LARIAT
ROUND-UP
DIRECTORY

Dear Folks,

I sure enjoyed the letters. It is good to hear from you. I have 76, 75 and 346 out of 450 for averages going into finals. I should come out with a high c or low b in every course. Pop, enclosed are ~~two~~^{two} articles for you to read. We sure need to be careful and I have got to learn some more before I take on any winter weather flying. Planes are cracking up like crazy of late. I want to learn some more about what to do when things go wrong like icing, etc.

I should be home by or before Tuesday. I wish I was there now. I hope everything is working out okay. I have a date with Carol Jean tonight - strictly as a friend only. Just mentioned it so you would know Maw. I ain't messing with the girls but you are supposed to have one to go to the Four Freshman so I got one. Women rugh. You needn't tell Mrs. Ewing that though.

I am taking Business Law, Corporation Finance, and Political Science next quarter.

Can't think of anything else worth writing about so will close. Love,
John
