Sunday P. M.

Dear Obo; - I have signed the application blanks for tax refunds.

Some one down at the bank will acknowledge the signature for you.

Get it notarized - attach the license (its tacked up on the rear wall of refrigerator) to the application and mail immediately to the S-F & O, Com - Austin so they can get our refund in process of liquidation.

I sent a check down already for the new license - and on top of all that I am in love with my wife - in a hospital - in love - in bed - in Dallas - my goodness my goodness what next. I never imagined getting in love would get me into all this. Well even with all that being in love isn't half bad.

Your letter this morning - its nifty nice to take time off on Sat nite just to write me a line - n' I am glad to read where you say in the letter that you still love me.

I dont know why you would delay dismissing Bill. I dont think he will ever be able get back in the good graces of either of us. He lost his standing with me long

ago - shortly after we were married.

If on receipt of this letter, you have not dismissed him, I would not delay the job another minute.

If after 5 years on the job he does not have sense enough to appreciate, and to properly handle his job there is no hope for him and, only one answer to your perplexities about the matter - dismiss him - that's the answer.

Managing those businesses is going to be your job for some time to come sweetheart. I will help as much as possible - but remote control won't do the job - the big part of the burden will be yours, and I want to say you're doing a big job of it already - little partner - stay right in there and nitch - I'll be with you just as soon as I can - but that may be some time yet.

We feel sure enough of results already that we know I am going to be able to walk again - and we believe without a cane or crutch or pain - tho lots of the working apparatus in the knees will be

missing. as to the final condition of the knee - that's merely a guess yet - the knee is yet too painful to be able to tell much about its internal condition. Hoop and soap - well I'm well supplied with both sweetheart.

I've found a girl down here that don't like me - n'd don't like her so I think I'll stick around a few days more just to have the privilege of reporting her a few more times.

Do you still have signed checks # 531-532-~~533~~ or have I failed to enter some you have written? If you need more signed checks sent out, let me know.

File this letter under date of the 12<sup>th</sup> from the same - F & O Com we may need it later for reference
