

Overday morning

Dear Cleo;- I did not tell you to go easy on the dates - I'll have enough for both of us (four big boxes sitting on the counter) - guess I should have just brought you on to Subbock as I threatened to do when you began considering that Julia stop. Oh well - I know I can count on "ma" Hankins - and I'll bet she makes you believe too - and if she can keep you under control until Sunday I'll take charge for a while then.

I'm going to bring the radio down Sunday - if you want to listen to it any more - oh well - you know - it will just be here - yes - I will let you listen some sometime if you will come down - but I've been doing without that radio long enough. Next week for the trial I suppose - though have heard nothing about it - from my lawyers or anyone else - maybe one will settle two - and if it does two will settle one - question - then and there. This back room is in an awful mess - but I guess it will have to wait until next week for that cleaning up - oh well - the inspector is a right friendly old guy and I stand in with him pretty well - he don't inspect too closely - so I guess we can get by until you get on the job. I will expect the inspection slips to read just like the one hereto attached - all of them - the inspection slip concerning life and living especially - without a ring or black mark or blemish to mar a clean white set - that's the way I want it to be Cleo - that's the way it's going to be - I know it is - and am anxious to commence proving the answer.

Business is OK - Simmons is out looking for a little Simmons - he left here early this morning - heard a doctor - at high speed - seemed to know exactly where they were going and what they were to find - so guess it's all over now. yes - here he is - just came by to say - it's a boy - and all is well.

the coat - I will bring it down Sunday - the trunk - well - just whenever you say the word. If there is anything more left up there to talk about except the radio and memories I don't know what

it is unless it is that fish market - and I am not going to fuss much about it anymore - even if it has lost me a few thousand dollars. I have won more by far than what I lost because of it - so all is well it was a good investment I know - one I will always be pleased with it.

Here is a letter - where it came from or how I happened to have it in my pocket I don't know - I found it and a piece of a tube of Kolynos Monday morning when I changed clothes. Did you put them in my pocket or did I?

The wool was delivered as per instructions and will be made up in hats the first time the weather is suitable.

Well - its train time - take it easy - rest a lot - sleep a lot - store up a little for later on - I'll have you a big box of matches handy. 4³⁰ will be early enough ^{for breakfast} any time except Fridays.
