

boys, but - then you might - out  
cabin for <sup>some</sup> real nice boys - and  
how will see - Mr. Morgan  
is at - the head or near the head  
of an insurance company here.  
I have not learned what Co., he  
rooms at Mrs. Semple's -  
is somewhat married, says  
a solo Sunday night - don't  
know if he has joined the  
choir, he is a good friend  
Dr. Lattimore is that is how  
he got - to Mrs. Semple's -  
I have only just - spoken to -  
him, so take your -  
former an opinion of him -  
he is it - much for that but -  
is not - quite so bad as Dr.  
Lattimore. Well, I have given  
a lot - of space to one poor fellow.  
I'll cut it - down for the rest.

Thursday night -

Dear Ruth:

While  
I'm waiting for church time  
I will come to you. We have  
been having bible pictures and  
lectures in connection every  
night - this week, called off the  
prayer meeting for it - the pictures  
are shown on a canvas just -  
below the organ and the ora-  
chine is operated from the gal-  
lery. The pictures are beautiful,  
I confess they are all from the  
old masters - I enjoy looking  
at them, but - do not get - out -  
out - of the lecture, and not  
very enthusiastic about - the  
idea but - do not criticize it -  
Dr. Paces father died Monday aft-  
he came home to-day.

This afternoon a crowd of no  
went - out - by the Marine Hut  
on 31st - to attend - He didn't -  
do enough to pay for the goo -  
else it - but it got me out - then  
It is a kind of a bluff like  
Mrs. Hester's Red Cross work -  
Mrs. Rice took in out - in her  
car - Mrs. Meyers - Mrs. Selvage  
and myself - Addie Henry,  
Margaret Jeph & Vera - came  
out later, the girls worked  
a long - and went off down  
the Boulevard - I don't - know  
if I told you the Philanthia story  
is a real clear story, Mr. Hill  
seems to think it is all right -  
I had quite a long talk with  
Pera, she has been trying to get  
a school in the country but -

So far there is nothing in  
sight - she expects to leave  
another <sup>year</sup> in a small place  
she says - she says she is only  
two, her the time, I wish  
she would get - some other  
fellows besides Carnegie - she  
got a beautiful package brought  
from - did you know any  
thing about it - she didn't  
say, but she gave it - to her and  
Adelaid - ship. Yes, honey, she  
going to try and be able to -  
get the things but - again so -  
pecially the ones I think  
you would like, but - I don't  
know as it - would be best for  
my to express myself about -  
them because you might -  
think some other way, why  
of course I can tell what she

convinced to read in the  
highlight - service and hope,  
you keep on, until you will  
never be hindered about - it -  
I wonder if your work with  
the Indians had not helped you  
in that respect too. Do you  
imagine the choir?

When I wrote you I had  
in mind the little joints  
please or what will be quite  
when spinning with it - but  
perhaps I had better write  
the quigham first - so you  
can wear it - while it is  
cool as I am afraid it will  
be too hot - and the place you  
can wear all summer -

Revolution & Revolution were so  
pleasant over their letters they got  
so was Mrs. Hamilton woman -

I don't - imagine you will  
come much for all Henry -  
I think maybe we are go-  
ing to have a nice build  
of boys if we only had some  
girls that would - so silly -  
I think the soldier boys have  
diminished the girls. I can't  
seem to please the boys from  
Hades that you are interested -  
but - will that him up, so  
be a medical student?  
Glorious is picking up girls  
a bit - Mrs. Gards has cold  
then, having to leave, the weather,  
mean they are going to travel  
but - have will be in about to find  
accommodations yet - the  
Brunn's are still examining.

the title to that place met - 4  
Hodson's. Mrs. Hodson went  
up to Stillbrook this afternoon,  
his mother is sick not - every  
bad though -

I don't remember if I told you  
I gave Mrs. Lewis the sarapis  
of that blue & white - I should  
of yours and also the blue that  
I found it - and she made  
Rose Marie the cutest little  
dress - she was so tickled over  
it - she had to tell Mrs. Harte  
about it -

It certainly was a pity - about  
that fire, you might have  
given her the blue & white  
I give her too if it is fit - I guess  
they needed money to buy under-  
wear with too, and doing  
thing costs so much - How

many girls suffered? I had  
not heard it -

Am glad you enjoyed my  
letter yes, I'm still feeling fine,  
and hope to continue, the  
difference in my feelings is  
worth years of this life - I  
know there is something  
wrong with me now when I  
have those feelings and I  
will not be satisfied with it  
that way -

I didn't understand that it  
was necessary for you to have  
three pictures to copy I sup-  
posed you could have two or  
as many as you wanted made  
from the same picture - would  
have sent it - before if I had  
understood - Am glad you

printed every time I do any  
thing small - I will write  
your note to you on Sunday  
day and you may look  
for it - Wednesday -  
Have fun - forgot my tent  
and see what I have said  
nothing about - going to  
the water - Hilbert - said  
we up Monday morning  
and said he was so  
outfully busy didn't see how  
he could come down here -  
day and for me to come  
up - So I went - and caught  
my class and both the  
elbow table can, will

come back tomorrow night.  
Have been to spend the  
night - at - Hilbert's and  
go over to Nat's for dinner  
but probably supper if  
I stay that long -  
Did you get the Haden and  
Dr. Keenan have both moved  
to Hamilton -  
I went to town yesterday  
and got the stuff and found  
you had - tried to get the  
Hilbert and could not find  
any I wanted so am going  
to try Hamilton - It will  
be like new if you don't  
look at - the living -

you remember Saturday  
was Elmer's birthday well  
quite early in the morn-  
ing Mrs. H. showed me  
to come over and see  
some flowers Elmer had  
sent her from German and  
He had sent an order  
to have them sent to her  
with his card and every-  
thing - she was tickled stiff -  
well, we are "having an  
eight" so I'll stop -

Best love  
Bge Gye

Mother

it" funny, they were all over  
here where? where the letters all  
came -

Sunday morning: On the  
Interurban - I am awfully  
sorry I didn't get your letter  
mailed sooner, was going to  
to send you word to wait  
was in my mind to wait  
the letter then, when of a  
sudden I thought - it is  
a holiday and I couldn't  
get the package regis-  
tered - then it slipped  
my mind there was a  
letter to mail, I am still  
feeling fine, but am be-  
ginning to get used to  
it - and not can -
