

Dear Mother Dobby

We are having some more warm days but I'm liking everything including the weather - Warm weather does not hurt one as much as at home if one uses enough salt.

I do not have a bunk partner our 2 beds are separated by a rattan rug and table so if I had one it would be crowded - I put the other bed on stilts so it is almost level with the window sill and sleep on it when it is warm. I will get ~~another~~ a ~~partner~~ partner when the camp bull cook finds out I'm by myself - but his books say I have one and the barracks bull cook makes the bed and changes sheets - so a passerby thinks I live at my place.

I have met several nice as well  
manned sensible men here - so many of  
the men here are too young or are so  
foolish - some men only come here to  
get away from the Army and do not take  
any interest in their work -

you I've received the glasses - they are  
fine - also the two snapshots - I show  
all pictures to my friends - I'm very  
glad to receive all pictures I'm glad you  
like my pictures -

Before I forget - I may have  
to return to the U.S. - any boat as  
the last I heard my deferment had  
not come through - so please do not  
plan to send me anything for Xmas as  
it might arrive here and it is almost  
impossible to get a return ~~on~~ on all

good packages - - anyway I want you  
to plan on my being in California  
xmas - as I could be there and may -

The company manager of Wake - said it  
was entirely possible that I might have  
to go back - but not to worry that they  
would pay my way back and salary  
en route -

Does Nova need the \$300 - if not send  
Nova \$95 as I may want her to get  
me a few xmas gifts - But if Nova does  
~~not~~ need it Nova said to give it to her.

yo mama - I do intend to farm  
when I return - I'm so homesick at times  
but I do not mind it so much - Do  
not worry if we get in war with Japan  
as we are out of their way and they evacuate all  
of the civilians so we will be the first  
to leave

Love  
Arthur

Overtime statements  
have not ~~been~~  
~~come~~ been ~~per~~  
sent back from  
Honolulu so  
my August  
overtime will  
have to stay there  
until the state  
is sent here to  
be signed by me.
