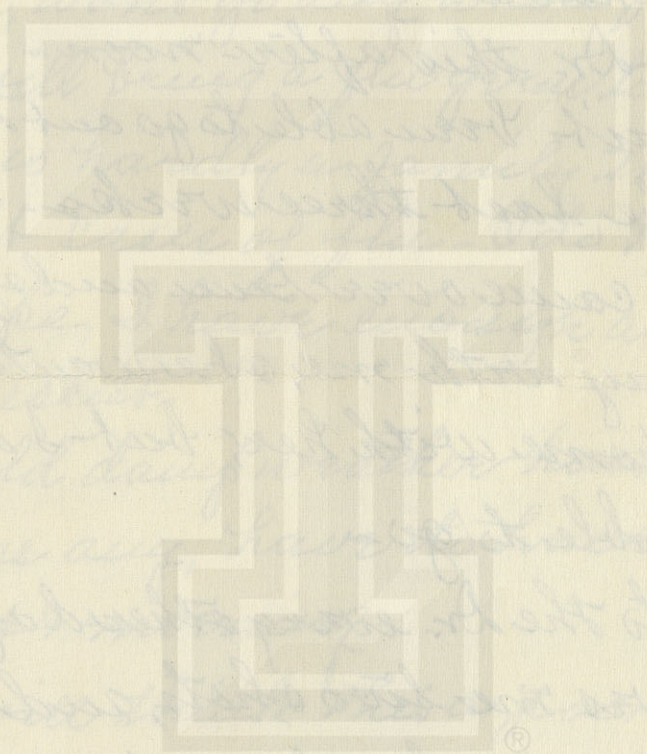

and write, so set these mistakes. You asked about Clive, she is improving slowly so they say, May & Eviette, won't go any where for fear they will bring a flu germ to her. There is hardly a family that hasn't cases of flu. I do hope I escape, I have enough ailments at present.

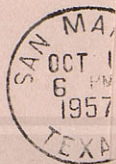

The cold damp weather hasn't helped me any, have to have fire night & morning.

You will think this a poor letter but I haven't any news except sick news.

Give Maude, my love, tell her I think of her often.

With lots of love
Gus -

I surely miss her, she does

Dear Cousin Julia:

I am sorry I have been so long answering your letter, but things have been rather hectic this spring and I never seemed to find time to write. I was glad to get the picture of Tom Webb and hear about him. I had no idea he is a partner of Aubrey Stokes, for I didn't know Stokes had an office in Abilene, and I didn't remember that Tom is a lawyer. I do not know Stokes personally, but know him by sight. I am glad to hear that you can come over with Tom some time, and will be happy to see you. It looks like I will never get over to Abilene any more.

I have been very busy as we have had company, I have had the grandchildren here, and Hugh hasn't been well. He had a bad cold and went to the doctor. The doctor found that his blood pressure was too high and gave

him medicine for it. Soon after that he had trouble with his eyes. He saw double and had a bad pain in his head. It was a small broken vein and the doctor said it would take two or three months to clear up. He has had to rest most of the time and I have run the errands. His blood pressure is down and he feels much better and can read a little now. I think his eyes will be all right before too long. He gets very restless and hates so not to be able to do what he wants. He might as well get used to it for he is going to have to be careful from now on.

Winford and Bessie have a baby boy born Mar. 20. I kept Pauline for them until Bessie got home from the hospital, then her mother came. They are glad this one is a boy and so are we, as he is the first grandson. We have four grand daughters.

It is fine that you are able to keep up with so many activities. (over)

I am sorry that Aunt B and Aunt Alma have such bad health. It is terrible to have so many aches and pains.

Lillian is still teaching a small class, but is miserable all the time. Her leg is so sore and stiff she can barely hobble around, and I am afraid to go off and leave her alone for a few days even.

Bobby will be home for Easter vacation in a few days. He is working hard at the University.

Hope to see you soon.

Love,

Hallie.

Dear Julia:-

I have just returned from San Antonio, where I went to welcome my grand children home from three years in Japan. The little boy who was born over there, is precious, he fell for me, he wouldn't let me out of his sight. He is a very affectionate child. He will be two years in May, just a cute age. Beebie, has been right sick she won't see a Dr. nor do any thing to help herself.

