Dear Mother,

March 7, 1994

I just wanted to let you know how much I appreciate all the help you gave me getting ready for my party. The flowers & plants really make a big difference and the chocolate cake was a big hit. They all want the recipe as if they would actually make it!

As I work on my house each day, I gain new appreciation for all you did to make our house growing up a wonderful home. I love you. Ray
