February 24, 1956

Dear John,

You say I didn't sign my letter, well I'm not surprised. I wrote Mimi right after I wrote you and I signed her name and addressed her letter to Oslo, Texas. It came back Wednesday.

I found the News Brief on you and this is what it says. John Gordon Wilkerson, a junior Baylor University student from Lubbock, was recently initiated into the Baylor Chamber of Commerce, the oldest men's service organization on the campus. The son of Mr. and Mrs. J. G. Wilkerson, 605 38th St., he is a 1953 graduate of Lubbock High School. A business administration student, he is a member of Sigma Delta Chi, national honorary journalism fraternity, and is one ( I guess they mean on) the executive committee in the School of Business.

Did you ruin your watch or can it be easily fixed? I sent you today's paper this afternoon. I had to get out in all of that awful sand and wind. Maybe it won't blow a lot tomorrow. At least I hope it doesn't.

At last I have just about caught up with all of my letter writing. I don't like to get behind.

Daddy is fixing to go to work and if I want to get this letter mailed and the typewriter back down at the plant I had better finish now. Write soon.

Love,

*Mary*