I was out there yesterday, she
looked and seemed better.

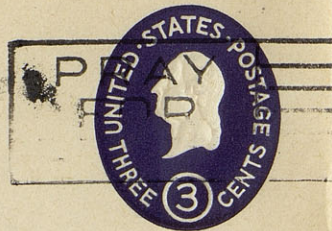

Alma, is as usual always
complaining - its a pitiful
situation.

The McKie and Rylander girls
are all pretty good, all getting
old - Clive, is looking much
better and talks better.

We have quite a few cases
of pneumonia here, mostly
old people.

With lots of love and best
wishes for a Happy Easter
Joy.

Dear Cousin Julia:

I was glad to get your letter and the card from Aunt Joe, but so sorry to hear that Aunt B is so sick and the other two not well at all. I hope by this time they are better. I intended to write them as soon as I got your letter but have been too busy. Each of the three older granddaughters has spent a week or ten days with us, and of course I had to spend most of my time entertaining them. Almost every weekend some of the boys and their families come over. I have been very busy all summer. Bothy will be leaving for Austin the fifteenth, and maybe I'll have time to catch my breath. There will not be so much watering of the yard to do as it is getting a little cooler.

I am sorry you haven't gotten over to see us yet. Pup hasn't had a chance to go anywhere this year. Hugh had several things the matter with him earlier and we couldn't very well leave

Lillian and Bobby here in the summer.
We may possibly go down to the coast
after Bobby backs in ten days. If we
go thru San Marcos we intend to stop
by to see the aunts for a little while.
I surely hope all of them are better.

I know you enjoy the grandchildren
and great grandchildren. I'd like to see
the little half Italian baby. I know it
is cute. A ^{friend} friend of ours married an
Italian girl and they have two of the
prettiest little black haired, black eyed
children. Winford and Bessie have
a five month old boy who is a fine
husky baby with four teeth already. The
girl, Pauline, is cute and sweet and pretty.
I hope that you are all feeling well
and that you do get to come over
before long.

Love

Halie

Dear Aunt Julia,

How much I enjoyed hearing from you! Too bad we are so far apart in miles for I would dearly love to drop in on you for a real visit...Mother has spoken fondly of you over the years and we "children" feel that we know you well.

You are correct...I did live in Spokane for ten years and worked for an advertising firm . Spokane was very good to me, but I felt I must make a change from the pressurous advertising business, and too, I wanted to be closer to "home on Spring Creek" and to my sister, Janey, and her family in Great Falls.

So after a wonderful three months' vacation at home with Mother and Dad, I located in Helena in August of this year and am doing secretarial work for the Oil and Gas Conservation Commission of Montana. It is a very drastic change from the type of work I was used to, but my new found freedom from pressure and seven day weeks is refreshing!

Thank you very much for sending me a copy of the beautiful poem you wrote about Grandfather. Long ago, Mother had framed the copy you gave her and it hangs in a very special nook in our front room. Thank you so much, Aunt Julia!

Hope this note finds you well and strong in your 85th year and enjoying happiness in your many friends, neighbors and relatives.

Loving best wishes always,

Bernice

Dear Julia:-

I have been so busy getting Beebie's Estate fixed up I haven't had time to answer your last letter.

Of course Beebie was in the hospital so long, that and Dr's bills, and radium, it took most everything, to say nothing of her funeral expenses and stone, - but thank goodness we had enough to carry out her wishes.

I never dreamed there was so much red tape in settling up what little was left, I have to do it all alone says she can't, and then isn't satisfied with what I try to do.

We haven't sold the house yet, we have come down five hundred dollars on it.

The Army Field, here is closing June 30th and there are so many houses put on the market, I'm afraid we will have it on our hands a long time, as it isn't a modern house.

Sister Alma, went to my doctor and I think he is helping her, at least she seems better satisfied with her move. she is fixed up real nice. she says its like play keep ing house now.

I had a nice surprise last Mon- night, the phone rang and when I took it up, it was Hazel, she said she and Jay, were going to Colorado, May 30th for ten days on business, and wanted me to go with them, said they thought I needed a change of scenery, I had had so many worries I

needed a rest, of course I'm thrilled over getting to go, especially when it doesn't cost me anything.

