Monday P. M.

Dear Gordon:

Here at the main P.O. so want to drop you a line. It is terribly hot. We barely slept last nite. The kids aren't behaving very well so if one of them straps in, don't be surprised. Bought a few 25¢ prints that I hope I can get framed.

We plan to leave here at noon Tuesday. Couldn't see White House until Tues. Here going to the Zoo -- hope I don't lose any member of the family. John would make a good taxi driver. He jerks in and out of this traffic until it almost makes me sick.

He had a wonderful stay at the Seates - Virginia home for breakfast twice and lots of good fun. He

had almost as royal a welcome
as if we had been Mrs. Sticks.
Could write more but our
time is short.

Don't have the trip up the country
planned for sure - think I'll
stumble along and see how
things develop. He will probably
go to Maurice Town before Pto.
if there is a ferry to take us
across Debutare Bay. I wish
the kids were learning half
as much about this country
as I am.

Give my love to all
and keep a big hug and kiss
for yourself from all of
us.

Geo
