Your Daughter Yours

kind letter received several day  
since but various causes, I've  
failed to reply though I desired to do  
from the time of its arrival up to  
the present time, Was glad to hear  
of Wilber's arrival now you, ll  
not feel so lonely besides he I hope  
will be a great help & comfort & his  
business qualifications will be a stimu-  
lous to little Nat dear boy I want him  
to propose himself to take his fathers  
place if his mind leads that way,

You did <sup>and</sup> write how little Pritha  
was sitting on in sowing lessons &c

I hope her health is good & she  
is growing & learning not only her  
books but how to keep house like  
all little ladies should, besides  
if it is the will of the good Lord I  
hope You & the Children can come  
to see us in the near future; I would  
have been to see You all but could  
not command the means having  
failed in crops so often & am get  
hard pressed I hope to get out of debt  
by spring if possible though I'll have  
to make some sacrifice am too old  
to be in debt any more than I go without  
from this out. This leaves all well  
tell Wilbur & Nat to write & I'll <sup>be</sup> get Stella  
to write for me my hearing is very bad &  
eyesight failing fast write soon Yours
