

completed. I give eighteen hours
per week to Chemistry for ten
weeks so that is ~~two~~ majors -
then the first half of the term,
I carried a double minor in
Education - you see. I finished
that when the first half
ended & that was one major
with the Chemistry that should
be three - & unfortunately we
could make. So after the
first half, Chemistry was all
I had when the Dean would
give me some advice. I talked
to him & after long consideration
he agreed to let me make
another major - instead of taking
Chemistry alone. But nothing &
we came to decide what it
should be, we couldn't find
anything that was offered that
Shadock had, except a minor

in High School methods
& the course in Story Telling.
I decided I had better not try
to take two minors for that
is more work to two minors
than to a major, for they are
two different courses - I was afraid
I might get worn out, & since
we live in that. So I am
making three & a half - will
have four majors to the grade
will take History & Bible by
conspicuousness - that is all -
will come back the following
year, make mine - possibly
then - stay for the following
summer & make three majors
& then I have my third all -
finishing the summer after
my class, but really graduating
with them. Now that is
what I am planning on doing,

If I could come next summer
I would not have to finish
in the summer, but could
really get my signed diploma
with my class. But you are
school doesn't close until the
15th & that would make me
almost two weeks late - but
maybe I am wrong. That
would be nice, wouldn't it?
Well, I guess I'll close now
& write some other letters -
Love to all,
Ruth.

Ready to track at the
Bath Annex school.

Mother dear, I am sorry
you didn't see through your
didn't understand all that my
work, for I think you really
did. You see the sophomore folks
so tend weeks & we are supposed
to make only three majors in
one term. For convenience to
those girls who desire to stay
only the first five weeks, the term
was divided. Now you can
make two majors the first half
resting twice a day in each
subject, or you can make three
during the entire term resting
only once a day. This number
I am making three & a half
majors, so do I already have
and extra minor subject to have
four majors of my junior grade

nearly supper time and
you supper, we had 'B. G. P. M.
Then we went to church.

Some of this morning too - was
my wife's spirit with the cups
believe what Mrs. Stewart
said. you, & my pretty hat. I
went by myself & came back by
myself & I visited for a bunch of
girls; but then, they said
they were going to the Methodist.
They didn't like it much because
I hadn't got with them - but
since that's the only one Sunday
in seven days, I think it should
be my privilege to go to my own

church. I went one time to the
Methodist, but I feel so funny.
For nights, I saw my graduation
dress with my new slip - I really
do like it; the hat is so pretty.
Someone said it looked like
baby clothes - it is in it
mother - - I'll be so glad
when I can be baptized some -
& I can sit in your lap & have
you put me - - won't you?

I went to town yesterday -
Grace & I - to mail packages
Landy & to send the packages
to you. We bought some cables
to - gettin' & got a limeade in
town - - and really did blow.
That reminds me, I got the
money - surely before I went
hard to breathe it even - I
like to buy a bill a long
time. I was thinkin' that
more Sunday & then I'll be home

to stay -- sometimes I'll get so
lonesome for the girls - but mother
you mustn't think I'm funny
when I do - cause you know
there are no girls at home who
can take the place of the girls
up here. But I shall try to
keep so busy I won't have
time to miss them. I'm
going to be a real young
lady & try & see if I can't keep
the social life of the young
ladies in the church. If any
body says anything about my
being a little girl or something
believe I'll hit em - I am
a young lady from now on!!
to everybody!!! The sooner they
learn of the latter,

has my certificate
come? I wish Mr. Hopkins
would see the certificate & then
assign me my place - I am

Dearest Mother,

This is Sunday night
after church, and as I haven't
had time to write to you
before, I am going to hit up
a few lines. I can't miss the
sleep, for I had a wonderful
nap this afternoon - slept a
long time. At five o'clock
to the Chapel, for Mrs. Townsend
is instructing the girls in
The Baptist Society Five Million
Campaign - I'll be there until
I see we stayed there until