Saura Holcombe, left by plane today for California, her children sent her a round trip ticket to come visit them, she will be gone a month.

Rudolph, is in San Antonio, on business, she will spend this week end with me.

Florence Kone, has been real sick her brother came and took her to San Antonio, she was there two weeks, she is home now, but far from well.

I wish we were coming by Abilene on our way, we would stop and say Hello, but we don't go that way. I have never been in Colo -

where they are going, and of course
every thing will be new to me -
I want to get this in the next mail
take up, so must hurry -
I'll leave S. M. for S. A. next Thurs.
With lots of love
Joe -

Dear Julia:-

I was glad to have your letter and hear about your children & grand children, as like your self I can't always get them straight never having seen them, so I am writing to set you straight on Helen Allen, she is Laura Holcombes second daughter, her first husband died and left her with two small children, the youngest still in diapers she came back to her mothers, got a position in the schools and taught for years, while Laura looked after her children, I don't recall the year but she married Calvin Allen a cotton buyer, and quite well fixed and has one son by him, now old enough to go to school. Mr Allen never had any children by his first wife. Laura's oldest daughter ^{Helen} married William Blair, lives in Louisiana, has one son & married. Beatrice Laura's third girl married a soldier, both quite young and live in California, they have two girls and 1 boy and Laura is out there now visiting them, Jerry has worked hard, is a fine fellow and has been made a General in Laura has been out there; Her boy Herbert Jr. lives here has two boys, is in the real estate business.

I have had three cards from Gail she is having a wonderful trip, they were on their way home the last card I had, she will probably be home some time this week. We have had lots of stormy weather this spring, high winds that blew down many trees over town. May Withers & Evisette

camp to see me for a short time Monday more
they are only fairly well. Olaf did not come
Olaf's grand daughter married last week
she is her oldest son's child, William Farmer.
I never hear from Bro. Roberts children except
through Kate Elam she writes at least once
a year. San Marcos is at a dead stand still
waiting on the Fields decision which they
feel will close the last of this month.
I am still weak and no account have
severe pains in my back from waist up
Empiric keeps me up and eases the pain
but I am so thankful I can keep up and be
grateful for my many blessings if we could
only sell the house, but have no prospects so
far, am afraid we have a white elephant on
our hands. I hope what I have written
will make sense to you, if not just put
it down that Anna has gone "deco".

Love to you and
Yours - Eff Anna -

Dear Julia:-

Memory is carrying me back over many years this beautiful Sabbath morning, and it seems your face stands out above many others, I have wanted to write you for some time but was weak, sick and nervous but the Drs. medicine while slow to help, I feel better this morning. I have moved as of course, you know and I never dreamed I could adjust myself so quick, and even be satisfied in fact very comfortably and happy. The place is clean and easy to keep. Laura Holcomb has gone to Calif for a month, Medie Lytle to Dallas. Joe left Thursday for San A. to go with Hazel & Jay to Colorado and Helen Allen & Family leave for a

^{trip}
as soon as school closes. I do not
enjoy a single one of them. I am just
where I want to be, all I want is
this world is to sell over home
and get my strength and health
so I will be able to ~~and~~ do what
is required of me.

The McKip girls were to go to
Austin. Friday Clint Farmers
grand daughter was to be married
still in school, but both expect
to go on to finish, so many young
folks are doing that now. The
field closing here has certainly hurt
San Marcos, so so many vacant
houses. I do not know what they
hope to do with it out there, for
they have spent money like it goes
out trees. We have had many sad
deaths here with heart attacks
and cancers as well as other things

Lillian & Paul spent Mother's
Day with me and my husband. The
weather was half & wind storm.
I have seen ice years, they left
in the rain, but after leaving
New Brunswick they had snowing
all the way home. Lillian
continues to work since I never
could have gotten moved with-
out her help. I was surprised
to hear little old Will Malou had
married again. I hope he got a
good wife for his first one Mary
was so wonderful good & sweet.
This is a dull letter but I want
you to know I think of you often
and love you dearly -

With all good wishes to you
and yours - Eff Alena C.
