

Whiteface, Texas.
Dec.2nd.1938.

Dear Sister:-

Ed and Tom did not come thro Abilene,they figured that the trafic would be heavy on the Bank Head and took the west route thro San Angelo.

So glad to get your letter. always glad to hear from you, I surely trust that Ross will not be sick,the cold serium is working for the second year with me 100% and I would not try a winter without it, it only cost \$1.50 for 21 doses and that is enough for two people.

We surely did enjoy Ed and his nice little family last sunday,they had a big time, right after they left we got into a wolf chase and got three wolves,one of the boys shot up all his cartrages and we run the wolf down and killed him with a hatchet,surely wished for Ed and little Eddie would have had a lot to tell about the chase if he could have seen it, I hope they come oftem as we all enjoy them, Varginia rode the pony and so did the rest of them.

So far as I know we have all done what we could for our dear little mother, I have felt for the past 30 years that it was a privalidge for me to be able to do any thing for her, I tried not to neglect her and we have all worked togather I think mighty well,he life will always be an insperation to me,and I am proud of both our parents, it is up to us to live the life we should, but I know from experience that all the pleasure we will ever get out of this world is in doing things for some one.

Our weather is fine out here, we need rain but it will come in time, our crops are about all gathered and our stock looks well, we have plenty of feed.

So glad to get the clipping about Uncle Ward, he is a wonder to me, I want to see more of him and I know he deserves a lot of credit for he was 61 when he went out there.

Lots of love to all of you,and we hope to see you should you come out this way.

Tom. ®
