

CAMP  
SEQUOYAH

WEAVERVILLE, NORTH CAROLINA

July 31, 1952 12:30 in the morning

Dear Pop,

How are you doing? I guess you are working a lot harder than you ought, as you always do. We are now in New York. Got here last night and the rest of them went on a sight seeing tour today. Tonight we went to see a TV and Radio show. Wanted to see the Amature Hour, but couldn't get tickets any way I tried. I think that we will spend most of the day here tomorrow and maybe the next morning, I don't know yet. Tomorrow we are going to call on the fish guys and see the Statue of Liberty, Rockefeller Center, The Empire State, and anything else they want to see. If we get through in time, I think that we will leave here by tomorrow evening about 4:00. Mother is getting pretty run down and we are all pretty tired. I am getting ready to come home, but am doing what they want to do and will continue to do so. I am afraid that the prospects of buying a new car at much of a discount aren't very good. I am going to check good, but I haven't had any encouraging news or information to date. I am planning to get us home on the 8th. at latest and before then, if they get enough sight seeing and if they want to come before then.

I don't know anything about the deal with Gladys and Clyde, but they should be moved by the 8th at least I would think. I don't guess it would make too awful much difference, but we are going y to be there by the 8th. according to present plans.

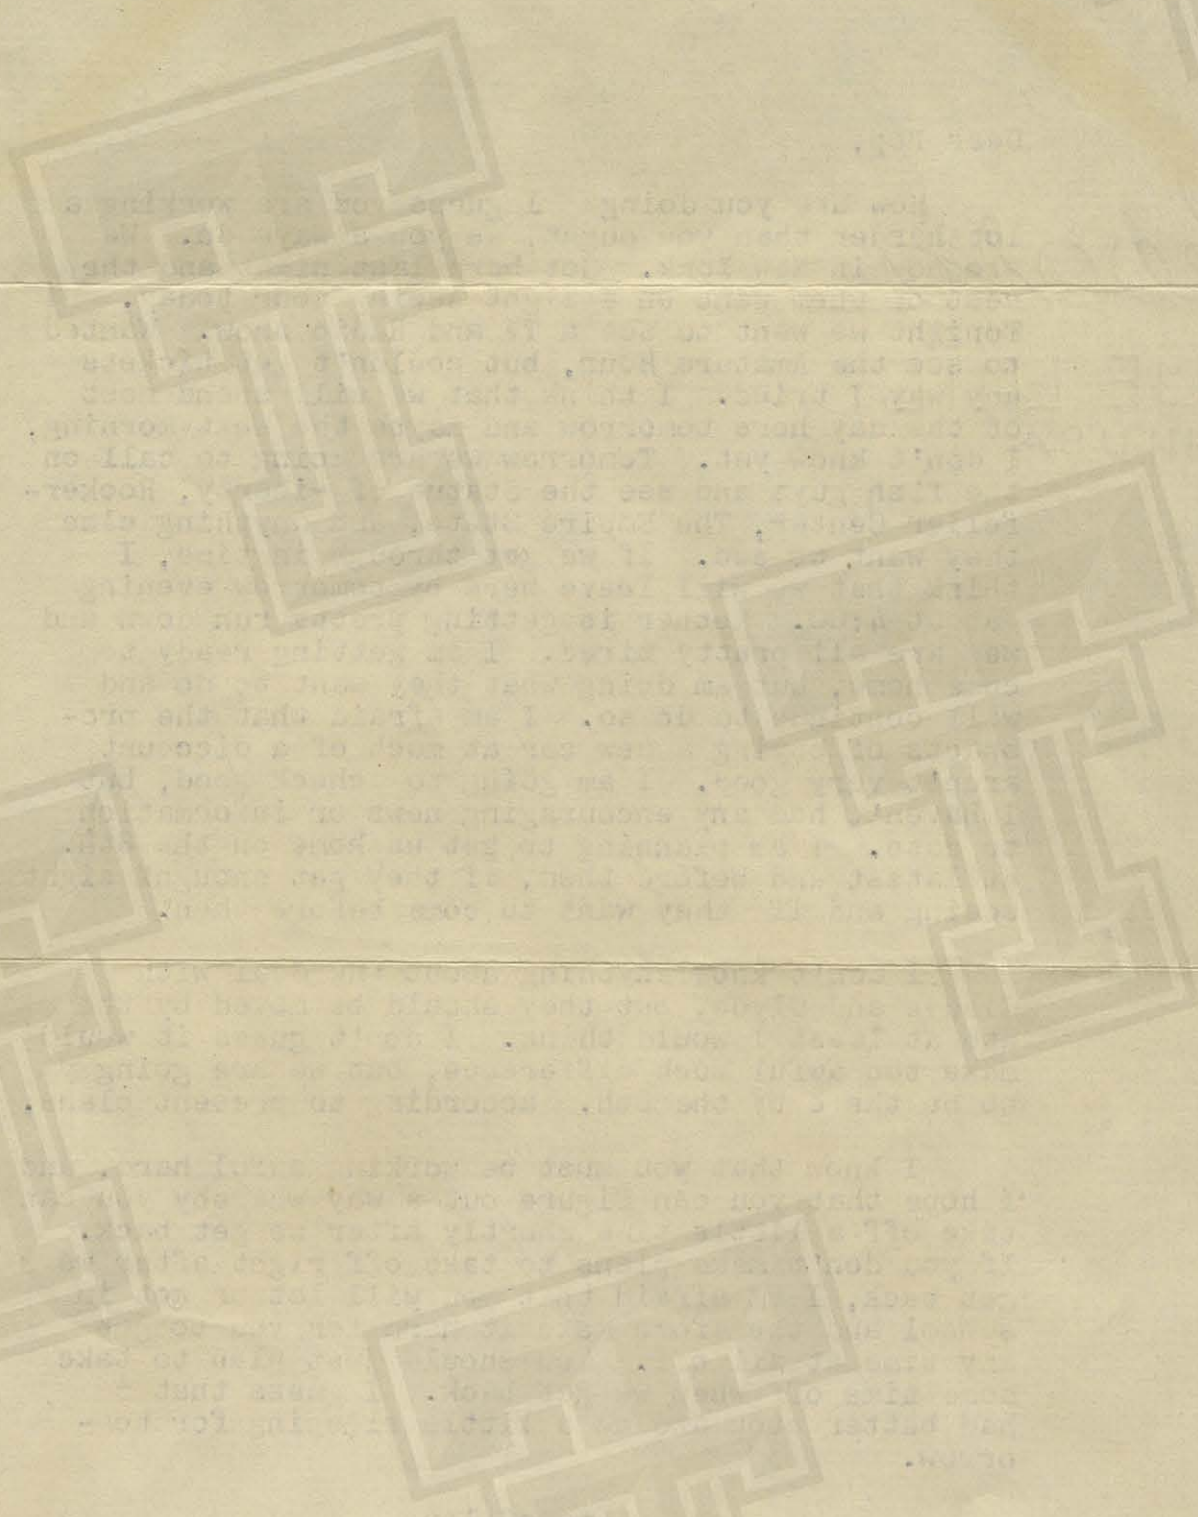

I know that you must be working awful hard, and I hope that you can figure out a way whereby you can take off a little time shortly after we get back. If you don't make plans to take off right after we get back, I am afraid that you will let us get in school and therefore make it hard for you to get any time at all off. You should just plan to take some time off when we get back. I guess that I had better stop and do a little sleeping for tomorrow.

Lots of love

John OVER

If a song book comes for me C.O.P. for \$1.75 or  
a little more, pay for it.
