

not - breakfast?

Mr. Hill was sick yesterday and  
Mr. Hopley had charge of the show-  
day school. I guess had no going  
to the all night - Mrs. Shaul  
pleas for Sunday school now -  
all the time that seems to be  
no one else - Mrs. Lee comes  
to my seat often with the baby, it  
was back in the south - former  
my baby own sisters and brother - the  
dear old spent the day with her  
they expect to move to Galveston.  
and fact - Mrs. S. is staying here  
through the week. Had a room  
at - Mrs. Meyers - Raymond  
and some were out - last -  
night; she has a new hat -  
not a spring but a summer hat,  
by the way. I send your little  
black hat next spring - will you  
want - your wants too? you follow  
the guide one I made and then the

Monday Morning

Galveston Feb. 19, 1919 -

Dear Ruth: It is not quite time  
to get out. I have the whole  
house cleaned up and am ready  
to work till play a few minutes  
though with you.  
I was excited disappointed go -  
today but - it was my informant -  
I expected Hilbert - all day Sat-  
urday, I mean I expected that -  
he would come on Sunday -  
I made brown bread, cooked  
beans and also some oatmeal  
grains. I even saw horrid  
Sunday before expecting him to  
come. I said - ought - about - 8:30  
and I believe called but - when I  
answered they were off. The line  
and I never said get them. I  
thought - he surely was coming

However he never did come, and then I got-meaning about-him trying to phone me and not getting me so before I went to church last-night - I phoned him, he said that never did get-me and he didn't think it funny any thing about-it - or he would have phoned again. He said Big boy and little baby had been sleep with each - He asked about-you.

Margaret-Jack had the R. S. P. U. last night & was good but - she had such a chillish way of expressing herself. She rubs her fist and made quite-a-little talk on how much wrong copage some of the others were than herself. She says: "You all know how I always get-evening thing 'erractly all up," but - still do not - it <sup>can</sup>

I couldn't help, out - think what - a useful observation was - for she whined have been if she had been hoarse. I am thankful for though that her heart - it might - I was afraid she would never be any thing unless a bathosie - Mr Smith Hillman was on yesterday & said - know what was the matter. Mr. Pae did not come back, the family have not - even heard from him yet - I suppose his father is lingering and there is no hope. Mr. Jode presented morning and evening. His evening sermon was good but - I don't - suppose you would have enjoyed it - much as he was rather verbose and talked with his whole body as well as his mouth. but - what he said was fine - I wonder why he is

feelings I have had when I felt  
"prick" and out fit for any thing -  
I wish - I think went out of the  
with you about it - but for the  
last - week I have been like a  
different - person - how did it -  
all unexpected if you understand  
him out of a few accounts?

Mr. Semingson came over one  
day last week and we had a  
good visit - I made tea and we  
had some "much conversation" -  
I said that was the first visit -  
she had made out - side of the  
farm since she had left -  
I gave her some eggs to take  
home with her - I think -  
if I told you but - Mr. Semingson's  
father died and they gave him his  
father's place - as much he will have  
a portion the rest - of his life -  
he gets about \$10,000 from his  
father's estate - what - what fine?

She doesn't tell that to people but she  
told me, she also told me that  
Mrs. Bird had had her entrance - she is  
with Oliver and will probably at -  
ways be. Mrs. Bird is in Hingham -  
the - I believe was not - out - yet -  
Sunday about - I know if she has  
leaves - I know had a new brain,  
and - I know if you have seen her  
a Mr. Merrick - She sat - by me  
last - night - but - I didn't get to  
ask about - him - her brother  
is home, hope the war would  
a man of him -

We own Nelson's any thing more  
about - Mr. Ragby his foot - friends  
or out - either, if - is a fact -  
about - his second being all -  
One of his best friends goes to -  
see Mrs. H. and he would  
the same thing - some of us

think that his mind is of  
facial, he studied at Harvard. Did  
Miss Alice say any thing like that?  
I certainly and so on, for his  
mother but - we if you know -  
it - was be all for the best.

My class is about the same,  
substantially in existence.  
I may give it up and go  
over and teach in the State  
Mission. There is no hope of  
me ever getting my class re-  
mitted.

I hear the position

one Mr. Stewart - gave you? I  
will have you. Later shall I would  
and send them will try and  
send you some more this week,  
have bought - some for you but  
you may not - like them, when  
I got - them they did not - have  
a bleed - silk had in the house  
said they sold more of these  
than silk, now, if you don't -  
like them for nice after you  
have work them - don't - wear  
them for common but - save  
them for me when you come  
home and I will send you  
some others for common -  
will get to work on your first  
and soon - You know there  
has been some thing wrong  
with me and I believe I am  
finding what it - is and how  
to get - rid of it - Those limbs
