

The Incline is 4750 feet long from St. Elmo at its base to the summit of the mountain. It is the steepest cable incline in the world, reaching a 72.7 per cent grade at one point.

Sunday A.M.

POST CARD

Dear Garden:

Saw "Onto These Hills"

last night - wonderful performance. Drove hard to get here - got off road and drove 40 miles too far - to there + to back. Slept well but my nose is so stepped up I can't breathe. May try to find Lake Agnone when we eat a bite. It isn't far from here. These here hills are sumpin.

Have eggs - \$1.75. I lost my appetite
Love Cleo
